(c) COMPETITIVE GRANTS; REGULATIONS.—The university research laboratory modernization program established pursuant to subsection (b) shall be carried out through projects which involve the replacement or modernization of specific research facilities at universities and colleges. Funds shall be awarded in response to specific proposals submitted by such universities and colleges, in accordance with regulations prescribed by the Secretary of Education to carry out the purpose of this part. Funds to carry out the program shall be awarded on a competitive basis. The funds so awarded to any university or college shall be in an amount not exceeding 50 percent of the cost of the replacement or modernization involved (with the funds required to meet the remainder of such cost being provided by the institution involved or from other non-Federal public or private sources).

(d) CRITERIA FOR AWARD.—Criteria for the award of funds to any institution for a project under a university research laboratory modernization program shall include—

(1) the quality of the research and training to be carried out in the facility or facilities involved;

(2) the congruence of the institution's research activities with the future research needs of the agencies referred to in subsection (f); and

(3) the contribution which the project will make toward meeting national, regional, and State research and related training needs.

(e) EQUALIZATION OF FEDERAL FUNDS.—At least 15 percent of the amount available under this section in any fiscal year shall be available only for awards to universities and colleges that received less than $10,000,000 in total Federal obligations for research and development (including obligations for the university research laboratory modernization program) in each of the two preceding fiscal years.

(f) CONSULTATION.—In prescribing regulations and conducting the program under this section, the Secretary of Education shall consult with—

(1) the National Science Foundation;

(2) the Department of Health and Human Services;

(3) the Department of Defense;

(4) the Department of Energy;

(5) the National Aeronautics and Space Administration; and

(6) the Department of Agriculture.

SEC. 538. GRADUATE WORK-STUDY GRANTS IN AREAS OF NATIONAL NEED.

Part C of title IV of the Higher Education Act of 1965 is amended by adding at the end thereof the following new section:

"GRADUATE WORK-STUDY IN AREAS OF NATIONAL NEED

"SEC. 449. (a) From the amounts available pursuant to section 511 of the Education and Training for American Competitiveness Act to carry out this section in any fiscal year, the Secretary shall make grants to institutions of higher education participating in the program conducted under this part which offer courses of study leading to a graduate degree for the purpose of supporting work-study in areas of national need, as determined by the Secretary under subsection (e) of this section. Such grants shall be awarded competitively on the basis of applications containing (or accompanied by) such information and assurances as the Secretary may require by regulation.

"(b) For purposes of subsection (a), the term 'work-study in areas of national need' includes part-time work in an area of national need (such as mathematics, biology, physics, chemistry, engineering, computer technology, science, and foreign languages) combined with full-time, half-time, or less-than-half-time study leading to a graduate degree in a related field at the participating institution of higher education.

"(c)(1) The Secretary shall review the established areas of national need at least once evey five years, but not more than every three years. If the Secretary determines that redesignation of areas of need is warranted, the Secretary shall consult with the agencies and organizations specified in subsection (e) of this section. Notwithstanding any such redesignation, students participating in the work-study program established under this section at such time may continue to be eligible for participation for one academic year beyond such redesignation (if the area of study involved is determined no longer one of national need).

"(2) The Secretary shall report to the appropriate Committees of Congress within five years of enactment of this section recommended changes to the program under this section, including the feasibility of expanding the proportion of work-study participation in the private sector, and removing the graduate study restriction.

"(d) Work-study programs conducted with funds provided under this section shall be subject to the same terms and conditions as are work-study programs conducted with funds provided under section 441.

"(e) After consultation with the National Science Foundation, the National Academy of Sciences, the National Endowment for the Arts and the Humanities, and other appropriate Federal and nonprofit agencies and organizations, the Secretary shall designate areas of national need, such as mathematics, biology, physics, chemistry, engineering, computer science, and foreign languages and area studies. In making such designations, the Secretary shall take into account the extent to which the interest is compelling and the extent to which other Federal programs support post-baccalaureate study in the area.".

Page 340, line 3, redesignate section 541 as section 540 and after line 25, insert the following new chapter:

CHAPTER 4—GIFTED AND TALENTED CHILDREN AND YOUTH

SEC. 541. SHORT TITLE.

This chapter may be cited as the "Gifted and Talented Children and Youth Education Act of 1986".

SEC. 542. STATEMENT OF PURPOSE.

It is the purpose of this chapter to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration

projects, personnel training, and similar activities designed to build a nationwide capability in our elementary and secondary schools to identify and meet the special educational needs of gifted and talented children and youth. It is also the purpose of this chapter to supplement and make more effective the expenditure of State and local funds, and of Federal funds expended under chapter 2 of the Education Consolidation and Improvement Act of 1981 and the Education for Economic Security Act of 1984, for the education of gifted and talented children and youth.

SEC. 543. DEFINITIONS.

(a) DEFINITIONS.—For the purposes of this chapter the following terms have the following meanings:

(1) The term "gifted and talented children and youth" means children and youth who give evidence of high performance capability in areas such as intellectual, creative, artistic, or leadership capacity, or in specific academic fields (including areas of national need), and who require services or activities not ordinarily provided by the school in order to fully develop such capabilities.

(2) The term "Secretary" means the Secretary of Education.

(3) The term "institution of higher education" has the same meaning given such term in section 435(b) of the Higher Education Act of 1965.

(b) DEFINITION BY REFERENCE.—Any term used in this chapter and not defined in subsection (a) shall have the same meaning as that term is given under chapter 1 of the Education Consolidation and Improvement Act of 1981.

SEC. 544. AUTHORIZED PROGRAMS.

(a) ESTABLISHMENT OF PROGRAM.—From the sums available under section 511 to carry out this chapter in any fiscal year, the Secretary (after consultation with the advisory committee established pursuant to section 547) shall make grants to or contracts with State educational agencies, local educational agencies, institutions of higher education, or other public and private agencies and organizations to assist them in carrying out programs or projects authorized by this section that are designed to meet the educational needs of gifted and talented children and youth, including the training of personnel in the education of gifted and talented children and youth or in supervising such personnel.

(b) USES OF FUNDS.—Programs and projects funded under this section may include—

(1) preservice and inservice training (including fellowships) for personnel (including leadership personnel) involved in the education of gifted and talented children and youth;

(2) establishment and operation of model projects and exemplary programs for the identification and education of gifted and talented children and youth, including summer programs and cooperative programs involving business, industry, and education;

(3) strengthening the capability of State educational agencies and institutions of higher education to provide leadership and assistance to local educational agencies and nonprofit private schools in the planning, operation, and improvement of programs for the identification and education of gifted and talented children and youth;

(4) programs of technical assistance and information dissemination; and

(5) carrying out through the National Center for Research and Development in the Education of Gifted and Talented Children and Youth established pursuant to subsection (c)—

(A) research on methods and techniques for identifying and teaching gifted and talented children and youth, and

(B) program evaluations, surveys, and the collection, analysis, and development of information needed to accomplish the purposes of this Act.

(c) ESTABLISHMENT OF NATIONAL CENTER.—The Secretary shall establish a National Center for Research and Development in the Education of Gifted and Talented Children and Youth through grants to or contracts with one or more institutions of higher education or State education agencies, or a combination or consortium of such institutions and agencies, for the purpose of carrying out clause (5) of subsection (b). Such National Center shall have a Director. The Director shall consult with the advisory committee appointed by the Secretary pursuant to section 547 with respect to the agenda of the National Center. The Secretary may authorize the Director to carry out such functions of the National Center as may be agreed upon through arrangements with other institutions of higher education, State or local educational agencies, or other public or private agencies and organizations.

(d) LIMITATION.—Not more than 30 percent of the funds available in any fiscal year to carry out the programs and projects authorized by this section may be used for the conduct of activities pursuant to subsections (b)(5) or (c).

SEC. 545. PROGRAM PRIORITIES.

In the administration of this chapter, the Secretary (and the advisory committee established pursuant to section 547) shall give highest priority—

(1) to the identification of gifted and talented children and youth who may be identified through traditional assessment methods (such as the limited-English speaking, economically disadvantaged, handicapped, and women) and to education programs designed to include gifted and talented children and youth from such groups; and

(2) to programs and projects designed to develop or improve the capability of schools in an entire State or region of the Nation through cooperative efforts and participation of State and local educational agencies, institutions of higher education, and other public and private agencies and organizations (including business, industry, and labor), to plan, conduct, and improve programs for the identification and education of gifted and talented children and youth.

SEC. 546. PARTICIPATION OF PRIVATE SCHOOL CHILDREN AND TEACHERS.

In making grants and contracts under this chapter, the Secretary shall ensure, where appropriate, that provision is made for the equitable participation of children and teachers in private nonprofit elementary and secondary schools, including the participation of teachers and other personnel serving such children in preservice and inservice training programs.

SEC. 547. SECRETARY'S ADVISORY COMMITTEE.

(a) APPOINTMENT AND MEMBERSHIP.—The Secretary shall appoint a committee composed of at least five persons who are not Federal employees to advise on the administration of this chapter, including the content of regulations governing the administration of this chapter. The committee shall have as members at least one person who is a director of programs for gifted and talented children and youth in a State educational agency, one person who has substantial responsibility in an institution of higher education for preparing teachers of such children and youth, one person who is nationally recognized as an authority on research in the field of special education of such children and youth, one person who is currently engaged as a teacher in a special program for such children and youth, and one person who is a parent of a child currently enrolled in an elementary or secondary school program for such children and youth.

(b) DUTIES.—The Secretary shall meet with the advisory committee at least twice during each fiscal year for which funds are made to carry out this chapter, and shall seek the advice and counsel of the committee with respect to—

(1) identification of the most urgent needs for strengthening the capability of elementary and secondary schools nationwide to plan and operate effective programs for the identification and education of gifted and talented children and youth, and for addressing the program priorities set forth in section 135;

(2) the kinds of programs and projects authorized by this Act that are best calculated to help meet the needs identified by the Secretary and the committee pursuant to clause (1);

(3) the assessment of the effectiveness of programs and projects funded under this chapter, and of progress under this chapter in expanding and improving educational opportunities and programs for gifted and talented children and youth; and

(4) such other matters relating to the administration of this chapter as the Secretary may find useful.

SEC. 548. ADMINISTRATION.

The Secretary shall establish or designate an administrative unit within the Department of Education to administer the programs authorized by this chapter, to coordinate all programs for gifted and talented children and youth administered by the Department, and to serve as a focal point of national leadership and information on the educational needs of gifted and talented children and youth and the availability of educational services and programs designed to meet those needs. The administrative unit established or designated pursuant to this section shall be headed by a person of recognized professional qualifications and experience in the field of the education of gifted and talented children and youth.

SEC. 549. TRUST FUND.

(a) ESTABLISHMENT.—There is hereby established in the Treasury of the United States a trust fund to be known as the Education and Training for American Competitiveness Trust Fund (hereinafter referred to as the "trust fund"), consisting of such amounts as may be credited to the Trust Fund as provided in this section.

(b) TRANSFERS TO FUND; MANAGEMENT.—(1) The Secretary of the Treasury shall transfer, at least monthly, to the trust fund out of the general fund of the Treasury of the United States amounts determined by the Secretary of the Treasury to be equivalent to the amounts received into the general fund that are attributable to the import surcharge imposed by section 550.

(2)(A) The Secretary shall invest such portion of the Trust Fund as is not, in his judgment, required to meet current expenditures. Such investments may be made only in interest-bearing obligations of the United States. For such purpose, such obligations may be acquired—

(i) an original issue at the issue price, or

(ii) by purchase of outstanding obligations at the market price.

(B) Any obligation acquired by the Trust Fund may be sold by the Secretary of the Treasury at the market price.

(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Trust Fund shall be credited to and form a part of the Trust Fund.

(c) EXPENDITURES FROM FUND.—(1) Amounts in the Trust Fund shall be available in accordance with section 551.

SEC. 550. IMPORT SURCHARGE.

(a) IN GENERAL.—Expect as provided in subsection (b), there is imposed on the entry, or withdrawal from warehouse for consumption, in the customs territory of the United States of each article an import surcharge which is equal to the lesser of—

(1) 0.3 percent ad valorem, or

(2) a percentage that is sufficient to provide funding necessary to carry out the provisions of this Title.

(b) EXCEPTION.—Subsection (a) does not apply to any article that is, without regard to this section, duty-free.

(c) TREATMENT OF IMPORT SURCHARGES.—An import surcharge imposed under subsection (a)—

(1) shall be treated as a regular customs duty for the purposes of the administration of the customs laws; and

(2) is in addition to any other duty imposed under law on an article.

(d) EFFECTIVE PERIOD.—This section shall apply with respect to articles entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

SEC. 551. ALLOCATION OF PROCEEDS.

(a) ALLOCATIONS.—From the amount deposited in the Trust Fund as of October 1, 1987, and as of October 1 of each succeeding fiscal year, the Secretary of the Treasury shall make available such sums as may be appropriated for the programs in Title V of this Act.

(b) RATABLE REDUCTIONS.—If the amount deposited in the Trust Fund as of October 1 of any fiscal year is not sufficient to make available all the appropriated amounts for the programs established by Title V of this Act, then each of such amounts shall be ratably reduced.

By Mr. ROTH:

—In title III, strike subtitle B and insert the following:

Subtitle B—Export Controls

SEC. 321. NATIONAL SECURITY CONTROLS.

(a) MULTIPLE LICENSE AUTHORITY.—Section 4(a)(2)(A) of the Export Administration Act of 1979 (50 U.S.C. App. 2403(a)(2)(A)) is amended in the first sentence by inserting "(except the People's Republic of China)" after "controlled countries".

(b) EXPORTS OF LOW TECHNOLOGY ITEMS.—Section 5(b)(2) of such Act (50 U.S.C. App. 2404(b)(2)) is amended to read as follows:

"(2) No authority or permission to export may be required under this section for the export to any country other than a controlled country of any goods or technology which is at such a level of performance characteristics that the export of the goods or technology, were it made pursuant to the agreement of the group known as the Coordinating Committee, would require only notification of participating governments of the Committee. The Secretary may require any person exporting any such goods or technology to a country other than a controlled country to notify the Department of Commerce of those exports.".

(c) LIST REVIEWS.—

(1) CONTROL LIST.—Section 5(c)(3) of such Act (50 U.S.C. App. 2404(c)(3)) is amended—

(A) in the first sentence—

(i) by striking "shall review" and inserting "shall conduct partial reviews of"; and

(ii) by striking "year" and inserting "calendar quarter";

(B) in the second sentence—

(i) by striking "annual" the first place it appears and inserting "quarterly"; and

(ii) by striking "annual" the second place it appears;

(C) in the third and fifth sentences by striking "such" and inserting "each"; and

(D) by adding at the end the following: "All goods and technology on the list shall be reviewed at least once each year.".

(2) LIST OF MILITARY CRITICAL TECHNOLOGIES.—Section 5(d)(5) of such Act (50 U.S.C. App. 2404(d)(5)) is amended in the first sentence by striking "at least annually" and inserting "on an ongoing basis".

(d) FOREIGN AVAILABILITY DETERMINATIONS.—Section 5(f)(3) of such Act (50 U.S.C. App. 2404(f)(3)) is amended by inserting after the second sentence the following:

"In a case in which an allegation is received from an export license applicant, the Secretary shall respond in writing to the applicant, and publish in the Federal Register, within 30 days after receipt of the allegation, that—

"(A) the foreign availability does exist and the requirement of a validated license has been removed or the applicable steps are being taken under paragraph (4);

"(B) the foreign availability may exist but further examination of the issue is necessary in order to make a determination; or

"(C) the foreign availability does not exist.

In the case in which subparagraph (B) applies, the Secretary shall, within 6 months after the initial response and publication, respond in writing to the applicant and publish in the Federal Register, that—

"(i) the foreign availability does exist and the requirement of a validated license has been removed or the applicable steps are being taken under paragraph (4); or

"(ii) the foreign availability does not exist.

In any case in which the application is not made within that 6-month period, the Secretary may not require a license for the export of the goods or technology with respect to which the foreign availability allegation was made.".

(e) AGREEMENTS ON EXPORT CONTROLS.—Section 5(k) of such Act (50 U.S.C. App. 2404(k)) is amended by adding at the end the following: "In any case in which such negotiations produce an agreement on export controls on any goods or technology which are comparable in practice to those export controls imposed under this section, and the Secretary of State determines, 1 year after the country involved has maintained such export controls, that such controls are comparable in practice to those imposed under this section, the Secretary may not, while that determination is effective, require a validated license for the export to that country of the goods or technology that are subject to the agreement.".

SEC. 322. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Section 18(b) of the Export Administration Act of 1979 (50 U.S.C. App. 2417(b)) is amended to read as follows:

"(b) AUTHORIZATION.—There are authorized to be appropriated to the Department of Commerce to carry out the purposes of this Act—

"(1) $35,935,000 for the fiscal year 1987, of which $12,746,000 shall be available only for enforcement, $2,000,000 shall be available only for foreign availability assessments under subsections (f) and (h)(6) of section 5, and $21,189,000 shall be available for all other activities under this Act;

"(2) $35,935,000 for the fiscal year 1988, of which $12,746,000 shall be available only for enforcement, $2,000,000 shall be available only for foreign availability assessments under subsections (f) and (h)(6) of section 5, and $21,189,000 shall be available for all other activities under this Act; and

"(3) such additional amounts for each of the fiscal years 1987 and 1988 as may be necessary for increases in salary, pay, retirement, other employee benefits authorized by law, and other nondiscretionary costs.".

(b) ENFORCEMENT ACTIVITIES OF THE CUSTOMS SERVICE.—Section 12(a)(6) of the Export Administration Act of 1979 (50 U.S.C. App. 2411(a)(6)) is amended by striking "$12,000,000 in the fiscal year 1985 and not more than $14,000,000 in the fiscal year 1986" and inserting "$14,000,000 in the fiscal year 1987 and not more than $14,000,000 in the fiscal year 1988".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986.

SEC. 323. GAO REPORT.

The Comptroller General of the United States shall conduct an evaluation of activities of the Department of Defense conducted pursuant to the Presidential Directive of January 4, 1985, regarding the review of export license applications, under the Export Administration Act of 1979, for the export of goods and technology to countries other than controlled countries. One purpose of the study is to determine if Department of Defense activities provide information about the diversion of United States technology from sources outside the United States to controlled countries that would not otherwise be available to other agencies with enforcement responsibilities under the Act. The study shall include a review of all Department of Defense activities in determining export control policy, making foreign availability determinations, and reviewing the control list, and the relationship between the Department of Defense and other agencies responsible for implementing the Export Administration Act of 1979. In conducting the study, the Comptroller General shall make a special effort to gather information from United States exporters, particularly those that have had applications for proposed exports to countries other than controlled countries reviewed by the Department of Defense. The Comptroller General shall submit a report on the evaluation to the Congress not later than 6 months after the date of the enactment of this Act. If necessary, the report may be submitted on a classified basis.

By Mr. SCHUMER:

—Page 299, after line 9, insert the following new chapter:

CHAPTER 8—ENSURING SUSTAINABLE DEBT BURDENS AND LONG-TERM EXPANSION OF WORLD TRADE

SEC. 448. FINDINGS.

The Congress finds the following:

(1) The debt crisis has become a long-term economic and political barrier to Third World development and this lack of development is, in turn, restraining world economic growth.

(2) The debt crisis is adversely affecting the entire United States economy, not just

the financial sector, as declining United States export opportunities are translated into significant numbers of lost jobs.

(3) Unsustainable debt service burdens have forced developing countries to take drastic steps to reduce imports and bolster exports in an attempt to generate foreign exchange surpluses for debt service repayment which has lead to the erection of barriers to United States trade with the Third World.

(4) These trade surpluses are often mandated by austerity programs required by the International Monetary Fund and agreed to after negotiations with international organizations and private creditors.

(5) Improvements in developing country trade balances have been achieved at the cost of the economic, political, and social well being of citizens of such countries; standards of living have plummeted, poverty and malnutrition have soared, and political discontent has risen.

(6) The Third World poverty and political instability bred by the debt crisis represent a serious external threat to the national security of the United States.

(7) Developing countries cannot purchase more imports with their limited foreign exchange as long as their debt service requirements remain unsustainably high. Thus, the United States trade deficit with the Third World cannot be rectified without first finding long-term solutions to the Third World debt crisis.

(8) More new lending, without any restructuring of the existing debt, will simply increase the unsustainable debt burden carried by Third World countries and therefore will not provide a lasting solution to either the debt crisis or its global ramifications.

(9) Debt relief for the Third World must be provided if the Third World is to grow and develop, if the United States trade deficit is to be reduced, and if United States export industries are to experience long-term, sustainable benefits.

(10) Therefore, for economic, political, and humanitarian reasons, it is in the United States' interest to propose a concrete plan for such debt relief.

SEC. 449. DEBT RELIEF REPORT.

(a) REPORT REQUIRED.—The Board of Governors of the Federal Reserve System, working in consultation with the Secretary of the Treasury, the International Bank for Reconstruction and Development, the United Nations Economic Commissions for Africa, Asia, and Latin America, the Committee on Banking, Finance and Urban Affairs of the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs of the Senate, shall prepare a report describing in detail an illustrative country-by-country plan to restructure the debt of developing countries in a manner that would reduce the annual debt service of each such country to a sustainable level while ensuring the overall stability of the United States financial sector.

(b) TOPICS TO BE INCLUDED.—The debt relief report prepared under subsection (a) shall include the following determinations and proposals:

(1) SUSTAINABLE LEVEL OF ANNUAL DEBT SERVICE.—

(A) IN GENERAL.—A determination of the amount of debt relief necessary to reduce annual debt service payments by each developing country included in the report to a sustainable level.

(B) ILLUSTRATIVE BASELINE.—To provide an illustrative baseline as an example, a determination of the amount of debt relief necessary so that annual interest payments by a developing country would not exceed an amount equal to 25 percent of the country's annual export earnings.

(C) RECOMMENDATION FOR DIFFERENT PERCENTAGE.—Any recommendation the Board of Governors of the Federal Reserve System may make regarding the use of a percentage which is either higher or a lower than the one referred to in subparagraph (B) with respect to a developing country if the Board—

(i) finds that such percentage of debt service is sustainable; and

(ii) includes an explanation of the reasons for the recommendation in the report.

(2) PERCENTAGE OF DEBT WHICH IS NONPERFORMING.—A determination of the percentage of the total debt to the Third World currently being carried by banks at face value which—

(A) is nonperforming or is backed by value-impaired or nonperforming assets; and

(B) the debtor countries are being forced to service as if such debt were performing.

(3) FAIR VALUE OF NONPERFORMING DEBT.—A determination of the fair value of debt described in paragraph (2)—

(A) as estimated through a survey of secondary debt market swap rates; or

(B) as calculated through in-depth country-specific analyses of the assets backing such debt and the cash flows produced from these assets.

(4) WRITE-OFF OF PORTION OF DEBT.—

(A) PROPOSAL REQUIRED.—A proposal for restructuring a portion of the debt described in paragraph (2) by reducing the face amount or maturity amount of such debt—

(i) to an amount which approximates the fair value of such debt as determined under paragraph (3); and

(ii) in a manner which is consistent with ensuring the overall stability of the United States financial sector.

(B) SPECIFIC RECOMMENDATIONS REQUIRED.—Specific recommendations of the Board on methods by which reductions could be achieved in the manner proposed in subparagraph (A) without threatening the stability of financial institutions, including—

(i) a recommendation concerning the extent to which financial institutions should be required to reduce the payment of dividends until such reductions have been accounted for; and

(ii) recommendations for regulatory or statutory relief (such as providing for multi-year amortization of such debt or the application of generally accepted accounting principles for troubled debt restructuring currently being applied to troubled farm and energy loans).

(5) MODIFICATION OF OTHER TERMS.—To the extent any action proposed under paragraph (4) is insufficient to reduce the annual debt service of a developing country to a sustainable level, a proposal for providing further debt relief through the conversion of short-term, high-interest bank debt into longer term debt by reducing interest rates on such debt (to below market levels, if necessary) and extending the repayment period for such debt.

(6) CARTEGENA CONSENSUS GROUP PROPOSALS.—Consideration of debt reform proposals currently being offered by the Cartegena Consensus Group as well as by developed countries other than the United States whose banks are also carrying troubled Third World debt.

(c) REPORT TO CONGRESS.—The Board of Governors of the Federal Reserve System shall prepare and transmit the report prepared under subsection (a) to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate before the end of the 3-month period beginning on the date of the enactment of this Act. The report shall include a section discussing the reform proposals referred to in subsection (b)(6) and their applicability to domestic financial institutions.

By Mr. WYLIE:

—On page 255, strike out line 16 and all that follows through the remainder of title IV and insert in lieu thereof the following (and conform the table of contents accordingly):

TITLE IV—BANKING COMMITTEE PROVISIONS

SEC. 401. EXCHANGE RATE STABILITY.

(a) FINDINGS.—The Congress finds that—

(1) the Economic Declaration of May 6, 1986, reaffirmed the support of the seven major industrialized countries for the improvement in the functioning of the world monetary and trading system;

(2) the policies adopted at earlier economic summits have helped to bring about world economic expansion, a reduction in the rate of inflation, and a shift in exchange rates which better reflect fundamental economic conditions;

(3) the implementation of new procedures, through the Group of Five and the Group of Seven Finance Ministers, for effective coordination of international economic policy should lead to smaller swings in exchange rates, the further opening of the international trading system, and the promotion of noninflationary growth;

(4) the Reagan administration has taken significant policy actions to stabilize exchange rate fluctuations and, in conjunction with the Board of Governors of the Federal Reserve System and other central banks, has succeeded in bringing down the value of the dollar in successive stages, thereby improving the competitiveness of United States exporters;

(5) the drop in oil prices has dampened a possible inflationary impulse from the falling dollar and less expensive oil with a lower dollar will mean a large improvement of the United States current account balance in the coming months;

(6) leading experts are unable to agree on what constitutes an appropriate and sustainable level for the dollar in relation to the other key countries of the world; and

(7) global leaders are divided on the need to implement a formal and highly structured exchange rate system, such as a target zone approach, but are united in their determination to better manage the system of floating rates through a policy of enhanced economic cooperation and surveillance.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Reagan administration has substantially reduced the value of the dollar and is successfully coordinating its economic policies to the maximum degree possible with our major trading partners;

(2) the Reagan administration should continue the progress achieved in the recent Tokyo Economic Summit and in the Group of Five initiative last year to promote long-term exchange rate stability and sustain noninflationary economic growth; and

(3) any congressional action on the exchange rate issue at this time is unneeded and potentially harmful in that it might further weaken the dollar and stimulate inflation.

SEC. 402. DEBT RESOLUTION.

(a) FINDINGS.—The Congress finds that—

(1) the Reagan administration, under the leadership of Secretary of the Treasury James A. Baker, has put in place a comprehensive debt strategy in coordination with other industrialized countries, the International Monetary Fund, and the World Bank;

(2) The Tokyo Economic Declaration of May 6, 1986 reaffirms the importance of the so-called "Baker Plan" which, under a framework of structural and policy reforms aimed at economic growth, would provide additional public and private resources for the largest debtor nations;

(3) this initiative reinforces, and in no way replaces, the continued need for a case-by-case approach to the international debt problem;

(4) the administration's debt strategy will over time increase United States exports to those developing countries which have been most affected by the debt crisis;

(5) the leading industrialized countries should maintain and, where appropriate, expand bilateral and multilateral financial flows to developing countries and in return, recipient countries must continue to carry out structural adjustment policies coupled with international capital repatriation and domestic capital mobilization measures;

(6) there is an immediate need to improve the climate for foreign direct investment in developing countries and to promote more open trading policies;

(7) all multilateral development bank lending should continue to be measured against stringent economic performance criteria; and

(8) there is a need for closer cooperation between the World Bank and the International Monetary Fund, for increased commercial bank lending, and for flexibility in rescheduling debts.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) the Reagan administration should continue to have the maximum amount of discretion and flexibility in implementing its cooperative debt strategy and

(2) the objectives of such a strategy should continue to emphasize the need for adjustment policies and sound economic planning in developing countries to promote sustained, noninflationary economic growth.

SEC. 403. COMPETITIVE TIED AID FUND.

The Export-Import Bank Act of 1945 (12 U.S.C. 635 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 15. COMPETITIVE TIED AID FUND.

"(a) FINDINGS.—The Congress hereby finds that—

"(1) tied and partially untied aid credits offered by other countries are being used in a predacious manner to distort competitive markets and undercut American exporters;

"(2) the predacious use of tied and partially untied aid credits undermines export credit discipline under the Arrangement of Guidelines for Officially Supported Export Credits established through the Organization for Economic Cooperation and Development; and

"(3) the establishment of a temporary Competitive Tied Aid Fund in the Treasury of the United States to target the export markets of countries which exploit or abuse tied or partially untied aid credits for commercial purposes and which impede progress in negotiating greater discipline over the use of such credits will facilitate negotiations to eliminate the use of such credits for commercial purposes and will thereby help protect American exporters from unfair and predacious official export competition.

"(b) COMPETITIVE TIED AID FUND.—

"(1) ESTABLISHMENT BY SECRETARY OF THE TREASURY.—In order to provide a means for inducing other countries to pursue negotiations on a comprehensive arrangement to restrict the use of tied aid and partially untied aid credits for commercial purposes, the Secretary of the Treasury shall establish a fund in the Treasury of the United States to be known as the 'Competitive Tied Aid Fund', consisting of such amounts as may be appropriated to the Fund.

"(2) EXPENDITURES FROM FUND.—Amounts in the Fund may be used to supplement the financing of United States exports to foreign markets which are actual or potential export markets for any country which—

"(A) engages in predacious official export financing through the use of tied or partially untied aid credits; and

"(B) impedes negotiations to eliminate the use of such credits for commercial purposes.

"(3) ADDITIONAL REQUIREMENTS.—In carrying out this section, the Secretary—

"(A) should avoid using the total amount in the Fund to provide financing for only 1 or 2 export projects;

"(B) should seek to use amounts in the Fund to make financing available only for United States exports that would be reasonably competitive in the absence of the predatory export financing practices of the other country; and

"(C) shall ensure that amounts in the Fund are used only to assist exportation by persons described in paragraph (1), (2), or (3) of section 238(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2198(c)).

"(4) CONSULTATION WITH ADVISORY COUNCIL.—The Secretary shall consult with the National Advisory Council on International Monetary and Financial Policies in—

"(A) determining the foreign countries which offer predacious tied or partially untied aid credits and which impede negotiations to restrict their use to legitimate foreign aid; and

"(B) reviewing proposed transactions under this section.

"(5) POLICY AND PROCEDURE GUIDELINES.—The Secretary shall establish policy and procedure guidelines for the development and implentation of the Fund. In establishing such guidelines, the Secretary shall—

"(A) devise a method for determining the number of American jobs which will be created or retained through assistance from the Fund, and give such factor consideration in making assistance available; and

"(B) describe the method of publicizing the availability of assistance from the Fund, and the terms and conditions under which such assistance is available to both large and small exporters.

"(c) DEFINITIONS.—For purposes of this section—

"(1) TIED AID AND PARTIALLY UNTIED AID CREDIT.—The term 'tied aid credit' and 'partially untied aid credit' mean any official credit which has a grant element greater than zero percent, as determined by the Development Assistance Committee of the Organization for Economic Cooperation and Development, and which is, in fact or in effect, tied to—

"(A) the procurement of goods or services from the donor country, in the case of tied aid credit; or

"(B) the procurement of goods or services from a restricted number of countries, in the case of partially untied aid credit.

"(2) SECRETARY.—The term 'Secretary' means the Secretary of the Treasury.

"(3) FUND.—The term 'Fund' means the Competitive Tied Aid Fund established pursuant to subsection (b)(1).

"(d) REPORT TO CONGRESS.—The Secretary shall transmit to the Congress, on a quarterly basis, a report setting forth the activities carried out under this section. Each such report shall include—

"(1) information on applications used by the Secretary for making assistance available under subsection (b)(2);

"(2) information on the disposition of such applications;

"(3) an identification of the foreign governments whose behavior the Secretary is trying to influence by the use of such assistance, and an explanation of why the assistance involved is deemed likely to influence that behavior;

"(4) evidence that clearly demonstrates that assistance under subsection (b)(2) has been used for the purposes of this section;

"(5) information on any progress that has been made in negotiations on agreements within the Organization for Economic Cooperation and Development to limit the use of tied aid credits and partially united aid credits;

"(6) information on the extent to which tied aid credits and partially untied aid credits are being used at the time of such report by major trading countries within such Organization, the terms of such any credits, and the market sectors with respect to which such credits are being used; and

"(7) information on the extent to which assistance under this section has been effective—

"(A) in discouraging the use of tied aid credits and partially untied aid credits for commercial purposes by other countries; and

"(B) in helping to protect United States exporters from unfair and predacious official export competition.

"(e) AUTHORIZATION OF APPROPRIATIONS.—

"(1) IN GENERAL.—There is hereby authorized to be appropriated to the Fund for the fiscal year beginning on October 1, 1986, $300,000,000. Except as provided in paragraph (2), such sums shall remain available until expended.

"(2) RESCISSION AUTHORITY.—

"(A) DETERMINATION BY PRESIDENT.—If the President determines that any amount appropriated to the Fund is not required to achieve the purpose of the Fund, the President shall transmit a special message of such determination to the Congress in the manner provided in section 1012(a) of the Impoundment Control Act of 1974.

"(B) SPECIAL MESSAGE.—Any message under this paragraph shall be treated as a special message under such section for purposes of such Act.

"(f) EXPORT-IMPORT BANK.—

"(1) IMMEDIATE IMPLEMENTATION.—Until such time as the funds authorized to be appropriated under subsection (e) become available for expenditure, the Bank shall make aggressive use of the Bank's authority to offer tied aid credits, in accordance with any recommendation of the Secretary of the Treasury as to how such credits could most effectively and efficiently promote the purposes of this section.

"(2) SUBSEQUENT REIMBURSEMENT.—The Bank shall be reimbursed for the cost of any tied aid credits the Bank authorizes pursuant to this subsection from the appropriated funds authorized by this section, when such funds become available.".

SEC. 404. LOAN GUARANTEES TO PROMOTE EXPORTS FROM SMALL, MEDIUM-SIZED, AND MINORITY BUSINESSES OR AGRICULTURAL CONCERNS.

(a) SHARE OF LOAN GUARANTEES.—Section 206 of the Export Trading Company Act of 1982 (12 U.S.C. 635a-4) is amended by striking out "major share" in the next to the last sentence and inserting in lieu thereof "significant share".

(b) REPORT.—Not later than one year after the effective date of this section, the Board of Directors of the Export-Import Bank shall report to the Congress on the implementation of the amendment made by subsection (a).

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the first day of the first fiscal year beginning after the date of the enactment of this Act.

SEC. 405. ENHANCED PROCUREMENT OPPORTUNITIES AT THE MULTILATERAL DEVELOPMENT BANKS.

(a) PROJECTS IN RECIPIENT COUNTRIES.—The United States Executive Director of each of the multilateral development banks shall promote procurement opportunities relating to the assistance provided by such banks in recipient countries for United States firms. In promoting procurement opportunities, each such Executive Director shall—

(1) keep United States firms fully informed of bidding opportunities in recipient countries and publicize such opportunities to the greatest extent possible;

(2) assist United States firms in focusing on those projects in which they have a particular interest or competitive advantage;

(3) when appropriate and required, assist United States firms in completing and submitting accurate and timely bidding documents;

(4) thoroughly investigate complaints regarding the awarding of contracts; and

(5) ensure that contract procedures and rules are strictly observed.

(b) ASSIGNMENT OF FOREIGN COMMERCIAL SERVICE OFFICERS.—

(1) WORLD BANK.—The Secretary of Commerce should continue to assign one foreign commercial service officer to the office of the United States Executive Director of the International Bank for Reconstruction and Development.

(2) OTHER MULTILATERAL DEVELOPMENT BANKS.—The Secretary of Commerce shall assign on a part-time basis—

(A) one foreign commercial service officer to the office of the United States Executive Director of the Inter-American Development Bank;

(B) one foreign commercial service officer to the office of the United States Executive Director of the Asian Development Bank; and

(C) one foreign commercial service officer to the office of the United States Executive Director of the African Development Bank.

(3) DUTIES.—Each foreign commercial service officer assigned under this subsection shall assist the Executive Director in the performance of the duties described in subsection (a).

SEC. 406. MULTILATERAL DEVELOPMENT BANK POLICIES TO PROMOTE FAIR TRADE AND INVESTMENT.

(a) FINANCIAL ASSISTANCE POLICIES TO PROMOTE FAIR TRADE AND INVESTMENT PRACTICES.—

(1) INSTRUCTIONS TO EXECUTIVE DIRECTORS.—The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development and the regional development banks to initiate a wide consultation with the presidents of their respective institutions with regard to the development of financial assistance policies which, to the maximum feasible extent—

(A) reduce obstacles to and restrictions on international trade and investment in goods and services;

(B) eliminate unfair trade and investment practices; and

(C) promote mutually advantageous economic relations.

(2) COORDINATION WITH TRADE POLICY COMMITTEE.—The Secretary of the Treasury shall work closely in this effort with the Trade Policy Committee.

(3) COORDINATION WITH GATT.—As part of this effort, the Secretary of the Treasury shall also instruct the United States Executive Director of the International Bank for Reconstruction and Development to encourage close cooperation between the staff of the Bank and the Secretariat of the Contracting Parties to the General Agreement on Tariffs and Trade (GATT).

(b) FAIR TRADE AND INVESTMENT PRACTICE PROVISIONS IN COUNTRY LOAN AGREEMENTS.—

(1) INSTRUCTIONS TO WORLD BANK EXECUTIVE DIRECTOR.—The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development to work to have the Bank obtain, prior to the extension to any country of loans by the Bank, the agreement of such country to eliminate (in a manner consistent with such country's balance of payments adjustment program) unfair trade and investment practices with respect to goods and services which the United States Trade Representative, after consultation with the Trade Policy Committee, has determined have a significant deleterious effect on the international trading system.

(2) UNFAIR TRADE AND INVESTMENT PRACTICES DEFINED.—Unfair trade and investment practices include—

(A) the provision of predatory export subsidies, employed in connection with the exporting of agricultural commodities and products thereof to foreign countries;

(B) the provision of other export subsidies, such as government subsidized below-market interest rate financing for commodities or manufactured goods;

(C) unreasonable import restrictions;

(D) the imposition of trade-related performance requirements on foreign investment; and

(E) practices which are inconsistent with international agreements.

(c) DIRECTIONS TO UNITED STATES EXECUTIVE DIRECTORS OF MULTILATERAL DEVELOPMENT BANKS.—The Secretary of the Treasury shall instruct the United States Executive Directors of the multilateral development banks to ensure that project loans by the respective multilateral development banks for commodities, materials, or products do not contribute to a surplus in world markets in which—

(1) the prices of such commodities, materials, or products are low or are falling; and

(2) the commodities, materials, or products could cause material injury to United States producers of the same, similar, or competing commodities, materials, or products.

REGULATION OF LOBBYING ACT

In compliance with Public Law 601, 79th Congress, title III, Regulation of Lobbying Act, section 308(b), which provides as follows:

(b) All information required to be filed under the provisions of this section with the Clerk of the House of Representatives and the Secretary of the Senate shall be compiled by said Clerk and Secretary, acting jointly, as soon as practicable after the close of the calendar quarter with respect to which such information is filed and shall be printed in the CONGRESSIONAL RECORD.

The Clerk of the House of Representatives and the Secretary of the Senate jointly submit their report of the compilation required by said law and have included all registrations and quarterly reports received.

REGISTRATIONS

The following registrations were submitted for the first calendar quarter 1986:

(NOTE.—The form used for report is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19.....

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:
(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)
(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".
(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:
(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.
(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§ 302(e).
(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).
(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, ☐ place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report.

QUARTERLY REPORTS*

*All alphanumeric characters and monetary amounts refer to receipts and expenditures on page 2, paragraphs D and E of the Quarterly Report Form.

The following quarterly reports were submitted for the first calendar quarter 1986:

(NOTE.—The form used for reporting is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19.....

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:
(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)
(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".
(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:
(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.
(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§302(e).
(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).
(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, place an "X" in the box at the left, so that this Office will no longer expect to receive Reports. ☐

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report.

AFFIDAVIT

[Omitted in printing]

PAGE 1

NOTE ON ITEM "D."—(a) *In General.* The term "contribution" includes *anything of value.* When an organization or individual uses printed or duplicated matter in a campaign attempting to influence legislation, money received by such organization or individual—for such printed or duplicated matter—is a "contribution." "The term 'contribution' includes a gift, subscription, loan, advance, or deposit of money, or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make a contribution"—Section 302(a) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN EMPLOYER.—(i) *In General.* Item "D" is designed for the reporting of all receipts from which expenditures are made, or will be made, in accordance with legislative interests.

(ii) *Receipts of Business Firms and Individuals.*—A business firm (or individual) which is subject to the Lobbying Act by reason of expenditures which it makes in attempting to influence legislation—but which has no funds to expend except those which are available in the ordinary course of operating a business not connected in any way with the influencing of legislation—will have no receipts to report, even though it does have expenditures to report.

(iii) *Receipts of Multipurpose Organizations.*—Some organizations do not receive any funds which are to be expended solely for the purpose of attempting to influence legislation. Such organizations make such expenditures out of a general fund raised by dues, assessments, or other contributions. The percentage of the general fund which is used for such expenditures indicates the percentage of dues, assessments, or other contributions which may be considered to have been paid for that purpose. Therefore, in reporting receipts, such organizations may specify what that percentage is, and report their dues, assessments, and other contributions on that basis. However, each contributor of $500 or more is to be listed, regardless of whether the contribution was made solely for legislative purposes.

(c) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE.—(i) *In General.* In the case of many employees, all receipts will come under Items "D 5" (received for services) and "D 12" (expense money and reimbursements). In the absence of a clear statement to the contrary, it will be presumed that your employer is to reimburse you for all expenditures which you make in connection with legislative interests.

(ii) *Employer as Contributor of $500 or More.*—When your contribution from your employer (in the form of salary, fee, etc.) amounts to $500 or more, it is not necessary to report such contribution under "D 13" and "D 14," since the amount has already been reported under "D 5," and the name of the "employer" has been given under Item "B" on page 1 of this report.

D. RECEIPTS (INCLUDING CONTRIBUTIONS AND LOANS):

Fill in every blank. If the answer to any numbered item is "None," write "None" in the space following the number.

Receipts (other than loans)

1. $.....Dues and assessments
2. $.....Gifts of money or anything of value
3. $.....Printed or duplicated matter received as a gift
4. $.....Receipts from sale of printed or duplicated matter
5. $.....Received for services (e.g., salary, fee, etc.)
6. $.....TOTAL for this Quarter (Add items "1" through "5")
7. $.....Received during previous Quarters of calendar year
8. $.....TOTAL from Jan. 1 through this Quarter (Add "6" and "7")

Loans Received

"The term 'contribution' includes a . . . *loan* . . ."—Sec. 302(a).

9. $.....TOTAL now owed to others on account of loans
10. $.....Borrowed from others during this Quarter
11. $.....Repaid to others during this Quarter

12. $.....'Expense money" and Reimbursements received this Quarter

Contributors of $500 or more (from Jan. 1 through this Quarter)

13. Have there been such contributors?

Please answer "yes" or "no": .....

14. In the case of each contributor whose contributions (including loans) during the "period" from January 1 through the last days of this Quarter total $500 or more:

Attach hereto plain sheets of paper, approximately the size of this page, tabulate data under the headings "Amount" and "Name and Address of Contributor"; and indicate whether the last day of the period is March 31, June 30, September 30, or December 31. Prepare such tabulation in accordance with the following example:

Amount	*Name and address of Contributor* ("*Period*" from Jan. 1 through....., 19.....)
$1,500.00	John Doe, 1621 Blank Bldg., New York, N.Y.
$1,785.00	The Roe Corporation, 2511 Doe Bldg., Chicago, Ill.
$3,285.00	TOTAL

NOTE ON ITEM "E".—(a) *In General.* "The term 'expenditure' includes a payment, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure"—Section 302(b) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE. In the case of many employees, all expenditures will come under telephone and telegraph (Item "E 6") and travel, food, lodging, and entertainment (Item "E 7").

E. EXPENDITURES (INCLUDING LOANS) in connection with legislative interests:

Fill in every blank. If the answer to any numbered item is "None," write "None" in the spaces following the number.

Expenditures (other than loans)

1. $.....Public relations and advertising services
2. $.....Wages, salaries, fees, commissions (other than item "1")
3. $.....Gifts or contributions made during Quarter
4. $.....Printed or duplicated matter, including distribution cost
5. $.....Office overhead (rent, supplies, utilities, etc.)
6. $.....Telephone and telegraph
7. $.....Travel, food, lodging, and entertainment
8. $.....All other expenditures
9. $.....TOTAL for this Quarter (Add "1" through "8")
10. $.....Expended during previous Quarters of calendar year
11. $.....TOTAL from January 1 through this Quarter (Add "9" and "10")

Loans Made to Others

"The term 'expenditure' includes a . . . *loan* . . ."—Sec. 302(b).

12. $.....TOTAL now owed to person filing
13. $.....Lent to others during this Quarter
14. $.....Repayment received during this Quarter

15. Recipients of Expenditures of $10 or More

In the case of expenditures made during this Quarter by, or on behalf of the person filing: Attach plain sheets of paper approximately the size of this page and tabulate data as to expenditures under the following heading: "Amount," "Date or Dates," "Name and Address of Recipient," "Purpose." Prepare such tabulation in accordance with the following example:

Amount	*Date or Dates—Name and Address of Recipient—Purpose*
$1,750.00	7-11: Roe Printing Co., 3214 Blank Ave., St. Louis, Mo.—Printing and mailing circulars on the "Marshbanks Bill."
$2,400.00	7-15, 8-15, 9-15: Britten & Blaten, 3127 Gremlin Bldg., Washington, D.C.—Public relations service at $800.00 per month.
$4,150.00	TOTAL

Organization or Individual Filing	Employer/Client	Receipts	Expenditures

QUARTERLY REPORTS*

*All alphanumeric characters and monetary amounts refer to receipts and expenditures on page 2, paragraphs D and E of the Quarterly Report Form.

The following reports for the fourth calendar quarter of 1985 were received too late to be included in the published reports for that quarter:

(NOTE.—The form used for report is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings.)

FILE ONE COPY WITH THE SECRETARY OF THE SENATE AND FILE TWO COPIES WITH THE CLERK OF THE HOUSE OF REPRESENTATIVES:

This page (page 1) is designed to supply identifying data; and page 2 (on the back of this page) deals with financial data.

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19.....

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

NOTE ON ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:
(i) "Employee".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)
(ii) "Employer".—To file as an "employer", write "None" in answer to Item "B".
(b) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:
(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.
(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:
1. State name, address, and nature of business.

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE ON ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER.—State name, address, and nature of business. If there is no employer, write "None."

NOTE ON ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§302(e).
(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).
(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have terminated, place an "X" in the box at the left, so that this Office will no longer expect to receive Reports. ☐

2. State the general legislative interests of the person filing and set forth the *specific* legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) Description, (*b*) quantity distributed; (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page. Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly" Report.

AFFIDAVIT

[Omitted in printing]

PAGE 1

NOTE ON ITEM "D."—(a) *In General.* The term "contribution" includes *anything of value.* When an organization or individual uses printed or duplicated matter in a campaign attempting to influence legislation, money received by such organization or individual—for such printed or duplicated matter—is a "contribution." "The term 'contribution' includes a gift, subscription, loan, advance, or deposit of money, or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make a contribution"—Section 302(a) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN EMPLOYER.—(i) *In General.* Item "D" is designed for the reporting of all receipts from which expenditures are made, or will be made, in accordance with legislative interests.

(ii) *Receipts of Business Firms and Individuals.*—A business firm (or individual) which is subject to the Lobbying Act by reason of expenditures which it makes in attempting to influence legislation—but which has no funds to expend except those which are available in the ordinary course of operating a business not connected in any way with the influencing of legislation—will have no receipts to report, even though it does have expenditures to report.

(iii) *Receipts of Multipurpose Organizations.*—Some organizations do not receive any funds which are to be expended solely for the purpose of attempting to influence legislation. Such organizations make such expenditures out of a general fund raised by dues, assessments, or other contributions. The percentage of the general fund which is used for such expenditures indicates the percentage of dues, assessments, or other contributions which may be considered to have been paid for that purpose. Therefore, in reporting receipts, such organizations may specify what that percentage is, and report their dues, assessments, and other contributions on that basis. However, each contributor of $500 or more is to be listed, regardless of whether the contribution was made solely for legislative purposes.

(c) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE.—(i) *In General.* In the case of many employees, all receipts will come under Items "D 5" (received for services) and "D 12" (expense money and reimbursements). In the absence of a clear statement to the contrary, it will be presumed that your employer is to reimburse you for all expenditures which you make in connection with legislative interests.

(ii) *Employer as Contributor of $500 or More.*—When your contribution from your employer (in the form of salary, fee, etc.) amounts to $500 or more, it is not necessary to report such contribution under "D 13" and "D 14," since the amount has already been reported under "D 5," and the name of the "employer" has been given under Item "B" on page 1 of this report.

D. RECEIPTS (INCLUDING CONTRIBUTIONS AND LOANS):

Fill in every blank. If the answer to any numbered item is "None," write "None" in the space following the number.

Receipts (other than loans)

1. $.....Dues and assessments
2. $.....Gifts of money or anything of value
3. $.....Printed or duplicated matter received as a gift
4. $.....Receipts from sale of printed or duplicated matter
5. $.....Received for services (e.g., salary, fee, etc.)
6. $.....TOTAL for this Quarter (Add items "1" through "5")
7. $.....Received during previous Quarters of calendar year
8. $.....TOTAL from Jan. 1 through this Quarter (Add "6" and "7")

Loans Received

"The term 'contribution' includes a . . . *loan* . . ."—Sec. 302(a).

9. $.....TOTAL now owed to others on account of loans
10. $.....Borrowed from others during this Quarter
11. $.....Repaid to others during this Quarter

12. $.....'Expense money" and Reimbursements received this Quarter

Contributors of $500 or more (from Jan. 1 through this Quarter)

13. Have there been such contributors?

Please answer "yes" or "no": .....

14. In the case of each contributor whose contributions (including loans) during the "period" from January 1 through the last days of this Quarter total $500 or more:

Attach hereto plain sheets of paper, approximately the size of this page, tabulate data under the headings "Amount" and "Name and Address of Contributor"; and indicate whether the last day of the period is March 31, June 30, September 30, or December 31. Prepare such tabulation in accordance with the following example:

Amount	*Name and address of Contributor* ("*Period*" from Jan. 1 through....., 19.....)
$1,500.00	John Doe, 1621 Blank Bldg., New York, N.Y.
$1,785.00	The Roe Corporation, 2511 Doe Bldg., Chicago, Ill.
$3,285.00	TOTAL

NOTE ON ITEM "E".—(a) *In General.* "The term 'expenditure' includes a payment, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure"—Section 302(b) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE. In the case of many employees, all expenditures will come under telephone and telegraph (Item "E 6") and travel, food, lodging, and entertainment (Item "E 7").

E. EXPENDITURES (INCLUDING LOANS) in connection with legislative interests:

Fill in every blank. If the answer to any numbered item is "None," write "None" in the spaces following the number.

Expenditures (other than loans)

1. $.....Public relations and advertising services
2. $.....Wages, salaries, fees, commissions (other than item "1")
3. $.....Gifts or contributions made during Quarter
4. $.....Printed or duplicated matter, including distribution cost
5. $.....Office overhead (rent, supplies, utilities, etc.)
6. $.....Telephone and telegraph
7. $.....Travel, food, lodging, and entertainment
8. $.....All other expenditures
9. $.....TOTAL for this Quarter (Add "1" through "8")
10. $.....Expended during previous Quarters of calendar year
11. $.....TOTAL from January 1 through this Quarter (Add "9" and "10")

Loans Made to Others

"The term 'expenditure' includes a . . . *loan* . . ."—Sec. 302(b).

12. $.....TOTAL now owed to person filing
13. $.....Lent to others during this Quarter
14. $.....Repayment received during this Quarter

15. Recipients of Expenditures of $10 or More

In the case of expenditures made during this Quarter by, or on behalf of the person filing: Attach plain sheets of paper approximately the size of this page and tabulate data as to expenditures under the following heading: "Amount," "Date or Dates," "Name and Address of Recipient," "Purpose." Prepare such tabulation in accordance with the following example:

Amount	*Date or Dates—Name and Address of Recipient—Purpose*
$1,750.00	7-11: Roe Printing Co., 3214 Blank Ave., St. Louis, Mo.—Printing and mailing circulars on the "Marshbanks Bill."
$2,400.00	7-15, 8-15, 9-15: Britten & Blaten, 3127 Gremlin Bldg., Washington, D.C.—Public relations service at $800.00 per month.
$4,150.00	TOTAL

EXTENSIONS OF REMARKS

DON REGAN: AN ELOQUENT SPOKESMAN FOR THE REAGAN REVOLUTION

HON. JACK F. KEMP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. KEMP. Mr. Speaker, I recently had the privilege to be in the audience to hear White House Chief of Staff Donald Regan's remarks to the Center for the Study of the Presidency where he received the Distinguished Service Award. He spoke eloquently of the accomplishments of the Reagan administration, and gave a more personal side of the President's leadership and strength of will—qualities that have helped transform that national mood to one of pride and optimism about the future.

We in Congress have had the opportunity to work with President Reagan on various issues, and we can see the evidence of the new beginning he has given our Nation and the free world. However, Donald Regan works with the President on a day-to-day basis, and plays an important role in shaping the policies that are at the core of the Reagan revolution. I commend Don's provocative speech to my colleagues, and hope every Member will find it of interest.

MR. REGAN'S REMARKS: THE CENTER FOR THE STUDY OF THE PRESIDENCY

Ladies and gentlemen, for two decades the Center for the Study of the Presidency has sought to shed light upon a peculiar institution. Theodore Roosevelt called the office a "bully pulpit." Roosevelt may have been too bully to his successor, William Howard Taft; Taft, it's said, referred to the office as "the loneliest place on Earth." And shortly after his inauguration, Harry Truman said to the press corps, "When they told me yesterday what had happened, I felt like the moon, the stars, and all the planets had fallen on me." As Chief of Staff, I understand the part about getting hit by falling objects.

But in the midst of shifting and often contradictory viewpoints on the Presidency, the Center has provided high standards of scholarship and genuine understanding. This award from the Center represents a high honor indeed. I must add that I feel likewise honored by the presence here tonight of so many I deeply respect—scholars whose work I admire, friends from the business world, colleagues in the Administration. Dr. Hoxie, the Center's president, is an old friend. He is also a man who served with distinction in World War II, who rose in the Air Force to become a brigadier general, and who has had a long and distinguished career in education. Thank you, Dr. Hoxie, for those king words. Dr. Farkas, the Center's chairman, is another friend. Our Ambassador to Luxembourg under Presidents Nixon and Ford, Dr. Farkas has served the Center selflessly for the past 6 years. Thank you, Dr. Farkas, for this fine plaque.

Bill Marriott, our master of ceremonies, is a man whose business acumen I admire and whose patriotism I esteem. I appreciate your efforts, Bill, and those of your vice chairmen, in arranging this dinner. Elizabeth Dole—well, I don't suppose Liddy Dole needs any introduction in this town. Suffice it to say that she serves President Reagan with savvy, with style, and with a quality that's often rare in government—a sense of humor. She also has a persistent quality that won't take "no" for an answer—I know—I have to deal with her regularly and she's remaking me into a "yes" man.

There are so many others, so many good friends. I can't possibly summon up the phrases to tell you how grateful I feel, so permit me to use those two old, simple words—and let you know that they come from my heart: My friends, thank you.

But the assignment of making a speech before this distinguished group is one that I approach with trepidation. Much of what I have to tell you, you will already have heard. Standing before so many presidential scholars and others who have worked for, or with Presidents, indeed, I'm reminded of the story about a man who drowned in the Johnstown flood. When the man got to heaven, St. Peter told him an audience had gathered to hear the latest news from Earth. "No problem," he told St. Peter, "I'll talk about the flood I was just in." St. Peter answered, "Better make it good. The bearded fellow in the front row is Noah."

But perhaps my perspective as Chief of Staff has permitted me certain insights that will prove of interest; and if I may, I'd like to spend a few moments considering the place of the Reagan Presidency in the second half of the 20th century, the period since Franklin Roosevelt established the modern presidency itself. Permit me first to present in broad outline a number of developments that took place during these decades—and to begin with a word about my own vantage point when this period began, more than 40 years ago.

During the final years of the Roosevelt Presidency, I found myself serving as a major in the Marine Corps in the Pacific. The battle conditions we encountered were, to paraphrase Churchill, not uneventful—planes roaring overhead, ships pounding their guns, the islands themselves seeming to shudder; landing on beaches under heavy fire, pursuing a dogged enemy through jungle or over rock. All this has of course been described in detail by historians and journalists, and I mention it only because I believe it throws light on the sense of unity and mission that our Nation then evinced. Freedom, democracy, opportunity for the common man—all these we considered worth fighting for, and yes, if need be, worth dying for.

When the war ended, as we were leaving the service, the country was alive with a sense of expectation, an eagerness to go on from the destruction of combat to the challenges of peacetime. Economists and many politicians of course made dire predictions. When war production ended, they claimed, recession would follow. Massive Government intervention would be needed. Nothing of the kind happened. The economy began to grow. We were able to assist our allies, and our former enemies, in rebuilding their shattered lands. And I would submit that this economic creativity was but one aspect of a wider creativity that permeated the culture as the rest of the world turned to America as its leader. Although in the sixties and seventies it became fashionable to portray the decade of the fifties as dull or square—a period culturally inert—in fact it was anything but that.

"Not since the 1920's," Professor Jeffrey Hart of Dartmouth writes in his book on the fifties, "had so much been happening, both in popular and in high culture. . . . For the first time in history, New York was the art capital of the world. . . . In philosophy and theology, important things were happening. And the Nation as a whole experienced an unprecedented burst of prosperity, of home buying, car owning, and, of course, television." New inventions, some of them as a result of wartime innovation, came to market, spawning new growth industries. More marriages and the baby boom produced a challenge to our economy to keep pace.

There were indeed exceptions, some drastic. Black Americans in particular still suffered severe discrimination, but they were able to make some progress. All in all, though, the country took a justifiable pride in itself. Hart writes, "Americans felt good about themselves and their country during the fifties."

The sixties began with a sense of promise—then of promise betrayed.

Here are the words of John Kennedy as he campaigned for President at the outset of the decade. "Can the world exist half slave and half free * * *? The enemy is lean and hungry, and the United States is the only sentinel at the gate. . . . Extraordinary efforts are called for by every American who knows the value of freedom." Yet by the time of John Kennedy's death, the Soviet Union had established itself and communism in Cuba, and the United States had sent soldiers to Vietnam.

There followed two decades of national agony. The bitter fiascos of Vietnam and Watergate preoccupied our leaders and brought low the presidency itself.

Throughout the world, the Soviets advanced. Between 1960 and 1980, the list of countries under Soviet domination grew to include Vietnam, Laos, Cambodia, South Yemen, Ethiopia, Mozambique, Angola, Afghanistan, and Nicaragua. The United States, meanwhile, suffered a profound economic disturbance. By 1980, inflation had risen to 12 percent and the prime rate of interest had reached more than 20 percent, the highest level since the Civil War; our Gross National Product had virtually stopped growing.

The mood of the country during this period went sour. It was as if the youthfulness and exuberance of the fifties had been replaced by old age—anxious, bitter, self-deprecating. Americans of my generation could hardly believe what they had witnessed—from victory in world war to vascillation and self-doubt in less than two decades. Younger Americans—Americans who had known nothing else—accepted it as a re-

ceived fact that they lived in a Nation in decline. Few were proud of this Nation, most were bewildered. Even though we spent more we got less. Our trade picture was gloomy, our dollar weak, and many felt capitalism itself was on trial.

This, then, is the background against which Ronald Reagan took office as the 40th President of the United States.

Agree with him or not, virtually all observers admit that the President arrived with a coherent plan of action and moved at once to put it into effect. On the economic front, the President cut taxes dramatically and asked the Federal Reserve Board to steady the growth of our money supply to bring inflation to an end. He curtailed the growth of Federal regualtions, de-regulated financial institutions, and began using antitrust policy to encourage competition and benefit consumers.

The result? A very difficult period of adjustment, a recession of 18 months. Yet since then, the return to economic health has been dramatic: Forty months of economic growth. Inflation down to roughly 3 percent. Interest rates down and Government bond rates back to the levels of the early seventies. Close to 10 million new jobs. And the stock market competing with the bond market in setting one record after another.

One of the President's economic achievements deserves special mention. On taking office, the President completely de-controlled the price of oil. This set off a search for new sources of oil and other forms of energy in our own country which, when coupled with vast deposits of oil and natural gas found elsewhere, forced down the price of oil. OPEC has been rendered largely ineffective, and it's once again possible to tank up for under 10 bucks—Iaccoca in his Chrysler and me in my Mercury. To be sure, some sectors must undergo a difficult adjustment as a result of the new lower prices. But because President Reagan set them free to do so, consumers were able to use the free market to take on OPEC—and win.

Today, even the President's alleged economic failing, the growth of the Federal deficit, appears to be coming under control. Yes, the deficit has grown quickly, and we've been concerned about it. As a percentage of GNP, however, the Federal debt has grown for the most part in line with historical standards. And with the outlook calling for continued economic growth, this—the deficit monster that just a few months ago was supposed to swallow the Reagan Presidency—is beginning to shrink. Indeed, it now appears clear that with Gramm-Rudman-Hollings assisting the process, the deficit can be whittled down to zero if we have the will to fight more spending.

In foreign policy, again, the President has acted decisively. When he took office, America's underlying military structure—the factor on which all diplomacy depends—lay in weakness. During virtually the entire decade of the seventies, we had failed to make major capital investments in defense and had barely met replacement costs. Our naval fleet, for example, had fallen from nearly a thousand ships to under 500. The President immediately set in train a rebuilding program, signaling the world that the United States was returning to the global scene in an active way. Today there is still much to be done, but our military strength has been substantially re-established, and we are once again universally respected.

In nuclear policy, the President's Strategic Defense Initiative has challenged the assumptions that have dominated strategic planning since the end of the War. There is an irony here. Critics have referred to the President as a Cold Warrior, a man whose ideas are out of date. Now Ronald Reagan has asked a simple question: "Why not a defense that defends—a defense that actually protects our people by keeping missiles from reaching the United States in the first place?" And with that question, the President who is supposedly behind the times has made his critics look old-fashioned—they still want the threat of mutual destruction as a deterrent.

The fruits of the President's foreign policy are already clear. In the more than 5 years since he took office, not one inch of territory has fallen to the Communists, and one nation, Grenada, has been set free. With our military strength re-established, the President was able to hold a successful summit meeting with the Soviet leader, Mr. Gorbachev, and to invite Mr. Gorbachev to visit the United States for a second summit meeting this year. At the same time, the President has extended material support to those struggling against the Soviet empire, and now in Afghanistan, Angola, Cambodia, and Nicaragua, the forces of democracy are winning new recruits.

In a wider sense, the United States has once again become an economic and political model for the rest of the world. Witness the establishment of democracy in six Latin American nations since the President took office. And witness the way in which the free-market aspects of the Reagan revolution are being picked up around the globe. China has moved to free markets dramatically. The International Monetary Fund and the World Bank are preaching market economic and equity financing as an antidote to state socialism and large debts. In the Philippines, Jaime Ongpin, the new finance minister, has said, quote, "I am philosophically committed to the absolute minimum of government interference." And in France, voters have supported freer markets and more private enterprise.

Here at home, a profound change—a seachange—has taken place in the mood and outlook of the country. Indications of renewed social health abound. Student test scores are up, crime rates are down, personal donations to charity are running at an all-time high. The President of the United States can go to a college campus and get cheered. As I noted earlier, Jeffrey Hart wrote of the fifties, "By and large, Americans felt good about themselves and their country. . . ." For perhaps the first time in the three decades since, this is once again the case. We cheer our athletes in international competition, and applaud our military as they show our flag.

Economic growth, a successful foreign policy, a newly patriotic and self-confident Nation—why should this be? Is it that President Reagan's policies are technically superior to those of his predecessors? Is it simply that Ronald Reagan is in some marginal or incremental sense better at his job? The answer, I believe, has less to do with technical superiority than with the President's most fundamental beliefs about this country—in a word, with Ronald Reagan's vision of America.

Recently I came upon a passage that illuminates this very point, the distinction between incremental improvements and the matter of vision. Arthur Schlesinger writes in his biography of Robert Kennedy that, before the 1960 debates between John Kennedy and Richard Nixon, Henry Kissinger provided some advice. "We need someone . . .," Kissinger said, "who will take a big jump—not just improve on existing trends but produce a new frame of mind, a new national atmosphere. . . . The issue is not one technical program or another. The issue is a new epoch. If we get a new epoch and a new spirit, the technical programs will take care of themselves.' "

Two decades later, Ronald Reagan produced just that, a new epoch and spirit. I would add that President Reagan's vision is not only new, but ancient—as ancient indeed as Athens and Jerusalem. For at its most fundamental level, President Reagan's vision is the vision of all Western civilization—the belief in a just and loving God, in individual responsibility, in the importance of the family. By reasserting, for example, the ancient belief in the goodness of creation—a belief advanced in Genesis—President Reagan has reawakened our sense of the goodness of our own people and land. And by reasserting the ancient belief that history has meaning—that human existence is a vast story ultimately unfolding according to the will of its almightly Author—President Reagan has opened our eyes to the importance of America's place and mission in this story, as the bastion of human freedom in our time.

This restoration of a sense of meaning, I believe, has a great deal to do with the recent emergence of so many new democracies. Not long ago, it was the communist model that was attractive to much of the Third World—Fidel Castro was a cultural hero in Latin America and posters of Che Guevara appeared around the globe. Those of us in Western democracies were puzzled. Why, we asked, does communism hold so much appeal for the Third World when it so obviously requires the surrender of human liberty?

The answer was that in many parts of the world, the freedoms we enjoyed had never been known. To quote the historian Christopher Dawson, "In [many places] life has been short and hard and uncertain. . . . In such a world the evils of totalitarianism which shock the Western mind—its denial of personal liberty, of freedom of opinion and free enterprise—are less apparent. . . . Communism demands everything . . . but in return it makes men feel that there is a power watching over them which is immune from human weakness and is based on an unchanging foundation of absolute principles." However falsely, in other words, communism offered to oppressed peoples a sense that their lives had meaning. By comparison, Western democracies often appeared adrift, meaningless, gripped by anxiety and self-doubt.

Now, however, President Reagan has restated the Western belief that democracy represents, not just a way of organizing society for the production of wealth, but a means by which men can participate in the life of their nation and in history itself. Democracy, he has made clear, is based upon ancient and coherent values. It arises from a view of the universe as meaningful, and itself serves as a source of meaning for men's lives.

As the President has reasserted these truths, the Soviet Union has become more and more clearly, in the words of George Will, "an invalid trapped in a bureaucracy drunk on a 19th century fallacy Marxism. . . . It is a system being driven toward suffocation and anemia. . . ." Far from burying the United States, communism is burying itself. And from the green mountains of

Nicaragua to the green islands of the Philippines, the world conflict has entered a new and perhaps decisive phase. Now it is democracy that is on the offensive: the dictators, totalitarians, and state socialists who are on guard and fearful.

Permit me to turn now from the wider world to the White House and to Ronald Reagan, the man himself. The President's humor, his grace, the way he puts those around him at ease—all these are well known. But there is one aspect of the President that I would like to discuss on the public record, an aspect that has struck me again and again since becoming his Chief of Staff, all the more forcefully on this point since the public perception—or rather the public cliche—seems to me badly mistaken. Let me speak for a moment of the President's mind.

Now, as the former chairman of a large corporation, it has been my privilege to work with some very bright men and women, some with analytical skills as finely honed as any in the world. Yet despite the number and complexity of the issues we dealt with on Wall Street, all lay within the same field, the field of finance. Again at the Treasury Department, the issues were complex but closely connected. When I moved to the White House, I found a completely different intellectual environment. Issues come at the President furiously all day, and what strikes me is how utterly diferent they can be from one another. Let me give you, for example, the President's schedule for a recent day, March 20th.

9:00 a.m. With the Vice President and the Chief of Staff, the President goes over the events and issues of the day ahead. Topics touched on include the developing crisis in the Gulf of Sidra; votes in Congress on Nicaragua; the budget, which is getting nowhere in Congress; and the latest maneuvering on taxes.

9:30 a.m. The President receives his national security briefing. Much of this meeting was classified, but I can tell you that time was again spent on the Gulf of Sidra, as well as the rest of the Middle East.

9:45–10:30 a.m. The President holds a series of staff meetings, during which the issues discussed range from agriculture to the American machine tool industry.

10:30 a.m. The President begins a series of telephone calls to key Senators and Representatives. The calls focus on aid to the Nicaraguan freedom fighters.

Noon. The President has his weekly luncheon with the Vice President. As always, this luncheon is kept in confidence so that both men can speak their minds with complete freedom. I can tell you, however, that while this luncheon was informal, a great deal of serious business got done.

1:00 p.m. The President gives an interview to the New York Times. The issues discussed included aid to the Nicaraguan freedom fighters, the space shuttle program, the Philippines, the budget, and relations between the United States and the Soviet Union.

1:15 p.m. The President tapes a message for the National Fitness Foundation.

1:30 p.m. The President meets his personnel director and makes decisions on a number of appointments throughout the Federal Government.

2:00 p.m. The President welcomes Congressmen and other guests for the signing of the Agriculture Day Proclamation.

2:05–4:30 p.m. The President holds a series of staff meetings. Issues discussed include the Gulf of Sidra and the options at his disposal in the context of SALT II.

4:30–5:00 p.m. The President presents an award for courage to a young cancer victim and poses for photographs with a number of people, including—and nothing illustrates the variety of the presidential day more clearly than this—the concert pianist Vladimir Horowitz and the middle-weight boxing champion, Marvelous Marvin Hagler.

5:00 p.m. The President leaves the Oval Office for the Residence, under his arm a thick folder of homework, including speech drafts, issues papers, and a sheaf of documents for his signature.

In the midst of days like this, the President remains affable and serene. He does so because his mind is disciplined and resilient. Perhaps more effectively that any other man I have known, the President is able to give his full concentration to the issue at hand; then take a deep breath, clear his mind, and give the same concentration to the next matter he deals with—whether a crisis in the Gulf of Sidra or a photograph with Marvelous Marvin. This, then, is the mind—flexible, trained, insightful, comprehensive—at the center of the Reagan Presidency.

How to sum it all up—the Presidency, the man himself? In his televised speech on Nicaragua, the President himself quoted Clare Boothe Luce's observation that, "no matter how exalted or great a man may be, history will have time to give him no more than one sentence. George Washington—he founded our country. Abraham Lincoln—he freed the slaves and preserved the Union. Winston Churchill—he saved Europe."

Of course it is too early to predict the single sentence with which Ronald Reagan will be remembered, but as I consider the possibilities, I find one line repeatedly coming to mind. It is the epigram with which Scott Fitzgerald summarized his feelings about our country. He wrote, "America is a willingness of the heart."

I don't suppose when I was a Marine those 40 years ago I had ever come across that line—I don't suppose any of my buddies had, either. But we knew what it expressed. We knew what it meant to love our country—and to look to the future with confidence because we had been born free.

Today, I sense the same exuberance among the young. They too know what it means to love our country and to look to the years ahead with a sense of expectation. They too look at the world around them and in their own way thank God for the gift of freedom. So it is that the Fitzgerald line seems fitting. Not so much as Chief of Staff, but as an ordinary American who loves his country, I am more grateful than words can express, that the President of the United States has restored to our green and gentle land its willingness of heart.

Thank you.

REFRESHING REVIEW OF THE PROSPECTS FOR THE SDI

HON. MARILYN LLOYD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. LLOYD. Mr. Speaker, the recently published book, "Strategic Defense: 'Star Wars' in Perspective," by Dr. Keith B. Payne, is an important contribution to the continuing public debate and assessment process regarding the Strategic Defense Initiative (SDI). Dr. Payne is an articulate exponent of the SDI Program and well versed in the relationships between the SDI and nuclear deterrence, strategy, stability, and other key arms control aspects of the program. Moreover, he demonstrates significant sensitivity to overriding questions such as U.S. commitments to allies and the morality of nuclear deterrence. There is no better way to describe Dr. Payne's contribution than the excellent foreword to the book written by Dr. Zbigniew Brzezinski. Dr. Brzezinski has impressive credentials in the defense policy arena, having served as National Security Adviser to President Carter and as a key adviser to the U.S. Government for several decades. His objective, yet very complimentary foreword to Dr. Payne's book, follows:

FOREWORD

(By Zbigniew Brzezinski)

When President Reagan announced the Strategic Defense Initiative (SDI) in a televised speech on March 23, 1983, he directed the U.S. technical community to investigate the potential for constructing a highly effective defense against ballistic missiles. The long-term goal of this investigation, as presented by the president, was to provide the technology necessary for nothing short of "rendering these nuclear weapons impotent and obsolete." Since that March 23rd presentation, labeled by the media as the president's "Star Wars" speech, there has been a deluge of articles and editorials on the subject of strategic defense. Despite the apparent general scarcity of understanding concerning what the SDI is and is not there has been no lack of commentary. This book provides an extremely useful guide to anyone interested in understanding the nature of the SDI and the debate surrounding it—a debate which may prove to be one of the most important of our times.

Current technical and political circumstances make the decision to proceed with an SDI eminently sensible. The development of ballistic missile technology has led to accuracies that could potentially enable Soviet offensive forces to pose a first-strike threat to an effective U.S. retaliatory response and to almost all U.S. command and control facilities. The fact that the Soviet Union has deployed large numbers of highly accurate offensive forces in its arsenal of ICBMs and continues to add to that arsenal, while the United States has not, is particularly disturbing. Indeed, even if the U.S. strategic modernization program were carried out over the coming decade as currently envisaged, our strategic arsenal would not possess "counterforce" capabilities equal to those of the Soviet Union.

It has long been held as a near-truth that as long as the U.S. could threaten to retaliate effectively the Soviet Union would be discouraged from contemplating a first strike. However, the Soviet strategic build-up and its ICBM deployments in particular constitute a danger to the continued effectiveness of the U.S. deterrent. Concern over the continuing build-up of the Soviet capability to destroy our retaliatory forces and command and control facilities in a first strike does not reflect an exaggeration of the threat to stability posed by these Soviet forces. Indeed, we have been watching the momentum of the Soviet counterforce build-up for years—realizing that if arms control negotiations could not provide a solution we would be compelled to provide for our security unilaterally. It is now possible to conceive of circumstances under which the Soviet Union could strike first and de-

stroy most of our land-based retaliatory forces. Only those ballistic missile carrying submarines on patrol might survive the Soviet attack; and the doubtful ability to communicate with those surviving submarines following attack on our communications facilities would likely reduce their retaliatory potential.

The American hope has been that these destabilizing trends in offensive technology could be handled through a political process, i.e., arms control. However, it is doubtful that strategic arms control negotiations, as we have come to know them, possess the capacity to produce the expected stabilizing limitations on offensive counterforce weapons. The position adopted by the Soviet Union in the current talks at Geneva suggests that the political route will continue to be fruitless unless we go forward with a credible SDI program. Of particular importance is the emphasis the SDI places upon nearterm defensive technologies appropriate for defense coverage of American retaliatory capabilities. A credible SDI emphasizing such a defensive potential will facilitate reductions in destabilizing offensive arms, such as the over 600 Soviet SS-18 and SS-19 ICBMs (and their successors). It will do so by allowing our negotiators to present their Soviet counterparts with two options, one mutually beneficial, the other particularly costly to the Soviet Union.

The first option would be to renegotiate ABM Treaty restrictions against the defense of retaliatory forces. In return for real reductions in modern counterforce-capable ICBMs, of which the Soviet Union possesses the vast majority, the United States would agree not to proceed with deployment of its strategic defense system. If the Soviet Union refuses this bargain the U.S. would declare that the continued Soviet offensive buildup has placed in jeopardy supreme American interests and that the U.S. consequently is compelled to withdraw from the ABM Treaty. Such an action would both reflect the truth concerning Soviet ICBM deployments and be consistent with Article 15 of the Treaty governing legal withdrawal. Following withdrawal from the Treaty the U.S. would deploy a BMD system for protection of its strategic retaliatory capabilities. This action would nullify the decade-long Soviet deployment of counterforce-capable ICBMs. If the Soviet response was to increase its ICBM arsenal in an attempt to reestablish its threat to our retaliatory forces, the Soviets would be engaging in a losing tailchase that would be excessively costly for them. It would be easier and cheaper for the U.S. to augment its defenses and restore the survivability of its retaliatory capability than it would be for the Soviet Union to attempt to overturn those defenses through an increase in its offensive threat.

In order to pursue such an approach to strategic defense and arms control the United States must revise the current orientation of the SDI. The Reagan Administration has focused the emphasis of the SDI on those "exotic" technologies that might one day provide effective protection for large urban areas. It has given less emphasis to the near-term potential for the defense of selected strategic retaliatory forces—although there is general agreement that such defensive capabilities are now or soon will be in hand. To provide the necessary impetus for real Soviet offensive arms reductions, the SDI must convince Moscow's leadership of our capability and willingness to deploy a strategy defense system soon if it continues to reject significant limitations on destabilizing offensive forces. The Soviet Union must also be convinced that we will be willing to forego BMD deployment if they are willing to make the stabilizing reductions in their offensive missile force we have long sought. It should be clear that to pursue such a meaningful negotiating posture and defense strategy the U.S. requires a credible near-term BMD program. Support for the SDI is thus support for any future prospects for real reductions through arms control.

In this book Keith Payne documents the case for the SDI and strategic defense in terms of arms control and strategic stability. Without making utopian claims for the potential efficacy of defensive systems, Dr. Payne provides an innovative strategy for increasing American security and obtaining genuine arms control through a combination of defensive and offensive modernization programs.

Dr. Payne's emphasis on the necessity for both defensive and offensive programs may prove controversial. Nonetheless, he provides a strong and balanced case for the integration of offensive and defensive systems in support of strategic stability and arms control. Indeed, because Keith Payne is able to weave offense, defense and arms control into a single strategy this book will prove to be a major contribution not only to the debate over the SDI, but also to the much larger debate over the general direction that American strategy should take in coming decades.

FINANCIAL STATEMENT 1985

HON. GERRY E. STUDDS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. STUDDS. Mr. Speaker, I would like to submit my 1985 personal financial statement for publication in the CONGRESSIONAL RECORD. This statement is a complete disclosure of my 1985 income, assets, and liabilities which I have done every year since entering office in 1973.

Congressman Gerry E. Studds' 1985 Financial Statement

Part I—Income 1985 (summary):	
Salary	$74,892.00
Dividends—See part II for detailed explanation	1,262.00
Interest—See part III for detailed explanation	2,208.00
Honoraria—See part IV for detailed explanation	2,750.00
Total income	81,112.00
Part II—Dividend income 1985:	
No. Shares—Security:	*Income derived 1985*
40—Burlington Industries	66.00
347—Exxon	1,196.00
Total	1,262.00
Part III—Interest Income 1985:	
Bonds—Security:	
$3,100.00—Lorillard, Inc. 6⅞ debenture	213.00
3,333.00—U.S. Treasury 12 percent, May 15, 1987	400.00
Bank accounts:	
Bank of Boston (NOW)	55.00
American Security Bank (NOW & MMA)	1,540.00
Total	2,208.00
Part IV—Honoraria 1985:	
Human Rights Campaign Fund, Washington, DC	625.00
Michigan Organization for Human Rights, Detroit, MI	500.00
Lamda Center, Allentown, PA	1,250.00
Stonewall Union, Columbus, OH	375.00
Total	2,750.00

Part V—Assets:

1. Beatrice Studds Irrevocable Trust: My brother, Colin A. Studds, my sister, Mrs. Howard Babcock, and I have placed the following securities—owned jointly by the three of us—in an irrevocable trust for our mother, Beatrice Studds, with my brother as trustee. All income from these securities goes to our mother for as long as she shall live. My brother, my sister, and I each own one-third of the securities—and they will revert to us upon the dissolution of the trust at our mother's death. The following represents my one-third interest in the trust:

Colin A. Studds, III, Trustee Beatrice Studds, irrevocable trust, under agreement dated Aug. 1, 1973

No. shares—Security:	*Market value*
5,000.000—U.S. Treasury 13.875 note, due Nov. 15, 1986	5,000.00
Common stock:	
133—West Point Pepperell	7,086.00
67—W.R. Grace	3,283.00
50—General Motors	4,150.00
33—IBM	5,066.00
167—Detroit Edison	3,173.00
112—Munford	2,352.00
183—Park Electro-Chemical	3,300.00
167—Rogers Corporation	3,841.00
67—Eastman Kodak	4,020.00
167—Toledo Edison	4,008.00
67—GTE	3,484.00
133—Home Group	3,866.00
2. I own the following securities:	
No. Shares—Security:	
Bonds:	
$3,100.00—Lorillard, Inc. 6⅞ debenture	2,666.00
3,333.00—U.S. Treasury 12 percent, May 15, 1987	3,333.00
Common Stocks:	
40—Burlington Industries	1,520.00
347—Exxon	19,432.00
200—PBA	00.00
3. Our family home in Cohasset, Massachusetts, with an estimated market value of approximately $300,000 is owned jointly by my brother, my sister and me. My interest in the home therefore, is roughly	100,000.00
4. Bank Accounts:	
a. NOW account, First National Bank of Boston	850.00
b. NOW account, American Security Bank	1,500.00
c. Money Market Account, American Security Bank	11,000.00
d. NOW account, Seamen's Savings Bank	100.00

5. Two bedroom house in Provincetown, Mass., estimated market value	400,000.00
6. Efficiency Condominium Apartment, Washington, DC estimated market value	52,000.00
7. 1981 Chevrolet Caprice	4,600.00
8. 1985 Jeep Wagoneer	15,400.00
9. IRA—Fidelity Magellan Fund	13,000.00
Part VI—Liabilities 1985:	
1. Mortgage, two bedroom house, Provincetown, MA, New Bedford Institution for Savings, approximately	206,000.00
2. Mortgage, efficiency condominium, Washington, DC, Home Unity Savings and Loan	41,000.00

AMERICA'S COMPETITIVENESS

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. BONKER. Mr. Speaker, last month, a number of business leaders, university presidents, and Members of Congress gathered at Hot Springs, VA, to discuss one of the most vital and challenging issues of our times—America's competitiveness. It is an issue that touches every aspect of this Nation's institutions and our declining position in the international economy. Those of us who attended the conference dealt with the range of issues that contribute to our national potential and what we need to do as a Nation to restore our competitive position.

The reports and recommendations that will be forthcoming from the Hot Springs conference and three previous sessions on competitiveness around the country will help to lay the groundwork for the task before us all.

The keynote address was given by the Chairwoman of the International Trade Commission, Dr. Paula Stern. More than anyone else, Dr. Stern sees the evidence of our declining competitiveness. Industries impeded by imports—and often experiencing a loss of competitiveness—usually appear before the ITC seeking relief.

While Dr. Stern and I may not agree on every point, her address, "The U.S. Trade System and the National Interest: Can We Do Better?" offers a sobering account of our trade problems and several thought-provoking suggestions on how America could recover her competitive position.

I hope my colleagues will take time to read the text of Dr. Stern's address:

THE U.S. TRADE SYSTEM AND THE NATIONAL INTEREST: CAN WE DO BETTER?

(By Dr. Paula Stern)

Thank you for including me in this impressive gathering of thinkers and doers.

Analysis and action tend to get separated in official Washington, and as David Stockman admits, even in Washington's officials. When the payoff for bad policy advice is a big publishers' advance, it may be time to move your Forum from temporary quarters in Virginia to permanent location on the north bank of the Potomac. As a Southerner, and a Washingtonian, I would be happy to offer you hospitality.

The Forum has already stimulated important departures in national education policy. Now I hope you will be as persistent and successful in the field of competitiveness. It is an honor to take part in your work.

I. WE HAVE A CRISIS

I do not exaggerate when I say that international trade has become a matter of national security. Our power in the world has become as much a function of the balance of trade as of the balance of terror. And our future depends as surely on our grain silos as on our missile silos.

Yet while we are used to strategic thinking about defense matters and strategic planning for corporate policy, we have settled for improvisation in international commerce. The result is crisis—six years of record trade deficits and a seventh big one on the way. The more important trade has become to our economy, the less well it seems we are performing.

The dimensions of the crisis, however, are now producing pressure for response. Speaking for myself and not the Commission I head, I'd like to outline six specific responses we should pursue and some broader issues we must face. It will be up to you to decide whether my advice is bad enough to qualify for a big publisher's advance.

II. REAL REMEDIES FOR U.S. TRADE PROBLEMS

I'll present my ideas as a wish list, remembering the old proverb: "If wishes were horses, beggars would ride." Since it's after dinner, this beggar will gallop.

(1) Item one on my wish list is a real commitment to consider the international effects when we set domestic monetary and fiscal policy. American industry and agriculture were put on a five-year long roller-coaster ride by policies which ignored, yet indirectly fanned the value of the dollar. Last fall, the Administration changed its tune, and there has been a healthy, if overdue, weakening of the dollar.

But even so, we will not easily or painlessly recoup the jobs we lost at home and the sales we missed abroad. The dollar's decline cannot completely "solve" our trade problem. It will have an impact on our Japanese and European Community accounts, but Canada—our single biggest trading partner—has devalued its dollar faster than ours.

The dollar is also stronger—not weaker—against the currencies of Mexico, Korea, Taiwan, Hong Kong, Brazil, Venezuela, and Australia. Thus, the overall decline of the dollar will not by itself solve all the trade problems we have been experiencing.

(2) The most prominent single economic event of this year is the reverse oil shock of 1986. Since oil is priced in dollars, this decline in price will be magnified for those countries whose currencies have appreciated against the dollar—Japan, West Germany and the remainder of the European Community.

Growth in these economies will increase their domestic demand, help restrain their exports, and possibly stimulate imports from the U.S. But these countries need not have waited for the fortuitous oil glut. Having waited, they are still not doing enough.

So my second wish is that we continue to pressure the governments of Japan and Europe to adopt more expansive economic policies. If we are successful, there will be a welcome bonus for the indebted third world, which could then look to other markets for increased export sales.

(3) Meanwhile at home, we should economize on the time and political energy we spend on secondary problems.

To explain staggering trade deficits of recent years, we have to look beyond the ways in which foreigners close their markets . . . and abuse our hospitality. After all, last year, less than one percent of the total value of U.S. imports was even challenged before the ITC. And in the vast majority of the cases we probed, an affirmative Commission ruling would only have resulted in marginally raising the price of imports, not in eliminating them.

Thus, unfair trade practices of other nations, however, vexing to individual U.S. industries, are not the chief menace to America. It's time to recognize this reality. That is item three on my list.

(4) My fourth wish is that we move beyond improvising trade policy. We should begin by fully examining the costs and benefits of all our options before, not after, we act. For instance, last December the ITC found that the President's steel import restraint program—if it works as planned—will cost U.S. exporters of steel-containing products over $15 billion. The higher costs for steel they will face here will translate into higher prices for their products and hence lost sales—abroad. Unfortunately, this calculation of export disadvantage was requested and aired only well after the import restraint program was underway.

(5) Wish number five is that we change the way we approach legislation affecting trade. Historically, we have written trade laws, not competitiveness legislation. As we have worked to liberalize international commerce, we have also created exemptions or shelters for declining or particularly powerful domestic industries.

Many laws offer U.S. claimants relief from the strain of trade competition. But an approach that focuses narrowly on imports often overlooks more basic causes of competitive decline.

(6) My sixth wish is that the law be changed to require that when the ITC recommends relief, we give the President more than the current take-it-or-leave-it option. The President should have a broad and deep range of choices based on an industry's competitive position and its readiness to adapt to new conditions.

With the present push for changes in our trade laws, it is clear that there will be benefits for American industry. We have an obligation to maximize the long-range returns from this public investment. And that can only be accomplished by creating the possibility of package deals that bring labor, management, and government into joint efforts that increase productivity, flexibility, and new investment.

We need not finance such efforts with new taxes or greater deficits. Instead of simply giving away import quotas to Japan, Korea and other nations, we should be auctioning them. In addition to financing adjustment here rather than abroad, auctions would put a concrete price tag on import relief, make the whole importing process more predictable, and ration quotas more efficiently. By adding positive relief to the negative relief accorded by quotas, an auctioning system could make it possible to achieve the same overall level of assistance to U.S. firms and workers with less restrictive quotas.

III. TRADE AND THE NATIONAL INTEREST

I have given you six wishes. I hope you will let me take one more roll of the dice.

The character of my wish list raises a very broad question which troubles me deeply and with which I would like to close. Do we have a trade policy which reflects our true national interest?

Let me cite some specific practices and their unintended, unexamined consequences. The first is technology transfer, the not-so-innocent passage of our know-how to our partners and rivals.

Export deals, particularly military sales, often depend on barter arrangements. They regularly include obligations for transfer abroad of U.S. technology. Between 1980 and 1984, such offsets resulted in new or enhanced production of civilian aircraft or components by seven of our trading partners. Likewise, we have spread American technology to foreign electronics, communications, steel and machinery industries.

This kind of transfer is on the rise and so is the competition it fosters. It poses obvious long-term economic implications. We need to examine more closely the costs and benefits of the "free" flow of knowledge.

Another example: much of our diplomatic effort with countries like Brazil, which I visited in January, has been devoted to protecting entry rights for U.S.-based multinationals. They want to expand overseas subsidiaries which may well wind up exporting to the U.S.

We push hard for that access and not enough on opening up heavily protected Third World markets to exports of goods made in the U.S. Our negotiators seem to despair that it is a hopeless task. The banks, understanding how debtor nations pay their loans, want to see countries like Brazil import less and export more. But the stakes are too high to assume that our national interest is best pursued by making life more comfortable for our diplomats and bankers.

Now that our domestic firms once again are moving into position to challenge foreign producers on their home turf with goods made in the U.S.A., do we really want to trade that competitive revival off for the right to establish new U.S. subsidiaries abroad? Where does our real national interest lie?

Not all of our miscalculations of national interest are new in origin. Since 1789, American law has discriminated against foreign shipping to favor domestic shipping in our coastal trade. But in the process, it has also discriminated against other U.S. industries by raising their transport costs, while leaving untouched their foreign competitors who can send their wares directly to U.S. ports in foreign bottoms.

The present day incarnation of this sacred cow comes in the form of the Jones Act. It requires that all intracoastal trade be conducted in vessels built in and documented under the laws of the United States, and owned by American citizens. The restrictions are intended to provide for the national defense and the growth of foreign and domestic commerce.

But the tab for the Jones Act now goes well beyond the increased opeating costs it foists on users of domestic transport. Ocean freight costs have fallen so dramatically in the last 25 years that the Jones Act itself has now become a significant impediment to supplying many regions of the U.S. with domestic rather than foreign products which are carried in much cheaper foreign bottoms.

At the ITC, we have seen sugar coming into New Orleans from Europe rather than Florida in large part because the shipping costs were cheaper from Europe. Cement is shipped to southern California from Australia cheaper than it can be shipped from northern California. And in many areas, it is cheaper—even with the decline of the dollar—to buy foreign steel products because ocean transport from Europe or the Far East is cheaper than barge transport in the U.S. We seem to be cutting off our noses to spite our faces.

A careful new look at this politically and emotionally loaded subject could come up with changes that would foster competitiveness of regional industries in the U.S., protect legitimate national security interests in a merchant marine, and quite possibly even stimulate employment of our seamen. As it stands now, our regional industries, merchant marine, and shipbuilding all suffer. We can do better by all three.

Let me close with one subject that is for good reason a part of the liturgy of every American trade official. Consider Japan, which has a fundamental problem in the imbalance between its huge savings and relatively low domestic consumption.

The result is a flow of Japanese capital abroad rather than an inflow to Japan of exports from the U.S. and Europe. Yet, the Administration has in the past expended its diplomatic capital with Japan on serious, but nevertheless less important market access issues.

We must find new energy to press the Japanese to make whatever changes are necessary to encourage greater consumption. The exact way that "keeping up with the Joneses" will get translated into "keeping up with the Tanakas" is of course a Japanese affair. But the necessity of doing so is a fact of life given current international trade flows. We can only hope that Prime Minister Nakasone's visit will help speed the process. But this kind of change will not come easily to Japan; real progress requires continuous pressure from all Japan's trading partners.

These examples show that we have yet to develop a deep understanding of where our national interest lies. We are even further from a trade policy consistent with that interest. However troubling, we should not be surprised that there is apparently no clear expression of America's national interest in its trade policy. After all, only in the past year has there been a serious appreciation of the need for a national trade policy, one on an equal footing with macroeconomic and foreign policy.

The time has never been better for changing course. The political debate has switched gears away from the illusion of protection and toward the reality of competition. The second wind of the present recovery has given us unique possibilities of implementing a long-term perspective before the next recession again inevitably narrows our vision.

We have some difficult work ahead in forging a trade policy to replace our outdated passive approach with measures that truly promote our national interest. The issues are so fundamental that they will only be clarified when they are presented to the entire body politic, rather than just the handful of insiders who have until now generally monopolized discussion of trade issues.

I hope you will join in sorting out the issues we as a nation must face together.

Thank you.

MIMI SILBERT AND DELANCEY STREET

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. LEVINE of California. Mr. Speaker, as part of a series on drug abuse, a remarkable person and an extensive innovative drug rehabilitation program were featured in yesterday's Washington Post.

The person is Dr. Mimi Silbert, one of the most talented people I know, and the program is called the Delancey Street Foundation.

Mimi Silbert and Delancey Street should serve as both an inspiration and a model for others.

I commend the Post article to my colleagues for their review and consideration:

DELANCEY STREET: FOR A FEW ADDICTS, A 4-YEAR LESSON IN LIVING

BREWSTER, NY.—In a 19th century oak-paneled dining room, before a long table set with sterling silver, 75 drug addicts jostled for standing room.

All eyes were fixed on a small woman with a broad, ironic smile. "Good afternoon," Mimi Silbert said. The group returned the greeting in unison, and then broke into laughter. Silbert, president of the Delancey Street Foundation drug rehabilitation program, was already playing the room like a violin.

The surroundings—a Tudor-style mansion set in 92 wooded acres about 70 miles north of New York City—seemed impossibly opulent for a drug treatment program. But they reflected Delancey Street's style, as well as its success at turning drug problems into manpower, all the while shunning government money.

The money that residents make selling stenciled coffee mugs to university bookstores, moving furniture with Delancey's fleet of trucks, or building ornamental planters at the foundation's factory puts food on the table—and working capital into the foundation's budget. In turn, addicts and criminals get a taste of what it's like to lead a normal, workaday life.

Nearly one of every three residents here was convicted in D.C. Superior Court of selling drugs, prostitution or violent crimes such as robbery or assault. They were placed on probation to come to Brewster, and before they are deemed ready to return to society, most will spend at least four years in one of three Delancey facilities in California and New Mexico, or in this 30-room, renovated castle.

During that time, they are supposed to learn to read and write; cook a meal or lay bricks; drive a truck or keep books. When they sit down to dinner, there might be oysters or snails on their plates. Silbert contends that exposure to the finer and more exotic things in life takes some of the fear out of being an addict, fear of a larger world that for them seems full of complications and problems too big to overcome without using drugs.

"Our peole who stay here have to do four years just like Harvard," said Silbert, 44, a criminologist and psychologist who once counseled offenders at Lorton Reformatory's Youth Center.

"NEVER LEARNED TO MAKE THEIR WAY"

"We're dealing with a lot of people who have never learned to make their way legitimately or successfully into American society. We teach them how to do it on the assumption that you can then reject anything in society you don't like, but not because you don't know about it."

Each morning there is a new vocabulary word to learn—"ghetto talk" is strictly prohibited. Breakfast call comes at 7:30 a.m., and for the rest of the day it's work at one of the several industries, supervised by more experienced residents.

At Delancey's four facilities there is only one paid employee: Silbert. The rest of the job of managing the foundation's properties and business is left to the residents themselves, the most successful of whom move to the top of the Delancey hierarchy and the most coveted rewards, a private room and dating privileges.

The 23 D.C. convicts at Brewster, many of them unable to get into packed programs near Washington, found out about Delancey Street through their attorneys or from the brochures the foundation sends to the D.C. Jail.

Most graduates go on to lead successful lives, Silbert said, because they must have three skills and a job before they leave. So far, though, none of the D.C. enrollees has been in the program long enough to graduate.

Started in San Francisco by four addicts 15 years ago with a $1,000 loan, Delancey Street prefers to take serious criminals, rejecting only sex offenders. Silbert said she joined the group after being asked to help write a proposal for a government grant, and later took full charge. She tries to accept all who apply, although she has had to close the doors to some in the past year because of a crush of applicants.

Melvin Peoples, a 32-year-old heroin addict and drug peddler, took the train to Brewster from Washington last year after a Superior Court judge placed him on probation following Peoples' guilty plea to a charge of trying to kill his wife.

"I didn't know where to go," said Peoples, who was turned away from at least three programs in Washington. "Either they were full up or they wouldn't accept me."

Now he is helping to install electrical wiring at the expanding Brewster complex, aiming to become a master electrician. "I'd been in it [drugs] for a long time. And this has given me a chance to see the other side, how it is without any heroin, without the craziness of the streets."

Joe Henery, 39, who grew up around 14th and U streets NW, was peddling drugs and stealing purses out of offices to support his addiction when he was caught driving a stolen car. He was placed on probation to enter Delancey Street last year and said he sees this as his last, best chance to go straight. He's got a carpentry job, turning one of the estate's outbuildings into an office.

"If I had gotten out of jail this time instead of coming to Delancey Street, . . . I probably would be dead or so far gone until wouldn't nobody even like to have anything to do with me."

RESIDENTS ATTEND FREE

In all, Silbert oversees more than $7 million in property and other assets and $6 million in income last year, according to a financial statement she provided. Residents attend the program free of charge.

The foundation was named for a street on New York's Lower East Side that was a haven for immigrants at the turn of the century. Silbert said she adopted many of the ideas for Delancey's self-supporting industries from what she saw while visiting an Israeli kibbutz.

She sees addicts as people trapped in a cycle of guilt, self-hatred and destructive behavior who don't know how to cope or live with other people and who desperately need to learn traditional American values.

The surroundings at Brewster might be lush, but residents, she maintains, are doing more penance than if they were locked in a cell. They must finally take responsibility for their lives.

"Prison does not give anyone a sense of responsibility. It's the exact opposite," she said. "You see a cell in the prison system and its disgusting, but it's not necessarily the hardest punishment for a person coming from a world these people have come from.

"Our punishment is much worse. It's that you work."

DISINCENTIVES TO EMPLOYMENT

HON. BYRON L. DORGAN

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DORGAN of North Dakota. Mr. Speaker, job layoffs, illness, the death of a wage earner, the closing of a plant, the failure of a crop are some of the factors that can trigger a family's becoming poor; all are events beyond the control of an individual. We need to be sure we are there to help that person or that family to be able to help themselves as soon as possible. We cannot do that when we are actually providing disincentives to work.

The Grand Forks Committee on Human Needs recently addressed the disincentive our current AFDC and Food Stamp system imposes on parents who want to work but have dependent children and no one to take care of the children.

Attached is the report of the Mayor's Committee on Human Needs. This information should help us when we formulate policy on how to provide incentives to people to move from the welfare roles to the payrolls.

April 8, 1986.

Representative BYRON DORGAN,
House of Representatives, Washington, DC.

DEAR REPRESENTATIVE DORGAN: We are a group of concerned citizens who serve on the Grand Forks Mayor's Committee on Human Needs. The major goal of this committee is to address the concerns of the poor and disadvantaged groups in our city. A concern with which the committee has been struggling is the disincentives to employment for parents receiving Aid to Families of Dependent Children (AFDC) benefits. As you know, AFDC is an extremely complex federal/state program and substantive changes in this program must occur at a Federal level. We believe some fundamental changes in the AFDC program should occur in order to create an incentive to employment for AFDC recipients. Therefore, we are asking that you share our concerns and examine means to reward, rather than frustrate, efforts of these parents to find and keep employment.

To illustrate this point, we share the following realistic example in which a parent can in fact find herself with fewer resources because she has chosen to work in an effort to become less dependent upon public aid:

It is not uncommon in North Dakota to find a 20-year-old woman who is single, has a three-year-old child, and receives AFDC benefits in the amount of $301.00 a month and $125.00 a month in food stamps. This is the maximum amount of AFDC and food stamp benefits an individual can receive in North Dakota for a two person household with no other source of income. Typically, this woman's only employment opportunities are less than full-time employment at minimum rate. If she works 30 hours per week for a minimum wage of $3.35 per hour, her gross income is $432.15 per month. This income will affect her and her child's AFDC and food stamp benefits substantially, as can be seen on the attached chart. The working mother made $36.15 for the first four months. The next eight months actually cost her $12.85 per month to work. After one year, it cost her $32.85 per month to work.

It is also noteworthy to remember that full-time employment would exacerbate this problem even more for this woman.

This situation is not atypical. We solicit your support in alleviating the problem of disincentives to employment for AFDC parents. We sincerely hope you will involve yourself in what we perceive to be a meaningful reform of the welfare system.

We feel that there must be a better design to the system towards the goal of assisting and encouraging AFDC recipients who want to work with more generous transitional incentives which will save taxpayers money in the long run.

We would be interested in your feelings about the matter of incentives/disincentives for AFDC parents wanting to work. We would also be interested in knowing if you are aware of any efforts within Congress, the Department of Health and Human Services, or the Administration to deal with this problem. We would be happy to meet with you or your staff at some mutually convenient time to explore the situation further.

Thank you very much for your consideration and assistance.

Sincerely,

ELIOT GLASSHEIM,
Major's Committee on Human Needs.

Eliot Glassheim, Chairman, Quad County Community Action Agency; Rosie Black, Vice Chair, Citizen Representative; Renee Moon, Secretary, Grand Forks Public School, Special Services; David Braaten, Grand Forks County Social Services; Tim Heisler, North Dakota Job Service; Robert Sanderson, Northeast Human Service Center.

Ron Volden, United Way; Bob Gustafson, Grand Forks Chamber of Commerce; Dennis Johnson, Grand Forks City Council; Margaret Olmstead, Grand Forks Public Health Department; Judy Miezwa, Adult Abuse Community Service; Herb Schimmelphennig, Vocational Rehabilitation; Rita Brown, Senior Citizen Representative.

Thomasine Heitkamp, UND Social Work Department; Ernest Norman, UND Social Work Department; James Lason, UND Sociology Department; Ed Waldron, UND Medical School; Earl Beal, Citizen Representative; John O'Leary, Grand Forks Office of Urban Development; Ruth Jones Project Self-Sufficiency.

SYSTEMIC DISINCENTIVES AGAINST WORKING

	House-hold A—non-working AFDC recipient	Household B—Single mother w/3-year-old child, who goes to work 30 hr. per week at $3.35 an hour (months after starting work)		
		1–4	5–12	12+
Gross work earnings		$432.15	$432.15	$432.15
(+) Total AFDC grant	$301	162.00	93.00	64.00
(+) Total food stamps	125	63.00	83.00	92.009
Total gross income	426	657.15	608.15	588.15
(−) Baby sitting cost		(120.00)	(120.00)	(120.00)
(−) Work-associated costs		(75.00)	(75.00)	(75.00)
Actual disposal income	426	462.15	413.15	393.15
Net gain(loss) from working		36.15	(12.85)	(32.85)
Gain(loss) per hour		0.28	(0.10)	(0.25)

The chart above compares disposable income for two households: Household A is a single mother who has a 3-year old child and who does not work; Household B is exactly the same, except that the mother attempts to take care of herself by working. Our assumption, based on experience, is that the woman in Household B does not have much training, is not sought after in the labor market, and will have to start as a 30 hour/week worker at minimum wage.

Under the present system, there is *some* attempt to build work incentives into the system. That is, a work allowance and a child care allowance are subtracted from earnings in computing AFDC benefits. An additional $30 a month in earnings are disregarded for the first four months and an additional one-third of the net earnings (after work allowance, child care and $30 disregard) are also not counted as earnings for the first year after starting work.

Though these disregards are an acknowledgement that the system must provide incentives if we wish to encourage AFDC recipients to work, the results do not accomplish the intention. The woman who does not choose to work has $426 of disposable income from AFDC and food stamps. After deducting actual out of pocket expenses attributable to working (baby sitting, clothing and transportation expenses, Social Security deduction), the woman who chooses to work has a net disposable income gain of 28 cents an hour for the first four months she works, and a net disposable income *loss* from working of 10 cents an hour for the rest of the first year.

The disincentives to working get worse if one adds in other complicating factors such as Medical Assistance, Housing Allowances and Fuel Assistance. We are not arguing against the minimal support systems for single mothers who cannot or do not want to work. What we are saying is that the social support system must not be so quickly withdrawn from those single parents who wish to work themselves out of dependency towards self-sufficiency. We hope that Congress will work with the appropriate agencies to correct this disincentive problem. We would be glad to be involved in any proposed solutions that would replace disincentives for working with incentives to work.

A PROFILE IN HUMANITY

HON. NORMAN Y. MINETA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. MINETA. Mr. Speaker, Mitchell Y. Watanabe is a young man who has shared with me some thoughts he has written about his grandfather, Harry Watanabe. The elder Mr. Watanabe was one of the 120,000 loyal Americans of Japanese ancestry interned by this Government during World War II.

The story of Mr. Watanabe's life is one that brings to life the human tragedy of the internment; and of the spirit and endurance that enabled Americans of Japanese ancestry to rebuild their lives.

I am sure my colleagues will find this brief remembrance moving and interesting.

A PROFILE IN HUMILITY—MITCHELL Y. WATANABE

This is an article about perhaps that least admired of human virtues—humility. St. Paul described humility as 'Not to think more highly of oneself than he ought to think'. And this is a story of the pressures experienced by a turn of the century immigrant and the grace with which he endowed them—an account of the loss of his occupations, the relocation of his being and the vindication of his reputation and principles.

A nation which has forgotten the quality of humility which in the past was brought into the public spotlight is not likely to insist upon or require that quality in its general public today—and in fact we may have forgotten. We may remember the hardships endured by our immediate forefathers when they first immigrated to American, or were forced onto reservations, but we have forgotten their convictions of providing a better way of life for their children. We have forgotten and possibly we do not care.

Recently, I watched my shocked father view the culmination of his work of thirty years as a pharmacist lay in ruins, as his store was demolished by an earthquake. This he did too stunned to cry with the full knowledge that he had no specific insurance coverage for this type of disaster. Reflecting on this, I wondered if that was the way my grandfather had appeared when he first inspected his first field of cantaloupes in America glistening in the sun with a disease, completely ruined. He had saved enough money to farm by making beds for a hotel and filling capsules for a pharmacy. Those things he did for less than ten cents an hour.

Set back by farming, my grandfather began working toward beginning a plant nursery. This he did in Coalinga, California, an area with poor soil, a harsh climate, and worst of all at the time, alkaline 'hard' water. However the seedlings he planted flourished and he reportedly became quickly established as the leading authority on gardening for the community. Yet still, the holiday dinners were mostly celebrated when a loving neighbor would give the family a turkey. Consequently, he again attempted to farm. This time he met the same fate when his fruit orchard crop failed.

Returning to gardening in the same town, he greatly benefited from Roosevelt's depression measures. He did this by designing the landscape for the accelerated construction of public buildings, and providing the hardiest plants. However, just when the nursery business began doing well along with the assistance of this two eldest sons, he was told to relocate by a Presidential order. This he did without remark. Afterwards, he returned once more to begin the Nursery. Coalinga was his home where his character was recognized better than his Japanese features.

With his words, my grandfather only instructed me to do what ever I did to the best of my ability, and above all else to be honest. By his actions and through the absence of words concerning his difficult past, he demonstrated humility. O.K., so his crop failed; who was he to be immune from natural disaster. O.K., so the country he chose to live in ordered him into a camp; of what benefit would it be for his children and their children to protest this occurrence and thus kinder more prejudice. Because he felt this way he left his home without arrogance although it meant placing himself in a position inferior to his fellow Americans. In the Japanese culture this meant not being fit for society. Furthermore, he had completely abstained from any anger, bitterness, or remorse concerning the past as it could interfere with the contentment of the present and future.

A biblical proverb states that 'before honor comes humility'. A local newspaper article proclaimed that 'at one time Harry Watanabe was just about the best known man in Coalinga'. I was taught in fifth grade that the city council had moved to allow my grandfather and his family to stay in town during World War II. Throughout my life people from the community have spontaneously told me warm stories and praises of my grandparents. However, my grandfather has always been the proudest of raising three children that have never spent a day in jail and have gone on to be contributing members of their community.

To most Americans, at least a part of this story has been heard countless times from their forefathers. However, to the people with the "me" or "us first" attitude, the moral of this story does not seem to have been grasped. In fact, the meaning of humility is frequently misunderstood. Some may despise the dullness of its presentation, but may also fail to note the implications of its consequences. Some may admire its virtues in other people and for other times, but may fail to comprehend its current potentialities.

The quality of humility allows one to step back from an issue and view it and its possible results objectively from both sides. Furthermore, it permits one to consult another source regardless of rank. These few consequences alone leave one in a better position to make a more honorable decision.

The "me first" attitude, which is nothing new but perhaps now more celebrated, seems to be an attempt to achieve success through a short cut. I can understand the reasoning behind this. By looking out for number one, you won't be helping someone else get ahead. However, I am convinced that success is being able to reflect on your past with satisfaction, which is shared or upheld by your peers. This is what my grandfather has achieved through humility—not though putting his self-esteem or his profit first.

As you have probably recognized, this article has used the structure of John F. Kennedy's *Profiles In Courage,* at times only altering a few words of a sentence. (My sincerest apology to anyone I have offended.) However, this does not mean humility is opposed to courage. The antonym for courage is cowardice, which is not depicted in this story. To persevere through decisions which separate one from family, friends, and country takes much courage. Also, this article is not intended to encourage dependence, agreement to all compromise, or excessively withdrawn or stubborn adherence to ones own personal convictions.

The intension of this article is to encourage present and future generations to perse-

vere in the pursuit of their American dream, raising above external circumstances and mediocrity. In particular, this story is to bestow more honor on the early Japanese immigrants. A document to inspire my present "me" generation to provide hope for future children. My immediate forefathers have accomplished this for me by living honorable lives. We should acknowledge this in all peoples to provide restitution for the difficult times they have endured because of their humility. If we do not, we will rob our elders of the satisfaction with their lives and future generations of some hope.

To conclude, I will basically replace the word courage with humility in the final paragraph of *Profiles In Courage.* To be humble, this story makes clear, requires no exceptional qualifications, no magic formula, no special combination of time, place, and circumstance. It is an opportunity that sooner or later is presented to us all. In whatever arena of life one may meet the challenge of humility, whatever may be the sacrifices one faces if one follows their conscience—the loss of their friends, their fortune, their contentment, even the esteem of their fellow man—each person must decide for their self the course they will follow. This story of past humility can define that ingredient—it can teach, it can offer hope, it can provide inspiration. But it cannot supply humility itself. For this each person must look into his own soul.

PROGRESS ON CLEAN COAL DEMONSTRATIONS

HON. MARILYN LLOYD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. LLOYD. Mr. Speaker, on Monday, April 21, 1986, the Department of Energy made public a list of approximately 50 companies who have submitted proposals to be considered for the clean coal technology fund. This latest disclosure brings us one step closer to attaining the goal of the widespread demonstration of the use of coal in an environmentally sound manner. It has been a long and difficult congressional task to obtain the set-aside for the clean coal technology reserve fund and those of us who have been ardent supporters of it may soon see the fruits of our labors. I am particularly pleased with the progress since the clean coal bills I introduced first contained the main features of the provisions which were ultimately contained in the enacting legislation.

When Congress authorized the Clean Coal Technology Program in 1985, and appropriated the first $400 million for the fund, we realized that there existed a clear Federal need to encourage a focused effort to obtain acceptance in the marketplace through accelerated clean coal technology demonstrations. This program will enable us to utilize our vast coal resources in the most beneficial manner and may also help to revitalize our U.S. coal industry. I still believe that both of these goals can be accomplished and that the degree of interest shown in this program as well as the quality of the proposals is a heartening indication that our hopes for this program were well-founded. It is clear from the wide range of companies involved and technologies suggested in the proposals that this program is of great interest to the most solid technical performers in the fossil energy community and thus of great importance to our secure energy future.

I have attached the list of proposals as they appeared in the Energy Daily.

Elgin-Butler Brick Co., Austin, Texas. Project not specified in public documents.

State of Minnesota, U.S. Steel Corp. and Korf Engineering. Seeking $59 million to demonstrate a process called COREX direct-smelting, which would use coal in a replacement for conventional blast furnaces.

Babcock & Wilcox Co. and Ohio Edison Co. To demonstrate an advanced limestone injection process called Coolside to control sulfur dioxide emissions in coal-fired plants.

American Electric Power Service Corp. Seeking cost sharing to demonstrate pressurized fluidized bed combustion at Ohio Power Co.'s 70 megawatt Tidd plant in Brilliant, Ohio.

Pennsylvania Coke Technology Inc., ENI Engineering Co., Westinghouse Electric Corp., Consolidation Coal Co. and Kaiser Engineers. A $53 million, 45-month project to build a PACTI plant that produces coke for steelmaking and electricity as a byproduct.

Consolidation Coal Co. and Foster Wheeler Power Systems Corp. For an advanced integrated gasification combined cycle plant in Morgantown, W.Va.

American Minerals Inc. of Oswego, Kansas. A proposal to demonstrate reclamation of abandoned coal slurry ponds.

City of Tallahassee, Combustion Engineering, Bechtel North American Power Corp., R.W. Beck and Associates and Westinghouse Electric Corp. Requesting $50 million to convert a gas/oil fired plant into a 235 megawatt circulating atmospheric fluidized bed power plant.

University of Cincinnati. For a proprietary swirling circulating fluidized bed boiler producing 100,000 pounds per hour of steam to be installed on the university's east campus.

Wisconsin Electric Power Co., Gilbert/Commonwealth, BBC Brown Boveri Inc., Foster Wheeler, Research-Cottrell and the Electric Power Research Institute. Seeking $60 million for a turbocharged PFBC retrofit of the utility's 80 megawatt Port Washington unit 2 plant.

Energotechnology Corp., Duke Power Co. and the North Carolina Alternative Energy Corp. A $21.4 million project that integrates a pulverized coal boiler, a smaller fluidized bed boiler and a simple coal cleaning plant.

Colorado-Ute Electric Association, Inc., Montrose, Colo. For its $87 million conversion of a coal-fired plant at the Nucla Station, where construction is already in progress.

North Marion Development, Inc./MADIFCO, Fairmont, W.Va. A project that will recover coal from refuse piles and lagoons.

Cleveland Electric Illuminating Co. Seeking support for a compressed air storage powerplant with a coal-fired fluidized bed combustor as a heat source.

Charwill Corp., Boren, Calif. Project not specified in public documents.

Dow Corning Corp., Midland, Mich. A project to collect and use waste gas produced in submerged-arc electric furnaces during reduction of silica ores with coal to produce high-silicon ferroalloys.

NOXSO Corp., Library, Pa. A demonstration of the NOXSO process at Ohio Edison's Toronto plant in Toronto, Ohio.

Stirling Energies, Inc., Beckley, W.Va. For upgraded coal washing facilities.

M.W. Kellogg Co., Houston, Texas. For an integrated gasification combined cycle plant in Somerset County, Pa., using the KRW fluidized bed gasifier.

Energy International, Inc., Cheswick, Pa. For an underground coal gasification facility in Wyoming to produce 4,000 barrels per day of liquids and 60 million cubic feet per day of substitute natural gas.

Combustion Engineering, Windsor, Conn. To demonstrate advanced coal cleaning technologies.

Weirton Steel Corp., Weirton, W.Va. To demonstrate the KohleReduktion process of direct reduction iron making.

University of Florida, Gainesville, Fla. For a smallscale project to test coal water slurries with natural gas assist in a 20,000 pound per hour watertube oil boiler.

Western Energy Co., Butte, Mont. For an advanced coal cleaning process to upgrade low-rank western coals to the equivalent of low-sulfur, high-Btu eastern bituminous.

Ohio Ontario Clean Fuels Inc., Stearns Catalytic Corp. and HRI Inc. For a project to convert high sulfur Ohio coal to liquids using HRI and Stearns Catalytic experience with coal/oil co-processing.

TRW Inc., Redondo Beach, Calif. Project not specified in public documents.

Community Central Energy Corp., Scranton, Pa. A project to evaluate several unspecified pre-combustion coal cleaning technologies.

United Coal Co., Bristol, Va. Project not specified in public documents.

Dravo Wellman Co. and Battelle Columbus Laboratories. For a $60 million demonstration of a proprietary technology for agglomerating high sulfur coal and lime in a gasifier to yield a low sulfur, high heating value fuel.

Sanitech Inc., City of Hamilton, Ohio, and Lorain County Community College. To build two different Sanitech traveling grate coal gasifiers, one producing gas for a conventional electric boiler, the other to heat the community college campus.

Atlantic Research Corp., Alexandria, Va. For a project to demonstrate coal cleaning with bacteria at one ton per hour.

Energy and Environmental Research Corp., Irvine, Calif. For a project to apply gas reburning-sorbent injection to a large coal-fired utility boiler.

University of Missouri, Columbia, Mo. To build a 200,000 pound per hour atmospheric fluidized bed boiler to heat the university campus.

Coal Technology Corp., Naples, Fla. For a coal mine refuse project.

ZTEK Corp. Waltham, Mass. For a project coupling high temperature soid oxide (zirconia) fuel cells to a coal gasifier.

Coal Tech Corp., Merion, Pa. For a test of an advanced, air-cooled cyclone coal combustor on a 23 million Btu/hour oil-designed package boiler in Williamsport, Pa.

Southwestern Public Service Co., Amarillo, Texas. To replace an 18-year-old gas-fired plant with a 250 megawatt circulating bed boiler, with DOE picking up $43 million of the $114 million total.

Recovery Systems, Ltd., Oakbrook, Ill. For a 100-megawatt demonstration of the Pircon-Peck process of using phosphate rock and ammonia to capture flue gas pollutants, with a fertilizer by-product.

PPG Industries, Inc., Lake Charles, La. For a demonstration of a 375 kilowatt fuel cell, with fuel from gasified coal.

McDonnell Douglas Energy Systems, Inc. Louisville, Ky. For development of an advanced coal cleaning plant using microbubble column flotation.

Westinghouse Electric Corp., Madison. Pa. To combine coal gasification with the KRW gasifier and the Westinghouse air-cooled phosphoric acid fuel cell, a $36 million project with DOE picking up 36 percent of the funding.

ChemCoal Associates, Cleveland, Ohio. For a project using coal solvents and alkali to dissolve and breakdown coal, yielding solid and distillate fuels.

Tennessee Valley Authority. To install a full-scale dry scrubber on the 160 megawatt unit 8 at the Shawnee power plant near Paducah, Ky.

Tennessee Valley Authority, National Fertilizer Development Center, Air Products and Chemicals Inc., Chem Systems Inc. and the Electric Power Research Institute. To demonstrate the once-through methanol process as an enhancement to integrated combined cycle power generation from coal.

General Electric Co., Cincinnati, Ohio. To demonstrate the feasibility of a simplified integrated gasification combined cycle system at five and 50 megawatts.

FMC Corp., Schaumberg, Ill. Project not specified in public documents.

Questar Synfuels Corp., Salt Lake City, Utah. To upgrade an existing coal gasification unit at West Jordan, Utah, to process 30 tons per day.

The National Lime Association, Arlington, Va. Project not specified in public documents.

Chemion Corp., Henderson, Nev. Project not specified in public documents.

FALMOUTH, MA: 300 YEARS

HON. GERRY E. STUDDS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. STUDDS. Mr. Speaker—

Whereas, In the year One Thousand Six Hundred and Sixty, Jonathan Hatch and Isaac Robinson did build their dwellings on "the Neck of land beside the Herring Broke," in the place known to the Indians as Suckanesset, on the narrow land, now called Cape Cod, this land having been purchased from the Indians with the permission of the Court of Plymouth Colony; and

Whereas, Hatch and Robinson were joined by other settlers who with them tilled the land and founded Suckanesset Plantation; and

Whereas, This settlement did grow and prosper, and in the year One Thousand Six Hundred and Eighty Six, on the day which modern reckoning would be the fifteenth day of June, was granted Charter as the Town of Suckanesset; and

Whereas, Several years later said Town of Suckanesset, to honor the English explorer Bartholomew Gosnold, did change its name to Falmouth, this being the anchorage at the mouth of the river Fal in England from which Gosnold sailed in the year One Thousand Six Hundred and Two on his voyage of exploration, in the course of which he explored the coast of New England and, according to tradition, set foot on the shore of Suckanesset; and

Whereas, The people of Falmouth, Massachusetts, did valiantly and effectively defend their shores against the enemies of the United States in the War of Independence and the War of 1812;

Whereas, The Town of Falmouth did, in the course of time, become a favorite summer resort, a beloved retirement haven and the home of world renowned scientific institutions devoted to the study of the oceans and the creatures that dwell therein,

I, therefore, urge my colleagues to join with me in saluting the Town of Falmouth as it celebrates its Tricentennial on Sunday, the Fifteenth Day of June in the Year One Thousand Nine Hundred and Eighty Six.

THE TAXPAYERS CANNOT AFFORD AN UNTESTED AMRAAM

HON. DENNY SMITH

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DENNY SMITH. Mr. Speaker, several weeks ago I inserted for the record a memorandum written by Secretary Weinberger's own test director, Jack Krings, concerning the test results for AMRAAM [advanced medium range air-to-air missile]. Mr. Krings memo stated that there was not enough test information to certify the AMRAAM's performance.

Now I have learned that the Development Test and Evaluation office also seriously questioned the performance of the AMRAAM. I have enclosed that memorandum along with my latest correspondences with the Defense Department for my colleagues information.

I am not calling for the cancellation of the AMRAAM. However, I believe that during this time of budget constraint, we should seriously consider whether millions of dollars should be spent to qualify a second producer for a weapon whose performance is very uncertain at this time.

HOUSE OF REPRESENTATIVES,
Washington, DC, May 7, 1986.

Hon. CASPAR WEINBERGER,
Secretary of Defense,
The Pentagon, Washington, DC.

DEAR MR. SECRETARY: Thank you for your letter responding to my questions concerning the AMRAAM program.

I appreciate the clarification of your February 28, 1986 certification that the AMRAAM met the requirements laid out by Congress in Public Law 99-145, Section 10.

However, several points in your letter disturb me. In regards to the December 17, 1985 memorandum written by the Director of Operational Testing you state "the memorandum did not suggest that I not make the required certification to Congress."

I agree with you that the OT&E memorandum did not state directly that you shouldn't certify the AMRAAM's performance. Nonetheless, I'm sure if you reread the memorandum you'll agree that such statements as "There is a low probability of adequate test results being available for an operational capability forecast before March certification" leaves little uncertainty as to the intended message.

Moreover, I was just as chagrined to learn that not only did the OT&E office question the certification of the AMRAAM's performance, but that your own Development Test and Evaluation office also seriously questioned the performance of the AMRAAM. (see attached)

Let me add that there is no ambiguity in DT&E's viewpoint: "We can not recommend that AMRAAM be certified as being expected to meet all its performance requirements on the basis of the limited FSD (full scale development) testing done to date."

Your point is well taken that the performance certification was to be based on information that would be available by March 1st under the revised DSARC testing schedule. However, the AMRAAM did not even meet the revised testing schedule. The revised testing schedule called for 6 DT&E tests to be completed by March 1st. Only 3 tests were conducted by March 1st due to various problems with the missile. According to Hughes, along with the 3 successful launches there were *eight* launch failures. Two of these failures occured after the three successful launches (see attached). As the DT&E report states, "the revised flight test schedule is not being met."

As a former Air Force pilot myself, I appreciate the Air Force's desire to get this missile going and keep it on track. I want to do everything possible to help our pilots, but there is a presumption in the Pentagon that the AMRAAM will come on board come hell or highwater—or taxpayer dollars. This is clearly shown in the decision to set up a coproducer—despite the fact that both test offices have grave concerns about the missile's performance to date. Somewhere it is lost that the goal of defense procurement is to give our fightingmen weapons that work—not to see how many new weapons can be brought on line.

As I've said before, I am not calling for the cancellation of the AMRAAM. I firmly believe an upgrade of the Sparrow missile is needed. In addition, I visited Eglin AFB and was thoroughly impressed with the quality and conviction of the men in charge of the AMRAAM program. Nevertheless, until the design is finished and full operational testing has been completed, I don't know—and the Pentagon shouldn't presume—that AMRAAM is the answer to all our problems.

Therefore, I strongly urge you to cancel production funds for the second source, Raytheon. These funds could be better utilized in speeding up development and testing of the AMRAAM, and increasing the number of operational tests.

I look forward to working with you further in this matter.

Best regards,

DENNY SMITH,
Member of Congress.

OFFICE OF THE
UNDER SECRETARY OF DEFENSE,
Washington, DC, February 21, 1986.

Memorandum for Assistant Deputy Under Secretary (Air Warfare).

Subject: AMRAAM certification.

Your memo of 14 Feb requested comments on the USAF's proposed letter to Congress for SECDEF signature relative to certification of the AMRAAM PROGRAM. There were five concerns contained in Congressional language, three of which are pertinent for DTE comment. Our comments are summarized as follows and discussed in detail on the attached.

We believe that the Secretary can certify that AMRAAM's design is complete with regard only to the design as we know it today, on paper, and that [AMRAAM's performance to date has been nominal indicat-

ing at least a slow but positive trend toward meeting all its performance requirements. We can not recommend that AMRAAM be certified as being expected to meet all its performance requirements on the basis of the limited FSD testing done to date.] [Further, the Secretary can certify that it is our intent to ensure that testing will be conducted on any and all producibility changes incorporated into AMRAAM as a follow-on test after FSD and prior to incorporating such changes into production missiles.] Beyond this any statements as to certification should contain appropriate caveats as further delineated in the attached backup discussion.

JOSEPH A NAVARRO,
Deputy Under Secretary,
Test and Evaluation.

Attachment.

AMRAAM CERTIFICATION

a. Congress.—Is the AMRAAM design complete and are you confident the present design will work?

Discussion. To the extent that the FSD critical design review has been completed we can say that the design for AMRAAM is complete. However, to date, the manufacturer, Hughes has experienced considerable difficulty in delivering flight test missiles due to the complexity of the design which has contributed to the delay in manufacturing FSD missiles that can be certified as ready for acceptance and test by the government. This necessitated USAF's restructuring of the FSD schedule in the fall of 1985 after 44 months into a 50 month FSD program in which Hughes should have delivered 87 of 91 total flight test missiles but were only able to deliver 6. The new restructured schedule requires the contractor to deliver the original total quantity of missiles on a semiannual basis rather than monthly. Thus he is allowed contractually to deliver a given increment of missiles on the last day of the semiannual period of need be. To date Hughes has delivered 18 missiles against a revised requirement of 16 total in 1985 and 21 in the first half of 1986. The revised flight firing schedule presented at the 16 August 1986 DSARC Program Review specified that 6 flight firings were to occur by the current date. However, only 3 flight test missiles have been fired to date all of which were considered successful notwithstanding the fact that significant delays were encountered in achieving launch due in part to quality assurances anomalies encountered in manufacturing. A fourth attempt to fire an AMRAAM test missile in late January resulted in a hang-fire/no-test when a malfunction occurred in the missile's electrical power supply causing the missile to fail BIT in the final fractional second between the pilot squeezing the trigger initiating the firing sequence and the missile's rocket motor achieving ignition. This failure is still under review by Hughes and the JSPO and has prompted postponement of scheduled flight firings until sometime in March. Thus the revised flight test schedule is not being met. Assuming, however, the current delay is not prolonged, due to manufacturing difficulties or as yet unknown design problems, the revised flight test program can be resumed on schedule without significant effort or impact on FSD.

The point to be made here is that although we can certify the design is complete as we knew it at the conclusion of the critical design review preceding commencement of missile build up for FSD, design issues will surely surface as apparently they have already with the limited number of firings that have occurred. There is nothing new here for such is to be expected at this stage in development of AMRAAM or any other weapon system.

As an example, the seeker RF transmitter has been redesigned from a solid state system to a Traveling Wave Tube Amplifier. The need for this design change first came to light during the validation phase when it was learned that the solid state seeker technology was not as mature as originally thought. Unlike the solid state transmitter system, the power output of the TWTA could meet average and peak power requirements, however, output of the TWTA has been scaled down temporarily in FSD in order to continue flight testing and avoid a problem with self jamming of the receiver while an engineering solution to this problem is intended to demonstrate effectiveness against self screening of the targets or ECM generated by a SOJ.

Therefore certification of design is contingent upon the realization that design changes will likely occur as a result of development and operational tests and it is not possible to predict the magnitude of these changes or how they might affect performance. Of course, all of this is independent of the design changes that are already under consideration for producibility enhancement.

b. Congress.—Do you believe performance will not be degraded from the original development specification as modified by the 14 June 85 DCP, i.e., do you believe performance will meet expectations?

Discussion. The Validation Phase (Advanced Development) demonstrated the proof of concept of AMRAAM through a medium of guided test vehicles, captive test vehicles, simulations and subsystem ground tests. FSD flight firings from the F-15 and the F-16 have indicated nominal missile flight performance once rocket motor ignition and rail launch have been achieved. These missile shots have progressed from the least demanding technically to profiles with ever increasing difficulty and in so doing have successfully demonstrated target acquisition and track capability in a clutter environment and all three modes of missile guidance (command, inertial, active) against single non-maneuvering targets in a benign ECM environment. Based on these limited tests it is difficult to say with a high degree of certainty that AMRAAM can be expected to meet its requirements as specified in the development specification and modified by the latest version of the DCP (dated Nov. 85). We can say, however, with confidence, that the trend so far in meeting performance requirements, albeit slow, is at least positive. Predictions of performance compliance based on computer simulation, captive carriage and performance qualification tests of subassemblies can only be viewed as preliminary.

c. Congress.—Can we be assured that producibility changes will work before the production line is changed?

Discussion. The blue ribbon AMRAAM committee composed of members from OSD, USAF/USN with Hughes engineering serving as consultants, recommended cost reducing producibility changes for AMRAAM some of which have been undertaken by the USAF for incorporation into AMRAAM beginning with LOT 3 production missiles. There is evidence that a general plan exists to test producibility enhanced AMRAAM missiles, however details await further design definition. The point here is that the USAF does intend to test producibility design changes as they are developed and incorporated into follow-on test missiles to ensure performance requirements are met prior to making changes to baseline production. Annex E of the current DCP reflects this intent.

SECRETARY OF DEFENSE,
Washington, DC, April 17, 1986.

Hon. DENNY SMITH,
House of Representatives,
Washington, DC.

DEAR CONGRESSMAN: I am responding to your March 20 letter regarding the AMRAAM program. I understand several offices in the Department of Defense also have received letters from you recently on this program, and I believe that you have some misunderstandings about AMRAAM that are leading to incorrect conclusions.

In you letter you questioned my certifying AMRAAM performance without complete testing information. As you know, Public Law 99-145, Section 210 required that I certify to five design, performance, test, and cost areas by March 1, 1986. This arbitrary date selected by the Congress did not relate specifically to any program milestone. At the time the law was drafted, the Congress knew that the AMRAAM full-scale development program had been restructured and exended from 50 to 79 months and that "complete test information" could not possibly be available by March 1986. This indicates to me that we were to address the certification areas based upon the information available by March 1986.

The law calls for a certification that "performance has not been degraded from the original development specification . . . as amended by the draft Development Concept Paper (DCP) of June 14, 1985." This rather clearly implies that I was to compare performance expected at the time the specification was written to the performance expected at the time of the certification. There was a wealth of data available from ground and flight testing that led me to certify to this particular requirement. Since my last letter to you, the General Accounting Office has testified that there was no legal basis for objecting to the certification.

You have focused on the memorandum written to me by my Director of Operational Testing as a basis for questioning my certification. While we have concerns about whether the test program will be able to keep the pace necessary for us to make future production decisions in accordance with the current schedule, the memorandum did not suggest that I not make the required certification to Congress. My certification is altogether separate from a decision to enter production; each production decision will be based on an assessment of program progress against preestablished decision criteria.

I believe that we have a well thought out program and have established the proper high level oversight. My entire staff concurred with the certification as I sent it to Congress, and I continue to stand behind my position that the certification is appropriate.

Sincerely,

CAP WEINBERGER.

HOUSE OF REPRESENTATIVES,
Washington, DC, 20515 March 20, 1986.
Hon. Caspar Weinberger,
Secretary of Defense,
The Pentagon, Washington, DC.

DEAR MR. SECRETARY: Thank you for your reply to my letter concerning the certification of the cost and performance of the AMRAAM.

In light of the memorandum that the Director of Operational Testing wrote to you on December 17th about the inadequacy of complete testing information, I find it all the more incomprehensible that you certified the AMRAAM's performance.

Mr. Secretary, to put it bluntly, I'm outraged that you would certify the performance of a weapon which has not been thoroughly tested. As you know, until the completion of thorough testing, there can be little confidence as to the final design and cost per missile.

I hope you will seriously reconsider your certification and ask the Congress for an extension of the certification deadline—so you can complete testing of the AMRAAM. I will be happy to help you in this effort.

Best regards,

DENNY SMITH.

WELCOME, ANATOLY SHCHARANSKY

HON. EDWARD P. BOLAND

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. BOLAND. Mr. Speaker, on Tuesday, May 13, I was pleased and honored to join my colleagues in welcoming Anatoly Shcharansky to the Capitol of the United States.

The triumph of Anatoly Shcharansky over the forces of repression is as genuine an example of courage and commitment to cherished values as the world is likely to witness. His was a victory for human rights in a state that chooses to devote a sizable part of its bureaucratic machinery to placing every possible roadblock in the path of the free exercise of those rights.

The Shcharanskys' names have become synonymous with unwavering dedication to human rights. By enduring 8 long years of being harassed, interrogated, threatened, and separated, they have demonstrated the kind of strength and spirit of which heroes are made. Each day they were tested, each day they fought to be free, and they have prevailed.

We all share in the joy of Mr. Shcharansky's release from prison. That joy is felt not only in these Halls, but in communities throughout the Nation. Last Friday was Shcharansky Day in my hometown of Springfield, MA. The Springfield Jewish Federation organized a very meaningful ceremony of tribute and thanksgiving for the triumph of the Shcharanskys, and I am sure that similar events have taken place in many other American cities and towns. However, at this time of celebration, we must not lose sight of the fact that thousands of Jews continue to be denied the right to emigrate from a country which punishes them for their religious beliefs and belittles their values. This treatment by Soviet authorities makes a mockery of their supposed adherence to the principles of the Helsinki Accords and the Universal Declaration of Human Rights. As Americans, we must continue to call attention to the treatment of Soviet refuseniks. For it is our vocal concern that provides them with the encouragement, and the confirmation of the justness of their cause, and which helps them to go on.

Mr. Speaker, the Shcharanskys have reminded the world of two great truths: That the yearning for basic human rights is universal, and that to keep silent in the face of repression is to guarantee its perpetuation. I hope that their presence in our citadel of liberty will cause us to redouble our national and individual efforts to extend the precious gift of freedom to all those who seek it.

DEUKMEJIAN REMEMBERS ARMENIAN GENOCIDE

HON. ROBERT K. DORNAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DORNAN of California. Mr. Speaker, I rise today to underscore my support for the statements of the Governor of my great State of California regarding the significance of the Armenian Martyr's Day Ceremony. On April 24, Gov. George Deukmejian remembered one of the great tragedies of this century, the Armenian Genocide. Today many Armenians continue to carry a burdensome memory of gross injustices during the World War I era perpetrated against them, including the Deukmejian family by the Turkish under the Ottoman Empire.

It think that the Governor's statements constitute a healthy catharsis of past injustices which history cannot hide. As a cosponsor of House Joint Resolution 192, which designates April 24 as a day of rememberance of man's inhumanity to man, I, too, feel very strongly that we must revive the memories of past tragedies such as the Armenina Genocide precisely because properly recognizing the event is the first step in preventing a similar occurrence elsewhere in the world. For this reason, Mr. Speaker, I submit Governor Duekmejian's well articulated comments to the RECORD.

REMARKS OF GOV. GEORGE DEUKMEJIAN

Thank you very much Ed and good evening ladies and gentlemen.

It is a great honor for me to participate in this solemn evening of remembrance and thanksgiving. I would like to thank all of you for being here to join in this tribute.

The tragedy of this century's first genocide has faded for much of the world, but not for the Armenians. For us, the memory of 1.5 million of our parents and grandparents and brothers and sisters who were massacred in their homeland 70 years ago, remains strong in our minds and heavy in our hearts.

We come together today to remember and to honor our ancestors. And we come together to thank this great nation for all the blessings we enjoy today as free people.

But we also gather to call the world's attention to the atrocities which our people suffered, and to all of the other great tragedies which people have perpetrated against people. As Armenian-Americans, we bear a deep responsibility to help guide the world to a better path.

Good and decent people must not close their eyes to evil, must not ignore the suffering of the innocent and must never remain silent in times of moral crisis.

All societies make mistakes. Great societies own up to their mistakes and vow never to repeat them. In America, we have repented for the injustice of slavery. We teach our children that it was wrong and evil, and that all people, regardless of race, color or creed, are created equal. The people of West Germany don't try to deny their culpability in World War II. They teach their children about the horrors of the Nazi Holocaust.

Yet to this day, Turkey refuses to acknowledge the historical truth of the Armenian genocide. They have not apologized or accepted moral responsibility for the actions of a previous government.

We, as survivors and children of survivors, must ensure that the immeasurable pain of the Armenian genocide is not forgotten and that its significance is not lost on this generation or any future generation. Honoring our loved ones who died is a simple act of tribute and human decency. That's why I am hurt that our own United States government will not join us in this remembrance.

The evasion and distortions of the government of Turkey have long since ceased to surprise me. It's time that the government of Turkey stopped playing its cynical game of pretense that this genocide did not occur. They know it happened. They know the evidence is there. They know that hundreds, if not thousands, of newspaper accounts appeared on the front pages of American newspapers during those years of terror.

In one of the articles, a survivor writes of the horrors he witnessed. "I saw one woman whose husband had just been killed, walking with all her clothes frozen, one child in her arms, another on her back, and the oldest walking by her side. Another woman was telling how her husband and children had been butchered before her eyes. She begged to be killed too, but instead she was subjected to treatment worse than death. The wailing of the children, the women, and old people was heartrending. Many of the refugees were swept away in trying to cross the streams, and dead bodies by the hundreds lined the road."

The murder of all the Armenian Faculty members of the Anatolia College by Turkish peasants is described in another article. "These massacres were committed at night by order of the Turkish Government," writes the President of the College, upon his return to the United States. "The pay for the peasants who committed these crimes was the privilege of stripping the clothing off their victims' bodies. One group of our college boys asked permission to sing before they died and they sang Nearer My God to Thee. Then they were struck down."

A 13-year-old Armenian girl who survived tells the tragic story of her family. "One day we came home from school early in the afternoon. We found our father at home, although it was only mid-afternoon. One of the city police was with him. The man was telling my father that he must leave his store, his home and his family, and go away to work on the roads. My mother was crying and clinging in my father's arms. You cannot go, you must not go, she kept saying over and over again. We children began to cry too. Our father turned to us and bid us still. Then he talked with our mother, telling her that she must be very brave. The of-

ficer stood impatiently waiting and said, You must come now. Our father kissed us good-bye and went away. We never saw him again."

Ladies and gentlemen, how can anyone read these accounts and say that this genocide did not happen? When will they realize the terrible price that is paid for silence and apathy?

We're paying that price in blood today. Who does not grieve for today's tragic victims of intolerance? In one recent attack, a mother and her baby girl were blown out of an airplane window in mid-air—and the hate groups argued over who deserved the credit. Entire societies are enslaved and terrorized in places like Afghanistan, South Africa and Southeast Asia.

Today, America has vowed to stand up to these outrages, and I'm proud that our country has found the fortitude to fight for freedom and refuse to let the tyrants overrun the world. While supposed friends and allies cower in fear and make excuses for inaction, America stands tall against the abuses of human rights whether they are perpetrated by governments or by terrorists.

But there is a wide, embarrassing and inexplicable hole in that line of defense against atrocity—and that is our government's opposition to Congressional resolutions which recognize the Armenian genocide believing that support would alienate a NATO ally, Turkey.

Thankfully, other walls of resistence are tumbling down. Last August, the United Nations Sub-Commission on Prevention of Discrimination and Protection of Miniorities resisted heavy Turkish pressure and recognized the 1915 massacres of Armenians as an act of genocide. This was the first time that a United Nations body has acted, and it is the result of an 11-year struggle by the Armenian community.

In February, the United States Senate approved the Genocide Convention, ending a 37 year deadlock on this issue. The passage of this measure is a clear and firm statement against all genocide. Our nation is the greatest symbol of human rights, personal freedom and economic opportunity. The Genocide Treaty puts those countries which rely on oppression, tyranny and assassination on notice that their actions will no longer be tolerated by freedom-loving people.

So tonight, I am renewing my call on the U.S. State Department to reject the pressure of the Turkish leaders and recognize the historical facts of the Armenian Genocide.

Looking around the room tonight, I see many young people—our sons and daughters and grandchildren. Perhaps some of you wonder why we come together to commemorate an event which took place so long ago. Perhaps some of you think that we are too absorbed by the heartaches of the past and should move on.

What we do here tonight is not for us, but for you. We cannot change the past. But unless we continue to speak out against the tragedy our people suffered, this cycle of horrors will go on and on.

So we remember, not only to honor our loved ones who died, but to heed the lessons of that sorrow so that we can build a safer and brighter future for all the world's children.

This is a day of sadness, but let us not overlook the rays of hope on the horizon. In so many parts of the world, differences tear communities apart. Diversity breeds hate, violence, terrorism and civil war. But here in California, 26 million people of tremendous diversity live peacefully side-by-side. We are united by our love of freedom. And because of this, we are also bound in spirit to all those who yearn to be free. We are keepers of the flame of liberty.

I truly believe that it is within our power as residents of America's leadership state to show the world in word and deed, a better way. Through our prayers, through our actions and through the examples we set here in California, we can help bring some light and hope to even the darkest dungeons of the world. Together, we can achieve a just society of peace and security, freedom and opportunity, love and respect. That is our treasured blessing here in California. That is our simple dream for all mankind.

Thank you very much and God Bless You.

THE TRAGIC EROSION OF VA MEDICAL CARE

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RAHALL. Mr. Speaker, Mr. and Mrs. Bill and Jackie Withrow of Beckley, WV, both constituents and close friends of mine, recently forwarded an article to my attention which tells the story of one veteran. The article, published in the American Legion Magazine, is a message from National Commander Dale L. Renaud to veterans and all Americans on the shortcomings of medical care provided to veterans. While the article focuses on the tragedy of one veteran, it points to the erosion of veterans benefits in general and the widespread suffering caused by this erosion.

In the best interest of veterans across the Nation, I am submitting this article for my colleagues' review. We have a commitment to provide veterans with the benefits they were promised when they sacrificed years of their lives and suffered extreme hardships to protect our national security and ideals. I urge my colleagues to read the following article and reaffirm their individual commitments to America's veterans.

HE DIED IN DEBT BECAUSE THE VA DIDN'T HAVE A BED FOR HIM

Much has been written and said about the history and purpose of Memorial Day but, this year, in addition to our traditional observance, we also must recognize a new dimension to the sacrifices of this nation's veterans.

Those we honor this Memorial Day served their country; they served her well and have received their final reward. We will decorate their graves, pay them tribute with rifle salutes, and say prayers in their memory.

But there is another group of veterans we also must remember this month and, indeed, the year' round. They are the very sick, the very old, the very poor of America's veterans. They are the men and women who stood shoulder-to-shoulder with us in time of national need. Yet they continue to sacrifice for their nation by having their earned rights and benefits eroded with every turning of the page on the legislative calendar.

Is there a real threat? Is the American Legion crying "wolf"?

Hardly. Let me give you an example:

I received a letter recently from the sister-in-law of a World War II veteran. It's not necessary to name names or even say where she lives. The story speaks for itself.

Her brother-in-law was 18 when he answered America's call to arms. He served honorably in the Pacific and was awarded four bronze stars and other decorations. He even laid in a foxhole and, thinking he was dead, the enemy walked over him. He also contracted malaria.

This veteran believed his country's promise of medical care and rehabilitation by the Veterans Administration. In fact, he was treated for his ailment several times during his lifetime.

In addition to the monthly $475 disability pay he received, he believed the VA was the only medical insurance he would ever need. Apparently he was wrong.

Late last year he became very ill. He was moved to a county hospital just a mile from his home, but he didn't have medical insurance. The staff at the hospital tried to get him a bed at a VA hospital nearby, but none was available.

Although the doctors at the county hospital did their best, seven days later he died, leaving a legacy of hospital and doctor's bills totaling $7,700 because the VA didn't have a bed for him.

This poor, sick, elderly veteran existed on $5,700 a year and the belief that his medical needs would be guaranteed by his wartime service to America. And the VA didn't have a bed for him.

His medical care and doctor bills for one week in a county hospital were more than he received in disability pay for a whole year. And the VA didn't have a bed for him.

Are we crying "wolf" when we say veterans' rights and benefits are at stake? Hardly; and I have had it.

I will not stand idly by and see the most needy American veterans—the very old, the very sick, the very poor—be denied their earned benefits. I certainly don't believe my 28 million fellow veterans across this land will sit still for it either.

Most of them will never set foot in a VA hospital, but neither would one of them stand by as a needy comrade is turned away.

Let me give you an idea of what we're up against:

A 60 percent rise in the average number of veterans turned away from VA clinics—up to 37,000 per month!

An average waiting time of 29 days for new-patient appointments.

A three-fold increase in the number of outpatients discharged even though they required further medical care.

My fellow Legionnaires, there is a growing feeling of discontent in America, and it's not just among our membership. It's with all veterans.

And I believe that once our elected legislators understand that we represent a constituency of 28 million veterans and their families—Americans from every walk of society—they'll begin to listen, and listen attentively.

They were elected to reflect the views of American citizens, not to endorse the opinions of appointed bureaucrats, and here's one citizen from a group of 28 million who says it definitely is *not* my desire to see my fellow veterans bear a disproportionate share of balancing the budget.

So, this Memorial Day, when we pay tribute to our fellow veterans who served, sacrificed and now have passed on, remember also that their number has been increased by one more: a very old, very sick, very poor

veteran who believed the only medical insurance he needed was that which was guaranteed by his wartime service to America.

Remind your fellow veterans of him, and enlist them in The American Legion on his behalf.

EAST ORANGE SENIOR CITIZENS LUNCHEON AND AWARDS CEREMONY

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RODINO. Mr. Speaker, on May 9 I had the privilege to attend the mayor's Annual Senior Citizens Luncheon and Awards Ceremony for the city of East Orange. This well-attended and gala affair is held each year to recognize the contributions senior citizens make to the East Orange community.

Welcoming us to the ceremony was East Orange Mayor John C. Hatcher, Jr., who presented the awards and gave the keynote speech. Mrs. Pearl Harrison, the director of the office of public relations, served as the mistress of ceremonies. The event was organized by the division of senior citizens of the East Orange Department of Community Services. Special appearances were made by Rhoda Scott, the internationally-known jazz pianist, and Jean Cheek, a Broadway star and popular entertainer.

As Mayor Hatcher stated in his proclamation, May is the month of senior citizens. There are few better ways to commemorate this month than to honor the senior citizens who have made a difference in their communities. Twenty-nine awards were given out at the ceremony—all for outstanding leadership among the senior citizens of East Orange.

Honored as the Mother of East Orange—the Mother of the Year—was Mrs. Mary F. Wright. Mrs. Wright is 104 years old but is as independent and lively as anyone. Born in Florida in 1882, she moved to New Jersey in the 1910's and worked for years as a seamstress. Though she never had children of her own, she managed to have her own family by adopting and raising two young girls whose mother had died in 1950. She indeed deserves her new title as Mother of East Orange.

Also honored at the ceremony were: Mrs. Willie Mae Farrah, Mrs. Claudia Harold, Mr. Ernest Harrison, Mr. and Mrs. John C. Hatcher, Sr., Mr. Jack Hunter, Dr. Theodore Inge, Mrs. Geraldine Johnson, Mrs. Mittie Kornegay, Dr. Frank M. Lapeyrolerie, Mr. William Macklin.

Mrs. Delia Martin, Mrs. Betty Moshier, Mrs. Mildred Patwell, Mrs. Lucille Purdie, Mrs. Rita Roscoe, Mrs. Bridie Slevin, Mrs. Ida B. Smith, Mrs. Queenie Smith, Mr. William Smith, Mrs. Fran Wilkerson, Mrs. Carrie Williams, Mrs. Florence Henry.

Mr. Robert Ritchie, Bailey-Holt Tower Tenant Association; Mr. Gerald Alexander Brangman—Posthumously (Mrs. Ida Brangman accepting); Brookside What-Not Shop (Mrs. Marie Holmes accepting); Coppergate Senior Committee (Mrs. Cathering Selfridge accepting); Mrs. Mildred Eoff—Posthumously (Mr. Reginald Eoff accepting).

My congratulations go out to the honorees and to the organizers of this very successful event. They showed me how senior citizens remain truly young at heart.

THE NASA LEGACY; IT'S NOT ALL BAD, LET'S PRESERVE THE BEST FOR THE FUTURE

HON. MARILYN LLOYD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. LLOYD. Mr. Speaker, The *Challenger* tragedy has shocked the American public and the Congress into the realization that the most accomplished of the modern Federal bureaucracies, that is the National Aeronautics and Space Administration, may be flawed. Reports abound on the errors in judgment that may have permeated our space program through the overconfidence and apparent xenophobic style of NASA management. Within the next month or so, the Rogers Commission will present its report on the Shuttle 51-L accident to the Congress and the American public. Most recently, the New York Times (April 23, 1986) published the first of two articles on alleged mismanagement and wasteful practices identified by NASA's Inspector General's Office that may have cost the space program more than $3.5 billion. These articles identify potential contractor mismanagement activities, cost overruns, and perhaps even fraudulent expenditures, all of which contribute to casting a dark cloud over the space agency's heretofore relatively unblemished image.

However, it appears to me that as we proceed into our detailed investigations of these programs, that we should not fail to recognize the extraordinary accomplishments that our Nation's Space Program has produced over the last two decades. At this time we know orders of magnitude more about our own solar system and interplanetary space than we knew after the previous millennia of scientific inquiry into these phenomena. All of this was accomplished in the remarkably short span of less than two decades, commencing with our first entry into space in the Mercury Program, through our *Apollo* landing on the Moon and culminating recently in the revealing images returned from our *Voyager* spacecraft's tour of the outer planet Uranus. In spite of its present difficulties, the shuttle program has shown the way toward a new era for man's presence in space. No longer will we be simply passive observers of the world and the universe. The results of the very successful shuttle series of flights have shown the way to unique opportunities for mankind both from a scientific perspective as well as a commercial viewpoint. We have learned how to recover wayward satellites. We have opened up new vistas in communication and the advances in manufacturing techniques in the microgravity of space will certainly pave the way for future generations of entrepreneurs and others who can benefit from this unique environment. In my view, our world is a better place as a result of this Nation's Space Program and although we must improve and continually refine our methods and processes for exploiting this unique horizon, we must not lose sight of the fact that the United States' Space Program has been a singular success that has put this country in an unquestionable leadership role in mankind's exploration and utilization of the space environment.

Mismanagement, waste of public funds and sloppy decisionmaking cannot be tolerated at any level of government, and it is incumbent upon us to assure that any problems which have led to abuses of Federal trust be corrected. Nevertheless, we must proceed in our efforts to assure that the NASA Program is reestablished on the right track and get on with our space endeavor in a way that once again will make us all proud. Thus, I hope that both Congress and the Executive will move carefully to preserve the core capability of the agency while providing a climate for badly needed change.

COURT RULES AGAINST BLUE CROSS & BLUE SHIELD

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. STARK. Mr. Speaker, a Federal court ruling against Blue Cross & Blue Shield has just negated the argument that the Blues should be exempt from paying Federal taxes because of their charitable activity in covering high risk individuals. The Blues serve no charitable purpose if they take premium dollars from high risk individuals and then subsequently refuse to pay for any medical expenses of these individuals.

The tax exempt status for the Blues was based on their claim that the Blues cover people that the commercial insurers refused to insure. The Blues argue that coverage of high risk individuals is an inherently charitable activity and warrants a tax exempt status.

When the tax exempt status of the Blues was considered by the House Ways and Means Committee during the tax reform considerations, the Blues were unable to demonstrate to the members that their charitable activity was substantial enough to warrant a tax exempt status.

While the Blues were petitioning Congress to keep this tax exempt status because of their coverage for high risk individuals and small groups, Loretta Washington, a local sanitation worker, was forced to haul the Blues into court just to get them to pay her hospital and doctor bills for a hysterectomy that occurred while she was insured by Blue Cross & Blue Shield of the National Capital Area.

Blue Cross & Blue Shield of the National Capital Area has the dubious distinction, as a result of this lawsuit, of being the first insurer in the District of Columbia to lose a case for bad faith due to this refusal to pay the claims of an insured.

This conduct is the antithesis of charitable activity and should be considered as Congress reviews the tax exempt status of Blue Cross & Blue Shield in the tax reform process.

The Washington Post article of May 9, 1986 follows:

PATIENT GETS $800,000 IN INSURANCE SUIT
(By Nancy Lewis)

An Alexandria woman was awarded $800,000 yesterday by a federal court jury that found Blue Cross & Blue Shield of the National Capital Area acted in bad faith when it refused to pay $12,000 in hospital and doctor bills.

Richard Ben Veniste, one of the attorneys for Loretta Washington, 54, said it was the first time that an individual had won a bad-faith insurance case in the District.

Washington, a sanitation inspector for the City of Alexandria, was hospitalized at Arlington Hospital in July 1981 for control of diabetes and again in August for a hysterectomy, shortly after she had changed her insurance coverage from a local health maintenance organization to Group Hospitalization Inc. and Medical Service of D.C. known as Blue Cross.

Blue Cross refused to pay the hospital and doctor bills, saying Washington had to meet a waiting period because she had the conditions when she changed coverage.

Washington notified Blue Cross that no physician had previously diagnosed the fibroid tumors that precipitated the hysterectomy, but the company said its experts found that the condition would have been present earlier.

Arlington Hospital then sued Washington for payment of her $8,000 bill. She took a part-time job cleaning office buildings to help pay the bills, but the hospital threatened to put a lien on her house to assure payment.

Ben Veniste argued in court that Washington should not have been subject to a waiting period because she had transferred from an HMO and that federal law prohibits its imposition of a waiting period in such cases.

But Blue Cross said that when Washington completed another Blue Cross enrollment card she did not fill in the portion concerning prior hospitalization coverage and that in such instances the company assumes there was none.

Ben Veniste said that the company showed bad faith by failing to make a follow-up inquiry about prior coverage, and showed that 70,000—or about half of those who enrolled with Blue Cross in 1981—failed to complete that portion of the enrollment card.

Dean Swartz, another of Washington's attorneys, said that he could not estimate how many others insured by Blue Cross might have had claims denied for similar reasons.

"I just thank God for the blessing," Washington said yesterday.

Blue Cross officials could not be reached for comment.

JUVENILE ARSON

HON. FRANK HORTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. HORTON. Mr. Speaker, recently a fire investigator from Rochester, NY, sent me a letter and a copy of a report compiled by the New York State Office of Fire Prevention and Control. That investigator, Jonathon Beldue, shared with me the problem of juvenile arson, and the cost to this Nation as a result of young arsonists. I would like to share this information with my colleagues.

Arson is the fastest growing crime in this country. A disproportionately large percentage of these fires are started by juveniles. In 1984, the city of Rochester had 244,094 residents, and another 702,200 people resided in the rest of Monroe County. In that year, the Rochester Fire Department responded to approximately 10,328 incidents. Of these an amazing 40 percent of all fires set involved juveniles. A full 65 percent of these were caused by children between the ages of 5 and 9.

Jonathon Beldue saw the magnitude of this problem, and began to talk with these young offenders in an effort to determine the root causes of their actions. Jonathon started a program where he began to speak with the young offenders. In the early stages, three to four youths were called. By November of 1980, only 17 months after the program's inception, 207 juveniles had been contacted. Only two of these 207 have been "repeaters." Seizing of the success in the initial months, other agencies and associations began to get involved. The number of youths contacted to date surpass 1,500. The program continues growing; its success rate a model for all interested in juvenile arson.

Mr. Speaker, following is a copy of the letter I received from Mr. Beldue. Persons interested in obtaining a copy of the report compiled by the Fire Related Youth [FRY] Program should address their request to:

State of New York, Office of Fire Prevention and Control, 162 Washington Avenue, Albany, NY 12231.

CITY OF ROCHESTER,
OFFICE OF THE FIRE CHIEF,
Rochester, NY, April 9, 1986.

Congressman FRANK HORTON,
Rayburn building,
Washington, DC.

DEAR CONGRESSMAN HORTON: I am a Fire Investigator with the Rochester Fire Department. I have been a fire fighter for over 18 years. After being injured in a fire and building collapse in 1976, which was caused by a juvenile, I began to study juvenile fire setting.

I was assigned to the scene of a bedroom fire to talk to a suspect. During the course of the conversation with the suspect, he freely related to me how he set the fire, where under the bed he set the fire and when he did it. (While his sister was asleep on the bed.) He described his escape plan and alibi. He told of his desire for danger and thrill of danger. This was his third fire, the first being the lighting of matches and lighters, the second was setting fire to papers on the gas stove. The parents, other agencies and I worked with the juvenile. He demonstrates the progressive characteristic of the three stages of a fire setter and possible future arsonist. The juvenile was 5 years old.

Many other incidents come to mind—the child who set his brother on fire because the devil told him to, or the 12 year old female who set fire to her home because she had no bedroom door, and the child who was angry and set his cat on fire.

Annually, in the United States, millions of dollars worth of property are lost due to arson. The loss of life and personal injury to citizens and fire department personnel, combined, number in the tens of thousands. Juveniles contribute greatly to this problem. Arson is the fastest growing crime in America and a disturbingly large number of those fires were caused by persons under 16 years old.

In July 1979 I saw a need for something to be done with juveniles experiencing fire problems. The unit was starting to receive calls from people looking for help, for their children or other juveniles that they knew had a fascination for fire. Our own investigators were finding that they were having more contacts with juvenile fire setters. In the past, the juveniles name was taken and a record kept in our office but nothing was being done to correct the problem.

After consulting with the fire chief, our program was set in motion on a part-time basis. The program started with approximately 3-4 calls a month. Between July 1979 and July 1980, I contacted approximately 47 youths with a backlog of 80 youths. At that time the program had no publicity but was growing at a high rate. By November the program had contacted 207 juveniles with only 2 repeaters. Follow-up in 4 weeks was found to be necessary on all juveniles. In December 1980 the fire chief saw a need to extend the program to full time.

More and more parents and agencies throughout the City and County were making referrals to our unit. Thus, the F.R.Y. (Fire Related Youth) program was put into full-time service with a 24 hour, 7 day a week call number. At that time, F.R.Y. was one of only 3 other fire departments in the nation set up to counsel parents and refer juveniles with fire problems but our program seemed to be more unique and was drawing more inquiries.

F.R.Y. started to get outside help, such as neighborhood associations, clinics, hospitals, etc. throughout the country so that if we could not handle the problem, the juvenile could be directed to the right agencies. Fire fighters are not psychiatrists or social workers, yet they are uniquely well suited to work with young people. Knowing what a fire fighter cannot do is as important to the success of the program as knowing what *can* be done, therefore, the referral process is critical. Being aware of the full services available is of particular importance. Personalities range from the normal child with a curiosity about fire to the seriously disturbed juveniles. Different types of intervention and treatment are required depending on the seriousness of the dysfunction. Part-time, within the first 18 months, I handled approximately 250 juveniles. To date, approximately 1,500 juveniles have passed through our F.R.Y. program. In 1983 we learned this program prevented two fires that could have been major and in one case, a life was probably saved. Of course there is no way of knowing what type of fires were prevented or how many lives saved, but we know the program is working.

The 1984 population indicated that Rochester had 244,094 residents and the County another 702,200 people. The Rochester Fire Department responded that year to approximately 10,328 incidents and found that 40% of all fires set involved youngsters. 65% of those were caused by children between 5 & 9 years old. In 1984 the F.R.Y. unit contacted 312 juveniles; 268 were males, 127 were black, 149 were white. The highest percentage were children 2 through 7 years old (134%) followed by children 8 through 12 (133%). 53% were from fatherless homes.

Firesetting problems affect all walks of life, from the sons of top executives and daughters of doctors to sons and daughters of families on welfare. The problem is the same throughout the country. Our program is now being used as a pilot program in New

York State and inquiries have come from other countries pertaining to this problem.

Approximately two years ago we needed fresh ideas so two new investigators were trained for the program. I then returned to basic fire investigation. A third man was added with the help of a state grant and I still promote this program as much as possible. Any verbal support you care to give would be appreciated.

I am enclosing a manual developed by our department and the University of Rochester. I believe this information will be interesting and informative.

Sincerely,

JONATHAN BELDUE,
Fire Investigator.

THE MEANING OF SHCHARANSKY'S STRUGGLE

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. WAXMAN. Mr. Speaker, my colleague STEPHEN SOLARZ recently gave a short, very eloquent speech on the experience of Anatoly Shcharansky and what it can teach us in our commitment to Soviet Jews. I would like to share it with my colleagues by placing it in the RECORD.

WHY WE MUST PERSEVERE FOR SOVIET JEWS

(By Stephen Solarz)

Today we celebrate the freedom of Anatoly Shcharansky, a man who has returned from the gulag, where souls are crushed and bodies broken, but whose indomitable spirit enabled him to survive a horrible ordeal.

To have survived at all in the face of such cruelty . . . Dayenu. . . . It would have been sufficient!

To have remained faithful to his ideals under such conditions . . . Dayenu. . . . It would have been sufficient!

But to have emerged after almost 10 years, not only alive, but with his spirit intact, and his sense of humor undiminished, establishes Anatoly Shcharansky as a man of valor and an incredible inspiration to all those who cherish freedom.

Even as we honor Mr. Shcharansky, we reflect upon the fate and renew our commitment to the over 2 million Jews for whom liberty is a fading illusion and unrestrained religious observance a faraway ideal.

While even one Soviet Jew is enslaved, none of us is fully free.

While even one Soviet Jew is deprived of the right to exercise his religion, all us of are spiritually impoverished.

And so we must raise our voices now for the Jews who are still trapped in the Soviet Union.

We cannot turn away, for where else can the Jews of the Soviet Union turn for help?

We cannot remain indifferent, for who else but the United States can match the strength and power of the Soviet Union?

We did not save European Jewry over four decades ago.

Will we save Soviet Jewry today?

Forty years after the Holocaust, the issue is not whether Jews will be allowed to live, but whether they will be allowed to live as Jews.

Not whether they will perish in death camps, but whether they will languish in labor camps.

Not the annihilation of 6 million Jews, but the attempted annihilation of almost 4,000 years of Jewish history.

And so, once again, we face a terrible test.

But whatever our brethren ask of us cannot compare to what they ask of themselves.

Theirs is a story of unshakable moral strength.

They have sacrified their jobs, they have impaired their health, they have jeopardized their safety, they have been separated from their loved ones. Yet still they carry on.

They would rather light a Sabbath candle than simply curse the darkness at noon.

They seek only to honor and uphold the sacred traditions of their faith.

Yet they live under a Government that knows no honor, that daily breaks faith with its people, from the radiation in Chernobyl to the refuseniks in Moscow.

A Government that has no shame, no moral compass, no respect for creativity or conscience, will not quickly be converted to the free emigration of Soviet Jewry—certainly not in the course of a single afternoon.

But today we take a historic step.

We send an unmistakable message to Mr. Gorbachev:

As much as we rejoice over the freedom of Anatoly Shcharansky, we will not be sidetracked or satisfied by the release of 1 individual, or even 100, however heroic or prominent they may be.

We seek to save the Jews of the Soviet Union to reclaim their humanity. And, by so doing, we can reaffirm our own.

STAR WARS

HON. JAMES M. JEFFORDS

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. JEFFORDS. Mr. Speaker, once again we are facing the annual debate over defense authorization levels, and one issue that is bound to be contentious is funding for the strategic defense initiative—the so-called star wars. Some Members already are concerned that the committee bill finances the program at levels substantially below the President's request. Others will be dissatisfied with the increase in the program's authorization over last year's level—especially since last year's level followed a sizable increase the year before. Given all these concerns, we can be absolutely sure of one thing concerning SDI: The debate over its 1987 authorization will be lively.

Before that debate is settled, I would like to draw the attention of my colleagues to an article that appeared in two Vermont newspapers—the Brattleboro Reformer and the Bennington Banner—on December 14 and 17, 1985, respectively. The author points out that SDI has both an offensive and a defensive potential. Reaching an understanding with the Soviets on how to control these two aspects of SDI will be as difficult as limiting the nuclear weapons that we now have. We ought to concentrate on the task at hand before we embark on further uncharted waters.

STAR WARS' TWO EDGES

The Reagan administration likes to call its spaced-based missile defense the "strategic defense initiatve" and doesn't like it when people refer to it as Star Wars. But the term for it that probably annoys the administration even more is the one the Soviet Union uses, "space strike forces," because it makes the system sound more offensive than defensive.

Soviet leader Mikhail Gorbachev uses that term for self-evident public-relations purposes. But the phrase is not entirely propaganda. Star Wars could very easily play a decisive offensive role in the hands of either superpower. Even if it were used only as a shield against an adversary's incoming missiles, it could embolden an attacker to attempt a preemptive first strike. He could rely on the defensive system to ward off whatever weapons the victim of his attack was able to fire off after seeing most of his missiles destroyed in their silos.

That is one way that Star Wars has an offensive potential. More directly, it could also be used as part of a pre-emptive strike itself if its own space-based warheads were targeted at enemy missiles on the ground and not in the air. Another offensive mission for which spaced-based defenses would be ideally suited is the destruction of an adversary's orbiting reconnaissance and communications satellites. Without such satellites, an enemy is obviously much more vulnerable to a full-scale assault on its strategic forces.

Nor can the United States claim that it is entirely unaware of the double-edged feature of the strategic defense initiative. As the Union of Concerned Scientists pointed out last week in a report it released on Star Wars' offensive potential, Pentagon officials have testified to Congress that many weapons in the strategic defense initiative would first be tested or deployed as anti-satellite weapons. Finally, Star Wars would be so versatile that it could even be turned against an enemy's own Star Wars system out in space.

The spokesman for the strategic defense initiative, Major Simon Worden, does not deny these troubling aspects of the program. In response to the points raised by the Union of Concerned Scientists, he said—as other Star Wars backers have said in the past—that no system would be deployed if it could not itself be defended. He also held out the hope that Washington and Moscow could, through the arms-control process, agree to ban certain destabilizing systems or to establish "off-limits" zones for anti-satellite weapons.

As encouraging as this last assurance is, it prompts the obvious question: If the two sides could come to an agreement on the ground rules for space-based defenses, why not just get them to agree to drastic reductions in their existing arsenals? It that were possible, all of Star Wars' expense and potential for miscalculation could be avoided and the arms race could be stopped in its tracks. Let's talk with Moscow about eliminating the weapons already deployed, not about deploying new ones.

MRS. THATCHER: THE LONE EUROPEAN VOICE

HON. MARILYN LLOYD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. LLOYD. Mr. Speaker, earlier this week we considered a "Gratitude to Britain" resolution—House Joint Resolution 424—to express the thanks of the American people for Great Britain's assistance during the American air strike against Libya on April 14, 1986.

I was so impressed at Mrs. Thatcher's courageous and unique stand at the time of the raid that I wrote her a letter expressing my personal appreciation for her staunch support. I hope to be able to insert that letter and the Madame Prime Minister's reply in a future issue of the RECORD.

The London Sunday Times had an excellent editorial on April 20, 1986, "Alone But Right," which provides a supportive British view of the merits of Mrs. Thatcher's stand, which obviously was taken with a keen awareness of the risks in terms of internal politics. The editorial also weighs the various options open to President Reagan to counter Libyan terrorism in an effective way. In this respect, let us hope that the Libyan raid might prove, in the words of Britain's great wartime Prime Minister, Winston Churchill, "at least the end of the beginning" for such state-sponsored terrorism.

I believe that the Prime Minister deserved the "rave reviews—which she won—in America," and I strongly recommend the Sunday Times editorial to my colleagues.

The article follows:

[From the London (England) Sunday Times, Apr. 20, 1986]

ALONE BUT RIGHT

"I worry for the other mothers who have sons and daughters over there. But President Reagan did what he had to do. We don't believe in violence and killing people, but we did what we had to do." These are the words of the mother of Sergeant Kenneth Ford, the American killed in a Libyan bomb attack in West Berlin on April 5, and they put to shame the European reaction to the American raid on the Libyan terrorist installations from which the death of her son, and scores of others, was planned. They were spoken by a bereaved mother with no taste for revenge and encapsulate the mood of a people slow to anger, not spoiling for a fight. But they also contain the firm belief that there comes a time when a nation has to stand up for itself, whatever the fears for the sons and daughters of "other mothers", if it is to retain its self-respect. President Reagan decided the time had come last week, and the vast majority of Americans agreed. The Europeans did not, and started the Americans wondering aloud just what sort of allies it has been defending these past 40 years.

Given the outpouring of anti-Americanism which has engulfed Europe since the raid on Tripoli it is as well to remember what Sergeant Ford was doing in West Berlin in the first place. He was one of more than 300,000 Americans stationed on this side of the Atlantic to defend the democracies of Western Europe. Yet his death, the latest atrocity in the wave of terror which has swept Europe with increasing intensity in the past 18 months, was greeted in Europe with nothing like the same outrage which was directed at the Americans for bombing those in Libya responsible for his death.

THE MEANING OF A GOOD ALLY

The Americans have no right to expect unquestioning obedience from allies which are also free nations—that is the way of the Warsaw Pact. But they had every right to expect better of their European allies last week. Good allies should give each other the benefit of the doubt. That is what the United States did when Britain went to battle with Argentina over the Falklands: America gave vital logistical and intelligence support, despite many doubts in Washington about British policy, because America wanted to stand by an old and trusted ally. Similarly, Mrs Thatcher stood by Reagan when America asked permission to use its British-based F-111s to bomb Libya, overriding the doubts in Whitehall about bombing being the best way to retaliate against terrorism. The rest of America's allies in Europe, however, seemed anxious to give everybody but America the benefit of the doubt: they even quibbled about the evidence proving Colonel Gadaffi's guilt, evidence which Senator Patrick Leahy, a Democratic critic of the president and himself a former prosecutor, had no hesitation in describing as "the kind of proof I'd go to court with."

The European position was especially indefensible because it offered no credible alternative policy. For months the United States had been pleading with the Europeans to support joint action against Libya by imposing diplomatic and economic sanctions. And for months the European leaders met in various European capitals to discuss joint approaches to terrorism in much the same way they meet periodically to discuss the butter mountain or the olive oil lake.

THE PRICE OF TERROR

Of course, it is being said that bombing Libya will not end terrorism, and might even encourage more. The president acknowledged that in his television address on Monday night. But intelligence reports showed that Colonel Gadaffi planned more terrorist attacks long before his installations were bombed. Only three weeks ago a Libyan plot was uncovered to bomb civilians queuing for visas at the American embassy in Paris; on April 6 a Libyan-inspired attack on the American embassy in Beirut failed only because the rocket exploded on launch; and attacks on American facilities in 10 African countries were to follow. Gadaffi needs no excuse for terrorism: American retaliation could hardly make things worse, and might just act as a deterrent by reducing his terrorist capabilities. Those who say it will only bolster his power base inside Libya and the Arab world might be right in the short run. In the longer run there is every chance it will strengthen those internal forces who want to be rid of him.

In our view, a better policy would have been a covert attack on him, his accomplices and his terror camps, using special forces, which would have given far greater precision than so-called surgical bombing and would have run far less of a risk of harming innocent civilians. One of the purposes of terrorism is to force governments to meet terror with terror, dragging democracy down in the process. But the killing of children should play no part in retaliation against terrorism by civilized nations, which must always avoid being forced to behave like terrorists themselves. The ability of the United States to mount such covert operations, however, is not encouraging. Although strengthened again from the low point after the Vietnam war, its covert capability is not up to the task the Americans wanted to carry out last week. The president therefore chose what was probably the only military option available.

STANDING ALONE, ON THE RIGHT SIDE

As with rescuing of Grenada for democracy three years ago, so with the bombing of Libya last week: a more confident, assertive America is striding the world stage again these days, and it makes Europeans nervous. The simple certainties of the Reagan years bring their own dangers. But they have brought successes at home and abroad too, confounding sophisticated critics in the process, and they come at a time when Europe's diminished economic and political status in the world makes European politicians certain of nothing. The leader of the Atlantic alliance and its allies are now clearly on different wavelengths. The current state of ill will was best summed up by the bitter remark of one senator who commented that he did not remember the French complaining of American bombers flying over France in 1944. Opinion polls this week showed that almost eight out of 10 Americans approved of the attack on Libya, whereas almost seven out of 10 Britons disapproved. Elsewhere in Europe, the disapproval was even greater. Mrs. Thatcher found herself a lone European voice, winning rave reviews in America but raising talk at home, even among those who at one stage loyally supported her, that the sacrifice she made to keep the alliance together may have cost her the next election. Those same people made the same arguments in the same tones when the task force embarked for the Falklands. If Mrs. Thatcher does lose an election on an issue where she has been on the right side of the argument, it would be an extraordinary harsh judgment on the part of the electorate.

WARREN BROOKES EXPOSES DEMOCRATS' DEFENSE PLANS

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. COURTER. Mr. Speaker, in his recent Washington Times column entitled "Will the Democrats Sell Out Defense?" columnist Warren Brookes patiently and clearly exposes the Democratic game plan on defense: "To abort the Reagan defense revival."

Democratic defense budget proposals for fiscal year 1987 represent the lowest GNP percentage for defense outlays since 1982, and the smallest GNP percentage for defense budget authority since 1981. It is as if Ronald Reagan had never been elected President, and Jimmy Carter had been allowed to continue promoting his anemic defense spending proposals.

Congress made a commitment to provide 3 percent real growth in defense spending in 1987, but the Democrat budget proposal actually represents no real growth at all. The Soviet military threat inexorably grows, but the Congress only shrinks from the challenge. Mr. Brookes' column on this subject is worthy of your attention.

[From the Washington Times, May 14, 1986]

WILL DEMOCRATS SELL OUT DEFENSE?

(By Warren Brookes)

Most American monetary experts have been shocked by how rapidly the dollar has fallen against world currencies—much more than monetary policies alone would have suggested.

They are ignoring the one nonmonetary fundamental that has been changing even more rapidly than our monetary policies: our rapid abandonment of the original Carter-Reagan defense buildup, signaled both by the 1986 defense budget freeze, and the dangerous proposals by the Democrats on the House Budget Committee to slash 1987-1989 defense spending back to pre-Afghanistan and pre-Reagan levels.

Weak defense has always meant weak currency, and vice versa. It is no accident that from 1974 to 1979, while national defense spending was slashed from 5.8 percent of GNP to 4.7 percent (the lowest in postwar history), the U.S. dollar plunged from 101 percent of the 1973 index to 84, also its lowest level in modern history.

It is equally no accident that under the defense buildup started by President Jimmy Carter in 1980-81 (after the invasion of Afghanistan) and carried on by President Reagan which raised defense outlays from 4.7 to 5.9 percent of gross national product in Mr. Carter's last budget (FY 1982) and to 6.4 percent in FY 1985, the U.S. dollar soared from 88 to 157.

But since April 1985, the dollar has plunged to 113 percent of its 1973 value—a shocking 29 percent decline which actually began at the precise moment that President Reagan was forced by his own Senate to agree to a 1986 defense freeze—a sure signal the defense buildup was over.

That declining defense posture picture was reinforced not only by the recent Senate decision to cut Mr. Reagan's defense budget authority for 1987 from $320 to $301 billion ($253 billion in constant 1982 dollars) but by the ominous proposals now coming out of the House Budget Committee to slash that budget authority still further, to $285 billion ($240 billion in 1982 dollars).

That proposal amounts to a 10 percent real (constant dollar) cut in budget authority from 1985, and, as a percent of GNP, would take us back to the same level of spending we had in 1981, before the Reagan buildup.

In short, the House Democrats are proposing to abort the entire Reagan defense revival, long before it has even reached the timid 1986 levels which a frightened Jimmy Carter suddenly proposed in January of 1980, after the fall of Kabul.

The fact they are willing to risk such a savage assault on national security shows how skillfully the Democrats and their media colleagues have been able to paint the Reagan defense buildup in so much bigger and more wasteful terms than actually took place.

Last February, the House Budget Committee published a highly misleading table showing the "huge" Reagan defense buildup, comparing it to defense spending since 1950—but it deliberately left out any factor for inflation, making all spending since 1973 look far larger than it really was, when for most of those years, it was plunging in real value.

This chart was sent out, with stunning impact, to their constituents by a large number of liberal, anti-defense Democrats such as Rep. Ed Markey of Massachusetts.

Yet, had they been really honest with their constituents, they would have sent out the other chart which shows defense spending as a share of GNP—and how steeply it has actually fallen since the peacetime budgets of the Eisenhower administration, when it averaged more than 10 percent, compared with only 6.2 percent as proposed by Mr. Reagan for 1987, which, in turn, is nearly 40 percent less than the pre-Vietnam Kennedy budgets of 1962 and 1963.

That kind of information might have forestalled the kind of outrageous proposals Democrats are now making that would cut current defense outlays back to 6.1 percent of GNP, the lowest level since 1982, and budget authority back to 6.2 percent, the lowest since 1981, a dangerous drawback in defense posture.

During the peak of the Reagan defense buildup in 1984 and 1985, a buildup that followed closely the Carter proposals of 1980-81, budget authority reached 7.6 percent of GNP—and Mr. Reagan's proposal for 1987, at 7.0 percent, was actually a substantial fallback from that level, as is the 6.6 percent level recently passed by the Senate.

Now the House proposes to cut that back to 6.2 percent, or just about where it was before Mr. Carter got hit in the head by Soviet reality in Afghanistan.

House Democrats would have you believe this is all because of Gramm-Rudman-Hollings—but actually the House proposes to go below the GHR targets by $10 billion or so—even without allowing for lower total outlays and deficits due to falling interest rates.

More important, the Senate tax reform bill, like the House version, already contains a $31 billion windfall for FY 1986 and FY 1987 because it repeals the Investment Tax Credit as of January 1, 1986, even though individual rates are not cut until 1987. This alone would obviate any need either for tax increases in FY 1987 or draconian defense cuts.

In short, they are cutting defense because that's what they have always done—and the Russians are smiling, again.

CONTRA AID WILL PRODUCE MORE, NOT FEWER, CENTRAL AMERICAN REFUGEES

HON. MICHAEL D. BARNES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. BARNES. Mr. Speaker, one of the numerous pieces of misinformation that we are constantly subjected to by the Reagan administration, in its attempt to justify its misguided Contra aid policy, is that that policy will somehow help prevent Central American refugees from fleeing to the United States. This view is not shared by specialists; unfortunately, they do not have the administration's access to the media, so their views tend to be lost in all the rhetoric.

In this regard, I wanted to call my colleagues' attention to a recent study by two experts: Dr. Patricia Weiss Fagen, staff associate of the Refugee Policy Group in Washington, DC, and associate professor of history at San Jose State University in California; and Dr. Sergio Aguayo, professor at El Colegio de Mexico in Mexico City. The study is published by the Central American and Caribbean Program at the Johns Hopkins University School of Advanced International Studies. I would like to share with my colleagues a brief introduction to the study written by the editor. Copies of the complete study may be obtained by contacting the Central American and Caribbean Program.

The material referred to follows:

INTRODUCTION

The two essays published jointly in this CACP Occasional Paper focus on the dramatic plight of Central America's refugees in the early 1980s. Since the original field work was done by Dr. Patricia Weiss Fagen and Dr. Sergio Aguayo in 1983-84, the ongoing conflicts in the region have exacerbated the refugee problem even further. As a result, some of the data cited in these two articles understate the current situation. The CAPC at SAIS feels that the basic problems and trends highlighted by each author retain considerable analytic utility despite the gap between academic publication and the changing realities they examine.

In a public appeal made on March 3, 1986, designed to generate support for a $100 million aid package for the "Contra" rebels fighting against the Sandinista regime in Nicaragua, President Ronald Reagan warned his critics that the United States was facing a "strategic disaster" of great magnitude and a "vast migration" of refugees if Congress turned down his latest request.[1] In point of fact, as both Fagan and Aguayo emphasize, the turbulent conditions in Central America have already converted the refugee exodus from the region into a problem of major consequence for both Mexico and the United States. Indeed, with every day that the fighting in the area continues, the problem inexorably becomes more acute as more victims flee the maelstrom.

There is widespread consensus among analysts of Central America that $100 million more in U.S. aid to the Nicaraguan Contras will not topple the Sandinistas, nor will it resolve the region's development problems. Quite to the contrary, new "lethal" assistance from Washington will inevitably intensify the conflcits and compound the economic and social disruption in Nicaragua and surrounding countries which lay at the heart of the mounting refugee problem in Central America. Whether justificable or not on other grounds, to argue that aid to the Contras will help prevent more refugees from appearing in the region is patently inconsistent and illogical.

Although President Reagan has repeatedly made reference to "feet people" fleeing the "totalitarian" Sandinista regime (and there have undoubtedly been some), Dr. Fagen's research, in particular, indicates that Nicaraguan refugees comprise only a small portion of the total number of Central Americans who have abandoned their homelands in search of personal safety and economic survival. The great bulk of the current Central American refugee population comes from El Salvador and Guatemala where internal wars, the lack of economic opportunities, and the abuses of past authoritarian military rulers have created a tidal wave of immigration out of the area. If the U.S. Congress chooses to renew its financial backing for the "Contra" war, the

[1] See Lou Cannon and Joanne Omang, "Reagan Warns of Disaster If Hill Bars $100 Million to Contras," the Washington Post, March 4, 1986, p. A-21.

analyses presented here make it crystal clear that more—rather than fewer—refugees can be expected to be caught up in the Central American diaspora.

BRUCE MICHAEL BAGLEY,
Editor, CACP Occasional Paper Series.

FOOD STAMPS VERSUS ICBM'S

HON. LEON E. PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. PANETTA. Mr. Speaker, I wish to share with my colleagues an exchange of letters between me and the Under Secretary of Defense for Research and Engineering, Hon. Donald A. Hicks. These letters shed some light on this administration's budget priorities.

Earlier this month, Mr. Hicks had an interview with the press on strategic offensive weapons. In an excellent article by James Gerstenzang in the Los Angeles Times, Mr. Hicks was quoted as favoring deployment of Midgetman, "recognizing that it costs a lot of money and prevents the Democrats from giving a lot of food stamps out they might give out otherwise."

I wrote to Mr. Hicks to express my surprise and concern that a high official of the Department of Defense would make such a statement. I noted that support for food stamps has been bipartisan and that the Food Stamp Program is substantially less costly than Midgetman—in fact we could fund food stamps through the rest of the decade for less than Midgetman will cost. Finally, I noted that since the Reagan administration took office, cost growth in Defense research, development, testing, and evaluation [RDT&E] has been substantially higher than increased spending for food stamps.

In response to my letter, Mr. Hicks wrote a most gracious reply in which he did not deny the quotation but argued that his remark had been taken out of context. He wrote that he had meant to say that some Members of Congress, particularly supporters of domestic programs such as food stamps, are unwilling to consider relatively inexpensive solutions to ICBM modernization, as he characterizes the administration's MX proposal, while they support what he considers the more costly program such as Midgetman.

Frankly, while Mr. Hicks' reply is gracious, his answer to my letter highlights the dilemma we confront in attempting to control defense spending. When we reauthorized the Food Stamp Program last year, every facet of the program was carefully scrutinized. My fellow Members on the Agriculture Committee and our colleagues on the Education and Labor Committee had to share an increase of $0.30 billion in fiscal year 1986 for nutrition programs, including food stamps, WIC, and school lunch. Yet in a throw-away line, an official who makes recommendations involving $50 billion weapons systems talks about "giving a lot of food stamps out."

I submit that if we subjected the Defense budget to the same scrutiny that we insist on for domestic programs, such as food stamps, we would not be confronted with the budget crisis which has paralyzed the Federal Government over the past several years.

Material mentioned above follows:

UNDER SECRETARY OF DEFENSE,
Washington, DC, April 21, 1986.

Hon. LEON E. PANETTA,
Chairman, Subcommittee on Domestic Marketing, Consumer Relations, and Nutrition, Committee on Agriculture, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter of April 9, 1986. I want to assure you that the remarks attributed to me in a April 4, 1986 Los Angeles Times article which concerned you, were taken out of context. It was not my intent to criticize any particular domestic program, but to point up the curious fact that some who are concerned about the impact of defense spending on domestic programs are at the same time insensitive to potential cost tradeoffs in the defense area which could save many taxpayer dollars.

Specifically, during a discussion of alternative approaches to completing our land-based ICBM modernization program, I outlined the costs associated with various options for deploying a second 50 MX missiles. I pointed out that these options are substantially cheaper than the $50 billion it is estimated to cost to deploy the baseline, single-warhead Midgetman. In fact, we could deploy an additional 50 MX missiles in Minuteman silos for about 1/25 the cost of Midgetman.

I then expressed surprise that some members of Congress, particularly some strong supporters of domestic programs such as food stamps, seem so unwilling to consider relatively inexpensive solutions to our ICBM modernization problem while readily embracing a more expensive program such as Midgetman.

As Under Secretary of Defense for Research and Engineering, one of my responsibilities is to see that we pursue the most cost effective solutions to meeting defense requirements. Only by achieving this objective can we hope to meet critical needs for national defense and support legitimate domestic requirements.

I regret that the thought did not come through clearly in the reportage, as carried in the Times.

Sincerely,

DONALD A. HICKS.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON AGRICULTURE, SUBCOMMITTEE ON DOMESTIC MARKETING, CONSUMER RELATIONS, AND NUTRITION,
Washington, DC, April 9, 1986.

Hon. DONALD A. HICKS,
Undersecretary of Defense for Research and Engineering, Department of Defense, Washington, DC.

DEAR MR. HICKS: I am writing to express my profound concern about the remarks attributed to you in an article by James Gerstenzang which appeared in the Los Angeles Times on April 4, 1986.

The article notes that you favor deployment of the Midgetman because you believe it provides greater survivability to our nuclear deterrent than would the MX. Even though the Midgetman costs 25 times as much as the same number of MX missiles, the article quotes you as saying:

"I'm all for doing that [deploying Midgetman], recognizing that it costs a lot of money and prevents the Democrats from giving a lot of food stamps out that they might give out otherwise."

I am both surprised and concerned that a high official of the Department of Defense would have such a distorted view of defense and budget priorities. I hope that we both agree that the most important function of the Federal government in this thermonuclear age is to avoid a nuclear holocaust which could destroy both the United States and the Soviet Union as viable societies. While reasonable people may disagree about whether deployment of Midgetman would increase or decrease our national security, I think that it is highly inappropriate for an official of the Department of Defense to argue for a $50 billion weapon system on the grounds that it will keep nutrition assistance from being provided to poor Americans.

Your reported comments betray some ignorance of the Food Stamp Program. In the first place, support for this program cuts across party lines. One of the strongest supporters of the program has been the Republican Majority Leader of the Senate, Robert Dole of Kansas. In the second place, we could fund the Food Stamp Program through the rest of this decade for substantially less than you seek for Midgetman. In the third place, cost growth in the Food Stamp Program since the Reagan administration took office has been substantially less than the cost growth in Defense research and development. The increase in Defense RDT&E between fiscal year 1981 when the Reagan administration took office and the President's request for fiscal year 1987 was 107 percent in current dollars and 168 percent in constant 1982 dollars. In contrast, funding for food stamps over the same period will increase only 16 percent oi current dollars and 50 percent in constant dollars.

The projection of cost growth in food stamps assumes that the Congress will accept the recommendation of the Republican-controlled Senate Budget Committee to reject the cuts proposed by the President in the Food Stamp Program.

Finally, your reported comments show a remarkable insensitivity to the budgetary crisis which in large part has been created by the increase in Defense spending since 1981. If Midgetman is needed for strategic reasons, you should base the justification for spending the $50 billion on those grounds. If you really consider Defense spending a way to avoid spending on a program which you apparently dislike, I think you reveal an alarming insensitivity to the deficit crisis which we in the Congress have been trying to resolve. Frankly, we could go a long way toward eliminating the deficit if we subjected Defense spending to the same scrutiny that the Food Stamp Program has experienced in recent years.

Sincerely,

LEON E. PANETTA,
Chairman.

[From the Los Angeles Times, May 4, 1986]

MIDGETMAN 25 TIMES COSTLIER BUT IS NECESSARY, PENTAGON SAYS

(By James Gerstenzang)

WASHINGTON.—A senior Pentagon official, outlining Administration plans to push for additional MX missiles and weighing their cost against the Midgetman missile, said Thursday that the smaller weapon will cost 25 times as much to obtain the same number of warheads but that it is needed to reinforce the nation's nuclear force.

Donald A. Hicks, undersecretary of defense for research and engineering, said the

more expensive Midgetman program will offer greater survivability to the nation's nuclear deterrent.

"I'm all for doing that, recognizing that it costs a lot of money and prevents the Democrats from giving a lot of food stamps out that they might give out otherwise," he said at a breakfast with Pentagon reporters.

"The cost issue is a real issue," he said, estimating that $50 billion is needed to fund that Midgetman program. Pentagon officials believe the single-warhead missile's mobility would help it survive an enemy missile attack.

His comments summed up the "guns vs. butter" dilemma facing the Administration as it enters another budget battle with a Congress that has become ever more reluctant to meet President Reagan's request for an 8 percent after-inflation Pentagon budget increase.

At the same time, the Pentagon official continued the debate over the modernization of the naiton's nuclear arsenal, emphasizing the Administration's desire to eventually deploy 100 MX missiles, rather than the 50 authorized by Congress.

Hicks said that "all kinds of hysterical" reasons had been cited for cutting deployment of the 10-warhead weapon in half. Opponents of the missile, he said, are "disturbed" because it would carry 10 nuclear warheads, but they "don't seem to be disturbed by (Soviet) SS-18 with 14" warheads.

Hicks, a former executive of Northrop Corp., which is building the Advanced Technology Bomber, also known as the Stealth Bomber, for the Air Force, is the senior Pentagon official in charge of new weapons. He said an additional 50 MX missiles would cost about $2 billion. The Administration is seeking $1.4 billion in fiscal 1987 to buy 21 MXs.

For an additional $6 billion, he said, 50 missiles could be placed in "super-hard" silos, rather than in old Minuteman missile silos in which the MXs are now scheduled to be deployed, beginning late this year.

In the past, Hicks has raised the possibility of placing two or three warheads on the Midgetman, known officially as the small intercontinental ballistic missile. Congress has insisted that the missile carry one warhead and weigh no more than 30,000 pounds.

Hicks indicated that sufficient caution must be exercised so it can be determined whether the nation would be better served by building one-third as many Midgetman missiles as planned, and equipping them with three warheads.

He said that such engineering studies may take two years, but could demonstrate that a two-warhead missile could still be sufficiently mobile, thus cutting in half the number of missiles and launchers needed at a savings of $8 billion to $10 billion.

Current plans call for deploying 500 of the missiles, beginning in late 1992. They would be placed in mobile launchers, protected against the effects of an enemy missile attack, and deployed on military reservations in the West.

HOUSE RESTAURANT SYSTEM

HON. FRANK ANNUNZIO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. ANNUNZIO. Mr. Speaker, recently a number of Members have requested information regarding the working conditions and benefits of congressional staff in our House restaurant system. The report that follows was prepared by the Architect of the Capitol who advises that similar benefits are available to staff in the Senate restaurant system.

(1) Restaurant Staffing:

	Total	Management	Employees
House restaurants	249	4	245
Senate restaurants	254	4	250

(2) Hourly Pay Range:

House restaurants	$4.80-$8.50
Senate restaurants	$4.80-$8.50
Private sector	$3.85-$8.15

(3) Value of Benefits: 41 percent of base pay.

(4) Benefits:

Annual Leave—13 days, 1st 3 years of service; 20 days, 3 to 15 years of service; 26 days, Over 15 years of service.

Sick Leave—13 days a year.

Retirement—80 percent of high three years base salary after 32 years of Congressional and military service at age 55.

Life Insurance—Coverage is equal to actual base pay plus $2,000; additional optional and family coverage is available.

Health Benefits—Choice of 28 plans covering worker and all eligible family members.

Workers' Compensation—In case of injury, worker entitled to 45 days continuation of pay and payment of medical bills.

Death Gratuity—Benefit payable to widow, widower or legal heir: For employee with 6 years of service: ½ years salary; For employee with 18 years of service: 1 years salary.

Holidays—Ten paid holidays a year.

Free Meals—A breakfast and lunch are provided each work day at no cost to the employee at a retail cost to the restaurants of $5.50 a day or approximately $1,300 a year.

Parking—Free parking available on limited basis; presently 143 employees have parking.

(5) Employee Relations:

Policy and procedures have been implemented in the following areas: Posting of Vacancies, Training Program for all employees, Disciplinary and adverse action appeal system, Grievance and hearing system, Pay schedules adjusted periodically to match changes in Federal prevailing rate schedules, Employment continued through all recess periods, Overtime pay for all work in excess of 8 hours in a day or 40 hours in a work week.

TRIBUTE TO SGT. MAJ. JAMES B. WHITTAKER

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. SKELTON. Mr. Speaker, I take this time today to inform my colleagues and pay tribute to an outstanding member of the U.S. Army, Sgt. Maj. Jim Whittaker, of Barnett, MO.

Sergeant Major Whittaker was the adjutant general sergeant major, Fort Leonard Wood, MO, at the time of his untimely death from cardiac arrest on April 20, 1986. He was 45.

Before beginning military service to his country in 1961, Sergeant Major Whittaker graduated from Pensacola Technical High School in Pensacola, FL, and attended Greenleaf College in Atlanta, GA. Along with serving two tours in Heidelberg, West Germany, he also served a combat tour in Vietnam, with the 1st Personnel Services Company.

Jim Whittaker was the operations NCO of the reception station at Fort Leonard Wood before receiving his promotion to sergeant major and becoming the senior noncommissioned officer for the adjutant general. He was a dual component soldier, serving as a chief warrant officer, W-4, in the U.S. Army Reserve.

His many awards include the Meritorious Service Medal with Oak Leaf Cluster, the Army Commendation Medal with four Oak Leaf Clusters, the Army Achievement Medal with Oak Leaf Cluster, seven awards of the Good Conduct Medal, the Meritorious Unit Commendation, and the Republic of Vietnam Cross of Galantry with Palm.

Sergeant Major Whittaker is survived by his wife Barbara, his son Jay, his daughters Rhonda and Natalie, his mother Mrs. Anna Whittaker of Lawrenceburg, TN, three brothers—two of whom are retired U.S. Army noncommissioned officers—and four sisters.

Mr. Speaker, Sergeant Major Whittaker will be remembered by his family and friends as a person of rare competence and compassion who could be depended upon to do what was right for his soldiers, his Army and his country. I feel certain that each Member of this House joins me in sending our deepest sympathies to his wife and family. May God comfort them in this time of deep sorrow.

TRIBUTE TO FRANK D'ASCENSIO, ESQ.

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RODINO. Mr. Speaker, it gives me great pleasure to pay tribute to one of Newark's finest civil servants, Frank D'Ascensio, municipal clerk, city of Newark.

Frank D'Ascensio has been serving the people of Newark since 1931. It is exactly 55 years and 1 month after his initial temporary position with the city of Newark.

Frank D'Ascensio was born on September 8, 1903 in New York City, the year of the first airplane flight and the first feature motion picture, of immigrant parents from Italy. At the age of 5 Frank's family moved to Newark, NJ, where Frank has lived ever since.

Frank attended school in Newark and graduated from Barringer High School. He later earned a degree in electrical engineering from Cornell University in 1927 and a degree in law from the Mercer Beasley Law School (later Rutgers University) in 1931. In 1935 he was admitted to the New Jersey bar, and in 1941 he was certified as a professional land surveyer.

Meanwhile, because of the dearth of opportunities for engineers and/or attorneys during the Great Depression, Frank had taken a tem-

porary position with the city of Newark, and on April 16, 1931 he began work as a deputy collector of personal tax arrears. Five years later he was promoted to the permanent position of assistant tax assessor.

Frank rose through the ranks during the next two decades in the division of assessments and in 1957 he transferred to the office of the city clerk as an analyst. Three brief years later he acquired the title of chief analyst and mastered operations of this complex office under the tutelage of his predecessor, Harry Reichenstein. When Mr. Reichenstein retired at the age of 75 in 1971, Frank became municipal clerk of the largest municipality in the State of New Jersey. Frank attained tenure in this position in 1976 and during the last 15 years his staff has grown in both size and stature—a model for the Nation.

Frank has been honored for outstanding performance by local, county, State and national organizations, and he is known throughout the Nation as the dean of municipal clerks. In 1974 he became the first municipal clerk from New Jersey to be named to a committee of the International Institute of Municipal Clerks, and in 1980 he was awarded the degree of certified municipal clerk by the International Institute.

Apart from his professional association and interests, Frank and his late wife Mildred were devoted to their family and their church. Frank has been a communicant of Saint Francis Xavier Church for 58 years and he still attends weekly mass there.

Frank has two children. His son, Frank Paul D'Ascensio, is superintendent of industrial waste control for the Passaic Valley Sewerage Commission. His daughter, Barbara Bennett, is a junior high school teacher. He has four grandsons and two granddaughters.

Frank seems unable to find time to grow old. While workers not even a third of his age wait for the elevators, Frank can be seen briskly walking up the stairs to his third floor office.

Mr. Speaker, I commend Frank for his many contributions to our community, and I wish him well in the years to come.

WEST NANTICOKE METHODIST CHURCH CELEBRATES CENTENNIAL

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. KANJORSKI. Mr. Speaker, it is my pleasure to bring to your attention the 100th anniversary of the West Nanticoke Church in the Wyoming Valley of Pennsylvania. I am proud to join in the celebration of this centennial, and I am glad to have the opportunity to share this event with my colleagues in the House of Representatives.

The 11th Congressional District which I represent has a long tradition of religious observance and service to God. We are a diverse people, represented by the many different churches, temples, and synagogues which dot our countryside. But our common bond is a commitment and belief in the power and glory of a loving God.

The First United Methodist Church of West Nanticoke is a special part of that tradition. Its distinguished history stretches beyond the last 100 years to the beginning of a union Sunday School which had been held in West Nanticoke for some time prior to 1872. It ran only through the warm weather and was under the leadership of Baptists, including the Baptist minister Reverend Sheerer. In the fall of 1872, Jacob Bonawitz formed a Methodist Sunday School to continue through the winter. Mr. Bonawitz served the 100 members as superintendent, and several ministers from nearby Plymouth alternated preaching in the morning and evening. In 1874 West Nanticoke joined with Nanticoke for pastoral oversight until 1886, when it became a charge with C.S. Lane as pastor.

The church edifice was built in 1886 and was rededicated on Sunday, August 18, 1901. Rev. A. Griffin preached in the morning, Rev. A.J. Cleft in the afternoon, and Rev. W.H. Hiller in the evening.

Two floods inflicted tremendous damage to the West Nanticoke Church. The spring of 1936 brought the highest recorded flood in the history of the Wyoming Valley, and the church members worked with the Red Cross during this emergency. Hurricane Agnes struck in 1972 and wreaked havoc on the entire area. From the motor and blowers of the organ to the paneling and tile of the vestibule, the church was severely damaged. Through the hard work and dedication of the congregation, the church basement and the parsonage were restored within a year.

Throughout its trials and triumphs, the congregation of the First United Methodist Church of West Nanticoke has endured, providing testimony to the strength of faith. Mr. Speaker, it is a great honor to call your attention to this milestone in the history of this fine church. I am sure that you join me in wishing all those involved with this exciting event our sincerest and most heartfelt congratulations.

CONGRESSMAN GILMAN IN SUPPORT OF HOUSING REAUTHORIZATION

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. GILMAN. Mr. Speaker, I am pleased to rise in strong support of the Housing Act of 1986, and I thank my colleague, the gentleman from Connecticut [Mr. MCKINNEY], for yielding time to me today and for his leadership as the ranking minority member of the Subcommittee on Housing and Community Development in developing and improving our major housing and community development programs. I also wish to express my appreciation to his colleague, the distinguished chairman of the subcommittee, the gentleman from Texas [Mr. GONZALEZ], for his hard work and dedication to ensuring the continued viability of our housing programs. The Gonzalez-McKinney substitute that is being offered today, H.R. 4746, is the product of countless hours of consultation and negotiation between the minority and majority members of the House Committee on Banking and Urban Affairs. This measure is a fair and reasoned response to the urgent need to reauthorize these programs, many of which have been functioning under short-term extensions since the end of fiscal year 1985 last September.

Rather than detain this reauthorization any longer than it has already been, the committee wisely chose not to set specific funding levels in this bill and to include a general policy statement that all fiscal year 1986–87 authorizations must be capped at levels established by the pending budget resolution. H.R. 4746 further extends through fiscal year 1987, the FHA mortgage insurance programs, the Section 312 Rehabilitation Loan Program, Federal flood and crime insurance programs—with a 10-percent cap on premium increases—and FmHA rental and mutual and self-help housing programs. H.R. 4746 also retains the 9.25-percent cap on section 202 housing loans, reauthorizing that program through fiscal year 1987 and extends HMDA through fiscal year 1988. All of these programs are being utilized extensively throughout my congressional district in New York and are programs that for many elderly and handicapped individuals and countless families, have meant the difference between having a roof over their heads and being homeless.

Concomitant with our support for legislation which makes safe, reliable housing available to all individuals regardless of their income should be a commitment by this Congress to the development of our local communities and neighborhoods. Indeed improved housing opportunities and coordinated community and neighborhood development programs are integral components in any effort to improve the overall quality of community life. While the administration continues to target both of these programs for elimination, I am pleased that the committee has recognized the vital infusion of Federal dollars the CDBG and UDAG Programs afford our distressed towns and cities and have reauthorized the Community Development Block Grant and Urban Development Block Grant Programs through fiscal year 1987.

In this regard, I commend the committee particularly for including a provision in this legislation which will allow 19 U.S. cities to continue to compete for CDBG funding for 3 more years. Since 1983, cities classified as central cities for the purposes of being eligible for CDBG moneys have faced the threat of losing their entitlement status due to arbitrary criteria promulgated by the Office of Management and Budget. These regulations changed the method of defining central cities and/or the fluctuations in populations in our cities in the years between the decennial censuses. The 19 cities affected by these regulations have been caught in a vital catch-22. Because their population has decreased they are being deprived of the very funds they need to retain and attract businesses. Among the 19 cities affected by the OMB regulations are the cities of Middletown and Newburgh in Orange County, NY. As the Representative from Middletown and the former Representative of Newburgh, I know that I speak for all the constituents in our mid-Hudson Valley region when I thank the committee for recognizing

the significant work that has been completed and can continue to be executed, with CDBG funding. These two cities have worked extremely hard to overcome both regional and national problems. In Middletown alone CDBG moneys are helping to change the face of Middletown. The repaving of streets, the installation of street lamps, the revitilization of the old train station, rehabilitation of old housing to make it habitable—all of these projects paid for, in part, with CDBG moneys, have helped Middletown enter into a new era, an era of growth and prosperity which will ultimately benefit the entire region. I am hopeful that the 3-year extension of the central cities included in H.R. 4746 will allow these 19 cities adequate time to explore alternate funding options and for Congress to examine the possibility of a more permanent solution.

In addition, H.R. 4746 authorizes the section 8 and public housing programs through fiscal year 1987 and establishes a utility allowance for families in public housing who must make separate utility payments. Other welcome changes in the section 8 program include: amend the income eligibility requirements for assisted housing to all 25 percent—up from 5 percent—of assisted housing units to be leased to families with income between 50 percent and 80 percent of the area median, and; authorizes HUD to replace the Comprehensive Improvement Assistance Program with a new grant program to improve the physical condition of existing public housing projects and to upgrade their management and operation.

My district borders both sides of the Hudson River, a portion of which lies within 20 miles of New York City. While many of my constituents commute or do business in New York, a significant portion of the 22d Congressional District is rural and has been federally designated as such, allowing many of my constituents to be eligible for assistance under the rural housing programs. I am pleased to note that this substitute measure reauthorizes the rural housing insurance fund and the rural housing grant programs which have permitted so many individuals and families in our rural areas to own their own homes.

The committee has also responded to the growing incidence of homelessness in this Nation. I recently had the opportunity to visit several homeless shelter facilities in Westchester County, NY. Our local municipalities cannot be expected to bear the entire burden of housing and of feeding the homeless. H.R. 4746 establishes two new programs to aid the homeless which: Creates a new second-stage housing demonstration program for homeless and displaced person unable to live independently, and establishes the National Emergency Food and Shelter Board to administer shelter assistance programs. In addition the committee has authorized such sums as may be necessary to advance this new initiative and requires the National Emergency Food and Shelter Board to make matching grants to the State and local governments and nonprofit organizations for assistance to the homeless.

In closing, I want to urge my colleagues to seize this opportunity—a reauthorization of these housing and community development programs are desparately needed—and vote for adoption of this legislation. I entreat my colleagues to vote "aye" on the Gonzalez-McKinney substitute and aye on this final passage or this worthy legislation.

THE PRODUCT LIABILITY UNIFORM STANDARDS AND REFORM ACT

HON. WILLIAM E. DANNEMEYER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DANNEMEYER. Mr. Speaker, there can be no doubt that the United States is a litigious society, but until recently this penchant to sue was just America's way of redressing her grievances. Now it threatens the very heart of society by reducing the availability, adequacy and affordability of insurance thus affecting the existence of a variety of consumer goods and services. The apparent culprit in this scheme of devastation is none other than the vast array of State tort laws.

Manufacturers, sellers, insurance companies and consumers are all victims. Manufacturers are unable to manufacture quality products free from the threat of paralyzing litigation because they cannot predict, with any regularity, the impact of 50 different State laws on their product. Our current tort system is nothing more than a myriad of disjointed rules pertaining to what actions or omissions will be determinative of liability and who will pay. Similarly, insurance companies are unable to determine with sufficient precision the potential for, and extent of, possible liability under such a wide variety of laws. Most importantly this unpredictable system leaves corporations and consumers unprotected and unable to purchase reasonable insurance. Most frustrating for businesses is that denial of insurance is not always linked to risks associated with their product or history of service. Ultimately, inability to obtain insurance can result in business forfeiture, bankruptcy and higher cost to the consumer.

The upheaval in the liability system is reflected in both the size and number of awards. The number of product liability cases filed in Federal district court soared from 1,579 in 1974 to 13,554 in 1985, a 758-percent increase. Similarly the average size of awards has tripled during the past 25 years from an average of $49,000 in the early 1960's to $130,000 in the late 1970's. The increase in the average is largely due to the dramatic increase in awards over $1 million. In the 1960's, awards that exceeded $1 million accounted for only 8 percent of damages awarded. In the late 1970's, however, awards of $1 million and up accounted for 48 percent of all awards. Equally at fault is the increase in punitive damage awards. These awards, intended only to penalize, have increased approximately 12,000 percent since the early 1960's from levels between $4,000 to $54,000 in the 1960's to $395,000 to $489,000 in the late 1970's.

In my home State of California, cities have paid $75.4 million in "deep pocket" liability claims and defense costs in the last 3 years alone. In addition, a League of California Cities study of 347 municipalities, including 23 in my home county of Orange County, found that nearly $250 million in claims are pending. The response to this situation has been to put proposition 51 on the June 3, 1986 ballot. This proposal would limit a city's liability to it's percentage of fault. While I commend the organizers of the proposition 51 coalition for a prompt response to this crisis, I believe that the extent of this problem and its adverse impact on interstate commerce demands Federal action.

It is clear that our tort system, which was designed to compensate the victim for wrongful injury, has become so debilitated that the question of liability is now a secondary issue. A few examples highlight the dramatic shift away from fault-based compensation standards: A 41-year-old body builder in California entered a footrace with a refrigerator strapped to his back. During the race a strap slipped and he was injured. He collected $1 million in damages, Columbo versus Transworld International, et al. Two Maryland men decided to dry their hot air balloon in a clothes dryer. When the dryer exploded the men were injured and collected $885,000 in damages, American Laundry Machinery versus Horan.

For the above reasons, I am introducing the Product Liability Voluntary Claims and Uniform Standards Act of 1986. This bill would preempt conflicting State law and provide for uniform standards of liability. The most salient features of the bill include elimination of joint and several liability in favor of comparative responsibility, a cap on punitive damages to two times the amount of economic damages or $100,000, whichever is less, settlement incentives and an alternative dispute resolution mechanism. While I recognize that no one bill will be the cure-all, I do believe that uniform laws will add stability and predictability to the system which will result in improved underwriting practices and ultimately available and affordable insurance.

A comprehensive reform of our fragmented tort system is long overdue and I submit this bill with the hope that it will serve as a vehicle for reform. I welcome a discussion of this and other proposals aimed at reform of our Nation's tort laws. While I believe my bill represents a balance of all interests involved and is the most comprehensive effort to date, I am amenable to any suggestions which may improve this approach. I urge the Energy and Commerce and Judiciary Committees to schedule hearings and expedite consideration of this vital legislation.

Below is a section-by-section description of the bill:

SECTION-BY-SECTION DESCRIPTION OF THE BILL

Section 101. Title. "Product Liability Uniform Standards and Reform Act".

Section 102. Definitions.

Section 103. Preemption. This Act preempts any civil action brought against a manufacturer or product seller, on any theory, for personal injury or property damage caused by a product. Does not include loss or damage to a product or commercial loss. This Act also supersedes relevant state law to the extent that it overlaps with state law. Any issue not governed by this Act shall be governed by applicable state or federal law.

Section 104. Record Retention. A manufacturer shall retain for 25 years a copy of all studies or reports within his custody/control which assess the risks or hazards posed by the design or formulation of the product. The manufacturer shall also retain for 25 years a record of each reported incident of death, injury or illness resulting from use of the product.

Any claimant/person who is a party or who has notice that he or she may be made a party to an action under this Act shall retain all material documents and data within that person's custody/control that are relevant to the action or may lead to discovery of evidence relevant to the action.

If a party willfully disposes of a document in violation of this section, there shall be a rebuttable presumption that the facts contained in the document are adverse to the party who committed the violation. In addition, the court shall assess a civil penalty against the guilty party in the amount of $1,000 or more and order the guilty party to pay the other party's costs, including reasonable attorney's fees incurred in proving the violation. Nonwilful violations in which no other means are available to establish the facts contained in the destroyed document will result in a rebuttable presumption against the nonwillful violator. No penalty will be assessed.

Section 105. Attorney Disclosure. An attorney contacted about rights and recovery under this Act must disclose the options available to the client, the potential recovery, time period for recovery and an estimate of attorney's fees and all other potential costs and penalties pursuant to recovery under Title II (Expedited Claims) or Title III (Civil Action).

If an attorney fails to disclose information required by this section, the client may bring a civil action for damages in the court in which an action under title II was, or could have, been brought. Recoverable damages include exemplary damages in the amount of client's economic loss.

Section 106. Service of Process. The summons and complaint shall be served as provided by applicable law.

Section 107. Admissibility of Certain Evidence. Evidence of an admission of liability, either expressly, or impliedly, is inadmissible in any other action brought under or subject to this Act.

This is a codification of the federal rules of evidence. The rationale for finding this type of evidence inadmissible is that public policy wants to encourage product improvement and voluntary payment to a claimant.

Section 108. Expert Opinion. Expert scientific or medical opinion is not sufficient evidence to establish a fact absent support in peer-reviewed scientific or medical studies.

Section 109. Subsequent Remedial Measures. Evidence of subsequent remedial measures taken by a manufacturer or product seller after the occurrence of a claimant's harm which, if taken previously, would have made the harm less likely to occur is not admissible to prove liability. (Codification of Federal Rules of Evidence)

Section 110. Product Liability Registry. Any manufacturer who is not incorporated or registered to do business under the law of the State shall contact the Secretary with the name of an appointed agent to receive service of process. The Secretary shall maintain a registry of agents and furnish the name and address of the agent to any person requesting such for the purpose of making a claim under this Act.

Within 12 months of enactment the Secretary shall establish regulations regarding the financial responsibility of manufacturers through either insurance, guaranty, surety bond, letter of credit or any combination.

A manufacturer who fails to comply shall be liable to the U.S. for a civil penalty not to exceed $5,000 for each day of noncompliance. The penalty will be assessed by the Secretary after the alleged violator has had the opportunity for a hearing. A person wishing to challenge the penalty may file a petition for judicial review with the U.S. Court of Appeals for the District of Columbia with 30 days. If the manufacturer fails to pay the penalty after the court has issued a final order, the Attorney General shall recover the amount assessed plus interest without reviewing the validity, amount and appropriateness of the penalty.

Section 111. Effective Date. This Act shall be effective on the date of its enactment. If any provision of this Act would shorten the period which a manufacturer or product seller would be exposed to liability, the claimant may submit a claim under this Act within one year after the effective date.

TITLE II. (EXPEDITED CLAIMS PROCEDURE)

Section 201. Expedited Product Liability Claims Procedure. A person who has suffered harm caused by a product (other than an employee of the product's manufacturer who suffers harm in the course of his employment) may submit an expedited claim to the manufacturer.

A person who submits a claim under Title II (expedited claims) may not seek recovery for the same harm in a civil action under Title III of this Act if the manufacturer:

(1) makes payment of net economic loss;

(2) declines to make full payment solely because of a dispute over the amount of the net economic loss; or

(3) declines liability for harm or fails to respond and claimant has received a notice from the manufacturer denying liability and claimant seeks recovery under Section 208 (order enforcing claimant's right).

A person may not submit an expedited claim if they have already brought a civil action against the manufacturer under any theory/law to recover damages for the same harm.

A manufacturer who makes payment under Title II or who is found not liable may not be made a defendant in any action brought by any other party for contribution, reimbursement or indemnity for damages arising from the same harm.

Payment of an expedited claim, or a finding of nonliability will not bar an action for associated harm which is physical damage to property other than the product itself.

Section 202. Manufacturer's Liability For Net Economic Loss. A manufacturer's liability is limited to "net economic loss" under Title II. "Net economic loss" is defined as:

(1) reasonable expenses incurred for reasonably needed and used medical and rehabilitation services;

(2) lost income from work reduced by any income earned from substitute work actually performed or by income the claimant would have earned in available appropriate work which claimant was capable of performing but unreasonably failed to undertake. This amount shall be reduced by the amount of all Federal, State and local income taxes and any Social Security which is not considered compensation;

(3) reasonable expenses incurred in obtaining ordinary and necessary services claimant would have performed;

(4) lost earnings of deceased person who suffered fatal harm caused by a product which would have been contributed to claimants entitled to receive benefits under law; and

(5) reasonable expenses incurred by claimant in preparation and submission of voluntary expedited claim including reasonable attorney's fees—minus the amount of compensation paid by any other source including a government program, employee benefit plan or insurance.

When harm occurs that may entitle a claimant to benefits which would reduce the amount of "net economic loss" to be paid by the manufacturer, the manufacturer may place in an interest-bearing escrow account that portion of the economic loss which the manufacturer anticipates the claimant will receive from other sources until claimant's right to such benefits has been determined. The total amount of compensation paid to a claimant from any other source shall be reduced by the amount of legal fees and other costs incurred by claimant in collecting the compensation.

Attorney's fees may be on a contingent basis but for purposes of calculating costs must be based on an hourly rate which should not exceed that which is considered acceptable in the community.

Section 203. Submission of an Expedited Claim. Within 120 days of the effective date of this Act, the Secretary shall make available a model explanation of claimant's rights which the manufacturer will provide to a claimant within 10 days of receipt of notice of injury. An expedited claim must be accompanied by material proof of the injury and records of "net economic loss".

Toxic Harm. A person seeking to recover for toxic harm of a kind which manifests itself only many years after exposure and where it is not possible for the claimant to identify the manufacturer, may submit an expedited claim to any manufacturer of a product that is chemically indistinguishable from the product which caused the harm if the manufacturer's product was available at the time the product that caused the harm was purchased. Claimant must also provide a written explanation of efforts to identify the manufacturer of the individual product unit.

Statute of Limitations. Two years. A person under legal disability may submit a claim within 2 years after the disability ceases.

Section 204. Duty To Disclose Information. A claimant must cooperate fully with the manufacturer in the manufacturer's investigation of the claim.

Section 205. Liability for Harm. A manufacturer will be liable to a claimant under an expedited claims procedure if:

(1) the product, when it left the manufacturer's control, was unreasonably dangerous; and

(2) the unreasonably dangerous aspect of the product was the proximate cause of claimant's harm while the product was being used in a manner intended or reasonably anticipated by the manufacturer.

a. "Unreasonably dangerous" is established when:

(1) the product's utility so outweighs the risk of harm that a person knowing of the risk would still be justified in placing the product in the stream of commerce; or

(2) a. the risk of harm would be apparent to a reasonably observant person or would have been a matter of common knowledge; or

b. if the risk of harm would not have been apparent, the manufacturer provided adequate warnings to enable a reasonable

person to avoid the risk or to make an informed decision whether to assume the risk.

(3) A product which is a drug or device which may only be administered by a licensed practitioner will not be found unreasonably dangerous if the manufacturer provided warnings in compliance with FDA requirements.

(4) If the claimant has suffered toxic harm of a kind which manifests itself only after many years of exposure, proximate cause will be presumed if:

(a) the claimant was exposed to the product at the relevant time; and

(b) the claimant's exposure to the product would "significantly increase" (incidence to an exposed population exceed's incidence in an unexposed population by 30% or more) the risk of incurring the toxic harm unless another toxic agent is more likely to have independently produced claimant's harm.

The claimant must establish by a preponderance of the evidence that, in the best available scientific opinion, exposure to a product of a certain chemical composition, in the circumstances of claimant's case, significantly increased the claimant's risk of incurring toxic harm.

Section 206. Payment or Rejection of an Expedited Claim. Within 90 days of receipt of an expedited claim a manufacturer shall determine whether it is liable for the claimed harm and notify the claimant.

If a manufacturer agrees it is liable, it shall make payment for net economic loss or enter into an agreement with claimant for another acceptable disposition of the claim.

If manufacturer determines it is not liable, it shall give the claimant written notice of rejection and a written explanation of claimant's rights to bring a civil action for an order enforcing those rights.

If a manufacturer does not contest liability but disputes the amount of the claim, the manufacturer shall pay the undisputed portion and provide claimant with an explanation of claimant's rights to initiate binding arbitration within 90 days. Arbitration will be the exclusive remedy when the dispute is over the amount of net economic loss.

Section 207. Rights Upon Denial of Full Payment. If a manufacturer disputes the amount of a claim and the claimant initiates arbitration proceedings within 90 days, the Federal Mediation and Conciliation Service will appoint an arbitrator to make a final detemination within 60 days, of the amount owed by manufacturer. No court shall have the power to review this determination except where either party alleges fraud or misrepresentation.

Section 208. Rights Upon Denial of Liability. If a manufacturer declines liability or fails to respond to a claim, the claimant may bring a civil action enforcing the claimant's rights under this title. If the manufacturer provides claimant with a notice of rejection, the issues at trial shall be limited to those issues raised by claimant and set forth in such notice. All issues shall be tried by the court without a jury. Such action may be brought within one year of the date of submission of the claim, or within 90 days of the manufacturer's rejection of the cliam, which ever is later.

If the court finds that the manufacturer is liable the court shall enter an order enforcing the claimant's rights and directing arbitration to settle any dispute over net economic loss and award reasonable attorney's fees and expenses as well as interest on the amount of claimant's net economic loss equal to 2% per month.

If the court finds there was not good cause for the manufacturer's denial of liability or failure to respond within the time required, the court shall award exemplary damages in an amount not to exceed twice the amount of net ecomomic loss or $10,000 whichever is greater.

If the court finds there was not good cause for claimant to file an action, the court shall require the claimant or claimant's attorney to pay all of the manufacturer's costs of investigation and defending the claim.

A person who willfully violates an enforcement order or an order of an arbitrator shall, upon conviction, be subject to a fine of not more than $2,000 for each day of violation, or imprisonment, not to exceed two years, or both.

Section 209. Supplemental Expedited Claim. If claimant incurs additional net economic loss arising from the same harm, and manufacturer has admitted liability, claimant may submit supplement claims. These claims will be handled like the original claim.

Section 210. Time Limitation on Liability. Statute of Repose for all harms which are not toxic harm is 25 years from the date of delivery of the product to its first purchaser or lessee not engaged in the business of selling or leasing the product or using the product as a component in the manufacture of another product.

Section 211. Reimbursement of Manufacturer. Any manufacturer who pays an expedited claim may seek reimbursement, contribution, or indemnity on the basis of comparative responsibility within 2 years of such payment. Contribution, reimbursement or indemnity may be sought in a State court with original jurisdiction or a District Court.

Section 212. Collective Processing of Claims. Nothing in this title or in the antitrust laws shall preclude manufacturers or product sellers from establishing and maintaining collective means of processing claims.

TITLE III (CIVIL ACTIONS)

Section 301. Civil Actions. A person may bring a civil action against a manufacturer or product seller pursuant to applicable law except where such law is superseded by this Act. By bringing a civil action, a person waives all rights to recovery under the expedited claims procedure in Title II.

Section 302. Uniform Standards of Manufacturer Liability. A manufacturer will be liable if claimant proves by a preponderance of the evidence that:

(1) a product unit manufactured by the manufacturer was a proximate cause of the harm; and

(2) a. the manufacturer was negligent in constructing, designing, providing warnings about the proper use of the product or that the product did not conform to the express warranty made by the manufacturer. (provisions for negligence conform to general negligence standards).

Section 303. Uniform Standards of Product Seller Liability. A product seller may be found liable if claimant can prove by a preponderance of the evidence that:

(1) the product unit which caused the harm was sold by the defendant; and

(2) the product seller failed to exercise reasonable care; and

(3) seller's failure to exercise care was the proximate cause of claimant's harm; or

(1) the product seller made an express warranty, independent of any express warranty made by the manufacturer; and

(2) the product failed to conform to the warranty; and

(3) the failure to conform to the warranty caused the claimant's harm.

A product seller shall be treated as a manufacturer and shall be liable for harm as if it were the manufacturer if the manufacturer is not subject to service of process or the court determines that the claimant would be unable to enforce the judgment against the manufacturer.

Section 304. Determination of Responsibility in a Product Liability Action. All claims under this Act shall be governed by principles of comparative responsibility. The court shall instruct the jury to make findings indicating the total amount of damages to each claimant for claimant's harm and the percentage of total responsibility for harm attributable to each claimant, each defendant, and to any other cuase. The percentage attributable to each defendant or third-party defendant shall be determined by subtracting the percentage of responsibility attributable to the claimant and to any other cause or person who is not a party to the action from 100% and allocating the percentage remaining to the defendants according to their individual responsibility for harm.

Evidence of claimant's misuse, alteration of modification of a product shall be considered in determining claimant's responsibility for harm.

Joint and several liability shall be determined in accordance with state law except that the basis for contribution shall be each joint tortfeasor's percentage of responsibility for harm. If an amount is not collectible from one joint tortfeasor, the portion which is uncollectible shall be reallocated among other joint tortfeasors according to their percentage of responsibility.

Section 305. Relevance of Government Standards and Contracts. If a product seller proves by a preponderance of the evidence that the aspect of the product or its use which claimant cites as defective substantially complies with applicable mandatory contract specifications of a Federal, State, or local government pertaining directly to that aspect of the product or its use, the claimant shall be deemed to have failed to satisfy the proof requirements.

This section will not apply if a product identical to the product at issue is identical in all significant aspects to one which is commercially available prior to the date of the product's first sale to Federal, State, or local government.

Section 306. Uniform Standards for Offset of Worker's Compensation Benefits. The judgment shall be reduced by the sum of the amount paid as workers' compensation benefits for that harm and the present value of all workers' compensation benefits to which the employee is or would be entitled for the harm.

Section 307. Uniform Standards for Award of Punitive Damages. Punitive damages may be awarded upon establishment of clear and convincing evidence that the harm suffered was the result of conduct manifesting conscious, flagrant indifference to the safety of persons who may be harmed by a product. Punitive damages may not be awarded in the absence of a compensatory award unless death results from product use.

In determining whether punitive damages are appropriate the trier of fact shall take into account the conduct of manufacturer/seller upon learning that the product caused harm and the duration of the conduct and any concealment.

The amount of punitive damages may not exceed twice the amount of other damages awarded or $1,000,000 whichever is greater.

Section 308. Uniform Standards of Limitation and Repose. Statute of Limitations shall be 2 years from the date the claimant discovered the harm, or in the exercise of reasonable care, should have discovered the harm. In the case of a disabled claimant, an action may commence within 2 years after the disability ceases.

The Statute of Repose will be 12 years for non-toxic harm and 25 years for toxic harm.

Section 309. Uniform Standard for Settlement Incentives. If either party offers a "reasonable" settlement which is rejected by the opposing party who is later determined to be at fault and who receives damages less than or equal to those offered in the settlement, that party will also be responsible for attorney fees and costs attributed to prolonged litigation.

Section 310. Uniform Standard for Periodic Payment of Awards. Provides that payments for future economic damages may be made periodically. If the court suspects that future economic damages may not be paid, the court may require the party responsible for payment to purchase an annuity to cover the expected cost of future payments.

Section 311. Application of Other Law. Except as otherwise provided in this act, nothing shall be construed to affect any statutory or common law rule governing recovery by a claimant or the effect of comparative responsibility upon the recovery.

ENDORSEMENT OF SAFE DRINKING WATER ACT AMENDMENTS

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. GILMAN. Mr. Speaker, I strongly support the conference report accompanying S. 124, the Safe Drinking Water Act Amendments, which was adopted by the House Tuesday. I would like to take this opportunity to commend my colleagues in this Chamber, particularly the gentleman from Illinois [Mr. MADIGAN], who introduced the House companion bill, H.R. 1650, the gentleman from Michigan [Mr. DINGELL], the distinguished chairman of the Committee on Energy and Commerce, and the gentleman from California [Mr. WAXMAN], the distinguished chairman of the Subcommitte on Health and the Environment, all of whom worked diligently to secure adoption of this important measure.

Despite the strides we have made in cleaning up our Nation's waterways and supplies, there remains much for us in the Congress to do. Our surface water supplies are polluted by over 700 pollutants, including synthetic organic chemicals and heavy metals. Congress has worked hard to control the spread of these contaminants to our water supplies through such measures as the Resource Conservation and Recovery Act and the Superfund laws. However, it would be shortsighted and fiscally irresponsible to rely on cleanup laws to maintain safe drinking water supplies. What is needed is this kind of legislation, preventing our water supplies from contamination in the first place.

While this is not a perfect bill, the conferees from both Chambers are to be commended for producing a compromise measure with broad bipartisan support. I am pleased that the funding levels agreed to in the conference report are even higher than those originally set in H.R. 1650. These funds will be well spent, and should the President sign this legislation into law, it will save future, more costly outlays. I am also pleased to see that the Environmental Protection Agency will be required to set maximum contaminant level goals and primary drinking water regulations for 83 contaminants previously identified for regulation in 1982 and 1983. I am especially pleased that the conferees took the initiative on an issue that was not addressed originally by either the House or Senate measure. I applaud the conferees for setting restrictions on the use of lead pipes or fittings in the installation or repair of public water systems. Reducing the exposure of our drinking waters to lead is an important step in ensuring safe water supplies.

Another important feature of this bill requires the States to establish plans to protect the ground water resources which supply half of the U.S population with drinking water. These plans would be submitted to EPA for approval, and would have to include contingency plans for locating and providing alternate drinking water supplies in the event of contamination of a water supply. Also, monitoring of class I injection wells, which are wells that inject hazardous waste below an underground drinking water source, is required to provide the earliest possible detection of fluid migration toward or into underground sources of drinking water.

We cannot afford to be negligent in protecting one of our most important natural resources. This bill is necessary to protect our Nation's drinking sources in a farsighted, cost-effective manner.

Accordingly, I urge the President to sign S. 124, the Safe Drinking Water Amendments and hope for its speedy implementation.

MAY 20, 1986, IS SENIOR CITIZENS' DAY IN OHIO

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TRAFICANT. Mr. Speaker, it is my great pleasure to inform you and my colleagues that on May 20, 1986, Senior Citizens' Day will be observed throughout the great State of Ohio. As you know, this celebration falls in the month of May, which the President has declared "Older Americans Month."

It is certainly fitting and right that we should so honor our Nation's older citizens through a specially designated month and day. Senior citizens are comprising an increasingly larger percentage of America's population—it is expected that between the years 1980 and 2000, the elderly population will grow by 27 percent. It is by now becoming common knowledge that the elderly are the fastest growing segment of the population, having grown twice as fast as the rest of the population in the last two decades.

It might be of special interest to my colleagues to know that the elderly and the near-elderly are the most likely age groups to vote. Data from the 1980 and 1982 elections demonstrate that about one-third of all voters are age 55 or older. In view of the electoral power of this group, we in Congress would be wise to pay careful attention to the special needs and interests of our older constituents. Incidentally, over half of all senior citizens in America live in just eight States, of which Ohio is one.

This increasingly large and important sector of America is deserving of the attention and honor bestowed upon it this month and on Senior Citizen's Day. Our older citizens have devoted many years of their lives to building this country, and they continue to serve it with their hands, their minds, and their hearts. I am sure I echo the sentiments of my congressional colleagues and my fellow Americans, when I say to all the older Ohioans, thank you for the beauty of your many years of sacrifice, and for your continuing contributions to American society. It is my privilege today to join with the many voices honoring American and Ohio senior citizens.

HONORING THE SERVICE OF SAMUEL J. MITCHELL

HON. ESTEBAN EDWARD TORRES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TORRES. Mr. Speaker, I ask my colleagues in Congress to join me in honoring the service and dedication of Samuel J. Mitchell.

On May 21, 1986, Mr. Mitchell will be retiring from the Los Nietos School District. He has served over 28 years in the district at the Los Nietos Junior High/Middle School. As a teacher Mr. Mitchell was known for conducting a well-disciplined classroom with high expectations for his students. He completed special courses so he would be able to teach and communicate in Spanish. His fundraising efforts for the Los Nietos Teachers' Association Scholarship Fund have made it a successful program, helping students go on to college.

Mr. Mitchell is a native of Danville, PA. He graduated in 1958 from Bloomsburg State Teachers' College in Pennsylvania after serving 6 years in the Air Force. After finishing school he moved to California with his wife, Iris, where they raised their four children. His hobbies include coin collecting and model train collecting. He also has several classic and antique automobiles.

Mr. Speaker, I want to recognize the devotion and commitment Mr. Samuel J. Mitchell has given to the students of the Los Nietos School District. I wish him all the best on his well-deserved retirement.

AMELIA BRASKIE HONORED

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. KANJORSKI. Mr. Speaker, many generations of immigrants from around the world have contributed to the rich cultural diversity of our country, and I would like to take this opportunity to draw to your attention the accomplishments of one such immigrant who brought a bit of her homeland to America.

Sunday, May 4, the Tirolesi Alpini of Hazleton, PA, honored their founder, Mrs. Amelia DeFant Braskie, at their 18th annual Festa Tirolesa. It is a pleasure for me to join with this fine organization of Old World culture in commemorating Mrs. Braskie for her efforts in establishing the Tirolesi Alpini.

In 1920 and at the age of 13, Amelia DeFant left her homeland of Taio, Val di Non, region of Trento Province (then a part of Austria) for America. Amelia, her six brothers and sisters, and her parents first settled in the small mining town of Anvil Location, MI. After 2 years in Michigan, the DeFants were drawn to Hazleton, PA, where many other Tiroleans worked in the heart of the anthracite coal region. They attended the first and only Tirolean Church in the United States, Our Lady of Mount Carmel, which is still in existence and is a Pennsylvania historical site.

Amelia married a baker, Walter S. Braskie, and had two children, Jean and Eileen. In 1968 she founded the nonprofit social organization Tirolesi Alpini of Hazleton, PA, to continue the Tirolean heritage she loved. Recognized by the Autonomous Province of Trento, the Tirolesi Alpini of Halzeton is in association with the Greater Trentino in North America, and is devoted to maintaining close ties with the people of Trento, Italy. Mrs. Braskie has acted as a liaison between the Tiroleans of the Old World and the New; fluent in her native tongue, she has visited her homeland on numerous occasions and introduced the government officials of the Autonomous Province of Trento to the Tiroleans in America.

The Tirolesi Alpini of Hazleton now has 500 members and is the host to the Seventh International Tirolean-Trentine Organization Convention this July 4, 5, and 6. The 17-year history of this organization is testimony to the enduring strength of the Tirolean heritage, and exemplifies the rich diversity of our American culture.

Mr. Speaker, Mrs. Amelia Braskie deserves our recognition of her outstanding contribution to the cultural life of our Nation, and I am pleased to bring her accomplishments to the attention of my colleagues in the House of Representatives.

THE NORTHSIDE PUMPING DIVISION EXTENSION PROJECT

HON. RICHARD STALLINGS

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. STALLINGS. Mr. Speaker, I am introducing a bill today to authorize the construction and operation of the northside pumping division extension project in southern Idaho. The extension project shall be an addition to the existing northside pumping division which is a 77,000-acre reclamation project built in the 1950's.

The major elements of this project include the following:

First, provide irrigation service to 9,400 acres of irrigable drylands which will be sold in small tracts to add to existing farms. Part of each tract will be managed for wildlife habitat by the landowners.

Second, improve and manage for wildlife, mainly ring-necked pheasants, 5,590 acres of Federal lands scattered throughout this area.

Third, provide replacement water supplies to 810 acres of existing northside pumping division lands in a localized area with undependable ground water yields.

Fourth, provide for other minor uses of the remaining Federal lands in the area, including about 240 arces which will be sold in small parcels to square up adjacent farms in the A & B Irrigation District and a total of 840 acres which will be set aside for other irrigation district and municipal functions.

This project, Mr. Speaker, will put 17,000 acres of extension land to beneficial use. Most of these lands have already been placed under reclamation withdrawal in connection with the original northside project. These lands were not developed at the time because of funding limitations and the lands were not suitable for the gravity irrigation systems then used, but are suited for sprinkler systems now in widespread use.

I mentioned several benefits to be gained from this project. The implementation of the extension plan will eliminate the need for the costly management of these scattered tracts by both the Bureau of Reclamation and the Bureau of Land Management. Existing land management conflicts between private users will also be ended and the deterioration and abuse of the tracts will be stopped with good wildlife habitat management.

Management for wildlife habitat is a key component of this project and has widespread support from the public, including local farmers, conservationists and the State fish and game department. Purchasers of these extension lands will have to agree to manage part of their new land for pheasants at their own expense and they will have to permit public hunting on these lands. These wildlife convenants will require farmers to crop their land to specific crops that can also be managed for wildlife enhancement. Only two crops—alfalfa and grain—can be planted in that area of the State to meet these wildlife covenants. If farmers were prevented from planting grain crops because they are in surplus—a policy which has recently been discussed before the this body—I am afraid this project will become rapidly infeasible.

I believe the northside pumping division extension project has all of the necessary ingredients to make it very successful and a prudent investment of Federal dollars. Water users will repay 100 percent of the irrigation construction costs and the Idaho Department of Fish and Game will repay all reimbursable wildlife enhancement costs in accordance with cost-sharing policies. More importantly to Idaho, this project will significantly improve the economic situation on the existing farms and will restore the area so that it will once again offer some of the best pheasant hunting in the United States.

I urge my colleagues to support this multibeneficial and cost-effective reclamation project. The text of the bill follows:

H.R. 4844

A bill to authorize the Secretary of the Interior to construct, operate, and maintain the North Side Pumping Division Extension, Minidoka Project, Idaho, for irrigation, fish and wildlife, and other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORIZATION OF THE EXTENSION PROJECT.

For the purpose of providing irrigation, enchancement of fish and wildlife, and other purposes, the Secretary of the Interior, acting pursuant to the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof and supplementary thereto), is authorized to construct, operate, and maintain the North Side Pumping Division Extension, Minidoka Project, Idaho (hereinafter referred to as the "Extension"). The Extension project shall be an addition to the existing North Side Pumping Division, which was constructed by the Secretary pursuant to the Act of September 30, 1950 (64 Stat. 1083). The principal works of the Extension shall consist of a Snake River pumping plant, wells, water distribution facilities, drainage works, transmission lines and substations, wildlife conservation measures, and related works.

SEC. 2. TRANSFER OF LAND.

Approximately 3,751 acres of Federal land under the jurisdiction of the Bureau of Land Management are transferred to the sole jurisdiction of the Bureau of Reclamation for development and management as part of the Extension. The lands transferred, all in the state of Idaho, are described as follows (all range references are to the Boise base and meridian):

T. 8 S., R. 21 E., W½NW¼, SW¼ Sec. 27; W½NW¼ Sec. 34;

T. 8 S. R. 22 E., E½NW¼ Sec. 31;

T. 8 S., R. 25 E., SE¼NE¼ Sec. 24;

T. 9 S., R. 21 E., N½, SW¼, W½SE¼, NE¼SE¼ Sec. 13; E½ Sec. 14; W½NE¼, NW¼ Sec. 15; SE¼NE¼ Sec. 18; SE¼SE¼ Sec. 21; E½NE¼, SW¼SW¼, N½SE¼ Sec. 22; N½, N½SW¼, N½SE¼ Sec. 23; W½NE¼, NW¼, SW¼, W½SE¼, SE¼SE¼ Sec. 24; N½NE¼, N½NW¼, SW¼NW¼, NW¼SW¼ Sec. 25; NE¼ Sec. 26;

T. 9 S., R. 22 E., W½NW¼, SW¼ Sec. 7; NW¼ Sec. 18; S½SW¼ Sec. 19; N½NW¼ Sec. 30.

SEC. 3. SALE OF LAND.

The Secretary is authorized to sell to eligible individuals appropriately 10,700 acres of lands subject to the following conditions:

(1) The lands shall be conveyed subject to a wildlife conservation easement reserved to the United States.

(2) The lands shall be sold for the purpose of irrigation development to owners of lands within the operating North Side Pumping Division according to terms determined by the Secretary.

SEC. 4. EXCHANGE OF LAND.

The Secretary is authorized to exchange small tracts of withdrawn or acquired land, in aggregate totaling approximately 300

acres, for private lands in the North Side Pumping Division required to enhance the effectiveness of the development of the Extension project.

SEC. 5. OPERATION AND MAINTENANCE HEADQUARTERS.

The Secretary is authorized to reserve approximately 30 acres of land for use as an operation and maintenance headquarters site for the North Side Pumping Division and for the Extension authorized by this Act. The site shall be transferred to the A&B Irrigation District, which shall operate and maintain both the existing project and the Extension, under conditions acceptable to the Secretary. The Secretary is authorized to convey by quitclaim deed to the irrigation district all or part of the three Federal land areas, totaling approximately 28 acres, which are now used for operation and maintenance headquarters and related facilities for the existing project, subject to the following conditions:

(1) These lands and related facilities shall be sold in accordance with conditions acceptable to the Secretary.

(2) The proceeds shall be used by the irrigation district to develop a new operation and maintenance headquarters and related facilities at the new site.

SEC. 6. CONVEYANCE TO THE CITY OF RUPERT.

The Secretary is authorized to convey without charge by quitclaim deed to the city of Rupert, Idaho, all right, title, and interest in and to approximately 600 acres of Federal land for use as a disposal area for treated effluent from the city's wastewater treatment plant, with a provision for irrigation farming on the land using the treated effluent. Such conveyance shall be made in accordance with conditions acceptable to the Secretary and subject to the following conditions:

(1) There is reserved to the United States a wildlife conservation easement.

(2) There is reserved to the United States a reversion of title subject to the discretion of the Secretary if the land is not used for the purpose authorized in this section.

SEC. 7. LEASE AND CONVEYANCE OF LAND TO MINIDOKA COUNTY.

There is set aside approximately 210 acres of Federal land for a public golf course or other public recreational features to be constructed and operated by or for Minidoka County, State of Idaho, within 10 years after the date of enactment of this Act. During that period, the Secretary shall lease the land without charge to Minidoka County. The lease shall permit Minidoka County to sublease all or part of the land for agriculture, with the net proceeds collected by Minidoka County to be applied to the development of the golf course or other public recreational features. Upon substantial completion of the golf course or other public recreational features within 10 years after the date of enactment of this Act, the Secretary shall convey such land without charge by quitclaim deed to Minidoka County subject to the following conditions:

(1) A wildlife conservation easement is reserved to the United States.

(2) Title shall, at the discretion of the Secretary, revert to the United States if the land is not used for the purposes authorized in this section.

SEC. 8. IRRIGATION PUMPING POWER.

Power and energy required for pumping irrigation water for the Extension shall be made available by the Secretary from the power facilities of reclamation projects in the Snake River basin at charges determined by the Secretary.

SEC. 9. POWER FOR IRRIGATION SPRINKLER PRESSURE.

Power and energy required for the provision of sprinkler irrigation pressure for the Extension shall be made available by the Secretary from the power facilities of reclamation projects in the Snake River basin at charges determined by the Secretary subject to the following conditions:

(1) The Secretary shall determine where it is cost effective to provide project sprinkler pressure as a part of the Extension.

(2) The modifications in the Extension plan shall not result in a requirement for increased Federal construction appropriations over the amount stated in this Act.

SEC. 10. CONSTRUCTION.

Notwithstanding any other provision of law and subject to such terms as the Secretary deems appropriate, the Secretary is authorized to contract with the A&B Irrigation District to construct certain irrigation features of the Extension, utilizing funds advanced by the purchasers of the Extension lands for construction assistance and funds appropriated for construction of the irrigation features.

SEC. 11. IRRIGATION REPAYMENT CONTRACTS.

Irrigation repayment contracts shall be entered into pursuant to section 9(d) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(d)). The term of such contracts shall not exceed 50 years, exclusive of any development period authorized by law. Any construction costs allocated to irrigation beyond the ability of irrigators to repay shall be charged to and returned to the reclamation fund in accordance with the provisions of section 2 of the Act of June 14, 1966 (80 Stat. 200).

SEC. 12. COMPLIANCE WITH FEDERAL WATER PROJECT RECREATION ACT.

The provision of lands, facilities, and project modifications which furnish fish and wildlife benefits in connection with the Extension project shall be in accordance with the Federal Water Project Recreation Act (16 U.S.C. 4601-12 et seq.).

SEC. 13. RATE OF INTEREST.

The rate used for computing interest during construction and, where appropriate, interest on the unpaid balance of the reimbursable costs of the Extension shall be determined by the Secretary of the Treasury, as of the beginning of the fiscal year in which construction on the Extension is commenced, on the basis of the computed average interest rate payable by the Treasury upon its outstanding marketable public obligations which are neither due nor callable for 15 years from date of issue.

SEC. 14. AUTHORIZATION OF APPROPRIATION.

There is authorized to be appropriated for construction of the works and measures authorized by this Act for the fiscal year 1988 and thereafter $15,490,000 (October 1985 prices), plus or minus such amounts as may be required by reason of changes in the cost of construction work of the types involved therein as shown by engineering cost indexes. There is authorized to be appropriated such sums as may be necessary for the operation and maintenance of the Extension.

THE 15TH DISTRICT QUESTIONNAIRE RESULTS

HON. WILLIAM D. FORD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. FORD of Michigan. Mr. Speaker, I recently completed tabulating the responses that I received from my 22d annual questionnaire. I want to share the thoughts of my constituents with you and the other Members of Congress.

The response from 15th District residents this year was again overwhelming. I received more than 4,000 completed surveys with responses from over 5,600 constituents. Over the years, I have found my annual survey to be an effective means to measure opinion in the 15th District. I want to take this opportunity to thank those who took the time to respond to my survey.

The questions that I asked my constituents are among the most crucial issues on which the Congress has been working in recent months. These subjects included deficit reduction, Gramm-Rudman, aid to Nicaragua, tax reform, and trade policy.

In the area of deficit reduction, 43 percent of the respondents think that the Congress should reduce military spending to cut the deficit, while 26 percent feel that the Congress should cut domestic spending. An additional 13 percent stated that revenues should be increased to cut the deficit. Eighteen percent think that the Congress should adopt a deficit-reduction package including all three options—reductions in Pentagon spending, reductions in domestic spending, and increases in revenue.

I am pleased to report to my constituents that the House approved a budget plan today that cuts next year's deficit from a projected $174 billion to $137 billion. House Concurrent Resolution 337, the first concurrent resolution on the budget, makes these deficit reductions in a fair and equitable manner, incorporating Pentagon cuts, domestic reductions, and minor revenue increases. The spending cuts in this budget plan are distributed evenly between domestic and Pentagon spending. This budget plan also contains $10.7 billion in revenue increases—the same amount as that included in the Senate-passed budget and only $4.7 billion more than the amount requested by the President. Certain high priority programs, such as education, job training, and drug enforcement, will receive modest increases from the current level.

By reducing the deficit to $137, this budget exceeds the Gramm-Rudman deficit target of $144 billion by $7 billion, thus avoiding another round of cuts. Fifty-five percent of my constituents oppose the automatic, across-the-board cuts of Gramm-Rudman.

As part of his budget plan, the President requested an increase of 12 percent for Pentagon spending over the current level. Over half the survey respondents feel that Pentagon spending should be cut while an additional 34 percent said that it should be frozen at the current level. Fourteen percent think that the Congress should approve the President's re-

quest. Under the House-passed budget, outlays next year for Pentagon spending would increase by approximately $7 billion over the current level. At the same time, this resolution would reduce Pentagon budget authority by $1.8 billion compared to the current amount. This would reduce future years' spending while still funding the Pentagon at nearly double the 1980 level.

In the area of housing, 61 percent of my constituents stated that the Congress should not agree to the President's proposed increase in the Federal Housing Administration [FHA] mortgage insurance premium to 5 percent. The House budget does not include this premium increase. As some of my constituents may know, the FHA ran out of money at the end of April, delaying the receipt of FHA mortgages by prospective homebuyers. This funding shortfall was a result of the exploding demand for new mortgage credit resulting from falling interest rates. On April 30 the Congress approved legislation increasing the credit limits for the FHA and renewing its authority to insure loans. These FHA loans are particularly important to low and moderate income homebuyers.

In the area of foreign affairs, only 11 percent of those answering my survey think that the Congress should approve the President's requested 16 percent increase in foreign aid. The House-passed budget plan recognizes that, while spending for important domestic programs is cut or frozen, our Nation cannot afford to send additional money overseas. As a result, the House budget cuts foreign aid by 10 percent rather than increase this portion of the budget.

My constituents overwhelmingly oppose the President's request for $100 million in assistance to the Nicaragua rebels. Over 71 percent do not think that the Congress should approve this request. The House defeated the administration's proposal on March 20 by a vote of 222–210. I opposed this request and will continue to support regional peace efforts favored by the leaders of our Central and South American allies. This $100 million could be put to better uses helping the citizens of the 15th District.

Two-thirds of those answering my questionnaire agree that Federal funding for grants and loans to college students from low- and middle-income families should be maintained. I am pleased to report that the House budget resolution rejects the drastic cuts in these areas sought by the President. Instead, House Concurrent Resolution 337 assumes only minor cuts included in the House-passed reauthorization of the Higher Education Act.

An overwhelming majority of respondents—87 percent—feel that the House-passed tax reform should be enacted into law. The prospects for ultimate enactment of comprehensive tax reform legislation improved dramatically with the approval of a tax bill by the Senate Committee on Finance early in May.

In the area of trade, only 7 percent think that the United States should continue current trade policies that have contributed to a record 1985 trade deficit of $148.5 billion. My constituents will be pleased to know that the House will consider H.R. 4800, the Trade and International Economic Policy Reform Act of 1986, next week. As an original cosponsor of this bill, I am hopeful that H.R. 4800 will help improve our current trade situation and move the United States away from our current failed trade policies.

Not surprisingly, my constituents identified three of the most pressing national issues as those which the Congress should be working to solve—the budget deficit, tax reform, and trade problems. As I have noted, the House has taken or will take action during the 99th Congress to address each of these issues. Of course, the ultimate success of congressional solutions depends on enactment of these bills.

Mr. Speaker, my constitutents also listed the three areas on which the Federal Government should spend more money and the three on which the Government should spend less. The highest percentage—19 percent—of the respondents identified education as the area on which the Federal Government should spend more money. Education is one of the few high priority areas for which the House-passed budget increases spending.

An additional 7 percent replied that the Federal Government should allocate more resources for programs benefiting the elderly, and the same percentage of respondents identified health programs as their top priority. The House-passed budget is fair to our Nation's senior citizens. This budget plan assumes that Social Security recipients and Federal civilian and military retirees will receive a full cost-of-living adjustment [COLA]. The committee's resolution rejects the drastic cuts in Medicare and Medicaid sought by the administration. The resolution includes Medicare cuts of $1.75 billion over 3 years but recommends that these cuts be made without any reduction in benefits or increases in out-of-pocket payments for beneficiaries. House Concurrent Resolution 337 also assumes that $1 billion will be used to limit the skyrocketing Medicare hospital deductable.

Similarly, the areas identified by my constituents as those on which the Federal Government should spend less are also in line with the priorities of the House budget. Twenty-seven percent identified foreign aid as among the three areas where the Government should spend less. The same percentage also think the Pentagon programs should be a lower spending priority. Ten percent identified welfare as a program for which the Federal Government should spend less.

Let me close by saying that I was delighted with the number of responses to my survey. In addition, I received a number of thoughtful individual letters along with my questionnaire replies. I feel that this is an excellent learning experience for both me and my constituents, and I want to thank my constituents for responding.

IMPROVING EFFICIENCY AND ECONOMY OF VA MEDICAL CENTERS

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. MONTGOMERY. Mr. Speaker, I am pleased to introduce a bill which would establish a pilot program for the improvement of the efficiency and economy of the Veterans' Administration medical centers.

The objective of this pilot program is to test whether giving maximum flexibility and authority to local managers of VA hospitals will result in more effective utilization of VA resources and management skills.

All too frequently, Mr. Speaker, in both the private and public sectors, managers must operate within constraints that do not allow sufficient opportunity or appropriate incentives to manage their resources effectively. This test program would allow a small number of hospital directors to be freed of limitations on personnel constraints and to have minimum restrictions on the use of resources provided to the medical facility.

This test program would involve five medical centers. They would be chosen by the VA in consultation with Congress and would be expected to be selected for a cross section of demographic diversity, size, and affiliation status.

During the 3 years of the pilot program, the medical centers would continue to receive operating budgets based on the most recent fiscal year actual performance by means of the VA's resource allocation model [RAM] as all medical centers do now. The target allowance would include all adjustments and each medical center would still receive additional funds for new programs, new facility activations, enhancements, program improvements, and normal reimbursable items such as terminal leave, pay raises and sharing agreements. Centralized funding would continue for programs such as stipends and contracts for medical trainees, CHAMPVA, per diem costs for State veterans homes, and payment for non-VA workload services specifically administered by clinics of jurisdiction.

Mr. Speaker, let me stress that there would be no changes to the eligibility for VA medical services.

Within the overall budget and following the eligibility categories, the hospitals selected for the pilot program would be exempt for the duration of the pilot from the following types of restrictions: Restrictions internal to the agency, FTEE limitations including personal services ceilings and floors, bed service and section mix restrictions, A–76 restrictions, employee travel, restrictions on the use of VAMC funds for medical center or postgraduate inservice training episodes, and other limitations, restrictions, ceilings, floors, and other constraints other than the overall availability of funds.

This pilot program is a test of whether greater management flexibility yields greater productivity. Therefore it would be evaluated

in terms of the factors currently measured by the VA's resource allocation methodology [RAM]: Workload, costs, timeliness of service, and range of services. These results would be contained in annual reports to Congress along with descriptions of VAMC operations which were facilitated or impeded by participation in the test.

In summary, Mr. Speaker, we all need to look for ways to get more product out of each Federal dollar. There is the possibility that flexibility for Federal managers in the VA hospital system—who are right there where services are delivered—will help. This will cost no money, since the same allocations to the test sites will be made as if there were no test.

The text of the bill follows:

H.R. 4839

A bill to establish a pilot program for the improvement of the efficiency and economy of Veterans' Administration medical center

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PILOT PROGRAM ON HOSPITAL MANAGEMENT EFFICIENCY.

(a) ESTABLISHMENT OF PROGRAM.—The Administrator shall carry out a pilot program to determine the effect of the authorities provided by this section on the efficiency and economy of the management of Veteran' Administration medical centers.

(b) DESIGNATION OF MEDICAL CENTERS.—The Administrator shall designate five medical centers to participate in the pilot program. The Administrator shall consult with the Committees on Veterans' Affairs of the Senate and House of Representatives before making such designation.

(c) MANAGEMENT EFFICIENCY.—The Director of a medical center designated under subsection (b) may waive or alter such laws and regulations applicable to the management and administration of the medical center (insofar as such laws and regulations apply to such medical center) as may be authorized by the Administrator in order to improve the efficiency and economy of such medical center.

(d) REPORTS.—The Administrator shall submit to Congress an annual report on the pilot program under this section.

(e) DURATION OF PROGRAM.—The pilot program under this section shall expire on September 30, 1989.

LEGISLATION REQUIRING DOT TO IMPOSE LABOR PROTECTIVE CONDITIONS IN AIRLINE MERGER CASES

HON. NORMAN Y. MINETA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. MINETA. Mr. Speaker, today, I am introducing legislation to require the Department of Transportation to impose labor protective conditions [LPP's] in airline merger cases to ensure that the merger is fair to employees. The legislation is needed because DOT has been refusing to follow the longstanding policy of the Civil Aeronautics Board of imposing LPP's in airline merger cases. DOT's refusal to impose LPP's in merger cases flies in the face of a 1984 congressional directive that merger LPP's should continue to be imposed.

The failure of the Department of Transportation to follow the congressional directive on merger LPP's comes on the heels of the Department of Labor's refusal to implement the employee protection programs established by the Airline Deregulation Act of 1978. The legislation I am introducing will begin the process of forcing the Reagan administration to follow congressional intent and take regulatory action to ensure that airline employees will not be required to bear an unfair share of the costs of deregulation. The need for this legislation is evidenced by the fact that it is cosponsored by 35 of my colleagues on the Committee on Public Works and Transportation, comprising a majority of the committee's membership, and made up of Members from both sides of the aisle. I must especially note that full committee chairman, JIM HOWARD of New Jersey, and ranking minority member, GENE SNYDER of Kentucky, have both joined me in introducing this important bill.

When we deregulated the airlines in 1978, we recognized that deregulation would impose penalties on companies which were inefficiently managed or who misjudged what the public wanted. We wanted to be sure that airline employees would not be required to carry too great a portion of the burden of deregulation. For this reason, the 1978 Deregulation Act included labor protective provisions providing, first, that dislocated employees are entitled to financial benefits if there is a finding by the Civil Aeronautics Board—or, since 1985, by the Department of Transportation—that the employee lost his or her job because of deregulation. The second LPP in the 1978 law provides that dislocated airline employees have the right of first hire on other airlines.

The LPP's which we added to the Deregulation Act in 1978 have never been implemented. A primary cause of the problem has been the refusal of the Reagan administration's Department of Labor to adopt implementing regulations. Under the 1978 act, the Secretary was supposed to adopt these regulations 6 months after the bill was enacted. This deadline has not been met. Moreover, shortly after taking office, the Reagan administration withdrew LPP regulations which had been adopted by the prior administration. Since that time, the Department of Labor has never adopted regulations to implement the financial benefits of LPP. Regulations on the right-of-first-hire were not adopted until 1983 and, since then, these regulations have been tied up in litigation.

In short, airline employees have never received the protections which were an essential part of the deregulation package.

Besides providing for flexible market entry and fare setting, the Deregulation Act also facilitated the ability of airlines to merge. However, we made it clear that we did not intend that these increased economic freedoms be used to treat airline employees unfairly. In recent months it has become increasingly obvious that the Reagan administration's Department of Transportation intends to ignore the congressional intent on this issue as well.

In directing that employees be protected in the mergers, Congress was only directing a continuation of historic practice. Until it was sunset in 1984, the Civil Aeronautics Board always imposed LPP's when it approved mergers of major and national airlines. The merger LPP's were designed to ensure that the seniority lists of the merging airlines would be integrated in a fair and equitable manner and to provide direct financial benefits to help relieve the burdens on employees who lost their jobs or suffered a reduction in wages as a result of a merger.

In 1984, when the Civil Aeronautics Board was terminated and its remaining responsibilities transferred to the Department of Transportation, Congress clearly and explicitly indicated—in the House committee report on the CAB Sunset Act—that we intended DOT to continue to impose LPP's in merger cases. Despite this directive, DOT's recent decisions in airlines mergers and similar cases indicates an unwillingness to impose LPP's.

The basic policy DOT has announced is that LPP's will not be imposed "unless it is necessary to prevent labor strife that could disrupt the national air transportation system." In a deregulated system, it is unlikely that labor strife arising out of a merger would disrupt the national air transportation system since other carriers are free to provide the services affected by a strike. Although DOT has stated that it will decide whether to impose LPP's on a case-by-case basis, in reality the standard DOT is using is highly likely to result in LPP's never being imposed.

Thus, the Reagan administration's Departments of Labor and Transportation have refused to follow existing legislation and explicit congressional directives designed to ensure that airline employees would not be required to bear an unfair share of the costs of deregulation. The legislation I am introducing today will help restore the balance which Congress thought it had already established between management freedom and employee rights.

My bill would require the Department of Transportation to impose LPP's when it approves airline mergers or similar transactions. Imposition of LPP's would be required in any case in which the transaction would tend to cause reductions in employment or adversely affect working conditions, including seniority. However, LPP's would not be imposed if DOT found that the projected cost of LPP's would outweigh the benefits. The legislation does not dictate the exact terms of the LPP's which are to be imposed, but gives DOT some discretion to tailor LPP's to fit the unique needs of each case.

Mr. Speaker, as this bill goes forward in the legislative process, I expect that we will hear from airline management that the airlines are all on their own under deregulation, and that it is only fair that the employees be treated the same way. In reality, there are definite limits to the willingness of airline management to face the risks of a merger or hostile takeover. When it comes to their own salaries and benefits, top airline management has not always been willing to leave the decisions to the marketplace.

This was clearly demonstrated at hearings we held last year on the efforts of Carl Icahn to acquire control of TWA. At those hearings we learned that when the takeover effort began, TWA's top management quickly ar-

ranged golden parachute contracts for 32 members of top management whose salaries ranged from $150,000 to $300,000. Most of the contracts provided that if the managers left the company they would get 1 year's severance pay. Some of the contracts even provided 3 years severance pay. The managers were given the right to severance pay if there was a change in the board of directors. For many, that right could be exercised even if the manager left TWA voluntarily.

My bill would simply afford these types of protection to airline employees below the level of top management. The merger LPP's required by my bill are far less generous than many of the TWA golden parachutes, since the merger LPP's do not provide any financial benefits for workers who leave their jobs voluntarily.

In sum, my bill would require the continuation of the merger LPP policy followed by CAB for many years, a policy which Congress has directed the Department of Transportation to continue. Requiring merger LPP's is the least we can do to reverse the administration's refusal to afford airline employees the protections which Congress intended them to have. We must do everything possible to reverse the administration's disregard of the interests and future livelihood of employees and the administration's refusal to carry out the clear legislative intent now on the books.

ADELANTE MUJER HISPANA CONFERENCE IV

HON. RONALD D. COLEMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. COLEMAN of Texas. Mr. Speaker, on May 24, 1986, I will again have the opportunity to attend in my district the Fourth Annual Adelante Mujer Hispana Conference—Onward Hispanic Women—which this year will attract approximately 700 participants, predominantly women, from all socioeconomic and educational levels in El Paso, TX; Las Cruces, NM; and Juarez, Mexico. The conference has as its goal the political, educational, social, employment, and cultural advancement of Hispanic women.

The theme of this year's conference, "Hispanas Effecting Change," reflects the contributions that Hispanic women have made to our society in educational, political, and social realms by taking an active role in the community and enhancing the awareness toward those issues that most affect us and our children.

The impact and momentum that the Adelante Mujer Hispana Conference creates each year as one of the major events in El Paso is helping to build linkages, not only among the members of the community, but also between the two border cities, El Paso and Juarez, Mexico, by inviting and encouraging the participation of our Mexican neighbors.

The Adelante Mujer Hispana Planning Committee, consisting of 18 dedicated women from the El Paso community, and headed by my district assistant, Lucy A. Calderon, has adopted the following objectives which reinforce the concept of the conference as well as its purpose:

First, to disseminate information on professional development of Hispanas in terms of career mobility, image, entrepreneurship, leadership skills, and presentation style.

Second, to develop the role of Hispanic women in community issues.

Third, to provide a forum by which to address legal issues and consumer concerns affecting Hispanics.

Fourth, to emphasize the development of an Hispanic power base in terms of political participation, network, mentoring, and board membership.

Fifth, to provide information on financial planning—CD's, insurance, loan options, IRAs, and other investments.

Sixth, to discuss the psychology affecting Hispanic family relationships in the areas of aging, sexuality, role reversals, physical and mental health.

Seventh, to promote the importance and effect of education and employment on Hispanas.

Eighth, to promote the arts and cultural talents of the Hispanas in our community.

Hispanic women are becoming more aware of their role in the community throughout the United States, and are realizing that their talents do have a place in society. Not only are we in the midst of an awareness revolution among Hispanics in terms of the educational, social and political contributions they have to offer, but also in terms of their becoming more actively involved in enhancing the value of life that is our constitutional right.

Mr. Speaker, I salute the Hispanic women of El Paso who are effecting change and wish them continued success in their endeavors.

AMENDMENT TO BE OFFERED TO TRADE BILL

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. CRANE. Mr. Speaker, in an attempt to make H.R. 4800 a bipartisan trade bill that is also responsible and consistent with our international obligations, I and several of my colleagues will offer amendments to remove the most offensive elements of the bill. The amendment that I plan to offer is described below.

To begin with, the amendment would maintain Presidential discretion to determine whether action under section 301 is in the national economic interest. The President, unlike under current law, would be required to announce alternative measures if he elected to exercise this discretionary authority.

Second, the amendment would remove from section 301 a separate ITC procedure and injury test for targeting offenses. Targeting would still be addressed, only it would be made specifically actionable under section 301. The amendment also removes, again as a separate cause of action under 301, violations of internationally recognized worker rights. Such workers' rights have not been sanctioned by the United States, yet this bill would make other countries live up to these vaguely defined rights or face punishment by the United States.

Finally, the amendment strikes the provisions that require mandatory action in the form of quotas, surcharges or voluntary restraints against foreign countries that have trade surpluses with the United States. A somewhat watered-down version of an earlier Gephardt surcharge bill, these provisions remain GATT illegal and bad trade policy. Countries that are the targets of this provision can be expected to retaliate where we are most vulnerable, specifically in agricultural products. Ironically, with the dollar now falling, the United States should regain some of its own historic surpluses, yet this bill defines surpluses that meet a unilateral formula as a trade violation.

The amendment follows:

CRANE AMENDMENT NO. 1

Amend subtitle A of title I. On page 12, line 18, strike the word "because" and all that follows thereafter through line 24, and insert in lieu thereof: ", in which case the President must announce alternative measures which may include a continuation of negotiations".

On page 13, strike lines 6 through 14; on line 18, place a period after the word "targeting" and strike all the follows through line 21 on page 14. On page 21, beginning on line 4, strike section 113.

On page 19, strike line 9 and all that follows thereafter through line 9 on page 20.

Beginning on page 37, strike section 119.

MSGR. FRANCIS J. BEEDA HONORED

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. KANJORSKI. Mr. Speaker, It is my pleasure to bring your attention to Msgr. Francis J. Beeda, who has recently been honored for his 20 years of service to the Sacred Heart Church, North Main Street, Wilkes-Barre, PA.

A native of Scranton, PA, Monsignor Beeda is the son of Mrs. Anna Beeda and the late Roman Beeda. Monsignor Beeda was ordained in St. Peter's Basilica, Rome, Italy, on December 20, 1961 and offered his first Mass at St. Clement's Basilica, Rome.

Monsignor Beeda was assigned as assistant pastor to Sacred Heart Church in 1965. On November 24, 1974, he was appointed pastor and was elevated to his present title on March 14, 1983, by Bishop J. Carroll McCormick of the Scranton Diocese. Monsignor Beeda now serves as pastor of St. Joseph's Church in Hazelton, PA.

Mr. Speaker, Monsignor Beeda's devotion and commitment to his church and his community are an inspiration to all of us. It is with honor and great pride that I take this opportunity to honor Monsignor Beeda for his 20 years of service to the Sacred Heart Church.

NATIONAL POLICE MEMORIAL DAY

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TRAFICANT. Mr. Speaker, today is National Police Memorial Day, and I would like to make a few remarks about the signficance of this day for me, and all Americans. As a former sheriff, I know what it means to be a law enforcement officer, and I can appreciate the importance of the service our police officers provide.

This day is a day to reflect upon all those brave officers who have given their lives in the line of duty—the ultimate sacrifice. We pay tribute to them and we remind each other of how lucky we are to be served by such brave men and women. In paying tribute to those who gave their lives, we must also pay tribute to all police officers across America, who every day put their lives on the line.

It is a day to reflect upon how we take for granted the stalwart job that our Nation's law enforcement officers do, day in and day out. As a former sheriff I know that it is the daily routine of regular police work that also deserves recognition. While the less glamorous side of police is so often overlooked by Hollywood and the media, it should never be overlooked by Congress. We here in Congress must continue to do everything possible to assist the law enforcement community in fighting crime and in making police work as safe as possible. I am proud of the fact that after 7 long years, Congress has finally acted on passing the Law Enforcement Officers Protection Act—legislation to ban armor piercing ammunition.

But our work is far from over. Congress must continue to listen to and work with the law enforcement community to ensure that the laws of this Nation adequately reflect the very real and important needs of police officers in the field. Let the memory of those police officers who have given their lives in the line of duty inspire us to do all we can to ensure the maximum possible safety and welfare of the law enforcement community.

We live in a world that many times is filled with violence. At the present time this Nation is faced with a serious crisis—drug abuse and drug trafficking. Out in the forefront in the fight against drug abuse and the vile drug traffickers is the law enforcement community. Today is a fitting occasion to pause and thank America's policemen for their tireless efforts to combat drug abuse and the drug traffickers. Indeed, it is a day to thank them for their vital contribution to our communities and their deep commitment to the communities they serve.

To conclude, Mr. Speaker, I would just like to state that I am truly honored to pay tribute to America's police officers—those who have given their lives, and those who continue to serve their communities with duty, honor, courage, and devotion.

MAKING MONEY BY MAKING COINS

HON. FRANK ANNUNZIO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. ANNUNZIO. Mr. Speaker, I am pleased to report that not only does the U.S. Mint make coins, but it also makes money. Over the past several years a number of programs authorized by Congress have provided significant profits to the Federal Government, and there are a couple more programs that begin later this year.

In 1981, Congress authorized the George Washington Commemorative Coin Program, sponsored by the gentleman from Georgia [Mr. BARNARD] and myself. This was the first commemorative coin program authorized in almost 25 years. The legislation required that each coin sold carry a 15-percent surcharge to be used solely to reduce the national debt. The coins went on sale in 1982, and over the life of the program 7 million coins were sold, resulting in a profit of $42 million.

In 1983 and 1984, the Mint sold congressionally authorized U.S. Olympic coins under legislation I authored. This program raised $73 million to help train our Olympic athletes and stage the 1984 Los Angeles Olympic games. In addition to helping the Olympics, the U.S. Treasury benefited from an operational profit of $8 million, and a profit on the use of Government-owned gold and silver of $127 million.

Last year Congress authorized the sale of Statue of Liberty-Ellis Island commemorative coins, also under legislation I authored. The coins went on sale in October 1985, and the gold coin sold out by December. The program has already generated sales of $124 million, including surcharges of $32.3 million. The surcharges are used for the restoration of the Statue of Liberty and Ellis Island. Sales of the remaining silver and half dollar coins remain strong and the coins have met critical acclaim.

The Mint annually sells sets of proof and uncirculated coins. When the Mint stopped selling uncirculated sets, Congress required that the sets be placed back on sale. Sales of both kinds of sets average about 5 million annually, generating an annual $20 million profit to the Treasury.

Finally, the U.S. Gold Medallion Program, which ran from 1980 to 1985, contributed $691 million to the Treasury from profits on the gold contained in the medallions.

In October the United States will, for the first time, begin selling gold and silver bullion coins. These coins are sure to become the world standard for bullion coins. The Director of the Mint, Donna Pope, is predicting annual sales of 4 million ounces of silver and 2.2 million ounces of gold in this program. These programs will generate significant profits which, by law enacted by this Congress, can be used only to reduce the national debt.

Mr. Speaker, these programs of the Mint not only meet the public's needs and wants for U.S. coins, but also provide significant revenues to the United States. Congress should be proud of having authorized these programs, and the Mint and its employees should be proud of successfully executing them.

WESTERN STATES PENALIZED IN DEMOCRATIC BUDGET PLAN

HON. DICK CHENEY

OF WYOMING

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. CHENEY. Mr. Speaker, I wonder whether the architects of the House Budget Committee's budget resolution were working with a map of the United States that ends at the 100th meridian. I wouldn't blame people in the Western States telling their Eastern counterparts, "Congress always liked you best."

My Democratic colleagues have seen to it that the budget resolution takes care of Amtrak, urban development block grants, and the Appalachian Regional Commission. But the Democratic budget plan omits money for building Forest Service roads and shrinks the Bureau of Reclamation's programs by 20 percent.

The Democrats have a message for the American cattle rancher, who is already struggling with low prices and a red meat market flooded by the dairy industry's sweatheart deal called the whole-herd buy out. The Budget Committee says, "If you liked the farm bill, you'll love the budget resolution." The committee would double grazing fees, to $2.70 a month per animal from $1.35.

Payments to the States from mineral and timber receipts would be cut by 10 percent. Mineral royalties are income to the Federal Government, shared equally with the States from which the minerals were extracted. My Democratic colleagues are not content with a 50-50 partnership. They now want their half to be bigger.

And the House Budget Committee has a particularly special way of encouraging the domestic oil and gas industry, which has been hit so hard by the drop in international oil prices. My Democratic friends want to double the cost of filing for a Federal oil lease in the noncompetitive system, to $150 from $75.

Mr. Speaker, I voted against the House Budget Committee's resolution because it would be so tough on the West. And I am further concerned that the committee would make deep cuts in defense spending. The committee's resolution would result in a reduction of 11 percent in defense spending over 2 years. They recommend spending $35 billion less than the President's request and $16 billion below what the Senate suggested.

Such a cut would significantly reduce the American defense capability. The resolution would hit hardest at defense, the single most important role of the U.S. Government, and the only function which the Federal Government alone provides.

No one believes more strongly than I do that Federal spending must be reduced. We must continue to make sacrifices. But I cannot support a spending plan that asks the West and the Department of Defense to take the cuts so that Eastern States can get by with business as usual. I would favor a spending plan that makes cuts without consulting that

abbreviated map in the Budget Committee's hearing room.

For these reasons, I cannot support the House Budget Committee's resolution.

FOOD IRRADIATION

HON. DOUGLAS H. BOSCO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. BOSCO. Mr. Speaker, last week, I introduced legislation to curb the expansion of the food irradiation program in this country until safety assurances about this technology have been clearly established. In light of the many unknowns about food irradiation, I believe a closer examination of the possible consequence is in order before the Federal Government sanctions its use any further.

Food irradiation refers to a preservation method in which foods are exposed to ionizing radiation to kill insects and harmful bacteria, thereby preventing spoilage and extending the shelf-life. Until recently, no irradiated food products were commercially available in the United States even though FDA had permitted the irradiation of wheat, wheat flour, and potatoes for some time. However, in the last 3 years FDA has published rules broadening the use of food irradiation to include spices, pork, fresh produce, and other foods that may become infested. Still, the prospect of utilizing this potentially hazardous technology alarms many scientists and concerned citizens, given that the safety of consuming irradiated foods is open to serious doubt, and that food irradiation will involve the transportation and handling of large quantities of highly radioactive materials.

On April 18 of this year, FDA published a final rule permitting the irradiation of fresh fruits and vegetables, and tripling the amount of radiation that may be used on dried herbs, spices, and tea. In promulgating the rule, FDA asserts that foods exposed to low levels of radiation are safe for human consumption. However, in an unusual move, FDA based its findings of safety not on toxicological testing, which is generally required to establish the safety of food additives, but rather on calculations of radiation chemistry and on the anticipated low levels of human exposure to the unique chemical products that occur in irradiated foods. Furthermore, no long-term studies have been conducted on human consumption of irradiated foods, and existing safety studies are by no means conclusive. In fact, a 1982 internal FDA audit found that of 441 studies reviewed by the agency, only 5 were adequately designed and appeared to support safety. The others were rejected for deficiencies or improprieties.

A further problem associated with food irradiation, which concerns me a great deal, involves the transportation of the radioactive isotopes involved. Millions of curies of cesium 137 or cobalt 60 would be required at just one irradiation plant. In contrast, medical centers currently utilizing radiation machines to treat cancer of the radioactive source. Yet, industry spokespersons and other proponents of food irradiation envision hundreds of food irradiation plants around the country within 10 years. This would mean that greater quantities of radioactive materials would be transported on our Nation's freeways and railways, increasing the risk to accidents. Yet, in drafting its final rule on produce, FDA did not prepare an environmental impact statement. Instead, the agency contends that existing regulations are adequate to ensure that there will be no significant environmental impact. One would hope this assumption to hold true. However, the probability of earthquakes, plane crashes, vandalism, or any other potential mishaps that could trigger radioactive emissions into the environment, would be increased by the large number of facilities and vehicles carrying the radioactive materials. It seems to me that a thorough assessment of the existing regulatory structure is warranted before burdening the system with even greater numbers of radioactive materials.

My legislation would: Block the implementation of FDA's April 18 rule which, among other provisions, permits the irradiation of produce; block the implementation of the FDA and Food Safety and Inspection Service rules allowing for the irradiation of pork; block any further promulgation of rules expanding the use of food irradiation; and require a study to review the impact of food irradiation to human health and the environment. In addition, this bill would tighten existing FDA labeling requirements for irradiated foods. Currently, FDA does not require irradiated ingredients to be identified on the label. In other words, if irradiated potatoes are used to make potato soup, the soup can would bear no warning label to indicate this. In my view, these labeling requirements are insufficient to allow consumers to make informed choices about eating irradiated foods. My bill would extend labeling requirements to include irradiated ingredients and require a written label indicating that the food or its components has been subjected to irradiation.

Mr. Speaker, food irradiation is likely to be a dangerous and expensive process. Under the circumstances, Congress would do well to hold the program in abeyance until we have a more profound understanding of the possible consequences. I invite my colleagues to join me in supporting this important legislation.

CONGRESS MUST ADDRESS THE CHAPLAIN SHORTAGE IN THE ARMED FORCES

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. MANTON. Mr. Speaker, several religious faiths are experiencing severe shortages of military chaplains. As a result, a number of servicemen and women are unable to fully and effectively practice their faith.

I have cosponsored legislation to remedy this serious situation. H.R. 1875, the Military Chaplains Faith Balance Act, would require a more balanced representation of religious faiths among chaplains in the Armed Forces. Under the bill, the Secretary of Defense would be instructed to ask leaders of underrepresented faiths to make available more clergy for assignment as chaplains in the military.

Clergy belonging to these faiths would be immediately accepted for appointment. Finally, the Secretary would be instructed to use all viable means to alleviate the faith imbalance, including the use of standby tours.

Mr. Speaker, there is no greater sacrifice a citizen can make than to serve in the military and defend our Nation. We must make certain that our brave military personnal are provided the guidance, counsel, and good offices of a chaplain of their own faith.

Mr. Speaker, I urge my colleagues to join me in cosponsoring H.R. 1875, the military chaplains bill.

CONGRESSIONAL ARTS CAUCUS HONORS JOHN HOUSEMAN

HON. THOMAS J. DOWNEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DOWNEY of New York. Mr. Speaker, today the congressional arts caucus is proud to honor an outstanding American artist whose contributions to our cultural heritage have been exceptionally varied and extensive. Over more than four decades, John Houseman has distinguished himself as a writer, producer, director, actor, and educator.

Winning an Academy Award in 1973 for his portrayal of Law Professor Kingsfield in "The Paper Chase," Mr. Houseman became nationally known, although his outstanding contributions to the arts in America began years before. Over the course of his career, he continued to revitalize the American theater by founding eight repertory companies, including the renowned Acting Company, currently appearing at the Kennedy Center.

His direction of the Broadway production "Four Saints in Three Acts"—an opera with an all-black cast—brought him much critical acclaim, as well as his appointment to head WPA's negro theatre project in 1935. His innovative work with the Federal theatre project—a program unique in the history of government and the arts—makes this congressional award particularly appropriate.

In addition to his work on Broadway and the Federal theatre project, Mr. Houseman wrote and produced numerous radio series, including H.G. Wells "The War of the Worlds" and collaborated on the screenplay that later came to be called "Citizen Kane." Over the years, his contributions to the art of filmmaking earned him 20 Academy Award nominations and 7 Oscars.

His work in television is no less remarkable. He conceived, prepared, and produced the series "The Seven Lively Arts" and served as executive producer for one of the best dramatic anthologies on television—"Playhouse 90." Together these two programs earned him three Emmy Awards—with "Playhouse 90" receiving the prestigious Peabody Award.

He has served in such varied positions as head of the theatre department at Vassar College; artistic director of the American Shakespeare Festival Theatre and Academy in Stratford, CT; and director of the drama divi-

sion of the Juilliard School. In 1973, however, his career in acting became prominent with his Oscar-winning performance in "The Paper Chase." Numerous film and television roles followed—including appearances as spokesman for companies as varied as Smith Barney, the Chrysler Corp., and McDonald's.

John Houseman has contributed so much to the American theatrical tradition. The congressional arts caucus is honored to present him its award "in recognition of outstanding achievement and dedication to the enrichment of American's cultural legacy."

NATIONAL SCIENCE WEEK

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RITTER. Mr. Speaker, May 11–17 is designated as National Science Week to honor our past scientific endeavors. In my own district, the Northhampton Junior High School participated in the nation-wide launch of 175,000 weather tracking balloons to mark the beginning of the second annual National Science Week. As a former scientist and a member of the Science and Technology Committee, I am fully aware of how these past achievements have provided the United States with its current high standard of living and quality of life. America's scientific leadership is recognized world-wide and America's contributions to science is evident by the 124 Nobel Prizes awarded to American scientists and engineers since the mid-1940's. These awards and the technological benefits that occurred since 1945 reflect the strong, long-term U.S. investment in science and technology by the Federal Government and its partner—industrial America.

This investment did not pay dividends in the 1st year nor in the 5th year. We are reaping the benefits today—just look at the products and possible products coming from our investment in recombinant DNA research—new drugs to fight cancer, new weather and disease-resistant plants and novel industrial products such as metal ore recovery microbes. The investment in semiconductors research in the 1940–50's now provides computers in cars to optimize performance and to reduce pollution.

But what about our future? Do we continue to follow what is apparently a "sharp investment" strategy and provide adequate support for our ongoing basic research and invest in the development of our future scientists? The National Science Foundation, under the direction of Mr. Erich Block, has taken the initiative to increase the support of the U.S. science infrastructure and to develop highly inncvative programs like the Engineering Research Centers to accelerate the transition of basic research to industrial use. The Franklin Institute Science Museum and Planetarium in Philadelphia, PA, under the direction of Mr. Joel Bloom, have created a wonderfully stimulating "Hands On" science exhibit for children of the ages 8 to 14. This exhibit is now here in Congress and will travel to other science museums throughout the country. The museum also has created complete kits and instructions to assist science teachers in the elementary schools to demonstrate scientific principles in a "hands-on fun way".

It is approaches like these which will provide the United States with a continuing strong science base and enable us to compete effectively in the global marketplace and allow us to celebrate National Science Week in the future.

TRIBUTE TO SUGAR RAY LEONARD

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. HOYER. Mr. Speaker, on Saturday, May 17, the World Boxing Council will host a dinner for the benefit of the WBC Sports Medicine Foundation. The dinner will honor "Sugar" Ray Leonard, who is surely one of the most famous, successful and beloved sons of my own community, Prince Georges County, MD.

Since his gold medal victory at the 1976 Olympics, Ray Leonard has been a hometown hero. In fact, he is a national hero as well. He has had a distinguished professional boxing career, culminating in 1981 with his winning the unified title of Welterweight Champion of the World. It is not, however, exclusively in recognition of Ray Leonard's outstanding athletic ability and achievements that he is so admired. It is because of the grace and class with which he confronts life.

Certainly, if he wanted, Ray Leonard could retire for the rest of his life and not work another day. He has not been content to do so. Instead, he has become a respected broadcaster. Also, there is every indication that he is about to resume his professional boxing career, at least for one fight. Last but not least, Ray Leonard has committed much of his time and energy to charitable causes. The list of boards and charitable organizations in which he participates extends to several pages.

In Palmer Park, MD, Ray Leonard has been the moving force behind the boxing center which is named for him. He has donated thousands of dollars to it, and he spends countless hours there working with aspiring young boxers. These efforts are a demonstration of the best of Ray Leonard as a role model for youth who has not forgotten his roots.

Mr. Speaker, I know all of my colleagues will want to join me in sending our greetings, congratulations and best wishes to Ray Leonard, his wife Juanita and their two sons, as he is honored at the WBC Sports Medicine Foundation's "Main Event." I am sure you will agree they could not have chosen a greater champion to honor—a man who is a champion as an athlete, and, more importantly, as a human being.

POLICE MEMORIAL DAY

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DYMALLY. Mr. Speaker, by an act of Congress, we designated this special day, May 15, "Police Memorial Day." Throughout the Nation, ceremonies are being held to honor the sacrifices of our law enforcement officers in the effort to keep the peace. To families, friends, and peers of these dedicated public servants, I extend my warmest personal sympathies and condolences.

Ironically, this body agreed on a measure just a few weeks ago that effectively weakened Federal gun-control laws. The President is expected to sign into law this measure despite the objections of our Nation's entire police force. When this law is enacted, we can be certain that it would be easier for private citizens to obtain guns. That is a frightening reality. It is argued that with gun control, the constitutional right of private citizens to bear arms is reduced. I submit to you, however, that for those private citizens that have pledged to secure peaceful communities their rights as human beings have been neglected.

On the memorial section of the American Police Hall of Fame, more than 300 California officers are listed. An average of three policemen are killed each year in the line of duty around the country. Ask ourselves, is that really a fair reward for men and women who seek nothing but peace? Are we trading off lives for the right to own arms? We speak of those killed in combat as the price for freedom. Am I to refer to the Americans we honor today as the price for peace when we, in Congress, are contributing to their deaths by minimizing gun control? I cannot in good conscience convey that message to any American or to the families of those citizens we mourn today.

I can, however, say to their families, friends, and peers that it is truly an honor for me to enjoy the protection afforded by the sacrifices of your loved ones. Every American should appreciate the difficult task that these dedicated officers perform daily. I am sure that those who have died in the line of duty would rather have lived, but somehow I feel that they valued their lives as much as they valued ours. For the forces that are performing this much needed public service today, remember the lives that depend on you—those who have passed and those who live on. With my warmest personal regards, thank you.

THE BUDGET RESOLUTION

HON. JOSEPH J. DioGUARDI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DioGUARDI. Mr. Speaker, today I voted on the two budget resolutions offered by the majority and minority parties in the House. Unfortunately, I could support neither. I consider both budgets undeserving of support and be-

lieve that we should begin to work on a responsible budget plan that addresses the need to reduce the deficit. I feel, however, that now that a budget has been passed, and no new alternative can come forward from the House, I should offer my own plan to reduce the deficit while meeting our pressing domestic needs and international responsibilities.

First, let me say that I cannot believe that the Democrats still want to raise taxes. Under their own projections, the cuts they made in spending would have been sufficient to meet the Gramm-Rudman targets. And they still want to raise taxes. I believe that it is time the Democrats go out and ask the average American, who they purport to represent, if they should raise taxes.

Second, the Republicans voted to increase defense spending by $6 billion. For over 1 year now I have listened to an endless litany of horror stories about waste in the defense program. I think that the Defense Department should have its funding frozen until they learn to manage the resources they already have. We in Congress are considering reforms of the Pentagon including a reorganization of the Joint Chiefs of Staff. I support almost all of those reforms. Sometimes I am the lone Republican to do so. But I know that there is only one proven way to get the attention of the sleeping giant on the other side of the Potomac; we have to take away his "honey". And I think it is high time we sent the Pentagon a signal that we are going to do so.

The way to reduce the deficit is to take the $6 billion the Republicans want to spend on the Pentagon and spend it on needed domestic programs like child nutrition, mass transit and housing. As for the $7 billion the Democrats wants to raise in taxes. Let's leave it where it belongs—in the pockets of the average American who has had to bear the burden of a wasteful government for too long.

THE 38TH ANNIVERSARY OF THE STATE OF ISRAEL

HON. FRANK ANNUNZIO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. ANNUNZIO. Mr. Speaker, I take great pleasure in saluting the people of Israel on the occasion of the 38th anniversary of the founding of their nation. Thirty-eight years ago, at midnight, May 14–15, 1948, the fifth and sixth days of Iyar, 5708, under the Jewish calendar, the Israeli people proudly proclaimed their independence under the most adverse of conditions and the British mandate for Palestine came to an end.

From the destruction of the Second Temple in 70 A.D. and their final heroic stand against the Romans at Massada in 73 A.D. until they declared their independence on May 14, 1948, the Jewish people were without a homeland and in the diaspora—dispersed throughout the world but without the loss of their identity.

In most countries of the world during these tragic centuries, Jews were politically, socially, and physically persecuted, and prohibited from engaging in religious rituals and cultural celebrations. This sad history of abuse culminated in the Holocaust, a systematic effort to completely erase the existence, the culture, and the history of Jewish people. Nevertheless, their spirit and determination one day to be able to seek new lives in freedom and human dignity in the land of their forefathers never waivered.

Seen in this historic context, the establishment of the State of Israel was a momentous turning point in the 2,000-year struggle by the Jewish people to achieve self-determination and religious freedom. The Jewish people, who had suffered so many centuries of persecution, and had experienced the bitterness and despair of an existence without even the most basic human rights, were able to finally declare their independence.

In 38 short years, the people of the State of Israel have turned the desert into a modern agricultural and technological state, and today, as the only democracy in the Middle East, Israel remains our trusted ally and friend. It also continues to be a beacon of hope for Jews who still are experiencing severe persecution under Communist rule.

Mr. Speaker, I join with the citizens of Israel, and their friends in the 11th Congressional District of Illinois which I am honored to represent, and throughout the world, in the celebration of the 38th anniversary of the founding of the State of Israel. May the establishment if Israel continue to be a source of encouragement and inspiration for all peoples of the world who seek to determine the course of their own destinies, and to live in freedom and dignity, without fear of persecution.

STRIVING FOR A BETTER WAY OF LIFE

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RODINO. Mr. Speaker, this year the Gramm-Rudman budget axe will eliminate or drastically limit funding for many worthwhile domestic programs—including job training programs for the poor.

Despite the threat of Gramm-Rudman, I will continue to fight to save valuable programs like WIN and the Job Corps because without the unique opportunities they give to our Nation's young people, the cycle of poverty and hopelessness will surely continue.

Mr. Speaker, I commend to you the following article which appeared in the Newark Star-Ledger on April 27, 1986. The article profiles young women to refuse to be trapped in an endless web of poverty and hopelessness, but instead insist upon striving for self-reliance and a better way of life.

JOB TRAINING HELPS WELFARE RECIPIENTS TO WIN

[By Linda Lamendola]

Pearl Nath is a 35-year-old mother of three whose work history was limited to unskilled, low-paying job such as dishwasher and cashier.

But that was before she registered for a job training program because the law requires eligible welfare recipients to actively look for work or lose public assistance.

"That was about the best thing that ever happened to me," said Nath.

Last month, after going through on-the-job training as a data entry operator at the state's employment services office in Newark, she was hired at $5 an hour in a clerical job with an East Orange manufacturing firm.

Nath is one of the 3,770 New Jerseyans who were on public assistance rolls only six months ago but are now earning their own living in private business—at an annual welfare cost savings of about $9.9 million.

State officials are projecting $20.3 million in welfare savings for all of 1986. Last year, welfare savings amount to $18.8 million for an overall total of $39.1 million during the two-year period.

The majority of persons were able to find jobs after receiving job training and counseling or other assistance through a special Work Incentive Program (WIN) administered by the state Departments of Labor and Human Services.

And for women like Nath, the program has been literally a life-saver.

Nath has been able to move from a one-room attic apartment in Newark to a spacious apartment in Livingston.

"I can't begin to tell you what a boost to my morale this has all been for me," she said.

Nath now performs a variety of duties including data entry, typing and switchboard operation. And just last week, she said, she was informed by her boss that she was "made permanent." The first thing Nath did was call the staff at the Newark WIN office to thank them again for their help and support.

While on welfare, she was receiving $212 a month, she said.

Since she was unable to support her family, her three children had gone to live with her husband whom she divorced in 1981.

"My children do visit with me on weekends although I wish they could be with me all the time," she said.

In addition to her own three children, Nath also has been raising her young sister, Louise Bowick, now 17, who moved in after their mother died, and a nephew, Naim, eight months old. Both are still living with her.

Last year, after she could not find work, Nath applied for help from the Essex County Welfare Board. She recalled she was a little perturbed when told she would be required to register with WIN in order to continue receiving public assistance. Although every person receiving Aid to Families with Dependent Children (AFDC) welfare benefits is required by law to register with WIN, some people—such as mothers with children under six or the sick, disabled or elderly—are exempt.

According to William Tracy, director of the Division of Employment Services in the state Department of Labor, WIN is not really a new program. "But its performance has been going up constantly" and despite a cutback in staff, "a bullish economy" has allowed the labor department to place more people in jobs, he said.

Funded by the federal government, the WIN program is aimed at persons applying for welfare under the AFDC program, he said. The program focuses on reducing welfare costs by providing recipients with the help to find good jobs and become independent tax-paying citizens.

"We provide them with the employment, training and social services necessary to find

jobs so they are able to end their dependence on welfare benefits," said Tracy.

Eligible recipients are referred for job training through 13 state employment offices.

"Pearl Nath is one of our best success stories," said Sally Hall, supervising WIN specialist at the state labor department.

"In spite of Pearl's eagerness, her lack of experience proved to be a barrier to employment," noted Hall.

The WIN staff, impressed by her enthusiasm and on learning that she had high school typing, suggested some work experience would improve her chances to land a job in the business world.

Nath was assigned to the state's employment services and WIN office in Newark. After a few months, she became experienced enough to be placed with the East Orange firm.

"It was frightening at first to have to go to work especially after you have been raising kids and staying at home so much," Nath said. "Having to get up early to go to the job and then come home and care for the kids is double work and when you have to do it along with your housework, it's a triple job. But I love it. I feel great and having a job has boosted my morale."

Nath is not the only WIN success.

Andrianna Rodriguez is another "shining star" of the WIN program. A 44-year-old mother of one child, she had been on and off welfare since 1975.

In 1983, after being laid off from her clerical job, she was unable to find work and applied for public welfare.

Rodriguez said she was required to register for WIN and in July 1984 was enrolled in a federally funded clerical training course in Newark run by the New Jersey Department of Civil Service, after being placed there by the labor counselor.

Now Rodriguez works as teacher's aid at the school where she was once a student.

"School officials were so impressed by her motivation, attitude and ability she was hired as a teacher's assistant," said Jane Egee, her supervisor. "She is working with us now."

"She contributes so much to our trainees. Having been there herself, she is a source of inspiration to them," Egee added.

For Rodriguez, life now is "just great."

"When you are on welfare, you feel very low about yourself. But you have to do it because without help, you can't pay your rent or buy food for your children.

"But now, I have a reason to get up every day and come to work and try to look as nice as I can. I try to encourage the girls in our class who are trying to learn some office skills, to tell them they can do it, too."

There are thousands of other success stories. Like Linda Countryman, for example.

A 37-year-old mother of three, her only recent work experience was one year as a sewing machine operator in 1984. She hurt her back and was no longer able to continue on the job.

In July 1984, she registered for the WIN program when she applied for welfare. With the assistance of a WIN counselor, she was enrolled in a one-year course at Burlington County Community College, attending half time and working at a state employment service office where she did data entry work part time.

In January 1985, she decided she wanted to start working immediately although she could have remained in school longer. WIN paid for repairs to her car so she could commute to Trenton where she started working as as clerk typist at $8,900.

She is now a senior clerk typist earning $11,900 a year and no longer on welfare.

David Phillips, chief of the Bureau of Manpower Training Programs in the state labor department, said the average cost for training a welfare recipient is about $920. In some cases, he said, where an eligible client requires more training and assistance, costs could run about $2,100 for each trainee.

But state officials see the costs as a one-time expenditure.

TRIBUTE TO CLINGAN JACKSON

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TRAFICANT. Mr. Speaker, it is my pleasure to rise today to honor Mr. Clingan Jackson, for whom a testimonial dinner will be held on May 25, 1986, in Youngstown, OH. Clingan Jackson has given Ohio's Mahoning Valley a lifetime of service, and he is not done yet. In fact, even as he is honored, he continues to contribute to our community; funds raised from his testimonial dinner will go toward the establishment of a scholarship in political science at Youngstown State University.

Clingan Jackson, father of two, has lead an illustrious 44-year career in journalism. He began in 1929, doing general reporting for the Youngstown Vindicator. He became the Vindicator's political editor in 1936. In 1958, he covered his own campaign for Governor of Ohio. His election night story prompted the head of Scripps-Howard to proclaim, "By God, he is a newspaperman." Over the years, Clingan Jackson has interviewed many Ohio and national legislators, including Presidents Herbert Hoover, Franklin Roosevelt, Harry Truman, Dwight Eisenhower, John Kennedy, Lyndon Johnson, Richard Nixon, Jimmy Carter, Gerald Ford, and Ronald Reagan.

Mr. Jackson has also led an active political life. He began as Lowellville Village councilman, served as State representative and State senator, and chaired the Ohio Highway Construction Council.

In addition to a successful and active journalistic and political career, Clingan Jackson found time to serve others through civic and religious volunteer activities. He was an elder and trustee of his church, where he taught adult education classes for many years. He was president of the Downtown Kiwanis in 1956, and was a member of the Ohio Civil Rights Commission for over 22 years. He is currently a member of the Youngstown Charter Review Commission and chairman of the senior citizens' multipurpose center. He was honored by his community in 1956 with a special "Jackson" edition of the Vindicator—truly a testament to the special character and contribution of this fine individual.

I am delighted that so many have chosen to honor Clingan Jackson on May 25, and am pleased to add my voice to those who thank and congratulate him. His many years of success and accomplishment, of tireless commitment to duty and to others, is an example to us all.

OLDER AMERICANS MONTH

HON. DAN COATS

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 7, 1986

Mr. COATS. Mr. Speaker, the month of May is traditionally observed as Older Americans Month. It is a time when we can recognize the valuable contributions senior citizens make to our country. We should not only focus on older Americans' accomplishments, but also commit, as a nation, to protect their rights and enhance their opportunities.

Seniors comprise the fastest growing population segment in this country; 1 in 9 Americans is at least 65, and, as more and more Americans live longer and play prominent roles in our society, I believe we should take special note of their concerns. Age creates no philosophical barriers and draws no philosphical lines, unless we choose to construct those barriers and draw those lines. We should learn from the matured wisdom that older Americans possess because that is a valuable resource we cannot afford to ignore.

In the Fourth District of Indiana, and I believe it is true across the country, our seniors are particularly aware of the issues being considered by the Federal Government. Many older citizens have taken an active role in expressing their opinions about Federal Government activities, and thus, continue to make constructive contributions to the debate on a wide range of issues.

Working with the senior community has been one of my most rewarding jobs as a Federal Representative and I will continue to protect the well-being of our older population. Our seniors are entitled to be singled out and I applaud the month of May as Older Americans Month.

INTRODUCTION OF DUMPING BILL

HON. NANCY L. JOHNSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. JOHNSON. Mr. Speaker, the predatory pricing policies of our foreign competitors threaten American jobs in basic U.S. industries such as machine tools, ball-bearings, and semiconductors and we have not been able to stop them.

We have ample evidence that foreign firms are "dumping" goods in the U.S. market, in violation of U.S. laws and international agreements, by lowering prices below their actual cost of production and fair market value in order to gain U.S. market share and force U.S. producers out of business.

Current remedies, which include the application of off-setting duties, have proven ineffective in deterring foreign firms from such vicious price-cutting behavior. Proposed remedies in the new trade bill, which include allowing U.S. companies to seek damages in Federal district court, will not halt this practice

either because they do not address the market share problem.

Only the denial of that which foreign companies seek most, U.S. market share, will prevent dumping. Therefore, today I am proposing perhaps the toughest dumping penalties ever because I have seen the damage done by unrestrained foreign predatories who target our basic industries and undermine employment and security in this country.

I believe we need legislation on the books which would give our trade officials the power to impose temporary exclusion of all goods from the U.S. market which are produced by any person or firm found to be engaged in predatory pricing in violation of the U.S. antidumping code. And under my bill, incorrigible repeat offenders could be excluded permanently.

It would work like this: If you're caught once, you cannot import for at least 90 days and perhaps on up to a year, depending on your previous record. If you're caught a second time, you cannot import for at least 1 year and possibly up to 5 years. Three strikes and you're out for at least 5 years, or if the Secretary of Commerce determines that you demonstrate no respect for our laws, he or she may bar you permanently.

I believe we need to get to the root problem of this particular unfair trading problem by convincing other nations that our market is not easy pickings for their companies which undercut prices as a matter of policy. When they see that the price of getting caught is not worth the risk, then they will stop.

After the fanfare of the omnibus trade bill subsidies, I would ask my colleagues to investigate this issue further and consider my approach as the only effective way to stop foreign dumping.

THE UPJOHN COMPANY AND KALAMAZOO: 100 YEARS TOGETHER

HON. HOWARD WOLPE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. WOLPE. Mr. Speaker, 100 years ago, in the basement of a downtown building in Kalamazoo, MI, four brothers named Upjohn—William, Henry, James, and Frederick, all of them doctors—started a small company called the Upjohn Pill and Granule Co. The new firm was a small operation. Its first product list included 186 pill formulas compounded from 56 drugs and botanicals. Its sales in its first year of operation amounted to $50,000.

From those modest beginnings, the company steadily grew. It opened its first branch sales office in New York City 4 years later. It began the 20th century by expanding and becoming a manufacturer of general pharmaceuticals, changing its name in 1902 to the Upjohn Co.

In their wildest dreams, the four brothers who started business in 1886 could not have imagined what their company would become. Today, as the Upjohn Co. celebrates its centennial, it is a worldwide enterprise with annual sales surpassing $2 billion. It has research, manufacturing, sales, and distribution facilities in more than 200 locations in about 150 nations.

But although the company has grown enormously in its century of existence and operates in the four corners of the world, its home base has always been and remains in Kalamazoo. The city of Kalamazoo is in my district, so I'm very well aware of what Upjohn has meant there.

First, Upjohn is the largest employer in Kalamazoo County. Its direct financial impact on the area in 1984 was more than $441 million annually, and it employs almost 8,000 people in the county.

The Upjohn Co. has made its mark on the community in other ways. Long before the phrase "corporate social responsibility" became fashionable, the Upjohn Co. and the Upjohn family were busy making magnificent contributions to the area. Today, you can drive through Kalamazoo and see the Upjohn contributions all around you—a civic auditorium, a beautiful park, an art center, a municipal golf course, a philanthropic foundation, an internationally respected think tank, and much more.

It is apt that in its centennial year, the Upjohn Co. is giving a gift to the children of Kalamazoo. It is the Kalamazoo Area Mathematics and Science Center, which will offer youngsters in the 9th through 12th grades the accelerated math and science instruction not now available to them at individual schools. This gift, worth some $2 million, will operate under the direction of the Kalamazoo Board of Education and is scheduled to begin operation this fall.

I've had the privilege of knowing and working with countless Upjohn executives and employees on all sorts of civic projects. These days, the company is ably led by three gentlemen: R.T. Parfet, Jr., the chairman of the board and chief executive officer; Theodore Cooper, M.D., the vice chairman of the board; and Lawrence C. Hoff, the company's president. Upjohn has been blessed with other executives who provided first-rate leadership and contributed much to the community, such as Dr. Gifford Upjohn and Donald Gilmore. Everyone in Kalamazoo knows all these names.

Kalamazoo is a more prosperous, more attractive, more cultivated, and more pleasant place to live because of the Upjohn Co. They have done very well indeed in their first 100 years. I wish them just as much success in their next 100 years.

TRIBUTE TO RAYMOND L. HERRING

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. HUBBARD. Mr. Speaker, at this time I want to pay tribute to a dear friend of mine, Raymond L. Herring, who died at age 72 on April 30 at Western Baptist Hospital in his hometown of Paducah.

Raymond Herring owned and operated the R.L. Herring Insurance Agency in Paducah for many years.

Through the years I have served as a Kentucky State senator and in the U.S. House of Representatives, I have frequently visited with the Paducah Lions Club. This club is a highly respected organization with a large membership and is the sponsor each year of Paducah's most successful telethon—raising money for handicapped children—over WPSD-TV, the NBC station in Paducah.

I am to speak next Tuesday at the weekly meeting of the Paducah Lions Club. However, it won't be the same without Raymond Herring being present. Raymond was the tail twister for the Lions in Paducah. He could and would fine the members for being late to their noon luncheon meeting, or for not wearing their club pin, or whatever. This was and is a fundraising method for miscellaneous purposes. Raymond Herring, as club tail twister, even fined a few club guests ever so often. I was one of his favorite targets for humorous ridicule and for fines.

The club members would await my response in kind to Raymond Herring. I can remember looking forward to the Paducah Lions Club meetings just so I could find out Raymond Herring's latest humor regarding club members and guests.

Obviously, it is easy to tell that I was very fond of Raymond Herring.

A veteran of World War II, serving in the U.S. Marine Corps, Mr. Herring was a son of the late Mr. and Mrs. Theodore Herring. He was a member of Fountain Avenue United Methodist Church; Paducah Masonic Lodge No. 127; Rizpah Shrine Temple of Madisonville; Paducah Lions Club; Paducah Elks Club, and all Masonic bodies.

Mr. Herring is survived by his wife, Mrs. Kathleen Herring; a daughter, Kathy Moore of Paducah; two stepdaughters, Harriet Kay Rudy Blades of Newburgh, IN, and Beverly Rudy Baker of Madrid, Spain; three sisters, Ruth Madrey of Mayfield, Birdie Thomas of Paducah, and Lela Harris of Chicago, and six grandchildren.

My wife Carol and I extend to Kathleen and the family our sympathy and prayers at this difficult time.

PERSONAL EXPLANATION

HON. WILLIAM F. GOODLING

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. GOODLING. Mr. Speaker, today, May 15, 1986, I was unable to stay for the final votes on the concurrent budget resolution for fiscal year 1987. I had a previous commitment which I could not cancel and had to leave before the floor debate was completed. I would have voted "yea" for the Latta substitute to House Concurrent Resolution 337, and "no" on final passage of this resolution which was Chairman GRAY'S version. The Latta budget contained the necessary spending reductions, adequate defense numbers which would not cause cuts in military personnel, as would the chairman's budget, and most importantly it did not call for an unconscionable and unexplained increase in taxes.

ROCKEFELLER FOUNDATION STEPS UP ASSISTANCE TO DEVELOPING WORLD

HON. CLAUDINE SCHNEIDER

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mrs. SCHNEIDER. Mr. Speaker, I would like to share with my colleagues an article about the Rockefeller Foundation which recently appeared in the New York Times. The Rockefeller Foundation recently embarked upon a new strategy in its efforts to promote economic and social development around the globe. I was privileged to learn about this new direction at a luncheon I attended recently hosted by Dr. Richard Lyman, president of the foundation. I believe that we in the Congress should take a cue from Dr. Lyman and his associates as to how to turn dollars and cents into meaningful programs.

[From the New York Times, May 4, 1986]

ROCKEFELLER UNIT DOUBLES ITS THIRD-WORLD AID

(By Kathleen Teltsch)

The Rockefeller Foundation, adopting an expanded global program, will spend up to $300 million in the next five years to promote economic and social development in third-world countries. The sum is double the money the private philanthropy provided for overseas aid in the last five years.

Dr. Richard W. Lyman, the foundation president, said Thursday that the new strategy sought to insure that benefits from recent research in agriculture, health and population control reached those in greatest need, "the poor and vulnerable."

More than a billion people live in poverty, he said, and the sub-Saharan countries will get particular attention because their problems are the most intractable.

"We believe that by promoting the equitable and effective use of science and technology to benefit hitherto excluded groups, we will capitalize on our own strengths and complement the efforts of others," Dr. Lyman said at a news conference.

The increase in funding puts the Rockefeller Foundation roughly on a level with the overseas aid supplied by the Ford Foundation, which is spending $60 million annually for developing countries, and well ahead of the Carnegie Corporation and the Kellogg Foundation, which each spend about $10 million on foreign assistance, according to Tom Fox, vice president of the Council on Foundations.

By comparison, Federal assistance to third-world countries through the Agency for International Development will total $600 million this year.

Dr. Lyman and Rockefeller officials, in outlining the program, said recent biotechnological progress could have an effect in the poorer countries comparable with the gains accomplished in the 1950's when the Rockefeller and Ford Foundations promoted new high-yield grains that brought about a "green revolution."

He added that the foundation wanted to call attention to the needs of the third-world countries, which could otherwise be overlooked as the powerful industrial countries focus mainly on the competition for trade advantages.

The foundation does not contemplate expansion of its overseas staff, he said, but rather expects to work extensively with local government authorities and also to tap the talent of the many younger scientists and technicians it has trained over the years under fellowship programs. There are about 2,000 working abroad in 50 countries.

Although the specific outlays of the new global program have not been decided, foundation officials provided these initial examples of activities:

The Rockefeller program will focus on insuring that research gains, such as recent advances made in vaccine research against malaria and other diseases, are made available to "end users." It will also support availability to China and African countries of an improved contraceptive, Norplant, a hormone capsule implanted under the skin that provides protection for five years.

The foundation will improve links between existing international agricultural research centers and the domestic agricultural programs of African countries and through them "to reach the African farmer."

New research will be initiated to determine how women in developing countries influence and are affected by the expansion of industry or modernization of agriculture. A related project will examine how imported technologies can be blended with familiar local ones.

The foundation will examine research, education and technology-management policies in some third world countries to determine how they affect developmental efforts. It will also support work in technology transfer and examine license and patent practices that could obstruct the transfer.

Dr. Kenneth Prewitt, vice president of the foundation who will have overall direction of the program, said he regarded it as a long-term undertaking. "We see it as a starting point to insure the benefits of science reach those most in need—the farmer, the mother trying to control pregnancy and the parent trying to protect a child against disease," he said.

THE 100TH ANNIVERSARY OF THE NATIONAL ASSOCIATION OF REGULATORY UTILITY COMMISSIONERS

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. McEWEN. Mr. Speaker, I would like to take this opportunity to share with my colleagues a copy of a resolution recently approved by the Ohio House of Representatives and the Ohio Senate commemorating the 100th anniversary of the National Association of Regulatory Utility Commissioners. The NARUC, in partnership with the Public Utilities Commission of the State of Ohio have provided very valuable services for all utilities customers and I commend this forthcoming anniversary celebration to the attention of my colleagues.

A RESOLUTION RECOGNIZING THE 100TH ANNIVERSARY OF THE NATIONAL ASSOCIATION OF REGULATORY UTILITY COMMISSIONERS

Whereas, The members of the Senate of the 116th General Assembly of Ohio are pleased to congratulate the National Association of Regulatory Utility Commissioners on the occasion of its Centennial; and

Whereas, The National Association of Regulatory Utility Commissioners was established at the Interstate Commerce Commission convention in March 1889. Since that time, the Association has been a major force in the study and discussion of regulatory subjects and in the uniformity in state regulation. In honor of the contributions the Association has made to this country over the past one hundred years, the Commissioners Emeritus have requested the issuance of a postage stamp commemorating this auspicious anniversary; and

Whereas, Composed of nearly one hundred state, federal, and international agencies, including the Economic Regulatory Commission, the United States Department of Labor, and the Tennessee Valley Authority, the National Association of Regulatory Utility Commissioners provides state agencies with technical assistance and research, which promote uniform regulatory practices nationwide; and

Whereas, The National Association of Regulatory Utility Commissioners has not only offered much-needed information and services to state and federal agencies over the past century, but it has also been a vital instrument for community improvement by standardizing the regulation of transportation and utility industries; therefore be it

Resolved, That we, the members of the Senate of the 116th General Assembly of Ohio, in adopting this Resolution, congratulate the National Association of Regulatory Utility Commissioners on the occasion of its One Hundredth Anniversary and salute the members of the regulatory commissions, past and present, as outstanding citizens; and be it further

Resolved, That the Clerk of the Senate transmit duly authenticated copies of this Resolution to the National Association of Regulatory Utility Commissioners and to the news media of Ohio.

LEGISLATION TO REFORM FEDERAL ONSHORE OIL AND GAS LEASING PROGRAM

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RAHALL. Mr. Speaker, I am joining the chairman of the Committee on Interior and Insular Affairs, MO UDALL, in introducing legislation which seeks to reform the manner in which the Federal onshore oil and gas leasing program is conducted.

The chairman's legislation represents an appropriate vehicle for the consideration of onshore oil and gas leasing reform. During this Congress, the Subcommittee on Mining and Natural Resources has conducted two oversight hearings on the program and it has become clear that the Bureau of Land Management is at this time uncertain about the ability of its noncompetitive leasing system to withstand fraud and abuse as well as its ability to determine whether tracts of land should be made available for leasing under the competitive or noncompetitive system.

This uncertainty calls into question the suitability of the current program to meet the energy needs of the Nation. Not only is the energy potential of public lands being threatened under such an environment, but also the

public's right to receive a fair rate of return from the development of federally owned oil and gas resources.

The Department of the Interior's onshore oil and gas leasing program, as authorized by the Mineral Lands Leasing Act of 1920, consists of a competitive and noncompetitive system. For lands within a known geological structure (KGS) of a producing oil and gas field, a competitive leasing procedure is used. For lands outside of a KGS, the simultaneous leasing system, commonly referred to as the lottery, is used as is over-the-counter trading.

While this system is fine in theory, the BLM has encountered problems in making KGS determinations. Further, the lottery system due to allegations of abuse has been suspended a number of times. Because of these controversies, the orderly development of the Nation's onshore oil and gas potential is rapidly being undermined.

As one who strongly believes in the absolute necessity of increased reliance upon domestic energy resources, the current threat to the integrity of the Federal onshore oil and gas leasing program is of great concern. Consider the fact that by the end of fiscal year 1985, there were 22,718 producing oil and gas leases under BLM supervision. During that fiscal year 175 million barrels of oil and 1062 billion cubic feet of gas was produced from Federal leases.

As I have stated, Chairman UDALL'S legislation appears to represent a good starting point for discussions on reform legislation. While I have some reservations with certain provisions in the bill, the proposal provides for a compromise between those seeking the total elimination of the noncompetitive leasing system and those who believe some semblance of this type of leasing is necessary to preserve competition and promote exploration. It certainly would not be in the public interest to reduce the participation of the independent oil and gas sector in the Federal leasing program.

I look forward to working closely with the gentleman from Arizona on this matter, as well as with others who have expressed an interest in the issues we are seeking to address.

VFW ESSAY WINNER LEO PROCESO JACOBO

HON. BARBARA A. MIKULSKI

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Ms. MIKULSKI. Mr. Speaker, I would like to submit into the RECORD an essay by Leo Proceso Jacobo, the Maryland winner of the Voice of Democracy Scholarship Program.

The program was started 38 years ago with the endorsement of the U.S. Office of Education and the National Association of Secondary Schools Principals. Sponsorship was provided by the National Association of Broadcasters, Electronic Industries Association and State Association of Broadcasters.

Starting in 1958–59, the program was conducted in cooperation with the Veterans of Foreign Wars with the broadcasters still serving as sponsors. In 1961–62, the VFW assumed sole sponsorship responsibility.

This past year more than 250,000 students participated, receiving awards amounting to over $675,000. During the past 24 years of VFW sponsorship, over 5 million students have participated and awards totaling more than $3 million have been given to winners at all levels.

Mr. Jacobo is a senior at Calvert Hall College High School in Baltimore. I congratulate him on winning the scholarship, and I wish him well in his college career and his future endeavors in the study of law.

NEW HORIZONS FOR AMERICA'S YOUTH

There, in the distance, is a foreboding horizon, a challenge to reach unsurpassed excellence, or unthinkable destruction.

"You will be America's best generation, or you will be her last"!

These demanding, apocalyptic words of Dr. Harold Bosley, former Dean of the Duke University Divinity School, challenge America's youth to be her best generation or her last. An America in need of direction, a planet in need of genuine peace, a new horizon, beckoning all young Americans to be the best.

How are we, the youth of America, to be the best? I firmly believe we can be the best by personally committing ourselves to genuine honesty and hard work.

Honesty is a virtue, which must be learned and lived at our young age. It is essential in our quest for the horizon, the quest to be the best. Along the way, we must not fall into the tempting traps dishonesty lays for us. All too often, youthful inexperience leaves us vulnerable to dishonest actions. We are all tempted to lie . . . "Everybody's doing it" . . . or to cheat . . . "just this once" . . . or to steal . . . "I'm not really hurting anyone". And little by little dishonesty takes over.

Honesty produces trust. Trust is the key to society's success, the success of any relationship, be it parent-child, student-teacher, husband-wife, or even President and Premier. Unless behavior is honest there can be no success, no trust, and the horizon of America's youth will slowly recede.

Honesty also demands hard work. What our nation is today has been achieved by hard work. The American dream, of attaining one's goals, through hard work, must inspire my generation. We must understand, dreams can only be realized by our personal efforts, and will not be handed to us on a silver platter. America's youth, needed to learn the lesson of the idealistic young man, who, at the age of 20, believed he could change the world. At age 40, he realized that changing the world was impossible, so he would judge life a success if he could only change 20 other people. Finally, at age 60, he realized, that life would have been successful if he had changed just one person—himself. Now, and not at age 60, my generation, should understand we cannot change our troubled world unless we first change ourselves. Our individual honesty and hard work will eventually improve society, and will guide us to the horizon.

The challenge to be the "best or the last" is a demanding one, in a world where missiles are far more accurately guided than men. Our honesty and hard work will lead us to appreciate, the prophetic worlds of Pope Paul VI: "If you want peace, work for injustice"!

We must overcome apathy and settle for nothing less than injustice. Murders, robberies, frightened citizens hiding behind locked doors occur because we tolerate injustice—injustice victimizing the innocent, and the helpless. We Americans stand by witnessing, but not acting. To be the best, America's youth must no longer be spectators of injustice, rather, we must be participants in establishing justice. With justice achieved in America, we can strive for global peace.

To be "the best and not the last", is frightening, challenging, demanding. Our efforts to be the best will determine whether we will even "be". With undying devotion, undiminishing determination to honesty, hard work and justice, America's youth will be able to overcome the fears and the obstacles.

There, in the distance, is a beacon of hope or a foreshadowing of doom, a New Horizon for America's Youth, to be the best and not the last. We cannot, we must not . . . fail.

IN PRAISE OF NONPROFIT ORGANIZATIONS

HON. WYCHE FOWLER, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. FOWLER. Mr. Speaker, nonprofit organizations are the embodiment of the American volunteer spirit. I want to take this opportunity to applaud some of the good work done in my home State of Georgia—and in each of my colleague's home States—by nonprofit organizations that strive to meet humanitarian and public service goals.

Over the past several years, our Government has been shifting much of the social and humanitarian responsibilities to the private sector. Efforts to decrease the Federal deficit have placed new burdens and new strains on even the most established and well-recognized nonprofit organizations. While the Government has whittled away at many programs, we have hoped that the private sector would continue to provide those services to our elderly, our sick, our needy, our disadvantaged—the folks not able to provide for themselves.

In the President's last State of the Union address, he praised the "mighty river of good works" that contributed $74 billion in voluntary giving last year alone. We've come to rely on that river for so many services to our friends and families that it's difficult to imagine the state of our Union without those organizations working with us.

Well, whether knowingly or not—whether aware of the implications or not—a lot of folks are talking about damming up that river.

Organizations must raise funds and communicate with volunteers if they are to make any impact in their missions. They rely on the mails to solicit those donations and help coordinate that volunteer spirit. If we close off their access to the mails—dam up that river—the consequences may be more dramatic than we anticipate.

I don't think any of us would willingly thwart the efforts of groups that are trying to pick up the slack created by government cuts. But third-class nonprofit postal rates have shot up over 45 percent since December. Where are

nonprofits going to make up those costs? They may have to reduce services, or start charging fees for services.

Imagine the Red Cross, for example. Because of that rash of disasters that we experienced last year, they spent a record $48 million in 6 months and ended up $14 million in the red as a result. They have had to redouble their efforts to raise funds if they are to be ready when needed again—and they surely will be. The Red Cross is turning to direct mail to raise funds and bolster the donor base for their reserve disaster fund. I will not be responsible for hiking the already soaring nonprofit postal rates on folks like the Red Cross or forcing them to charge user fees to victims of disaster.

Now, more than ever, Congress must reaffirm our support for the works of the private sector. Without such support, religious, philanthropic, educational, scientific, cultural, fraternal, veterans, and labor groups will be forced into making hard decisions that can only decrease private sector activity.

Remembering that figure of $74 billion in voluntary giving last year—consider that the revenue forgone payment to the Postal Services was reduced to only $716 million last year. This year, the Alliance of Nonprofit Mailers tells me that we need $833 million to fund the program for fiscal year 1987—and that includes $58 million for a prior year adjustment. Mr. Speaker, I sincerely believe that this constitutes a wise investment in behalf of our entire society.

I ask my colleagues to remember the good works done by the nonprofit private sector in their communities and salute that work by providing them with the tools to continue to do the job. Let us show our support for their efforts by providing adequate funding for revenue forgone.

PROFAMILY COALITION URGES HOUSE AND SENATE TO MAINTAIN PROFAMILY ASPECTS OF TAX REFORM

HON. JACK F. KEMP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. KEMP. Mr. Speaker, one of the most rewarding aspects of the recent debate over tax reform has been the opportunity to bring some fairness to the Tax Code in its treatment of the American family. I am gratified that the other body has included a $2,000 exemption for every family member as a part of its tax reform proposal, and I am hopeful that the final legislation will maintain this crucial component of tax reform, without which the proposal would fall far short of its goals of fairness to the American family. The success we have been able to attain in making this the centerpiece, along with lower rates on labor and capital, of tax reform is largely attributable to the work of a broad-based coalition of profamily groups that have made this their No. 1 priority. The impact that this coalition has had on the concept of tax reform is evident in the Republican Platform of 1984, which called for the increase of the personal exemption to a minimum of $2,000, and indexing to prevent further erosion. This was included as a key component of tax reform by President Reagan in his proposals, and was a major part of my tax reform bill, the Kemp-Kasten proposal. I applaud the efforts of this coalition, led by such outstanding Americans as Dr. James Dobson, Phyllis Shafly, Tim and Beverly LaHaye, Connie Marshner, and many others who are committed to making the American family the cornerstone of our public policy efforts. I commend the following statement to my colleagues.

THE COMMITTEE FOR FAIRNESS TO FAMILIES

The Committee for Fairness to Families applauds the pro-family features of the Senate Finance Committee's tax bill. Worthy of special praise is the Committee's decision to approve the $2,000 personal exemption and significantly reduce tax rates for virtually all families.

We urge the full Senate to approve this legislation promptly. We commend the Finance Committee for its unanimous action and urge its conferees to insist upon these important pro-family measures in negotiations with the House.

NATIONAL PEACE OFFICERS' MEMORIAL DAY

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. BIAGGI. Mr. Speaker, I have just returned from the fifth annual "National Peace Officers' Memorial Day" service in Senate park. It was a truly moving experience, and a tribute worthy of the supreme sacrifice made by the 154 law enforcement officers who died in the line of duty during 1985.

National Peace Officers' Memorial Day is an event that dates back to 1963. Always on May 15, this occasion has long been marked by local ceremonies across the country, but only since 1982 has a national ceremony been conducted in Washington, DC.

Sponsored by the Ladies Auxiliary of the Fraternal Order of Police, the event has grown considerably in size and impact. This year there were more than 300 police survivors in attendance, and more than 3,000 law enforcement officials from police forces across the United States.

Many persons deserve credit for the tremendous success and growth of the National Peace Officers' Memorial Day Service; most notably, Suzie Sawyer, president of the Fraternal Order of Police Ladies Auxiliary. Suzie, who is the wife of a police officer, has been untiring in her work on behalf of law enforcement causes. It was Suzie, and then-President Trudy Chapman who were the driving forces behind the first national memorial service in 1982; and it was Suzie, who 2 years ago spearheaded the formation of Concerns of Police Survivors, the country's first national law enforcement survivors group. Suzie also serves as the executive director of COPS, and in that position has provided invaluable assistance and support to the surviving families of our fallen police heroes. She is to be commended for her compassion and her devotion.

Others deserving of special recognition for their contributions to this year's memorial service include Dick Boyd, president of the Fraternal Order of Police; Yolanda Cline, president of COPS; and Tom Singleton of Take One Productions, Inc., a retired police officer who produced the 1986 Memorial Service.

But, I concur with the sponsors of this year's memorial service, who stated that:

The people who allow this effort to be successful are the surviving families of our fallen heroes. They have been forced to accept law enforcement's ultimate demand. They have traveled to Washington this year representing over 60 of the 154 officers we honored here today. The tribute today was even more meaningful to these surviving family members when they saw the numbers of officers who have traveled from all across the United States to assist in making law enforcement's statement to the Nation: "Our fallen law enforcement officers have not died in vain and their human sacrifice will never be forgotten.

Mr. Speaker, let me say that no matter how impressive the National Peace Officers Memorial Day ceremony has become, our Nation's fallen heroes and their survivors deserve something more, and I am proud to be a part of such an effort. In October 1984, President Reagan signed into law legislation I authorized along with Senator CLAIRBORNE PELL to authorize the construction of a National Law Enforcement Heroes Memorial in Washington, DC. As chairman of that organization, I am pleased to report that major strides are being made toward the construction of that memorial. It will be built exclusively by private funds, and the fundraising effort is already under way, as is the selection process for a suitable site and design. Most importantly, our Nation's leading national law enforcement organizations have all expressed a total commitment to the cause. Seated on the board of directors of the National Law Enforcement Officers Memorial Fund, Inc., are the Concerns of Police

Survivors, the Federal Law Enforcement Officers Association, the Fraternal Order of Police, the Fraternal Order of Police Ladies Auxiliary, the International Association of Chiefs of Police, the International Brotherhood of Police Officers, the International Union of Police Associations/AFL-CIO, the National Association of Police Organizations, the National Black Police Association, the National Organization of Black Law Enforcement Executives, the National Sheriffs Association, the National Troopers Coalition, the Police Executive Research Forum, the Police Foundation, and the United Federation of Police. Senator PELL is the honorary chairman and Tammy Kennedy Wolfe is a valued adviser to the organization.

Much work still lies ahead, but one thing is certain—when all is said and done, our Nation will finally have an impressive day-to-day reminder of the supreme sacrifice that more than 1,500 law enforcement officers have made in the last 10 years alone. It will also serve as a much-needed reminder of the need to better protect those who continue to protect us.

Mr. Speaker, as one who served as a law enforcement officer for 23 years, I am deeply honored to pay a personal tribute to the 154 law enforcement officers who died in the line of duty during 1985. This "Roll Call of Heroes—1985" lists those courageous men and women by the State they served:

TRIBUTE TO JOSEPH E. KELLER

HON. ROBERT A. YOUNG

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. YOUNG of Missouri. Mr. Speaker, I would like to take a moment to congratulate one of the country's foremost transportation officials, Joseph E. Keller, who was recently named counsel emeritus for the Private Carrier Conference. Mr. Keller, during his long and distinguished career, helped to redefine the Nation's transportation systems. In fact, he was largely responsible for creating the definition of what constitutes a private carrier.

The largest of 11 conferences affiliated with the American Trucking Associations, the Private Carrier Conference is the national trade association that represents manufacturers, distributors, shippers, and receivers who operate motor trucks as an extension of their primary business endeavors. Private carriers are the dominant sector of the trucking industry today, hauling nearly 60 percent of the Nation's intercity truck ton-mileage and operating 6 million vehicles.

Before being named counsel emeritus, Mr. Keller had served as general counsel of the Private Carrier Conference since its reactivation after World War II—during which he served as a major in the U.S. Army.

A graduate of the University of Dayton, where he received his law degrees in 1930, he practiced law in Dayton before coming to Washington, DC, as an attorney for the Federal Communications Commission. He has practiced law in Washington for the past 50 years, first with the firm of Dow, Lohnes & Albertson and then with his own firm, Keller & Heckman which he founded in 1962.

Mr. Keller has served as a law instructor and has contributed numerous articles to leading law reviews and served as legal editor for the Private Carrier, a motor carrier trade journal.

Throughout his career, Joe Keller has been a leader with a solid track record. So today

we recognize and pay tribute to a capable and effective representative of the Nation's motor carrier industry.

I wish him every continued success.

A TRIBUTE TO A MOST DISTINGUISHED EDUCATOR: MR. BOB WHITE

HON. BOB TRAXLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TRAXLER. Mr. Speaker, I rise to pay tribute today to a good friend and most distinguished individual. Mr. Robert Buell White has dedicated the past 37 years to teaching music at my alma mater, T.L. Handy High School in Bay City, MI. I am honored to recognize Mr. White as he prepares to enter retirement.

I would like to take this opportunity to share with my colleagues some important information about Bob White and his dedication to the Bay City community. Bob White is a lifelong resident of Bay City, attending Handy High's current rival school, Bay City Central, Bay City Junior College and graduating from the University of Michigan in 1949. His education was interrupted by military duty with the U.S. Navy from 1942 to 1945.

Bob White began his teaching career at T.L. Handy High School in 1949, and has remained an institution within an institution. He is well respected by staff and students alike. Bob's teaching career was not simply a job, but a way of life for him. He has been deeply involved with not only high school aged students, but children of grade school and middle school age as well. Bob has directed musical productions such as the "Merry-Go-Round" Summer Band Programs, and has acted as city wide music coordinator, planning programs and curriculums for music students of all ages. Throughout all of his dedication of time and diligent hard work with his students, Bob found the time to act as a liaison between the Bay County Board of Education and the music teachers throughout the area.

Bob also has taken time out of his busy schedule to plan, organize and execute band trips to Washington, DC in order to give the students of Handy High School the perhaps once in a lifetime opportunity of performing at our Nation's Capital.

My personal contact with Bob White over the years has been highlighted by allowing me the honor of marching with the Handy High School Marching Band in the annual St. Patrick's Day parade in Bay City.

Mr. Robert B. White has left his everlasting mark on the students and citizens of Bay City, and current and future generations of people living in that area will be able to reap the benefits of his efforts. I ask my colleagues to join with me today in honoring a fine individual, and wish him every continued success in his retirement.

NEWARK'S INTERNATIONAL YOUTH ORGANIZATION

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. RODINO. Mr. Speaker, on May 10, I had the honor to attend the opening ceremony of the International Youth Organization's Little League and its Westside Women's Softball League, held at Westside Park in Newark.

Each of the two IYO leagues consists of 6 teams of 25 players. Drawing participants from all neighborhoods of Newark, these leagues contribute to a positive sense of the urban community. They give parents and children constructive recreational time together, promoting family life and offering young people an opportunity to enrich themselves and display their talents.

The International Youth Organization is a community-based organization founded by James Wallace and his wife, Carolyn. Mr. Wallace, now the organization's executive director and commissioner, was a special police officer in the early 1970's when he saw the need to provide a positive outlet for Newark's youth. So he established the IYO to meet the needs of the local community. Starting with 13 youngsters, the organization now involves 700 people and employs 3 certified teachers.

Besides the IYO's Little League and Women's softball, the organization runs a variety of after-school programs, including computer literacy classes, tutoring sessions, junior and senior youth leadership groups, and other recreational activities.

This is the type of initiative that enhances the life of our city, and I applaud the Wallaces and all the softball and Little League players for their community spirit. I was proud to be a part of their opening day ceremonies.

IN SUPPORT OF THE TALKING LEAVES JOB CORPS CENTER

HON. MIKE SYNAR

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. SYNAR. Mr. Speaker, 1 week ago the Department of Labor announced plans to close six Job Corps centers across the country as a result of the March 1986 Gramm-Rudman budget cut. One of the six centers targeted for closing is the Talking Leaves Job Corps Center in Tahlequah, OK.

It's no secret that I oppose Gramm-Rudman. The Labor Department's plan to close these Job Corps centers is a prime example of why Gramm-Rudman is bad law. Computer statistics cannot measure the full human importance of these centers—to the community or to the participant.

Job Corps provides the last chance for many disadvantaged young people to learn the skills to become productive citizens. It's like the saying, "Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime." Job Corps participants improve their basic education and learn job skills that will last a lifetime.

This is not the time to close down programs aimed at teaching job skills. In Cherokee County, where Talking Leaves is located, unemployment is currently 11 percent. March figures place the average unemployment rate among counties in my district at 10.9 percent. The Talking Leaves Job Corps Center directly serves more than 400 young people each year. Almost half are from Oklahoma.

This is not the time to close down programs aimed at improving educational skills. For the fiscal year 1984–85, the dropout rate for the State of Oklahoma was 9,000 students. The dropout rate in that time period for the 14 counties that make up Cherokee Nation was more than 4,500 students—half the State total.

Oklahoma is facing some tough economic times. Because of the drop in energy prices and the crisis in agriculture, Oklahoma has had to cut the State budget by 14.7 percent this year. Oklahoma may lose Federal matching funds for Aid to Families with Dependent Children and Medicaid.

The Talking Leaves Job Corps Center contributes to the local community. The Center has a $2.5 million annual budget and 80 employees. The Corpsmembers participate in community projects such as local cleanups, a Christmas food drive for needy families, and volunteer work at the Cherokee Nation Youth Shelter. Vocational Skills Training Corpsmembers have assisted in many projects such as building an airport in Stilwell, OK, and constructing 5 miles of road near a local lake.

The Department of Labor must make cuts to achieve the 4.3-percent budget cut mandated under Gramm-Rudman. Along with 74 colleagues, I signed a letter to Chairman NATCHER of the Subcommittee on Labor—HHS—Education Appropriations asking him to urge Secretary Brock to authorize using Job Corps construction funds to maintain current slot levels and keep all Job Corps Centers open.

People can look at the big picture. Computers cannot. When we take the human facts into account, it is clearly a bad decision to close this program that teaches young people skills that will lift them from the welfare cycle and make them tax-paying citizens.

POLICE MEMORIAL DAY

HON. RICHARD J. DURBIN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DURBIN. Mr. Speaker, today is Police Memorial Day, a day we have set aside to pay tribute to law enforcement officers who have died in the line of duty. It is the most solemn of our celebrations during National Police Week.

Law enforcement officers have earned a special place of honor in our society. Working long hours and often under difficult conditions, they protect our lives, our families, and our property. That work is often thankless; it is always dangerous. This week, we honor police officers around the country who willingly make that commitment to our safety. Today, we re-

member those who have lost their lives in that cause.

I would like to pay special tribute to three officers from my district who have been killed in recent years while serving their communities—Patrolman David Tapscott, of the Springfield Police Department; Officer William Simmons, of the Sangamon County Sheriff's Department; and Patrolman Osmer Milbert, of the Quincy Police Department. Their families should know our gratitude and appreciation.

According to the Justice Department, 72 law enforcement officers were killed in the line of duty in 1984—an average of more than one each week. This is a disgracefully large number. Unfortunately, our steps to protect law enforcement officers have been erratic. In this session, Congress banned the manufacture and importation of armor-piercing ammunition; the so-called "cop-killer" bullets. But many Members also ignored police warnings and approved a bill which will weaken gun control laws and make it easier for criminals to get handguns.

The National Association of Chiefs of Police pays tribute to colleagues killed in action by inscribing their names at the American Police Hall of Fame in North Port, FL. It is a long list. By working to protect police officers, and by remembering, we can keep that list from growing longer.

ANDREI SAKHAROV DAY

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. GILMAN. Mr. Speaker, I strongly support H.J. Res. 596, legislation that would authorize the President to proclaim May 21, 1986 as "National Andrei Sakharov Day". Coming as it does in the midst of the Bern Human Contacts meeting in Switzerland, it is of importance that the House continue to recognize the infinite contributions Dr. Sakharov has made to world peace and to human rights.

Confined to the closed city of Gorky, Dr. Sakharov and his wife Yelena Bonner, maintained their courage stoicly throughout repeated government reprisals against them. This former Nobel Peace Prize winner and founding member of the Moscow Helsinki Monitoring Group has not kept silent in the face of official repression; rather, he has been kept silent. After repeated hunger strikes, Dr. Sakharov was able to negotiate his wife's release to the West for urgently needed medical attention. Dr. Bonner is now recuperating after several surgeries, and is expected to depart in a few weeks.

But on May 21, 1986, Dr. Andrei Sakharov will celebrate his 65th birthday. He will do so without the comfort of friends and relatives. His companions will be KGB agents. Letting him know that we stand with him in his struggle for freedom and human rights is as important as signaling to the Soviet Union our deep and abiding respect for Dr. Sakharov and his efforts.

Dr. Bonner visited Washington recently, and many of us were privileged of having the opportunity to meet her. Her courage in the face of this adversity is also to be admired, as is her devotion to her husband.

Mr. Speaker, the Sakharovs are a unique couple who maintain their commitment to our common respect for fundamental human freedoms, in spite of the fact that they suffer physically and emotionally from doing so. In his attempt to ensure that the Soviet Union adheres to and respects the precepts of the Helsinki Final Act and the Universal Declaration on Human Rights, Andrei Sakharov is tortured with forcefeedings, kept under continuous surveillance and is isolated in a remote part of the country. He cannot speak for himself at this time, and it is, therefore, our duty to speak for him. By proclaiming May 21 as "National Andrei Sakharov Day" we can assure that at the very least, the American people will commemorate this day by focusing special attention on Dr. Sakharov and on the concepts which he espouses, and which the Soviets would so obviously prefer that we forget.

LEGISLATION TO PREVENT WASTE OF U.S. ENERGY RESOURCES

HON. PHILIP R. SHARP

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. SHARP. Mr. Speaker, today I am introducing legislation designed to help prevent a waste of U.S. energy resources and taxpayers' money.

On Monday the General Accounting Office confirmed that the Department of Energy last month sold Elk Hills Naval Petroleum Reserve oil for as little as $6.30 per barrel while the average price in the region at that time was over $13 per barrel. About 82,000 barrels per day will be sold from now until October 1 at a cost to the taxpayers of as much as $400,000 per day.

To compound the error, the Department was paying $12.60 per barrel to buy oil for the strategic petroleum reserve at the same time it was selling oil from the Naval Petroleum Reserve for $6.30.

This unfortunate situation occurred as a result of a sales process designed for stable or rising oil prices which was not modified during the recent rapid decline in prices. A contributing factor is a statutory requirement that DOE produce oil from the Naval Petroleum Reserve at the maximum efficient rate. DOE is not allowed to reduce production, and they have no ability to store these quantities of oil near the Elk Hills field in California.

In a letter to Secretary of Energy Herrington, I have summarized the problem and asked that he modify DOE bidding procedures to prevent further sales at these outrageously low prices. I ask that a copy of my letter be printed in the RECORD at the conclusion of my remarks. I have also spoken with him, and he expressed his intention to correct the problem quickly.

The legislation that I am introducing today addresses the statutory requirement for maximum production rates. This bill would allow for production below maximum at the discretion of the administration, taking into account oil market conditions, energy security, and revenue implications. It also provides that DOE cannot sell the oil below:

First, 90 percent of the prevailing market price, or

Second, the price of oil being purchased for the strategic petroleum reserve, adjusted for cost of transportation and oil quality.

These adjustments will not cause a shutting in of NPR production and will still allow California refiners to acquire Elk Hills oil at a fair price. Nonetheless, these reductions will prevent Uncle Sam from being a price predator and helping drive independent producers out of business. It will also prevent the scandalous situation of the Government selling oil with one hand at 50 cents on the dollar while with the other hand paying full price to purchase oil.

HOUSE OF REPRESENTATIVES, SUBCOMMITTEE ON FOSSIL AND SYNTHETIC FUELS, COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC., May 12, 1986.

Hon. JOHN S. HERRINGTON,
Secretary, Department of Energy, Washington, DC.

DEAR MR. SECRETARY: The General Accounting Office has completed a preliminary investigation (copy enclosed) which documents the sale of Naval Petroleum Reserve oil at prices as low as $6.30 per barrel, prices which constitute giving away a valuable public asset at less than its value. At the same time, oil was being purchased for the Strategic Petroleum Reserve at $12.60 per barrel delivered.

I urge you to find a way to stop this unilateral price war. It appears to be due to a bidding process that establishes sale prices for six-month contracts in reference to posted prices, which have become very volatile. It involves the government in a risky game more suitable to speculators.

The process appears to have been designed for stable oil prices but then left on automatic pilot when the market got turbulent. Shareholders would demand a change if a private company's oil were being sold so cheaply; the taxpayers deserve no less.

Coupled with the Inspector General's recent determination that the Department may be producing oil from the NPR at a rate above the Maximum Efficient Rate [MER] and may therefore be reducing ultimate recovery, this leads to the conclusion that current NPR policy and implementation is shortchanging the taxpayer both today and in the future.

Excess NPR production in a glutted oil market also adds to the current difficulties of oil producing regions of the country.

In 1984, prior to the President's recommendation to continue producing oil from the reserve at MER, I recommended that the law be changed to allow the President a choice other than maximum or minimum production rates. This would add to national energy and economic security in the future by providing for less rapid depletion of the Reserve, but it would also allow the flexibility to consider and balance market conditions, revenue needs, strategic concerns, domestic producers' interests, and California's refiners' needs. The Department of Defense concurred with this recommendation. The Department of Energy disagreed, however, and the President went along with your rec-

ommendation to continue maximum production.

In light of the GAO's evidence and the Inspector General's report, please provide your recommendations on how such results can be avoided in the future.

With both posted and spot prices for California sweet crude far above DOE's lowest sale price, is DOE in violation of the NPR Act of 1976 requiring sales to be "not less than the prevailing local market price of comparable petroleum?"

How can bidding procedures that may have been appropriate in the past be changed in light of today's rapidly changing oil market?

Should the law provide you with the flexibility to alter production rates in order to avoid fire-sale prices?

In the absence of a law giving you flexibility to slow the rate of production, can you avoid selling the oil too cheaply by purchasing it for the SPR?

Can a floor be established under NPR sales prices, perhaps similar to the one we agreed upon for the SPR test sale?

With oil prices so low and the oil economy in trouble, do you still believe it makes sense for the U.S. to sell as much oil as possible from the NPR and to cease purchasing oil for the Strategic Petroleum Reserve?

In addition to raising concerns about the Department's stewardship of this valuable national asset, these sales will undoubtedly have an impact on the proposed sale of the entire NPR. I am sure you can understand that Congress and the public are likely to be skeptical about the Department's ability to obtain a fair market price for a multi-billion dollar oil field if it currently undersells its product.

I would appreciate having your explanation and response to my questions by May 23, 1986.

Sincerely,

PHILIP R. SHARP,
Chairman.

NATIONAL NURSING HOME WEEK

HON. OLYMPIA J. SNOWE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Ms. SNOWE. Mr. Speaker, by proclamation, the President designated the second week in May as "National Nursing Home Week." The theme, "Celebrate Lifetime Achievements" was chosen in recognition of the significant contributions and accomplishments of those who reside in nursing homes.

By the end of 1985, an estimated 1.5 million older persons lived in nursing homes, representing about 5 percent of the elderly population. While only a small proportion will live in a nursing home at any given time, about 20 percent will spend some time in a nursing home each year. In 1985, about 2 percent of the elderly population who were 65 to 74 were in a nursing home; for those 85 and over, that figure had increased to about 16 percent.

Of those who are institutionalized, nearly 75 percent are without a spouse as compared to the noninstitutionalized population, where just over 40 percent are without a spouse. Additionally, nursing home patients tend to have health problems that significantly restrict their ability to care for themselves. These two facts suggest that in the absence of a spouse or other family member who can provide help with activities of daily living, the likelihood of institutionalization is increased.

For many older persons facing institutional care, the presence of the family care giver is the crucial factor. In many cases, the care giver is the spouse or daughter. In fact, the family has been shown to provide between 80 and 90 percent of the medically related care, personal care, household maintenance, transportation, and shopping needed by older persons. The important contribution of the care giver has not been adequately recognized, and for this reason, I have introduced legislation that would set aside the week beginning November 24—which includes Thanksgiving Day—as "National Family Care Givers Week". With this commemorative week, we can begin to recognize the contribution of the care giver in maintaining frail and disabled family members in the home.

Nursing home residents have been shown to be disproportionately very old, female, and currently unmarried. As a consequence, they are likely to be the most vulnerable and the most isolated from the community. For that reason, like any institutionalized population, it is essential to assure their continued self-determination and the protection of their rights.

We know that the institutionalization of any population can lead to abuses, but for the elderly, where there are few checks from outside, it is particularly important to establish a mechanism for the protection of rights. On February 27, I introduced H.R. 4279, the Long-Term Care Patients Rights Act of 1986 for the explicit purpose of assuring, by statute, that the rights of residents of long-term care facilities are not violated or abridged. In addition to enumerating rights and designating remedies and penalties for the violation of rights, H.R. 4279 would prohibit discrimination against Medicaid recipients, would establish an explicit private right of action, would establish a statewide, uniform reporting system for complaints and violations, and would strengthen the long-term care Ombudsman Program. Thirty-five of my colleagues have joined me in supporting this bill.

I am particularly pleased to salute those who live in the 15,000 nursing homes across the country. I believe that we should honor and pay tribute to those who reside in nursing homes, not only for their past contributions, but also for their potential for continuing and future contributions.

TERRORISM IN IRAN

HON. THOMAS A. DASCHLE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. DASCHLE. Mr. Speaker, today I want to call to the attention of my colleagues the tremendous suffering that continues to plague the people of Iran. At a time when terrorism is on the minds of so many Americans. I think it is important to remember the terror to which the Khomeini regime is subjecting its own people.

The Iranians who have managed to escape the brutal conditions in their country have told their horrifying stories of torture, mutilation, and political repression. Amnesty International and other human rights groups have documented thousands and thousands of tortures and executions. Women are beaten or killed for minor "violations" of Khomeini's dress code. Executions are estimated at 50,000 people—many of those schoolteachers, students, and even infants. It is believed that there are over 140,000 political prisoners held in Iran.

Although it is an unpleasant matter to face the atrocities of the Khomeini regime, we must face them. We must not forget that every day there are men, women, and children in Iran being terrorized by the policies of war and torture. As representatives of a nation that champions human rights, it is our responsibility to speak out against this oppression.

The Iranian people were brutalized at the hands of the Shah, and they continue to suffer under the inhuman policies of Khomeini. Let us work together to build a policy that will announce to Khomeini and the world that we are committed to the encouragement of peace, freedom, and human rights everywhere.

THE 50TH ANNIVERSARY OF THE WOMEN'S CIVIC IMPROVEMENT CLUB

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. FAZIO. Mr. Speaker, today I would like to draw your attention to the 50th anniversary of the Women's Civic Improvement Club. This fine organization was founded in 1936 by 10 dedicated women who felt the desperate need for housing and other services for minority women after World War I. Recognizing this need, these women began to provide housing and employment assistance to black and other minority women. It has since enjoyed a rich history spanning over five decades as one of the oldest black women's organizations in the Sacramento, CA area.

While the Women's Civic Improvement Club has provided outstanding leadership and assistance to the community over the past 50 years, it continues to provide a number of services and programs for the community. The club conducts valuable programs at its community center which are geared toward the development of responsible citizens and especially designed to assist disadvantaged individuals. For example, the center's programs include special assistance for senior citizens, nutrition programs for low-income individuals, Head Start, summer camp, and employment and counseling programs for teenagers.

The Women's Civic Improvement Club and the women who serve in it deserve special recognition for their important accomplishments over the past 50 years. I commend this fine organization and the dedicated women who have contributed their time and effort in service to the club and the community over the past 50 years. I look forward to a bright future and continued success for the Women's Civic Improvement League.

FCC COMPUTER III DECISION A GOOD START—NOW IT'S UP TO CONGRESS

HON. THOMAS J. TAUKE

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. TAUKE. Mr. Speaker, today the FCC adopted a report and order on its Third Computer Inquiry (CI–III). The Commission's decision will allow AT&T and the Bell Operating Co.'s to provide so-called enhanced services such as voice storage, health, and utility monitoring services and other computer enhanced applications to residential and business customers through the telephone network after certain consumer and competitive safeguards have been met.

I applaud the Commission for its actions today. This is a forward-looking, proconsumer, protechnology decision.

The CI–III decision, however, only removes one of the roadblocks to consumers receiving computer enhanced services from their telephone companies. Another still exists—the AT&T consent decree.

We've reached the point that many of us in Congress have feared. A kind of regulatory double-speak now exists where one entity of the U.S. Government says the telephone companies can offer certain services and another says no.

I'm concerned that many of the services that could be offered as a result of today's FCC's decision may never reach consumers. This is because there is a great deal of overlap between what the FCC considers "enhanced services" and what the consent decree defines as "information services." As long as the consent decree's ban on information services exists, the Bell telephone companies will be caught in a regulatory whip-saw and consumers will be denied certain services and the benefits of competition.

The FCC's decision today makes it even more imperative that Congress enact H.R. 3800 this year. This bill would eliminate the regulatory ambiguity that now exists by allowing the FCC—the principal telecommunications regulatory body in this country—as opposed to a Federal judge, to determine what circumstances information services should be offered.

Toward this end, it is my hope that the chairman of the Telecommunications Subcommittee, the gentleman from Colorado—Mr. WIRTH—will schedule a markup on H.R. 3800 at an early date so that the full House will be able to consider the issue during this Congress.

THE 150TH ANNIVERSARY OF THE CHILDREN'S HOME OF DETROIT

HON. DENNIS M. HERTEL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. HERTEL of Michigan. Mr. Speaker, this month marks the 150th anniversary of the Children's Home of Detroit, a voluntary, nonprofit, nonsectarian, residential treatment center for emotionally, educationally, and socially troubled children ages 6 to 18.

The Children's Home of Detroit, originally called the Ladies' Orphan Association, was founded in May 1836 by concerned women to "care for helpless and homeless little children." Since that time, this admirable organization has expanded and prevailed through several changes in name and location. Through it all, the home has maintained its purpose of providing loving care for troubled children in our community.

Today, situated on a 13-acre campus in Grosse Pointe Woods, the Children's Home of Detroit provides a peaceful setting with six cottages, a medical center, recreation facilities, and a school. Included among the many services provided are casework, special education, psychiatric and medical services, recreation, summer camp, and service to families.

I have had the privilege of visiting this fine institution. I have met the dedicated staff and seen their true devotion to these children. They prepare the children by guiding, educating and loving them until they are prepared to return to their families, homes and communities, and ultimately become responsible and contributing members of our community.

I am proud to serve the Children's Home of Detroit in my district in Michigan. I would like my colleagues to join me in honoring this truly deserving and worthy institution on the occasion of its 150th anniversary.

NATIONAL COMMITTEE TO PRESERVE SOCIAL SECURITY AND MEDICARE

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. MURTHA. Mr. Speaker, because there has been concern expressed by some Members of the House of Representatives about the National Committee to Preserve Social Security and Medicare, I feel compelled to add a couple of thoughts of my own.

The organization is chaired by former Congressman James Roosevelt. It has been an honor and a pleasure for me to know Mr. Roosevelt for several years. By every measure of his life and his ideals, he qualifies as a great American. I have the utmost respect for him.

As the eldest son of President Franklin Delano Roosevelt, I am sure he feels a special concern for programs that help the elderly and for Social Security, because of his father's role in opening these opportunities to a better life to millions of Americans.

In addition, I would like to remark that I have found the information from the National Committee to Preserve Social Security and Medicare to be informative and helpful. Older citizens in my area are very worried about these programs—they depend on them—it is vital to their health and lifestyle that they continue. As much as I and other Members of Congress strive to keep our constituents informed, publications such as this are extremely helpful in letting people know the situation, and communicating with their Congress.

I rise in praise of Mr. Roosevelt and his organization and I believe the organization should be commenced for its high degree of expertise and professionalism which it has brought to the senior citizens lobby.

TRIBUTE TO CARLA COHEN

HON. RAYMOND J. McGRATH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. McGRATH. Mr. Speaker, I wish to take this moment to commend a constituent, Carla Cohen, editor and publisher of the Franklin Square and Floral Park Bulletin, who has demonstrated remarkable determination in balancing her rewarding career as a businesswoman and newspaper editor while raising two outstanding children. She is renowned as a fair, honest, and accurate chronicler of the life of these communities.

While these qualities are noteworthy, there is another side of Carla Cohen that has been a hallmark of her busy life. I refer, Mr. Speaker, to her commitment to the residents of New York's Fifth Congressional District and her tireless efforts on their behalf.

It is this concern for the general welfare of the community that has led civic leaders in Franklin Square to honor Carla Cohen by appointing her grand marshal of this year's Memorial Day parade. As the first woman in Franklin Square's history to hold this position, she will lead the parade as she has led the community with her words and actions; as a beacon to the principle of caring for one's neighbor.

TRIBUTE TO DR. GERALD J. EASTON

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. HUNTER. Mr. Speaker, I would like to pay tribute and commend a very special member of the optometric profession from Coronado, CA, Dr. Gerald J. Easton.

Since June 1985, Dr. Easton has served as president of the 24,000-member American Optometric Association, culminating years of volunteer work for optometry and eye care at every level. Dr. Easton has also served on the AOA board of trustees since 1978, but his work on behalf of his profession and his patients began years before. He is a past president of both the California Optometric Association and the San Diego County Optometric Society, and has served on the Coronado School Board. For many years Dr. Easton was a consultant to the State of California's Department of School Welfare. It is this commitment to his profession, his patients and his community which has made Dr. Easton such an outstanding leader.

Mr. Speaker, the stated objective of the AOA is "to improve the vision care and health of the public and promote the art and science of the profession of optometry." Dr. Easton has certainly dedicated his career to that objective. I am pleased to join his many friends and colleagues in paying tribute to him, not only for his years as an elected leader of the AOA, but for all his years of service to optometry, the public, and the State of California.

NUCLEAR SAFETY INSPECTOR GENERAL ACT OF 1986

HON. SAM GEJDENSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. GEJDENSON. Mr. Speaker, I am very pleased to introduce today the Nuclear Safety Inspector General Act of 1986, a bill to create an independent Inspector General for the Nuclear Regulatory Commission [NRC]. An inspector general is sorely needed at NRC to ensure that the Commission properly implements and enforces all laws and regulations relating to the safety of commercial nuclear power reactors.

Although the NRC has many excellent safety regulations on the books it has grown increasingly complacent about enforcing them. In many cases the NRC has exempted nuclear utilities from complying with crucial safety regulations rather than forcing compliance. At times it seems that the NRC is more concerned with protecting the nuclear industry than protecting public safety.

A typical example of irresponsible regulation by the NRC is their lack of enforcement of regulations concerning reactor operator qualifications. NRC regulations require that applicants for reactor operating licenses at new plants have extensive operating experience at a comparable reactor. Instead of enforcing this important regulation the NRC has simply ignored it.

Knowing that enforcement of reactor operator qualifications could lead to delays in the licensing of some plants the NRC staff interpreted "extensive operating experience" to include "participation in training programs that utilize nuclear powerplant simulators." This blatant misinterpretation of regulations allowed the approval of inexperienced reactor crews to operate the Diablo Canyon, Grand Gulf, and Shoreham reactors. At the time of this decision NRC Commissioner Victor Gilinsky wryly noted, "No one would dream of allowing an aircraft to take off with a new crew that had only had simulator training."

An independent NRC inspector general would provide the oversight necessary to improve NRC safety regulation. The inspector general would have access to all NRC records and documents, the power to subpoena persons and documents, and the ability to refer criminal cases to the Justice Department. The inspector general would be appointed by the President, would have a 4-year term, and could only be removed by the President for malfeasance or neglect of duty. In order to ensure impartiality the inspector general would be barred from having any financial relationship with the nuclear power industry for 3 years prior to his appointment, and 3 years after leaving office.

NRC safety regulations are one of the many reasons why U.S. nuclear reactors are much safer than Soviet reactors such as the one at Chernobyl. We must do all we can to ensure that these regulations are followed so that the safety of our reactors is maintained and the public is protected. The Nuclear Safety Inspector General Act will provide the oversight necessary to ensure that the NRC effectively enforces its own safety regulations.

RETIREMENT OF GORDON HOWARD DRAKE

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. SKELTON. Mr. Speaker, during my time in the Congress of the United States, one of the greatest pleasures of my job has been working with local officials to resolve problems. I have found that Missourians in my district are well served by local office holders who unselfishly give of their time, energies, and talents.

There are exceptional people even among this outstanding group of public servants. One of these is Gordon Howard Drake, who is retiring following a long, successful term as mayor of Warsaw, MO.

Warsaw has undergone extensive changes during Gordon's tenure because of construction of Truman Dam, located just outside its city limits. Mayor Drake has been a solid leader in helping realize the full benefits of the dam, while working actively and effectively in bringing focus to the trouble spots and getting coordinated action by State, local, and Federal agencies to help solve problems.

Mr. Speaker, it gives me great pride to use this forum to commend Gordon Howard Drake for a job well done. His record of leadership and effective public service is one we would all do well to emulate. I feel certain that the Members join me in wishing Mayor Drake all the best in the many years to come.

FREE BUT FAIR TRADE

HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. LIPINSKI. Mr. Speaker, I remain committed to the idea of free trade as long as America is not the only country that practices it. In recent years, however, this has sadly seemed to be the case. While staunchly adhering to this concept, the United States has seen an unprecedented trade deficit and has been unable to compete successfully in the world market.

I have seen the effects of our Nation's current trade policy on my own district, especially as they relate to the steel industry. Earlier this year, the LTV Steel Corp. announced the permanent layoff of nearly 800 workers at its South Chicago plant. Despite many State and local efforts and even after physical remodeling, efficient management and employee wage and benefit concessions, the layoffs took place. Why? Because the domestic steel companies simply cannot compete with inexpensive, subsidized foreign imports dependent on subminimum worker wages.

The Reagan administration has attempted a piecemeal approach to steel imports, projecting only 20.2 percent penetration of the market by foreign sources. But as a result of such an approach, these foreign producers now contribute more than 25 percent of the total steel used in this country. Countries that do not have import agreements with the United States have still been able to export their steel—a situation which certainly undercuts the idea of having these agreements in the first place.

A trade policy that deals with this problem in a comprehensive manner and that faces the general question of fair trade would go a long way in helping America regain its long tradition of competitiveness and productivity. We cannot continue to ignore this issue that is so vital to our Nation's well-being.

YOSSI STERN: ISRAELI ART EXHIBITION

HON. DON SUNDQUIST

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 1986

Mr. SUNDQUIST. Mr. Speaker, it is with great pleasure that I invite you and the Members of this body to an outstanding exhibition of 60 watercolors by one of Israel's best known artists, Yossi Stern.

The exhibit will take place in the Rotunda of the Cannon House Office Building from May 19 to 23. An opening ceremony will be held at 11 a.m. on Tuesday, May 20, in the Cannon Rotunda. At this ceremony you will have an opportunity to meet this great artist.

Stern was born in Hungary in 1923 and arrived in Israel as an "illegal immigrant" in 1939. He studied at Bezalel Academy of Arts in Jerusalem, and has been a professor of art there for 35 years. His drawings, tapestries, watercolors, and oil paintings have been exhibited around the world.

When you look at Stern's work, you will readily see that his watercolors capture the spirit of contemporary Israel while his biblical scenes evoke a sense of joy and contentment.

I hope you will take the time to visit this delightful exhibit being presented in honor of Israel's 38th Independence Day.

HOUSE OF REPRESENTATIVES—*Monday, May 19, 1986*

The House met at 12 noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We admit, gracious God, That we are not masters of our fate and we know the uncertainty of our lives. We pray that Your spirit will be with us along life's way strengthening us when we need to be strong, giving solace when we are hurt, and forgiving when we are wrong. We thank You, gracious God, for Your mercies to us and may Your goodness never depart from us. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate has passed without amendment joint resolutions of the House of the following titles:

H.J. Res. 234. Joint resolution designating the week of May 18, 1986, through May 24, 1986, as "National Food Bank Week";

H.J. Res. 427. Joint resolution designating the week beginning May 11, 1986, as "National Asthma and Allergy Awareness Week";

H.J. Res. 492. Joint resolution to designate the week beginning on June 1, 1986, as "National Neighborhood Housing Services Week"; and

H.J. Res. 613. Joint resolution allowing qualified persons representing all the States to be naturalized on Ellis Island on July 3 or 4, 1986.

The message also announced that the Senate had passed a bill and joint resolutions of the following titles, in which the concurrence of the House is requested:

S. 2460. An act to extend until June 30, 1986, the date on which certain limitations become effective with respect to obligations that may be made from the Military Personnel accounts of the Department of Defense for fiscal year 1986;

S.J. Res. 342. Joint resolution to designate May 25, 1986, as "Missing Children Day"; and

S.J. Res. 344. Joint resolution to designate the week beginning June 8, 1986, as "National Children's Accident Prevention Week."

CONSENT CALENDAR

The SPEAKER. This is the day for the call of the Consent Calendar. The Clerk will call the first bill on the Consent Calendar.

RURAL WATER RIGHT-OF-WAY POLICY ACT OF 1985

The Clerk called the bill (H.R. 3617) to exempt rural water systems facilities assisted under the Consolidated Farm and Rural Development Act as amended from certain right-of-way rental payments under the Federal Land Policy and Management Act of 1976.

The SPEAKER. Is there objection to the present consideration of the bill?

Mr. WORTLEY. Mr. Speaker, I ask unanimous consent that the bill be passed over without prejudice.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

AMENDING THE DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1985

The Clerk called the bill (H.R. 4530) to amend the Department of Defense Authorization Act, 1985, to provide that members of the Commission on Merchant Marine and Defense shall not be considered to be Federal employees for certain purposes, to extend the deadline for reports of the Commission, and to extend the availability of funds appropriated to the Commission.

There being no objection, the Clerk read the bill, as follows:

H.R. 4530

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. STATUS OF MEMBERS OF COMMISSION ON MERCHANT MARINE AND DEFENSE; EXTENSIONS OF REPORT DEADLINES AND AVAILABILITY OF APPROPRIATIONS.

(a) STATUS OF COMMISSION MEMBERS.—Subsection (d) of section 1536 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2633), is amended—

(1) by inserting "(1)" after "(d)"; and

(2) by adding at the end the following new paragraph:

"(2) A member of the Commission appointed under subsection (c)(1)(C) (who is not otherwise employed by the Federal Government) shall not be considered to be a Federal employee, except for the purposes of—

"(A) chapter 81 of title 5, United States Code, relating to compensation for work-related injuries; and

"(B) chapter 171 of title 28, United States Code, relating to tort claims.".

(b) EXTENSIONS.—Such section is further amended as follows:

(1) The last sentence of subsection (b) and the first sentence of subsection (g) are each amended by striking out "the date of the enactment of the law first providing funds for the Commission" and inserting in lieu thereof "the date on which sufficient members of the Commission to constitute a quorum have been appointed".

(2) The second sentence of subsection (g) is amended by striking out "of enactment" each place it appears.

(3) The last sentence of subsection (i) is amended by striking out "September 30, 1988" and inserting in lieu thereof "36 months after the date on which sufficient members of the Commission to constitute a quorum have been appointed".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GORDON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

DEMOCRATS SET AGENDA

(Mr. RICHARDSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RICHARDSON. Mr. Speaker, the critics said that the Democrats were dead and had no new ideas, causing the 1982 Presidential debacle. But today I stand proud to be a Democrat, gloating that our party has set the congressional agenda on tax reform, the budget deficit, and now this week, trade.

House Democrats, led by Representative ROSTENKOWSKI, produced a strong tax reform bill that critics said would die in the other body. But the other body adopted a Democratic bill originally proposed by the gentleman from New Jersey [Mr. BRADLEY], and now tax reform is alive and well.

Last week, the House passed a budget deficit control bill that falls under Gramm-Rudman targets, equally splits the painful cuts between domestic and military spending, and deals responsibly with revenue increases. But the message we sent to the White House and the Republican

Party is that we will not pay for their defense increases nor their new taxes.

This week, House Democrats will take the initiative on trade. Our trade deficit this year is expected to climb to $170.9 billion—U.S. businesses in nearly every manufacturing sector have lost market share at home, while their exports face market business and unfair trade practices abroad. America, once the prominent player in world trade, is finding itself playing second or third string in every market.

The Reagan administration has ignored the need to develop a clear, coherent national trade policy. It prefers instead to respond on an ad hoc, item-by-item basis. Whether the problem relates to automobile trade, textile trade, customs fraud, market access or exchange rate policy, the administration has refused to act until pushed by outside forces—usually Democrats in Congress.

Mr. Speaker, when the voters go to the polls in November, I hope they remember what party set the positive agenda on tax reform deficit reduction, and trade.

NATIONAL TOURISM WEEK AND THE SPLENDOR OF WISCONSIN

(Mr. ROTH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROTH. Mr. Speaker, today marks the first day of National Tourism Week. While we endure 90-degree temperatures and 90-percent humidity here in Washington, let me entice my colleagues with the splendor of northeast Wisconsin. Come to the northwoods and to Door County and enjoy two of the best places on Earth to spend a vacation. Rand McNally's new book, "Vacation Places Rated," calls the northwoods and Door Country two of the best vacation places in America.

Rhinelander, Eagle River, Minocqua, and the entire Oneida, Vilas, Forest County area in the northwoods of Wisconsin and Door and Kewaunee Counties exude the bounty of America, its beauty, and its excitement.

Tourism is big business in Wisconsin. It means millions of dollars for Wisconsin's economy. It means more than 106,000 jobs. And it means $763 million in the pockets of workers and millions more in tax revenue for Wisconsin. The Presidential proclamation designating this week as National Tourism Week calls attention to the importance of tourism to the Nation. The northwoods and Door County are but two of the spots which are important to Wisconsin tourism.

TRADE AND INTERNATIONAL ECONOMIC POLICY REFORM ACT OF 1986

(Mr. BONKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BONKER. Mr. Speaker, this week is World Trade Week, so it is appropriate that the House begin consideration of H.R. 4800, the Trade and International Economic Policy Reform Act of 1986. This legislation is the product of six committees working in concert to develop trade legislation that will bring down the trade deficit and make America competitive once again.

H.R. 4800 will give us a more effective trade policy and compel a reluctant President to deal with our trade problems, but it stops short of protectionism.

Secretary Jim Baker recently said that the declining dollar will "fix" our trade problem, but the facts do not support his claim. The dollar has declined relative to the yen by one-third this past year, but the bilateral trade deficit with Japan for March was $5.5 billion, up 27 percent over the previous month and an all-time high.

Clearly the Reagan administration's international economic and trade policies have failed, as evidenced by the accumulating trade deficit and a threatening external debt. It is time for an alternative policy, and that is what the Democratic leadership has done. H.R. 4800 is a bill we can support with pride, and one that will promote our domestic industries while restoring our competitive position abroad.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2031, THE FEDERAL TAX DELINQUENCY AMNESTY ACT OF 1985

Mr. WORTLEY. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2031, the Federal Tax Delinquency Amnesty Act of 1985.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

GOVERNMENT OF THE ISLAND NATION OF VANUATU IS ESTABLISHING DIPLOMATIC RELATIONS WITH LIBYA

(Mr. SUNIA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SUNIA. Mr. Speaker, I rise today to bring to the attention of this House a shocking turn of events taking place in the South Pacific Ocean, which, as you know, is also the home of American Samoa, the U.S. territory which I am proud to represent.

But this beautiful corner of the world is not as tranquil as it once was. On Tuesday of last week, I learned that the government of the island-nation of Vanuatu, an independent republic since only 1980, is in the process of establishing diplomatic relations with Libya. Indeed, I am informed that it is only a matter of time before these two nations proudly link arms.

Last year, I came before this body to warn of the rapid decrease in American influence throughout the Pacific. The Soviet Union has planted its foot in the region, having last August been granted a 1-year license to fish in the vast waters of the island-nation of Kiribati. Overtures of a similar nature have been made to several other small states by the Soviets and Moscow is looking forward to renewing its deal with Kiribati later this year. The American name and presence are not revered as they were in the days following World War II, and our assistance to the region, low to begin with, has decreased in recent years.

Taken by themselves, these are troubling developments which require our attention. But they pale in comparison to what has been happening recently. The proposed bond between Vanuatu and Libya carries an urgency that cannot be ignored.

Who can imagine the final purpose Libya might be considering for Vanuatu? It is no secret that the Soviet Union, as Libya's mentor, is involved in these "diplomatic" proceedings. Similarly, Libya has never been reticent about doing the Soviets' bidding. Mr. Speaker, we would deceive only ourselves if we did not acknowledge the strong possibility of a strategic alliance between Vanuatu, Libya, and the Soviet Union. Such an alliance would be very likely to include some sort of military arrangement, perhaps even a permanent naval base. Should this occur, our naval and shipping needs throughout the Pacific would be severely jeopardized.

Mr. Speaker, we simply can no longer take the Pacific for granted. The people and the nations that occupy one-sixth of the Earth's surface deserve our respect and sincere concern for their welfare. If these are not forthcoming, Vanuatu and nations like it will continue to turn to sources that are eager to step in and exert their power. I urge the Congress to recognize the seriousness of this situation and take the necessary steps that will prevent the South Pacific from becoming just another piece in the game of global chess.

APPOINTMENT OF MEMBERS FROM PRIVATE LIFE TO BOARD OF TRUSTEES OF THE AMERICAN FOLKLIFE CENTER IN THE LIBRARY OF CONGRESS FOR TERM ENDING MARCH 3, 1992

The SPEAKER. Pursuant to the provisions of section 4(b) of Public Law 94-201, the Chair appoints to the Board of Trustees of the American Folklife Center in the Library of Congress for a term ending March 3, 1992, the following members from private life:

Mr. Russell W. Fridley, of St. Paul, MN; and

Ms. Judith McCulloh, of Urbana, IL.

COMMON SENSE IS NOW THE LAW

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, the U.S. Supreme Court is coming home. After a long stretch of years where the Supreme Court decisions seem to have swung a pendulum toward the criminal and away from law enforcement, shackling law enforcement, as it were, it seems that day by day we see increasing evidence that indeed the U.S. Supreme Court is coming home with respect to law enforcement.

Today it issued an opinion in which it said that police authorities need not have a search warrant to fly over and try to detect fields of marijuana or other controlled substances which could be detected from the air.

This is, of course, logical and proper. But after having seen what the Supreme Court has done over the years, it is refreshing to see that what is common sense is also now the law.

THE CONTADORA PROCESS

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, much attention is given to the goal of finding a negotiated agreement in Central America through the Contadora process. Such an agreement would require the cooperation of the Sandinista regime in Nicaragua and the trust of its neighbors that the Sandinista government would honor its commitment.

Considering the Sandinistas' track record, it is hard to understand why the Sandinistas deserve that trust. They promised the OAS in July 1979 they would protect human rights, have free elections, a pluralistic society, and would be nonaligned. None of those promises have been kept. Further, in violation of international law and the language of the Contadora drafts, the Sandinistas continue to supply guerrilla groups in neighboring countries with arms and ammunition.

In March, a series of actions by Honduran military forces resulted in the capture of several caches of Nicaraguan arms destined for El Salvador. The media failed to give attention to the Sandinistas' continuing role in trying to subvert its neighbors. In one case, an arms cache was discovered in a "safe house" in Tegucigalpa with thousands of rounds of rifle ammunition, Marxist-Leninist literature and other documents showing links connecting Nicaraguan suppliers with Salvadoran guerrillas. The continuing efforts of the Sandinistas to subvert their neighbors must be considered in any negotiated agreement in the Contadora process.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. HUBBARD). Pursuant to the provisions of clause 5, rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Wednesday, May 21, 1986.

ADMINISTRATIVE CONFERENCE AUTHORIZATIONS

Mr. GLICKMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4588) to authorize appropriations for the Administrative Conference of the United States, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4588

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MEMBERSHIP OF ADMINISTRATIVE CONFERENCE.

(a) Section 573 of title 5, United States Code, is amended—

(1) in subsection (a) by striking "91" and inserting "101"; and

(2) in subsection (b)(6) by striking "36" and inserting "40".

SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Section 576 of title 5, United States Code, is amended to read as follows:

"§ 576. Authorization of appropriations

"There are authorized to be appropriated to carry out the purposes of this subchapter not more than $1,600,000 for fiscal year 1986, and not more than $2,000,000 for each fiscal year thereafter up to and including fiscal year 1990. Of any amounts appropriated under this section, not more than $1,000 may be made available in each fiscal year for official reception and entertainment expenses for foreign dignitaries.".

(b) CLERICAL AMENDMENT.—The item relating to section 576 in the table of sections for chapter 5 of title 5, United States Code, is amended to read as follows:

"576. Authorization of Appropriations.".

The SPEAKER pro tempore. Is a second demanded?

Mr. COBLE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Kansas [Mr. GLICKMAN] will be recognized for 20 minutes and the gentleman from North Carolina [Mr. COBLE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4588 would authorize appropriations for the Administrative Conference of the United States from 1986 through 1990. The amounts authorized by this bill are for no more than $1.6 million in fiscal year 1986 and no more than $2 million a year for fiscal year 1987 through 1990.

The Administrative Conference of the United States was established in 1964. The purpose of the Conference is to serve the public by working to attain fairness and balance in the procedures followed by agencies. It also assists the Congress by analyzing or suggesting legislative changes in order to assist in increasing the efficiency and fairness of agency procedures.

The Conference works with agencies on a continuing basis to improve and simplify their regulatory, enforcement, and adjudicatory functions. It also renders technical assistance and advice to other agencies charged with the direct implementation of new legislation, such as the Equal Access to Justice Act and the Regulatory Flexibility Act. In addition, the Conference has statutory mandates, such as those in the Sunshine Act and the Magnuson-Moss Act, to monitor agency implementation of statutory programs.

The committee has examined the activities of the Conference since its last authorization in 1982, and has concluded that reauthorization of the Administrative Conference is fully justified because of the Conference's significant contributions to the improvement of agency operations through its numerous studies and recommendations. For example, between 1982 and 1984 alone, the Conference adopted 18 recommendations and 4 formal statements which addressed a wide range of procedural issues.

In addition, the Conference has carried out a number of specific statutory mandates during this time, including the issuance of model regulations for all agencies for the implementation of the Equal Access to Justice Act. There are also currently pending bills that

would assign new statutory responsibilities to the Conference. One example of such legislation is the bill to reauthorize the Superfund Program.

In the last year, the Conference has also issued a "Guide to Federal Agency Rulemaking," which analyzes and discusses the principles which govern agency rulemaking, and the "Federal Administrative Procedure Sourcebook," which collects the basic statutes, regulations, and related materials on procedural requirements applicable to agencies generally, including the Equal Access to Justice Act, the Ethics in Government Act, the Freedom of Information Act, and the Contract Disputes Act. These documents provide basic source materials for all Government agencies in carrying out their statutory responsibilities.

Based on this record of achievement, the committee has concluded that the Administrative Conference of the United States should be reauthorized as provided in H.R. 4588, and recommends that the House act favorably on H.R. 4588.

The amended bill before the House today is identical to the bill reported by the Judiciary Committee except in one respect. The amended version places a cap on the amount that can be appropriated for the Conference for fiscal years 1987 through 1990, a cap of $2 million for each year, while the committee reported version placed a cap on the authorization for fiscal year 1986 only. This amendment, which has been cleared with the minority, will give definite guidelines to the Appropriations Committee as to the maximum level of funding which the Administrative Conference should receive. While it implies no criticism of the Administrative Conference, which has performed and will continue to perform, services of value to this Government, these caps nevertheless demonstrate the need we currently face for fiscal restraint.

The administration supports enactment of H.R. 4588, and I urge its passage, as amended, by the House.

□ 1215

Mr. COBLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I believe my colleague and good friend from Kansas, Mr. GLICKMAN, touched on this, but I would like to note that this bill sets a cap on the expenditures of this organization that is below the administration's budget request.

I believe, Mr. Speaker, that the cap is a realistic one; one with which the conference can live. I support it.

Mr. GLICKMAN. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. COBLE. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas [Mr. GLICKMAN] the House suspend the rules and pass the bill, H.R. 4588, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GLICKMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

SUSQUEHANNA RIVER BASIN COMPACT

Mr. GLICKMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2971) granting the consent of the Congress to the amendments to the Susquehanna River Basin Compact.

The Clerk read as follows:

H.R. 2971

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENTS TO SUSQUEHANNA RIVER BASIN COMPACT.

(a) CONSENT OF CONGRESS.—The consent of the Congress is hereby given to the amendments, described in subsection (b), to the Susquehanna River Basin Compact, entered into by the States of New York, Pennsylvania, and Maryland and consented to by the Congress in the Act of December 24, 1970 (84 Stat. 1509).

(b) DESCRIPTION OF AMENDMENTS.—The amendments referred to in subsection (a) have been ratified by the States described in such subsection and have the effect of—

(1) amending section 13.9 of Article 13 of the Susquehanna River Basin Compact (84 Stat. 1528) to read as follows:

"13.9 Interest. Bonds shall bear interest at such rate as the commission shall determine, payable annually and semi-annually."; and

(2) amending section 13.13 of such article (84 Stat. 1528) to read as follows:

"13.13 Sale. The commission may fix terms and conditions for the sale or other disposition of any authorized issue of bonds and may sell its bonds at less than their par or face value. All bonds issued or sold for cash pursuant to this compact shall be sold on sealed proposals to the highest bidder. Prior to such sale, the commission shall advertise for bids by publication of a notice of sale not less than ten days prior to the date of sale, at least once in a newspaper of general circulation printed and published in New York City carrying municipal bonds notices and devoted primarily to financial news. The commission may reject any and all bids submitted and may thereafter sell the bonds so advertised for sale at private sale to any financially responsible bidder under such terms and conditions as it deems most advantageous to the public interest, but the bonds shall not be sold at a net interest cost calculated upon the entire issue so advertised, greater than the lowest bid which was rejected. In the event the commission desires to issue its bonds in exchange for an existing facility or portion thereof, or in exchange for bonds secured by the revenues of an existing facility, it may exchange such bonds for the existing facility or portion thereof or for the bonds so secured, plus an additional amount of cash, without advertising such bonds for sale.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Kansas [Mr. GLICKMAN] will be recognized for 20 minutes and the gentleman from North Carolina [Mr. COBLE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the bill, H.R. 2971, would grant the consent of Congress to amendments to the Susquehanna River Basin Compact which would remove the current 6 percent limit on bond interest and permit the Susquehanna River Basin Commission to fix the interest rate of bonds issued under the compact. The amendments would delete a provision that presently bars sales below par or face value when the effect of the sale would result in an interest cost to the Commission of more than 6 percent.

The Susquehanna River Basin Compact was consented to in 1970 with the enactment of Public Law 91-574. The original provisions of the compact included the provisions which would be amended by the amendments embodied in this bill. These amendments have been approved by the signatory States of New York, Pennsylvania and Maryland in laws enacted by the legislatures. Section 13.9 stated that all bonds issued by the Commission were to bear interest at not to exceed 6 percent per year payable annually or semiannually. Section 13.13 concerning sale of bonds, while authorizing the Commission to sell bonds at less than their par or face value contained the limitation that no issue of bonds could be sold at an aggregate price below the par or face value thereof if the net interest cost of the issue to the Commission would result in an interest rate of more than 6 percent per year. As has been stated, the amendments would be to allow the Commission to fix the rate applicable to its bonds, and similarly delete the parallel provision that limited the sales at par or face value to an interest rate yielding an interest cost to a rate at no more than 6 percent.

The Commission was given the responsibility of developing and imple-

menting a comprehensive plan for the river basin. The plans as developed covers six major areas of water resources concern including: First, flood plain management and protection; second, water supply, third, water quality; fourth, watershed management; fifth, recreation, fish and wildlife; and sixth, cultural, visual, and aesthetic values. As required by the compact, the plan also considers the Chesapeake Bay, which receives about 50 percent of its freshwater from the Susquehanna. Under the guidance of the comprehensive plan, the Commission carries out programs, promulgates regulations, coordinates signatory activities, reviews water resources projects and, as necessary, initiates water resources projects of its own.

The Commission has advised the committee that the interest limit of 6 percent severely restricts its ability to obtain funds in the present day credit market. Unless such money is available at 6 percent or less, the Commission cannot obtain the necessary funds for its projects.

The committee has been advised that the Commission expects to execute contracts with the Corps of Engineers and the user groups sometime in early 1986 following the completion of certain special studies on the project and a public hearing. The Commission has stated that congressional approval of the Compact amendments will minimize the problems related to undertaking this project.

In its report to the committee on the bill, the Department of the Army stated it has no objection to its enactment. It is recommended by the Committee on the Judiciary that the bill be considered favorably.

Mr. COBLE. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. GEKAS], the sponsor of this legislation, who is responsible for its being before us today.

Mr. GEKAS. I thank the gentleman for yielding to me.

Mr. Speaker, I am very grateful to the gentleman from Kansas for taking to heart my imploring him to consider this legislation and to finally bring it to the floor of the House.

The Susquehanna River flows majestically from New York State, through Pennsylvania, through Maryland, thus touching upon the lives of thousands of our fellow Americans in those three important States of the Union. Then it flows into the Chesapeake Bay.

These are important facts to consider when you look over the geography of the Nation and to recollect that the President of the United States, in one of his State of the Union messages, paid extra attention to the Chesapeake Bay and initiated a new program to clean up the Chesapeake Bay, which, in conjunction with what goes on northward of the Chesapeake Bay in the Susquehanna River, makes this kind of legislation all the more important.

The flood projects that might yet come on to the blueprints for the Susquehanna River are as a result of a whole host of historical factors, including the severe Agnes storm of 1972 and the one that followed in 1975, plus the historical presence, as I say, of the Susquehanna river in this particular region.

I am very pleased that the artificial limitation of 6 percent for bond issues will be lifted as a result of this legislation, allowing the Susquehanna River Basin Commission to apply its discretion with the bond market and within the financial situation that might pertain at a particular time to effectuate a long-desired or planned flood project.

The gentleman from Kansas alluded to it; this is a compact among four entities: the State of New York, the State of Pennsylvania, the State of Maryland, and the U.S. Government. So it shows that it has a regional and national importance. To artificially limit it at 6 percent means that many flood projects would have to be foregone or not even begun because of the nature of the financial market.

□ 1225

The way that interest rates are falling these days—and we hope that they continue—this may turn out to be moot, this 6 percent, but I doubt it, and especially do I doubt it in the near future.

So I repeat my gratitude to the gentleman from Kansas, to the ranking member of the subcommittee, and to the gentleman from North Carolina [Mr. COBLE] on the Republican side of the committee.

Mr. COBLE. Mr. Speaker, I have no additional requests for time, and I yield back the balance of my time.

Mr. GLICKMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas [Mr. GLICKMAN] that the House suspend the rules and pass the bill, H.R. 2971.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GLICKMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

FEDERATED WOMEN'S CLUBS CHARTER

Mr. GLICKMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4434) to amend the act entitled "An Act granting a charter to the General Federation of Women's Clubs."

The Clerk read as follows:

H.R. 4434

Be it enacted by the Senate and House of Reprcsentatives of the United States of America in Congress assembled, That the first section of the Act entitled "An Act granting a charter to the General Federation of Women's Clubs", approved March 3, 1901, is amended by (1) inserting "(a)" after "That", (2) striking the comma after "succession" and all that follows through "pleasure", (3) and adding the following new subsections at the end thereof:

"(b) The General Federation of Women's Clubs shall be organized and operated exclusively for charitable and educational purposes within the meaning of section 501(c)(3) of the Internal Revenue Code of 1954 and shall otherwise comply with any requirements for classification as an exempt organization under such section. Said charitable purposes shall be achieved through volunteer efforts on the part of the membership of the General Federation of Women's Clubs, specifically including arts programs, conservation programs, educational programs, homelife programs, international affairs, public affairs programs advancing information regarding public affairs, and community improvement programs.

"(c) In the event of the dissolution of the General Federation of Women's Clubs, its board of directors shall liquidate and distribute its assets to organizations qualified as exempt organizations under section 501(c)(3) of the Internal Revenue Code of 1954 with purposes similar to those of the General Federation of Women's Club.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Kansas [Mr. GLICKMAN] will be recognized for 20 minutes and the gentleman from North Carolina [Mr. COBLE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill would restate the purposes of the General Federation of Women's Clubs by deleting the present language stating the purpose of the organization, and adding a new subsection to the first section of the charter. The new language states that the federation is organized and operated for charitable and educational purposes within the meaning of section 501(c)(3) of the Internal Revenue Code of 1954 and that it is to comply

with the requirements of that section. A new subsection (c) provides that in the event of dissolution, all assets are to be distributed to 501(c)(3) organizations with similar purposes.

The General Federation of Women's Clubs was chartered on March 3, 1901. The purposes were that it was incorporated "for educational, industrial, philanthropic, literary, artistic and scientific culture, and to bring into communication with one another the various women's clubs throughout the world." It has performed outstanding services for hundreds of thousands of Americans.

The general federation was recognized as an example nonprofit organization in 1984 under section 501(c)(3). However, because of the broad terminology of its original statement of purposes, it was recommended by their legal counsel that the purposes of the organization be restated to make clear that its purposes were charitable and educational. This is what the bill does.

In addition, the language states these purposes are to be achieved through volunteer efforts of its membership in arts programs, conservation programs, educational programs, homelife programs, international affairs, public affairs programs, and community improvement programs.

In the event of dissolution, a new subsection (c) provides that the assets of the General Federation of Women's Clubs are to be distributed to organizations qualified as exempt organizations under 501(c)(3) with purposes similar to the general federation.

It is recommended that the bill be considered favorably.

Mr. COBLE. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. GLICKMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

GENERAL LEAVE

Mr. GLICKMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas [Mr. GLICKMAN] that the House suspend the rules and pass the bill, H.R. 4434.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

U.S. MINT AUTHORIZATION

Mr. ANNUNZIO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4529) to authorize appropriations for the U.S. Mint for fiscal years 1987 and 1988, as amended.

The Clerk read as follows:

H.R. 4529

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORIZATION OF APPROPRIATIONS.

(a) ANNUAL OPERATING COSTS.—Paragraph (2) section 5132(a) of title 31, United States Code, is amended to read as follows:

"(2) Not more than $43,521,000 may be appropriated to the Secretary for the fiscal year ending on September 30, 1987, to pay costs of the mints and assay office.".

(b) EXPANSION AND IMPROVEMENT OF MINT FACILITIES.—Not more than $694,000 may be appropriated to the Secretary of the Treasury for expansion and improvement of mint facilities. Amounts appropriated pursuant to this subsection shall remain available until expended.

SEC. 2. PROFITS FOR SALE OF NUMISMATIC ITEMS AVAILABLE ONLY FOR PUBLIC DEBT REDUCTION.

(a) IN GENERAL.—Subsection (b) of section 5111 of title 31, United States Code, is amended by striking out the last 2 sentences and inserting in lieu thereof the following new sentences: "The Secretary shall charge the coinage profit fund with waste incurred in minting coins, costs incurred in distributing coins, and costs incurred in connection with the preparation and sale of numismatic items, including the value of gold certificates (not exceeding forty-two and two-ninths dollars a fine troy ounce) retired from the use of gold contained in any numismatic item. The Secretary shall credit amounts received from the sale of numismatic items to the coinage profit fund. Excess amounts in the coinage profit fund shall be deposited by the Secretary in the general fund of the Treasury and shall be used for the sole purpose of reducing the national debt.".

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Paragraph (1) of section 5132(a) of title 31, United States Code, is amended by striking out the second sentence.

(2) Subsection (g) of section 5112 of title 31, United States Code, is amended by striking out "of section 5132(a)(1)".

(3) Paragraph (3) of section 5112(i) of title 31, United States Code, is amended by striking out "of section 5132(a)(1)".

(4) Subsection (f) of section 2 of the Gold Bullion Coin Act of 1985 is hereby repealed.

(5) Subsection (f) of section 5112 of title 31, United States Code, is amended by striking out "dyes" and inserting in lieu thereof "dies".

SEC. 3. REDESIGNATION OF ASSAY OFFICE AS MINT.

(a) REDESIGNATION.—Section 5131(a)(4) of title 31, United States Code, is amended by striking out "assay office" and inserting in lieu thereof "mint".

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 5131(b) of title 31, United States Code, is amended by striking out "assay offices" each place such term appears and inserting in lieu thereof "assay office".

(2) Section 5132(b) of such title is amended by striking out "assay offices" and inserting in lieu thereof "assay office".

(3) Section 5133(a)(1) of such title is amended by striking out "and the officer in charge of the assay office at San Francisco" and by striking out "or officer".

(4) Section 5133(a)(2) of such title is amended by striking out "and the officer" and by striking out "or officer"

(5) Section 5133(a)(3) of such title is amended by striking out "and the officer".

(6) Section 5133(b) of such title is amended to read as follows:

"(b) SETTLEMENT OF ACCOUNTS.—

"(1) IN GENERAL.—At least once each year, the Secretary of the Treasury shall settle the accounts of the superintendents of the mints and the assay office.

"(2) PROCEDURE.—At any settlement under this subsection, the superintendent shall—

"(A) return to the Secretary any coin, clipping, or other bullion in the possession of the superintendent; and

"(B) present the Secretary with a statement of bullion received and returned since the last settlement (including any bullion returned for settlement).

"(3) AUDIT.—The Secretary shall—

"(A) audit the accounts of each superintendent; and

"(B) allow each superintendent the waste of precious metals that the Secretary determines is necessary—

"(i) for refining and minting (within the limitations which the Secretary shall prescribe); and

"(ii) for casting fine gold and silver bars (within the limit prescribed for refining) except that any waste allowance under this clause may not apply to deposit operations.".

(7) Subsections (c) and (d) of section 5133 of such title are each amended by striking out "assay offices" and inserting in lieu thereof "assay office".

The SPEAKER pro tempore. Is a second demanded?

Mr. ROTH. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Illinois [Mr. ANNUNZIO] will be recognized for 20 minutes and the gentleman from Wisconsin [Mr. ROTH] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ANNUNZIO].

Mr. ANNUNZIO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, although the legislation before the House today is the U.S. Mint authorization bill, it might well be called the "double whammy." This legislation not only has a single whammy of saving taxpayers $4.2 million next year, but has a second whammy that will reduce the national debt by at least $20 million each year.

I know this sounds too good to be true, but that is exactly what the legislation will accomplish.

H.R. 4529 would authorize an appropriation of $43,521,000 for the U.S.

Mint for fiscal year 1987. This is the amount that the mint has requested in its testimony on the bill before the Consumer Affairs and Coinage Subcommittee. It is $4.2 million less than the mint had requested in testimony before the Appropriations Committee, and it is $3 million less than last year's authorization.

The legislation also authorizes the appropriation of $694,000 so that the mint may acquire materials-handling equipment to complete improvements at the Denver Mint.

The mint requested less money for next year because it has excessive coin reserves and will not have to produce as many coins in the next fiscal year.

This 1-year aurhorization is consistent with the policy the Congress has followed since 1981, when the mint's authorization was changed from a permanent, to a 1-year, authorization. This has enabled Congress to maintain effective oversight on the operations of the mint. This has been beneficial to both the Congress and the mint, and it is a policy wisely continued in H.R. 4529.

The second section of the bill, as amended, transfers the reimbursable programs of the U.S. Mint from the appropriated salaries and expenses account to the coinage profit fund. The reimbursable programs are completely self-sustaining, and have no impact on the amount of the mint's appropriation. In fact, the programs return a profit to the Treasury. Transferring the programs to the coinage profit fund, coupled with the language that requires the profits from the coinage profit fund be used only to reduce the national debt, removes any temptation to find a reason to spend the money. It assures that these revenues are used to meet the No. 1 problem facing us, namely, the Federal deficit.

Based on this year's reimbursable coin program and the projections for next year, at least $20 million per year can be used to retire the national debt. It may well be that the reduction will be even greater in years where special coin programs, such as the Statue of Liberty coin sales effort, are in operation.

The transfer is also consistent with the treatment that Congress has given to specially authorized commemorative coin programs. The accounting for those programs has been through the coinage profit fund. This amendment would account for the annual numismatic coin programs of the mint in a consistent manner.

The third section of the bill redesignates the San Francisco Assay Office as a U.S. Mint. Since a full range of coins are struck at San Francisco, the facility should have the same standing as the Denver and Philadelphia Mints.

The U.S. Mint has been a profitable and generally well-run operation. Its management has been receptive to suggestions from your Coinage Subcommittee, the Members of Congress, and the general public. The mint has not been afraid to be innovative. In its testimony, the mint freely and frankly admitted that its earlier coin predictions were too high and requested a lower authorization than it had requested earlier this year. This shows flexibility for which it is to be commended, and I urge the passage of H.R. 4529.

Mr. ROTH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 4529, the U.S. Mint authorization for 1987.

I want especially to commend the chairman of the Consumer Affairs and Coinage Subcommittee, Mr. ANNUNZIO, and the ranking member of the subcommittee, Mr. HILER, for their work in putting this package together.

The chairman, Mr. ANNUZIO, is one of the most diligent Members of this House. Where currency and coinage issues are concerned, he is truly a most effective watchdog of the Treasury.

Of the gentleman from Indiana, I would say that the American taxpayer has no greater friend than JOHN HILER. A word also to the staff which is so diligent and bright.

A word of commendation is also in order for the Director of the Mint, Donna Pope, who worked with the subcommittee to develop a responsible budget for the mint which represents the best interests of the taxpayer.

It is important to note that this legislation provides for a reduction in the fiscal 1987 mint authorization of 9 percent below the original request. Here we have a case of an agency which has realistically assessed its needs. I am also pleased that our Subcommittee on Consumer Affairs and Coinage has not needed prodding to make cuts in a program it oversees. I hope this can serve as an example for other executive branch agencies and committees of Congress.

The original request made by the mint for 1987 programs was $47.808 million for salaries and expenses. The request contained in H.R. 4529, which is precisely the same as the mint's latest request, is for $43.521 million, a reduction of about $4.3 million in budget authority and a reduction in mint personnel.

The legislation before us provides, first, for a reduction in expenditures for the coinage production program.

There has been a sharp decline in the demand for coinage. Today, coinage reserves range from more than 8 months for pennies to more than 2 years for half-dollars. Both the committee and the mint agree that coin production can be reduced with no adverse impact on supplies, at a significant savings of tax dollars.

In addition, this legislation protects the highly profitable numismatic operations of the mint from potential cuts under the Balanced Budget and Emergency Deficit Control Act. It achieves this goal by removing numismatic programs from the appropriated account and places them in the coinage profit fund. Congress exempted the coinage profit fund from automatic Gramm-Rudman cuts. This only makes sense, since numismatic operations have consistently earned profits for the Treasury. Subjecting them to Gramm-Rudman would have an effect which is just the reverse of what we intended under that act.

Profits earned under numismatic operations, expected by the mint to be $20 millon in 1987, will be used to reduce the national debt. This is one piece of legislation that is certainly going in the right direction. Let's hope it's a model to others.

Mr. Speaker, the U.S. Mint has as its primary purpose the striking of coins for domestic use. We are, I believe, making progress in ensuring that our coinage manufacturing operations are being conducted in a cost-effective manner, using the most modern facilities and equipment we can.

We have the largest mint in the world, producing upward of 15 billion coins a year. Until recently, we had a relatively small investment in modernization, but I am convinced that our record is improving.

This legislation will allow for a modest increase in research and development funding, which will allow further improvements in production operations at the mint. It also will allow for the replacement of wornout or obsolete equipment. Finally, it provides $694,000 requested by the mint for expansion and improvements at the Denver Mint.

A second, key function of the mint is the highly visible numismatic and modal program. These programs benefit the U.S. Treasury and are a source of pride for U.S. citizens who are collectors or investors.

The mint has showed its ability to market successfully a wide range of numismatic items, such as the Statue of Liberty-Ellis Island commemorative coin and the Olympic coin. A test of the mint's marketing skills will be the new gold and silver coin program. I am pleased that the mint is virtually meeting the scheduled release targets for these coins which was established in the legislation approved last year. Both the gold and silver coins should be on the market by the beginning of October.

I believe much of the credit for the success of these programs lies with the excellent leadership at the mint. But it also lies with the chairman of our Consumer Affairs and Coinage Subcommittee, the gentleman from Illinois, Mr. ANNUNZIO. He keeps every-

one vigilant and has a deep concern for how tax money is spent.

This is good legislation. I urge my colleagues to support it.

□ 1235

Mr. ANNUNZIO. Mr. Speaker, I want to commend the gentleman from Wisconsin [Mr. ROTH], one of the ablest members of the Consumer Affairs and Coinage Committee. I want to thank him for all the kind remarks that he has made on my behalf, but I also would like to point out to the Members of the House that the credit for the outstanding job being done in the Coinage and Currency Committee is a reflection on all the members who attend the meetings, who are conscientious and devoted to the cause of duty in our committee. I want to thank the gentleman from Wisconsin [Mr. ROTH] for his excellent cooperation.

Mr. ROTH. Mr. Speaker, I thank the gentleman.

Mr. HILER. Mr. Speaker, I join Chairman ANNUNZIO in his support of H.R. 4529, the U.S. Mint budget authorization for fiscal year 1987. This bill, as amended in the Consumer Affairs and Coinage Subcommittee, is good legislation and deserves the fullest support of this body.

Perhaps the most commendable feature of this measure is its authorization of $43.521 million for salaries and expenses of the U.S. Mint during fiscal year 1987. This figure is about $4 million less than the administration's original fiscal year 1987 budget request of $47.8 million for the U.S. Mint. Moreover, the fiscal year 1987 authorization that we are considering today is $3 million less than the fiscal year 1986 appropriation for the Mint.

Mr. Speaker, what is remarkable about this reduced authorization is that it was requested by the U.S. Mint itself. When Hon. Donna Pope, Director of the Mint, appeared before the Consumer Affairs and Coinage Subcommittee last week, she informed its members that as a result of a severe decline in coin demand and the accumulation of excessively large inventories of coins, the mint decided to lower its budget request for fiscal year 1987. Rarely does the head of a Federal agency come before the Congress with a budget request that has been revised downward. The Mint and the U.S. Treasury should be commended for their reasonable approach to budgeting, as well as for their contribution to efforts to reduce the Federal budget deficit.

H.R. 4529, as amended, also contains several other meritorious provisions. One of the most significant of these removes the Mint's reimbursable programs from the appropriated accounts and places them in the coinage profit fund. This measure will protect the Agency's numismatic programs from Gramm-Rudman budget cuts, since Gramm-Rudman specifically exempts the coinage profit fund from its ax.

Mr. Speaker, some might question the merits of this protective measure. However, the Mint's numismatic programs continue to be a profit center for the U.S. Government. In fiscal year 1987, the Mint expects to contribute to the U.S. Treasury a profit of $20 million from the sale of numismatic items. The subjection of these profitable programs to Gramm-Rudman budget cuts could actually have a perverse effect on budget reduction efforts. Certainly every effort should be made to avoid this counterproductive scenario.

Mr. Speaker, H.R. 4529 is commendable legislation, and I hope that my colleagues will give it their full support.

Mr. ROTH. Mr. Speaker, I have no further requests for time.

Mr. ANNUNZIO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois [Mr. ANNUNZIO] that the House suspend the rules and pass the bill, H.R. 4529, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to authorize appropriations for the United States Mint for fiscal year 1987, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ROTH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 4529, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

THE WORLD ECONOMY AND ITS EFFECT ON U.S. MILITARY SPENDING AND TRADE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio [Mr. REGULA] is recognized for 60 minutes.

Mr. REGULA. Mr. Speaker, I rise today to address the House on the world economy and its effect on U.S. military spending and trade.

"Global geopolitics is being reshaped in a way that defines security more in economic than in traditional military terms." So writes Les Brown in his 1986 "State of the World" publication. We would do well to heed his warnings on the changing world economic climate and what those changes require for America's survival as a global economic power.

For 40 years, the United States and the Soviet Union have been engaged in an arms race that is impacting heavily on both of our economies. While the United States devoted some 7 percent of its GNP to defense in 1985, the Soviet Union, trying to maintain a competitive military establishment with a much smaller economy, allocated 14 percent.

Preoccupied with each other, the superpowers have failed to recognize that national security includes economic security as well as being defined in purely military terms.

One country that has recognized this emergence is Japan. Following World War II, Japan was both sheltered under the U.S. defense umbrella and barred from the arms race by stipulations preventing Japan from amassing a huge offensive force. Thus freed from a military burden, Japan has been forging ahead industrially and rapidly capturing a key position among the world economic powers.

Per capita income in Japan surpassed that in the Soviet Union in the midsixties and will shortly surpass that of the United States. In trade, Japan's exports are nearly double those of the Soviet Union. And, if recent trends continue, before 1990, Japan will supplant the United States as the world's leading trading power.

The message is clear. Unless the United States makes changes now, we will lose our economic footing and fall to a global position from which recovery may well be impossible. Under the new definitions of strength, our arms race becomes less meaningful. In this new age, world political influence derives more from the economic strength of a highly productive, internationally competitive economy than from nuclear arsenals.

On the other hand, history and the military reality of global struggles force us to maintain a certain level of military strength and preparedness for worldwide contingencies. The difficulty is striking the balance and remaining strong militarily without losing our position as a global economic power.

In the past, I have addressed this body to stress putting pressure on our allies to assume more of the Free World defense burden. My words, though echoed throughout the administration, have done little to spark real change in allied defense spending.

I have even proposed legislation that would place tariffs on allied imports in levels designed to recover the costs we incur in protecting them. Once again, this idea has been met with indifference and even opposition from the administration.

I now submit that the changing world power struggle necessitates taking a different approach.

The doubling of the U.S. national debt, from $914 billion in 1980 to $1,841 billion in 1985, is due more to the growth in military expenditures than to any other single factor. Between 1980 and 1985, U.S. military expenditures climbed from $134 billion to $244 billion. This increase of roughly $100 billion dwarfs growth in all other major economic sectors.

While the deficit was more than doubling between 1980 and 1985, interest payments on the total debt, reflecting higher real interest rates, were climbing even more, reaching an estimated $143 billion in 1986.

The growing Federal deficit is mortgaging the U.S. economic future and, consequently, the Nation's position in the world economy. Among other things, it is leading to record-high real interest rates and an overvalued dollar that make U.S. exports more costly, in turn weakening the country's competitive position.

Industry in the United States has been doubly handicapped by these soaring military expenditures. Averaging over $200 billion per year since 1981, U.S. military expenditures have totaled $1,000 billion during the first half of the eighties, siphoning capital away from investment in industrial plant and equipment and leaving the Nation with outdated, inefficient industrial facilities in many sectors.

Even when American corporations have capital to invest, they are reluctant to commit it at home, given their inability to compete in either overseas or domestic markets. One result is declining output in basic industries, such as steel, automobiles, and machine tools. Between 1981 and 1984, a period of moderate economic expansion in the United States and worldwide, 2 million Americans lost jobs in these basic industries.

The deindustrialization of America now in progress is evident from recent U.S. labor statistics, which show that every month 20,000 to 30,000 manufacturing industry workers lose their jobs. This is an alarming figure. Translated into Japanese terms, it is equivalent to the collapse of a major corporation every month. Admittedly, there is growth in jobs in the service sector, but, meanwhile, the way things are going, some now suggest that the share of workers in secondary industry, that is, the manufacturing sector, will soon drop below 20 percent.

Secondary industry has been the mainstay of the U.S. economy. The service sector is less productive and pays wages that are only about 70 percent of those in manufacturing.

Meanwhile, the U.S. trade deficit has climbed from $36 billion in 1980 to a staggering $150 billion in 1985. The $70 billion trade deficit of 1983 has more than doubled in just 2 years. This ballooning U.S. trade deficit and the associated borrowing abroad to finance the Federal debt have cost this country its position as the world's leading international investor. Almost overnight, the United States has become a debtor nation.

Much of our trade problem lies with Japan. The combination of negligible defense expenditures and high domestic savings have enabled the Japanese to invest heavily in modernizing plants and equipment. This, in turn, enhances Japan's competitive position, enabling it to achieve a large foreign trade surplus, even though it imports virtually all its oil and most of its raw materials.

Very obviously, Japan is challenging U.S. dominance of world trade. In 1950, exports from the United States exceeded those from Japan by more than 10 to 1. Over the years, this gap slowly narrowed, until by 1970, it was little more than 2 to 1. As recently as 1980, it was still near this level, but the U.S. advantage is disappearing during the eighties. By 1985, U.S. exports were only 20 percent greater than those of Japan.

The U.S. economy is still twice as large as Japan's, and we have a vastly superior indigenous resource base of land, energy fuels, minerals, and forest products. Nonetheless, the United States is in the process of losing its role of world leadership. A country that is a net debtor, borrowing heavily from the rest of the world, will find its economic and political leadership diminished.

What, then, can we do? The key lies in reducing our debt and deficit. This is certainly not a surprising answer, as over half of the debate in this Chamber revolves around the problem of the deficit. But we need to tackle the deficit in a new way—one that addresses the allied military imbalance and our reduced position in the world trade economy.

Since our Federal deficit stems to a great extent from the increases in our military spending, it is time to examine our military commitments around the globe and determine where we can reduce expenditures.

In 1983 figures, the United States was shouldering nearly 70 percent of the Free World defense burden. Japan assumed only 3.8 percent of defending Free World interests, while non-U.S. NATO countries and France provided less than 20 percent. While some changes have occurred in allied burden-sharing in recent years, the bottom line is that we are still paying the lion's share for our allies' protection worldwide.

This made sense after World War II when the United States was the only allied country not decimated by the war effort. Japanese and European economies were in tatters, and their limited capital was necessarily spent to feed and shelter their populations and repair the many devastations of the war.

Those days are over. Japan and Europe now threaten America's economic survival through unfair trade practices and a failure to assume their share of the defense burden. Their GNP's are on par with our own and their economies are comparable. It is no longer appropriate or necessary for the United States to play the rich uncle among our allies. On the contrary, the uncle is facing hard times and it is time for the younger members of the family to grow up and assume their rightful places in the Free World's responsibilities.

We have a tremendous military commitment abroad. Our overseas forces number 520,000, with 64,850 afloat. These figures do not reflect the many military dependents who live abroad with our servicemen and women. In Europe alone, we maintain 353,100 military personnel, with 27,250 afloat in the European Theater.

The costs of these soldiers and sailors in Europe are difficult to determine, as each cost estimate necessarily takes into account different perceptions of the cost factors involved. It is estimated that the total costs of European-deployed U.S. forces is $55 billion.

Other estimates put this figure much higher. For example, the cost of U.S. forces formally committed to NATO as listed in the NATO Defense Planning Questionnaire is $133 billion. Still other estimates consider this figure too low.

The fact is that we are spending a tremendous amount of money to defend Europe. While U.S. interests certainly run high in maintaining peace and security in Europe, one has to wonder why our concern for European security seems to be far stronger than that of the Europeans themselves.

I fear that Europeans take us for granted. They are anxious to have us defend them, yet we are not to expect their public support for such defense. In fact, as the Libyan bombing incident grossly pointed out, we are not even to expect their support when we are faced with serious security threats on their own soil.

It is time to address the realities of the new age. Perhaps it is time for Europe to play a much larger role in its defense.

Japan is in the same position. We have committed 143,800 troops in the Pacific and Far East, with 33,600 afloat in the theater. Our actual costs in defending Japanese interests are similarly difficult to gauge, but they run in the billions. And the Japanese have steadfastly resisted all efforts to assume more of the Pacific defense costs, all the while vastly enjoying the protected shipping lanes that bring them oil and safely carry their cars, televisions, and steel to America and throughout the world.

In fact, we have so spoiled our allies that many are now demanding increased trade with the United States in exchange for the "privilege" of operating U.S. bases on their soil. It is obvious that they have lost all sight of the true nature of America's military presence around the world.

This was glaringly pointed out in an April 2, 1986, Washington Post article about allied countries linking trade and security concerns. Secretary of State George Shultz was meeting with Turkish Prime Minister Turgut Ozal over the renewal of an agreement of American military bases in Turkey. Ozal was quoted as saying, "If I give them bases, I want an increase in trade in return." He said that Turkish exports to the United States should jump from their 1984 level of $433 million to $3 billion.

It is reported that other countries are more subtle in linking trade and security. South Korea, for example, frequently makes quiet use of its security concerns in trade talks without officially raising them at the bargaining table. The Koreans like to underscore their vulnerability to Communist takeover by taking trade negotiators to the 38th parallel, less than an hour's drive from Seoul, where the visitors can look across the border at Communist North Korean troops.

We maintain thousands of military personnel in South Korea. These Americans are there to provide for security in the region. While South Korea does commit more to national defense than most of our other allies—5.7 percent of GNP in 1983—they could do more toward their own protection. Linking trade concessions to "allowing" U.S. bases on Korean soil is not the correct posture for a government so reliant on U.S. military support.

Apparently, security considerations provide an unstated underpinning to our trade relations with Japan, serving as a force for limiting pressure on Tokyo to open markets. Our own Defense Department, during Cabinet meetings, frequently urges restraint by U.S. trade officials on possible trade retaliation against Japan, arguing that stiff action might harm the security aspects of the relationship.

For Japan, it appears the trade relationship is more important. The United States seems to give more emphasis to national security. I think it is time to alter our priorities and force Japan and our allies into the military realities of the 1980's. They obviously need to be reminded that our overseas bases go a long way toward protecting their interests.

Another aspect of this, particularly with regard to Japan, is the disparity between the openness of our respective markets. While this is a commonly-expressed concern from a purely trade standpoint, it is important to look at this factor as it affects the military purchases of both countries.

Technology for the Strategic Defense Initiative (SDI or "star wars") is a perfect example. America's most sophisticated weapons are rapidly becoming dependent on components imported from Japan. Defense industry sources are particularly concerned about SDI, where Japanese high-technology companies now outstrip U.S. defense contractors in several key technologies vital to the development of such a system.

While U.S. companies are able to do most of the SDI systems design work, the cheapest and most reliable hardware—ranging from lasers to new materials—is produced by the Japanese. For example, the Japanese have become the world's dominant supplier of computer memory chips—a key element in many electronics-based weapons systems.

Three high-level commissions are examining the military's growing reliance on overseas electronics: A newly formed Defense Sciences Board Task Force on Semiconductor Dependency; a panel of the Pentagon's joint logistics commanders; and a National Academy of Science Electronics Components Committee.

Currently, there are no good estimates on what percentage of defense electronics components are produced overseas. However, the House Armed Services Subcommittee staff has stated that roughly 80 percent of the military's silicon chips are manufactured in Asia.

Meaningful estimates of Japanese content of U.S. defense electronics are further complicated because U.S. contractors do not always have to disclose where the components for their electronics systems were originally made.

In addition to volume supply, Japanese companies recently have begun to provide critical components for such weapons systems as missiles and electronic warfare devices, according to Pentagon and industry officials. Exacerbating that situation is the fact that, in some areas, Japanese companies have become the sole providers of high-quality, low-cost key electronics materials after winning price wars, often unfairly fought, with American companies.

After Monsanto Co. dropped out of the market 3 years ago, for example, the United States no longer has a domestic supplier of "float-zone" silicon—a special kind of silicon used in fabricating high-power electronic switching devices that would be indispensable for space-based weaponry. Japanese companies are the key U.S. defense suppliers.

Much of the reason for this is cost. Most technology experts agree that if the Pentagon is serious about obtaining the best high technologies at the most reasonable cost, most of the component production will be done offshore by Japanese high-technology concerns—unless there are specific policies designed to minimize foreign involvement.

On the other hand, Japan's Defense Agency is currently debating whether to buy foreign—likely U.S.—planes to replace their 10-year-old F-1 fighter jets or to produce them domestically. At the present time, the Japanese do not have the domestic capability to produce fighter jets, but Japanese commercial aircraft companies are pushing for the chance to design and build the planes at home.

The Japanese Defense Agency says it may commission Japanese aircraft industries for this project, expected to total more than $5.6 billion. While industry officials concede that the West is ahead in many aerospace technologies and has the edge on cost, they are confident Japan's industry has much of the necessary technology and can learn what it doesn't know.

U.S. officials disagree. They say that the Japanese lack experience and many crucial technologies needed to design a modern fighter from scratch. Additionally, Japanese-built planes would not be compatible with United States forces in the region. This is a problem that has plagued NATO for years—United States planes have frequently been stranded on West German bases without parts.

But the Japanese maintain that they wish to have independence in designing and building their own weapons and that they are willing to pay the costs for this approach.

I think it is time for us to let them help with defense costs. Frankly, it is time that Japan become a partner in providing security on the Pacific rim.

Our soaring Federal deficit is eroding trust in the country's future. Much of the deficit can be traced directly to military expenditures. We spend a great deal on defending our allies. I think it is time to reexamine these costs and see where we can save money.

In redefining security in economic terms, we can come to grips with many of the problems that are plaguing our economic society. We must preserve our basic industries, we must find ways to compete on the world markets, and we must insure America's future as a world power.

With these goals in mind, it is time to focus on some of the examples being set by countries that have addressed the problem of excess military-security commitments and expenditures.

China, for example, as recently as 1972, was spending 14 percent of its GNP for military purposes, one of the highest levels in the world at that time. Beginning in 1975, however, the Chinese began to systematically reduce its military expenditures, and, except for 1979, it has reduced them in each of the last 8 years. By 1985, military spending had fallen to 7.5 percent of China's GNP.

In Argentina, the military government that was in office in the late seventies and early eighties increased

military expenditures from the historical level of 1.5 percent of GNP to almost 4 percent. One of the first things that Raul Alfonsin did as newly elected President in late 1983 was to announce a plan to steadily lower this figure. When he took office, there was broad public support for a reduction in arms expenditures, partly because of the ill-fated Falklands war, which undermined the military's credibility throughout Argentina.

By 1984, arms outlays in Argentina had been cut to half the peak level of 1980, with a shift of resources toward social programs.

More recently, Peru's President Garcia has pledged to reduce the 5 percent of the country's GNP allotted to the military, a sum that consumed one-fourth of the Federal budget.

The overriding reason for cutting military expenditures in each of these three countries is economic. Encouragingly, the reductions in military expenditures undertaken by these three governments were independent of any negotiated military reductions in neighboring countries. China, for example, lowered its military outlays unilaterally, despite its 3,000-kilometer border with the Soviet Union, which has continued to increase its military might.

And these three countries are cited as showing considerable progress economically. They may well provide the model for the future.

I am not suggesting, however, that the military concerns of China, Argentina, and Peru parallel our own. We have made substantial commitments toward maintaining free world security that cannot and should not be ignored. I do not suggest that we abandon our allies and bring all of our troops home. Such an approach is naive and dangerous.

I am suggesting, however, that we rethink our security priorities and push for greater support from our allies. It is time to encourage their independence. It is also time for America to put a high priority on its economic future.

For the United States, maintaining a position of world leadership may now depend on holding the line on military expenditures to provide for greater investment in our domestic economy. If we had committed Japan's level of GNP defense spending to our own defense in the past 10 years, for example, we would have had $1½ trillion to invest revitalizing our industries at home. In 1985 alone, $200 billion would have been available for capital investment. This level of investment for modernizing in the private sector would have made U.S. products much more competitive in the world marketplace and preserved U.S. jobs.

It is time to take a lesson from the Japanese and take care of ourselves first. We cannot allow the current pattern to continue. We must not allow American workers to lose a game that is stacked against them. We have a responsibility to America first and I suggest that we take that responsibility seriously.

□ 1310

CONFERENCE REPORT ON H.R. 2672

Mr. FORD of Michigan submitted the following conference report and statement on the bill (H.R. 2672), to redesignate the New York International and Bulk Mail Center in Jersey City, New Jersey, as the "New Jersey International and Bulk Mail Center", and to honor the memory of a former postal employee by dedicating a portion of a street at the New York International and Bulk Mail Center in Jersey City, New Jersey, as "Michael McDermott Place":

CONFERENCE REPORT (H. REPT. 99-606)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2672), to redesignate the New York International and Bulk Mail Center in Jersey City, New Jersey, as the "New Jersey International and Bulk Mail Center", and to honor the memory of a former postal employee by dedicating a portion of a street at the New York International and Bulk Mail Center in Jersey City, New Jersey, as "Michael McDermott Place", having met, after full and free conference, have agreed to recommend and to recommend do their respective Houses as follows:

That the House recede from its disagreement to the amendments of the Senate numbered 1 and 2, and agree to the same.

That the House recede from its disagreement to the amendment of the Senate numbered 3 and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

TITLE I—FEDERAL EMPLOYEES' RETIREMENT SYSTEM

SEC. 100. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Federal Employees' Retirement System Act of 1986".

(b) TABLE OF CONTENTS.—The table of contents is as follows:

TABLE OF CONTENTS

TITLE I—FEDERAL EMPLOYEES' RETIREMENT SYSTEM

Sec. 100. Short title; table of contents.
Sec. 100A. Purposes.
Sec. 101. Establishment.

TITLE II—OTHER AMENDMENTS TO TITLE 5 OF THE UNITED STATES CODE

Sec. 201. Treatment under Civil Service Retirement System of certain individuals excluded from Federal Employees' Retirement System.
Sec. 202. Non-applicability of Civil Service Retirement System to individuals under Federal Employees' Retirement System.
Sec. 203. Pay for the Executive Director of the Federal Retirement Thrift Investment Board.
Sec. 204. Alternative forms of annuities.
Sec. 205. Retirement counseling.
Sec. 206. Participation by certain employees and Members only in the Thrift Savings Plan.
Sec. 207. Miscellaneous amendments.

TITLE III—OTHER PROVISIONS RELATING TO THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM AND THE CIVIL SERVICE RETIREMENT SYSTEM

Sec. 301. Elections.
Sec. 302. Effect of an election under section 301 to become subject to the Federal Employees' Retirement System.
Sec. 303. Provisions relating to an election to become subject to chapter 83 subject to certain offsets relating to Social Security.
Sec. 304. Amendments relating to Social Security.
Sec. 305. Extension of Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983; refund of excess contributions.
Sec. 306. Applicability to the United States Postal Service.
Sec. 307. Use of "normal-cost percentage".
Sec. 308. Retirement study.
Sec. 309. Repeal of automatic transfer provision.
Sec. 310. Disclosure of return information.
Sec. 311. Initial appointments to the Federal Retirement Thrift Investment Board.
Sec. 312. Plan for delayed contributions to the Thrift Savings Fund.

TITLE IV—FOREIGN SERVICE RETIREMENT

Sec. 401. Short title; references to Foreign Service Act of 1980.
Sec. 402. Redesignation of certain provisions of the Foreign Service Act of 1980.
Sec. 403. Definition of court.
Sec. 404. Creditable service for purposes of subchapters I and II.
Sec. 405. Contributions to the Foreign Service Retirement and Disability System.
Sec. 406. Offset of annuity by the amount of Social Security benefits.
Sec. 407. 18-month period to elect survivor annuity.
Sec. 408. Alternate forms of annuities.
Sec. 409. Treatment of certain recall service.
Sec. 410. Reemployment.
Sec. 411. Comparability between the Federal Employees' Retirement System and the Foreign Service Pension System.
Sec. 412. Moderation of remarriage penalty.
Sec. 413. Lump-sum payments.
Sec. 414. Exclusion of participants in Foreign Service Pension System from Foreign Service Retirement and Disability System.
Sec. 415. Foreign Service Pension System.
Sec. 416. Table of contents.
Sec. 417. Effective date.

TITLE V—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND RELATED MATTERS

Sec. 501. References.
Sec. 502. Contributions to the Central Intelligence Agency Retirement and Disability System.
Sec. 503. Offset of annuity by the amount of Social Security benefits.
Sec. 504. Thrift savings fund participation by participants in the Central Intelligence Agency Retirement and Disability System.
Sec. 505. Alternative forms of annuities.

Sec. 506. Participation in the Federal Employees' Retirement System.
Sec. 507. Special retirement accrual for other intelligence personnel.

TITLE VI—MISCELLANEOUS PROVISIONS

Sec. 601. Annuities for survivors of District of Columbia judges.

TITLE VII—AUTHORIZATION OF APPROPRIATIONS; EFFECTIVE DATES

Sec. 701. Authorization of appropriations for certain expenses of the Federal Retirement Thrift Investment Management System.
Sec. 702. Effective dates.

SEC. 100A. PURPOSES.

The purposes of this Act are—

(1) to establish a Federal employees' retirement plan which is coordinated with title II of the Social Security Act;

(2) to ensure a fully funded and financially sound retirement benefits plan for Federal employees;

(3) to enhance portability of retirement assets earned as an employee of the Federal Government;

(4) to provide options for Federal employees with respect to retirement planning;

(5) to assist in building a quality career work force in the Federal Government;

(6) to encourage Federal employees to increase personal savings for retirement; and

(7) to extend financial protection from disability to additional Federal employees and to increase such protection for eligible Federal employees.

SEC. 101. ESTABLISHMENT.

(a) IN GENERAL.—Title 5, United States Code, is amended by inserting after chapter 83 the following new chapter:

"CHAPTER 84—FEDERAL EMPLOYEES' RETIREMENT SYSTEM

"SUBCHAPTER I—GENERAL PROVISIONS

"Sec.
"8401. Definitions.
"8402. Federal Employees' Retirement System; exclusions.
"8403. Relationship to the Social Security Act.

"SUBCHAPTER II—BASIC ANNUITY

"8410. Eligibility for annuity.
"8411. Creditable service.
"8412. Immediate retirement.
"8413. Deferred retirement.
"8414. Early retirement.
"8415. Computation of basic annuity.
"8416. Survivor reduction for a current spouse.
"8417. Survivor reduction for a former spouse.
"8418. Survivor elections; deposit; offsets.
"8419. Survivor reductions; computation.
"8420. Insurable interest reductions.
"8420a. Alternative forms of annuities.
"8421. Annuity supplement.
"8421a. Reductions on account of earnings from work performed while entitled to an annuity supplement.
"8422. Deductions from pay; contributions for military service.
"8423. Government contributions.
"8424. Lump-sum benefits; designation of beneficiary; order of precedence.
"8425. Mandatory separation.

"SUBCHAPTER III—THRIFT SAVINGS PLAN

"8431. Definition.
"8432. Contributions.
"8433. Benefits and election of benefits.
"8434. Annuities: methods of payment; election; purchase.
"8435. Protections for spouses and former spouses.
"8436. Administrative provisions.
"8437. Thrift Savings Fund.
"8438. Investment of Thrift Savings Fund.
"8439. Accounting and information.
"8440. Tax treatment of the Thrift Savings Fund.

"SUBCHAPTER IV—SURVIVOR ANNUITIES

"8441. Definitions.
"8442. Rights of a widow or widower.
"8443. Rights of a child.
"8444. Rights of a named individual with an insurable interest.
"8445. Rights of a former spouse.

"SUBCHAPTER V—DISABILITY BENEFITS

"8451. Disability retirement.
"8452. Computation of disability annuity.
"8453. Application.
"8454. Medical examination.
"8455. Recovery; restoration of earning capacity.
"8456. Relationship to workers' compensation.
"8457. Military reserve technicians.

"SUBCHAPTER VI—GENERAL AND ADMINISTRATIVE PROVISIONS

"8461. Authority of the Office of Personnel Management.
"8462. Cost-of-living adjustments.
"8463. Rate of benefits.
"8464. Commencement and termination of annuities of employees and Members.
"8465. Waiver, allotment, and assignment of benefits.
"8466. Application for benefits.
"8467. Court orders.
"8468. Annuities and pay on reemployment.
"8469. Withholding of State income taxes.
"8470. Exemption from legal process; recovery of payments.

"SUBCHAPTER VII—FEDERAL RETIREMENT THRIFT INVESTMENT MANAGEMENT SYSTEM

"8471. Definitions.
"8472. Federal Retirement Thrift Investment Board.
"8473. Employee Thrift Advisory Council.
"8474. Executive Director.
"8475. Investment policies.
"8476. Administrative provisions.
"8477. Fiduciary responsibilities; liability and penalties.
"8478. Bonding.
"8479. Exculpatory provisions; insurance.

"SUBCHAPTER I—GENERAL PROVISIONS

"§ 8401. Definitions

"For the purpose of this chapter—

"(1) the term 'account' means an account established and maintained under section 8439(a) of this title;

"(2) the term 'annuitant' means a former employee or Member who, on the basis of that individual's service, meets all requirements for title to an annuity under subchapter II or V of this chapter and files claim therefor;

"(3) the term 'average pay' means the largest annual rate resulting from averaging an employee's or Member's rates of basic pay in effect over any 3 consecutive years of service or, in the case of an annuity under this chapter based on service of less than 3 years, over the total service, with each rate weighted by the period it was in effect;

"(4) except as provided in subchapter III of this chapter, the term 'basic pay' has the meaning given such term by section 8331(3);

"(5) the term 'Board' means the Federal Retirement Thrift Investment Board established by section 8472(a) of this title;

"(6) the term 'Civil Service Retirement and Disability Fund' or 'Fund' means the Civil Service Retirement and Disability Fund under section 8348;

"(7) the term 'court' means any court of any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Northern Mariana Islands, or the Virgin Islands, and any Indian court;

"(8) the term 'Director' means the Director of the Office of Personnel Management;

"(9) the term 'dynamic assumptions' means economic assumptions that are used in determining actuarial costs and liabilities of a retirement system and in anticipating the effects of long-term future—

"(A) investment yields;

"(B) increases in rates of basic pay; and

"(C) rates of price inflation;

"(10) the term 'earnings', when used with respect to the Thrift Savings Fund, means the amount of the gain realized or yield received from the investment of sums in such Fund;

"(11) the term 'employee' means—

"(A) an individual referred to in subparagraph (A), (E), (F), (H), (I), or (J) of section 8331(1) of this title; and

"(B) a Congressional employee as defined in section 2107 of this title, including a temporary Congressional employee and an employee of the Congressional Budget Office;

any of whose civilian service after December 31, 1983, is employment for the purposes of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1954, except that such term does not include—

"(i) any individual referred to in—

"(I) clause (i), (v), (vi), or (ix) of paragraph (1) of section 8331;

"(II) clause (ii) of such paragraph (other than an employee of the United States Park Police, or the United States Secret Service, any of whose civilian service after December 31, 1983, is such employment); or

"(III) the undesignated material after the last clause of such paragraph; or

"(ii) any individual excluded under section 8402(c) of this title;

"(12) the term 'former spouse' means a former spouse of an individual—

"(A) if such individual performed at least 18 months of civilian service creditable under section 8411 as an employee or Member; and

"(B) if the former spouse was married to such individual for at least 9 months;

"(13) the term 'Executive Director' means the Executive Director appointed under section 8474(a);

"(14) the term 'firefighter' means—

"(A) an employee, the duties of whose position—

"(i) are primarily to perform work directly connected with the control and extinguishment of fires; and

"(ii) are sufficiently rigorous that employment opportunities are required to be limited to young and physically vigorous individuals, as determined by the Director considering the recommendations of the employing agency; and

"(B) an employee who is transferred directly to a supervisory or administrative position after performing duties described in subparagraph (A) for at least 10 years;

"(15) the term 'Government' means the Federal Government and Gallaudet College;

"(16) the term 'Indian court' has the meaning given such term by section 8331(24);

"(17) the term 'law enforcement officer' means—

"(A) an employee, the duties of whose position—

"(i) are primarily—

"(I) the investigation, apprehension, or detention of individuals suspected or convicted of offenses against the criminal laws of the United States, or

"(II) the protection of officials of the United States against threats to personal safety; and

"(ii) are sufficiently rigorous that employment opportunities are required to be limited to young and physically vigorous individuals, as determined by the Director considering the recommendations of the employing agency;

"(B) an employee who is transferred directly to a supervisory or administrative position after performing duties described in subparagraph (A) for at least 10 years; and

"(C) an employee—

"(i) of the Bureau of Prisons or Federal Prison Industries, Incorporated;

"(ii) of the Public Health Service assigned to the field service of the Bureau of Prisons or of the Federal Prison Industries, Incorporated; or

"(iii) in the field service at Army or Navy disciplinary barracks or at any other confinement and rehabilitation facility operated by any of the armed forces;

whose duties in connection with individuals in detention suspected or convicted of offenses against the criminal laws of the United States or of the District of Columbia or offenses against the punitive articles of the Uniform Code of Military Justice (chapter 47 of title 10) require frequent direct contact with these individuals in their detention and are sufficiently rigorous that employment opportunities are required to be limited to young and physically vigorous individuals, as determined by the head of the employing agency;

"(18) the term 'loss', when used with respect to the Thrift Savings Fund, means the amount of the loss resulting from the investment of sums in such Fund;

"(19) the term 'lump-sum credit' means the unrefunded amount consisting of—

"(A) retirement deductions made from the basic pay of an employee or Member under section 8422(a) of this title (or under section 204 of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983);

"(B) amounts deposited by an employee or Member under section 8422(e); and

"(C) interest on the deductions and deposits which, for any calendar year, shall be equal to the overall average yield to the Fund during the preceding fiscal year from all obligations purchased by the Secretary of the Treasury during such fiscal year under section 8348(c), (d), and (e), as determined by the Secretary (compounded annually);

but does not include interest—

"(i) if the service covered thereby aggregates 1 year or less; or

"(ii) for a fractional part of a month in the total service;

"(20) the term 'Member' has the same meaning as provided in section 2106, except that such term does not include an individual who irrevocably elects, by written notice to the official by whom such individual is paid, not to participate in the Federal Employees' Retirement System;

"(21) the term 'net earnings' means the excess of earnings over losses;

"(22) the term 'net losses' means the excess of losses over earnings;

"(23) the term 'normal-cost percentage' means the entry-age normal cost of the provisions of the System which relate to the Fund, computed by the Office in accordance with generally accepted actuarial practice and standards (using dynamic assumptions) and expressed as a level percentage of aggregate basic pay;

"(24) the term 'Office' means the Office of Personnel Management;

"(25) the term 'price index' has the same meaning as provided in section 8331(15);

"(26) the term 'service' means service which is creditable under section 8411;

"(27) the term 'supplemental liability' means the estimated excess of—

"(A) the actuarial present value of all future benefits payable from the Fund under this chapter based on the service of current or former employees or Members, over

"(B) the sum of—

"(i) the actuarial present value of deductions to be withheld from the future basic pay of employees and Members currently subject to this chapter pursuant to section 8422;

"(ii) the actuarial present value of the future contributions to be made pursuant to section 8423(a) with respect to employees and Members currently subject to this chapter;

"(iii) the Fund balance as of the date the supplemental liability is determined, to the extent that such balance is attributable—

"(I) to the System, or

"(II) to contributions made under the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 by or on behalf of an individual who became subject to the System; and

"(iv) any other appropriate amount, as determined by the Office in accordance with generally accepted actuarial practices and principles;

"(28) the term 'survivor' means an individual entitled to an annuity under subchapter IV of this chapter;

"(29) the term 'System' means the Federal Employees' Retirement System described in section 8402(a);

"(30) the term 'military reserve technician' means a member of one of the reserve components of the armed forces specified in section 261(a) of title 10 who—

"(A) is assigned to a civilian position as a technician in the administration and training of such reserve components or in the maintenance and repair of supplies issued to such reserve components; and

"(B) as a condition of employment in such position, is required to be a member of one of such reserve components serving in a specified military grade; and

"(31) the term 'military service' means honorable active service—

"(A) in the armed forces;

"(B) in the commissioned corps of the Public Health Service after June 30, 1960; or

"(C) in the commissioned corps of the National Oceanic and Atmospheric Administration, or a predecessor entity in function, after June 30, 1961;

but does not include service in the National Guard except when ordered to active duty in the service of the United States.

"§ 8402. Federal Employees' Retirement System; exclusions

"(a) The provisions of this chapter comprise the Federal Employees' Retirement System.

"(b) The provisions of this chapter shall not apply with respect to—

"(1) any individual who has performed service of a type described in subparagraph (C), (D), (E), or (F) of section 210(a)(5) of the Social Security Act continuously since December 31, 1983 (determined in accordance with the provisions of section 210(a)(5)(B) of the Social Security Act, relating to continuity of employment); or

"(2)(A) any employee or Member who has separated from the service after—

"(i) having been subject to subchapter III of chapter 83 of this title, or subchapter I of chapter 8 of the Foreign Service Act of 1980; and

"(ii) having completed at least 5 years of civilian service creditable under subchapter III of chapter 83 of this title, or at least 5 years of civilian service creditable under subchapter I of the Foreign Service Act of 1980 (determined without regard to any deposit or redeposit requirement under either such subchapter, or any requirement that the individual become subject to either such subchapter after performing the service involved); or

"(B) any employee having at least 5 years of civilian service performed before January 1, 1987, creditable under subchapter III of chapter 83 of this title (determined without regard to any deposit or redeposit requirement under such subchapter, any requirement that the individual become subject to such subchapter after performing the service involved, or any requirement that the individual give notice in writing to the official by whom such individual is paid of such individual's desire to become subject to such subchapter);

except to the extent provided for under title III of the Federal Employees' Retirement System Act of 1986 pursuant to an election under such title to become subject to this chapter.

"(c)(1) The Office may exclude from the operation of this chapter an employee or group of employees in or under an Executive agency, the United States Postal Service, or the Postal Rate Commission, whose employment is temporary or intermittent, except an employee whose employment is part-time career employment (as defined in section 3401(2).

"(2) The Architect of the Capitol may exclude from the operation of this chapter an employee under the Office of the Architect of the Capitol whose employment is temporary or of uncertain duration.

"(3) The Librarian of Congress may exclude from the operation of this chapter an employee under the Library of Congress whose employment is temporary or of uncertain duration.

"(4) The Director or Acting Director of the Botanic Garden may exclude from the operation of this chapter an employee under the Botanic Garden whose employment is temporary or of uncertain duration.

"§ 8403. Relationship to the Social Security Act

"Except as otherwise provided in this chapter, the benefits payable under the System are in addition to the benefits payable under the Social Security Act.

"SUBCHAPTER II—BASIC ANNUITY

"§ 8410. Eligibility for annuity

"Notwithstanding any other provision of this chapter, an employee or Member must complete at least 5 years of civilian service creditable under section 8411 in order to be eligible for an annuity under this subchapter.

"§ 8411. Creditable service

"(a)(1) The total service of an employee or Member is the full years and twelfth parts thereof, excluding from the aggregate the fractional part of a month, if any.

"(2) Credit may not be allowed for a period of separation from the service in excess of 3 calendar days.

"(b) For the purpose of this chapter, creditable service of an employee or Member includes—

"(1) employment as an employee, and any service as a Member (including the period from the date of the beginning of the term for which elected or appointed to the date of taking office as a Member), after December 31, 1986;

"(2) service with respect to which deductions and withholdings under section 204(a)(1) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 have been made;

"(3) except as provided in subsection (f), any civilian service (performed before January 1, 1989, other than any service under paragraph (1) or (2)) which, but for the amendments made by subsections (a)(4) and (b) of section 202 of the Federal Employees' Retirement System Act of 1986, would be creditable under subchapter III of chapter 83 of this title (determined without regard to any deposit or redeposit requirement under such subchapter, any requirement that the individual become subject to such subchapter after performing the service involved, or any requirement that the individual give notice in writing to the official by whom such individual is paid of such individual's desire to become subject to such subchapter); and

"(4) a period of service (other than any service under any of the preceding provisions of this subsection and other than any military service) that was creditable under the Foreign Service Pension System described in subchapter II of chapter 8 of the Foreign Service Act of 1980, if the employee or Member waives credit for such service under the Foreign Service Pension System and makes a payment to the Fund equal to the amount that would have been deducted from pay under section 8422(a) had the employee been subject to this chapter during such period of service (together with interest on such amount computed under paragraphs (2) and (3) of section 8334(e)).

"(c)(1) Except as provided in paragraph (2) or (3), an employee or Member shall be allowed credit for—

"(A) each period of military service performed before January 1, 1957; and

"(B) each period of military service performed after December 31, 1956, and before the separation on which title to annuity is based, if a deposit (including interest, if any) is made with respect to such period in accordance with section 8422(e).

"(2) If an employee or Member is awarded retired pay based on any period of military service, the service of the employee or Member may not include credit for such period of military service unless the retired pay is awarded—

"(A) based on a service-connected disability—

"(i) incurred in combat with an enemy of the United States; or

"(ii) caused by an instrumentality of war and incurred in line of duty during a period of war as defined by section 301 of title 38; or

"(B) under chapter 67 of title 10.

"(3) An employee or Member who has made a deposit under section 8334(j) (or a similar prior provision of law) with respect to a period of military service, and who has not taken a refund of such deposit—

"(A) shall be allowed credit for such service without regard to the deposit requirement under paragraph (1)(B); and

"(B) shall be entitled, upon filing appropriate application therefor with the Office, to a refund equal to the difference between—

"(i) the amount deposited with respect to such period under such section 8334(j) (or prior provision), excluding interest; and

"(ii) the amount which would otherwise have been required with respect to such period under paragraph (1)(B).

"(d) Credit under this chapter shall be allowed for leaves of absence without pay granted an employee while performing military service, or while receiving benefits under subchapter I of chapter 81. An employee or former employee who returns to duty after a period of separation is deemed, for the purpose of this subsection, to have been on leave of absence without pay for that part of the period in which that individual was receiving benefits under subchapter I of chapter 81. Credit may not be allowed for so much of other leaves of absence without pay as exceeds 6 months in the aggregate in a calendar year.

"(e) Credit shall be allowed for periods of approved leave without pay granted an employee to serve as a full-time officer or employee of an organization composed primarily of employees (as defined by section 8331(1) or 8401(11)), subject to the employee arranging to pay, through the employee's employing agency, within 60 days after commencement of such leave without pay, amounts equal to the retirement deductions and agency contributions which would be applicable under sections 8422(a) and 8423(a), respectively, if the employee were in pay status. If the election and all payments provided by this subsection are not made, the employee may not receive credit for the periods of leave without pay, notwithstanding the third sentence of subsection (d).

"(f)(1) An employee or Member who has received a refund of retirement deductions under subchapter III of chapter 83 with respect to any service described in subsection (b)(3) may not be allowed credit for such service under this chapter unless such employee or Member deposits an amount equal to 1.3 percent of basic pay for such service, with interest.

"(2) An employee or Member may not be allowed credit under this chapter for any service described in subsection (b)(3) for which retirement deductions under subchapter III of chapter 83 have not been made, unless such employee or Member deposits an amount equal to 1.3 percent of basic pay for such service, with interest.

"(3) Interest under paragraph (1) or (2) shall be computed in accordance with paragraphs (2) and (3) of section 8334(e) and regulations prescribed by the Office.

"(4) For the purpose of survivor annuities, deposits authorized by the preceding provisions of this subsection may also be made by a survivor of an employee or Member.

"§ 8412. Immediate retirement

"(a) An employee or Member who is separated from the service after attaining the applicable minimum retirement age under subsection (h) and completing 30 years of service is entitled to an annuity.

"(b) An employee or Member who is separated from the service after becoming 60 years of age and completing 20 years of service is entitled to an annuity.

"(c) An employee or Member who is separated from the service after becoming 62 years of age and completing 5 years of service is entitled to an annuity.

"(d) An employee who is separated from the service, except by removal for cause on charges of misconduct or delinquency—

"(1) after completing 25 years of service as a law enforcement officer or firefighter, or any combination of such service totaling at least 25 years, or

"(2) after becoming 50 years of age and completing 20 years of service as a law enforcement officer or firefighter, or any combination of such service totaling at least 20 years,

is entitled to an annuity.

"(e) An employee who is separated from the service, except by removal for cause on charges of misconduct or delinquency—

"(1) after completing 25 years of service as an air traffic controller, or

"(2) after becoming 50 years of age and completing 20 years of service as an air traffic controller,

is entitled to an annuity.

"(f) A Member who is separated from the service, except by resignation or expulsion—

"(1) after completing 25 years of service, or

"(2) after becoming 50 years of age and completing 20 years of service,

is entitled to an annuity.

"(g) An employee or Member who is separated from the service after attaining the applicable minimum retirement age under subsection (h) and completing 10 years of service is entitled to an annuity. This subsection shall not apply to an employee or Member who is entitled to an annuity under any other provision of this section.

"(h)(1) The applicable minimum retirement age under this subsection is—

"(A) for an individual whose date of birth is before January 1, 1948, 55 years of age;

"(B) for an individual whose date of birth is after December 31, 1947, and before January 1, 1953, 55 years of age plus the number of months in the age increase factor determined under paragraph (2)(A);

"(C) for an individual whose date of birth is after December 31, 1952, and before January 1, 1965, 56 years of age;

"(D) for an individual whose date of birth is after December 31, 1964, and before January 1, 1970, 56 years of age plus the number of months in the age increase factor determined under paragraph (2)(B); and

"(E) for an individual whose date of birth is after December 31, 1969, 57 years of age.

"(2)(A) For an individual whose date of birth occurs during the 5-year period consisting of calendar years 1948 through 1952, the age increase factor shall be equal to two-twelfths times the number of months in the period beginning with January 1948 and ending with December of the year in which the date of birth occurs.

"(B) For an individual whose date of birth occurs during the 5-year period consisting of calendar years 1965 through 1969, the age increase factor shall be equal to two-twelfths times the number of months in the period beginning with January 1965 and ending with December of the year in which the date of birth occurs.

"§ 8413. Deferred retirement

"(a) An employee or Member who is separated from the service, or transferred to a position in which the employee or Member does not continue subject to this chapter, after completing 5 years of service is entitled to an annuity beginning at the age of 62 years.

"(b)(1) An employee or Member who is separated from the service, or transferred to a position in which the employee or Member does not continue subject to this chapter, after completing 10 years of service is entitled to an annuity beginning on the date designated by the employee or Member in a written election under this subsection. The date designated under this subsection may not precede the date on which the employee or Member attains the applicable minimum retirement age under section 8412(h) and must precede the date on which the employee or Member becomes 62 years of age.

"(2) The election of an annuity under this subsection shall not be effective unless—

"(A) it is made at such time and in such manner as the Office shall by regulation prescribe; and

"(B) the employee or Member will not otherwise be eligible to receive an annuity within 31 days after filing the election.

"(3) The election of an annuity under this subsection extinguishes the right of the employee or Member to receive any other annuity based on the service on which the annuity under this subsection is based.

"§ 8414. Early retirement

"(a)(1) A member of the Senior Executive Service who is removed from the Senior Executive Service for less than fully successful executive performance (as determined under subchapter II of chapter 43 of this title) after completing 25 years of service, or after becoming 50 years of age and completing 20 years of service, is entitled to an annuity.

"(2) A member of the Defense Intelligence Senior Executive Service or the Senior Cryptologic Executive Service who is removed from such service for less than fully successful executive performance after completing 25 years of service, or after becoming 50 years of age and completing 20 years of service, is entitled to an annuity.

"(b)(1) Except as provided in paragraphs (2) and (3), an employee who—

"(A) is separated from the service involuntarily, except by removal for cause on charges of misconduct or delinquency; or

"(B) while serving in a geographic area designated by the Director, is separated from the service voluntarily during a period in which (as determined by the Director)—

"(i) the agency in which the employee is serving is undergoing a major reorganization, a major reduction in force, or a major transfer of function; and

"(ii) a significant percentage of the total number of employees serving in such agency will be separated or subject to an immediate reduction in the rate of basic pay (without regard to subchapter VI of chapter 53 of this title or comparable provisions);

after completing 25 years of service, or after becoming 50 years of age and completing 20 years of service, is entitled to an annuity.

"(2) An employee under paragraph (1) who is separated as described in subparagraph (A) of such paragraph is not entitled to an annuity under this subsection if the employee has declined a reasonable offer of another position in the employee's agency for which the employee is qualified, and the offered position is not lower than 2 grades (or pay levels) below the employee's grade (or pay level) and is within the employee's commuting area.

"(3) Paragraph (1) shall not apply to an employee entitled to an annuity under subsection (d) or (e) of section 8412.

"(c) A military reserve technician who is separated from technician service, after becoming 50 years of age and completing 25 years of service, by reason of ceasing to satisfy the condition described in section 8401(30)(B) is entitled to an annuity.

"§ 8415. Computation of basic annuity

"(a) Except as otherwise provided in this section, the annuity of an employee retiring under this subchapter is 1 percent of that individual's average pay multiplied by such individual's total service.

"(b) The annuity of a Member, or former Member with title to a Member annuity, retiring under this subchapter is computed under subsection (a), except that if the individual has had at least 5 years of service as a Member or Congressional employee, or any combination thereof, so much of the annuity as is computed with respect to either such type of service (or a combination thereof), not exceeding a total of 20 years, shall be computed by multiplying 1 7/10 percent of the individual's average pay by the years of such service.

"(c) The annuity of a Congressional employee, or former Congressional employee, retiring under this subchapter is computed under subsection (a), except that if the individual has had at least 5 years of service as a Congressional employee or Member, or any combination thereof, so much of the annuity as is computed with respect to either such type of service (or a combination thereof), not exceeding a total of 20 years, shall be computed by multiplying 1 7/10 percent of the individual's average pay by the years of such service.

"(d) The annuity of an employee retiring under subsection (d) or (e) of section 8412 or under subsection (a) or (b) of section 8425 is—

"(1) 1 7/10 percent of that individual's average pay multiplied by so much of such individual's total service as does not exceed 20 years; plus

"(2) 1 percent of that individual's average pay multiplied by so much of such individual's total service as exceeds 20 years.

"(e)(1) In computing an annuity under this subchapter for an employee whose service includes service performed on a part-time basis—

"(A) the average pay of the employee, to the extent that it includes pay for service performed in any position on a part-time basis, shall be determined by using the annual rate of basic pay that would be payable for full-time service in the position; and

"(B) the benefit so computed shall then be multiplied by a fraction equal to the ratio which the employee's actual service, as determined by prorating the employee's total service to reflect the service that was performed on a part-time basis, bears to the total service that would be creditable for the employee if all of the service had been performed on a full-time basis.

"(2) For the purpose of this subsection, employment on a part-time basis shall not be considered to include employment on a temporary or intermittent basis.

"(f)(1) The annuity of an employee or Member retiring under section 8412(g) or 8413(b) is computed in accordance with applicable provisions of this section, except that the annuity shall be reduced by five-twelfths of 1 percent for each full month by which the commencement date of the annuity precedes the sixty-second anniversary of the birth of the employee or Member.

"(2)(A) Paragraph (1) does not apply in the case of an employee or Member retiring under section 8413(b) if the employee or Member would satisfy the age and service requirements for title to an annuity under section 8412 (a), (b), (d)(2), (e)(2), or (f)(2), determined as if the employee or Member had, as of the date of separation, attained the age specified in subparagraph (B).

"(B) A determination under subparagraph (A) shall be based on how old the employee or Member will be as of the date on which the annuity under section 8413(b) is to commence.

"(g)(1) In applying subsection (a) with respect to an employee under paragraph (2), the percentage applied under such subsection shall be 1.1 percent, rather than 1 percent.

"(2) This subsection applies in the case of an employee who—

"(A) retires entitled to an annuity under section 8412; and

"(B) at the time of the separation on which entitlement to the annuity is based, is at least 62 years of age and has completed at least 20 years of service;

but does not apply in the case of a Congressional employee, military reserve technician, law enforcement officer, firefighter, or air traffic controller.

"§ 8416. Survivor reduction for a current spouse

"(a)(1) If an employee or Member is married at the time of retiring under this chapter, the reduction described in section 8419(a) shall be made unless the employee or Member and the spouse jointly waive, by written election, any right which the spouse may have to a survivor annuity under section 8442 based on the service of such employee or Member. A waiver under this paragraph shall be filed with the Office under procedures prescribed by the Office.

"(2) Notwithstanding paragraph (1), an employee or Member who is married at the time of retiring under this chapter may waive the annuity for a surviving spouse without the spouse's consent if the employee or Member establishes to the satisfaction of the Office (in accordance with regulations prescribed by the Office)—

"(A) that the spouse's whereabouts cannot be determined; or

"(B) that, due to exceptional circumstances, requiring the employee or Member to seek the spouse's consent would otherwise be inappropriate.

"(3) Except as provided in subsection (d), a waiver made under this subsection shall be irrevocable.

"(b)(1) Upon remarriage, a retired employee or Member who was married at the time of retirement (including an employee or Member whose annuity was not reduced to provide a survivor annuity for the employee's or Member's spouse or former spouse as of the time of retirement) may irrevocably elect during such marriage, in a signed writing received by the Office within 2 years after such remarriage or, if later, within 2 years after the death or remarriage of any former spouse of such employee or Member who was entitled to a survivor annuity under section 8445 (or of the last such surviving former spouse, if there was more than one), a reduction in the employee's or Member's annuity under section 8419(a) for the purpose of providing an annuity for such employee's or Member's spouse in the event such spouse survives the employee or Member.

"(2) The election and reduction shall be effective the first day of the second month after the election is received by the Office, but not less than 9 months after the date of the remarriage.

"(3) An election to provide a survivor annuity to an individual under this subsection—

"(A) shall prospectively void any election made by the employee or Member under section 8420 with respect to such individual; or

"(B) shall, if an election was made by the employee or Member under section 8420 with respect to a different individual, prospectively void such election if appropriate written application is made by such employee or Member at the time of making the election under this subsection.

"(4) Any election under this subsection made by an employee or Member on behalf of an individual after the retirement of such employee or Member shall not be effective if—

"(A) the employee or Member was married to such individual at the time of retirement; and

"(B) the annuity rights of such individual based on the service of such employee or Member were then waived under subsection (a).

"(c)(1) An employee or Member who is unmarried at the time of retiring under this chapter and who later marries may irrevocably elect, in a signed writing received by the Office within 2 years after such employee or Member marries or, if later, within 2 years after the death or remarriage of any former spouse of such employee or Member who was entitled to a survivor annuity under section 8445 (or of the last such surviving former spouse, if there was more than one), a reduction in the current annuity of the retired employee or Member, in accordance with section 8419(a).

"(2) The election and reduction shall take effect the first day of the first month beginning 9 months after the date of marriage. Any such election to provide a survivor annuity for an individual—

"(A) shall prospectively void any election made by the employee or Member under section 8420 with respect to such individual; or

"(B) shall, if an election was made by the employee or Member under section 8420 with respect to a different individual, prospectively void such election if appropriate written application is made by such employee or Member at the time of making the election under this subsection.

"(d)(1) An employee or Member—

"(A) who is married on the date of retiring under this chapter, and

"(B) with respect to whose spouse a waiver under subsection (a) has been made,

may, during the 18-month period beginning on such date, elect to have a reduction made under section 8419 in order to provide a survivor annuity under section 8442 for such spouse.

"(2)(A) An election under this subsection shall not be effective unless the amount described in subparagraph (B) is deposited into the Fund before the expiration of the 18-month period referred to in paragraph (1).

"(B) The amount to be deposited under this subparagraph is equal to the sum of—

"(i) the difference (for the period between the date on which the annuity of the former employee or Member commences and the date on which reductions pursuant to the election under this subsection commence) between the amount paid to the former employee or Member from the Fund under this chapter and the amount which would have been paid if such election had been made at the time of retirement; and

"(ii) the costs associated with providing for the election under this subsection.

The amount to be deposited under clause (i) shall include interest, computed at the rate of 6 percent a year.

"(3) An annuity which is reduced pursuant to an election by a former employee or Member under this subsection shall be reduced by the same percentage as was in effect under section 8419 as of the date of the employee's or Member's retirement.

"(4) Rights and obligations under this chapter resulting from an election under this subsection shall be the same as the rights and obligations which would have resulted had the election been made at the time of retirement.

"(5) The Office shall inform each employee and Member who is eligible to make an election under this subsection of the right to make such election and the procedures and deadlines applicable in making any such election.

"§ 8417. Survivor reduction for a former spouse

"(a) If an employee or Member has a former spouse who is entitled to a survivor annuity as provided in section 8445, the reduction described in section 8419(a) shall be made.

"(b)(1) An employee or Member who has a former spouse may elect, under procedures prescribed by the Office, a reduction in the annuity of the employee or Member under section 8419(a) in order to provide a survivor annuity for such former spouse under section 8445.

"(2) An election under this subsection shall be made at the time of retirement or, if the marriage is dissolved after the date of retirement, within 2 years after the date on which the marriage of the former spouse to the employee or Member is so dissolved.

"(3) An election under this subsection—

"(A) shall not be effective to the extent that it—

"(i) conflicts with—

"(I) any court order or decree referred to in section 8445(a) which was issued before the date of such election; or

"(II) any agreement referred to in such section 8445(a) which was entered into before such date; or

"(ii) would cause the total of survivor annuities payable under sections 8442 and 8445, respectively, based on the service of the employee or Member to exceed the amount which would be payable to a widow or widower of such employee or Member under such section 8442 (determined without regard to any reduction to provide for an annuity under such section 8445); and

"(B) shall not be effective, in the case of an employee or Member who is then married, unless it is made with the spouse's written consent.

The Office shall by regulation provide that subparagraph (B) may be waived for either of the reasons set forth in section 8416(a)(2).

"§ 8418. Survivor elections; deposit; offsets

"(a)(1) An individual who makes an election under subsection (b) or (c) of section 8416 or section 8417(b) which is required to be made within 2 years after the date of a prescribed event shall deposit into the Fund, before the expiration of the 2-year period involved, an amount determined by the Office (as nearly as may be administratively feasible) to reflect the amount by which the annuity of such individual would have been reduced if the election had been in effect since the date of retirement (or, if later, and in the case of an election under such section 8416(b), since the date the previous reduction in the annuity of such individual was terminated under paragraph (1) or (2) of section 8419(b)), plus interest.

"(2) Interest under paragraph (1) shall be computed at the rate of 6 percent a year.

"(b) If the electing individual does not make the deposit required under subsection (a), the Office shall collect such amount by offset against such individual's annuity, up to a maximum of 25 percent of the net annuity otherwise payable, and the individual is deemed to consent to such offset.

"(c) Subsections (a) and (b) shall not apply if—

"(1) the employee or Member makes an election under section 8416(b) or (c) after having made an election under section 8420; and

"(2) the election under such section 8420 becomes void under subsection (b)(3) or (c)(2) of such section 8416.

"(d) The Office shall prescribe regulations under which the survivor of an employee or Member may make a deposit under this section.

"§ 8419. Survivor reductions; computation

"(a)(1) Except as provided in paragraph (2), the annuity of an annuitant computed under section 8415, or under section 8452 (including subsection (a)(2) of such section, if applicable), shall be reduced by 10 percent if a survivor annuity, or a combination of survivor annuities, under section 8442 or 8445 (or both) are to be provided for.

"(2)(A) If no survivor annuity under section 8442 is to be provided for, but one or more survivor annuities under section 8445 involving a total of less than the entirety of the amount referred to in subsection (b)(2) of such section are to be provided for, the annuity of the annuitant involved (as computed under section 8415, or under section 8452 (including subsection (a)(2) of such section, if applicable)), shall be reduced by an appropriate percentage determined under subparagraph (B).

"(B) The Office shall prescribe regulations under which an appropriate reduction under this paragraph, not to exceed a total of 10 percent, shall be made.

"(b)(1) Any reduction in an annuity for the purpose of providing a survivor annuity for the current spouse of a retired employee or Member shall be terminated for each full month—

"(A) after the death of the spouse; or

"(B) after the dissolution of the spouse's marriage to the employee or Member, except that an appropriate reduction shall be made thereafter if the spouse is entitled, as a former spouse, to a survivor annuity under section 8445.

"(2) Any reduction in an annuity for the purpose of providing a survivor annuity for a former spouse of a retired employee or Member shall be terminated for each full month after the former spouse remarries before reaching age 55 or dies. This reduction shall be replaced by appropriate reductions under subsection (a) if the retired employee or Member has one or more of the following:

"(A) another former spouse who is entitled to a survivor annuity under section 8445;

"(B) a current spouse to whom the employee or Member was married at the time of retirement and with respect to whom a survivor annuity was not waived under section 8416(a) (or, if waived, with respect to whom an election under section 8416(d) has been made); or

"(C) a current spouse whom the employee or Member married after retirement and with respect to whom an election has been made under subsection (b) or (c) of section 8416.

"§ 8420. Insurable interest reductions

"(a)(1) At the time of retiring under section 8412, 8413, or 8414, an employee or Member who is found to be in good health by the Office may elect to have such employee's or Member's annuity (as computed under section 8415) reduced under paragraph (2) in order to provide an annuity under section 8444 for an individual having an insurable interest in the employee or Member. Such individual shall be designated by the employee or Member in writing.

"(2) The annuity of the employee or Member making the election is reduced by 10 percent, and by 5 percent for each full 5 years the individual named is younger than the retiring employee or Member, except that the total reduction may not exceed 40 percent.

"(3) An annuity which is reduced under this subsection shall, effective the first day of the month following the death of the individual named under this subsection, be recomputed and paid as if the annuity had not been so reduced.

"(b)(1) In the case of a married employee or Member, an election under this section on behalf of the spouse may be made only if any right of such spouse to a survivor annuity based on the service of such employee or Member is waived in accordance with section 8416(a).

"(2) Paragraph (1) does not apply in the case of an employee or Member if such employee or Member has a former spouse who would become entitled to an annuity under section 8445 as a survivor of such employee or Member.

"§ 8420a. Alternative forms of annuities

"(a) The Office shall prescribe regulations under which an employee or Member may, at the time of retiring under this subchapter, elect annuity benefits under this section instead of any other benefits under this subchapter, and any benefits under subchapter IV of this chapter, based on the service of the employee or Member.

"(b) Subject to subsection (c), the Office shall by regulation provide for such alternative forms of annuities as the Office considers appropriate, except that among the alternatives offered shall be—

"(1) an alternative which provides for—

"(A) payment of the lump-sum credit (excluding interest) to the employee or Member; and

"(B) payment of an annuity to the employee or Member for life; and

"(2) in the case of an employee or Member who is married at the time of retirement, an alternative which provides for—

"(A) payment of the lump-sum credit (excluding interest) to the employee or Member; and

"(B) payment of an annuity to the employee or Member for life, with a survivor annuity payable for the life of a surviving spouse.

"(c) Each alternative provided for under subsection (b) shall, to the extent practicable, be designed such that the present value of the benefits provided under such alternative (including any lump-sum credit) is actuarially equivalent to the sum of—

"(1) the present value of the annuity which would otherwise be provided under this subchapter, as computed under section 8415; and

"(2) the present value of the annuity supplement which would otherwise be provided (if any) under section 8421.

"(d) An employee or Member who, at the time of retiring under this subchapter—

"(1) is married, shall be ineligible to make an election under this section unless a waiver is made under section 8416(a); or

"(2) has a former spouse, shall be ineligible to make an election under this section if the former spouse is entitled to benefits under section 8445 or 8467 (based on the service of the employee or Member) under the terms of a decree of divorce or annulment, or a court order or court-approved property settlement incident to any such decree, with respect to which the Office has been duly notified.

"(e) An employee or Member who is married at the time of retiring under this subchapter and who makes an election under this section may, during the 18-month period beginning on the date of retirement, make the election provided for under section 8416(d), subject to the deposit requirement thereunder.

"§ 8421. Annuity supplement

"(a)(1) Subject to paragraph (3), an individual shall, if and while entitled to an annuity under subsection (a), (b), (d), or (e) of section 8412, or under section 8414(c), also be entitled to an annuity supplement under this section.

"(2) Subject to paragraph (3), an individual shall, if and while entitled to an annuity under section 8412(f), or under subsection (a) or (b) of section 8414, also be entitled to an annuity supplement under this section if such individual is at least the applicable minimum retirement age under section 8412(h).

"(3)(A) An individual whose entitlement to an annuity under section 8412 or 8414 does not commence before age 62 is not entitled to an annuity supplement under this section.

"(B) An individual entitled to an annuity supplement under this section ceases to be so entitled after the last day of the month preceding the first month for which such individual would, on proper application, be entitled to old-age insurance benefits under title II of the Social Security Act, but not later than the last day of the month in which such individual attains age 62.

"(b)(1) The amount of the annuity supplement of an annuitant under this section for any month shall be equal to the product of—

"(A) an amount determined under paragraph (2), multiplied by

"(B) a fraction, as described in paragraph (3).

"(2) The amount under this paragraph for an annuitant is an amount equal to the old-age insurance benefit which would be payable to such annuitant under title II of the Social Security Act (without regard to sections 203, 215(a)(7), and 215(d)(5) of such Act) upon attaining age 62 and filing application therefor, determined as if the annuitant had attained such age and filed application therefor, and were a fully insured individual (as defined in section 214(a) of such Act), on January 1 of the year in which such annuitant's entitlement to any payment under this section commences, except that the reduction of such old-age insurance benefit under section 202(q) of such Act shall be the maximum applicable for an individual born in the same year as the annuitant. In computing the primary insurance amount under section 215 of such Act for purposes of this paragraph, the number of elapsed years (referred to in section 215(b)(2)(B)(iii) of such Act and used to compute the number of benefit computation years) shall not include years beginning with the year in which such annuitant's entitlement to any payment under this section commences, and—

"(A) only basic pay for service performed (if any) shall be taken into account in computing the total wages and self-employment income of the annuitant for a benefit computation year;

"(B) for a benefit computation year which commences after the date of the separation with respect to which entitlement to the annuitant's annuity under this subchapter is based and before the date as of which such annuitant is treated, under the preceding sentence, to have attained age 62, the total wages and self-employment income of such annuitant for such year shall be deemed to be zero; and

"(C) for a benefit computation year after age 21 which precedes the separation referred to in subparagraph (B), and during which the individual did not perform a full year of service, the total wages and self-employment income of such annuitant for such year shall be deemed to have been an amount equal to the product of—

"(i) the average total wages of all workers for that year, multiplied by

"(ii) a fraction—

"(I) the numerator of which is the total basic pay of the individual for service performed in the first year thereafter in which such individual performed a full year of service; and

"(II) the denominator of which is the average total wages of all workers for the year referred to in subclause (I).

"(3) The fraction under this paragraph for any annuitant is a fraction—

"(A) the numerator of which is the annuitant's total years of service (rounding a fraction to the nearest whole number, with ½ being rounded to the next higher number), not to exceed the number under subparagraph (B); and

"(B) the denominator of which is 40.

"(4) For the purpose of this subsection—

"(A) the term 'benefit computation year' has the meaning provided in section 215(b)(2)(B)(i) of the Social Security Act;

"(B) the term 'average total wages of all workers', for a year, means the average of the total wages, as defined and computed under section 215(b)(3)(A)(ii)(I) of the Social Security Act for such year; and

"(C) the term 'service' does not include military service.

"(c) An amount under this section shall, for purposes of section 8467, be treated in the same way as an amount computed under section 8415.

"§ 8421a. Reductions on account of earnings from work performed while entitled to an annuity supplement

"(a) The amount of the annuity supplement to which an individual is entitled under section 8421 for any month (determined without regard to subsection (c) of such section) shall be reduced by the amount of any excess earnings of such individual which are required to be charged to such supplement for such month, as determined under subsection (b).

"(b) The amount of an individual's excess earnings shall be charged to months as follows:

"(1)(A) There shall be charged to each month of a year under subsection (a) an amount equal to the individual's excess earnings (as determined under paragraph (2) with respect to such year), divided by the number of the individual's supplement entitlement months for such year (as determined under paragraph (3)).

"(B) Notwithstanding subparagraph (A), the amount charged to a month under subsection (a) may not exceed the amount of the annuity supplement to which the individual is entitled under section 8421 for

such month (determined without regard to subsection (c) of such section).

"(2) The excess earnings based on which reductions under subsection (a) shall be made with respect to an individual in a year—

"(A) shall be equal to 50 percent of so much of such individual's earnings for the immediately preceding year as exceeds the applicable exempt amount for such preceding year; but

"(B) may not exceed the total amount of the annuity supplement payments to which such individual was entitled for such preceding year under section 8421 (determined without regard to subsection (c) of such section, and without regard to this section).

"(3)(A) Subject to subparagraph (B), the number of an individual's supplement entitlement months for a year shall be 12.

"(B) The number determined under subparagraph (A) shall be reduced so as not to include any month after which such individual ceases to be entitled to an annuity supplement by reason of section 8421(a)(3)(B), relating to cessation of entitlement upon attaining age 62.

"(4)(A) For purposes of this section, and except as provided in subparagraph (B), the 'earnings' and the 'applicable exempt amount' of an individual shall be determined in a manner consistent with applicable provisions of section 203 of the Social Security Act.

"(B) For purposes of this section—

"(i) in determining the excess earnings of any individual, only earnings attributable to periods during which such individual was entitled to an annuity supplement under section 8421 shall be considered; and

"(ii) any earnings attributable to a period before attaining the applicable retirement age under section 8412(h) shall not be considered in determining the excess earnings of an individual who retires under section 8412(d) or (e), or section 8414(c).

"(c) If, after an individual ceases to be entitled to an annuity supplement under section 8421 by reason of subsection (a)(3)(B) of such section, any portion of the individual's excess earnings remains outstanding, an amount not to exceed 25 percent of the amount otherwise payable to such individual under this chapter for each month shall be deducted from such monthly payment until the full amount of that outstanding portion has been accounted for. To the extent practicable, reductions under this subsection shall be made by a level percentage.

"(d) The Office shall prescribe regulations under which this section shall be applied in the case of a reemployed annuitant.

"§ 8422. Deductions from pay; contributions for military service

"(a)(1) The employing agency shall deduct and withhold from basic pay of each employee and Member a percentage of basic pay determined in accordance with paragraph (2).

"(2) The applicable percentage under this subsection for any pay period shall be—

"(A) in the case of an employee (other than a law enforcement officer, firefighter, air traffic controller, or Congressional employee) a percentage equal to—

"(i) 7 percent, minus

"(ii) the percentage then in effect under section 3101(a) of the Internal Revenue Code of 1954 (relating to rate of tax for old-age, survivors, and disability insurance); and

"(B) in the case of a Member, law enforcement officer, firefighter, air traffic controller, or Congressional employee, a percentage equal to—

"(i) 7½ percent, minus

"(ii) the same percentage as would apply in the case of an employee under subparagraph (A)(ii).

"(b) Each employee or Member is deemed to consent and agree to the deductions under subsection (a). Notwithstanding any law or regulation affecting the pay of an employee or Member, payment less such deductions is a full and complete discharge and acquittance of all claims and demands for regular services during the period covered by the payment, except the right to any benefits under this subchapter, or under subchapter IV or V of this chapter, based on the service of the employee or Member.

"(c) The amounts deducted and withheld under this section shall be deposited in the Treasury of the United States to the credit of the Fund under such procedures as the Comptroller General of the United States may prescribe.

"(d) Under such regulations as the Office may prescribe, amounts deducted under subsection (a) shall be entered on individual retirement records.

"(e)(1) Each employee or Member who has performed military service before the date of the separation on which the entitlement to any annuity under this subchapter, or subchapter V of this chapter, is based may pay, in accordance with such regulations as the Office shall issue, to the agency by which the employee is employed, or, in the case of a Member or a Congressional employee, to the Secretary of the Senate or the Clerk of the House of Representatives, as appropriate, an amount equal to 3 percent of the amount of the basic pay paid under section 204 of title 37 to the employee or Member for each period of military service after December 1956. The amount of such payments shall be based on such evidence of basic pay for military service as the employee or Member may provide, or if the Office determines sufficient evidence has not been so provided to adequately determine basic pay for military service, such payment shall be based on estimates of such basic pay provided to the Office under paragraph (4).

"(2) Any deposit made under paragraph (1) more than two years after the later of—

"(A) January 1, 1987; or

"(B) the date on which the employee or Member making the deposit first becomes an employee or Member,

shall include interest on such amount computed and compounded annually beginning on the date of the expiration of the two-year period. The interest rate that is applicable in computing interest in any year under this paragraph shall be equal to the interest rate that is applicable for such year under section 8334(e).

"(3) Any payment received by an agency, the Secretary of the Senate, or the Clerk of the House of Representatives under this subsection shall be immediately remitted to the Office for deposit in the Treasury of the United States to the credit of the Fund.

"(4) The Secretary of Defense, the Secretary of Transportation, the Secretary of Commerce, or the Secretary of Health and Human Services, as appropriate, shall furnish such information to the Office as the Office may determine to be necessary for the administration of this subsection.

"§ 8423. Government contributions

"(a)(1) Each employing agency having any employees or Members subject to section 8422(a) shall contribute to the Fund an amount equal to the sum of—

"(A) the product of—

"(i) the normal-cost percentage, as determined for employees (other than employees covered by subparagraph (B)), multiplied by

"(ii) the aggregate amount of basic pay payable by the agency, for the period involved, to employees and Members (under clause (i)) who are within such agency.

"(2) In determining any normal-cost percentage to be applied under this subsection, amounts provided for under section 8422 shall be taken into account.

"(3) Contributions under this subsection shall be paid—

"(A) in the case of law enforcement officers, firefighters, air traffic controllers, military reserve technicians, and other employees, from the appropriation or fund used to pay such law enforcement officers, firefighters, air traffic controllers, military reserve technicians, or other employees, respectively;

"(B) in the case of elected officials, from an appropriation or fund available for payment of other salaries of the same office or establishment; and

"(C) in the case of employees of the legislative branch paid by the Clerk of the House of Representatives, from the contingent fund of the House.

"(4) A contribution to the Fund under this subsection shall be deposited under such procedures as the Comptroller General of the United States may prescribe.

"(b)(1) The Office shall compute—

"(A) the amount of the supplemental liability of the Fund with respect to individuals other than those to whom subparagraph (B) relates, and

"(B) the amount of the supplemental liability of the Fund with respect to current or former employees of the United States Postal Service (and the Postal Rate Commission) and their survivors;

as of the close of each fiscal year beginning after September 30, 1987.

"(2) The amount of any supplemental liability computed under paragraph (1)(A) or (1)(B) shall be amortized in 30 equal annual installments, with interest computed at the rate used in the most recent valuation of the System.

"(3) At the end of each fiscal year, the Office shall notify—

"(A) the Secretary of the Treasury of the amount of the installment computed under this subsection for such year with respect to individuals under paragraph (1)(A); and

"(B) the Postmaster General of the United States of the amount of the installment computed under this subsection for such year with respect to individuals under paragraph (1)(B).

"(4)(A) Before closing the accounts for a fiscal year, the Secretary of the Treasury shall credit to the Fund, as a Government contribution, out of any money in the Treasury of the United States not otherwise appropriated, the amount under paragraph (3)(A) for such year.

"(B) Upon receiving notification under paragraph (3)(B), the United States Postal Service shall pay the amount specified in such notification to the Fund.

"(5) For the purpose of carrying out paragraph (1) with respect to any fiscal year, the Office may—

"(A) require the Board of Actuaries of the Civil Service Retirement System to make actuarial determinations and valuations, make recommendations, and maintain records in the same manner as provided in section 8347(f); and

"(B) use the latest actuarial determinations and valuations made by such Board of Actuaries.

"(c) Under regulations prescribed by the Office, the head of an agency may request reconsideration of any amount determined to be payable with respect to such agency under subsection (a) or (b). Any such request shall be referred to the Board of Actuaries of the Civil Service Retirement System. The Board of Actuaries shall review the computations of the Office and may make any adjustment with respect to any such amount which the Board determines appropriate. A determination by the Board of Actuaries under this subsection shall be final.

"§ 8424. Lump-sum benefits; designation of beneficiary; order of precedence

"(a) Subject to subsection (b), an employee or Member who—

"(1)(A) is separated from the service for at least 31 consecutive days; or

"(B) is transferred to a position in which the individual is not subject to this chapter and remains in such a position for at least 31 consecutive days;

"(2) files an application with the Office for payment of the lump-sum credit;

"(3) is not reemployed in a position in which the individual is subject to this chapter at the time of filing the application; and

"(4) will not become eligible to receive an annuity within 31 days after filing the application;

is entitled to be paid the lump-sum credit. Except as provided in section 8420a, payment of the lump-sum credit to an employee or Member voids all annuity rights under this subchapter, and subchapters IV and V of this chapter, based on the service on which the lump-sum credit is based.

"(b)(1) Payment of the lump-sum credit under subsection (a)—

"(A) may be made only if any current spouse and any former spouse of the employee or Member are notified of the application by the employee or Member; and

"(B) in any case in which there is a former spouse, shall be subject to the terms of a court decree of divorce, annulment, or legal separation issued with respect to such former spouse if—

"(i) the decree expressly relates to any portion of the lump-sum credit involved; and

"(ii) payment of the lump-sum credit would affect any right or interest of the former spouse with respect to a survivor annuity under section 8445, or to any portion of an annuity under section 8467.

"(2)(A) Notification of a spouse or former spouse under this subsection shall be made in accordance with such requirements as the Office shall by regulation prescribe.

"(B) Under the regulations, the Office may provide that paragraph (1)(A) may be waived with respect to a spouse or former spouse if the employee or Member establishes to the satisfaction of the Office that the whereabouts of such spouse or former spouse cannot be determined.

"(3) The Office shall prescribe regulations under which this subsection shall be applied in any case in which the Office receives two or more orders or decrees referred to in paragraph (1)(B)(i).

"(c) Under regulations prescribed by the Office, an employee or Member, or a former employee or Member, may designate one or more beneficiaries under this section.

"(d) Lump-sum benefits authorized by subsections (e) through (g) shall be paid to the individual or individuals surviving the employee or Member and alive at the date title to the payment arises in the following order of precedence, and the payment bars recovery by any other individual:

"First, to the beneficiary or beneficiaries designated by the employee or Member in a signed and witnessed writing received in the Office before the death of such employee or Member. For this purpose, a designation, change, or cancellation of beneficiary in a will or other document not so executed and filed has no force or effect.

"Second, if there is no designated beneficiary, to the widow or widower of the employee or Member.

"Third, if none of the above, to the child or children of the employee or Member and descendants of deceased children by representation.

"Fourth, if none of the above, to the parents of the employee or Member or the survivor of them.

"Fifth, if none of the above, to the duly appointed executor or administrator of the estate of the employee or Member.

"Sixth, if none of the above, to such other next of kin of the employee or Member as the Office determines to be entitled under the laws of the domicile of the employee or Member at the date of death of the employee or Member.

For the purpose of this subsection, 'child' includes a natural child and an adopted child, but does not include a stepchild.

"(e) If an employee or Member, or former employee or Member, dies—

"(1) without a survivor, or

"(2) with a survivor or survivors and the right of all survivors under subchapter IV terminates before a claim for survivor annuity under such subchapter is filed,

the lump-sum credit shall be paid.

"(f) If all annuity rights under this chapter (other than under subchapter III of this chapter) based on the service of a deceased employee or Member terminate before the total annuity paid equals the lump-sum credit, the difference shall be paid.

"(g) If an annuitant dies, annuity accrued and unpaid shall be paid.

"(h) Annuity accrued and unpaid on the termination, except by death, of the annuity of an annuitant or survivor shall be paid to that individual. Annuity accrued and unpaid on the death of a survivor shall be paid in the following order of precedence, and the payment bars recovery by any other person:

"First, to the duly appointed executor or administrator of the estate of the survivor.

"Second, if there is no executor or administrator, payment may be made, after 30 days from the date of death of the survivor, to such next of kin of the survivor as the Office determines to be entitled under the laws of the domicile of the survivor at the date of death.

"§ 8425. Mandatory separation

"(a) An air traffic controller who is otherwise eligible for immediate retirement under section 8412(e) shall be separated from the service on the last day of the month in which that air traffic controller becomes 56 years of age or completes 20 years of service if then over that age. The Secretary, under such regulations as the Secretary may prescribe, may exempt a controller having exceptional skills and experience as a controller from the automatic separation provisions of this subsection until that controller becomes 61 years of age. The Secretary shall notify the controller in writing of the date of separation at least 60 days before that date. Action to separate the controller is not effective, without the consent of the controller, until the last day of the month in which the 60-day notice expires.

"(b) A law enforcement officer or firefighter who is otherwise eligible for immediate retirement under section 8412(d) shall be separated from the service on the last day of the month in which that law enforcement officer or firefighter becomes 55 years of age or completes 20 years of service if then over that age. If the head of the agency judges that the public interest so requires, that agency head may exempt such an employee from automatic separation under this subsection until that employee becomes 60 years of age. The employing office shall notify the employee in writing of the date of separation at least 60 days before that date. Action to separate the employee is not effective, without the consent of the employee, until the last day of the month in which the 60-day notice expires.

"(c) The President, by Executive order, may exempt an employee from automatic separation under this section if the President determines the public interest so requires.

"SUBCHAPTER III—THRIFT SAVINGS PLAN

"§ 8431. Definition

"Notwithstanding section 8401 of this title, for the purpose of this subchapter, the term 'basic pay', when used with respect to an employee or Member, means the basic pay of the employee or Member established pursuant to law, without regard to any provision of law (except sections 5308 and 5382(b) of this title) limiting the rate of pay actually payable in any pay period (including any provision of law restricting the use of appropriated funds).

"§ 8432. Contributions

"(a) An employee or Member may contribute to the Thrift Savings Fund in any pay period, pursuant to an election under subsection (b)(1), an amount not to exceed 10 percent of such individual's basic pay for such period. Contributions made under this subsection during any 6-month period for which an election period is provided under subsection (b)(1) shall be made each pay period during such 6-month period pursuant to a program of regular contributions provided in regulations prescribed by the Executive Director.

"(b)(1)(A) The Executive Director shall prescribe regulations under which employees and Members shall be afforded a reasonable period every 6 months to elect to make contributions under subsection (a), to modify the amount to be contributed under such subsection, or to terminate such contributions. An election to make such contributions shall remain in effect until modified or terminated.

"(B) The amount to be contributed pursuant to an election under subparagraph (A) shall be the percentage of basic pay or amount designated by the employee or Member.

"(2) Under the regulations—

"(A) an employee or Member who has not previously been eligible to make an election under this subsection shall not become so eligible until the second period (described in paragraph (1)) beginning after the date of commencing service as an employee or Member;

"(B) an employee or Member whose appointment or election to a position or office in the Federal Government follows a previous period of service during which that individual met the requirements of subpara-

graph (A) shall be eligible to make an election under this subsection notwithstanding any period of separation;

"(C) an employee or Member who elects under subparagraph (D) to terminate contributions shall not again become eligible to make an election under this subsection until the second period (described in paragraph (1)) commencing after the election to terminate; and

"(D) an election to terminate may be made under this subparagraph at any time other than during a period afforded under paragraph (1).

"(3) Notwithstanding paragraph (2)(A), an employee or Member who elects to become subject to this chapter under section 301 of the Federal Employees' Retirement System Act of 1986 may make the first election for the purpose of subsection (a) during the period prescribed for such purpose by the Executive Director. The period prescribed by the Executive Director shall commence on the date on which the employee or Member makes the election to become subject to this chapter.

"(c)(1) At the end of the pay period that includes the first date on which an employee or Member may make contributions under subsection (a) (without regard to whether the employee or Member has elected to make such contributions during such pay period), and at the end of each succeeding pay period, the employing agency shall contribute to the Thrift Savings Fund for the benefit of such employee or Member the amount equal to 1 percent of the basic pay of such employee or Member for such pay period.

"(2)(A) In addition to contributions made under paragraph (1), the employing agency of an employee or Member who contributes to the Thrift Savings Fund under subsection (a) for any pay period shall make a contribution to the Thrift Savings Fund for the benefit of such employee or Member. The employing agency's contribution shall be made at the end of such pay period.

"(B) The amount contributed under subparagraph (A) by an employing agency with respect to a contribution of an employee or Member during any pay period shall be the amount equal to the sum of—

"(i) such portion of the total amount of the employee's or Member's contribution as does not exceed 3 percent of such employee's or Member's basic pay for such period; and

"(ii) one-half of such portion of the amount of the employee's or Member's contribution as exceeds 3 percent, but does not exceed 5 percent, of such employee's or Member's basic pay for such pay period.

"(3)(A) There shall be contributed to the Thrift Savings Fund on behalf of each employee or Member described in subparagraph (B) the amount determined under subparagraph (C).

"(B) An employee or Member referred to in subparagraph (A) is an employee or Member who—

"(i) is an employee or Member on January 1, 1987;

"(ii) has creditable service described in section 8411(b)(2) of this title; and

"(iii) has not received a refund of the amount of the retirement deductions made with respect to such service under section 204 of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983.

"(C) The amount referred to in subparagraph (A) in the case of an employee or Member is equal to the sum of—

"(i) 1 percent of the total basic pay paid to such employee or Member for service described in section 8411(b)(2) of this title; and

"(ii) interest on such amount computed with respect to such service in the manner provided in paragraphs (2) and (3) of section 8334(e) of this title.

"(D) The Secretary of the Treasury shall credit to the Thrift Savings Fund, out of any sums in the Treasury not otherwise appropriated, the amounts determined by the Director to be necessary to carry out this paragraph.

"(d) Notwithstanding any other provision of this section, no contribution may be made under this section for any year to the extent that such contribution, when added to prior contributions for such year, exceeds any limitation under section 415 of the Internal Revenue Code of 1954.

"(e) The sums required to be contributed to the Thrift Savings Fund by an employing agency under subsection (c) for the benefit of an employee or Member shall be paid from the appropriation or fund available to such agency for payment of salaries of the employee's or Member's office or establishment. When an employee or Member in the legislative branch is paid by the Clerk of the House of Representatives, the Clerk may pay from the contingent fund of the House of Representatives the contribution that otherwise would be contributed from the appropriation or fund used to pay the employee or Member.

"(f) Amounts contributed by an employee or Member under subsection (a) and amounts contributed with respect to such employee or Member under subsection (c) shall be deposited in the Thrift Savings Fund to the credit of that employee's or Member's account in accordance with such procedures as the Comptroller General of the United States may, in consultation with the Executive Director, prescribe in regulations.

"(g)(1) Except as provided in paragraphs (2) and (3), all contributions made under this section shall be fully nonforfeitable when made.

"(2) Contributions made for the benefit of an employee under subsection (c)(1) and all earnings attributable to such contributions shall be forfeited if the employee separates from Government employment before completing—

"(A) 2 years of civilian service in the case of an employee who, at the time of separation, is serving in—

"(i) a position in the Senior Executive Service as a noncareer appointee (as defined in section 3132(a)(7) of this title);

"(ii) a position listed in section 5312, 5313, 5314, 5315, or 5316 of this title or a position placed in level IV or V of the Executive Schedule under section 5317 of this title; or

"(iii) a position in the Executive branch which is excepted from the competitive service by the Office by reason of the confidential and policy-determining character of the position; or

"(B) 3 years of civilian service in the case of an employee who is not serving in a position described in subparagraph (A) at the time of separation.

"(3) Contributions made for the benefit of a Member or Congressional employee under subsection (c)(1) and all earnings attributable to such contributions shall be forfeited if the Member or Congressional employee separates from Government employment before completing 2 years of civilian service.

"(h) No transfers or contributions may be made to the Thrift Savings Fund except as provided in this chapter or section 8351 of this title.

"§ 8433. Benefits and election of benefits

"(a) An employee or Member who separates from Government employment is entitled to the amount of the balance in the employee's or Member's account (except for the portion of such amount forfeited under section 8432(g) of this title, if any) as provided in this section.

"(b) Subject to section 8435 of this title, any employee or Member who separates from Government employment entitled to an immediate annuity under subchapter II of this chapter, any employee or Member who separates from Government employment entitled to benefits under subchapter I of chapter 81 of this title, and any employee or Member who is entitled to receive disability benefits under subchapter V of this chapter is entitled and may elect—

"(1) to receive an immediate annuity from the Thrift Savings Fund;

"(2) to defer the commencement of the payment of an annuity from the Thrift Savings Fund until such date as the employee or Member specifies, but not later than April 1 of the year following the year in which the employee or Member becomes 70½ years of age;

"(3) to withdraw the amount of the balance in the employee's or Member's account in the Thrift Savings Fund in one or more substantially equal payments to be made not less frequently than annually and to commence before April 1 of the year following the year in which the employee or Member becomes 70½ years of age; or

"(4) to transfer the amount of the balance in the employee's or Member's account to an eligible retirement plan as provided in subsection (e).

"(c) Subject to section 8435 of this title, any employee or Member who separates from Government employment entitled to a deferred annuity under subchapter II of this chapter is entitled and may elect—

"(1) to receive an immediate annuity from the Thrift Savings Fund;

"(2) to defer the commencement of the payment of an annuity from the Thrift Savings Fund until such date as the employee or Member specifies, but not later than April 1 of the year following the year in which the employee or Member becomes 70½ years of age;

"(3) to withdraw the amount of the balance in the employee's or Member's account in the Thrift Savings Fund in one or more substantially equal payments to be made not less frequently than annually and to commence during any period which (A) commences on or after the date on which payment of the employee's or Member's annuity under subchapter II of this chapter commences, and (B) ends not later than April 1 of the year following the year in which the employee or Member becomes 70½ years of age; or

"(4) to transfer the amount of the balance in the employee's or Member's account to an eligible retirement plan as provided in subsection (e).

"(d) Subject to section 8435 of this title, any employee or Member who separates from Government employment before becoming entitled to a deferred annuity under subchapter II of this chapter shall transfer the amount of the balance in the employee's or Member's account to an eligible retirement plan as provided in subsection (e).

"(e)(1) The Executive Director shall make each transfer elected under subsection (b)(4) or (c)(4) or required under subsection (d) directly to an eligible retirement plan or plans

(as defined in section 402(a)(5)(E) of the Internal Revenue Code of 1954) identified by the employee, Member, former employee, or former Member for whom the transfer is made.

"(2) A transfer may not be made for an employee, Member, former employee, or former Member under paragraph (1) until the Executive Director receives from that individual the information required by the Executive Director specifically to identify the eligible retirement plan or plans to which the transfer is to be made.

"(f)(1) Subject to paragraph (3)(A) and subsections (a) and (d) of section 8435 of this title, an employee or Member may change an election previously made under this subchapter.

"(2) Subject to paragraph (3)(B) and section 8435(d) of this title, a former employee or Member who has made an election pursuant to subsection (b)(2) or (c)(2) may modify the date specified in such election or in a previous modification under this paragraph.

"(3)(A) A former employee or Member may not change an election under this section on or after the date on which a payment is made in accordance with such election or, in the case of an election to receive an annuity, the date on which an annuity elected by the former employee or Member commences.

"(B) A modification of a date may not be made under paragraph (2) on or after such date and may not specify a date for the commencement of an annuity earlier than 1 month after the date on which the modification is submitted to the Executive Director.

"(g) If an employee or Member (or former employee or Member) dies without having made an election under this section or after having elected an annuity under this section but before making an election under section 8434 of this title, an amount equal to the value of that individual's account (as of death) shall, subject to any decree, order, or agreement referred to in section 8435(d)(2) of this title be paid in a manner consistent with section 8424(d) of this title.

"(h) Unless otherwise elected under this section, benefits under this subchapter shall be paid as an annuity commencing for an employee, Member, former employee, or former Member on February 1 of the year following the latest of the year in which—

"(1) the employee, Member, former employee, or former Member becomes 65 years of age;

"(2) occurs the tenth anniversary of the year in which the employee, Member, former employee, or former Member became subject to this subchapter; or

"(3) the employee, Member, former employee, or former Member separates from Government employment.

"(i)(1) At any time after December 31, 1987, and before separation, an employee or Member may apply to the Board for permission to borrow from the employee's or Member's account an amount not exceeding the value of that portion of such account which is attributable to contributions made by the employee or Member under section 8432(a) of this title.

"(2) An application under this subsection may be approved only for—

"(A) the purchase of a primary residence;

"(B) educational expenses;

"(C) medical expenses; or

"(D) financial hardship.

"(3) Loans under this subsection shall be subject to such conditions as the Board may prescribe consistent with section 408(b)(1) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1108(b)(1)). The conditions shall be included in regulations issued by the Executive Director.

"(4) A loan may not be made under this subsection to the extent that the loan would be treated as a taxable distribution under section 72(p) of the Internal Revenue Code of 1954.

"(5) A loan may not be made under this subsection unless the requirements of section 8435(f) of this title are satisfied.

"§ 8434. Annuities: methods of payment; election; purchase

"(a)(1) The Board shall prescribe methods of payment of annuities under this subchapter.

"(2) The methods of payment prescribed under paragraph (1) shall include, but not be limited to—

"(A) a method which provides for the payment of a monthly annuity only to an annuitant during the life of the annuitant;

"(B) a method which provides for the payment of a monthly annuity to an annuitant for the joint lives of the annuitant and the spouse of the annuitant and an appropriate monthly annuity to the one of them who survives the other of them for the life of the survivor;

"(C) a method described in subparagraph (A) which provides annual increases in the amount of the annuity payable;

"(D) a method described in subparagraph (B) which provides annual increases in the amount of the annuity payable; and

"(E) a method which provides for the payment of a monthly annuity—

"(i) to the annuitant for the joint lives of the annuitant and an individual who is designated by the annuitant under regulations prescribed by the Executive Director and (I) is a former spouse of the annuitant, or (II) has an insurable interest in the annuitant; and

"(ii) to the one of them who survives the other of them for the life of the survivor.

"(b) Subject to section 8435(c) of this title, under such regulations as the Executive Director shall prescribe, an employee, Member, former employee, or former Member who elects under section 8433 of this title to receive an annuity under this subchapter shall elect, on or before the date on which the annuity commences, one of the methods of payment prescribed under subsection (a).

"(c) Notwithstanding an elimination of a method of payment by the Board—

"(1) an employee, Member, former employee, or former Member who is entitled under section 8412 of this title to an immediate annuity not reduced under section 8415(f) of this title may elect the eliminated method if the elimination of such method became effective less than 5 years before the date on which the annuity commences; and

"(2) any other employee, Member, former employee, or former Member may elect such method of payment for amounts contributed by or on behalf of the employee, Member, former employee, or former Member under section 8432 of this title before such effective date and for earnings attributable to such amounts.

"(d)(1) At the time an annuity is to commence under this subchapter, the Executive Director shall expend the balance in the annuitant's account to purchase an annuity contract from any entity which, in the normal course of its business, sells and provides annuities.

"(2) The Executive Director shall assure, by contract entered into with each entity from which an annuity contract is purchased under paragraph (1), that the annuity shall be provided in accordance with the provisions of this subchapter and subchapter VII of this chapter.

"(3) An annuity contract purchased under paragraph (1) shall include such terms and conditions as the Executive Director requires for the protection of the annuitant.

"(4) The Executive Director shall require, from each entity from which an annuity contract is purchased under paragraph (1), a bond or proof of financial responsibility sufficient to protect the annuitant.

"§ 8435. Protections for spouses and former spouses

"(a)(1)(A) A married employee or Member (or former employee or Member) may make an election under subsection (b)(3), (b)(4), (c)(3), or (c)(4) of section 8433 of this title or change an election previously made under subsection (b)(1), (b)(2), (c)(1), or (c)(2) of such section only if the employee or Member (or former employee or Member) satisfies the requirements of subparagraph (B).

"(B) An employee or Member (or former employee or Member) may make an election or change referred to in subparagraph (A) if the employee or Member and the employee's or Member's spouse (or the former employee or Member and the former employee's or Member's spouse) jointly waive, by written election, any right which the spouse may have to a survivor annuity with respect to such employee or Member (or former employee or Member) under section 8434 of this title or subsection (c).

"(2) Paragraph (1) shall not apply to an election or change of election by an employee or Member (or former employee or Member) who establishes to the satisfaction of the Executive Director (at the time of the election or change and in accordance with regulations prescribed by the Executive Director)—

"(A) that the spouse's whereabouts cannot be determined; or

"(B) that, due to exceptional circumstances, requiring the spouse's waiver would otherwise be inappropriate.

"(b)(1) Except as provided in paragraph (2), a transfer may be made by an employee or Member (or former employee or Member) under section 8433(d) of this title only after the Executive Director notifies any current spouse and each former spouse of the employee or Member (or former employee or Member), if any, that the transfer is to be made.

"(2) Paragraph (1) may be waived with respect to a spouse or former spouse if the employee or Member (or former employee or Member) establishes to the satisfaction of the Executive Director that the whereabouts of such spouse or former spouse cannot be determined.

"(c)(1) Notwithstanding any election under subsection (b) of section 8434 of this title, the method described in subsection (a)(2)(B) of such section (or, if more than one form of such method is available, the form which the Board determines to be the one which provides for a surviving spouse a survivor annuity most closely approximating the annuity of a surviving spouse under section 8442 of this title) shall be deemed the applicable method under such subsection (b) in the case of an employee, Member, former employee, or former Member who is married on the date on which the employee's, Member's, former employee's, or former Member's annuity commences under this subchapter.

"(2) Paragraph (1) shall not apply—

"(A) in the case of an employee or Member retiring under section 8412, 8413, 8414, or 8451 of this title if—

"(i) a joint waiver of such method is made, in writing, by the employee or Member and the spouse; or

"(ii) the employee or Member waives such method, in writing, after establishing to the satisfaction of the Executive Director that circumstances described in subsection (a)(2)(A) or (a)(2)(B) make the requirement of a joint waiver inappropriate; or

"(B) in the case of an employee or Member not covered by subparagraph (A), if the employee or Member waives such method after—

"(i) having provided notification to the spouse of intent to waive; or

"(ii) establishing to the satisfaction of the Executive Director that the whereabouts of such spouse cannot be determined.

"(d)(1) An election, change of election, or modification of the commencement date of a deferred annuity shall not be effective under this subchapter and a transfer may not be made under section 8433(d) of this title to the extent that the election, change, modification, or transfer conflicts with any court decree, order, or agreement described in paragraph (2).

"(2) A court decree, order, or agreement referred to in paragraph (1) is, with respect to an employee or Member (or former employee or Member), a court decree of divorce, annulment, or legal separation issued in the case of such employee or Member (or former employee or Member) and any former spouse of the employee or Member (or former employee or Member) or any court order or court-approved property settlement agreement incident to such decree if—

"(A) the decree, order, or agreement expressly relates to any portion of the balance in the employee's or Member's (or former employee's or Member's) account; and

"(B) notice of the decree, order, or agreement was received by the Executive Director before—

"(i) the date on which payment is made, or

"(ii) in the case of an annuity, the date on which the annuity commences,

in accordance with the election, change, modification, or contribution referred to in paragraph (1).

"(3) The Executive Director shall prescribe regulations under which this subsection shall be applied in any case in which the Executive Director receives two or more decrees, orders, or agreements referred to in paragraph (1).

"(e)(1) Subject to paragraphs (2) through (7), a former spouse of a deceased employee or Member (or a deceased former employee or Member) who died after performing 18 or more months of service and a former spouse of a deceased former employee or Member who died entitled to an immediate or deferred annuity under subchapter II of this chapter is entitled to a survivor annuity under this subsection if and to the extent that—

"(A) an election under section 8434(a)(2)(E) of this title, or

"(B) any court decree, order, or agreement (described in subsection (d)(2), without regard to subparagraph (B) of such subsection) which relates to such deceased individual and such former spouse,

expressly provides for such survivor annuity.

"(2) Paragraph (1) shall apply only to payments made by the Executive Director after the date on which the Executive Director receives written notice of the election, decree, order, or agreement, and such additional information and documentation as the Executive Director may require.

"(3) The amount of the survivor annuity payable from the Thrift Savings Fund to a former spouse of a deceased employee, Member, former employee, or former Member under this section may not exceed the excess, if any, of—

"(A) the amount of the survivor annuity determined for a surviving spouse of the deceased employee, Member, former employee, or former Member under the method described in subsection (c)(1), over

"(B) the total amount of all other survivor annuities payable under this subchapter to other former spouses of such deceased employee, Member, former employee, or former Member based on the order of precedence provided in paragraph (4).

"(4) If more than one former spouse of a deceased employee, Member, former employee, or former Member is entitled to a survivor annuity pursuant to this subsection, the amount of each such survivor annuity shall be limited appropriately to carry out paragraph (3) in the order of precedence established for the entitlements by the chronological order of the dates on which elections are properly made pursuant to section 8434(a)(2)(E) of this title and the dates on which the court decrees, orders, or agreements applicable to the entitlement were issued, as the case may be.

"(5) Subsections (c) and (d) of section 8445 of this title shall apply to an entitlement of a former spouse to a survivor annuity under this subsection.

"(6) For the purposes of this section, a court decree, order, or agreement or an election referred to in subsection (a) of this section shall not be effective, in the case of a former spouse, to the extent that the election is inconsistent with any joint waiver previously executed with respect to such former spouse under subsection (a)(2) or (c)(2).

"(7) Any payment under this subsection to any individual bars recovery by any other individual.

"(f)(1)(A) A loan may be made to a married employee or Member under section 8433(i) of this title only if the employee's or Member's spouse consents to such loan in writing.

"(B) A consent under subparagraph (A) shall be irrevocable with respect to the loan to which the consent relates.

"(C) Subparagraph (A) shall not apply to a loan to an employee or Member who establishes to the satisfaction of the Executive Director (at the time the employee or Member applies for such loan and in accordance with regulations prescribed by the Executive Director)—

"(i) that the spouse's whereabouts cannot be determined; or

"(ii) that, due to exceptional circumstances, requiring the employee or Member to seek the spouse's consent would otherwise be inappropriate.

"(2) An application for a loan under section 8433(i) of this title shall not be approved if approval would have the result described in subsection (d)(1).

"(g) Waivers and notifications required by this section and waivers of the requirements for such waivers and notifications (as authorized by this section) may be made only in accordance with procedures prescribed by the Executive Director.

"(h) The protections provided by this section are in addition to the protections provided by section 8467 of this title.

"§ 8436. Administrative provisions

"(a) The Executive Director shall make or provide for payments and transfers in accordance with an election of an employee or Member under section 8433 or 8434(b) of this title or, if applicable, in accordance with section 8435 of this title.

"(b) Any election, change of election, or modification of a deferred annuity commencement date made under this subchapter shall be in writing and shall be filed with the Executive Director in accordance with regulations prescribed by the Executive Director.

"§ 8437. Thrift Savings Fund

"(a) There is established in the Treasury of the United States a Thrift Savings Fund.

"(b) The Thrift Savings Fund consists of the sum of all amounts contributed under section 8432 of this title and all amounts deposited under section 8479(b) of this title, increased by the total net earnings from investments of sums in the Thrift Savings Fund or reduced by the total net losses from investments of the Thrift Savings Fund, and reduced by the total amount of payments made from the Thrift Savings Fund (including payments for administrative expenses).

"(c) The sums in the Thrift Savings Fund are appropriated and shall remain available without fiscal year limitation—

"(1) to invest under section 8438 of this title;

"(2) to pay benefits or purchase annuity contracts under this subchapter;

"(3) to pay the administrative expenses of the Federal Retirement Thrift Investment Management System prescribed in subchapter VII of this chapter;

"(4) to make distributions for the purposes of section 8440(b) of this title;

"(5) to make loans to employees and Members as authorized under section 8433(i) of this title; and

"(6) to purchase insurance as provided in section 8479(b)(2) of this title.

"(d) Administrative expenses incurred to carry out this subchapter and subchapter VII of this chapter shall be paid first out of any sums in the Thrift Savings Fund forfeited under section 8432(g) of this title and then out of net earnings in such Fund attributable to sums contributed to such Fund under section 8432(c) of this title.

"(e)(1) Subject to paragraphs (2) and (3), sums in the Thrift Savings Fund credited to the account of an employee, Member, former employee, or former Member may not be used for, or diverted to, purposes other than for the exclusive benefit of the employee, Member, former employee, or former Member or his beneficiaries under this subchapter.

"(2) Except as provided in paragraph (3), sums in the Thrift Savings Fund may not be assigned or alienated and are not subject to execution, levy, attachment, garnishment, or other legal process. For the purposes of this paragraph, a loan made from such Fund to an employee or Member shall not be considered to be an assignment or alienation.

"(3) Moneys due or payable from the Thrift Savings Fund to any individual and, in the case of an individual who is an employee or Member (or former employee or Member), the balance in the account of the employee or Member (or former employee or Member) shall be subject to legal process for the enforcement of the individual's legal obligations to provide child support or make alimony payments as provided in section 459 of the Social Security Act (42 U.S.C. 659).

"(f) The sums in the Thrift Savings Fund shall not be appropriated for any purpose other than the purposes specified in this section and may not be used for any other purpose.

"(g) All sums contributed to the Thrift Savings Fund by an employee or Member or by an employing agency for the benefit of such employee or Member and all net earnings in such Fund attributable to investment of such sums are held in such Fund in trust for such employee or Member.

"§ 8438. Investment of Thrift Savings Fund

"(a) For the purposes of this section—

"(1) the term 'Common Stock Index Investment Fund' means the Common Stock Index Investment Fund established under subsection (b)(1)(C);

"(2) the term 'equity capital' means common and preferred stock, surplus, undivided profits, contingency reserves, and other capital reserves;

"(3) the term 'Fixed Income Investment Fund' means the Fixed Income Investment Fund established under subsection (b)(1)(B);

"(4) the term 'Government Securities Investment Fund' means the Government Securities Investment Fund established under subsection (b)(1)(A);

"(5) the term 'net worth' means capital, paid-in and contributed surplus, unassigned surplus, contingency reserves, group contingency reserves, and special reserves;

"(6) the term 'plan' means an employee benefit plan, as defined in section 3(3) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(3));

"(7) the term 'qualified professional asset manager' means—

"(A) a bank, as defined in section 202(a)(2) of the Investment Advisers Act of 1940 (15 U.S.C. 80b-2(a)(2)) which—

"(i) has the power to manage, acquire, or dispose of assets of a plan; and

"(ii) has, as of the last day of its latest fiscal year ending before the date of a determination for the purpose of this clause, equity capital in excess of $1,000,000;

"(B) a savings and loan association, the accounts of which are insured by the Federal Savings and Loan Insurance Corporation, which—

"(i) has applied for and been granted trust powers to manage, acquire, or dispose of assets of a plan by a State or Government authority having supervision over savings and loan associations; and

"(ii) has, as of the last day of its latest fiscal year ending before the date of a determination for the purpose of this clause, equity capital or net worth in excess of $1,000,000;

"(C) an insurance company which—

"(i) is qualified under the laws of more than one State to manage, acquire, or dispose of any assets of a plan;

"(ii) has, as of the last day of its latest fiscal year ending before the date of a determination for the purpose of this clause, net worth in excess of $1,000,000; and

"(iii) is subject to supervision and examination by a State authority having supervision over insurance companies; or

"(D) an investment adviser registered under section 203 of the Investment Advisers Act of 1940 (15 U.S.C. 80b-3) if the investment adviser has, on the last day of its latest fiscal year ending before the date of a determination for the purpose of this subparagraph, total client assets under its management and control in excess of $50,000,000, and—

"(i) the investment adviser has, on such day, shareholder's or partner's equity in excess of $750,000; or

"(ii) payment of all of the investment adviser's liabilities, including any liabilities which may arise by reason of a breach or violation of a duty described in section 8477 of this title, is unconditionally guaranteed by—

"(I) a person (as defined in section 8471(4) of this title) who directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with the investment adviser and who has, on the last day of the person's latest fiscal year ending before the date of a determination for the purpose of this clause, shareholder's or partner's equity in an amount which, when added to the amount of the shareholder's or partner's equity of the investment adviser on such day, exceeds $750,000;

"(II) a qualified professional asset manager described in subparagraph (A), (B), or (C); or

"(III) a broker or dealer registered under section 15 of the Securities Exchange Act of 1934 (15 U.S.C. 78o) that has, on the last day of the broker's or dealer's latest fiscal year ending before the date of a determination for the purpose of this clause, net worth in excess of $750,000; and

"(8) the term 'shareholder's or partner's equity', as used in paragraph (7)(D) with respect to an investment adviser or a person (as defined in section 8471(4) of this title) who is affiliated with the investment adviser in a manner described in clause (ii)(I) of such paragraph (7)(D), means the equity shown in the most recent balance sheet prepared for such investment adviser or affiliated person, in accordance with generally accepted accounting principles, within 2 years before the date on which the investment adviser's status as a qualified professional asset manager is determined for the purposes of this section.

"(b)(1) The Board shall establish—

"(A) a Government Securities Investment Fund under which sums in the Thrift Savings Fund are invested in securities of the United States Government issued as provided in subsection (f);

"(B) a Fixed Income Investment Fund under which sums in the Thrift Savings Fund are invested in—

"(i) insurance contracts;

"(ii) certificates of deposits; or

"(iii) other instruments or obligations selected by qualified professional asset managers,

which return the amount invested and pay interest, at a specified rate or rates, on that amount during a specified period of time; and

"(C) a Common Stock Index Investment Fund as provided in paragraph (2).

"(2)(A) The Board shall select an index which is a commonly recognized index comprised of common stock the aggregate market value of which is a reasonably complete representation of the United States equity markets.

"(B) The Common Stock Index Investment Fund shall be invested in a portfolio designed to replicate the performance of the index selected under subparagraph (A). The portfolio shall be designed such that, to the extent practicable, the percentage of the Common Stock Index Investment Fund that is invested in each stock is the same as the percentage determined by dividing the aggregate market value of all shares of that stock by the aggregate market value of all shares of all stocks included in such index.

"(c)(1) Subject to subsection (e), the Executive Director shall invest the sums available in the Thrift Savings Fund for investment as provided in elections made under subsection (d).

"(2) If an election has not been made with respect to any sums in the Thrift Savings Fund available for investment, the Executive Director shall invest such sums in the Government Securities Investment Fund.

"(d)(1) At least twice each year, an employee or Member (or former employee or Member) may elect the investment funds referred to in subsection (b) into which the sums in the Thrift Savings Fund credited to such individual's account and not subject to subsection (e) are to be invested or reinvested.

"(2) An election may be made under paragraph (1) only in accordance with regulations prescribed by the Executive Director and within such period as the Executive Director shall provide in such regulations.

"(e)(1)(A) During each year specified under column 1 of table I set out in subparagraph (D), the Executive Director shall invest, with respect to each employee, Member, former employee, and former Member not less than the percentage determined under subparagraph (B) of the amount described in subparagraph (C) in the Government Securities Investment Fund.

"(B) For the purposes of subparagraph (A), the minimum percentage applicable to investments during a year specified under column 1 of table I is the percentage which corresponds to such year under column 2 of table I.

"(C) The amount to be invested as provided in subparagraph (A) in any year specified under column 1 of table I is the total amount contributed to the Thrift Savings Fund by an employee, Member, former employee, or former Member under section 8432(a) of this title and available for investment during such year.

"(D) Table I is as follows:

"TABLE I

"Column 1 Year:	Column 2 Minimum percentage:
1987	100
1988	80
1989	60
1990	40
1991	20.

"(2)(A) During each year specified under column 1 of table II set out in subparagraph (D), the Executive Director shall invest, with respect to each employee, Member, former employee, and former Member not less than the percentage determined under subparagraph (B) of the amount described in subparagraph (C) in the Government Securities Investment Fund.

"(B) For the purposes of subparagraph (A), the minimum percentage applicable to investments during a year specified under column 1 of table II is the percentage which corresponds to such year under column 2 of table II.

"(C) The amount to be invested as provided in subparagraph (A) in any year specified under column 1 of table II is the total amount contributed to the Thrift Savings Fund for the benefit of an employee, Member, former employee, or former Member under section 8432(c) of this title and available for investment during such year.

"(D) Table II is as follows:

"Table II

"Column 1 Year:	Column 2 Minimum percentage:
1987–1992	100
1993	80
1994	60
1995	40
1996	20.

"(3)(A) Before 1992, the sums invested in the Government Securities Investment Fund as required by paragraph (1) and the earnings attributable to the investment of such sums may not be reinvested in any investment fund other than the Government Securities Investment Fund.

"(B) Before 1997, the sums invested in the Government Securities Investment Fund as required by paragraph (2) and the earnings attributable to the investment of such sums may not be reinvested in any investment fund other than the Government Securities Investment Fund.

"(f)(1) The Secretary of the Treasury is authorized to issue special interest-bearing obligations of the United States for purchase by the Thrift Savings Fund for the Government Securities Investment Fund.

"(2)(A) Obligations issued for the purpose of this subsection shall have maturities fixed with due regard to the needs of such Fund as determined by the Executive Director, and shall bear interest at a rate equal to the average market yield (computed by the Secretary of the Treasury on the basis of market quotations as of the end of the calendar month next preceding the date of issue of such obligations) on all marketable interest-bearing obligations of the United States then forming a part of the public debt which are not due or callable earlier than 4 years after the end of such calendar month.

"(B) Any average market yield computed under subparagraph (A) which is not a multiple of one-eighth of 1 percent, shall be rounded to the nearest multiple of one-eighth of 1 percent.

"(g) The Board, other Government agencies, the Executive Director, an employee, a Member, a former employee, and a former Member may not exercise voting rights associated with the ownership of securities by the Thrift Savings Fund.

"§ 8439. Accounting and information

"(a)(1) The Executive Director shall establish and maintain an account for each individual for whom contributions are made under section 8432(c)(1) of this title or who makes contributions to the Thrift Savings Fund under section 8351 of this title.

"(2) The balance in an individual's account at any time is the excess of—

"(A) the sum of—

"(i) all contributions made to the Thrift Savings Fund by the individual under section 8432(a) or 8351 of this title;

"(ii) all contributions made to such Fund for the benefit of the individual under section 8432(c) of this title; and

"(iii) the total amount of the allocations made to and reductions made in the account pursuant to paragraph (3), over

"(B) the amounts paid out of the Thrift Savings Fund with respect to such individual under this subchapter.

"(3) Pursuant to regulations prescribed by the Executive Director, the Executive Director shall allocate to each account an amount equal to a pro rata share of the net earnings and net losses from each investment of sums in the Thrift Savings Fund attributable to sums credited to such account, reduced by an appropriate share of the administrative expenses paid out of the net earnings under section 8437(d) of this title, as determined by the Executive Director.

"(b)(1) For the purposes of this subsection, the term 'qualified public accountant' shall have the same meaning as provided in section 103(a)(3)(D) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1023(a)(3)(D)).

"(2) The Executive Director shall annually engage, on behalf of all individuals for whom an account is maintained, an independent qualified public accountant, who shall conduct an examination of all accounts and other books and records maintained in the administration of this subchapter and subchapter VII as the public accountant considers necessary to enable the public accountant to make the determination required by paragraph (3). The examination shall be conducted in accordance with generally accepted auditing standards and shall involve such tests of the accounts, books, and records as the public accountant considers necessary.

"(3) The public accountant conducting an examination under paragraph (2) shall determine whether the accounts, books, and records referred to in such paragraph have been maintained in conformity with generally accepted accounting principles applied on a basis consistent with the manner in which such principles were applied during the examination conducted under such paragraph during the preceding year. The public accountant shall transmit to the Board and the Comptroller General of the United States a report on his examination, including his determination under this paragraph.

"(4) In making a determination under paragraph (3), a public accountant may rely on the correctness of any actuarial matter certified by an enrolled actuary if the public accountant states his reliance in the report transmitted to the Board under such paragraph.

"(c)(1) The Board shall prescribe regulations under which each individual for whom an account is maintained shall be furnished with—

"(A) a periodic statement relating to the individual's account; and

"(B) a summary description of the investment options under section 8438 of this title covering, and an evaluation of, each such option the 5-year period preceding the date as of which such evaluation is made.

"(2) Information under this subsection shall be provided at least 30 calendar days before the beginning of each election period under section 8432(b)(1)(A) of this title, and in a manner designed to facilitate informed decisionmaking with respect to elections under sections 8432 and 8438 of this title.

"(d) Each employee, Member, former employee, or former Member who elects to invest in the Common Stock Index Investment Fund or the Fixed Income Investment Fund described in paragraphs (1) and (3), respectively, of section 8438(a) of this title shall sign an acknowledgement prescribed by the Executive Director which states that the employee, Member, former employee, or former Member understands that an investment in either such Fund is made at the employee's, Member's, former employee's, or former Member's risk, that the employee, Member, former employee, or former Member is not protected by the Government against any loss on such investment, and that a return on such investment is not guaranteed by the Government.

"§ 8440. Tax treatment of the Thrift Savings Fund

"(a) For purposes of the Internal Revenue Code of 1954—

"(1) the Thrift Savings Fund shall be treated as a trust described in section 401(a) of such Code which is exempt from taxation under section 501(a) of such Code;

"(2) any contribution to, or distribution from, the Thrift Savings Fund shall be treated in the same manner as contributions to or distributions from such a trust; and

"(3) subject to the provisions of subsection (b) and any dollar limitation on the application of section 402(a)(8) of such Code, contributions to the Thrift Savings Fund shall not be treated as distributed or made available to an employee or Member nor as a contribution made to the Fund by an employee or Member merely because the employee or Member has, under the provisions of this subchapter and section 8351 of this title, an election whether the contribution will be made to the Thrift Savings Fund or received by the employee or Member in cash.

"(b)(1) Subsection (a)(3) shall not apply to the Thrift Savings Fund unless the Fund meets the antidiscrimination requirements (other than any requirement relating to coverage) applicable to arrangements described in section 401(k) of the Internal Revenue Code of 1954 and to matching contributions.

"(2)(A) This subchapter shall not be treated as failing to meet the requirements of paragraph (1) for any year if the amount of the excess matching contributions and excess employee contributions for such year (and any income attributable to such contributions) is distributed before the close of the following year. Such contributions (and income) may be distributed without regard to any other provision of law.

"(B) For purposes of subparagraph (A), the term 'excess matching contributions' means, with respect to any year, the excess of—

"(i) the aggregate amount of contributions under section 8432(c) of this title actually made on behalf of highly compensated employees (as defined for purposes of section 401(k) of the Internal Revenue Code of 1954) for such year, over

"(ii) the maximum amount of such contributions permitted under the limitations of paragraph (1) (determined by reducing contributions made on behalf of highly compensated employees in order of the matching contribution percentages beginning with the highest of such percentages).

"(C) For purposes of subparagraph (A), the amount of excess employee contributions shall be determined under the principles of subparagraph (B).

"(D) Any distribution of the excess matching contributions or excess employee contributions for any year shall be made to highly compensated employees on the basis of the respective portions of such amounts attributable to each of such employees.

"(E) No early distribution tax, if any, under the Internal Revenue Code of 1954 shall be imposed on any amount required to be distributed under subparagraph (A).

"(c) Subsection (a) shall not be construed to provide that any amount of the employee's or Member's basic pay which is contributed to the Thrift Savings Fund shall not be included in the term 'wages' for the purposes of section 209 of the Social Security Act or section 3121(a) of the Internal Revenue Code of 1954.

"SUBCHAPTER IV—SURVIVOR ANNUITIES

"§ 8441. Definitions

"For the purpose of this subchapter—

"(1) the term 'widow' means the surviving wife of an employee, Member, or annuitant, or of a former employee or Member, who—

"(A) was married to him for at least 9 months immediately before his death; or

"(B) is the mother of issue by that marriage;

"(2) the term 'widower' means the surviving husband of an employee, Member, or annuitant, or of a former employee or Member, who—

"(A) was married to her for at least 9 months immediately before her death; or

"(B) is the father of issue by that marriage;

"(3) the term 'dependent', in the case of any child, means that the employee, Member, or annuitant involved was, at the time of death of the employee, Member, or annuitant either living with or contributing to the support of such child, as determined in accordance with such regulations as the Office shall prescribe; and

"(4) the term 'child' means—

"(A) an unmarried dependent child under 18 years of age, including (i) an adopted child, (ii) a stepchild but only if the stepchild lived with the employee, Member, or annuitant in a regular parent-child relationship, (iii) a recognized natural child, and (iv) a child who lived with and for whom a petition of adoption was filed by an employee, Member, or annuitant and who is adopted by the widow or widower of the employee, Member, or annuitant after the death of such employee, Member, or annuitant;

"(B) such unmarried dependent child regardless of age who is incapable of self-support because of mental or physical disability incurred before age 18; or

"(C) such unmarried dependent child between 18 and 22 years of age who is a student regularly pursuing a full-time course of study or training in residence in a high school, trade school, technical or vocational institute, junior college, college, university, or comparable recognized educational institution.

For the purpose of this paragraph and section 8443, a child whose 22nd birthday occurs before July 1 or after August 31 of a calendar year, and while regularly pursuing such a course of study or training, is deemed to have become 22 years of age on the first day of July after that birthday. A child who is a student is deemed not to have ceased to be a student during an interim between school years if the interim is not more than 5 months and if such child shows to the satisfaction of the Office that such child has a bona fide intention of continuing to pursue a course of study or training in the same or different school during the school semester (or other period into which the school year is divided) immediately after the interim.

"§ 8442. Rights of a widow or widower

"(a)(1) Except as provided in subsection (g), if an annuitant dies and is survived by a widow or widower, the widow or widower is entitled to an annuity equal to 50 percent of an annuity computed under section 8415 with respect to the annuitant, unless—

"(A) the right to an annuity was waived under section 8416(a) (and no election was subsequently made under section 8416(d) nullifying the waiver); or

"(B) in the case of a marriage after retirement, the annuitant did not file an election under section 8416 (b) or (c), as the case may be.

"(2) A spouse acquired after retirement is entitled to an annuity under this subsection (as provided in paragraph (1)) only upon electing this annuity instead of any other survivor benefit to which such spouse may be entitled under this subchapter or section 8424 or under another retirement system for Government employees.

"(b)(1) If an employee or Member dies after completing at least 18 months of civilian service creditable under section 8411 and is survived by a widow or widower, the widow or widower is entitled to—

"(A) an amount equal to the sum of—

"(i) 50 percent of the final annual rate of basic pay (or of the average pay, if higher) of the employee or Member; and

"(ii) $15,000 as adjusted under section 8462(e)); and

"(B) if the employee or Member completed at least 10 years of service, an annuity equal to 50 percent of an annuity computed under section 8415 with respect to the employee or Member, but without regard to subsection (f) of such section.

"(2) The Office shall prescribe regulations under which the total amount payable to a widow or widower under paragraph (1)(A) may, at the election of the widow or widower, be paid—

"(A) in a lump sum; or

"(B) on a monthly basis—

"(i) over a period of 3 years beginning on the day after the employee's or Member's death; or

"(ii) over any other period established under the regulations.

Any method of payment provided for under subparagraph (B) shall be designed such that the present value of the benefits provided under such method is actuarially equivalent to the present value of a lump-sum payment under subparagraph (A).

"(3) An amount payable under paragraph (1)(A) shall not be considered to be part of an annuity for purposes of this chapter.

"(c)(1) If a former employee or Member dies after having separated from the service with title to a deferred annuity under section 8413 but before having established a valid claim for an annuity, and is survived by a widow or widower to whom married on the date of separation, the widow or widower may elect to receive—

"(A) an annuity under paragraph (2); or

"(B) the lump-sum credit, if the widow or widower is the individual who would be entitled to the lump-sum credit and if such widow or widower files application therefor with the Office.

"(2)(A)(i) Subject to clause (ii) and subparagraph (B)(ii), the annuity of the widow or widower is equal to 50 percent of an annuity computed under section 8415 for the former employee or Member.

"(ii)(I) In computing an amount under section 8415 for a former employee or Member (described in subclause (II)) in order to compute the annuity for a widow or widower under this subsection, the computation under section 8415 shall be made as if the former employee or Member had attained the applicable minimum retirement age under section 8412(h).

"(II) This clause applies with respect to a former employee or Member who dies before having attained the applicable minimum retirement age under section 8412(h).

"(B)(i) Notwithstanding the first sentence of subsection (d)(1), the annuity of the widow or widower of a former employee or Member under subparagraph (A)(ii) commences—

"(I) on the day after the date on which the former employee or Member would have attained age 62; or

"(II) if the widow or widower so designates in the election, as of the day after the death of the former employee or Member.

"(ii) The present value of the annuity of a widow or widower who chooses the earlier commencement date under clause (i)(II) shall be actuarially equivalent to the present value of an annuity computed for the widow or widower, determined as if the commencement date under clause (i)(I) were applicable.

"(3)(A) Paragraphs (1) and (2) shall apply only in the case of an employee or Member who completes at least 10 years of service.

"(B) Nothing in this subsection shall be considered to affect the provisions of this chapter relating to a lump-sum credit in the case of the widow or widower of a former employee or Member who dies after completing less than 10 years of service.

"(d)(1) The annuity of a widow or widower under this section commences on the day after the death of the individual on whose service such annuity is based. This annuity and the right thereto terminate on the last day of the month before the widow or widower—

"(A) dies; or

"(B) remarries before becoming 55 years of age.

"(2) In the case of a widow or widower whose annuity under this section is terminated because of remarriage before becoming 55 years of age, the annuity shall be restored at the same rate commencing on the day the remarriage is dissolved by death, divorce, or annulment, if—

"(A) the widow or widower elects to receive this annuity instead of any other survivor benefit to which such widow or widower may be entitled (under this subchapter or section 8424 or under another retirement system for Government employees) by reason of the remarriage; and

"(B) any lump sum paid on termination of the annuity is returned to the Fund.

"(e) The requirement in paragraphs (1)(A) and (2)(A) of section 8441 that the widow or widower of an annuitant, employee, or Member, or of a former employee or Member, have been married to such individual for at least 9 months immediately before the death of the individual in order to qualify as the widow or widower of such individual shall be deemed satisfied in any case in which the individual dies within the applicable 9-month period, if—

"(1) the death of the individual was accidental; or

"(2) the surviving spouse of the individual had been previously married to such individual and subsequently divorced, and the aggregate time married is at least 9 months.

"(f)(1) Subject to paragraph (4), a survivor who is entitled to an annuity under subsection (a) shall also be entitled to a supplementary annuity under this subsection.

"(2) A supplementary annuity under this subsection shall be equal to the lesser of—

"(A) the amount by which the survivor's assumed CSRS annuity exceeds the annuity payable to such survivor under subsection (a); or

"(B) the amount determined under paragraph (3).

"(3)(A) Except as provided in subparagraph (B), the amount under this paragraph for a survivor is the amount of widow's or widower's insurance benefits which would be payable to such survivor under title II of the Social Security Act (without regard to sections 202(e)(7), 202(f)(2), and 203 of such Act) based on the wages and self-employment income of the deceased annuitant, and determined—

"(i) as of the date on which the annuitant died; and

"(ii) as if the survivor had attained age 60 and made application for those benefits under subsection (e) or (f) of section 202 of such Act, as the case may be.

"(B) Any computation or determination under this paragraph shall be made in accordance with the applicable provisions of the Social Security Act, except that in computing any primary insurance amount under section 215 of such Act for purposes of determining an amount under this subsection, subparagraphs (A) and (C) of section 8421(b)(2) shall apply.

"(4) A supplementary annuity under this subsection—

"(A) shall be payable to a survivor only for calendar months ending before the calendar month in which such survivor first satisfies the minimum age requirement under section 202(e)(1)(B)(i) or 202(f)(1)(B)(i) of the Social Security Act, as the case may be;

"(B) shall not be payable to a survivor who would not be entitled to benefits under subsection (e) or (f) of section 202 of the Social Security Act based on the wages and self-employment income of the deceased annuitant (determined, as of the date of the annuitant's death, as if the survivor had attained age 60 and made appropriate application for benefits, but without regard to any restriction under either such subsection relating to remarriage); and

"(C) shall not be payable to a survivor for any calendar month in which such survivor is entitled (or would, on proper application, be entitled) to benefits under section 202(g) of the Social Security Act (relating to mother's and father's insurance benefits), or under section 202 (e) or (f) of such Act by reason of having become disabled, based on the wages and self-employment income of the deceased annuitant.

"(5) For the purpose of this subsection, the term 'assumed CSRS annuity', as used in the case of a survivor, means the amount of the annuity to which such survivor would be entitled under subchapter III of chapter 83 of this title based on the service of the deceased annuitant, determined—

"(A) as of the day after the date of the annuitant's death;

"(B) as if the survivor had made appropriate application therefor; and

"(C) as if the service of the deceased annuitant were creditable under such subchapter.

"(6) An amount payable under this subsection shall be adjusted under section 8462 and shall otherwise be treated under this chapter in the same way as an amount payable under subsection (a).

"(g)(1) If the widow or widower of an annuitant under section 8452 (hereinafter in this subsection referred to as a 'disability annuitant') is determined under subsection (a) to be entitled to an annuity based on the service of such disability annuitant, the annuity of the widow or widower shall be equal to 50 percent of the amount determined under paragraph (2), rather than of the amount referred to in subsection (a).

"(2)(A) Except as provided in subparagraph (B), the amount on which the annuity of the widow or widower of a disability annuitant is based shall be the amount of the annuity to which such disability annuitant was entitled, as computed under section 8452 (including appropriate reduction under subsection (a)(2) of such section and any adjustments under section 8462 allowed under section 8452)), as of the day before the date of the disability annuitant's death.

"(B)(i) In the case of a widow or widower entitled to an annuity based on the service of a disability annuitant who dies before age 62, the amount under clause (ii) shall apply instead of the amount which would otherwise apply under subparagraph (A).

"(ii)(I) Subject to subclause (II), the amount of the annuity to which the disability annuitant was entitled as of the day before the date of death shall be considered to be the amount which would be computed with respect to such disability annuitant under section 8452(b) if the disability annuitant had attained age 62 on the day before date of death.

"(II) For purposes of any such computation under section 8452(b)(2) pursuant to this clause, creditable service shall (in addition to the service which would otherwise be used under subparagraph (B)(i) of such section) include the period of time between date of death and the date of the sixty-second anniversary of the birth of the annuitant, and average pay shall be adjusted in accordance with subparagraph (B)(ii) of such section only through date of death.

"(h) The following rules shall apply notwithstanding any other provision of this section:

"(1) The annuity payable under this section to a widow or widower may not exceed the difference between—

"(A) the amount of the annuity which would otherwise be payable to such widow or widower under this section; and

"(B) the amount of the annuity payable to any former spouse of the deceased employee, Member, or annuitant, or former employee or Member, based on an election made under section 8417(b) or a court order previously issued or agreement previously entered into as described in section 8445(a).

"(2) The amount payable under subsection (b)(1)(A) to a widow or widower may not exceed the difference between—

"(A) the amount which would otherwise be payable to such widow or widower under such subsection; and

"(B) the portion of such amount payable to any former spouse of the deceased employee, Member, or annuitant, or former employee or Member, based on a court order previously issued or agreement previously entered into.

"(3) A lump-sum credit under subsection (c)(2) shall be subject to the same terms and conditions as apply with respect to a lump-sum credit under section 8424(b).

"§ 8443. Rights of a child

"(a)(1) If an employee or Member dies after completing at least 18 months of civilian service which is creditable under section 8411, or an annuitant dies, each surviving child is, for any month, entitled to an annuity equal to—

"(A) the amount by which the applicable amount under paragraph (2) for such month exceeds the applicable amount under paragraph (3) for such month, divided by

"(B) the number of children entitled to a payment under this section for such month.

"(2) The applicable amount under this paragraph for any month is the total amount to which the surviving child or children (as the case may be) of the annuitant, employee, or Member would be entitled for such month under subchapter III of chapter 83 based on the service of such annuitant, employee, or Member, if the service of such annuitant, employee, or Member were creditable under such subchapter.

"(3) The applicable amount under this paragraph for any month is the total amount of child's insurance benefits which are payable (or would, on proper application, be payable) under title II of the Social Security Act for such month based on the wages and self-employment income of such annuitant, employee, or Member.

"(b) The annuity of a child under this subchapter—

"(1) commences on the day after the annuitant, employee, or Member dies;

"(2) commences or resumes on the first day of the month in which the child later becomes or again becomes a student as described by section 8441(4), if any lump sum paid is returned to the Fund; or

"(3) commences or resumes on the first day of the month in which the child later becomes or again becomes incapable of self-support because of a mental or physical disability incurred before age 18 (or a later recurrence of such disability), if any lump sum paid is returned to the Fund.

This annuity and the right thereto terminate on the last day of the month before the child—

"(A) becomes 18 years of age unless then a student as described or incapable of self-support;

"(B) becomes capable of self-support after becoming 18 years of age unless then such a student;

"(C) becomes 22 years of age if then such a student and capable of self-support;

"(D) ceases to be such a student after becoming 18 years of age unless then incapable of self-support; or

"(E) dies or marries;

whichever occurs first. On the death of the surviving wife or husband, or former wife or husband, or termination of the annuity of a child, the annuity of any other child or children shall be recomputed and paid as though the wife or husband, former wife or husband, or child had not survived the annuitant, employee, or Member.

"§ 8444. Rights of a named individual with an insurable interest

"The annuity of a survivor named under section 8420(a) is 55 percent of the reduced annuity of the retired employee or Member determined under paragraph (2) of such section 8420(a). The annuity of the survivor commences on the day after the retired employee or Member dies. This annuity and the right thereto terminate on the last day of the month before the survivor dies.

"§ 8445. Rights of a former spouse

"(a) Subject to subsections (b) through (e), a former spouse of a deceased employee, Member, or annuitant (or of a former employee or Member who dies after having separated from the service with title to a deferred annuity under section 8413 but before having established a valid claim for annuity) is entitled to an annuity under this section, if and to the extent expressly provided for in an election under section 8417(b), or in the terms of any decree of divorce or annulment or any court order or court-approved property settlement agreement incident to such decree.

"(b)(1) The annuity payable to a former spouse under this section may not exceed the difference between—

"(A) the amount applicable in the case of such former spouse, as determined under paragraph (2); and

"(B) the amount of any annuity payable under this section to any other former spouse of the employee, Member, or annuitant, or former employee or Member, based on an election previously made under section 8417(b), or a court order previously issued or agreement previously entered into as described in subsection (a).

"(2) The applicable amount, for purposes of paragraph (1)(A) in the case of a former spouse, is the amount of the annuity which would be payable under the provisions of section 8442 (including subsection (f) of such section, but without regard to subsection (h) of such section) if such former spouse were a widow or widower entitled to an annuity under such provisions based on the service of the deceased employee, Member, or annuitant, or former employee or Member.

"(c) The commencement and termination of an annuity payable under this section shall be governed by the terms of the applicable order, decree, agreement, or election, as the case may be, except that any such annuity—

"(1) shall not commence before—

"(A) the day after the employee, Member, or annuitant, or former employee or Member, dies; or

"(B) the first day of the second month beginning after the date on which the Office receives written notice of the order, decree, agreement, or election, as the case may be, together with such additional information or documentation as the Office may prescribe;

whichever is later; and

"(2) shall terminate no later than the last day of the month before the former spouse remarries before becoming 55 years of age or dies.

"(d) For purposes of this chapter, a modification in a decree, order, agreement, or election referred to in subsection (a) shall not be effective—

"(1) if such modification is made after the retirement or death of the employee, Member, or annuitant, or former employee or Member, concerned; and

"(2) to the extent that such modification involves an annuity under this section.

"(e) For purposes of this chapter, a decree, order, agreement, or election referred to in subsection (a) shall not be effective, in the case of a former spouse, to the extent that it is inconsistent with any joint waiver previously executed with respect to such former spouse under section 8416(a).

"(f)(1) Any amount under section 8442(b)(1)(A) which would otherwise be payable to a widow or widower based on the service of another individual shall be paid (in whole or in part) by the Office to a former spouse of such individual if and to the extent expressly provided for in the terms of a court decree of divorce, annulment, or legal separation, or the terms of a court order or court-approved property settlement incident to any decree of divorce, annulment, or legal separation.

"(2) Paragraph (1) shall apply only to payments made by the Office after the date of receipt in the Office of written notice of such decree, order, or agreement, and such additional information and documentation as the Office may prescribe.

"(g) Any payment under this section to a person bars recovery by any other person.

"SUBCHAPTER V—DISABILITY BENEFITS

"§ 8451. Disability retirement

"(a)(1)(A) An employee who completes at least 18 months of civilian service creditable under section 8411 and has become disabled shall be retired on the employee's own application or on application by the employee's agency.

"(B) For purposes of this subsection, an employee shall be considered disabled only if the employee is found by the Office to be unable, because of disease or injury, to render useful and efficient service in the employee's position.

"(2)(A) Notwithstanding paragraph (1), an employee shall not be eligible for disability retirement under this section if the employee has declined a reasonable offer of reassignment to a vacant position in the employee's agency for which the employee is qualified if the position—

"(i) is at the same grade (or pay level) as the employee's most recent grade (or pay level) or higher;

"(ii) is within the employee's commuting area; and

"(iii) is one in which the employee would be able to render useful and efficient service.

"(B) An employee who is applying for disability retirement under this subchapter shall be considered for reassignment by the employee's agency to a vacant position described in subparagraph (A) in accordance with such procedures as the Office shall by regulation prescribe.

"(C) An employee is entitled to appeal to the Merit Systems Protection Board under section 7701 any determination that the employee is not unable, because of disease or injury, to render useful and efficient service in a position to which the employee has declined reassignment under this section.

"(D) For purposes of subparagraph (A), an employee of the United States Postal Service shall not be considered qualified for a position if such position is in a different craft or if reassignment to such position would be inconsistent with the terms of a collective-bargaining agreement covering the employee.

"(b) A Member who completes at least 18 months of service as a Member and is found by the Office to be disabled for useful and efficient service as a Member because of disease or injury shall be retired on the Member's own application.

"(c) An employee or Member retiring under this section is entitled to an annuity computed under section 8452.

"§ 8452. Computation of disability annuity

"(a)(1)(A) Except as provided in paragraph (2), or subsection (b), (c), or (d), the annuity of an annuitant under this subchapter—

"(i) for the period beginning on the date on which such annuity commences, or is restored (as described in section 8455(b)(2) or (3)), and ending at the end of the twelfth month beginning on or after such date, shall be equal to 60 percent of the annuitant's average pay; and

"(ii) after the end of the period referred to in clause (i), shall be equal to 40 percent of the annuitant's average pay.

"(B) An annuity computed under this paragraph shall not, for purposes of any adjustment under section 8462 (including any adjustment under subsection (c)(1) of such section), be considered to have commenced until after such annuity ceases to be determined under subparagraph (A)(i).

"(2)(A) For any month in which an annuitant is entitled both to an annuity under this subchapter as computed under paragraph (1) and to a disability insurance benefit under section 223 of the Social Security Act, the annuitant's annuity for such month (as so computed) shall—

"(i) if such month occurs during a period referred to in paragraph (1)(A)(i), be reduced by 100 percent of the annuitant's assumed disability insurance benefit for such month; or

"(ii) if such month occurs other than during a period referred to in paragraph (1)(A)(i), be reduced by 60 percent of the annuitant's assumed disability insurance benefit for such month;

except that an annuity may not be reduced below zero by reason of this paragraph.

"(B)(i) For purposes of this paragraph, the assumed disability insurance benefit of an annuitant for any month shall be equal to—

"(I) the amount of the disability insurance benefit to which the annuitant would have been entitled under section 223 of the Social Security Act for the month in which the annuity under this subchapter commenced, or was restored, determined as if such annuitant had then satisfied all requirements for entitlement to a benefit under such section, adjusted by

"(II) all adjustments made under section 8462(b) between the date on which the annuity commenced, or was restored, and the start of the month involved (without regard to whether the annuitant's annuity was affected by any of those adjustments).

For purposes of computing the assumed disability insurance benefit, the month in which the annuitant's disability began (as determined under section 216(i)(2)(C) of the Social Security Act) shall be the month in which the annuity commenced or, if earlier (and if a determination was actually made) the month determined under such section.

"(ii) For purposes of applying section 224 of the Social Security Act to the assumed disability insurance benefit used to compute the reduction under this paragraph, the amount of the annuity under this subchapter which is considered shall be the amount of the annuity as determined before the application of this paragraph.

"(b)(1) Except as provided in subsection (d), if an annuitant is entitled to an annuity under this subchapter as of the day before the date of the sixty-second anniversary of the annuitant's birth (hereinafter in this section referred to as the annuitant's 'redetermination date'), such annuity shall be redetermined under paragraph (3) or (4), as applicable. Effective as of the annuitant's redetermination date, the annuity (as so redetermined) shall be in lieu of any annuity to which such annuitant would otherwise be entitled under this subchapter.

"(2)(A) In order to carry out paragraphs (3) and (4), the Office shall compute an annuity for the annuitant under section 8415.

"(B) In performing a computation under this paragraph—

"(i) creditable service of the annuitant shall be increased by including the period (or periods), if any, before the annuitant's redetermination date during which the annuitant was entitled to an annuity under this subchapter; and

"(ii) the average pay which would otherwise be used shall be adjusted to reflect all adjustments made under section 8462(b) with respect to any period (or periods) referred to in clause (i) (without regard to whether the annuitant's annuity was affected by any of those adjustments).

"(3) If, as of the day before the annuitant's redetermination date, the annuitant's annuity is subject to reduction under subsection (a)(2), the annuitant's redetermined annuity shall be the lesser of—

"(A) the amount determined with respect to such annuitant under paragraph (2); or

"(B) subject to the following sentence, the amount (converted so as to be expressed as an annual amount) which would otherwise be payable under this subchapter for the month in which occurs the day before the annuitant's redetermination date, as com-

puted under subsection (a) (based on the assumption that the annuitant was entitled to an annuity under this subchapter, and to a disability insurance benefit under section 223 of the Social Security Act, for the entirety of such month).

If the annuitant's redetermination date occurs during the period described in subsection (a)(1)(A), the amount used under subparagraph (B) may not exceed the amount (converted so as to be expressed as an annual amount) which would otherwise be payable under this subchapter for the first month after such period, as computed under subsection (a) based on the assumption that the annuitant was entitled to an annuity under this subchapter, and to a disability insurance benefit under section 223 of the Social Security Act, for the entirety of such month.

"(4) If, as of the day before the annuitant's redetermination date, the annuitant's annuity is not subject to reduction under subsection (a)(2), the annuitant's redetermined annuity shall be the lesser of—

"(A) the amount determined with respect to such annuitant under paragraph (2); or

"(B) the amount which would be used for such annuitant under subparagraph (B) of paragraph (3) (as determined subject to the second sentence of such paragraph), if such paragraph applied to such annuitant.

"(c) Except as provided in subsection (d), the annuity of an annuitant under this subchapter shall be computed under section 8415 if—

"(1) such annuity commences, or is restored, beginning on or after the redetermination date of the annuitant; or

"(2) as of the day on which such annuity commences, or is restored, the annuitant satisfies the age and service requirements for entitlement to an annuity under section 8412 (other than subsection (g) of such section).

"(d) The annuity to which an annuitant is entitled under this section shall not be less than the amount of an annuity computed under section 8415 (excluding subsection (f) of such section).

"§ 8453. Application

"A claim may be allowed under this subchapter only if application is filed with the Office before the employee or Member is separated from the service or within 1 year thereafter. This time limitation may be waived by the Office for an employee or Member who, at the date of separation from service or within 1 year thereafter, is mentally incompetent if the application is filed with the Office within 1 year from the date of restoration of the employee or Member to competency or the appointment of a fiduciary, whichever is earlier.

"§ 8454. Medical examination

"An annuitant receiving a disability retirement annuity from the Fund shall be examined under the direction of the Office—

"(1) at the end of 1 year from the date of the disability retirement; and

"(2) annually thereafter until becoming 60 years of age;

unless the disability is permanent in character. If the annuitant fails to submit to examination as required by this section, payment of the annuity shall be suspended until continuance of the disability is satisfactorily established.

"§ 8455. Recovery; restoration of earning capacity

"(a)(1) If an annuitant receiving a disability retirement annuity from the Fund recovers from the disability before becoming 60 years of age, payment of the annuity terminates on reemployment by the Government or 1 year after the date on which the Office determines that the annuitant has recovered, whichever is earlier.

"(2) If an annuitant receiving a disability annuity from the Fund, before becoming 60 years of age, is restored to an earning capacity fairly comparable to the current rate of pay of the position occupied at the time of retirement, payment of the annuity terminates 180 days after the end of the calendar year in which earning capacity is so restored. Earning capacity is deemed restored if in any calendar year the income of the annuitant from wages or self-employment or both equals at least 80 percent of the current rate of pay of the position occupied immediately before retirement.

"(b)(1) If an annuitant whose annuity is terminated under subsection (a) is not reemployed in a position in which that individual is subject to this chapter, such individual is deemed, except for service credit, to have been involuntarily separated from the service for the purpose of subchapter II of this chapter as of the date of termination of the disability annuity, and after that termination is entitled to annuity under the applicable provisions of such subchapter.

"(2) If an annuitant whose annuity is terminated under subsection (a)(2)—

"(A) is not reemployed in a position subject to this chapter; and

"(B) has not recovered from the disability for which that individual was retired;

the annuity of such individual shall be restored at the applicable rate under section 8452 effective the first of the year following any calendar year in which such individual's income from wages or self-employment or both is less than 80 percent of the current rate of pay of the position occupied immediately before retirement.

"(3) If an annuitant whose annuity is terminated because of a medical finding that the individual has recovered from disability is not reemployed in a position in which such individual is subject to this chapter, the annuity of such individual shall be restored at the applicable rate under section 8452 effective from the date on which the Office determines that there has been a recurrence of the disability.

"(4) Paragraphs (2) and (3) shall not apply in the case of an annuitant receiving an annuity from the Fund under subchapter II of this chapter.

"§ 8456. Relationship to workers' compensation

"(a)(1) An individual is not entitled to receive an annuity under this subchapter and compensation for injury to or disability of the individual under subchapter I of chapter 81 covering the same period of time.

"(2) Paragraph (1) does not bar the right of a claimant to the greater benefit conferred by either subchapter referred to in such paragraph for any part of the period referred to in such paragraph.

"(3) Paragraph (1) and the provisions of subchapter I of chapter 81 do not deny an individual an annuity which the individual is entitled to receive under this chapter on account of service performed by the individual and do not deny any concurrent benefit to the individual under subchapter I of chapter 81 on account of the death of another individual.

"(b)(1) Subject to paragraph (2), an individual's receipt of a lump-sum payment for compensation under section 8135 shall not affect the individual's entitlement to an annuity under this subchapter.

"(2) If an annuity is payable under this subchapter by reason of the same disability for which a lump-sum payment of compensation referred to in paragraph (1) has been made, so much of the compensation as has been paid for a period extended beyond the date payment of the annuity commences, as determined by the Department of Labor, shall be refunded to that Department for credit to the Employees' Compensation Fund. Before the individual may receive the disability annuity, the individual shall—

"(A) refund to the Department of Labor the amount representing the commuted compensation payments for the extended period; or

"(B) authorize the deduction of the amount from the annuity.

Deductions from the annuity may be made from accrued or accruing payments. The amounts deducted and withheld from the annuity shall be transmitted to the Department of Labor for reimbursement to the Employees' Compensation Fund. When the Department of Labor finds that the financial circumstances of an individual entitled to an annuity under this subchapter warrant deferred refunding under this paragraph, deductions from the annuity may be prorated against and paid from accruing payments in such manner as the Department determines appropriate.

"§ 8457. Military reserve technicians

"(a)(1) Except as provided in paragraph (2) or (3), an individual shall be retired under this subchapter if the individual—

"(A) is separated from employment as a military reserve technician by reason of a disability that disqualifies the individual from membership in a reserve component of the Armed Forces specified in section 261(a) of title 10 or from holding the military grade required for such employment;

"(B) is not considered to be disabled under section 8451(a)(1)(B);

"(C) is not appointed to a position in the Government (whether under subsection (c) or otherwise); and

"(D) has not declined an offer of an appointment to a position in the Government under subsection (c).

"(2) Payment of any annuity for an individual pursuant to this section terminates—

"(A) on the date the individual is appointed to a position in the Government (whether pursuant to subsection (c) or otherwise);

"(B) on the date the individual declines an offer of appointment to a position in the Government under subsection (c); or

"(C) as provided under section 8455(a).

"(3) An individual eligible to retire under section 8414(c) shall not be eligible to retire under this section.

"(b) Any individual applying for or receiving any annuity pursuant to this section shall, in accordance with regulations prescribed by the Office, be considered by any agency of the Government before any vacant position in the agency is filled if—

"(1) the position is located within the commuting area of the individual's former position;

"(2) the individual is qualified to serve in such position, as determined by the head of the agency; and

"(3) the position is at the same grade or equivalent level as the position from which the individual was separated.

"SUBCHAPTER VI—GENERAL AND ADMINISTRATIVE PROVISIONS

"§ 8461. Authority of the Office of Personnel Management

"(a) The Office shall pay all benefits that are payable under subchapter II, IV, V, or VI of this chapter from the Fund.

"(b) The Office shall administer all provisions of this chapter not specifically required to be administered by the Board, the Executive Director, the Secretary of Labor, or any other officer or agency.

"(c) The Office shall adjudicate all claims under the provisions of this chapter administered by the Office.

"(d) The Office shall determine questions of disability and dependency arising under the provisions of this chapter administered by the Office. Except to the extent provided under subsection (e), the decisions of the Office concerning these matters are final and conclusive and are not subject to review. The Office may direct at any time such medical or other examinations as it considers necessary to determine the facts concerning disability or dependency of an individual receiving or applying for annuity under the provisions of this chapter administered by the Office. The Office may suspend or deny annuity for failure to submit to examination.

"(e)(1) Subject to paragraph (2), an administrative action or order affecting the rights or interests of an individual or of the United States under the provisions of this chapter administered by the Office may be appealed to the Merit Systems Protection Board under procedures prescribed by the Board.

"(2) In the case of any individual found by the Office to be disabled in whole or in part on the basis of the individual's mental condition, and that finding was made pursuant to an application by an agency for purposes of disability retirement under section 8451, the procedures under section 7701 shall apply and the decision of the Board shall be subject to judicial review under section 7703.

"(f) The Office shall fix the fees for examinations made under subchapter V of this chapter by physicians or surgeons who are not medical officers of the United States. The fees and reasonable traveling and other expenses incurred in connection with the examinations are paid from appropriations for the cost of administering the provisions of this chapter administered by the Office.

"(g) The Office may prescribe regulations to carry out the provisions of this chapter administered by the Office.

"(h)(1) Each Government agency shall furnish the Director with such information as the Director determines necessary in order to administer this chapter.

"(2) The Director, in consultation with the officials from whom such information is requested, shall establish (by regulation or otherwise) such safeguards as are necessary to ensure that information made available under this subsection is used only for the purpose authorized.

"(i) In making a determination of 'actuarial equivalence' under this chapter, the economic assumptions used shall be the same as the economic assumptions most recently used by the Office (before the determination of actuarial equivalence involved) in determining the normal-cost percentage of the System.

"(j)(1) Notwithstanding any other provision of this chapter, the Director of Central Intelligence shall, in a manner consistent with the administration of this chapter by the Office, and to the extent considered appropriate by the Director of Central Intelligence—

"(A) determine entitlement to benefits under this chapter based on the service of employees of the Central Intelligence Agency;

"(B) maintain records relating to the service of such employees;

"(C) compute benefits under this chapter based on the service of such employees;

"(D) collect deposits to the Fund made by such employees, their spouses, their former spouses, and their survivors;

"(E) authorize and direct disbursements from the Fund to the extent based on service of such employees; and

"(F) perform such other functions under this chapter (other than under subchapters III and VII of this chapter) with respect to employees of the Central Intelligence Agency as the Director of Central Intelligence, in consultation with the Director of the Office of Personnel Management, determines to be appropriate.

"(2) The Director of the Office of Personnel Management shall furnish such information and, on a reimbursable basis, such services to the Director of Central Intelligence as the Director of Central Intelligence requests to carry out paragraph (1).

"(k)(1) The Director of Central Intelligence, in consultation with the Executive Director of the Federal Retirement Thrift Investment Board, may—

"(A) maintain exclusive records relating to elections, contributions, and accounts under the Thrift Savings Plan provided in subchapter III of this chapter in the case of employees of the Central Intelligence Agency;

"(B) provide that contributions by, or on behalf of, such employees to the Thrift Savings Plan be accounted for by such Executive Director in aggregate amounts;

"(C) make the necessary disbursements from, and the necessary allocations of earnings, losses, and charges to, individual accounts of such employees under the Thrift Savings Plan; and

"(D) perform such other functions under subchapters III and VII of this chapter (but not including investing sums in the Thrift Savings Fund) with respect to employees of the Central Intelligence Agency as the Director of Central Intelligence, in consultation with the Executive Director of the Federal Retirement Thrift Investment Board, determines to be appropriate.

"(2) The Executive Director of the Federal Retirement Thrift Investment Board may not exercise authority under this chapter in the case of employees of the Central Intelligence Agency to the extent that the Director of Central Intelligence exercises authority provided in paragraph (1).

"(3) The Executive Director of the Federal Retirement Thrift Investment Board shall furnish such information and, on a reimbursable basis, such services to the Director of Central Intelligence as the Director of Central Intelligence determines necessary to carry out this subsection.

"(l) Subsection (h)(1), and sections 8439(b) and 8474(c)(4), shall be applied with respect to information relating to employees of the Central Intelligence Agency in a manner that protects intelligence sources, methods, and activities.

"(m)(1) The Director of Central Intelligence, in consultation with the Director of the Office of Personnel Management and the Executive Director of the Federal Retirement Thrift Investment Board, shall by regulation prescribe appropriate procedures to carry out subsections (j), (k), and (l).

"(2) The regulations shall provide procedures for the Director of the Office of Personnel Management to inspect and audit disbursements from the Fund, and from the Thrift Savings Fund, under this chapter.

"(3) The Director of Central Intelligence shall submit the regulations prescribed under paragraph (1) to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives before the regulations take effect.".

"§ 8462. Cost-of-living adjustments

"(a) For the purpose of this section—

"(1) the term 'base quarter', as used with respect to a year, means the calendar quarter ending on September 30 of such year;

"(2) the price index for a base quarter is the arithmetical mean of such index for the 3 months comprising such quarter; and

"(3) the term 'percent change in the price index', as used with respect to a year, means the percentage derived by—

"(A) reducing—

"(i) the price index for the base quarter of such year, by

"(ii) the price index for the base quarter of the preceding year in which an adjustment under this subsection was made;

"(B) dividing the difference under subparagraph (A) by the price index referred to in subparagraph (A)(ii); and

"(C) multiplying the quotient under subparagraph (B) by 100.

"(b)(1) Except as provided in subsection (c), effective December 1 of any year in which an adjustment under this subsection is to be made, as determined under paragraph (2), each annuity payable from the Fund under this chapter (other than an annuity under section 8443) having a commencing date not later than such December 1 shall be adjusted as follows:

"(A) If the percent change in the price index for the year does not exceed 3 percent, each annuity subject to adjustment under this subsection shall be increased by the lesser of—

"(i) the percent change in the price index (rounded to the nearest one-tenth of 1 percent); or

"(ii) 2 percent.

"(B) If the percent change in the price index for the year exceeds 3 percent, each annuity subject to adjustment under this subsection shall be increased by the excess of—

"(i) the percent change in the price index (rounded to the nearest one-tenth of 1 percent), over

"(ii) 1 percent.

"(2) An adjustment under this subsection shall be made in a year only if the price index for the base quarter of such year exceeds the price index for the base quarter of the preceding year in which an adjustment under this subsection was made.

"(3) An annuity under this chapter shall not be subject to adjustment under section 8340.

"(c) Eligibility for an annuity increase under this section is governed by the commencing date of each annuity payable from the Fund as of the effective date of an increase, except as follows:

"(1) The first increase (if any) made under subsection (b) to an annuity which is payable from the Fund to an annuitant or survivor (other than a child under section 8443) whose annuity has not been increased under this subsection or subsection (b) shall

be equal to the product (adjusted to the nearest one-tenth of 1 percent) of—

"(A) one-twelfth of the applicable percent change computed under subsection (b), multiplied by

"(B) the number of months (not to exceed 12 months, counting any portion of a month as a month)—

"(i) for which the annuity was payable from the Fund before the effective date of the increase; or

"(ii) in the case of a survivor of a deceased annuitant whose annuity has not been so increased, since the annuity was first payable to the deceased annuitant.

"(2) Effective from its commencing date, an annuity payable from the Fund to an annuitant's survivor (other than a widow or widower whose annuity is computed under section 8442(g) or a child under section 8443) shall be increased by the total percentage by which the deceased annuitant's annuity had been increased under this section during the period beginning on the date the deceased annuitant's annuity commenced and ending on the date of the deceased annuitant's death.

"(3)(A) An adjustment under subsection (b) for any year shall not be effective with respect to the annuity of an annuitant who is under 62 years of age as of the date on which such adjustment would otherwise first take effect.

"(B)(i) Except as provided in clause (ii), this paragraph applies only with respect to an annuitant under section 8412, 8413, or 8414.

"(ii) This paragraph does not apply with respect to an annuitant under subsection (d) or (e) of section 8412 or (in the case of an annuitant separated from service as a military reserve technician as a result of disability) under section 8414(c).

"(4) The first increase (if any) made under subsection (b) to an annuity which is payable from the Fund to a widow or widower whose annuity is computed under section 8442(g) shall be equal to the product (adjusted to the nearest one-tenth of 1 percent) of—

"(A) one-twelfth of the applicable percent change computed under subsection (b), multiplied by

"(B) the number of months (not to exceed 12 months, counting any portion of a month as a month) since—

"(i) the effective date of the adjustment last made under this section in the annuity of the annuitant on whose service on the widow's or widower's annuity is based; or

"(ii) if the annuity of the annuitant (referred to in clause (i)) has not been increased under this section, the commencement date of such annuitant's annuity (determined subject to section 8452(a)(1)(B)).

"(d) The monthly installment of an annuity after adjustment under this section shall be rounded to the next lowest dollar. However, the monthly installment shall, after adjustment, reflect an increase of at least $1.

"(e) The $15,000 amount referred to in section 8442(b)(1)(A)(ii) shall be increased at the same time that, and by the same percent as the percentage by which, annuities under subchapter III of chapter 83 are increased.

"§ 8463. Rate of benefits

"Each annuity payable from the Fund is stated as an annual amount, one-twelfth of which, rounded to the next lower dollar, constitutes the monthly rate payable on the first business day of the first month beginning after the month for which it has accrued.

"§ 8464. Commencement and termination of annuities of employees and Members

"(a)(1) Except as otherwise provided in this chapter—

"(A) an annuity payable from the Fund commences on the first day of the month after—

"(i) separation from the service, in the case of an employee or Member retiring under section 8412, or subsection (a) or (b)(1)(B) of section 8414; or

"(ii) pay ceases, and the applicable age and service requirements are met, in the case of an employee or Member retiring under section 8413;

"(B) an annuity payable from the Fund commences on the day after separation from the service in the case of an employee retiring under subsection (b)(1)(A) or (c) of section 8414; and

"(C) an annuity payable from the Fund commences on the day after separation from the service or the day after pay ceases and the requirements for title to an annuity are met in the case of an employee or Member retiring under section 8451.

"(2) Notwithstanding paragraph (1)(A)(i), an annuity payable from the Fund commences on the day after separation from the service in the case of an employee or Member—

"(A) who retires under section 8412; and

"(B) whose separation occurs upon the expiration of a term (or other period) for which the individual was appointed or elected.

"(b) Except as otherwise provided in this chapter, the annuity of an annuitant under subchapter II or V of this chapter terminates on the date death or other terminating event occurs.

"§ 8465. Waiver, allotment, and assignment of benefits

"(a) An individual entitled to an annuity payable from the Fund may decline to accept all or any part of the amount of the annuity by a waiver signed and filed with the Office. The waiver may be revoked in writing at any time. Payment of the annuity waived may not be made for the period during which the waiver is in effect.

"(b) An individual entitled to an annuity payable from the Fund may make allotments or assignments of amounts from the annuity for such purposes as the Office considers appropriate.

"§ 8466. Application for benefits

"(a) No payment of benefits based on the service of an employee or Member shall be made from the Fund unless an application for payment of the benefits is received by the Office before the one hundred and fifteenth anniversary of the birth of the employee or Member.

"(b) Notwithstanding subsection (a), after the death of an employee, Member, or annuitant, or former employee or Member, a benefit based on the service of such employee, Member, or annuitant, or former employee or Member, shall not be paid under subchapter II or IV of this chapter unless an application therefor is received by the Office within 30 years after the death or other event which establishes the entitlement to the benefit.

"(c) Payment due a minor, or an individual mentally incompetent or under other legal disability, may be made to the person who is constituted guardian or other fiduciary by the law of the State of residence of the claimant or is otherwise legally vested with the care of the claimant or his estate. If a guardian or other fiduciary of the individual under legal disability has not been appointed under the law of the State of residence of the claimant, payment may be made to any person who, in the judgment of the Office, is responsible for the care of the claimant, and the payment bars recovery by any other person.

"§ 8467. Court orders

"(a) Payments under this chapter which would otherwise be made to an employee, Member, or annuitant (including an employee, Member, or annuitant as defined under section 8331) based on the service of that individual shall be paid (in whole or in part) by the Office or the Executive Director (as the case may be), to another person if and to the extent that the terms of any court decree of divorce, annulment, or legal separation, or the terms of any court order or court-approved property settlement agreement incident to any court decree of divorce, annulment, or legal separation expressly provide. Any payment under this subsection to a person bars recovery by any other person.

"(b) Subsection (a) shall apply only to payments made by the Office or the Executive Director under this chapter after the date on which the Office or the Executive Director (as the case may be) receives written notice of such decree, order, or agreement, and such additional information and documentation as the Office or the Executive Director may require.

"§ 8468. Annuities and pay on reemployment

"(a) If an annuitant becomes employed in an appointive or elective position in the Government, payment of any annuity under subchapter II or V of this chapter to the annuitant terminates effective on the date of the employment. The annuitant's service on and after the date the annuitant becomes so employed is covered by this chapter unless such service is performed as a justice or judge of the United States (as defined by section 451 of title 28) or as an employee subject to another retirement system for Government employees. Upon termination of the employment, the rights of the annuitant under subchapter II or V of this chapter (as the case may be) shall be redetermined. If the annuitant dies while still so employed, a survivor annuity payable with respect to the deceased annuitant shall be redetermined as if the employment had otherwise terminated on the date of death.

"(b) The amount of an annuity resulting from a redetermination of rights under this chapter pursuant to subsection (a) shall not be less than the amount of the terminated annuity plus any increases which (but for the reemployment) would have been payable under section 8462 after the termination of the annuity and before the commencement of the redetermined annuity.

"(c) The redetermined annuity commences on the first day of the month after termination of employment.

"§ 8469. Withholding of State income taxes

"(a) The Office shall, in accordance with this section, enter into an agreement with any State within 120 days of a request for agreement from the proper State official. The agreement shall provide that the Office shall withhold State income tax in the case of the monthly annuity of any annuitant who voluntarily requests, in writing, such withholding. The amounts withheld during any calendar quarter shall be held in the Fund and disbursed to the States during the month following that calendar quarter.

"(b) An annuitant may have in effect at any time only one request for withholding under this section, and an annuitant may not have more than two such requests in effect during any one calendar year.

"(c) Subject to subsection (b), an annuitant may change the State designated by that annuitant for purposes of having withholdings made, and may request that the withholdings be remitted in accordance with such change. An annuitant also may revoke any request of that annuitant for withholding. Any change in the State designated or revocation is effective on the first day of the month after the month in which the request or the revocation is processed by the Office, but in no event later than on the first day of the second month beginning after the day on which such request or revocation is received by the Office.

"(d) This section does not give the consent of the United States to the application of a statute which imposes more burdensome requirements on the United States than on employers generally, or which subjects the United States or any annuitant to a penalty or liability because of this section. The Office may not accept pay from a State for services performed in withholding State income taxes from annuities. Any amount erroneously withheld from an annuity and paid to a State by the Office shall be repaid by the State in accordance with regulations issued by the Office.

"(e) For the purpose of this section—

"(1) the term 'State' means a State, the District of Columbia, or any territory or possession of the United States; and

"(2) the term 'annuitant' includes a survivor who is receiving an annuity from the Fund.

"§ 8470. Exemption from legal process; recovery of payments

"(a) An amount payable under subchapter II, IV, or V of this chapter is not assignable, either in law or equity, except under the provisions of section 8465 or 8467, or subject to execution, levy, attachment, garnishment or other legal process, except as otherwise may be provided by Federal laws.

"(b) Recovery of payments under subchapter II, IV, or V of this chapter may not be made from an individual when, in the judgment of the Office, the individual is without fault and recovery would be against equity and good conscience. Withholding or recovery of money paid under subchapter II, IV, or V of this chapter on account of a certification or payment made by a former employee of the United States in the discharge of his official duties may be made only if the head of the agency on behalf of which the certification or payment was made certifies to the Office that the certification or payment involved fraud on the part of the former employee.

"SUBCHAPTER VII—FEDERAL RETIREMENT THRIFT INVESTMENT MANAGEMENT SYSTEM

"§ 8471. Definitions

"For the purposes of this subchapter—

"(1) the term 'beneficiary' means an individual (other than a participant) entitled to payment from the Thrift Savings Fund under subchapter III of this chapter;

"(2) the term 'Council' means the Employee Thrift Advisory Council established under section 8473 of this title;

"(3) the term 'participant' means an individual for whom an account has been established under section 8439 of this title;

"(4) the term 'person' means an individual, partnership, joint venture, corporation, mutual company, joint-stock company, trust, estate, unincorporated organization, association, or labor organization; and

"(5) the term 'Thrift Savings Fund' means the Thrift Savings Fund established under section 8437 of this title.

"§ 8472. Federal Retirement Thrift Investment Board

"(a) There is established in the Executive branch of the Government a Federal Retirement Thrift Investment Board.

"(b) The Board shall be composed of—

"(1) 3 members appointed by the President, of whom 1 shall be designated by the President as Chairman; and

"(2) 2 members appointed by the President, of whom—

"(A) 1 shall be appointed by the President after taking into consideration the recommendation made by the Speaker of the House of Representatives in consultation with the minority leader of the House of Representatives; and

"(B) 1 shall be appointed by the President after taking into consideration the recommendation made by the majority leader of the Senate in consultation with the minority leader of the Senate.

"(c) Except as provided in section 311 of the Federal Employees' Retirement System Act of 1986, appointments under subsection (a) shall be made by and with the advice and consent of the Senate.

"(d) Members of the Board shall have substantial experience, training, and expertise in the management of financial investments and pension benefit plans.

"(e)(1) Except as provided in section 311 of the Federal Employees' Retirement System Act of 1986, a member of the Board shall be appointed for a term of 4 years, except that of the members first appointed (other than the members appointed under such section)—

"(A) the Chairman shall be appointed for a term of 4 years;

"(B) the members appointed under subsection (b)(2) shall be appointed for terms of 3 years; and

"(C) the remaining members shall be appointed for terms of 2 years.

"(2)(A) A vacancy on the Board shall be filled in the manner in which the original appointment was made and shall be subject to any conditions which applied with respect to the original appointment.

"(B) An individual chosen to fill a vacancy shall be appointed for the unexpired term of the member replaced.

"(3) The term of any member shall not expire before the date on which the member's successor takes office.

"(f) The Board shall—

"(1) establish policies for—

"(A) the investment and management of the Thrift Savings Fund; and

"(B) the administration of subchapter III of this chapter;

"(2) review the performance of investments made for the Thrift Savings Fund; and

"(3) review and approve the budget of the Board.

"(g)(1) The Board may—

"(A) adopt, alter, and use a seal;

"(B) except as provided in paragraph (2), direct the Executive Director to take such action as the Board considers appropriate to carry out the provisions of this subchapter and subchapter III of this chapter and the policies of the Board;

"(C) upon the concurring votes of four members, remove the Executive Director from office for good cause shown; and

"(D) take such other actions as may be necessary to carry out the functions of the Board.

"(2) Except in the case of investments required by section 8438 of this title to be invested in securities of the Government, the Board may not direct the Executive Director to invest or to cause to be invested any sums in the Thrift Savings Fund in a specific asset or to dispose of or cause to be disposed of any specific asset of such Fund.

"(h) The members of the Board shall discharge their responsibilities solely in the interest of participants and beneficiaries under this subchapter and subchapter III of this chapter.

"§ 8473. Employee Thrift Advisory Council

"(a) The Board shall establish an Employee Thrift Advisory Council. The Council shall be composed of 14 members appointed by the Chairman of the Board in accordance with subsection (b).

"(b) The Chairman shall appoint 14 members of the Council, of whom—

"(1) 4 shall be appointed to represent the respective labor organizations representing (as exclusive representatives) the first, second, third, and fourth largest numbers of individuals subject to chapter 71 of this title;

"(2) 2 shall be appointed to represent the respective labor organizations which have been accorded exclusive recognition under section 1203(a) of title 39 representing the largest and second largest numbers of individuals employed by the United States Postal Service;

"(3) 1 shall be appointed to represent the labor organization which has been accorded exclusive recognition under section 1203(a) of title 39 representing the largest number of individuals employed by the United States Postal Service as rural letter carriers;

"(4) 2 shall be appointed to represent the respective managerial organizations (other than an organization described in paragraph (5)) which consult with the United States Postal Service under section 1004(b) of title 39 and which represent the largest and second largest numbers of individuals employed by the United States Postal Service as managerial personnel;

"(5) 1 shall be appointed to represent the supervisors' organization as defined in section 1004(h) of title 39;

"(6) 1 shall be appointed to represent employee organizations having as a purpose promoting the interests of women in Government service;

"(7) 1 shall be appointed to represent the organization representing the largest number of individuals receiving annuities under this chapter or chapter 83 of this title;

"(8) 1 shall be appointed to represent the organization representing the largest number of individuals subject to the Performance Management and Recognition System under chapter 54 of this title; and

"(9) 1 shall be appointed to represent the organization representing the largest number of members of the Senior Executive Service.

"(c)(1) The Chairman of the Board shall designate 1 member of the Council to serve as head of the Council.

"(2) A member of the Council shall be appointed for a term of 4 years.

"(3)(A) A vacancy in the Council shall be filled in the manner in which the original appointment was made and shall be subject to any conditions which applied with respect to the original appointment.

"(B) An individual chosen to fill a vacancy shall be appointed for the unexpired term of the member replaced.

"(C) The term of any member shall not expire before the date on which the member's successor takes office.

"(d) The Council shall act by resolution of a majority of the members.

"(e) The Council shall—

"(1) advise the Board and the Executive Director on matters relating to—

"(A) investment policies for the Thrift Savings Fund; and

"(B) the administration of this subchapter and subchapter III of this chapter; and

"(2) perform such other duties as the Board may direct with respect to investment funds established in accordance with subchapter III of this chapter.

"(f) Section 14(a)(2) of the Federal Advisory Committee Act shall not apply to the Council.

"§ 8474. Executive Director

"(a)(1) The Board shall appoint, without regard to the provisions of law governing appointments in the competitive service, an Executive Director by action agreed to by a majority of the members of the Board.

"(2) The Executive Director shall have substantial experience, training, and expertise in the management of financial investments and pension benefit plans.

"(b) The Executive Director shall—

"(1) carry out the policies established by the Board;

"(2) invest and manage the Thrift Savings Fund in accordance with the investment policies and other policies established by the Board;

"(3) purchase annuity contracts and provide for the payment of other benefits under subchapter III of this chapter;

"(4) administer the provisions of this subchapter and subchapter III of this chapter;

"(5) prescribe such regulations (other than regulations relating to fiduciary responsibilities) as may be necessary for the administration of this subchapter and subchapter III of this chapter; and

"(6) meet from time to time with the Council upon request of the Council.

"(c) The Executive Director may—

"(1) prescribe such regulations as may be necessary to carry out the responsibilities of the Executive Director under this section, other than regulations relating to fiduciary responsibilities;

"(2) appoint such personnel as may be necessary to carry out the provisions of this subchapter and subchapter III of this chapter;

"(3) subject to approval by the Board, procure the services of experts and consultants under section 3109 of this title;

"(4) secure directly from an Executive agency, the United States Postal Service, or the Postal Rate Commission any information necessary to carry out the provisions of this subchapter or subchapter III of this chapter and policies of the Board;

"(5) make such payments out of sums in the Thrift Savings Fund as the Executive Director determines are necessary to carry out the provisions of this subchapter and subchapter III of this chapter and the policies of the Board;

"(6) pay the compensation, per diem, and travel expenses of individuals appointed under paragraphs (2), (3), and (7) of this subsection from the Thrift Savings Fund;

"(7) accept and use the services of individuals employed intermittently in the Government service and reimburse such individuals for travel expenses, as authorized by section 5703 of this title, including per diem as authorized by section 5702 of this title;

"(8) except as otherwise expressly prohibited by law or the policies of the Board, delegate any of the Executive Director's functions to such employees under the Board as the Executive Director may designate and authorize such successive redelegations of such functions to such employees under the Board as the Executive Director may consider to be necessary or appropriate; and

"(9) take such other actions as are appropriate to carry out the functions of the Executive Director.

"§ 8475. Investment policies

"The Board shall develop investment policies under section 8472(f)(1) of this title which provide for—

"(1) prudent investments suitable for accumulating funds for payment of retirement income; and

"(2) low administrative costs.

"§ 8476. Administrative provisions

"(a) The Board shall meet—

"(1) not less than once during each month; and

"(2) at additional times at the call of the Chairman.

"(b)(1) Except as provided in sections 8472(g)(1)(C) and 8474(a)(1) of this title, the Board shall perform the functions and exercise the powers of the Board on a majority vote of a quorum of the Board.

"(2) A vacancy on the Board shall not impair the authority of a quorum of the Board to perform the functions and exercise the powers of the Board.

"(c) Three members of the Board shall constitute a quorum for the transaction of business.

"(d)(1) Each member of the Board who is not an officer or employee of the Federal Government shall be compensated at the daily rate of basic pay for grade GS-18 of the General Schedule for each day during which such member is engaged in performing a function of the Board.

"(2) A member of the Board shall be paid travel, per diem, and other necessary expenses under subchapter I of chapter 57 of this title while traveling away from such member's home or regular place of business in the performance of the duties of the Board.

"(3) Payments authorized under this subsection shall be paid from the Thrift Savings Fund.

"(e) The accrued annual leave of any employee who is a member of the Board or the Council shall not be charged for any time used in performing services for the Board or the Council.

"§ 8477. Fiduciary responsibilities; liability and penalties

"(a) For the purposes of this section—

"(1) the term 'account' is not limited by the definition provided in section 8401(1);

"(2) the term 'adequate consideration' means—

"(A) in the case of a security for which there is a generally recognized market—

"(i) the price of the security prevailing on a national securities exchange which is registered under section 6 of the Securities Exchange Act of 1934; or

"(ii) if the security is not traded on such a national securities exchange, a price not less favorable to the Thrift Savings Fund than the offering price for the security as established by the current bid and asked prices quoted by persons independent of the issuer and of any party in interest; and

"(B) in the case of an asset other than a security for which there is a generally recognized market, the fair market value of the asset as determined in good faith by a fiduciary or fiduciaries in accordance with regulations prescribed by the Secretary of Labor;

"(3) the term 'fiduciary' means—

"(A) a member of the Board;

"(B) the Executive Director;

"(C) any person who has or exercises discretionary authority or discretionary control over the management or disposition of the assets of the Thrift Savings Fund; and

"(D) any person who, with respect to the Thrift Savings Fund, is described in section 3(21)(A) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(21)(A)); and

"(4) the term 'party in interest' includes—

"(A) any fiduciary;

"(B) any counsel to a person who is a fiduciary, with respect to the actions of such person as a fiduciary;

"(C) any participant;

"(D) any person providing services to the Board and, with respect to the actions of the Executive Director as a fiduciary any person providing services to the Executive Director;

"(E) a labor organization, the members of which are participants;

"(F) a spouse, sibling, ancestor, lineal descendant, or spouse of a lineal descendant of a person described in subparagraph (A), (B), or (D);

"(G) a corporation, partnership, or trust or estate of which, or in which, at least 50 percent of—

"(i) the combined voting power of all classes of stock entitled to vote or the total value of shares of all classes of stock of such corporation;

"(ii) the capital interest or profits interest of such partnership; or

"(iii) the beneficial interest of such trust or estate,

is owned directly or indirectly, or held by a person described in subparagraph (A), (B), (D), or (E);

"(H) an official (including a director) of, or an individual employed by, a person described in subparagraph (A), (B), (D), (E), or (G), or an individual having powers or responsibilities similar to those of such an official;

"(I) a holder (directly or indirectly) of at least 10 percent of the shares in a person described in any subparagraph referred to in subparagraph (H); and

"(J) a person who, directly or indirectly, is at least a 10 percent partner or joint venturer (measured in capital or profits) in a person described in any subparagraph referred to in subparagraph (H).

"(b)(1) To the extent not inconsistent with the provisions of this chapter and the policies prescribed by the Board, a fiduciary shall discharge his responsibilities with respect to the Thrift Savings Fund or applicable portion thereof solely in the interest of the participants and beneficiaries and—

"(A) for the exclusive purpose of—

"(i) providing benefits to participants and their beneficiaries; and

"(ii) defraying reasonable expenses of administering the Thrift Savings Fund or applicable portions thereof;

"(B) with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent individual acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like objectives; and

"(C) to the extent permitted by section 8438 of this title, by diversifying the investments of the Thrift Savings Fund or applicable portions thereof so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.

"(2) No fiduciary may maintain the indicia of ownership of any assets of the Thrift Savings Fund outside the jurisdiction of the district courts of the United States.

"(c)(1) A fiduciary shall not permit the Thrift Savings Fund to engage in any of the following transactions, except in exchange for adequate consideration:

"(A) A transfer of any assets of the Thrift Savings Fund to any person the fiduciary knows or should know to be a party in interest or the use of such assets by any such person.

"(B) An acquisition of any property from or sale of any property to the Thrift Savings Fund by any person the fiduciary knows or should know to be a party in interest.

"(C) A transfer or exchange of services between the Thrift Savings Fund and any person the fiduciary knows or should know to be a party in interest.

"(2) Notwithstanding paragraph (1), a fiduciary with respect to the Thrift Savings Fund shall not—

"(A) deal with any assets of the Thrift Savings Fund in his own interest or for his own account;

"(B) act, in an individual capacity or any other capacity, in any transaction involving the Thrift Savings Fund on behalf of a party, or representing a party, whose interests are adverse to the interests of the Thrift Savings Fund or the interests of its participants or beneficiaries; or

"(C) receive any consideration for his own personal account from any party dealing with sums credited to the Thrift Savings Fund in connection with a transaction involving assets of the Thrift Savings Fund.

"(3)(A) The Secretary of Labor may, in accordance with procedures which the Secretary shall by regulation prescribe, grant a conditional or unconditional exemption of any fiduciary or transaction, or class of fiduciaries or transactions, from all or part of the restrictions imposed by paragraph (2).

"(B) An exemption granted under this paragraph shall not relieve a fiduciary from any other applicable provision of this chapter.

"(C) The Secretary of Labor may not grant an exemption under this paragraph unless he finds that such exemption is—

"(i) administratively feasible;

"(ii) in the interests of the Thrift Savings Fund and of its participants and beneficiaries; and

"(iii) protective of the rights of participants and beneficiaries of such Fund.

"(D) An exemption under this paragraph may not be granted unless—

"(i) notice of the proposed exemption is published in the Federal Register;

"(ii) interested persons are given an opportunity to present views; and

"(iii) the Secretary of Labor affords an opportunity for a hearing and makes a determination on the record with respect to the respective requirements of clauses (i), (ii), and (iii) of subparagraph (C).

"(d) This section does not prohibit any fiduciary from—

"(1) receiving any benefit which the fiduciary is entitled to receive under this subchapter or subchapter III of this chapter as a participant or beneficiary;

"(2) receiving any reasonable compensation authorized by this subchapter for services rendered, or for reimbursement of expenses properly and actually incurred, in the performance of the fiduciary's duties under this chapter; or

"(3) serving as a fiduciary in addition to being an officer, employee, agent, or other representative of a party in interest.

"(e)(1)(A) Any fiduciary that breaches the responsibilities, duties, and obligations set out in subsection (b) or violates subsection (c) shall be personally liable to the Thrift Savings Fund for any losses to such Fund resulting from each such breach or violation and to restore to such Fund any profits made by the fiduciary through use of assets of such Fund by the fiduciary, and shall be subject to such other equitable or remedial relief as a court considers appropriate. A fiduciary may be removed for a breach referred to in the preceding sentence.

"(B) The Secretary of Labor may assess a civil penalty against a party in interest with respect to each transaction which is engaged in by the party in interest and is prohibited by subsection (c). The amount of such penalty shall be equal to 5 percent of the amount involved in each such transaction (as defined in section 4975(f)(4) of the Internal Revenue Code of 1954) for each year or part thereof during which the prohibited transaction continues, except that, if the transaction is not corrected (in such manner as the Secretary of Labor shall prescribe by regulation consistent with section 4975(f)(5) of such Code) within 90 days after the date the Secretary of Labor transmits notice to the party in interest (or such longer period as the Secretary of Labor may permit), such penalty may be in an amount not more than 100 percent of the amount involved.

"(C) A fiduciary shall not be liable under subparagraph (A) with respect to a breach of fiduciary duty under subsection (b) committed before becoming a fiduciary or after ceasing to be a fiduciary.

"(D) A fiduciary shall be jointly and severally liable under subparagraph (A) for a breach of fiduciary duty under subsection (b) by another fiduciary if—

"(i) the fiduciary participates knowingly in, or knowingly undertakes to conceal, an act or omission of such other fiduciary, knowing such act or omission is such a breach;

"(ii) by the fiduciary's failure to comply with subsection (b) in the administration of the fiduciary's specific responsibilities which give rise to the fiduciary status, the fiduciary has enabled such other fiduciary to commit such a breach; or

"(iii) the fiduciary has knowledge of a breach by such other fiduciary, unless the fiduciary makes reasonable efforts under the circumstances to remedy the breach.

"(E) The Secretary of Labor shall prescribe, in regulations, procedures for allocating fiduciary responsibilities among fiduciaries, including investment managers. Any fiduciary who, pursuant to such procedures, allocates to a person or persons any fiduciary responsibility shall not be liable for an act or omission of such person or persons unless—

"(i) such fiduciary violated subsection (b) with respect to the allocation, with respect to the implementation of the procedures prescribed by the Board, or in continuing such allocation; or

"(ii) such fiduciary would otherwise be liable in accordance with subparagraph (D).

"(2) A civil action may be brought in the district courts of the United States—

"(A) by the Secretary of Labor—

"(i) to determine and enforce a liability under paragraph (1)(A);

"(ii) to collect any civil penalty under paragraph (1)(B); or

"(iii) to enjoin any act or practice which violates subsection (g)(2) or (h) of section 8472 of this title;

"(B) by the Secretary of Labor, any participant, beneficiary, or fiduciary—

"(i) to enjoin any act or practice which violates any provision of subsection (b) or (c); or

"(ii) to obtain any other appropriate equitable relief to redress a violation of any such provision; or

"(C) by any participant or beneficiary to recover benefits due to him or her under the provisions of subchapter III of this chapter, to enforce his or her rights under such provisions, or to clarify his or her rights to future benefits under such provisions.

"(3) An action may not be commenced under paragraph (2) with respect to a fiduciary's breach of any responsibility, duty, or obligation under subsection (b) or a violation of subsection (c) after the earlier of—

"(A) 6 years after (i) the date of the last action which constituted a part of the breach or violation, or (ii) in the case of an omission, the latest date on which the fiduciary could have cured the breach or violation; or

"(B) 3 years after the earliest date on which the plaintiff had actual knowledge of the breach or violation, except that, in the case of fraud or concealment, such action may be commenced not later than 6 years after the date of discovery of such breach or violation.

"(4)(A) The district courts of the United States shall have exclusive jurisdiction of civil actions under this subsection.

"(B) An action under this subsection may be brought in the District Court of the United States for the District of Columbia or a district court of the United States in the district where the breach alleged in the complaint or petition filed in the action took place or in the district where a defendant resides or may be found. Process may be served in any other district where a defendant resides or may be found.

"(5)(A) A copy of the complaint or petition filed in any action brought under this subsection (other than by the Secretary of Labor) shall be served on the Executive Director, the Secretary of Labor, and the Secretary of the Treasury by certified mail.

"(B) Any officer referred to in subparagraph (A) of this paragraph shall have the right in his discretion to intervene in any action. If the Secretary of Labor brings an action under paragraph (2) of this subsection on behalf of a participant or beneficiary, he shall notify the Executive Director and the Secretary of the Treasury.

"(f) The Secretary of Labor may prescribe regulations to carry out this section.

"(g)(1) The Secretary of Labor shall establish a program to carry out audits to determine the level of compliance with the requirements of this section relating to fiduciary responsibilities and prohibited activities of fiduciaries.

"(2) An audit under this subsection may be conducted by the Secretary of Labor, by contract with a qualified non-governmental organization, or in cooperation with the Comptroller General of the United States, as the Secretary considers appropriate.

"§ 8478. Bonding

"(a)(1) Except as provided in paragraph (2), each fiduciary (other than a member of

the Employee Thrift Advisory Council with respect to his duties as a member) and each person who handles funds or property of the Thrift Savings Fund shall be bonded as provided in this section.

"(2)(A) Bond shall not be required of a fiduciary (or of any officer or employee of such fiduciary) if such fiduciary—

"(i) is a corporation organized and doing business under the laws of the United States or of any State;

"(ii) is authorized under such laws to exercise trust powers or to conduct an insurance business;

"(iii) is subject to supervision or examination by Federal or State authority; and

"(iv) has at all times a combined capital and surplus in excess of such minimum amount (not less than $1,000,000) as the Secretary of Labor prescribes in regulations.

"(B) If—

"(i) a bank or other financial institution would, but for this subparagraph, not be required to be bonded under this section by reason of the application of the exception provided in subparagraph (A),

"(ii) the bank or financial institution is authorized to exercise trust powers, and

"(iii) the deposits of the bank or financial institution are not insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation,

such exception shall apply to such bank or financial institution only if the bank or institution meets bonding requirements under State law which the Secretary of Labor determines are at least equivalent to those imposed on banks by Federal law.

"(b)(1) The Secretary of Labor shall prescribe the amount of a bond under this section at the beginning of each fiscal year. Except as otherwise provided in this paragraph, such amount shall not be less than 10 percent of the amount of funds handled. In no case shall such bond be less than $1,000 nor more than $500,000, except that the Secretary of Labor, after due notice and opportunity for hearing to all interested parties, and other consideration of the record, may prescribe an amount in excess of $500,000.

"(2) For the purpose of prescribing the amount of a bond under paragraph (1), the amount of funds handled shall be determined by reference to the amount of the funds handled by the person, group, or class to be covered by such bond or by their predecessor or predecessors, if any, during the preceding fiscal year, or to the amount of funds to be handled during the current fiscal year by such person, group, or class, estimated as provided in regulations prescribed by the Secretary of Labor.

"(c) A bond required by subsection (a)—

"(1) shall include such terms and conditions as the Secretary of Labor considers necessary to protect the Thrift Savings Fund against loss by reason of acts of fraud or dishonesty on the part of the bonded person directly or through connivance with others;

"(2) shall have as surety thereon a corporate surety company which is an acceptable surety on Federal bonds under authority granted by the Secretary of the Treasury pursuant to sections 6 through 13 of title 6; and

"(3) shall be in a form or of a type approved by the Secretary of Labor, including individual bonds or schedule or blanket forms of bonds which cover a group or class.

"(d)(1) It shall be unlawful for any person to whom subsection (a) applies, to receive, handle, disburse, or otherwise exercise custody or control of any of the funds or other property of the Thrift Savings Fund without being bonded as required by this section.

"(2) It shall be unlawful for any fiduciary, or any other person having authority to direct the performance of functions described in paragraph (1), to permit any such function to be performed by any person to whom subsection (a) applies unless such person has met the requirements of such subsection.

"(e) Notwithstanding any other provision of law, any person who is required to be bonded as provided in subsection (a) shall be exempt from any other provision of law which would, but for this subsection, require such person to be bonded for the handling of the funds or other property of the Thrift Savings Fund.

"(f) The Secretary of Labor shall prescribe such regulations as may be necessary to carry out the provisions of this section, including exempting a person or class of persons from the requirements of this section.

"§ 8479. Exculpatory provisions; insurance

"(a) Any provision in an agreement or instrument which purports to relieve a fiduciary from responsibility or liability for any responsibility, obligation, or duty under this subchapter shall be void.

"(b)(1) The Executive Director may require employing agencies to contribute an amount not to exceed 1 percent of the amount such agencies are required to contribute in accordance with section 8432(c) of this title to the Thrift Savings Fund.

"(2) The sums credited to the Thrift Savings Fund under paragraph (1) shall be available and may be used at the discretion of the Executive Director to purchase insurance to cover potential liability of persons who serve in a fiduciary capacity with respect to the Thrift Savings Fund, without regard to whether a policy of insurance permits recourse by the insurer against the fiduciary in the case of a breach of a fiduciary obligation.".

(b) CONFORMING AMENDMENT.—The table of chapters at the beginning of part III of title 5, United States Code, is amended by inserting after the item relating to chapter 83 the following new item:

"84. Federal Employees' Retirement System ..... 8401.".

TITLE II—OTHER AMENDMENTS TO TITLE 5 OF THE UNITED STATES CODE

SEC. 201. TREATMENT UNDER CIVIL SERVICE RETIREMENT SYSTEM OF CERTAIN INDIVIDUALS EXCLUDED FROM FEDERAL EMPLOYEES' RETIREMENT SYSTEM.

(a) DEDUCTIONS, CONTRIBUTIONS, AND DEPOSITS.—(1) Section 8334 of title 5, United States Code, is amended by adding at the end thereof the following:

"(k)(1) Effective with respect to pay periods beginning after December 31, 1986, in administering this section in the case of an individual described in section 8402(b)(2) of this title—

"(A) the amount to be deducted and withheld by the employing agency shall be determined in accordance with paragraph (2) of this subsection instead of the first sentence of subsection (a)(1) of this section; and

"(B) the amount of the contribution under the second sentence of subsection (a)(1) of this section shall be the amount which would have been contributed under such sentence if this subsection had not been enacted.

"(2)(A) With respect to Federal wages of an employee or Member (or that portion thereof) not exceeding the contribution and benefit base during the calendar year involved, the appropriate amount to be deducted and withheld under this subsection is the amount by which—

"(i) the total deduction for those wages (or for that portion) exceeds;

"(ii) the OASDI contribution with respect to those wages (or that portion).

"(B) With respect to any portion of Federal wages of an employee or Member which exceed the contribution and benefit base during the calendar year involved, the appropriate amount to be deducted and withheld under this subsection is an amount equal to the total deduction for that portion.

"(C) For purposes of this paragraph—

"(i) the term 'Federal wages' means basic pay for service as an employee or Member, as the case may be;

"(ii) the term 'contribution and benefit base' means the contribution and benefit base in effect with respect to the period involved, as determined under section 230 of the Social Security Act;

"(iii) the term 'total deduction', as used with respect to any Federal wages (or portion thereof), means an amount equal to the amount of those wages (or of that portion), multiplied by the percentage which (but for this subsection) would apply under the first sentence of subsection (a)(1) with respect to the individual involved; and

"(iv) the term 'OASDI contribution', with respect to any income, means the amount of tax which may be imposed under section 3101(a) of the Internal Revenue Code of 1954 with respect to such income (determined without regard to any income which is not a part of Federal wages).

"(3) The amount of a deposit under subsection (c) of this section for any service with respect to which paragraph (1) of this subsection applies shall be equal to an amount determined based on the preceding provisions of this subsection, and shall include interest.".

(2) Such section 8334 is further amended—

(A) in paragraphs (1) and (2) of subsection (e), by striking out "or (j)" and inserting in lieu thereof "(j), or (k)";

(B) in subsection (f), by inserting "or (k)" after "subsection (a)"; and

(C) in subsection (h), by striking out "and (j)" and inserting in lieu thereof "(j), and (k)".

(b) OFFSET IN BENEFITS.—(1) Subchapter III of chapter 83 of title 5, United States Code, is amended by adding at the end thereof the following:

"§ 8349. Offset relating to certain benefits under the Social Security Act

"(a)(1) Notwithstanding any other provision of this subchapter, if an individual under section 8402(b)(2) is entitled, or would on proper application be entitled, to old-age insurance benefits under title II of the Social Security Act, the annuity otherwise payable to such individual shall be reduced under this subsection.

"(2) A reduction under this subsection commences beginning with the first month for which the individual both—

"(A) is entitled to an annuity under this subchapter; and

"(B) is entitled, or would on proper application be entitled, to old-age insurance benefits under title II of the Social Security Act.

"(3)(A)(i) Subject to clause (ii) and subparagraphs (B) and (C), the amount of a reduction under this subsection shall be equal to the difference between—

"(I) the old-age insurance benefit which would be payable to the individual for the month referred to in paragraph (2); and

"(II) the old-age insurance benefit which would be so payable, excluding all wages derived from Federal service of the individual, and assuming the individual were fully insured (as defined by section 214(a) of the Social Security Act).

"(ii) For purposes of this subsection, the amount of a benefit referred to in subclause (I) or (II) of clause (i) shall be determined without regard to subsections (b) through (l) of section 203 of the Social Security Act, and without regard to the requirement that an application for such benefit be filed.

"(B) A reduction under this subsection—

"(i) may not exceed an amount equal to the product of—

"(I) the old-age insurance benefit to which the individual is entitled (or would on proper application be entitled) for the month referred to in paragraph (2), determined without regard to subsections (b) through (l) of section 203 of the Social Security Act; and

"(II) a fraction, as determined under section 8421(b)(3) with respect to the individual, except that the reference to 'service' in subparagraph (A) of such section shall be considered to mean Federal service; and

"(ii) may not cause the annuity payment for an individual to be reduced below zero.

"(C) An amount computed under subclause (I) or (II) of subparagraph (A)(i), or under subparagraph (B)(i)(I), for purposes of determining the amount of a reduction under this subsection shall be adjusted under section 8340 of this title.

"(4) A reduction under this subsection applies with respect to the annuity otherwise payable to such individual under this subchapter (other than under section 8337) for the month involved—

"(A) based on service of such individual; and

"(B) without regard to section 8345(j), if otherwise applicable.

"(5) The operation of the preceding paragraphs of this subsection shall not be considered for purposes of applying the provisions of the second sentence of section 215(a)(7)(B)(i) or the provisions of section 215(d)(5)(ii) of the Social Security Act in determining any amount under subclause (I) or (II) of paragraph (3)(A)(i) or paragraph (3)(B)(i)(I) for purposes of this subsection.

"(b)(1) Notwithstanding any other provision of this subchapter—

"(A) a disability annuity to which an individual described in section 8402(b)(2) is entitled under this subchapter, and

"(B) a survivor annuity to which a person is entitled under this subchapter based on the service of an individual described in section 8402(b)(2),

shall be subject to reduction under this subsection if that individual or person is also entitled (or would on proper application also be entitled) to any similar benefits under title II of the Social Security Act based on the wages and self-employment income of such individual described in section 8402(b)(2).

"(2)(A) Subject to subparagraph (B), reductions under this subsection shall be made in a manner consistent with the manner in which reductions under subsection (a) are computed and otherwise made.

"(B) Reductions under this subsection shall be discontinued if, or for so long as, entitlement to the similar benefits under title II of the Social Security Act (as referred to in paragraph (1)) is terminated (or, in the case of an individual who has not made proper application therefor, would be terminated).

"(3) For the purpose of applying section 224 of the Social Security Act to the disability insurance benefit used to compute the reduction under this subsection, the amount of the CSRS annuity considered shall be the amount of the CSRS annuity before application of this section.

"(4) The Office shall prescribe regulations to carry out this subsection.

"(c) For the purpose of this section, the term 'Federal service' means service which is employment for the purposes of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1954 by reason of the amendments made by section 101 of the Social Security Amendments of 1983.".

(2) The analysis for chapter 83 of title 5, United States Code, is amended by adding at the end thereof the following new item:

"8349. Offset relating to certain benefits under the Social Security Act.".

(c) CREDITABILITY OF INTERIM SERVICE.—Section 8334(c) of title 5, United States Code, is amended by adding at the end thereof the following: "Notwithstanding the preceding provisions of this subsection and any provision of section 206(b)(3) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, the percentage of basic pay required under this subsection in the case of an individual described in section 8402(b)(2) shall, with respect to any covered service (as defined by section 203(a)(3) of such Act) performed by such individual after December 31, 1983, and before January 1, 1987, be equal to 1.3 percent.".

SEC. 202. NON-APPLICABILITY OF CIVIL SERVICE RETIREMENT SYSTEM TO INDIVIDUALS UNDER FEDERAL EMPLOYEES' RETIREMENT SYSTEM.

(a) EMPLOYEES.—Section 8331(1) of title 5, United States Code, is amended—

(1) by amending clause (ii) to read as follows:

"(ii) an employee subject to another retirement system for Government employees (other than an employee described in clause (x);";

(2) by striking "or" at the end of clause (viii);

(3) by striking the period at the end of clause (ix) and inserting in lieu thereof "; or"; and

(4) by adding after clause (ix) the following:

"(x) an employee subject to the Federal Employees' Retirement System.".

(b) MEMBERS OF CONGRESS.—Section 8331(2) of title 5, United States Code, is amended by striking the semicolon and inserting in lieu thereof ", but does not include any such Member of Congress who is subject to the Federal Employees' Retirement System or who makes an election under section 8401(20) of this title not to be subject to such System;".

SEC. 203. PAY FOR THE EXECUTIVE DIRECTOR OF THE FEDERAL RETIREMENT THRIFT INVESTMENT BOARD.

Section 5314 of title 5, United States Code, is amended by adding at the end thereof the following:

"Executive Director, Federal Retirement Thrift Investment Board.".

SEC. 204. ALTERNATIVE FORMS OF ANNUITIES.

(a) IN GENERAL.—Title 5, United States Code, is amended by inserting after section 8343 the following:

"§ 8343a. Alternative forms of annuities

"(a) The Office of Personnel Management shall prescribe regulations under which an employee or Member may, at the time of retiring under this subchapter (other than under section 8337 of this title), elect annuity benefits under this section instead of any other benefits under this subchapter (including any benefits under section 8341 of this title) based on the service of the employee or Member.

"(b) Subject to subsection (c), the Office shall by regulation provide for such alternative forms of annuities as the Office considers appropriate, except that among the alternatives offered shall be—

"(1) an alternative which provides for—

"(A) payment of the lump-sum credit to the employee or Member; and

"(B) payment of an annuity to the employee or Member for life; and

"(2) in the case of an employee or Member who is married at the time of retirement, an alternative which provides for—

"(A) payment of the lump-sum credit to the employee or Member; and

"(B) payment of an annuity to the employee or Member for life, with a survivor annuity payable for the life of a surviving spouse.

"(c) Each alternative provided for under subsection (b) shall, to the extent practicable, be designed such that the present value of the benefits provided under such alternative (including any lump-sum credit) is actuarially equivalent to the present value of the annuity which would otherwise be provided the employee or Member under this subchapter, as computed under subsections (a)-(i) and (n) of section 8339 of this title.

"(d) An employee or Member who, at the time of retiring under this subchapter—

"(1) is married, shall be ineligible to make an election under this section unless a waiver is made under section 8339(j)(1) of this title; or

"(2) has a former spouse, shall be ineligible to make an election under this section if the former spouse is entitled to benefits under section 8341(h) or 8345(j) of this title (based on the service of the employee or Member) under the terms of a decree of divorce or annulment, or a court order or court-approved property settlement incident to any such decree, with respect to which the Office has been duly notified.

"(e) An employee or Member who is married at the time of retiring under this subchapter and who makes an election under this section may, during the 18-month period beginning on the date of retirement, make the election provided for under section 8339(o) of this title, subject to the deposit requirement thereunder.".

(b) CONFORMING AMENDMENTS.—(1) The analysis for chapter 83 of title 5, United States Code, is amended by inserting after the item relating to section 8343 the following:

"8343a. Alternative forms of annuities.".

(2) The second sentence of section 8342(a) of title 5, United States Code, is amended by striking "The" and inserting in lieu thereof "Except as provided in section 8343a of this title, the".

SEC. 205. RETIREMENT COUNSELING.

(a) IN GENERAL.—Subchapter III of chapter 83 of title 5, United States Code, as amended by section 201(b), is further amended by adding at the end thereof the following:

"§ 8350. Retirement counseling

"(a) For the purposes of this section, the term 'retirement counselor', when used with respect to an agency, means an employee of the agency who is designated by the head of the agency to furnish information on benefits under this subchapter and chapter 84 of this title and counseling services relating to

such benefits to other employees of the agency.

"(b) The Director of the Office of Personnel Management shall establish a training program for all retirement counselors of agencies of the Federal Government.

"(c)(1) The training program established under subsection (b)(1) of this section shall provide for comprehensive training in the provisions and administration of this subchapter and chapter 84 of this title, shall be designed to promote fully informed retirement decisions by employees and Members under this subchapter and individuals subject to chapter 84 of this title, and shall be revised as necessary to assure that the information furnished to retirement counselors of agencies under the program is current.

"(2) The Director shall conduct a training session under the training program at least once every 3 months.

"(3) Once each year, each retirement counselor of an agency shall successfully complete a training session conducted under the training program.".

(b) CHAPTER ANALYSIS.—The chapter analysis at the beginning of such chapter is amended by inserting after the item relating to section 8349 the following:

"8350. Retirement counseling.".

SEC. 206. PARTICIPATION BY CERTAIN EMPLOYEES AND MEMBERS ONLY IN THE THRIFT SAVINGS PLAN.

(a)(1) Subchapter III of chapter 83 of title 5, United States Code (as amended by sections 201(b) and 205(a) of this Act), is amended by adding at the end thereof the following new section:

"§ 8351. Participation in the Thrift Savings Plan

"(a)(1) An employee or Member may elect to contribute to the Thrift Savings Fund established by section 8437 of this title.

"(2) An election may be made under paragraph (1) only during a period provided under section 8432(b) for individuals who are subject to chapter 84 of this title.

"(b)(1) Except as otherwise provided in this subsection, the provisions of subchapters III and VII of chapter 84 of this title shall apply with respect to employees and Members making contributions to the Thrift Savings Fund under subsection (a) of this section.

"(2) An employee or Member may contribute to the Thrift Savings Fund in any pay period any amount not exceeding 5 percent of the amount of the employee's or Member's basic pay for such period.

"(3) No contributions may be made by an employing agency for the benefit of an employee or Member under section 8432(c) of this title.

"(4) Section 8433(b) of this title applies to any employee or Member who elects to make contributions to the Thrift Savings Fund under subsection (a) of this section and separates from Government employment entitled to an immediate annuity under this subchapter (including a disability retirement annuity under section 8337 of this title) or separates from Government employment entitled to benefits under subchapter I of chapter 81 of this title.

"(5) Section 8433(c) of this title applies to any employee or Member who elects to make contributions to the Thrift Savings Fund under subsection (a) of this section and separates entitled to a deferred annuity under this subchapter.

"(6) Section 8433(d) of this title applies to any employee or Member who elects to make contributions to the Thrift Savings Fund under subsection (a) of this section and separates from the service before becoming entitled to an immediate or deferred annuity under this subchapter.

"(7)(A) The provisions of section 8435 of this title that require a waiver or consent by the spouse of an employee or Member (or former employee or Member) shall not apply with respect to sums in the Thrift Savings Fund contributed by the employee or Member (or former employee or Member) and earnings in the fund attributable to such sums.

"(B) An election, change of election, or modification (relating to the commencement date of a deferred annuity) authorized by subchapter III of chapter 84 of this title shall be effective in the case of a married employee or Member, and a loan may be approved under section 8433(i) of this title in such case, only after the Executive Director notifies the employee's or Member's spouse that the election, change of election, or modification has been made or that the Executive Director has received an application for such loan, as the case may be.

"(C) Subparagraph (B) may be waived with respect to a spouse or former spouse if the employee or Member establishes to the satisfaction of the Executive Director of the Federal Retirement Thrift Investment Board that the whereabouts of such spouse or former spouse cannot be determined.

"(8) Sums contributed under this section and earnings attributable to such sums may be invested and reinvested only in the Government Securities Investment Fund established under section 8438(b)(1)(A) of this title.

"(c) The Executive Director of the Federal Retirement Thrift Investment Board may prescribe regulations to carry out this section.".

(2) The analysis for chapter 83 of such title is amended by adding at the end thereof the following:

"8351. Participation in the Thrift Savings Plan.".

(b) An election may first be made by an employee of the Federal Government or a Member of Congress under section 8351 of title 5, United States Code (as added by subsection (a)(1)), during the first period referred to in subsection (a)(2) of such section which commences on or after July 1, 1987.

SEC. 207. MISCELLANEOUS AMENDMENTS.

(a) AMENDMENT TO SECTION 2105.—Section 2105(c)(2) of title 5, United States Code, is amended by striking out "chapter 81" and inserting in lieu thereof "chapter 81, chapter 84,".

(b) AMENDMENT TO SECTION 2109.—Section 2109(1) of title 5, United States Code, is amended to read as follows:

"(1) 'air traffic controller' or 'controller' means a civilian employee of the Department of Transportation or the Department of Defense who, in an air traffic control facility or flight service station facility—

"(A) is actively engaged—

"(i) in the separation and control of air traffic; or

"(ii) in providing preflight, inflight, or airport advisory service to aircraft operators; or

"(B) is the immediate supervisor of any employee described in subparagraph (A); and".

(c) AMENDMENT TO SECTION 6301.—Section 6301(2)(B) of title 5, United States Code, is amended to read as follows:

"(B) an individual first employed by the government of the District of Columbia before October 1, 1987;".

(d) AMENDMENT TO SECTION 6303.—The second sentence of section 6303(a) of title 5, United States Code, is amended by striking out "title." and inserting in lieu thereof "title and all service creditable under section 8411 of this title for the purpose of chapter 84 of this title.".

(e) AMENDMENT TO SECTION 8116.—Section 8116 of title 5, United States Code, is amended by adding at the end thereof the following:

"(d) Notwithstanding the other provisions of this section, an individual receiving benefits for disability or death under this subchapter who is also receiving benefits under subchapter III of chapter 84 of this title or benefits under title II of the Social Security Act shall be entitled to all such benefits, except that—

"(1) benefits received under section 223 of the Social Security Act (on account of disability) shall be subject to reduction on account of benefits paid under this subchapter pursuant to the provisions of section 224 of the Social Security Act; and

"(2) in the case of benefits received on account of age or death under title II of the Social Security Act, compensation payable under this subchapter based on the Federal service of an employee shall be reduced by the amount of any such social security benefits payable that are attributable to Federal service of that employee covered by chapter 84 of this title. However, eligibility for or receipt of benefits under chapter 84 of this title, or benefits under title II of the Social Security Act by virtue of service covered by chapter 84 of this title, does not affect the right of the employee to compensation for scheduled disabilities specified by section 8107(c) of this title.".

(f) AMENDMENTS TO SECTION 8331.—Section 8331(1) of title 5, United States Code, as amended by section 202(a), is further amended—

(1) by amending subparagraph (G) to read as follows:

"(G) an individual first employed by the government of the District of Columbia before October 1, 1987;"; and

(2) by striking out "or" at the end of clause (ix), by striking out the period at the end of clause (x) and inserting in lieu thereof "; or", and by adding after clause (x) the following:

"(xi) an employee under the Botanic Garden excluded by the Director or Acting Director of the Botanic Garden under section 8347(l) of this title.".

(g) AMENDMENTS TO SECTION 8332.—(1) Section 8332(b) of title 5, United States Code, is amended—

(A) by striking "and" at the end of paragraph (12), striking the period at the end of the first paragraph (13) and inserting a semicolon, redesignating the second paragraph (13) as paragraph (14), and striking the period at the end of such paragraph (14) (as so redesignated) and inserting "; and";

(B) by inserting after paragraph (14) (as so redesignated by subparagraph (A)) the following:

"(15) subject to section 8334(c) and 8339(i) of this title, service performed on or after January 3, 1969, and before January 4, 1973, as the Washington Representative for Guam or the Washington Representative for the Virgin Islands, only if the individual serves as a Member for a period of at least five years after January 2, 1973.";

(C) in the second sentence after paragraph (15) (as added by subparagraph (B)), by striking "(13)" and inserting "(14)"; and

(D) by adding at the end thereof the following: "For the purpose of this subchapter, service of the type described in paragraph

(15) of this subsection shall be considered Member service.".

(2) The last sentence of section 8332(f) of title 5, United States Code, is amended by striking "(13)" and inserting "(14)".

(3) The last sentence of section 8332(k)(1) of title 5, United States Code, is amended by striking "second" and inserting "third".

(h) AMENDMENTS TO SECTION 8342.—Section 8342(a) of title 5, United States Code, is amended—

(1) in paragraphs (1)(B) and (3), by inserting ", or chapter 84 of this title," after "subchapter"; and

(2) by adding at the end the following: "In applying this subsection with respect to an employee or Member who becomes subject to chapter 84 of this title, entitlement to payment of the lump-sum credit shall be determined without regard to paragraph (1) or (3) if, and to the extent that, such lump-sum credit relates to service of a type described in clauses (i) through (iii) of section 302(a)(1)(C) of the Federal Employees' Retirement System Act of 1986.".

(i) AMENDMENT TO SECTION 8347.—Section 8347 of title 5, United States Code, is amended by adding at the end thereof the following:

"(n)(1) Notwithstanding any other provision of this subchapter, the Director of Central Intelligence shall, in a manner consistent with the administration of this subchapter by the Office, and to the extent considered appropriate by the Director of Central Intelligence—

"(A) determine entitlement to benefits under this subchapter based on the service of employees of the Central Intelligence Agency;

"(B) maintain records relating to the service of such employees;

"(C) compute benefits under this subchapter based on the service of such employees;

"(D) collect deposits to the Fund made by such employees, their spouses, and their former spouses;

"(E) authorize and direct disbursements from the Fund to the extent based on service of such employees; and

"(F) perform such other functions under this subchapter as the Director of Central Intelligence, in consultation with the Director of the Office of Personnel Management, determines to be appropriate.

"(2) The Director of the Office of Personnel Management shall furnish such information and, on a reimbursable basis, such services to the Director of Central Intelligence as the Director of Central Intelligence requests to carry out paragraph (1) of this subsection.

"(3)(A) The Director of Central Intelligence, in consultation with the Director of the Office of Personnel Management, shall by regulation prescribe appropriate procedures to carry out this subsection.

"(B) The regulations shall provide procedures for the Director of the Office of Personnel Management to inspect and audit disbursements from the Civil Service Retirement and Disability Fund under this subchapter.

"(C) The Director of Central Intelligence shall submit the regulations prescribed under subparagraph (A) to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives before the regulations take effect.

"(4)(A) Section 201(c) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees shall apply in the administration of this subchapter to the extent that the provisions of this subchapter are administered under this subsection.

"(B) Notwithstanding subparagraph (A) of this paragraph, section 8347(d) of this title shall apply with respect to employees of the Central Intelligence Agency who are subject to the Civil Service Retirement System.".

(j) AMENDMENTS TO SECTION 8348.—Section 8348(a) of title 5, United States Code, is amended—

(1) in paragraph (1)(A), by striking out "subchapter;" and inserting in lieu thereof "subchapter or by the provisions of chapter 84 of this title which relate to benefits payable out of the Fund;";

(2) in paragraph (1)(B)—

(A) by inserting "or 8462" after "8340"; and

(B) by striking out "title, and" and inserting in lieu thereof "title or subchapters II and IV of chapter 84 of this title, and"; and

(3) in paragraph (2), by striking out "chapter" and inserting in lieu thereof "chapter, chapter 84 of this title,".

(k) AMENDMENTS TO CHAPTER 87.—Chapter 87 of title 5, United States Code, is amended—

(1) by amending section 8701(a)(6) to read as follows:

"(6) an individual first employed by the government of the District of Columbia before October 1, 1987;";

(2) in section 8706, by striking out subsection (c) and redesignating subsections (d), (e), and (f) as subsections (c), (d), and (e), respectively;

(3) by striking out subsection (c)(1) of section 8714a and inserting in lieu thereof the following:

"(c)(1) Except as otherwise provided in this subsection, the optional insurance on an employee stops on his separation from service or 12 months after discontinuance of his pay, whichever is earlier, subject to a provision for temporary extension of life insurance coverage and for conversion to an individual policy of life insurance under conditions approved by the Office.";

(4) by striking out the first sentence of section 8714b(c)(1) and inserting in lieu thereof the following: "Except as otherwise provided in this subsection, the additional optional insurance elected by an employee pursuant to this section shall stop on separation from service or 12 months after discontinuance of his pay, whichever is earlier, subject to a provision for temporary extension of life insurance coverage and for conversion to an individual policy of life insurance under conditions approved by the Office."; and

(5) by striking out subsection (c)(1) of section 8714c and inserting in lieu thereof the following:

"(c)(1) Except as otherwise provided in this subsection, the optional life insurance on family members shall stop at the earlier of the employee's death, the employee's separation from the service, or 12 months after discontinuance of pay, subject to a provision for temporary extension of life insurance coverage and for conversion to individual policies of life insurance under conditions approved by the Office.".

(l) AMENDMENTS TO SECTION 8901.—Section 8901 of title 5, United States Code, is amended—

(1) by amending paragraph (1)(E) to read as follows:

"(E) an individual first employed by the government of the District of Columbia before October 1, 1987;";

(2) by amending paragraph (3)(A) to read as follows:

"(A) an employee who retires—

"(i) on an immediate annuity under subchapter III of chapter 83 of this title, or another retirement system for employees of the Government, after 5 or more years of service;

"(ii) under section 8412 or 8414 of this title; or

"(iii) for disability under subchapter III of chapter 83 of this title, chapter 84 of this title, or another retirement system for employees of the Government;";

(3) in paragraph (4), by inserting "or chapter 84" after "83";

(4) in paragraph (10)(C)(i), by inserting "or 8467" after "8345(j)", by inserting "or 8445" after "8341(h)", and by striking out "System)," and inserting in lieu thereof "System or the Federal Employees' Retirement System),"; and

(5) in paragraph (10)(C)(ii)—

(A) by striking out "or 8345(j)" and inserting in lieu thereof "8345(j), 8445, or 8467" and by striking out "System)" and inserting in lieu thereof "System or the Federal Employees' Retirement System)"; and

(B) by inserting "or 8417(b)" after "8339(j)(3)".

(m) AMENDMENTS TO SECTION 8905.—Section 8905(c)(1) of title 5, United States Code, is amended—

(1) in subparagraph (B), by inserting "or 8417(b)" after "8339(j)(3)"; and

(2) in the second sentence, by striking out "or 8345(j)" and inserting in lieu thereof "8345(j), 8445, or 8467".

(n) AMENDMENT TO SECTION 5102.—Section 5102(c)(14) of title 5, United States Code, is amended by inserting "(other than employees of the Federal Retirement Thrift Investment Management System appointed under section 8474(c)(2) of this title)" after "United States".

TITLE III—OTHER PROVISIONS RELATING TO THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM AND THE CIVIL SERVICE RETIREMENT SYSTEM

SEC. 301. ELECTIONS.

(a) ELECTIONS FOR INDIVIDUALS SUBJECT TO THE CIVIL SERVICE RETIREMENT SYSTEM.—(1)(A) Any individual (other than an individual under subsection (b)) who, as of June 30, 1987, is employed by the Federal Government, and who is then subject to subchapter III of chapter 83 of title 5, United States Code, may elect to become subject to chapter 84 of such title.

(B) An election under this paragraph may not be made before July 1, 1987, or after December 31, 1987.

(2)(A) Any individual who, after June 30, 1987, becomes reemployed by the Federal Government, and who is then subject to subchapter III of chapter 83 of title 5, United States Code, may elect to become subject to chapter 84 of such title.

(B) An election under this paragraph shall not be effective unless it is made during the six-month period beginning on the date on which reemployment commences.

(b) ELECTIONS FOR CERTAIN INDIVIDUALS SERVING CONTINUOUSLY SINCE DECEMBER 31, 1983.—The following rules shall apply in the case of any individual described in section 8402(b)(1) of title 5, United States Code:

(1) If, as of December 31, 1986, the individual is subject to subchapter III of chapter 83 of title 5, United States Code, but is not subject to section 204 of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, the individual shall remain so subject to such subchapter unless the individual elects, after June 30, 1987, and before January 1, 1988—

(A) to become subject to such subchapter under the same terms and conditions as apply in the case of an individual described in section 8402(b)(2) of such title who is subject to such subchapter; or

(B) to become subject to chapter 84 of such title.

An individual eligible to make an election under this paragraph may make the election described in subparagraph (A) or (B), but not both.

(2) If, as of December 31, 1986, the individual is subject to subchapter III of chapter 83 of title 5, United States Code, and is also subject to section 204 of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, the individual—

(A) shall, as of January 1, 1987, become subject to such subchapter under the same terms and conditions as apply in the case of an individual described in section 8402(b)(2) of such title who is subject to such subchapter; and

(B) may (during the six-month period described in subsection (a)(1)(B)) elect to become subject to chapter 84 of such title.

(3)(A)(i) If, as of December 31, 1986, the individual is not subject to subchapter III of chapter 83 of title 5, United States Code, the individual may, during the six-month period described in subsection (a)(1)(B), and if such individual has not since become subject to such subchapter pursuant to notification under section 8331(2) of such title, elect to become subject to chapter 84 of such title.

(ii) An individual who makes an election under this subparagraph ceases to be eligible to become subject to subchapter III of chapter 83 of title 5, United States Code, pursuant to notification under section 8331(2) of such title.

(B) Except as provided in subparagraph (A)(ii), nothing in this paragraph shall preclude an individual from becoming subject to subchapter III of chapter 83 of title 5, United States Code, pursuant to notification under section 8331(2) of such title. However, an individual who becomes subject to such subchapter pursuant to notification under such section 8331(2) after December 31, 1986, shall become subject to such subchapter under the same terms and conditions as apply in the case of an individual described in section 8402(b)(2) of such title who is subject to such subchapter.

(c) EFFECTIVE DATE; IRREVOCABILITY.—An election made under this section—

(1) shall take effect beginning with the first pay period beginning after the date of the election; and

(2) shall be irrevocable.

(d) CONDITION FOR MAKING AN ELECTION; EXTENSION TO SATISFY CONDITION.—(1) An election under this section to become subject to chapter 84 of title 5, United States Code, shall not be considered effective in the case of an individual having one or more former spouses, unless the election is made with the written consent of such former spouse (or each such former spouse, if there is more than one).

(2)(A) This subsection applies with respect to a former spouse who (based on the service of the individual involved) is entitled to benefits under section 8341(h) or 8345(j) of title 5, United States Code, under the terms of a decree of divorce or annulment, or a court order or court-approved property settlement incident to any such decree, with respect to which the Office of Personnel Management has been duly notified.

(B) This subsection does not apply with respect to a former spouse who has ceased to be so entitled as a result of remarrying before age 55.

(3) The requirement under paragraph (1) shall be considered satisfied with respect to a former spouse if the individual seeking to make the election establishes to the satisfaction of the Office (in accordance with regulations prescribed by the Office)—

(A) that the former spouse's whereabouts cannot be determined; or

(B) that, due to exceptional circumstances, requiring the individual to seek the former spouse's consent would otherwise be inappropriate.

(4)(A) The Office shall, upon application of an individual, grant an extension for such individual to make an election referred to in paragraph (1) if such individual—

(i) files application for extension before the end of the period during which such individual would otherwise be eligible to make such election; and

(ii) demonstrates to the satisfaction of the Office that the extension is needed to secure the modification of a decree of divorce or annulment (or a court order or court-approved property settlement incident to any such decree) in order to satisfy the consent requirement under paragraph (1).

(B) An extension under this paragraph shall be for 6 months or for such longer period as the Office considers appropriate.

(e) EXCLUSIONS.—This section does not apply to an individual under section 8331(1)(G) of title 5, United States Code.

SEC. 302. EFFECT OF AN ELECTION UNDER SECTION 301 TO BECOME SUBJECT TO THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM.

(a) GENERAL AND SPECIAL RULES.—All provisions of chapter 84 of title 5, United States Code (including those relating to disability benefits, survivor benefits, and any reductions to provide for survivor benefits) shall apply with respect to any individual who becomes subject to such chapter pursuant to an election under section 301, except if, or to the extent that, such provisions are inconsistent with the following:

(1)(A) Any civilian service which is performed before the effective date of the election under section 301 shall not be creditable under chapter 84 of title 5, United States Code, except as otherwise provided in this subsection.

(B) Any service described in subparagraph (A) which is covered service within the meaning of section 203(a)(3) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 (97 Stat. 1107; 5 U.S.C. 8331 note) (hereinafter in this section referred to as "covered service") shall be creditable under chapter 84 of title 5, United States Code, if—

(i) with respect to any such service performed before January 1, 1987, 1.3 percent of basic pay for such service was withheld in accordance with such Act or, if either such withholding was not made or was made, but the amount so withheld was subsequently refunded, 1.3 percent of basic pay for such period is deposited to the credit of the Civil Service Retirement and Disability Fund (hereinafter in this section referred to as the "Fund"), with interest (computed under section 8334(e) of such title); and

(ii) with respect to any such service performed after December 31, 1986, and before the effective date of the election, an amount equal to the percentage of basic pay for such service which would be required to be withheld under section 8422(a) of title 5, United States Code, has been contributed to the Fund by the individual involved, whether by withholdings from pay or, if either no withholding was made or was made, but the amount withheld was subsequently refunded, the aforementioned percentage of basic pay for such period is deposited to the credit of the Fund, with interest (computed under section 8334(e) of such title).

(C) Any service described in subparagraph (A)—

(i) which is not covered service;

(ii) which constitutes service of a type described in section 8411(b)(3) of title 5, United States Code (determined without regard to whether such service was performed before, on, or after January 1, 1989, and without regard to the provisions of section 8411(f) of such title); and

(iii) which, in the aggregate, is equal to less than 5 years;

shall be creditable under chapter 84 of such title, subject to section 8411(f) of such title.

(D) Any service described in subparagraph (A)—

(i) which is not covered service;

(ii) which constitutes service of a type described in section 8411(b)(3) of title 5, United States Code (determined without regard to whether such service was performed before, on, or after January 1, 1989, and without regard to the provisions of section 8411(f) of such title); and

(iii) which, in the aggregate, is equal to 5 years or more;

shall be creditable for purposes of—

(I) section 8410 of such title, relating to the minimum period of civilian service required to be eligible for an annuity;

(II) any provision of section 8412 (other than subsection (d) or (e) thereof), 8413, 8414, 8442(b)(1)(B), or 8451 of such title which relates to a minimum period of service for entitlement to an annuity;

(III) the provisions of paragraphs (4) and (6);

(IV) any provision of section 8412(d) of such title which relates to a minimum period of service for entitlement to an annuity, but only if and to the extent that the service described in subparagraph (A) was as a law enforcement officer or firefighter; and

(V) any provision of section 8412(e) of such title which relates to a minimum period of service for entitlement to an annuity, but only if and to the extent that the service described in subparagraph (A) was as an air traffic controller.

(2)(A) Except as provided in subparagraph (B), the creditability under chapter 84 of title 5, United States Code, of any military service which is performed before the effective date of the election under section 301 shall be determined in accordance with applicable provisions of such chapter.

(B) If the electing individual has performed service described in clauses (i) through (iii) of paragraph (1)(D), service described in subparagraph (A) which, but for the provisions of subsection (b), would be creditable under subchapter III of chapter 83 of title 5, United States Code, as in effect on December 31, 1986, shall be creditable for purposes of—

(i) any provision of section 8412 (other than subsection (d) or (e) thereof), 8413, or 8414 of such title which relates to a minimum period of service for entitlement to an annuity; and

(ii) the provisions of paragraph (4).

(3)(A)(i) If the electing individual becomes entitled to an annuity under subchapter II of chapter 84 of title 5, United States Code, or dies leaving a survivor or survivors entitled to benefits under subchapter IV of such

chapter, the annuity for such individual shall be equal to the sum of the individual's accrued benefits under the Civil Service Retirement System (as determined under paragraph (4)) and the individual's accrued benefits under the Federal Employees' Retirement System (as determined under paragraph (5)).

(ii) An annuity computed under this subparagraph shall be deemed to be the individual's annuity computed under section 8415 of title 5, United States Code.

(B) If the electing individual becomes entitled to an annuity under subchapter V of chapter 84 of title 5, United States Code, and if it becomes necessary to compute an annuity under section 8415 of such title with respect to such individual as a result of such individual's having become so entitled, the methodology set forth in subparagraph (A) shall be used in computing any such annuity under section 8415.

(4) Except as provided in paragraph (12)(B), accrued benefits under this paragraph shall be computed in accordance with applicable provisions of subchapter III of chapter 83 of title 5, United States Code (but without regard to subsection (j) or (k), or the second sentence of subsection (e), of section 8339 of such title) using only any civilian service under paragraph (1)(D), and any military service under paragraph (2)(B), which would be creditable for purposes of computing an annuity under such subchapter.

(5) Accrued benefits under this paragraph shall be computed under section 8415 of title 5, United States Code, using—

(A) total service creditable under chapter 84 of such title which is performed on or after the effective date of the election under section 301; and

(B) with respect to service performed before such effective date—

(i) creditable civilian service (as determined under applicable provisions of this subsection) other than any service described in paragraph (1)(D); and

(ii) creditable military service (as determined under applicable provisions of this subsection) other than any service described in paragraph (2)(B).

(6)(A) For purposes of any computation under paragraph (4) or (5), the average pay to be used shall be the largest annual rate resulting from averaging the individual's rates of basic pay in effect over any 3 consecutive years of creditable service or, in the case of an annuity based on service of less than 3 years, over the total period of service so creditable, with each rate weighted by the period it was in effect.

(B) For purposes of subparagraph (A), service shall be considered creditable if it would be considered creditable for purposes of determining average pay under chapter 83 or 84 of title 5, United States Code.

(7) The cost-of-living adjustments for the annuity of the electing individual shall be made as follows:

(A) The portion of the annuity attributable to paragraph (4) shall be adjusted at the time and in the amount provided for under section 8340 of title 5, United States Code.

(B) The portion of the annuity attributable to paragraph (5) shall be adjusted at the time and in the amount provided for under section 8462 of title 5, United States Code.

(8) For purposes of any computation under paragraph (4) in the case of an individual who retires under section 8412 or 8414 of title 5, United States Code, or who dies leaving a survivor or survivors entitled to benefits under subchapter IV of such chapter, sick leave creditable under section 8339(m) of such title shall be equal to the number of days of unused sick leave to the individual's credit as of the date of retirement or as of the effective date of the individual's election under section 301, whichever is less.

(9) In computing the annuity under paragraph (3) for an individual retiring under section 8412(g) or 8413(b) of title 5, United States Code, the reduction under section 8415(f) of such title shall apply with respect to the sum computed under such paragraph.

(10) An annuity supplement under section 8421 of title 5, United States Code, shall be computed using the same service as is used for the computation under paragraph (5).

(11) Effective from its commencing date, an annuity payable to an annuitant's survivor (other than a child under section 8443 of title 5, United States Code) shall be increased by the total percent by which the deceased annuitant's annuity was increased under paragraph (7).

(12)(A) If the electing individual is subject to section 8344 of title 5, United States Code, at the time of making the election, payment of annuity benefits otherwise payable to such individual under subchapter III of chapter 83 of such title (and any related deductions from pay) shall terminate as of the effective date of the election.

(B) Accrued benefits under paragraph (4) for an individual described in subparagraph (A) shall be computed—

(i) in accordance with applicable provisions of subchapter III of chapter 83 of title 5, United States Code (but without regard to subsection (j) or (k), or the second sentence of subsection (e), of section 8339 of such title) using only any civilian service under paragraph (1)(D), and any military service under paragraph (2)(B), which would be creditable for purposes of computing an annuity under such subchapter; and

(ii) as if the individual's reemployment terminated on the effective date of the election.

(b) CHAPTER 83 GENERALLY INAPPLICABLE.—(1) Except as provided in subsection (a) or paragraph (2), subchapter III of chapter 83 of title 5, United States Code, shall not apply with respect to any individual who becomes subject to chapter 84 of title 5, United States Code, pursuant to an election under section 301.

(2) Nothing in paragraph (1), or in subchapter III of chapter 83 of title 5, United States Code, shall preclude—

(A) the making of a deposit under such subchapter with respect to any civilian service under subsection (a)(1)(D) or military service under subsection (a)(2)(B) either by the electing individual or, for purposes of survivor annuities, by a survivor of such individual.

(B) Nothing in paragraph (1) shall preclude the payment of any lump-sum credit in accordance with section 8342 of title 5, United States Code.

(c) REFUNDS RELATING TO CERTAIN CIVILIAN SERVICE.—(1) Any individual who makes an election under section 301 to become subject to chapter 84 and who, with respect to any period before the effective date of the election, has made a contribution to the Civil Service Retirement System (whether by deductions from pay or by a deposit or redeposit) and has not taken a refund of the contribution (as so made), shall be entitled to a refund equal to—

(A) for a period of service under clause (i) of subsection (a)(1)(B), the amount by which—

(i) the amount contributed with respect to such period, exceeds

(ii) the amount required under such clause (i) with respect to such period;

(B) for a period of service under clause (ii) of subsection (a)(1)(B), the amount by which—

(i) the amount so contributed with respect to such period, exceeds

(ii) the amount required under such clause (ii) with respect to such period; and

(C) for a period of service under subparagraph (C) of subsection (a)(1), the amount by which—

(i) the amount so contributed with respect to such period, exceeds

(ii) the amount required under such subparagraph with respect to such period.

(2) A refund under this subsection—

(A) shall be payable with interest, computed at the rate applicable for the period involved under section 8331(8)(C) of title 5, United States Code, but only if such interest would be payable pursuant to an application for a lump-sum credit appropriately filed under subchapter III of chapter 83 of such title; and

(B) shall be payable upon written application therefor filed with the Office of Personnel Management.

SEC. 303. PROVISIONS RELATING TO AN ELECTION TO BECOME SUBJECT TO CHAPTER 83 SUBJECT TO CERTAIN OFFSETS RELATING TO SOCIAL SECURITY.

(a) REFUND.—Any individual who makes an election under section 301(b)(1)(A) shall, upon written application to the Office of Personnel Management, be entitled to a refund equal to—

(1) for the period beginning on January 1, 1984, and ending on December 31, 1986, the amount by which—

(A) the total amount deducted from such individual's basic pay under such section 8334(a)(1) for such period, exceeds

(B) the total amount which would have been deducted if such individual's basic pay had instead been subject to section 8334(k) of such title during such period.

(b) DEPOSIT REQUIREMENTS.—(1) In the case of an individual who becomes subject to subchapter III of chapter 83 of title 5, United States Code, pursuant to notification as described in the second sentence of section 301(b)(3)(B), service performed by such individual before the effective date of the notification shall not be considered creditable under such subchapter unless—

(A) for any service during the period beginning on January 1, 1987, and ending on the day before such effective date, there is deposited to the credit of the Fund a percentage of basic pay for such period equal to the percentage which would have applied under section 8334(k) of such title if such individual's pay had been subject to such section during such period;

(B) for any period of service beginning on January 1, 1984, and ending on December 31, 1986, there is deposited to the credit of the Fund an amount equal to 1.3 percent of basic pay for such period; and

(C) for any period of service before January 1, 1984, there is deposited to the credit of the Fund any amount required with respect to such period under such subchapter.

(2) A deposit under this subsection may be made by the individual or, for purposes of survivor annuities, a survivor of such individual.

SEC. 304. AMENDMENTS RELATING TO SOCIAL SECURITY.

(a) AMENDMENTS TO SOCIAL SECURITY ACT.—Section 210(a)(5) of the Social Security Act is amended—

(1) by striking out "or" at the end of subparagraph (F);

(2) by striking out the semicolon at the end of subparagraph (G) and inserting in lieu thereof ", or"; and

(3) by adding at the end thereof the following:

"(H) service performed by an individual on or after the effective date of an election by such individual under section 301(a) of the Federal Employees' Retirement System Act of 1986, or under regulations issued under section 860 of the Foreign Service Act of 1980 or section 307 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, to become subject to chapter 84 of title 5, United States Code;".

(b) AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1954.—Section 3121(b)(5) of the Internal Revenue Code of 1954 is amended—

(1) by striking out "or" at the end of subparagraph (F);

(2) by striking out the semicolon at the end of subparagraph (G) and inserting in lieu thereof ", or"; and

(3) by adding at the end thereof the following:

"(H) service performed by an individual on or after the effective date of an election by such individual under section 301(a) of the Federal Employees' Retirement System Act of 1986, or under regulations issued under section 860 of the Foreign Service Act of 1980 or section 307 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, to become subject to chapter 84 of title 5, United States Code;".

SEC. 305. EXTENSION OF FEDERAL EMPLOYEES' RETIREMENT CONTRIBUTION TEMPORARY ADJUSTMENT ACT OF 1983; REFUND OF EXCESS CONTRIBUTIONS.

(a) EXTENSION.—The Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 (97 Stat. 1106; 5 U.S.C. 8331 note) is amended—

(1) in sections 202(6), 203(a)(4)(A), 203(a)(4)(B), 204(a), and 206(b)(2)(A)(i) by striking "May 1, 1986" each place it appears and inserting "January 1, 1987", and in sections 202(1) and 206(c)(3) by striking "January 1, 1986" and inserting "January 1, 1987"; and

(2) in subsections (b) and (c) of section 205, by striking out "and 1986" and inserting in lieu thereof "1986, and 1987".

(b) REFUNDS.—(1) The amendments made by subsection (a) shall be effective as of May 1, 1986.

(2) Any refund payable to an individual as a result of paragraph (1) shall be paid out of funds of the appropriate retirement system.

(3) For purposes of this subsection, the term "retirement system" means a covered retirement system as defined by section 203(a)(2) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 (97 Stat. 1107; 5 U.S.C. 8331 note).

SEC. 306. APPLICABILITY TO THE UNITED STATES POSTAL SERVICE.

Section 1005(d) of title 39, United States Code, is amended to read as follows:

"(d) Officers and employees of the Postal Service (other than the Governors) shall be covered by chapters 83 and 84 of title 5. The Postal Service shall withhold from pay and shall pay into the Civil Service Retirement and Disability Fund the amounts specified in or determined under such chapter 83 and subchapter II of such chapter 84, respectively. The Postal Service shall pay into the Federal Retirement Thrift Savings Fund the amounts specified in or determined under subchapters III and VII of such chapter 84.".

SEC. 307. USE OF "NORMAL-COST PERCENTAGE".

Notwithstanding any other provision of law, the normal-cost percentage (as defined by section 8401(23) of title 5, United States Code, as added by this Act) of the Federal Employees' Retirement System shall be used to value the cost of the System for all purposes in which the cost of the System is required to be determined by the Federal Government, including any comparisons between the cost of performing commercial activities under contract with commercial sources and the cost of performing those activities using Government facilities and personnel.

SEC. 308. RETIREMENT STUDY.

(a) STUDY AND PLAN.—The Secretary of Defense and Secretary of Transportation shall conduct a study of the retirement systems provided for employees of nonappropriated fund instrumentalities of the United States under their respective jurisdictions and shall develop a feasible plan or plans to provide portability of vested retirement benefits among such retirement systems and other Federal Government retirement systems.

(b) REPORT.—Not later than 90 days after the date of enactment of this Act, the Secretary of Defense and Secretary of Transportation shall transmit a report to the Congress describing the plan or plans developed pursuant to subsection (a) and the anticipated schedule for the implementation of such plan or plans.

SEC. 309. REPEAL OF AUTOMATIC TRANSFER PROVISION.

Section 207 of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 (97 Stat. 1111; 5 U.S.C. 8331 note) is repealed.

SEC. 310. DISCLOSURE OF RETURN INFORMATION.

(a) IN GENERAL.—Subsection (l) of section 6103 of the Internal Revenue Code of 1954 (relating to disclosure of returns and return information for purposes other than tax administration) is amended by adding at the end thereof the following new paragraph:

"(12) DISCLOSURE OF RETURN INFORMATION TO CARRY OUT FEDERAL EMPLOYEES' RETIREMENT SYSTEM.—

"(A) IN GENERAL.—The Commissioner of Social Security shall, on written request, disclose to the Office of Personnel Management return information from returns with respect to net earnings from self-employment (as defined in section 1402), wages (as defined in section 3121(a) or 3401(a)), and payments of retirement income, which have been disclosed to the Social Security Administration as provided by paragraph (1) or (5).

"(B) RESTRICTION ON DISCLOSURE.—The Commissioner of Social Security shall disclose return information under subparagraph (A) only for purposes of, and to the extent necessary in, the administration of chapters 83 and 84 of title 5, United States Code."

(b) CONFORMING AMENDMENTS.—

(1) Subparagraph (A) of section 6103(p)(3) of such Code is amended by striking out "(10), or (11)" and inserting in lieu thereof "(10), (11), or (12)".

(2) Paragraph (4) of section 6103(p) of such Code is amended—

(A) by striking out "(10), or (11)" in the material preceding subparagraph (A) and inserting in lieu thereof "(10), (11), or (12)", and

(B) by striking out "(10), or (11)" in subparagraph (F)(ii) and inserting in lieu thereof "(10), (11), or (12)".

(c) REIMBURSEMENT.—The Office of Personnel Management shall reimburse the costs (as determined by the Secretary of Health and Human Services) of supplying—

(1) information under section 6103(l)(12) of the Internal Revenue Code of 1954; and

(2) such other information agreed upon by the Director of the Office of Personnel Management and the Secretary of Health and Human Services, which is required in the administration of chapters 83 and 84 of title 5, United States Code.

Section 1106 (b) and (c) of the Social Security Act shall apply to any reimbursement under this subsection.

SEC. 311. INITIAL APPOINTMENTS TO THE FEDERAL RETIREMENT THRIFT INVESTMENT BOARD.

(a) INITIAL APPOINTMENT OF MEMBERS.—Section 8472(c) of title 5, United States Code (as added by section 101(a) of this Act) shall not apply to the members of the Federal Retirement Thrift Investment Board first appointed to such Board.

(b) TERMS OF SERVICE.—Notwithstanding subsection (e)(1) of section 8472 of title 5, United States Code (as added by section 101(a) of this Act), the term of service of each member of the Federal Retirement Thrift Investment Board appointed pursuant to subsection (a) shall be 1 year, except that such member shall continue to serve until his successor is appointed under subsection (b) of such section 8472 and confirmed under subsection (c) of such section.

SEC. 312. PLAN FOR DELAYED CONTRIBUTIONS TO THE THRIFT SAVINGS FUND.

Not later than January 1, 1988, the Executive Director of the Federal Retirement Thrift Investment Board shall transmit to Congress a plan to afford employees of the Federal Government and Members of Congress who make less than the maximum amount of authorized contributions to the Thrift Savings Fund in any period an opportunity to contribute to such Fund, in a later period, the excess of such amount over the amount contributed during such period. The plan shall include such recommendations for legislation as the Executive Director considers appropriate.

TITLE IV—FOREIGN SERVICE RETIREMENT

SEC. 401. SHORT TITLE; REFERENCES TO FOREIGN SERVICE ACT OF 1980.

(a) SHORT TITLE.—This title may be cited as the "Foreign Service Pension System Act of 1986".

(b) AMENDMENTS TO FOREIGN SERVICE ACT OF 1980.—Whenever in this title a section or other provision is amended, such amendment shall be considered to be made to that section or other provision of the Foreign Service Act of 1980 (22 U.S.C. 3901 et seq.).

SEC. 402. REDESIGNATION OF CERTAIN PROVISIONS OF THE FOREIGN SERVICE ACT OF 1980.

(a) CONFORMING CHAPTER AMENDMENTS.—Chapter 8 of title I (22 U.S.C. 4041 et seq.) is amended—

(1) by striking out the caption of such chapter and inserting in lieu thereof the following:

"CHAPTER 8—FOREIGN SERVICE RETIREMENT AND DISABILITY

"SUBCHAPTER I—FOREIGN SERVICE RETIREMENT AND DISABILITY SYSTEM"

(2) by striking out "this chapter" each place it appears and inserting in lieu thereof "this subchapter"; and

(3) by inserting "under this subchapter" after "payable from the Fund" each place it appears.

(b) CONFORMING AMENDMENTS RELATING TO RETIREMENT FOR DISABILITY OR INCAPACITY.—(1) Section 808(d) (22 U.S.C. 4048(d)) is amended—

(A) by striking out "such subchapter" each place it appears in the second and third sentences and inserting in lieu thereof "subchapter I of such chapter 8"; and

(B) by striking out "Act" each place it appears and inserting in lieu thereof "subchapter".

(2) Section 808(e) (22 U.S.C. 4048(e)) is amended by striking out "Act" each place it appears and inserting in lieu thereof "subchapter".

(c) CONFORMING AMENDMENTS RELATING TO DEATH IN SERVICE.—Section 809(a) (22 U.S.C. 4049(a)) is amended by striking out "Act" and inserting in lieu thereof "subchapter".

SEC. 403. DEFINITION OF COURT.

Section 804(3) (22 U.S.C. 4044(3)) is amended by striking out "or of the District of Columbia" and inserting in lieu thereof the following: ", the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Northern Mariana Islands, or the Virgin Islands, and any Indian court as defined by section 201(3) of the Act entitled 'An Act to prescribe penalties for certain acts of violence or intimidation, and for other purposes', approved April 11, 1968 (25 U.S.C. 1301(3); 82 Stat. 77)".

SEC. 404. CREDITABLE SERVICE FOR PURPOSES OF SUBCHAPTERS I AND II.

(a) PRO RATA SHARE.—Section 804(10) (22 U.S.C. 4044(10)) is amended by inserting "(creditable under subchapter I or II) after "creditable service" each place it appears.

(b) FORMER SPOUSES.—(1) Section 814(a)(1) (22 U.S.C. 4054(a)(1)) is amended by adding at the end thereof the following: "For the purposes of this paragraph, the term 'creditable service' means service which is creditable under subchapter I or II.".

(2) Section 814(b)(1) (22 U.S.C. 4054(b)(1)) is amended by adding at the end thereof the following: "For the purposes of this paragraph, the term 'creditable service' means service which is creditable under subchapter I or II.".

(c) LUMP-SUM PAYMENTS.—Section 815(i) (22 U.S.C. 4055(i)) is amended by adding at the end thereof the following: "For the purposes of this subsection, the term 'creditable service' means service which is creditable under subchapter I or II.".

SEC. 405. CONTRIBUTIONS TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY SYSTEM.

(a) CONTRIBUTIONS AFTER DECEMBER 31, 1986.—Section 805 (22 U.S.C. 4045) is amended—

(1) by inserting "Except as provided in subsection (h)," before "7 percent" in the first sentence of subsection (a); and

(2) by adding at the end thereof the following new subsection (h):

"(h) Effective with respect to pay periods beginning after December 31, 1986, in administering this section with respect to a participant described in section 853(c) whose service is employment for the purposes of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1954, contributions to the fund and interest thereon shall be computed as if section 8334(k) of title 5, United States Code, were applicable.".

(b) CREDITABILITY OF INTERIM SERVICE.—Subsection (d) of section 805 (22 U.S.C. 4045(d)) is amended by adding at the end thereof the following:

"(4) Notwithstanding the preceding provisions of this subsection and any provision of section 206(b)(3) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, the percentage of basic pay required under this subsection in the case of a participant described in section 853(c) shall, with respect to any covered service (as defined by section 203(a)(3) of such Act) performed by such individual after December 31, 1983, and before January 1, 1987, be equal to 1.3 percent.".

SEC. 406. OFFSET OF ANNUITY BY THE AMOUNT OF SOCIAL SECURITY BENEFITS.

Section 806 (22 U.S.C. 4046) is amended by adding at the end thereof the following new subsection:

"(m) The annuity or survivor annuity payable to any individual subject to section 805(h) beginning with the first month for which such individual both—

"(1) attains the minimum age for old age benefits under title II of the Social Security Act, and

"(2) first becomes entitled, or would upon proper application become entitled, for disability or survivor benefits under title II of the Social Security Act based on the service of any individual under this subchapter,

shall be computed as if section 8349 of title 5, United States Code, were applicable.".

SEC. 407. 18-MONTH PERIOD TO ELECT SURVIVOR ANNUITY.

Section 806 (22 U.S.C. 4046) is further amended by adding at the end thereof the following:

"(n)(1)(A) A participant—

"(i) who, at the time of retirement, is married; and

"(ii) who elects at such time (in accordance with subsection (b)) to waive a survivor annuity,

may, during the 18-month period beginning on the date of the retirement of such participant, elect to have a reduction under subsection (b) made in the annuity of the participant (or in such portion thereof as the participant may designate) in order to provide a survivor annuity for the spouse of such participant.

"(B) A participant—

"(i) who, at the time of retirement, is married, and

"(ii) who at such time designates (in accordance with subsection (b)) that a limited portion of the annuity of such participant is to be used as the base for a survivor annuity,

may, during the 18-month period beginning on the date of the retirement of such participant, elect to have a greater portion of the annuity of such participant so used.

"(2)(A) An election under subparagraph (A) or (B) of paragraph (1) of this subsection shall not be considered effective unless the amount specified in subparagraph (B) of this paragraph is deposited into the Fund before the expiration of the applicable 18-month period under paragraph (1).

"(B) The amount to be deposited with respect to an election under this subsection is an amount equal to the sum of—

"(i) the additional cost to the System which is associated with providing a survivor annuity under subsection (b) of this section and results from such election taking into account (I) the difference (for the period between the date on which the annuity of the former participant commences and the date of the election) between the amount paid to such former participant under this subchapter and the amount which would have been paid if such election had been made at the time the participant or former participant applied for the annuity, and (II) the costs associated with providing the later election; and

"(ii) interest on the additional cost determined under clause (i)(I) of this subparagraph computed using the interest rate specified or determined under section 805(d)(3) for the calendar year in which the amount to be deposited is determined.

"(3) An election by a participant under this subsection voids prospectively any election previously made in the case of such participant under subsection (b).

"(4) An annuity which is reduced in connection with an election under this subsection shall be reduced by the same percentage reductions as were in effect at the time of the retirement of the participant whose annuity is so reduced.

"(5) Rights and obligations resulting from the election of a reduced annuity under this subsection shall be the same as the rights and obligations which would have resulted had the participant involved elected such annuity at the time of retiring.".

SEC. 408. ALTERNATE FORMS OF ANNUITIES.

Section 807 (22 U.S.C. 4047) is amended by adding at the end thereof the following:

"(e)(1) The Secretary of State shall prescribe regulations under which a participant may, at the time of retiring under this subchapter (other than under section 808), elect annuity benefits under this section instead of any other benefits under this subchapter (including survivor benefits) based on the service of the participant.

"(2) Subject to paragraph (3), the Secretary of State shall by regulation provide for such alternative forms of annuities as the Secretary considers appropriate, except that among the alternatives offered shall be—

"(A) an alternative which provides for—

"(i) payment of the lump-sum credit (excluding interest) to the participant; and

"(ii) payment of an annuity to the participant for life; and

"(B) in the case of a participant who is married at the time of retirement, an alternative which provides for—

"(i) payment of the lump-sum credit (excluding interest) to the participant; and

"(ii) payment of an annuity to the participant for life, with a survivor annuity payable for the life of a surviving spouse.

"(3) Each alternative provided for under paragraph (2) shall, to the extent practicable, be designed such that the total value of the benefits provided under such alternative (including any lump-sum credit) is actuarially equivalent to the value of the annuity which would otherwise be provided the participant under this subchapter, as computed under section 806(a).

"(4) A participant who, at the time of retiring under this subchapter—

"(A) is married, shall be ineligible to make an election under this section unless a waiver is made under section 806(b)(1)(B); or

"(B) has a former spouse, shall be ineligible to make an election under this section if the former spouse is entitled to benefits under this subchapter (based on the service of the participant) unless a waiver has been made under section 806(b)(1)(C).

"(5) A participant who is married at the time of retiring under this subchapter and who makes an election under this section may, during the 18-month period beginning on the date of retirement, make the election provided for under section 806(n), subject to the deposit requirement thereunder.

"(6) Notwithstanding any other provision of law, any lump-sum credit provided pursuant to an election under this subsection shall not preclude an individual from receiving any other benefits under this subsection.".

SEC. 409. TREATMENT OF CERTAIN RECALL SERVICE.

Section 823 (22 U.S.C. 4063) is amended by adding at the end thereof the following:

"(c) If an annuitant becomes subject to subchapter II of this chapter by reason of recall service—

"(1) subsections (a) and (b) shall not apply to such annuitant; and

"(2) section 824 shall apply to the recall service as if such service were reemployment.".

SEC. 410. REEMPLOYMENT.

Section 824 (22 U.S.C. 4064) is amended to read as follows:

"SEC. 824. REEMPLOYMENT.—(a)(1)(A) Except in the case of an annuitant who makes an election under subsection (b), if any former participant, who has retired and is receiving an annuity under this subchapter or subchapter II of this chapter, becomes employed in an appointive or elective position in the Government, payment of any annuity under either subchapter to the annuitant shall terminate effective on the date of the employment and the reemployment service shall be covered service under the rules of the system under which the appointment is made.

"(B) If the annuity of an individual is terminated under subparagraph (A) and that individual becomes covered under the same retirement system from which that annuity is terminated, that individual shall be entitled to a redetermination of rights under that system upon termination of the employment.

"(C) If the annuity is terminated and the individual becomes covered under another contributory retirement system for Government employees pursuant to paragraph (A), the individual shall be entitled to benefits under the rules of that system. In addition, the individual shall be entitled to a resumption of any annuity terminated by reason of the employment.

"(b)(1) A participant who is entitled to an annuity under this subchapter or subchapter II of this chapter and becomes employed in an appointive or elective position in the Government on a part-time, intermittent, or temporary basis may elect to continue to receive either or both annuities as provided in this subsection.

"(2) The total annuity payable under this chapter to an annuitant making an election under paragraph (1) shall be reduced during the part-time, intermittent, or temporary employment referred to in paragraph (1) as necessary to meet the requirements of paragraph (3).

"(3) The sum of—

"(A) the total annuity payable under this chapter to an annuitant making an election under paragraph (1), and

"(B) the annual rate of pay payable to the annuitant during the part-time, intermittent, or temporary employment referred to in paragraph (1),

may not exceed, in any calendar year, the highest annual rate of pay which is payable during such year for full-time employment in the position in which the annuitant is employed.

"(4) Upon termination of the part-time, intermittent, or temporary employment referred to in paragraph (1), payment of the full annuity of an annuitant who has made an election under paragraph (1) of this subsection shall resume.

"(c) The amount of annuity which has been terminated or reduced under this section by reason of the reemployment of the annuitant and is resumed under this section shall be the amount of the annuity which would have been payable if the annuitant had not accepted the reemployment. The amount of an annuity resulting from a redetermination of rights pursuant to subsection (a) shall not be less than the amount of an annuity resumed under the previous sentence.

"(d) The annuity rights of any participant who is reemployed in the Government shall be determined under this section instead of section 8468 of title 5, United States Code.

"(e) When any such retired participant is reemployed, the employer shall send a notice of such reemployment to the Secretary of State, together with all pertinent information relating to such employment, and shall pay directly to such participant the salary of the position in which he or she is serving.

"(f) In the event of any overpayment under this section, such overpayment shall be recovered by withholding the amount involved from the salary payable to such reemployed participant or from any other moneys, including annuity payments, payable under this chapter.".

SEC. 411. COMPARABILITY BETWEEN THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM AND THE FOREIGN SERVICE PENSION SYSTEM.

Section 827 (22 U.S.C. 4067) is amended by adding at the end thereof the following:

"(c) The President shall maintain, under the same conditions and in the same manner as provided in subsections (a) and (b) existing conformity between the Federal Employees' Retirement System provided in chapter 84 of title 5, United States Code, and the Foreign Service Pension System provided in subchapter II of this chapter.".

SEC. 412. MODERATION OF REMARRIAGE PENALTY.

Chapter 8 of title I (22 U.S.C. 4041 et seq.) is further amended by adding after section 827 the following:

"SEC. 828. REMARRIAGE.—Notwithstanding any other provision of this subchapter, any benefit payable under this subchapter to a surviving spouse, former spouse, or surviving former spouse that would otherwise terminate or be lost if the individual remarried before 60 years of age, shall not terminate or be lost if the remarriage occurred on or after November 8, 1984, and the individual was 55 years of age or over on the date of the remarriage.".

SEC. 413. LUMP-SUM PAYMENTS.

Subsection (a) of section 815 is amended by adding at the end thereof the following: "A participant who becomes subject to subchapter II shall be entitled to payment of the lump-sum credit if, and to the extent that, such lump-sum credit relates to service of a type described in clauses (i) through (iii) of section 302(a)(1)(C) of the Federal Employees' Retirement System Act of 1986.".

SEC. 414. EXCLUSION OF PARTICIPANTS IN FOREIGN SERVICE PENSION SYSTEM FROM FOREIGN SERVICE RETIREMENT AND DISABILITY SYSTEM.

Section 803 is amended—

(1) in subsection (a), by striking out "The" and inserting in lieu thereof "Except as provided in subsection (d), the"; and

(2) by adding at the end thereof the following:

"(d) An individual subject to the Foreign Service Pension System (described in subchapter II) is not a participant in this System.".

SEC. 415. FOREIGN SERVICE PENSION SYSTEM.

Chapter 8 of title I (22 U.S.C. 4041 et seq.) is further amended by adding at the end thereof the following:

"SUBCHAPTER II—FOREIGN SERVICE PENSION SYSTEM

"SEC. 851. ESTABLISHMENT.—(a) There is hereby established a Foreign Service Pension System.

"(b) Except as otherwise specifically provided in this subchapter or any other provision of law, the provisions of chapter 84 of title 5, United States Code, shall apply to all participants in the Foreign Service Pension System and such participants shall be treated in all respects similar to persons whose participation in the Federal Employees' Retirement System provided in that chapter is required.

"SEC. 852. DEFINITIONS.—As used in this subchapter, unless otherwise specified—

"(1) the term 'court order' has the same meaning given in section 804(4);

"(2) the term 'Fund' means the Foreign Service Retirement and Disability Fund maintained by the Secretary of the Treasury pursuant to section 802;

"(3) the term 'normal cost' means the entry-age normal cost of the provisions of the System which relate to the Fund, computed by the Secretary of State in accordance with generally accepted actuarial practice and standards (using dynamic assumptions) and expressed as a level percentage of aggregate basic pay;

"(4) the term 'participant' means a person who participates in the Foreign Service Pension System;

"(5) the term 'pro rata share' in the case of any former spouse of any participant or former participant means the percentage which is equal to the percentage that (A) the number of years during which the former spouse was married to the participant during the service of the participant which is creditable under this chapter is of (B) the total number of years of such service, disregarding extra credit under section 817;";

"(6) the term 'supplemental liability' means the estimated excess of—

"(A) the actuarial present value of all future benefits payable from the Fund under this subchapter based on the service of participants or former participants, over

"(B) the sum of—

"(i) the actuarial present value of (I) deductions to be withheld from the future basic pay of participants pursuant to section 856 and (II) contributions for past civilian and military service;

"(ii) the actuarial present value of future contributions to be made pursuant to section 857;

"(iii) the Fund balance as of the date the supplemental liability is determined, to the extent that such balance is attributable—

"(I) to the System, or

"(II) to the contributions made under the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 (5 U.S.C. 8331 note); and

"(iv) any other appropriate amount, as determined by the Secretary of State in accordance with generally accepted actuarial practices and principles; and

"(7) the term 'System' means the Foreign Service Pension System.

"SEC. 853. PARTICIPANTS.—(a) Except for persons excluded by subsection (b), (c), or (d), all members of the Foreign Service, any of whose service after December 31, 1983, is employment for the purpose of title II of the Social Security Act and chapter 21 of the In-

ternal Revenue Code of 1954, who would, but for this section, be participants in the Foreign Service Retirement and Disability System pursuant to section 803 shall instead be participants in the Foreign Service Pension System.

"(b) Members of the Service who were participants in the Foreign Service Retirement and Disability System on or before December 31, 1983, and who have not had a break in service in excess of one year since that date, are not made participants in the System by this section, without regard to whether they are subject to title II of the Social Security Act.

"(c) Individuals who become members of the Service after having completed at least 5 years of civilian service creditable under subchapter I, subchapter III of chapter 83 of title 5, United States Code (the Civil Service Retirement System), or title II of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (determined without regard to any deposit or redeposit requirement under any such subchapter or title, any requirement that the individual become subject to such subchapter or title after performing the service involved, or any requirement that the individual give notice in writing to the official by whom such individual is paid of such individual's desire to become subject to such subchapter or title) are not participants in the System, except to the extent provided for under title III of the Federal Employees' Retirement System Act of 1986 pursuant to an election under such title to become subject to this subchapter (under regulations issued by the Secretary of State pursuant to section 860).

"(d) The Secretary may exclude from the operation of this subchapter any member of the Foreign Service, or group of members, whose employment is temporary or intermittent, except a member whose employment is part-time career appointment or career candidate appointment under section 306.

"SEC. 854. CREDITABLE SERVICE.—(a) For purposes of this subchapter, creditable service of a participant includes—

"(1) service as a participant after December 31, 1986;

"(2) service with respect to which deductions and withholdings under section 204(a)(2) of the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 have been made; and

"(3) except as provided in subsection (b), any civilian service performed before January 1, 1989 (other than service under paragraph (1) or (2)), which, but for the amendment made by section 414 of the Federal Employees' Retirement System Act of 1986, would be creditable under subchapter I (determined without regard to any deposit or redeposit requirement under such subchapter, subchapter III of chapter 83 of title 5, United States Code (the Civil Service Retirement System), or title II of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, any requirement that the individual become subject to such subchapter or title after performing the service involved, or any requirement that the individual give notice in writing to the official by whom such individual is paid of such individual's desire to become subject to such subchapter or title).

"(b)(1) A participant who has received a refund of retirement deductions under subchapter I with respect to any service described in subsection (a)(3) may not be allowed credit for such service under this subchapter unless such participant deposits into the Fund an amount equal to 1.3 percent of basic pay for such service, with interest.

"(2) A participant may not be allowed credit under this subchapter for any service described in subsection (a)(3) for which retirement deductions under subchapter I have not been made, unless such participant deposits into the Fund an amount equal to 1.3 percent of basic pay for such service, with interest.

"(3) Interest under paragraph (1) or (2) shall be computed in accordance with section 805(d) and regulations issued by the Secretary of State.

"(c) Credit shall be given under this System to a participant for a period of prior satisfactory service as—

"(1) a volunteer or volunteer leader under the Peace Corps Act (22 U.S.C. 2501 et seq.),

"(2) a volunteer under part A of title VIII of the Economic Opportunity Act of 1964, or

"(3) a full-time volunteer for a period of service of at least one year's duration under part A, B, or C of title I of the Domestic Volunteer Service Act of 1973 (42 U.S.C. 4951 et seq.),

if the participant makes a payment to the Fund equal to 3 percent of pay received for the volunteer service (as determined in accordance with regulations of the Secretary of State consistent with regulations for making corresponding determinations under chapter 83, title 5, United States Code) together with interest determined under regulations issued by the Secretary of State.

"(d) Credit shall be given under this System to a participant for a period of prior service under the Federal Employees' Retirement System (described in chapter 84 of title 5, United States Code) or under title III of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees if the participant waives credit under the other retirement system and makes a payment to the Fund equal to the amount which would have been deducted from pay under section 856(a) had the individual been a participant during the prior creditable service under the other retirement system together with interest on such amount computed in accordance with regulations issued by the Secretary of State.

"SEC. 855. ENTITLEMENT TO ANNUITY.—(a)(1) Any participant may be retired under the conditions specified in section 811 and shall be retired under the conditions specified in sections 812 and 813 and receive benefits under this subchapter.

"(2) For the purposes of this subsection—

"(A) the term 'participant', as used in the sections referred to in paragraph (1), means a participant in the Foreign Service Pension System; and

"(B) the term 'System', as used in those sections, means the Foreign Service Pension System.

"(b)(1) Any participant who retires voluntarily or mandatorily under section 607, 608, 811, 812, or 813 under conditions authorizing an immediate annuity for participants in the Foreign Service Retirement and Disability System and who has completed at least 5 years of service subject to this chapter shall be entitled to an immediate annuity computed under paragraph (2).

"(2) An annuity under paragraph (1) shall be computed—

"(A) for all service earned while a participant in this System, at the rate stated in section 8415(d) of title 5, United States Code; and

"(B) for all service earned while a participant in another retirement system creditable under section 854(d), at the rate which would have been applicable to the individual had that individual remained a participant in the other system; and

"(C) for all volunteer service creditable under section 854(c), at the rate stated in section 8415(a) of title 5, United States Code.

"(c) A participant who is entitled to an immediate annuity under subsection (b) shall be entitled to receive an annuity supplement while the annuitant is under 62 years of age. The annuity supplement shall be based on the total creditable service of the annuitant and shall be computed in accordance with sections 8421(b) and 8421a of title 5, United States Code, as if the participant were a law enforcement officer retired under section 8412(d) of such title.

"(d) Any participant who is separated for cause under section 610 shall not be entitled to an annuity under this System when the Secretary determines that the separation was based in whole or in part on disloyalty to the United States.

"SEC. 856. DEDUCTIONS AND WITHHOLDINGS FROM PAY.—(a) The employing agency shall deduct and withhold from basic pay of each participant a percentage of basic pay equal to 7½ percent minus the percentage then in effect under section 3101(a) of the Internal Revenue Code of 1954 (relating to the rate of tax for old age, survivors and disability insurance).

"(b) Each participant is deemed to consent and agree to the deductions under subsection (a). Notwithstanding any law or regulation affecting the pay of a participant, payment less such deductions is a full and complete discharge and acquittance of all claims and demands for regular services during the period covered by the payment, except the right to any benefits under this subchapter based on the service of the participant.

"(c) Amounts deducted and withheld under this section shall be deposited in the Treasury of the United States to the credit of the Fund under such procedures as the Comptroller General of the United States may prescribe.

"(d) Under such regulations as the Secretary of State may issue, amounts deducted under subsection (a) shall be entered on individual retirement records.

"SEC. 857. GOVERNMENT CONTRIBUTIONS.—(a) Each agency employing any participant shall contribute to the Fund the amount computed in a manner similar to that used under section 8423(a) of title 5, United States Code, pursuant to determinations of the normal cost percentage for the Foreign Service Pension System by the Secretary of State.

"(b)(1) The Secretary of State shall compute the amount of the supplemental liability of the Fund as of the close of each fiscal year beginning after September 30, 1987. The amount of any such supplemental liability shall be amortized in 30 equal annual installments with interest computed at the rate used in the most recent valuation of the System.

"(2) At the end of each fiscal year, the Secretary of State shall notify the Secretary of the Treasury of the amount of the installment computed under this subsection for such year.

"(3) Before closing the accounts for a fiscal year, the Secretary of the Treasury shall credit to the Fund, as a Government contribution, out of any money in the Treasury of the United States not otherwise ap-

propriated, the amount under paragraph (2) of this subsection for such year.

"SEC. 858. COST-OF-LIVING ADJUSTMENTS.—Cost-of-living adjustments for annuitants under this System shall be granted under procedures in section 8462 of title 5, United States Code, in the same manner as such adjustments are made for annuitants referred to in subsection (c)(3)(B)(ii) of such section.

"SEC. 859. GENERAL AND ADMINISTRATIVE PROVISIONS.—(a) The Secretary of State shall administer the Foreign Service Pension System except for matters relating to the Thrift Savings Plan provided in subchapters III and VII of chapter 84 of title 5, United States Code. The Secretary of State shall, with respect to the Foreign Service Pension System, perform the functions and exercise the authority vested in the Office of Personnel Management or the Director of such Office by such chapter 84 and may issue regulations for such purposes.

"(b) Determinations of the Secretary of State under the Foreign Service Pension System which, if made by the Office of Personnel Management under chapter 84 of title 5, United States Code, or the Director of such Office, would be appealable to the Merit Systems Protection Board shall, instead, be appealable to the Foreign Service Grievance Board, except that determinations of disability for participants shall be based upon the standards in section 808 (other than the exclusion for vicious habits, intemperance, or willful misconduct) and subject to review in the same manner as under that section.

"(c) At least every 5 years, the Secretary of the Treasury shall prepare periodic valuations of the Foreign Service Pension System and shall advise the Secretary of State of (1) the normal cost of the System, (2) the supplemental liability of the System, and (3) the amounts necessary to finance the costs of the System.

"SEC. 860. TRANSITION PROVISIONS.—The Secretary of State shall issue regulations providing for the transition from the Foreign Service Retirement and Disability System to the Foreign Service Pension System in a manner comparable to the transition of employees subject to subchapter III of chapter 83 of title 5, United States Code (the Civil Service Retirement System), to the Federal Employees' Retirement System. For this and related purposes, references made to participation in subchapter III of chapter 83 of title 5, United States Code (the Civil Service Retirement System), the Social Security Act, and the Internal Revenue Code of 1954 shall be deemed to refer to participation in the Foreign Service Pension System or the Foreign Service Retirement and Disability System, as appropriate.

"SEC. 861. FORMER SPOUSES.—(a)(1)(A) Unless otherwise expressly provided by any spousal agreement or court order governing disposition of benefits under this subchapter, a former spouse of a participant or former participant is entitled, during the period described in subparagraph (B), to a share (determined under paragraph (2)) of all benefits otherwise payable to such participant under this subchapter if such former spouse was married to the participant for at least 10 years during service of the participant which is creditable under this chapter with at least 5 of such years occurring while the participant was a member of the Foreign Service.

"(B) The period referred to in subparagraph (A) is the period which begins on the first day of the month following the month in which the divorce or annulment becomes final and ends on the last day of the month before the former spouse dies or remarries before 55 years of age.

"(2) The share referred to in paragraph (a) equals—

"(A) 50 percent, if such former spouse was married to the participant throughout the actual years of service of the participant which are creditable under this chapter; or

"(B) a pro rata share of 50 percent, if such former spouse was not married to the participant throughout such creditable service.

"(3) A former spouse shall not be qualified for any benefit under this subsection if, before the commencement of any benefit, the former spouse remarries before becoming 55 years of age.

"(4)(A) For purposes of the Internal Revenue Code of 1954, payments to a former spouse under this section shall be treated as income to the former spouse and not to the participant.

"(B) Any reduction in payments to a participant or former participant as a result of payments to a former spouse under this subsection shall be disregarded in calculating—

"(i) the survivor annuity for any spouse, former spouse, or other survivor under this subchapter, and

"(ii) any reduction in the annuity of the participant to provide survivor benefits under this subchapter.

"(5) Notwithstanding subsection (a)(1), in the case of any former spouse of a disability annuitant—

"(A) the annuity of the former spouse shall commence on the date the participant would qualify, on the basis of his or her creditable service, for an annuity under this chapter (other than a disability annuity) or the date the disability annuity begins, whichever is later, and

"(B) the amount of the annuity of the former spouse shall be calculated on the basis of the annuity for which the participant would otherwise so qualify.

"(6)(A) Except as provided in subparagraph (B), any former spouse who becomes entitled to receive any benefit under this subchapter which would otherwise be payable to a participant or former participant shall be entitled to make any election regarding method of payment to such former spouse that such participant would have otherwise been entitled to elect, and the participant may elect an alternate method for the remaining share of such benefits. Such elections shall not increase the actuarial present value of benefits expected to be paid under this subchapter.

"(B) A former spouse may not elect a method of payment under subchapter II, chapter 84, of title 5, United States Code, providing for payment of a survivor annuity to any survivor of the former spouse.

"(7) The maximum amount payable to any former spouse pursuant to this subsection shall be the difference, if any, between 50 percent of the total benefits authorized to be paid to a former participant by this subchapter, disregarding any apportionment of these benefits to others, and the aggregate payable to all others at any one time.

"(b)(1) Unless otherwise expressly provided for by any spousal agreement or court order governing survivorship benefits under this subchapter to a former spouse married to a participant or former participant for the periods specified in subsection (a)(1)(A), such former spouse is entitled to a share, determined under subsection (b)(2), of all survivor benefits that would otherwise be payable under this subchapter to an eligible surviving spouse of the participant.

"(2) The share referred to in subsection (b)(1) equals—

"(A) 100 percent if such former spouse was married to the participant throughout the entire period of service of the participant which is creditable under this chapter; or

"(B) a pro rata share of 100 percent if such former spouse was not married to the participant throughout such creditable service.

"(c) A participant or former participant may not make any election or modification of election under section 8417, 8418, or 8433 of title 5, United States Code, or other section relating to the participant's account in the Thrift Plan or annuity under the basic plan that would diminish the entitlement of a former spouse to any benefit granted to the former spouse by this section or in a current spousal agreement.

"(d) If a member becomes a participant under this subchapter after qualifying for benefits under subchapter I and, at the time of transfer, has a former spouse entitled to benefits under subchapter I which are determined under section 814 or 815 (as determined by the Secretary of State) and are similar in amount to a pro rata share division under section 814 or 815 and the service of the member as a participant under this subchapter is not recognized in determining that pro rata share, then subsections (a) and (b) of this section shall not apply to such former spouse. Otherwise, subsections (a) and (b) of this section shall apply.

"(e) If a participant dies after completing at least 18 months of service or a former participant dies entitled to a deferred annuity, but before becoming eligible to receive the annuity, and such participant or former participant has left with the Secretary of State a spousal agreement promising a share of a survivor annuity under subchapter IV, chapter 84, title 5, United States Code, to a former spouse, such survivor annuity shall be paid under the terms of this subchapter as if the survivor annuity had been ordered by a court.

"SEC. 862. SPOUSAL AGREEMENTS.—A spousal agreement is any written agreement (properly authenticated as determined by the Secretary of State) between a participant or former participant and his or her spouse or former spouse on file with the Secretary of State. A spousal agreement shall be consistent with the terms of this Act and applicable regulations and, if executed at the time a participant or former participant is currently married, shall be approved by such current spouse. It may be used to fix the level of benefits payable under this subchapter to a spouse or former spouse.".

SEC. 416. TABLE OF CONTENTS.

The table of contents in section 2 of such Act is amended—

(1) by striking out the item relating to chapter 8 and inserting in lieu thereof the following:

"CHAPTER 8—FOREIGN SERVICE RETIREMENT AND DISABILITY

"SUBCHAPTER I—FOREIGN SERVICE RETIREMENT AND DISABILITY SYSTEM

(2) by inserting after the item relating to section 827 the following:

"Sec. 828. Remarriage.

"SUBCHAPTER II—FOREIGN SERVICE PENSION SYSTEM

"Sec. 851. Establishment.
"Sec. 852. Definitions.
"Sec. 853. Participants.
"Sec. 854. Creditable service.
"Sec. 855. Entitlement to annuity.
"Sec. 856. Reduction and withholdings from

pay.
"Sec. 857. Government contributions.
"Sec. 858. Cost-of-living adjustments.
"Sec. 859. General and administrative provisions.
"Sec. 860. Transition provisions.
"Sec. 861. Former spouses.
"Sec. 862. Spousal agreements.".

SEC. 417. EFFECTIVE DATE.

(a) REGULATIONS.—Notwithstanding section 702 of this Act, the authority of the Secretary of State to issue regulations under subchapter II of title 8 of the Foreign Service Act of 1980 shall take effect on the date of enactment of this Act.

(b) 18-MONTH PERIOD TO ELECT SURVIVOR ANNUITY.—(1) Notwithstanding section 702 of this Act, the amendment made by section 407 shall take effect 3 months after the date of enactment of this Act.

(2)(A) Subject to subparagraph (B), the amendment made by section 407 shall apply with respect to participants and former participants who retire before, on, or after such amendment first takes effect.

(B) For the purpose of applying the provisions of paragraph (1) of section 806(n) of the Foreign Service Act of 1980 (as added by section 407) to former participants who retire before the date on which the amendment first takes effect—

(i) the period referred to in subparagraph (A) or (B) of such paragraph (as the case may be) shall be considered to begin on the date on which such amendment first becomes effective; and

(ii) the amount referred to in paragraph (2) of such section 806(n) shall be computed without regard to the provisions of subparagraph (B)(ii) of such paragraph (relating to interest).

(3) For purposes of this subsection, the term "participant" has the meaning given that term in section 803 of the Foreign Service Act of 1980 (22 U.S.C. 4043).

TITLE V—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND RELATED MATTERS

SEC. 501. REFERENCES.

The Central Intelligence Agency Retirement Act of 1964 for Certain Employees (78 Stat. 1043; 50 U.S.C. 403 note) is amended—

(1) in section 201(c), by inserting "(except section 305(d) of this Act)" after "or any other provisions of law";

(2) by striking out "this Act" each place it appears in title II except in sections 201 and 264, and inserting in lieu thereof "this title"; and

(3) by inserting "under this title" after "payable from the fund" each place it appears in title II.

SEC. 502. CONTRIBUTIONS TO THE CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM.

Section 211 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees is amended—

(1) by striking out "Seven" in the first sentence of subsection (a) and inserting in lieu thereof "Except as provided in subsection (d), seven"; and

(2) by adding at the end thereof the following new subsection (d):

"(d)(1) In the case of a participant who was a participant subject to this title before January 1, 1984, and whose service—

"(A) is employment for the purposes of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1954, and

"(B) is not creditable service for any purpose under title III of this Act or chapter 84 of title 5, United States Code,

there shall be deducted and withheld from the basic pay of the participant under this subsection during any pay period only the amount computed pursuant to paragraph (2).

"(2) The amount deducted and withheld from the basic pay of a participant during any pay period pursuant to paragraph (1) shall be the excess of—

"(A) the amount determined by multiplying the percent applicable to the participant under subsection (a) by the basic pay payable to the participant for such pay period, over

"(B) the amount of the taxes deducted and withheld from such basic pay under section 3101(a) of the Internal Revenue Code of 1954 (relating to old-age, survivors, and disability insurance) for such pay period.".

SEC. 503. OFFSET OF ANNUITY BY THE AMOUNT OF SOCIAL SECURITY BENEFITS.

Section 221 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees is amended by adding at the end thereof the following new subsection:

"(p)(1) Notwithstanding any other provision of this title, except as provided in paragraph (2), an annuity (including a disability annuity) payable under this title to an individual described in section 301(c)(1) and any survivor annuity payable under this title on the basis of the service of such individual shall be reduced in a manner consistent with section 8349 of title 5, United States Code, under conditions consistent with the conditions prescribed in such section.

"(2) This section shall not apply with respect to any annuity, or survivor annuity, which is based on the service of an individual described in section 301(c)(2).".

SEC. 504. THRIFT SAVINGS FUND PARTICIPATION BY PARTICIPANTS IN THE CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM.

Part K of title II of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees is amended by adding at the end thereof the following new section:

"THRIFT SAVINGS FUND PARTICIPATION BY PARTICIPANTS IN THE CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

"SEC. 293. (a) Participants in the Central Intelligence Agency Retirement and Disability System shall be deemed to be employees for the purposes of section 8351 of title 5, United States Code.

"(b) Subsections (k) and (m) of section 8461 of title 5, United States Code, shall apply with respect to contributions made by officers and employees of the Agency to the Thrift Savings Fund under section 8351 of such title, and to earnings attributable to the investment of such contributions.".

SEC. 505. ALTERNATIVE FORMS OF ANNUITIES.

Part K of title II of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (as amended by section 504 of this Act) is further amended by adding at the end thereof the following new section:

"ALTERNATIVE FORMS OF ANNUITIES

"SEC. 294. (a) The Director shall prescribe regulations under which an officer or employee of the Agency may, at the time of retiring under this title (other than under section 231), elect annuity benefits under this section instead of any other benefits under this title (including any survivor benefits under this title) based on the service of the officer or employee creditable under this title. The regulations and alternatives shall, to the maximum extent practicable, meet the requirements prescribed in section 8343a of title 5, United States Code.

"(b) Notwithstanding any other provision of law, any lump-sum credit provided pursuant to an election under subsection (a) shall not preclude an individual from receiving other benefits provided under such subsection.

"(c) The Director shall submit the regulations prescribed under subsection (a) to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives before the regulations take effect.".

SEC. 506. PARTICIPATION IN THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM.

The Central Intelligence Agency Retirement Act of 1964 for Certain Employees is amended by adding at the end thereof the following:

"TITLE III—PARTICIPATION IN THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM

"APPLICATION OF FEDERAL EMPLOYEES' RETIREMENT SYSTEM TO AGENCY EMPLOYEES

"SEC. 301. (a) Except as provided in subsections (b) and (c), all officers and employees of the Agency, any of whose service after December 31, 1983, is employment for the purpose of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1954, shall be subject to chapter 84 of title 5, United States Code.

"(b) Participants in the Central Intelligence Agency Retirement and Disability System who were participants in such system on or before December 31, 1983, and who have not had a break in service in excess of 1 year since that date, are not subject to chapter 84 of title 5, United States Code, without regard to whether they are subject to title II of the Social Security Act.

"(c)(1) The provisions of chapter 84 of title 5, United States Code, shall not apply with respect to—

"(A) any individual who separates, or who has separated, from Federal Government service after having been an officer or employee of the Agency subject to title II of this Act; and

"(B) any officer or employee of the Agency having at least 5 years of civilian service which was performed before January 1, 1987, and is creditable under title II of this Act (determined without regard to any deposit or redeposit requirement under subchapter III of chapter 83 of title 5, United States Code, or under title II of this Act, or any requirement that the individual become subject to such subchapter or to title II of this Act after performing the service involved).

"(2) Paragraph (1) shall not apply with respect to an individual who has elected under regulations prescribed under section 307 of this Act to become subject to chapter 84 of title 5, United States Code, to the extent provided in such regulations.

"(3) An individual described in paragraph (1) shall be deemed to be an individual excluded under section 8402(b)(2) of title 5, United States Code.

"(d) The application of the provisions of chapter 84 of title 5, United States Code, to officers and employees referred to in subsection (a) shall be subject to the exceptions and special rules provided in this title. Any provision of such chapter which is inconsistent with a special rule provided in this title shall not apply to such officers and employees.

"SPECIAL RULES RELATING TO SECTION 203 CRITERIA EMPLOYEES

"SEC. 302. (a) Except as otherwise provided in this section, in the application of

chapter 84 of title 5, United States Code, to an officer or employee of the Agency who is subject to such chapter and is designated by the Director under the criteria prescribed in section 203, such officer or employee shall be treated for purposes of determining such officer's or employee's retirement benefits and obligations under such chapter as if the officer or employee were a law enforcement officer (as defined in section 8401(17) of title 5, United States Code).

"(b) The provisions of sections 233 and 235 of this Act shall apply to officers and employees referred to in subsection (a), except that the retirement benefits shall be determined under the provisions of chapter 84 of title 5, United States Code.

"(c)(1) Except as provided in paragraph (2), section 271 of this Act shall apply to an officer or employee referred to in subsection (a).

"(2) Contributions during recall service shall be made as provided in section 8422 of title 5, United States Code.

"(3) When an officer or employee recalled under this subsection reverts to a retired status, the annuity of such officer or employee shall be redetermined under the provisions of chapter 84 of title 5, United States Code.

"SPECIAL RULES FOR OTHER EMPLOYEES FOR SERVICE ABROAD

"SEC. 303. (a) Notwithstanding any provision of chapter 84 of title 5, United States Code, the annuity under subchapter II of such chapter of a retired officer or employee of the Agency who is not designated under section 302(a) of this Act and has served abroad as an officer or employee of the Agency shall be computed as provided in subsection (b).

"(b)(1) The portion of the annuity relating to service abroad performed on or after the effective date of the Federal Employees' Retirement System Act of 1986 shall be computed as provided in section 8415(d) of title 5, United States Code.

"(2) The portions of the annuity relating to other service in the Agency shall be computed as provided in the provision of section 8415 of such title that is applicable to such service under the conditions prescribed in chapter 84 of such title.

"SPECIAL RULES FOR FORMER SPOUSES

"SEC. 304. (a) Section 8445 of title 5, United States Code, and subsections (d) and (e) of section 8435 of such title shall not apply in the case of an officer or employee of the Agency who is subject to chapter 84 of title 5, United States Code, and who has a former spouse (as defined in section 204(b)(4) of this Act). Any reference in such chapter to a survivor annuity for a former spouse, as applied to such officer or employee, shall be deemed to refer to a survivor annuity for a former spouse of such officer or employee provided under subsection (c) of this section.

"(b) Section 221(b)(1)(C) of this Act shall apply to a survivor annuity under subsection (c)(2) of this section.

"(c) Except as otherwise provided in this section, the following provisions of title II of this Act shall apply in the case of an officer or employee of the Agency who is entitled to receive an annuity under subchapter II, III, or V of chapter 84 of title 5, United States Code, in the same manner as such provisions apply in the case of an officer or employee of the Agency under title II:

"(1) Section 222, except that subsections (b) and (c) of such section shall be subject to a waiver under subsection (b) of this section.

"(2) Subsections (a), (b)(1), and (b)(3) of section 223 and the first sentence of subsection (c) of such section.

"(3) Subsections (c) and (d) of section 234 (in the case of any lump-sum payment under section 8424(a) of title 5, United States Code, and any payment under subsection (b)(3), (b)(4), (c)(3), (c)(4), or (d) of section 8433 of such title).

"(4) Section 263(b).

"(d) In the application of section 222(a) under subsection (c)(1)—

"(1) the reference in paragraph (4)(B) of such section to section 271, 272, or 273 of this Act shall be deemed to refer to any similar provision of law applicable to such officer or employee for purposes of chapter 84 of title 5, United States Code;

"(2) the amount of the reduction in the salary of a recalled or reinstated officer or employee under such paragraph (4)(B) shall be only the amount by which the annuity under subchapter II or V of chapter 84 of title 5, United States Code, would have been reduced; and

"(3) amounts to be deposited in the Treasury of the United States pursuant to such paragraph (4)(B) shall be credited to the Civil Service Retirement and Disability Fund.

"(e) In the application of subsections (b) and (c) of section 222 under subsection (c)(2)—

"(1) the percentage prescribed in subsections (b)(1)(A), (b)(1)(B), (b)(4)(A), and (c)(2) of such section shall be deemed to be 50 percent;

"(2) for the purpose of computing the amount of the former spouse's annuity under subsection (b)(1) of such section and the maximum amount of survivor annuities under subsection (b)(4) or (c)(2) of such section, the full amount of the deceased officer's or employee's annuity—

"(A) in the case of an annuity under subchapter II or V of chapter 84 of title 5, United States Code, is the amount of such annuity computed without regard to the reduction for survivor annuities; and

"(B) in the case of an annuity under subchapter III of such chapter, is the amount of such annuity computed on an actuarial basis as provided in such subchapter taking into account the application of section 222(b)(1) in the case of such annuity;

"(3) an election under subsection (b)(5)(B) of such section shall apply with respect to a survivor annuity for a spouse under section 8442 of title 5, United States Code;

"(4) the reference in subsection (c)(2) of such section to a survivor annuity for a spouse shall be deemed to refer—

"(A) in the case of an annuity under subchapter II or V of chapter 84 of title 5, United States Code, to the survivor annuity provided in section 8442 of title 5, United States Code; and

"(B) in the case of an annuity under subchapter III of such chapter, to the survivor annuity described in section 8435(c) of such title; and

"(5) the fund referred to in subsections (c)(3)(A) and (c)(3)(B) of such section shall be deemed to refer—

"(A) in the case of an annuity under subchapter II or V of chapter 84 of title 5, United States Code, to the Civil Service Retirement and Disability Fund; and

"(B) in the case of an annuity under subchapter III of such chapter, the Thrift Savings Fund established by section 8437 of such title.

"(f) A reduction in the annuity of an officer or employee of the Agency to provide a survivor annuity or survivor annuities under this section shall be computed as provided in section 8419(a) of title 5, United States Code.

"(g) The entitlement of a former spouse to a portion of an annuity of a retired officer or employee of the Agency under this section shall extend to any supplementary annuity payment that such officer or employee is entitled to receive under section 8421 of title 5, United States Code.

"ADMINISTRATIVE PROVISIONS

"SEC. 305. (a) Section 201(c) of this Act shall apply in the administration of chapter 84 of title 5, United States Code, with respect to officers and employees of the Agency.

"(b) Notwithstanding subsection (a), section 8461(e) of title 5, United States Code, shall apply with respect to officers and employees of the Agency who are not participants in the Central Intelligence Agency Retirement and Disability System and are not designated under section 302(a) of this Act.

"REGULATIONS

"SEC. 306. (a) The Director, in consultation with the Director of the Office of Personnel Management and the Executive Director of the Federal Retirement Thrift Investment Board, shall prescribe in regulations appropriate procedures to carry out this title.

"(b) The Director shall submit the regulations prescribed under subsection (a) to the Select Committee on Intelligence of the Senate and the Permanent Select Committee of the House of Representatives before the regulations take effect.

"TRANSITION PROVISIONS

"SEC. 307. (a) The Director shall issue regulations providing for the transition from the Central Intelligence Agency Retirement and Disability System to the Federal Employees' Retirement System provided in chapter 84 of title 5, United States Code, in a manner consistent with sections 301 through 304 of the Federal Employees' Retirement System Act of 1986.

"(b) The Director shall submit the regulations prescribed under subsection (a) to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives before the regulations take effect.".

SEC. 507. SPECIAL RETIREMENT ACCRUAL FOR OTHER INTELLIGENCE PERSONNEL.

(a) CERTAIN NATIONAL SECURITY AGENCY PERSONNEL.—Section 9(b)(1)(B) of the National Security Agency Act of 1959 (50 U.S.C. 402 note) is amended by inserting before the semicolon the following: "(including special retirement accrual in the same manner provided in section 303 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (50 U.S.C. 403 note))".

(b) CERTAIN DEFENSE INTELLIGENCE AGENCY PERSONNEL.—Section 1605(a) of title 10, United States Code, is amended by adding at the end thereof the following: "The Secretary may also provide to any such civilian personnel who are subject to chapter 84 of title 5, special retirement accrual benefits in the same manner provided for certain officers and employees of the Central Intelligence Agency in section 303 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (50 U.S.C. 403 note).".

TITLE VI—MISCELLANEOUS PROVISIONS

SEC. 601. ANNUITIES FOR SURVIVORS OF DISTRICT OF COLUMBIA JUDGES.

(a) AMENDMENTS TO DISTRICT OF COLUMBIA CODE.—(1) Subsections (a) and (b) of section

11-1567 of title 11 of the District of Columbia Code are each amended by striking out "3 per centum" each place it appears and inserting in lieu thereof "3.5 percent".

(2)(A) Subsection (a) of section 11-1568 of title 11 of the District of Columbia Code is amended by striking out "computing a survivor annuity" and inserting in lieu thereof "any provision of this subchapter which refers to this subsection".

(B) Subsection (c) of section 11-1568 of title 11 of the District of Columbia Code is amended—

(i) in paragraph (2)(B), by striking out "the lesser of (i) $2,700 per year divided by the number of such children or (ii) $900" and inserting in lieu thereof "the lesser of (i) $8,424 per year divided by the number of such children or (ii) $2,808";

(ii) in paragraph (3), by striking out "the lesser of (A) $3,240 per year divided by the number of children or (B) $1,080" and inserting in lieu thereof "the lesser of (A) $10,110 per year divided by the number of such children or (B) $3,370";

(iii) by inserting before the first sentence of the matter following paragraph (3) the following:

"For the purpose of computing, under this subsection, the annuity of a child that commences on or after January 1, 1987, the figures $8,424, $2,808, $10,110, and $3,370 (provided in paragraphs (2) and (3)) shall be increased by the total percentage of the increases allowed and in force with respect to retirement salaries of judges under section 11-1571(a) of this title on or after such date."; and

(iv) in the first sentence of the matter following paragraph (3) by striking out "remarriage" and inserting in lieu thereof "upon remarriage prior to the attainment of fifty-five years of age".

(C) Subsection (e) of section 11-1568 of title 11 of the District of Columbia Code is amended to read as follows:

"(e) The annuity of a widow or widower of a judge or retired judge who elected a survivor annuity shall be equal to—

"(1) in the case of a judge who dies while in active regular service as a judge, the greater of—

"(A) 55 percent of the retirement salary the judge would have been entitled to receive (as computed under section 11-1564) if the judge had retired on the day before the date of death (without regard to the age requirements prescribed in section 11-1562(b)), or

"(B) 55 percent of the retirement salary the judge would have been entitled to receive (as computed under section 11-1564) if the judge had retired on the day before the date of death with 15 years of service for the purposes of this subchapter (without regard to the age requirements prescribed in section 11-1562(b)); and

"(2) in the case of a retired judge, 55 percent of the retirement salary payable to such judge on the day before the date of the judge's death.".

(b) APPLICATION OF AMENDMENTS.—The benefits conferred by section 11-1568 of title 11 of the District of Columbia Code, by reason of the amendments made by subsection (a) shall apply to individuals eligible for annuities under such sections on or after the date of the enactment of this Act, except that—

(1) such annuities shall be computed in accordance with the provisions of such section, as amended by subsection (a), notwithstanding contributions or deposits made in accordance with applicable law at lower rates; and

(2) no additional liability shall be created with respect to deposits made in accordance with applicable law before the date of the enactment of this Act, or after such date pursuant to an installment payment election made under section 11-1567(b) of title 11 of the District of Columbia Code, before such date.

(c) OPPORTUNITY TO REVOKE A PREVIOUS SURVIVOR ANNUITY ELECTION.—(1)(A) Any individual who, before the date of the enactment of this Act, made an election under section 11-1566 of title 11 of the District of Columbia Code, to come within the purview of the survivor annuity provisions of subchapter III of chapter 15 of such title may revoke that election. Such a revocation shall constitute a complete withdrawal from the survivor annuity program provided for in such subchapter.

(B) A revocation under subparagraph (A) shall be submitted in writing to the Mayor of the District of Columbia.

(2) A revocation under paragraph (1) shall be effective on the day it is received by the official referred to in subparagraph (B) of such paragraph.

(3)(A) On the effective date of a revocation under paragraph (1), any right to survivor benefits (to which the revocation relates) for the survivors of the individual who makes the revocation shall terminate, and all amounts credited to the account of such individual under section 11-1570(c) of title 11 of the District of Columbia Code, together with interest computed as provided in subparagraph (B), shall be returned to that individual in a lump-sum payment.

(B) For the purpose of subparagraph (A), interest shall be computed in accordance with section 11-1561(10)(C) of title 11 of the District of Columbia Code.

(4)(A) Any individual who makes a revocation under paragraph (1) and who thereafter becomes eligible to make an election under section 11-1556 of title 11 of the District of Columbia Code, may make such election only if such individual redeposits, to the credit of the District of Columbia Judge's Retirement Fund referred to in section 11-1561(4) of such title, the full amount of the lump-sum payment made to such individual under paragraph (4), together with interest.

(B) For the purpose of subparagraph (A), interest shall be computed at 3 percent per annum, compounded on December 31 of each year from the date of the lump-sum payment referred to in such subparagraph until the date on which the amount referred to in such subparagraph is redeposited under such subparagraph.

(d) ADDITIONAL OPPORTUNITY TO MAKE A SURVIVOR ANNUITY ELECTION.—(1) Any individual who, on or before the date of the enactment of this Act, has not made an election under section 11-1566(a) of title 11 of the District of Columbia Code, to come within the purview of the survivor annuity provisions of subchapter III of chapter 15 of such title and is no longer entitled to make such an election may make such an election. Any such election shall be submitted in writing to the Mayor of the District of Columbia.

(2) An election under paragraph (1) shall be effective on the day it is received by the official referred to in such paragraph.

(e) PERIOD FOR EXERCISE OF RIGHT TO REVOKE OR ELECT.—The right to revoke an election under subsection (d) or to make an election under subsection (e) is irrevocably waived if not exercised within 180 days after the date of the enactment of this Act.

TITLE VII—AUTHORIZATION OF APPROPRIATIONS; EFFECTIVE DATES

SEC. 701. AUTHORIZATION OF APPROPRIATIONS FOR CERTAIN EXPENSES OF THE FEDERAL RETIREMENT THRIFT INVESTMENT MANAGEMENT SYSTEM.

(a) TEMPORARY ALTERNATIVE FUNDING.—Notwithstanding section 8434(c)(3) of title 5, United States Code (as added by section 101 of this Act), the expenses incurred in the administration of the Federal Retirement Thrift Investment Management System under subchapter VII of chapter 84 of such title (as so added) during fiscal years 1986 and 1987 shall be paid from sums appropriated pursuant to subsection (b).

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Federal Retirement Thrift Investment Board, for fiscal years 1986 and 1987, such sums as may be necessary to pay the expenses incurred in the administration of the Federal Retirement Thrift Investment Management System during such fiscal years.

SEC. 702. EFFECTIVE DATES.

(a) IN GENERAL.—Except as provided in subsection (b), this Act and the amendments made by this Act shall take effect on January 1, 1987.

(b) EXCEPTIONS.—(1) Subchapter VII of chapter 84 of title 5, United States Code, as added by section 101 of this Act, shall take effect on the date of the enactment of this Act.

(2) Except as provided in section 305 of this Act, title III of this Act, and the amendments made by such title, shall take effect on the date of the enactment of this Act.

(3) The amendments made by sections 204 and 205 of this Act shall take effect on the date of the enactment of this Act.

(4) Section 401 of this Act shall take effect on the date of the enactment of this Act.

(5) Sections 505 and 601 of this Act and the amendments made by such section 601 shall take effect on the date of the enactment of this Act.

(c) FIRST COST-OF-LIVING ADJUSTMENT.—(1) For purposes of the first adjustment under subsection (b) of section 8462 of title 5, United States Code (as added by section 101 of this Act), the base quarter ending on September 30, 1986, shall be considered to have been the base quarter for a year in which an adjustment under such subsection was made.

(2) As used in paragraph (1), the term "base quarter" has the meaning provided by section 8462(a)(1) of title 5, United States Code (as added by section 101 of this Act).

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the bill, and agree to the same.

From the Committee on Post Office and Civil Service:

For consideration of the Senate amendments Nos. 1, 2, and 3 and modifications committed to conference:

WILLIAM D. FORD,
WILLIAM CLAY,
MARY ROSE OAKAR,
GENE TAYLOR,
JOHN T. MYERS,

As additional conferees on Senate Amendment No. 3:

From the Permanent Select Committee on Intelligence:

For consideration of title IV of the Senate amendment and modifications committed to conference:

LEE H. HAMILTON,
LOUIS STOKES,

ANTHONY C. BEILENSON,
BOB STUMP,
ANDY IRELAND,

As additional conferees on Senate Amendment No. 3:

From the Committee on Foreign Affairs:

For consideration of title V of the Senate amendment and modifications committed to conference:

DANIEL A. MICA,
PETER H. KOSTMAYER,
OLYMPIA SNOWE,

As additional conferees on Senate Amendment No. 3:

From the Committee on Ways and Means:

For consideration of provisions in section 101 of the Senate amendment establishing a new subchapter III of chapter 84—Thrift Savings Plan; establishing a new section 8475 in subchapter VII—transition provisions; of title II of the Senate amendment; and of section 305 of the Senate amendment and modifications committed to conference:

BILL ARCHER,
WM. THOMAS,
Managers on the Part of the House.

W.V. ROTH, Jr.,
TED STEVENS,
CHARLES MCC. MATHIAS, Jr.,
TOM EAGLETON,
ALBERT GORE, Jr.,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2672) to redesignate the New York International and Bulk Mail Center in Jersey City, New Jersey, as the "New Jersey International and Bulk Mail Center", and to honor the memory of a former postal employee by dedicating a portion of a street at the New York International and Bulk Mail Center in Jersey City, New Jersey, as "Michael McDermott Place", submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

H.R. 2672, as passed by the House, redesignated a bulk mail center and honors a former postal employee by dedicating a portion of a street in memory of such employee. The Senate adopted three amendments to the House bill. The first two made technical changes to these provisions relating to the bulk mail center. The third amendment embodied S. 1527, a bill establishing a new retirement system for certain Federal employees. The House disagreed with the Senate amendments and requested a conference.

Because the bill, as passed by the House, does not include provisions relating to the establishment of a new retirement system, the scope of the conference relating to the retirement provisions was limited to the Senate provisions and current law. However, a bill establishing a new retirement system was introduced in the House and ordered reported from the Committee on Post Office and Civil Service (H.R. 3660). Thus, while the House committee's reported bill was not in conference, the managers of both Houses were cognizant of its provisions and incorporated many of them in the conference agreement. The conferees acknowledge that H.R. 2672, as passed by the House, has no provisions comparable to the Senate's retirement provisions, but, for the sake of clarity, this statement of managers references the provisions of the bill (H.R. 3660) reported from the House committee.

Senate Amendment No. 1

The House recedes to the Senate.

Senate Amendment No. 2

The House recedes to the Senate.

Senate Amendment No. 3

The House concurs in the Senate amendment with an amendment which is explained below.

FEDERAL EMPLOYEES' RETIREMENT SYSTEM

TITLE

The Senate amendment entitles the new retirement system the Federal Retirement System.

The House bill has no comparable provision.

The House committee bill entitles the system, the Civil Service Supplemental Retirement System.

The conference agreement entitles the system, the Federal Employees' Retirement System (FERS).

BASIC PLAN

Coverage

The Senate amendment covers all Federal employees (including congressional staff and employees of Gallaudet College) hired, or rehired after a break in service for more than one year, after December 31, 1983. Additionally, all Members of Congress elected or appointed after December 31, 1983, are similarly covered. United States Park Police and the United States Secret Service hired, or rehired after the requisite break in service, after the above date are covered. Nonappropriated fund employees of the Department of Defense hired, or rehired after the requisite break in service, after the above date are covered. Members of the Foreign Service and certain employees of the Central Intelligence Agency (CIA) are covered under special provisions. A special arrangement is provided for those employees and Members of Congress who are covered by both the Civil Service Retirement System (CSRS) and the Social Security Act.

Under the Senate amendment all employees and Members of Congress covered by the CSRS or other related Government retirement programs may transfer into this system during a one-year window period. Employes of the District of Columbia are not covered and are prospectively excluded from CSRS beginning January 1, 1987.

The House bill has no comparable provision.

The House committee bill covers Civil Service employees, including congressional staff and employees of Gallaudet College, hired after December 31, 1983. Coverage is also extended to those employees rehired after the above date with a break in service of more than one year if those employees served less than five years under CSRS. Members of Congress, the Park Police and the Secret Service are also covered. A special arrangement similar to the Senate provision is provided for those employees and Members covered by CSRS and the Social Security act. Employees covered by CSRS may not transfer into the new system. Employees of the District of Columbia are not covered and are prospectively excluded from CSRS beginning October 1, 1987.

The conference agreement adopts the Senate provisions with modifications. Similar to the House committee bill, rehired employees with 5 years or more prior service subject to CSRS retain coverage under a revised CSRS. District of Columbia employees hired after October 1, 1987 are excluded from CSRS. Nonappropriated fund employees are not covered. Employees under the current retirement system will have six months beginning July 1, 1987, to elect into the new system.

Creditable service

The Senate amendment provides that creditable service includes service in a covered position in the new retirement system, service covered by the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, military service, service creditable under CSRS (only for purposes under transition provisions), leaves of absences creditable under CSRS, and unused sick leave.

The House bill has no comparable provision.

The House committee bill provides that creditable service for most individuals includes civilian service subject to social security, military service, service covered by the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, leaves of absence without pay while serving in the military or receiving worker's compensation, other leaves of absence of 6 months or less, and certain leaves of absence without pay for full-time service in an employee organization if the cost of such service is fully paid by the employee.

The conference agreement generally adopts the approach of the House committee bill except that a period of post-1956 military service is creditable only if the employee makes a contribution to the retirement fund equal to 3 percent of the employee's military base pay for such period. The conferees decided that the cost of retirement credit for military service should be absorbed, in part, by the employer as is the case under the CSRS. The ratio of the employee contribution for military service (3 percent) to the cost of the defined benefit plan under FERS is comparable to that under CSRS.

The conferees note that under FERS sick leave is not creditable service except for such leave carried into the system by an employee who transfers from CSRS. The conferees urge the Office of Personnel Management to examine the sick leave usage by employees under FERS. The conferees are concerned that without an incentive to save sick leave, the use of sick leave may substantially increase.

One plan

The Senate amendment provides two retirement options. Upon employment employees have 90 days in which to irrevocably choose between the two.

The House bill has no comparable provision, but the House committee bill provides for only one retirement plan.

The conference agreement adopts the House committee approach. The managers agree that, for personnel management and administrative reasons, one plan is preferable. Under FERS employees will have significant flexibility and choice with respect to participation and investment options in the thrift plan.

Vesting

The Senate amendment provides that benefits will vest after five years of civilian service.

The House bill has no comparable provision. The House committee bill also provides

that benefits vest after five years of civilian service.

The conference agreement adopts the House committee bill approach, with the qualification that service for which a refund of contributions has been made is irrevocably forfeited as creditable service.

Salary base

The Senate amendment provides a salary base of the average of an employee's five highest consecutive years of salary to determine the retirement benefit.

The House bill has no comparable provision.

The House committee bill provides a salary base of the average of an employee's three highest consecutive years of salary to determine the retirement benefit.

The conference agreement adopts the House committee approach.

Accrual rate

The Senate amendment provides an accrual rate equal to .9 percent for each year of service for the first 15 years and 1.1 percent for each year over 15 years.

The House bill has no comparable provision.

The House Committee bill provides an accrual rate equal to 1 percent for each year of service.

The conference agreement adopts the approach of the House committee bill, except that the accrual rate is 1.1 percent for each year of service if the employee is at least age 62 at the time of retirement and has completed at least 20 years of service.

Employee contributions

The Senate amendment (Option A) does not require employee contributions. Option B requires employees to contribute to the retirement fund an amount based on the difference between the Old Age, Survivor and Disability Insurance (OASDI) tax and the amount the employees would have been required to contribute to CSRS had they been covered under CSRS.

The House bill has no comparable provision.

The House Committee bill requires employees to contribute to the retirement fund an amount based on the difference between the OASDI tax rate and the CSRS contribution rate.

The conference agreement adopts the House committee approach. The conferees wrestled with the question of whether the basic plan should be contributory. Each dollar required as a contribution to the basic plan leaves one dollar less available for investment in the thrift plan. The conferees resolved the dilemma by mandating an employee contribution to the basic plan while at the same time requiring an employer thrift plan contribution which approximates the required employee contribution.

The required employee contributions to the basic plan will be 1.3 percent of basic pay in 1987, 0.94 percent from 1988 to 1990, and 0.8 percent in 1990 and thereafter. This is in addition to the mandatory OASDI tax.

Eligibility for unreduced benefits

The Senate amendment (Option A) provides unreduced benefits at age 62 with at least five years of service. Option B provides benefits at age 55 with 30 or more years of services or at age 62 with 5 or more years of service.

The House bill has no comparable provision, but the House committee bill provides unreduced benefits at age 55 with 30 or more years of service, at age 60 with 20 or more years of service, or at 62 with 5 or more years of service.

The conference agreement provides unreduced benefits at age 60 with 20 or more years of service and at age 62 with five or more years of service. In addition, it establishes a gradually increasing "minimum retirement age" for employees with 30 or more years of service. Until the year 2003, an employee with 30 years of service may retire at age 55. Beginning in the years 2003 the minimum retirement age increases by two months every year until year 2009. Thus, at year 2009 the employee must be age 56 to retire with 30 or more years of service. Age 56 is the minimum retirement age until the year 2020. Beginning in the year 2021 the minimum retirement age again increases by two-month increments until the year 2027. Thus, in the year 2027 the minimum retirement age to retire with 30 or more years of service is 57. Thereafter, age 57 is the permanent age for eligibility to retire with 30 or more years of services.

The conferees believe that 30 years of service with the Federal Government should be rewarded by an unreduced retirement benefit. The graduated minimum retirement age (which is analagous to future normal retirement age increases under the Social Security Act) takes into account changing demographics and increases in employee longevity.

Eligibility for reduced benefits

The Senate amendment (Option A) provides for two forms of reduced retirement benefits at age 55 depending upon whether the individual had 30 or more years of service or 10-30 years of service. An employee retiring after age 55 with 30 or more years of service would experience a 2 percent per year reduction for each year the employee was under the age of 62. An employee could also retire after age 55 with 10 or more years of service with a 5 percent per year reduction for each year the employee was under the age of 62.

Under Option B, an employee retiring after age 55 with 30 or more years of service would experience no reduction. An employee retiring after age 55 with 10-30 years of service would experience the same reduction as under Option A.

Neither the House bill nor the House committee bill has a comparable provision.

The conference agreement essentially adopts the provisions of the Senate amendment Option B, with one modification. The minimum retirement age for the reduced benefit increases gradually from 55 to 57. Ten years of service are required. For an employee retiring with less than 30 years of service a reduction of 5 percent per year for each year under age 62 is imposed, permitting flexibility for employee retirement planning at no additional cost to the Government.

Deferred benefits

The Senate amendment entitles former employees who have sufficient service and who attain the applicable minimum age for immediate retirement to deferred benefits. Under Option A, a former employee is entitled to an unreduced deferred benefit at age 62 with five or more years of service and reduced deferred benefits at age 55 with 10 or more years of service. Option B provides the same benefits and, also, provides unreduced deferred benefits to former employees who attain age 55 with 30 or more years of service.

The House bill has no comparable provision.

The House committee bill provides a deferred benefit to a former employee who attains age 62 with 5 or more years of service.

The conference agreement adopts the Senate approach which entitles a former employee with sufficient service to benefits when he or she attains the requisite minimum age to be eligible for immediate retirement. The agreement provides entitlement to *unreduced* benefits to former employees who attain age 62 with five or more years of service, age 60 with 20 or more years of service and age 55-57 with 30 or more years of service depending upon the year in which the employee retires. *Reduced* benefits are available to a former employee who attains age 55-57 with 10 or more years of service depending upon the year in which the employee retires. Providing deferred benefits to former employees under the same conditions as immediate benefits to current employees is consistent with the requirements of the Employee Retirement Income Security Act (ERISA) as applied to private pension plans. Additionally, this provision increases career flexibility for Federal employees who leave Government prior to becoming eligible for an immediate retirement benefit.

Involuntary retirement

The Senate amendment provides for involuntary retirement under the same conditions as the CSRS, i.e., if an employee is age 50 with at least 20 years of service or at any age with at least 25 years of service. The employee's benefit is reduced 2 percent for each year the employee is under age 62.

The House bill has no comparable provisions.

The House committee bill provides for involuntary retirement under the same conditions and eligibility requirements as the Senate amendment. However, those eligible for benefits would not face a reduction in their annuities based on age at time of retirement.

The conference agreements adopts the House committee approach. An employee removed from Government involuntarily is eligible to receive an immediate and unreduced benefit if the employee is age 50 with at least 20 years of service or any age with at least 25 years of service.

Annuity supplement

The Senate amendment does not include a supplement to the basic pension for those employees retiring before age 62 except with respect to special class employees, e.g., firefighters, law enforcement officers, and air traffic controllers.

The House bill has no air traffic controllers.

The House committee bill does include such a supplement for those retiring at age 55 with 30 years of service or age 60 with 20 years of service, as well as for special class employees.

The conference agreement adopts modified version of the House committee provision. The supplement will be paid to those employees who retire at the minimum retirement age (55-57) with at least 30 years of service, those who retire at age 60 with at least 20 years of service, and those involuntarily separated beginning when they attain the minimum retirement age. The supplement is designed to replicate the Social Security benefit (based on Federal civilian service) available at age 62 for those employees retiring earlier. The supplement terminates once the employee attains age eligibility to receive Social Security benefits, i.e., age 62. The provision in the conference agreement differs from the one in the House committee bill in three respects. First, the formula was redesigned to assume

that no Social Security benefits were earned in post-Federal employment. Second, the supplement is not adjusted for inflation. Third, the amount of the supplement actually payable is reduced by earnings in excess of a minimum amount, just as the amount of Social Security benefits payable at age 62 are reduced by earnings in excess of that amount. Earnings in excess of the exempt amount in the Social Security Act (the 1986 amount is $5,760.00 which is wage indexed) will reduce the supplement by one dollar for every two dollars earned. The conferees note that in order to assure continuity of a benefit stream throughout retirement, the supplement is subjected to the same conditions as payment of the Social Security benefit.

Cost-of-living adjustments

The Senate amendment provided for different cost-of-living adjustments (COLAs) for the various benefits depending on the retirement plan option selected. Under Option A, annuitants would receive no COLAs until age 62. For annuitants aged 62 through 66 and for those receiving disability or survivor benefits, the COLA would equal the percentage increase in the Consumer Price Index (CPI) minus two percentage points. At age 67, all COLAs would equal the actual percentage increase in the CPI.

Under Option B of the Senate amendment, annuitants up to age 62 would receive a COLA equal to the percentage increase in the CPI minus 2 percentage points. For annuitants at age 62 and above and for survivors and those disabled at any age the COLA would be the full CPI increase.

The House bill has no comparable provision.

The House committee bill provides for full COLAs for retirees, survivors, and disability annuitants.

Except in the case of special classes of employees, discussed below, the conference agreement provides for no COLA for retirees under age 62. For retirees age 62 and over, and for those receiving disability or survivor benefits regardless of age, the COLA is generally equal to the percentage increase in the CPI minus one percentage point. In those years for which the percentage increase in the CPI does not exceed 3 percent, the COLA will be the lesser of the increase in the price index or 2 percent.

Special classes

The Senate amendment provides earlier retirement with a supplement to certain classes of employees. The special classes include firefighters, law enforcement personnel, and air traffic controllers. Members of the Foreign Service and certain employees of the Central Intelligence Agency receive similar benefits although they are covered under amendments to their respective systems.

All of these employees may retire with an unreduced benefit at age 50 with at least 20 years of service or at any age with at least 25 years of service. In addition, a supplement is payable from retirement to age 62. Definitions of firefighters and law enforcement officers are more restrictive than under CSRS. Finally, military reserve technicians may retire at age 55 with 30 years of service with an unreduced benefit but without a supplement.

The House bill has no comparable provision.

The House committee bill provides higher accrual rates for law enforcement personnel, firefighters, air traffic controllers, Members of Congress, and congressional staff. The accrual rates are 1.7 percent per year of service for the first 20 years and 1.5 percent for service thereafter. The bill also requires employees in these classes to contribute an additional ½ of one percent of salary to the basic plan. Law enforcement personnel and firefighters (current law definitions) may retire at age 50 with 20 years of service with a supplement. Air traffic controllers may retire at age 50 with 20 years of service or 25 years of service at any age with a supplement. Members of Congress may retire with a supplement after completing 25 years of service or after becoming age 50 and completing 20 years of service or having served in 9 Congresses. In addition, a Member may retire with a supplement at age 60 with 10 years of service.

The conference agreement includes provisions of both the Senate amendment and the House committee bill. The Senate definition of "firefighters" is adopted as well as the definition of "law enforcement officer" (except as it applies to employees of Bureau of Prisons and related agencies). Law enforcement officers, firefighters, air traffic controllers, and Members of Congress may retire at age 50 with 20 years of service or at any age after completing 25 years of service. Law enforcement officers, firefighters, and air traffic controllers receive a supplement beginning at retirement. Members receive such a supplement beginning at the applicable minimum retirement age (55–57). The earnings test described earlier applies to the supplement at the minimum retirement age. These individuals, and congressional employees, contribute an additional ½ of one percent to the basic plan and receive an accrual rate equal to 1.7 percent of average pay for each of their first 20 years of service and 1 percent of average pay for each year thereafter. Members of the Foreign Service and certain employees of the CIA receive similar treatment but are covered under amendments to their respective retirement systems.

The mandatory retirement ages applicable under CSRS for law enforcement officers, firefighters, and air traffic controllers are included in the conference agreement. Because of the mandatory retirement requirements, the benefits for these groups will be adjusted for changes in cost of living, generally, at a rate of CPI minus 1 percent beginning at retirement, rather than at age 62.

To determine a reasonable accrual rate, the conferees used the average age and service at retirement of law enforcement officers in the CSRS and tried to replicate the CSRS replacement rates for such individuals in the retirement provisions of this plan.

Finally, the conference agreement provides that military reserve technicians separated from the civil service because of losing military status through no fault of their own may retire at age 50 with 25 years of service. In such cases the normal accrual rate of 1 percent of average salary per year of service applies and a supplement is paid. Those technicians who lose military status due to physical disability will receive cost-of-living adjustments from the time of retirement equivalent to that discussed above.

THRIFT SAVINGS PLAN

Contributions

The Senate amendment allows an employee to contribute each year up to 10 percent of the employee's rate of basic pay to the Thrift Savings Fund. It allows for "make-up" contributions in a year following a year in which an employee did not make the maximum contribution. In any year total contributions (including "make-up" contributions) could not exceed 15 percent of the employee's annual rate of pay for that year. The Senate amendment also permits employees to modify the amounts contributed to the Thrift Savings Fund at least once per year.

The Senate amendment provides for matching employer contributions. Under the Senate plan (Option A), the Government would match contributions dollar for dollar up to 5 percent of the employee's pay. Under Option B, the Government matches the first one percent of pay dollar for dollar, the second and third percent at fifty cents per dollar, and the fourth through sixth percent of pay at twenty five cents per dollar. The Senate amendment provides for the employee and employer contributions to the Thrift Fund to be tax deferred. The Senate amendment provides to employees who are receiving disability benefits the option of participating in the Thrift Plan.

The House bill has no comparable provision.

The House committee bill allows employees to contribute up to 10 percent of basic pay. It provides for the employer to match the contribution at fifty cents per dollar up to 6 percent of the employee's basic pay. The House committee bill requires an "open season" at least once every 6 months during which an employee may elect to contribute, elect to cease contributing, or change the rate of contribution. An employee may not begin contributing until the second open season following employment. Under the House committee bill, employees covered by CSRS could also contribute up to 10 percent of pay. Such contributions, however, would not be matched by the Government.

The conference agreement adopts provisions of both the Senate amendment and the House committee bill. Newly-hired employees must wait until the second "open season" to join, a period ranging from 6–12 months. Employees must be permitted to elect to participate, to elect to cease participating, or to modify the amount of their contributions to the Fund at least once every 6 months. The Executive Director is required to design a plan for make-up contributions and submit it to Congress.

With respect to Government contributions, the conference agreement represents a compromise between the Senate amendment and the House committee bill. The conference agreement provides for the employer to contribute an amount equal to one percent of basic pay for each employee regardless of whether the employee has elected to make contributions. This substantially offsets the mandatory employee contribution to the basic plan. An employee may elect to contribute up to 10 percent of pay with the employer matching up to 5 percent as follows: for the first 3 percent the match is 100 percent and for the fourth and fifth percent of pay the match is 50 percent.

Like the Senate amendment, the conference agreement provides that the employee and employer contributions to the Thrift Savings Fund will be tax-deferred. The House had no provision for tax deferral. Employees under CSRS may contribute a maximum of 5 percent to the Thrift Savings Plan but with no Government matching contribution.

The conferees believe the Thrift Savings Plan is a key element of the new retirement system. It encourages Federal employees to participate actively in their own retirement planning. The automatic 1 percent Government contribution for each employee cou-

pled with the attractive agency matching contribution provides a strong incentive for employees to participate. The tax-deferred features of the plan also make the Thrift Savings Plan economically attractive to employees. These popular tax-deferred savings plans should be as available to Federal employees as they are to private sector employees.

To encourage all Federal employees to participate in retirement planning, the conference agreement follows the House committee bill and allows current CSRS employees to participate in the Thrift Savings Plan. However, the conference agreement does not adopt the Senate amendment provision which permits disabled employees to participate in the Thrift Plan.

Vesting

The Senate amendment provides for immediate vesting of an employee's contributions to the Thrift Savings Plan and earnings attributed to those contributions. It provides for gradual vesting of the Government's contributions (and attributable earnings) over a 5-year period.

The House bill has no comparable provision.

The House committee bill provides for full and immediate vesting of both employee and employer contributions and the attributable earnings.

The conference agreement adopts the House provisions for full and immediate vesting for matching contributions. The automatic one percent contribution discussed above vests after 3 years of service for career employees, and 2 years for political appointees. The conferees note, however, there is a waiting period before an employee may join the plan.

Payouts

The Senate amendment provides several options under which participants may receive benefits from the Thrift Savings Plan upon leaving Government employment. The options available depend on the participant's retirement status. Those entitled to an immediate basic plan annuity, to workers' compensation benefits, or disability benefits would have four options: (1) an immediate annuity; (2) a deferred annuity; (3) withdrawal of funds in one or more payments; or (4) a rollover to an Individual Retirement Account (IRA) or any qualified pension plan. Those entitled to a deferred annuity would have the same four options, but the first three would be available only after the deferred annuity commences. Those not entitled to an annuity have two options: (1) withdrawal of funds at age 62; or (2) rollover to an IRA or any qualified pension plan.

The House bill has no comparable provision.

The House committee bill provides that an employee, upon separation from employment, may withdraw his account, receive an annuity or receive a deferred annuity.

The conference agreement adopts the Senate amendment provisions with modifications. If eligible to retire from the basic plan, an employee may withdraw the account, receive an annuity, defer an annuity, or transfer the account into an IRA or any qualified pension plan. If the employee separates with title to a deferred annuity under the basic plan, the employee may elect any of the above options except that withdrawals may not be made until the employee is eligible to receive the deferred annuity under the basic plan. If the employee is not vested in the basic plan, the account is required to be transferred into an IRA or any qualified pension plan.

Loans

The Senate amendment authorizes a loan program beginning in January 1, 1988, limited to the employee's contributions and attributable earnings.

The House bill has no comparable provision.

The House committee bill authorizes loans or hardship withdrawals of employee contributions for the following purposes: (1) purchase of a primary residence; (2) educational expenses; (3) medical expenses; or (4) financial hardship.

The conference agreement adopts the House committee provisions on loans except that loans will not be permitted prior to January 1, 1988. Withdrawals during employment are not permitted.

Investment of thrift savings fund

The Senate amendment provides for a minimum of three funds for investment: A Government Securities Investment Fund, a Fixed Income Investment Fund, and a Common Stock Index Investment Fund. It provides for a 5-member board to establish additional funds as appropriate. The Senate amendment includes certain requirements for the index fund and requires the board to define the stock index.

The Senate amendment provides for employees to have the opportunity at least once each year to elect the funds for investment or reinvestment. It includes a requirement that all monies contributed by employees to the Thrift Savings Plan during 1987 would be invested in the Government Securities Investment Fund with a 20 percent reduction of this amount each year through 1991. With respect to amounts contributed by the Government, 100 percent would remain in the Government Securities Investment Fund for the 6-year period, 1987-1992. In 1993, 20 percent would be available for investment in other funds increasing by 20 percent each year through 1996.

The House bill has no comparable provisions.

The House committee bill provides for a total of 6 funds for investment. In addition to the 3 included in the Senate plan, the House also provides for an indexed bond fund, an actively managed stock fund, and an actively managed bond fund. It provides for employee elections for allocating investments among funds at the same time as elections to participate in the Thrift Savings Plan (at least once every six months). The House committee bill provides for all government contributions prior to 1992 to be invested in the Government Securities Investment Fund.

The conference agreement adopts the Senate provisions establishing three funds and gives the Board the responsibility to select the index for the Common Stock Index Investment Fund. The conferees chose to limit the number of funds to three for several reasons. Because this is a new undertaking in the Federal Government, a smaller number of funds will be more manageable. The three funds selected offer employees distinct and reasonable alternatives for investment. Should additional investment vehicles become desirable, the Congress can authorize them.

Most importantly, the three funds authorized in the legislation are passively managed funds, not subject to political manipulation. A great deal of concern was raised about the possibility of political manipulation of large pools of thrift plan money. This legislation was designed to preclude that possibility.

Concerns over the specter of political involvement in the thrift plan management seem to focus on two distinct issues. One, the Board, composed of Presidential appointees, could be susceptible to pressure from an Administration. Two, the Congress might be tempted to use the large pool of thrift money for political purposes. Neither case would be likely to occur given present legal and constitutional restraints.

The Board members and employees are subject to strict fiduciary rules. They must invest the money and manage the funds solely for the benefit of the participants. A breach of these responsibilities would make the fiduciaries civilly and criminally liable.

The structure of the funds themselves prevents political manipulation. The Government Securities Investment Fund is invested in nonmarketable special issues of the Treasury pegged to a certain average interest rate. The Fixed Income Investment Fund is composed of guaranteed investment contracts, certificates of deposits or other fixed instruments in which the Board contracts with insurance companies, banks and the like to provide it with a fixed rate of return over a specified period of time. The Board would have no knowledge of the specific investments.

Finally, the stock index fund is one in which a common stock index such as Standard & Poor's 500 or Wilshire's 5000 is used as the mechanism to allocate investments from the fund to various stocks. A common stock index is a composite of stocks which moves up and down in value as prices of the stocks change. An index fund then allocates its investments to the stocks in the index in the same or similar ratio that the value of a given stock has to the total value of all of the stocks in the index. Thus, the actual decision to buy or sell a given stock is determined by the market place, i.e., the ratio of values of stock within the index. As the relative values change, the investments from the fund change. Hence no individual or group of individuals are capable of manipulating investments. The legislation bars Board members, the Executive Director and employees from voting proxies owned by the stock index fund.

The investment approach chosen by the conferees is patterned after corporate, state and local government, and the few existing Federal pension funds. Political manipulation is unlikely and would be unlawful.

As to the issue of Congress tampering with the thrift funds, the inherent nature of a thrift plan precludes that possibility. Unlike a defined benefit plan where an employer essentially promises a certain benefit, a thrift plan is an employee savings plan. In other words, the employees own the money. The money, in essence, is held in trust for the employee and managed and invested on the employee's behalf until the employee is eligible to receive it. This arrangement confers upon the employee property and other legal rights to the contributions and their earnings. Whether the money is invested in Government or private securities is immaterial with respect to employee ownership. The employee owns it, and it cannot be tampered with by any entity including Congress.

Drawing parallels between corporate reversions from overfunded pension plans and state legislative initiatives to use state pension monies for certain political purposes is irrelevant in this case. These examples are of funded defined benefit plans where the

monies do not belong to the employees but, rather, are arrangements to fund a statutory or contractual benefit. In this case, the vested moneys of the thrift plan belong to the employees.

Because of the many concerns raised, the conferees spent more time on this issue than any other. Proposals were made to decentralize the investment management and to give employees more choice by permitting them to choose their own financial institution in which to invest. While the conferees applaud the use of IRAs, they find such an approach for an employer-sponsored retirement program inappropriate. In fact, the conferees received advice from the Department of the Treasury that such a plan would not even qualify as an employer-sponsored plan, thus losing its favorable tax treatment.

The conferees concur with the resolution of this issue as discussed in the Senate report (99-166) on this legislation:

As an alternative the committee considered permitting any qualified institution to offer to employee specific investment vehicles. However, the committee rejected that approach for a number of reasons. First, there are literally thousands of qualified institutions who would bombard employees with promotions for their services. The committee concluded that employees would not favor such an approach. Second, few, if any, private employers offer such an arrangement. Third, even qualified institutions go bankrupt occasionally and a substantial portion of an employee's retirement benefit could be wiped out. This is in contrast to the diversified fund approach which could easily survive a few bankrupticies. Fourth, it would be difficult to administer. Fifth, this "retail" or "voucher" approach would give up the economic advantage of this group's wholesale purchasing power derived from its large size, so that employees acting individually would get less for their money.

The conference agreement adopts the Senate amendment provision for phasing employee and employer contributions into the private sector investment options with one change. At the end of the first five-year period employees could invest all of their contributions in any fund. After the 10-year period employees may invest all of the Government contributions in any fund. The conference agreement provides for employees to elect investment vehicles twice each year, simultaneous with the option to change contribution rates. Contributions by individuals under CSRS must be held in the Government Securities Investment Fund.

Federal retirement thrift investment management system

The Senate amendment establishes an off-budget agency called the Federal Retirement Thrift Investment Board to handle the investment and administraiton of the thrift plan. The Board's operations are funded by forfeitures of Government contributions and the invesment income from its investments. Board members are the Chairman of the Federal Reserve Board, the Director of the Office of Personnel Management, the Secretary of the Treasury, and two Presidentially-appointed employee representatives, one from labor and one from a manager organization. The Board sets overall policy, which is administered by an executive director and a support staff. An advisory committee of private sector experts advises the Board on investments and administration while a specially elected employee advisory committee advises in investment decisions and votes the fund's shares in relevant corporate matters. The Secretary of Labor is responsible for enforcing fiduciary responsibilities similiar to those required by ERISA.

The House bill has no comparable provision.

The House committee bill establishes an off-budget agency called the Federal Retirement Investment Board to handle the investment and administration of the thrift plan, which is funded by investment income from its investments. The Board is composed of five members, appointed by the President of four year terms, one of whom is designated as Chairman. One appointment is on recommendation of the Speaker of the House, one on recommendation of the Senate Majority Leader, and the final one upon recommendation of the other four. The Board sets overall policy, which is administered by an executive director and a support staff. The Chairman appoints a 14 member Employee Thrift Advisory Council representing labor, management, women, and retiree organizations. One member is designated by the Chairman as head of the Council and appointments are for four years. The Council advises the Board on investment and administration of the Thrift Savings Fund. The Secretary of Labor is responsible for enforcing fiduciary responsibilities similar to those required by ERISA.

The conference agreement generally adopts the House committee provisions. Board appointees must be confirmed by the Senate with the exception of those appointed for the first term. Unlike most of the rest of the retirement plan, the Thrift Management System is effective upon date of enactment to ensure that the system will be operable when thrift plan participation begins on January 1, 1987. As a result the conference agreement empowers the President to appoint the first panel of Board members for a one year term without Senate confirmation. Subsequent appointments are subject to Senate confirmation. In addition, while the Senate and House will each make a recommendation for appointment, the President need only take such a recommendation into consideration for such an appointment. With regard to advisory groups, the conferees decided that the requirement for Board members and the Executive Director to have substantial expertise in managing financial investments and pension benefit programs would obviate the need for advice from a committee of private sector experts.

SURVIVOR BENEFITS

Preretirement death

The Senate amendment (Option A) provides a preretirement death benefit to a survivor equal to 50 percent of the accrued retirement benefit of the employee subject to applicable early retirement reductions. Option B provides a benefit equal to 50 percent of the unreduced retirement benefits. A minimum benefit is provided under both options, based on 10 years of service. Option B also provides enhanced life insurance until retirement. Benefits are payable to survivors of vested employees who separated prior to death. Benefits vest after 18 months of service.

The House bill has no comparable provision.

The House committee bill provides a benefit equal to 50 percent of the accrued annuity of the employee where Social Security is payable. If Social Security is not payable, the benefit is the lesser of (a) the current CSRS benefit or (b) 50 percent of the accrued annuity, plus a Social Security supplement. Benefits vest after 18 months of service.

The conference agreement provides a surviving spouse a lump sum payment of $15,000 (indexed to CPI) plus one-half of the employee's annual rate of pay or high-3 average pay if higher. The spouse may elect the lump sum to be paid as an annuity or to be paid out over a shorter period. In addition, the surviving spouse receives an annuity equal to 50 percent of the employee's accrued unreduced annuity if the deceased employee had 10 years of service. Benefits vest after 18 months of service. Benefits are payable to survivors of vested employees who separated prior to death.

To the extent practical, the conference agreement reflects survivor benefit practice. Private industry uses a mixture of life insurance and survivor annuities. These coupled with Social Security survivor benefits generally provide adequate benefits. The conferees considered using a combination of insurance and annuities but found this approach would require significant changes in the Federal Employees Group Life Insurance (FEGLI) program. The conferees were not prepared to address significant changes in FEGLI at this time. Instead, the conference agreement approximates private sector insurance practice by providing an option of a lump sum payment. This should improve the ability of survivors to meet the financial demands resulting from the loss of a spouse. As a result of these survivor provisions, basic life insurance coverage may be redundant in some circumstances. The conferees urge the Office of Personnel Management to immediately study the impact of these provisions on FEGLI and recommend appropriate changes to the basic life insurance program.

Postretirement death

Both options under the Senate amendment require a 10 percent "survivor" reduction in the basic annuity to provide post retirement survivor benefits. A joint waiver is required for alternate annuity forms. Under Option A the survivor is entitled to 50 percent of the retiree's annuity, including any early retirement reductions. If the survivor predeceases the annuitant, the survivor reduction is not restored. Under Option B the survivor is entitled to 50 percent of the accrued annuity without early retirement reductions. If the survivor predeceases the annuitant, the survivor reduction is restored.

The House bill has no comparable provision.

The House committee bill requires a survivor reduction equivalent to that required under CSRS. This reduction is made unless the retiree and spouse jointly waive the survivor option. If Social Security is payable, the benefit is equal to 50 percent of the retiree's unreduced annuity. If Social Security is not payable, the benefit is the lesser of (1) the current CSRS benefit or (2) 50 percent of the retiree's unreduced annuity plus a Social Security supplement payable until Social Security eligibility. If the survivor predeceases the annuitant, the survivor reduction is eliminated.

The conference agreement requires a survivor reduction of 10 percent (absent a joint waiver). The remainder of the provisions are adopted from the House committee bill.

Children's benefits

The Senate amendment has no provision.

The House bill has no provision.

The House committee bill provides children's benefits equivalent to those under

the current CSRS offset by any Social Security benefits payable.

The conference agreement adopts the House committee approach.

DISABILITY BENEFITS

The Senate amendment establishes a separate long-term disability (LTD) insurance plan which pays benefits to a disabled employee with at least 18 months of service after the employee has used all sick leave. A totally disabled employee receives 60 percent of average salary offset by 100 percent of the Social Security benefit if any. For an individual who does not meet the Social Security disability definition, but who is disabled for his or her occupation, the benefit decreases to 40 percent of average salary after the first year. The benefit continues until the individual recovers or is converted to the regular retirement rolls. Occupationally disabled individuals are converted at age 55 and the totally disabled at age 62.

Time spent on the disability rolls is credited as service for purposes of the basic retirement benefit formula. In addition, the employee's salary at onset of disability is adjusted upward to the time of conversion. While receiving benefits, individuals are subject to medical examinations and to reviews of earnings. The portion of the disability benefit cost which comes from the LTD plan is paid by agencies to a newly established Federal Employee's Disability Insurance Fund. Benefit payments are made by a third party administrator.

The House bill has no comparable provision.

Under the House committee bill an employee who completes at least 5 years of creditable civilian service and is found by OPM to be unable to perform the duties of such employee's position will be eligible for disability retirement and an annuity. The disability annuity will be equal to the employee's accrued retirement benefit but will be no less than the smaller of (1) 20 percent of the employee's average pay, or (2) an annuity computed under the regular annuity formula after projecting the employee's service to age 60. Disabled employees who are unable to perform the duties of their positions but who do not qualify for benefits under the stricter Social Security definition of disability will be entitled to receive an annuity supplement to make up for the lack of Social Security benefits.

The conference agreement includes provisions from both the Senate amendment and the House Committee bill. Like the House committee bill, the disability benefit will be paid as an annuity from the retirement fund. The conference agreement adopted the Senate provision regarding eligibility for benefits after 18 months of service. The amount of the benefit during the first year is 60 percent of average pay minus 100 percent of any Social Security benefit payable. After the first year, the benefit for the occupationally disabled is 40 percent of average pay. For the totally disabled a 40 percent of average pay disability benefit is offset by 60 percent of the Social Security benefit payable. Total income flowing from both the disability benefit and Social Security will range from approximately 58 percent of average pay for the low income down to 46 percent for the higher income.

At age 62 the annuity is recomputed and the annuitant will receive the lesser of the total disability benefit (regardless of the extent of the disability) or a recomputed retirement benefit. For the retirement recomputation, years spent on disability are counted as years of service and average pay is increased by the cost of living adjustments applicable to disability annuities during the period of disability.

The disability benefit is particularly complex due to the need to coordinate with Social Security benefit computation formulas and disability criteria. The Social Security definition of disability is a very strict definition. Both bills provide and the conferees concur that payment of benefits is warranted where an employee is disabled for his position (occupationally disabled) but does not qualify for Social Security benefits. As a consequence, two categories of disabled employees receive benefits. In both cases a reasonable benefit is necessary, but the benefit payable to the Social Security disabled must take into account the amount of the Social Security benefit to avoid being overly compensated. Thus, one recipient receives a benefit only from the plan while the other receives it from the plan and Social Security.

The tilt to lower-income employees in total disability cases results from the tilt to lower-income employees in the Social Security benefit formula. The offset formula utilized for the totally disabled flattens the tilt somewhat.

Conversion to retirement benefits, if lower, at age 62 is necessary to assure that the disabled person does not receive greater benefits in his retired years than the one who voluntarily retired from active employment. Finally, at the time of conversion, the occupationally disabled individual is deemed to receive the total disability amount for conversion purposes to prevent the occupationally disabled from receiving more in total income than the totally disabled, once old age benefits commerce from Social Security.

TRANSFERS FROM CSRS TO THE FERS

The Senate amendment permits individuals covered by the CSRS, including those covered by both Social Security and CSRS, to elect to join the new plan within one year after the effective date, which is January 1, 1987. Rules which apply in the case of a transfer include:

(1) Service both before and after the transfer counts for eligibility to retire.

(2) Increases in average salary after the transfer apply to benefit computations under both plans.

(3) Survivors benefits come from both plans.

(4) Disability coverage under CSRS stops and the employee gets credit for service before the transfer toward the 18 months needed to become eligible for long term disability benefits under the new plan.

(5) Service before the transfer counts for vesting in the Government's share of contributions to the thrift plan.

(6) Employees who transfer and remain in the new plan for five years are no longer subject to the windfall benefit reduction or the public pension offset rule applying to spouses under the Social Security Act.

The House bill and the House Committee bill have no comparable provision.

The conference agreement adopts the Senate amendment approach, (with the exception of item six above) and permits employees under CSRS to transfer into the new system. Generally, an election to transfer may not be made prior to July 1, 1987, nor after December 31, 1987.

Individuals covered by CSRS only may transfer to the new plan. Those individuals covered by CSRS on December 31, 1983, but who were subsequently covered by Social Security may transfer into the new plan. Those individuals who performed 5 years of civilian service creditable under CSRS, who separated and who later were rehired subject to Social Security may transfer into the new plan during the later of the six-month period following reemployment or the six-month election period described above. Reemployed annuitants retired under CSRS may transfer into the new plan.

Rules applicable to transfer regarding creditability of service, vesting, average pay, and disability benefits are essentially the same as under the Senate amendment. New rules include:

(1) Military service performed before the effective date of the transfer generally is not creditable under FERS except in determining eligibility for benefits.

(2) Cost-of-living adjustments for the portion of the annuity earned before the transfer will be under the CSRS formula; the portion earned after the transfer will be under the FERS formula. COLAs for children's benefits will be under the FERS formula.

(3) Sick leave credited as service for benefit computation purposes under CSRS will be the number of days credited at the time of transfer or the date if retirement, whichever is less.

(4) A supplement for retirees with 30 years of service who are between age 55 and 62 is computed on service after the date of the transfer.

(5) A transfer election is effective with the first pay period beginning after the date of election and is irrevocable.

(6) An individual who elects to transfer and who has a former spouse entitled to CSRS benefits based on a court order or court-approved property settlement must have the written consent of the former spouse before the election can be effective.

(7) Service in CSRS is counted for purposes of survivor benefits under FERS. Survivor benefits are paid only under FERS.

The conferees agreed that individuals with at least 5 years creditable service in CSRS who return after more than a one year break in service should retain entitlement to CSRS benefits unless they elect to be covered by FERS benefits.

Finally, the conference agreement provides that anyone who transfers into the new plan will be covered by Social Security prospectively.

INTERIM EMPLOYEES

The Senate amendment provides that individuals hired or rehired after 1983 and who were covered by the Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983 receive service credit in the new plan beginning on the date of such hiring or rehiring. CSRS retirement contributions made by these individuals, together with a Government contribution and interest on both, are used to establish a thrift savings account for the individual.

The House bill has no comparable provision.

The House committee bill provides that (1) individuals covered by both CSRS and Social Security, and (2) individuals reemployed after more than a one year break in service who have at least five years of civilian service covered by CSRS are credited under the CSRS with covered interim service without additional deposit requirements. These individuals remain under revised CSRS benefit and contribution formulas.

Employees hired during the interim period or rehired with less than 5 years service are given service credit in the new plan for all service under CSRS or the inter-

im system, without regard to deposit requirements.

The conference agreement essentially adopts the provisions of the House committee bill relating to individuals covered by both CSRS and Social Security and those individuals vested in CSRS and rehired during the interim period. They remain under CSRS under revised benefit and contribution formulas. Those employees hired during the interim period or rehired with less than 5 years civilian service are given service credit in the new plan but an appropriate deposit is required if that service is not covered by contributions. In addition, the Government will deposit in the Thrift Savings Fund on behalf of those employees 1 percent of basic pay paid during periods of employment under the interim system (with interest).

TREATMENT OF CERTAIN INDIVIDUALS COVERED UNDER CSRS AND SOCIAL SECURITY

The Senate amendment provides that individuals employed continuously since December 31, 1983, who were covered by Social Security, retain coverage under CSRS under a revised formula. These employees include Members of Congress and political appointees at the Senior Executive Service level and above.

The House committee bill provided similar treatment for those employees covered by the Senate amendment as well as employees rehired subject to Social Security who were vested in CSRS.

The conference agreement adopts the House provisions. The affected employees will be covered under both CSRS and Social Security. They will pay the full OASDI tax and a reduced contribution to the Civil Service Retirement Fund. The reduced contribution will be an amount equal to the difference between the full CSRS contribution applicable to the covered employee and OASDI tax.

These employees will be entitled to full Social Security benefits and a reduced Civil Service annuity. The Civil Service annuity will be reduced by the amount of the Social Security benefit attributable to Federal service.

Service during the interim period is creditable in the same manner. Employees who contributed the full CSRS amount during the interim period will be refunded the difference between the amount they contributed and the offset amount. Those employees who were permitted to make full contributions to both plans may continue to do so, thereby avoiding the offset provisions.

EXTENSION OF FEDERAL EMPLOYEES' RETIREMENT CONTRIBUTION TEMPORARY ADJUSTMENT ACT OF 1983

The Senate amendment extends the provisions of the Act until January 1, 1987, thereby extending the interim retirement system until that date.

Neither the House bill nor the House committee bill has a comparable provision.

The Federal Employees' Retirement Contribution Temporary Adjustment Act of 1983, as enacted, was to expire on December 31, 1985. Its life was extended until April 30, 1986, by section 147 of Public Law 99-190. The Act did expire on April 30 thereby requiring increased retirement contributions by those Federal employees subject to Social Security.

The conference agreement retroactively extends the Act from April 30, 1986, until December 31, 1986, at which time the new Federal Employees' Retirement System takes effect. It further authorizes refunds of excess retirement contributions required between April 30, 1986, and the date of the enactment of the conference agreement.

AUTHORIZATION, APPLICATION, AND EFFECTIVE DATES

The Senate amendment provides for payment of the fiscal year 1986 and 1987 expenses of the Federal Retirement Thrift Investment Board for appropriations, authorizes a $1 million appropriation for OPM to perform required informational activities, and makes the FERS effective Janaury 1, 1987, except for the thrift management system, which is effective on date of enactment, and the thrift loan program, which must be established by January 1, 1988.

The House bill has no comparable provision.

The House committee bill has provisions comparable to the Senate amendment regarding payment of thrift fund administrative start up costs and effective dates. It does not authorize an appropriation for informational activities. It provides that for purposes of the first cost-of-living adjustment under the new retirement system, the base quarter ending on September 30, 1986, shall be considered to have been the base quarter for a year in which a cost-of-living adjustment under such system was made.

The conference agreement adopts the House committee bill provisions.

DISCLOSURE OF RETURN INFORMATION

Under current law, section 6103 of the Internal Revenue Code provides that income tax returns and return information shall be confidential except for certain limited cases specifically set forth in that section.

The Senate amendment provides that the Office of Personnel Management shall have access to any information in the possession of any government agency that is necessary for administration of the retirement system.

The conference agreement provides that the Commissioner of Social Security will disclose to the Office of Personnel Management return information concerning net earnings from self-employment, wages, and payments of retirement income that have been disclosed to the Social Security Administration (SSA) under IRC section 6103. Only that information which is strictly necessary for the administration of the retirement system as provided in chapters 83 and 84 of title 5, United States Code may be disclosed under this section, and only according to written agreement between SSA and OPM, with such consultation with the Department of the Treasury as may be necessary.

The conference agreement also provides for reimbursement to the Social Security Administration (through the Department of Health and Human Services) for the costs of providing return information, as well as for the costs of providing any other information, such as hypothetical benefit computations, that may be required under agreements between Social Security Administration and the Office of Personnel Management.

FOREIGN SERVICE RETIREMENT

Title IV of the bill establishes a Foreign Service Pension System (FSPS) to provide retirement benefits for members of the Foreign Service appointed after 1983. FSPS parallels the Federal Employees' Retirement System (FERS) established by Title I of the bill for newly appointed Civil Service employees.

Members of the Foreign Service who are or who become participants in FSPS are made subject to all the provisions in chapter 84 of title 5, United States Code. Code (FERS) unless specifically provided otherwise in title IV of the bill. Different treatment for the Foreign Service is provided to permit continued operation of its special personnel system with its up-or-out and rank-in person rather than rank-in-position features and continued administration of the system by the Secretary of State. The special features incorpated in the FSPS are comparable to the special features in the FERS for personnel also eligible for age 50 retirement such as law enforcement, firefighter and air traffic controller personnel.

SENATE AMENDMENT

The Senate amendment established a Foreign Service Pension System (FSPS). The new System would provide retirement benefits for members appointed after 1983, and is very similar to the Federal Employees' Retirement System (FERS) established by the bill for new appointees in the Civil Service after 1983. All Foreign Service members who become participants in the FSPS would be subject to all provisions of the comparable FERS unless specifically provided otherwise by law. All the exceptions are stated in the Senate amendment.

The Foreign Service (FS) has always had its own retirement system separate from the Civil Service Retirement System. The basic reason for this is that the FS needs special provisions for early retirement to permit operation of its up-or-out personnel system. A number of FS members are mandatorily retired every year to permit advancement of the more competitive and most able personnel. This system was endorsed and expanded by the Foreign Service Act of 1980. The special provisions are also necessary to permit the early retirement of members who, for various reasons, are no longer able to serve abroad after completing a career in dangerous and difficult environments.

The FSPS proposed in the Senate amendment would preserve the early retirement and other special features needed by the FS. It would permit members to retire voluntarily at age 50 with 20 or more years of service with the same benefit as provided for special category personnel such as law enforcement, firefighter, and air traffic controller personnel. The system would permit FS members who are retired mandatorily at an early age to receive the "mid-tier" benefit based on high-5 salary without penalty for early retirement. The third basic special provision would provide an annuity supplement equivalent to a Social Security benefit from the date of retirement to age 62 when the annuitant would be eligible for the actual Social Security benefit. This annuity supplement would be based on all creditable service.

A detailed analysis of the Senate amendment follows:

Title V of the Senate amendment consisted of 7 sections:

Section 501 amends chapter 8 of the FSA of 1980 which contains the authority for the existing Foreign Service Retirement and Disability System (FSRDS), to designate the existing portion as "Subchapter I" and to make conforming amendments to change the word "chapter" wherever it appears in chapter 8 to "subchapter", and "act" to "subchapter" in certain cases.

Section 502 amends section 805 of the Foreign Service Act of 1908, relating to deductions from a participant's pay for Foreign Service Retirement and Disability System (FSRDS) coverage. An employee who was

covered by the FSRDS on December 31, 1983, and who was subsequently covered by Social Security will continue in the FSRDS at a reduced contribution. The contribution to FSRDS will be equal to the excess of the employee's normal FSRDS contribution over the OASDI portion of the Social Security tax.

Section 503 amends section 806 to require that annuities of retirees and survivors under the current FSRDS who are entitled to Social Security benefits for Federal service have their annuities reduced at age 62 in a manner comparable to the amendment to 5 U.S.C. 8339(o) made by the Senate amendment.

Section 504 amends existing section 823 which deals with retirement benefits of retired FS members who are recalled to active duty. The amendment provides that members who are recalled in the future and whose recall service comes under the new FS Pension System will receive the same benefits as reemployed annuitants.

Section 505 restates existing section 834 which concerns reemployed annuitants. The FS has long had a distinctive rule on reemployed annuitants to permit use of retired members who are uniquely qualified to perform certain essential tasks. This amendment recognizes that some reemployed annuitants will have an annuity under both the new and old systems. It also recognizes that it would be difficult or inappropriate to recompute a FS annuity following employment under the new Federal Employees' Retirement System. Accordingly, the amendment proposes, in such situations, to provide an additional annuity computed under Subchapter B, based on salary and service during reemployment in lieu of recomputation. Section 506 amends section 827 to extend the existing "Executive Order" procedure for maintaining conformity between the CS and FS retirement systems to the new FERS and FSPS.

Section 507 is the major substantive amendment. It establishes as subchapter II of chapter 8 of the Foreign Service Act of 1980, the FSPS. Section 851 of the new subchapter provides that participants in the new FSPS shall be subject to all provisions in chapter 84 of title 5, United States Code governing FERS except where otherwise specifically provided by law.

Section 852 provides definitions of the following terms: Annuity, dynamic assumption, Fund, normal cost, participant, supplemental liability, and System.

Section 853 provides that all members of the FS whose service after 1983 brings them under Social Security and who would, save for this section, be participants in the FSRDS, shall be participants in the FSPS.

Section 854 provides special rules governing entitlement to annuity under FSPS. Any entitlement or requirement not mentioned here would automatically, pursuant to section 851, be governed by chapter 84 of title 5, United States Code.

Subsection 854(a) provides that members retiring voluntarily or mandatorily under the conditions of existing sections 607, 608, 811 or 813 receive an annuity computed under proposed new section 8413 applicable to "special category" personnel in the Civil Service.

Subsection 854(b) provides that those retired under subsection (a) above, will be entitled to an annuity supplement from the effective date of retirement to age 62 based on total creditable service of the member and computed under section 8413(b) of title 5.

Subsection 854(c) makes participants in the new system subject to existing provisions for voluntary and mandatory retirement of existing sections 811, 812 and 813.

Subsection 854(d) carries forward to the new system the provision denying pension benefits to a member separated on grounds of disloyalty to the United States.

Section 855 along with the definition of "Fund" in section 852 provide that all monies to finance the System shall be paid into the exsiting Foreign Service Retirement Fund and benefits paid out of that fund. Financing arrangements would exactly parallel those for the FERS, except that the Department of Treasury would provide actuarial services for the FSPS, as at present with respect to the FSRDS.

Section 856 provides that the Secretary of State in consultation with the Medical Director of the Foreign Service, rather than an administrator of benefits under chapter 84, of title 5, United States Code, shall make determinations of disability as affected by fitness for overseas service for purposes of subchapter V of such chapter 84.

Section 857 provides that the Secretary of State shall administer the FSPS exclusive of matters pertaining to Disability and the Thrift Savings Plan. These would be administered in accordance with subchapters II, V and VIII, chapter 84 of title 5, United States Code, except as provided in section 856, as explained above.

Section 858 provides for transition from the old system to the new. The transition provisions are comparable to those applicable to CSRS employees.

Section 859 provides that references in certain paragraphs of the Senate amendment to participation in the Federal Employees' Retirement System shall be deemed to include participation in the Foreign Service Pension system.

CONFERENCE AGREEMENT

Title IV of the conference agreement follows the Senate amendment with minor or conforming changes except that provisions under title I relating to law enforcement officers are generally applicable and except as noted below:

Definition of court

Section 403 of the conference agreement revises the definition of "court" in the Foreign Service Act to make it comparable to the definition added to chapter 83 of title 5 by P.L. 98-615. The revised definition permits the recognition of orders by territorial and Indian courts affecting the payment of retirement and survivor benefits to former spouses.

18-month period to elect survivor annuity

Section 407 of the conference agreement amends the Foreign Service Act to grant annuitants under the existing Foreign Service Retirement and Disability System an 18-month grace period to elect or increase a survivor benefit for a spouse to whom married at retirement. This amendment is comparable to an amendment of chapter 83 of title 5 by P.L. 99-251.

Alternate forms of annuities

Section 408 of the conference agreement amends the Foreign Service Act to provide participants in the existing Foreign Service Retirement and Disability System alternate forms of annuities actuarially equivalent to whole life annuities now provided. This amendment is comparable to the amendment to chapter 83 of title 5 made by section 204 of the conference agreement.

Moderation of remarriage penalty

Section 412 of the conference agreement amends the Foreign Service Act retroactively to November 8, 1984 to moderate the remarriage penalty affecting former spouses, surviving spouses and former spouses of members of the Foreign Service. The amendment permits continuation of benefits or retention of entitlement to benefits if a remarriage occurs on or after age 55 rather than age 60 as at present. The amendment is comparable to the amendment made to chapter 83 of title 5 by P.L. 98-615 effective November 8, 1984.

Former spouses

Sections 861 and 862 being added to the Foreign Service Act by section 415 of the conference agreement as a part of the new Foreign Service Pension System conform that System with existing provisions on former spouses added to the Foreign Service Retirement and Disabilities System by the landmark Foreign Service Act of 1980. These sections do two basic things: first, with respect to certain former spouses, section 861 mandates a pro-rata share division of retirement and survivor benefits when a different distribution has not been ordered or approved by a court or agreed to by the parties. Secondly, section 862 authorizes a participant in the new System to "contract" with his or her spouse or former spouse on a mutually agreed upon distribution of benefits under the System. The purpose of section 862 is to allow the parties to arrange for a mutually agreed upon distribution of retirement benefits without going to court.

Section 861 would apply only to a former spouse married to a participant during 10 years of creditable service with at least 5 of those years occurring while the participant was an active member of the Foreign Service. This is comparable to the 10-year marriage requirement now in chapter 8 of the Foreign Service Act. Distributions under the Foreign Service Pension System to former spouses other than pro-rata share distributions under section 861 will be governed by provisions in chapter 84 of title 5 applicable to former spouses of employees under the Federal Employees' Retirement System. Those benefits will be available to former spouses as defined in that chapter: married 9 months to an individual with 18 months of civilian service credit.

Subsection 861(d) covers the situation where a member becomes entitled to benefits under both the Foreign Service Retirement and Disability System and the Foreign Service Pension System and has a former spouse at the time of transfer to the latter System. In the common situation where benefits are apportioned pursuant to a court order or spousal agreement, the intent may be to provide a pro-rata share distribution but the language of the instrument may base the share on length of the marriage during service creditable only under the Retirement System, and not under the Pension System. This will provide an especially large share of the Retirement System benefits. If such an order or spousal agreement is not amended, it would not be fair to provide, under this section, an additional pro-rata share of pension system benefits to the former spouse. The purpose of subsection (d) is to prohibit this possibility.

Similarly, in the case where a former spouse is entitled to a pro-rata share of Retirement System benefits based on years married during the entire Government career, it would be unfair not to provide the former spouse the same share of Pension System benefits. Subsection (d) serves this purpose. A related amendment is made to existing sections of the Act by section 404 of

the conference agreement. The purpose is to assure that two former spouses married for the same period to members who have identical careers, one of whom transfers to the new Pension System and the other remains under the old Retirement System, will each receive the same share of benefits under this chapter, if payments are based on pro rata share distributions.

CENTRAL INTELLIGENCE AGENCY RETIREMENT

Title V of the conference agreeement addresses federal employee retirement benefits for officers and employees of the Central Intelligence Agency (CIA). One section of Title V also addresses a related matter involving very limited numbers of National Security Agency (NSA) employees and Defense Intelligence Agency (DIA) employees.

After enactment of the Federal Employees' Retirement System Act of 1986, employees of the Central Intelligence Agency will generally fall into four basic categories, each with differing retirement benefits and obligations:

(1) *CSRS participants.*—Most Central Intelligence Agency employees whose federal service began before December 31, 1983 participate in the Civil Service Retirement System maintained under subchapter III of chapter 83 of title 5, United States Code. These CIA employees enjoy the same benefits as federal employees in other agencies who participate in the Civil Service Retirement System.

(2) *CIARDS participants.*—In 1964, Congress enacted the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (50 U.S.C. 403 note) to establish a CIA Retirement and Disability System (CIARDS) for CIA employees whose duties are "(i) in support of Agency activities abroad hazardous to life or health or (ii) so specialized because of security requirements as to be clearly distinguishable from normal government employment" (Sec. 203 CIA, Retirement Act). The CIA employees participating in the CIARDS receive retirement benefits superior to those provided generally by the CSRS, benefitting in particular from a higher annual pension accrual rate and an option for early retirement. The group of CIARDS participants will consist of CIA employees whose federal service began prior to December 31, 1983 who are, or who will become eligible (whether before, on or after December 31, 1983), to participate in CIARDS in accordance with the CIA Retirement Act and implementing regulations.

(3) *FERS regular participants.*—Central Intelligence Agency employees whose federal service began after December 31, 1983 will participate in the Federal Employees' Retirement System (FERS) established under the new chapter 84 of title 5, United States Code. Unless they fall within the special category of CIA employees who qualify for FERS treatment equivalent to that accorded law enforcement officers, the CIA employees covered by the FERS will incur the same obligations and receive the same benefits as do most federal employees covered by the FERS.

(4) *FERS section 203 criteria participants.*—The CIA employees whose federal service began after December 31, 1983 (and who therefore participate in the FERS) and who meet the criteria prescribed under section 203 of the CIA Retirement Act, namely that their CIA duties are "(i) in support of Agency activities abroad hazardous to life or health or (ii) so specialized because of security requirements as to be clearly distinguishable from normal government employment," will incur the same obligations and receive the same benefits as do federal employees covered by the FERS who are law enforcement officers. The FERS accords preferential benefits to law enforcement officers in comparison to most other types of federal employees, and thus CIA's FERS section 203 criteria participants will receive preferential benefits in comparison to CIA FERS regular participants.

The conferees agreed that, to improve the security of intelligence sources, methods and activities, the CIA should administer all federal retirement systems as they apply to CIA officers and employees. The conference agreement provides for such CIA administration. Providing for CIA administration of retirement systems as they apply to CIA employees reduces unnecessary dissemination within the government of intelligence personnel information, improving security. The administration of the retirement systems by CIA as to CIA employees will not differ substantively from OPM administration of such systems with respect to other federal employees. The benefits and obligations of CIA employees and non-CIA employees within a retirement system will not differ; only the agencies administering the sytem as to those employees will differ. As a result of provisions of the conference agreement providing for CIA administration of the CSRS and the FERS with respect to CIA employees, all aspects of retirement system administration with regard to CIA employees will remain completely within the CIA, except for Merit Systems Protection Board and federal court review of certain adverse retirement decisions made by the DCI with respect to CIA CSRS and regular FERS employees. The conferees expect the MSPB and the federal courts to conduct such proceedings in a manner consistent with the protection of intelligence sources, methods and activities. The conferees also expect close cooperation among OPM, the Executive Director of the Thrift Investment Board, and the DCI to ensure both uniform administration of federal retirement systems and the protection of intelligence sources, method and activities, particularly as the conference agreement provides for OPM and Executive Director, Thrift Investment Board inspection and audit of CIA-related disbursements from the Civil Service Retirement and Disability Fund and the Thrift Savings Plan.

The DCI must submit all retirement regulations he issues to the intelligence committees of the Congress before the regulations take effect.

SECTION-BY-SECTION EXPLANATION

Title V of the conference agreement addresses Central Intelligence Agency retirement and related matters. Title V consists of sections 501 through 506 amending the Central Intelligence Agency Retirement Act of 1964 for Certain Employees and title 5 of the United States Code and section 507 making related changes.

Section 501: References

Section 501 of the conference agreement amends the CIA Retirement Act of 1964.

Section 501(1) amends section 201(c) of the CIA Retirement Act to make clear that the provisions of section 201(c), which provide for the finality and unreviewability of DCI administration of the CIA Retirement Act, do not override the provision of section 305(d) of the CIA Retirement Act (added by section 506 of the conference agreement) which permits CIA regular FERS employees to appeal certain adverse retirement determinations made by the DCI to the Merit Systems Protection Board and the federal courts in accordance with section 8461(e) of title 5 (as added by section 101 of the conference agreement).

Section 501(2) replaces the phrase "this Act" each place it appears in Title II of the CIA Retirement Act with the phrase "this title" (except in two specified sections), which is necessitated by the addition of a new Title III to the CIA Retirement Act by section 506 of the conference agreement.

Section 501(3) inserts the phrase "under this title" in Title II of the CIA Retirement Act after the phrase "payable from the fund" (meaning the CIA Retirement and Disability Fund) each place it appears in the title, which is necessitated by the addition of a new Title III to the CIA Retirement Act by section 506 of the conference agreement.

Section 502: Contributions to the CIA retirement and disability system

Section 502 of the conference agreement amends section 211 of the CIA Retirement Act of 1964.

Section 502(1) amends section 211 of the CIA Retirement Act to provide for an exception from the CIARDS contribution requirement of seven percent of basic salary contained in section 211(a) for participants described in new section 211(d) of the CIA Retirement Act as added by section 502(2) of the conference agreement.

Section 502(2) adds to section 211 of the CIA Retirement Act a new subsection (d) providing for contributions to the CIA Retirement and Disability Fund by CIARDS participants subject to title II of the CIA Retirement Act before January 1, 1984, whose service is employment for purposes of Title II of the Social Security Act and the social security tax provisions of the Internal Revenue Code but whose service is not creditable service under the new Federal Employee Retirement System. Such individuals would be CIARDS annuitants (who were participants before January 1, 1984) who are recalled to service after a one year break in service, political appointees, or individuals described in section 301(c)(1) of the CIA Retirement Act. The conferees intend that this provision not apply to any individuals other than individuals who fall within one of these categories. The contribution due to the CIA Retirement and Disability Fund from such an individual is equal to seven percent of basic pay, less the amount of social security taxes deducted and withheld from basic pay.

Section 503: Offset of annuity by amount of social security benefits

Section 503 of the conference agreement amends section 221 of the CIA Retirement Act of 1964 by adding a new section 221(p). Section 221(p) provides that the annuity payable under CIARDS to an individual described in section 301(c)(1) of the CIA Retirement Act (as added by section 506 of the conference agreement) shall be offset by the amount of the individual's Social Security benefits, in the manner provided by section 8349 of title 5, United States Code (as added by section 201(b) of the conference agreement). An individual described in section 301(c)(1) of the CIA Retirement Act is one who separates, or has separated, from federal service after having been a CIA employee subject to CIARDS and having completed at least 5 years of civilian service creditable under CIARDS. The social securi-

ty offset under subsection 221(p) does not apply to the annuity of an individual described in section 301(c)(1) who has elected to participate in the new FERS.

Section 504: Thrift Savings Fund participation by participants in the CIARDS

Section 504 of the conference agreement adds a new section 293 to the CIA Retirement Act of 1964. Section 293 permits CIARDS participants to remain in CIARDS and to elect to participate in the Thrift Savings Plan on the same basis as CSRS participants may remain in the CSRS and elect to participate in the Thrift Savings Plan under section 8351 of title 5, United States Code (as added by the conference agreement). Sections 8461 (k) and (m) of title 5, United States Code (as added by the conference agreement) apply with respect to contributions to the Thrift Savings Plan, and resultant earnings, by CIA employees who have elected, while remaining in the CIARDS or the CSRS, to participate in the Thrift Savings Plan. This ensures that the DCI will handle all administration with respect to CIARDS and CSRS participants who have elected to participate in the Thrift Savings Plan.

Section 505: Alternative forms of annuities

Section 505 of the conference agreement add a new section 294 to the CIA Retirement Act of 1964 to authorize the DCI to provide by regulation for alternative forms of annuities for CIARDS participants to elect upon retirement. To the maximum extent practicable, the regulations and the alternative forms of annuities must beat the requirements prescribed in section 8343a of title 5, United States Code (as added by the conference agreement). The DCI must submit the regulations to the intelligence committees of the Congress before they take effect.

Section 506: Participation in the Federal Employees' Retirement System

Section 506 of the conference agreement enacts a new Title III of the CIA Retirement Act of 1964 for Certain Employees, consisting of sections 301–307.

Section 301 of the CIA Retirement Act provides for application to certain CIA employees of the Federal Employee Retirement System established under chapter 84 of title 5, United States Code (as added by section 101 of the conference agreement).

Section 301(a) provides that the FERS applies to all Agency personnel any of whose service after December 31, 1983 is employment for purposes of Title II of the Social Security Act and the social security tax provisions of the Internal Revenue Code, except as provided in subsections 301 (b) and (c).

Section 301(b) provides that CIARDS participants who were CIARDS participants on or before December 31, 1983, and who have not had a one year break in service then, are not subject to the FERS, without regard to whether they are subject to Title II of the Social Security Act.

Section 301(c) provides that the FERS does not apply to an individual who separates, or has separated, from federal service after having been a CIA employee subject to CIARDS and having completed at least 5 years of civilian service creditable under CIARDS, unless the individual elects to become subject to the FERS.

Section 301(d) provides that the provisions of chapter 84 of title 5 (as added by section 101 of the conference agreement), which establishes the FERS, apply to CIA employees covered by the FERS, subject to any exceptions and special rules provided in Title III of the CIA Retirement Act with respect to such CIA employees.

Section 302 of the CIA Retirement Act provides special rules for CIA FERS section 203 criteria employees.

Section 302(a) provides that CIA employees subject to the FERS who are designated by the DCI under the criteria prescribed in section 203 of the CIA Retirement Act shall be treated for purposes of their retirement benefits and obligations under the FERS as if they were law enforcement officers as defined in section 8401(17) of title 5, United States Code (as added by section 101 of the conference agreement). The conferees emphasize that CIA personnel are not law enforcement officers, and indeed, are prohibited by section 102(d)(3) of the National Security Act from exercising law enforcement powers (except for CIA Security Protection Service personnel who have law enforcement powers under section 15 of the CIA Act of 1949 within CIA installations). The CIA FERS section 203 criteria employees are merely to be treated as if they were law enforcement officers for purposes of determining their FERS retirement benefits and obligations. The criteria of section 203 of the CIA Retirement Act to which the section refers permit designation of CIA FERS employees for retirement treatment equivalent to law enforcement officers if the CIA employees' duties are "(i) in support of Agency activities abroad hazardous to life or health or (ii) so specialized because of security requirements as to be clearly distinguishable from normal government employment."

Section 302(b) provides that the voluntary retirement provisions applicable to CIARDS participants under section 233 of the CIA Retirement Act also apply to CIA FERS section 203 criteria employees and that the mandatory retirement provisions applicable to CIARDS participants under section 235 of the CIA Retirement Act also apply to CIA FERS section 203 criteria employees, except that the applicable retirement benefits are those specified for such special category employees under the FERS in chapter 84 of title 5, United States Code. Section 233 of the CIA Retirement Act permits voluntary retirement by an employee who is at least 50 years of age and has rendered 20 years of service provided the employee has not less than ten years of Agency service, of which at least five years shall have been service after designation, or shall have been service prior to designation consisting of duties meeting the criteria prescribed in section 203 of the CIA Retirement Act. Section 235 of the CIA Retirement Act permits mandatory retirement of a designated employee who has completed at least 25 years of service, or who has completed 20 years of service and is at least 50 years of age, provided such employee has not less than ten years of Agency service, of which at least five years shall have been service after designation, or shall have been service prior to designation consisting of duties meeting the criteria prescribed in section 203 of the CIA Retirement Act. Section 235 also provides for automatic separation from the Agency at age 60 of a section 203-designated Agency employee receiving compensation at less than the GS-18 level and for automatic separation of such an employee at age 65 if such employee is receiving compensation at the GS-18 level or above, subject to extensions by up to a total of five years by the DCI when it is in the public interest. A section 203-designated Agency employee who is automatically separated at age 60 or 65 receives retirement benefits under the applicable retirement system if the employee has completed five years of Agency service.

Section 302(c) provides that the recall provisions applicable to CIARDS participants under section 271 of the CIA Retirement Act also apply to CIA FERS section 203 criteria employees, except that a CIA FERS section 203 criteria employee make contributions during recall service as provided in section 8422 of title 5, United States Code (as added by section 101 of the conference agreement). When a CIA FERS section 203 criteria employee recalled to service subsequently reverts to a retired status, his FERS annuity is redetermined.

Section 303 provides a special rule for use in determining the FERS annuity of a retiring CIA employee who is not a FERS section 203 criteria employee and who has served outside the United States during his Agency service. The portion of such annuity relating to service abroad performed by such employee after the effective date of the Federal Employees' Retirement System Act of 1986 is based on the higher accrual rate set forth in section 8415(d) of title 5, United States Code (as added by section 101 of the conference agreement), while the portion of the annuity of such employee relating to other service is based on the normal FERS accrual rate applicable to that employee's other service. The conferees provided the accrual rate increase for periods of service abroad for regular CIA FERS employees because such employees, during their service abroad, perform work substantially similar to that of FERS section 203 criterial employees, and should thus enjoy equivalent pension accrual rights during that period as a matter of equity.

Section 304 provides special rules relating to certain former spouses of certain CIA personnel. The conferees' intention is to perserve the existing regime of benefits for former spouses of CIA personnel, subject to necessary technical changes. The term "former spouse" as defined in the CIA Retirement Act (section 204(b)(4)) incorporates the requirement, applicable throughout the new Title III of the CIA Retirement Act that, to be considered a "former spouse," the former wife or husband of a CIA employee must have been married to the CIA employee for not less than 10 years of Agency service, at least 5 years of which were spent outside the United States by both the employee and the spouse (the "10/5 requirement"). As a result of section 304, CIA FERS employees' former spouses, who meet the 10/5 requirement, receive former spouses benefits analogous to those received by CIA CIARDS and CSRS employees' former spouses who met the 10/5 requirement. Throughout the discussion below of this section, unless the context indicates otherwise, the term "former spouse" when used in reference to a CIA employee's former spouse, means only a former wife or husband who satisfies the 10/5 requirement.

Section 304(a) provides that the former spouse provisions in chapter 84 of title 5, United States Code (as added by section 101 of the conference agreement) do not apply to a CIA FERS employee who has a former spouse meeting the 10/5 requirement. Instead, the special rules provided in section 304 apply to such an employee and former spouse. For a CIA FERS employee whose former spouse did not meet the 10/5 requirement, the normal former spouses provisions of chapter 84 of title 5 (as added by

section 101 of the conference agreement) would apply.

Section 304(b) provides that the provision in section 221(b)(1)(C) of the CIA Retirement Act for a joint employee/former spouse waiver of a survivor annuity by spousal agreement applies with respect to the survivor annuity for a CIA FERS employee's former spouse under section 304(c)(2).

Section 304(c) provides that certain specified provisions of the CIA Retirement Act of 1964 relating to CIA CIARDS employees apply equally to CIA FERS employees with respect to former spouses. The specified provisions made applicable deal with computation of annuities for former spouses, election of survivor benefits for former spouses, sharing of discontinued service (i.e., lump sum) benefits with former spouses, and the effect of payments under spousal agreements or court orders.

Section 304(d) provides technical special rules with respect to computation of annuities for CIA FERS employees' spouses in accordance with section 222(a) of the CIA Retirement Act as made applicable by subsection 304(c). The special rules are necessary to take account of the recall and reemployment situations of CIA FERS employees and to take account that CIA FERS employees' contributions belong in the Civil Service Retirement and Disability Fund rather than the CIA Retirement and Disability fund to which CIA CIARDS participants contribute.

Section 304(e) provides special rules relating to the survivor annuities of CIA FERS employees' former spouses under subsections (b) and (c) of section 222 of the CIA Retirement Act as made applicable by section 304(c). The special rules adjust the application of the CIA Retirement Act provisions made applicable to CIA FERS former spouses provisions in light of the former spouses provisions of chapter 84 of title 5, United States Code (as added by section 101 of the conference agreement) with respect to percentage of employee annuity used in calculating former spouse survivor benefits, the employee annuity base used in such calculation, survivor annuity election, aggregation of multiple survivor annuities, and employee contributions to fund elected survivor annuities.

Section 304(f) provides for computation of the reduction of a CIA FERS employee's annuity to provide survivor annuities in the manner provided by section 8419(a) of title 5, United States Code (as added by section 101 of the conference agreement).

Section 304(g) provides that the entitlement of a retired CIA FERS employee's former spouse to a portion of the employee's annuity extends to any annuity supplement the employee receives under section 8421 of title 5, United States Code (as added by section 101 of the conference agreement).

Section 305 provides that section 201(c) of the CIA Retirement Act, which provides for the finality and unreviewability of DCI administration of the CIA Retirement Act, applies to administration of FERS by the CIA with respect to CIA employees, except that regular CIA FERS employees may appeal certain adverse retirement decisions made by the DCI to the Merit Systems Protection Board and the federal courts as provided in section 8461(e) of title 5, United States Code (as added by section 101 of the conference agreement). Subsection 8347(n) of title 5, United States Code (as amended by the conference agreement) contains a provision similar with respect to finality and unreviewability of DCI administration of the CSRS with respect to CIA employees and similar with respect to appeals of certain DCI decisions by CIA CSRS employees.

Section 306 authorizes the DCI to prescribe in regulations (in consultation with the Director, OPM and the Executive Director of the Thrift Investment Board) appropriate procedures to carry out Title III of the CIA Retirement Act. The DCI must submit the regulations to the intelligence committees of the Congress before the regulations takes effect.

Section 307 authorizes the DCI to provide by regulation for the transition from CIARDS to FERS for CIARDS participants electing to participate in the FERS. Section 307 gives CIA CIARDS employees the same opportunity to elect to participate in the FERS as CIA CSRS employees enjoy under title III of the Federal Employee's Retirement System Act of 1986. The DCI must submit the regulations implementing section 307 to the intelligence committees of the Congress before the regulations take effect.

Section 507: Special retirement accrual for other intelligence personnel

Section 507 extends, to a limited number of civilian employees of the National Security Agency and the Defense Intelligence Agency covered by the CSRS and the FERS, the special retirement accrual benefit provided to CIA regular FERS employee for periods of overseas service by section 303 of the CIA Retirement Act (as added by section 506 of the conference agreement). The conferees concluded that NAS and DIA civilian employees within the groups covered by section 9(b)(1)(B) of the NSA Act of 1959 and section 1605(a) of Title 10, United States Code merit treatment equivalent to that afforded CIA regular FERS employees for periods of service abroad because of the nature of their intelligence duties.

ADMINISTRATION OF CSRS AND FERS FOR EMPLOYEES OF THE CIA

Section 206(i) of the conference agreement amends section 8347 of title 5, United States Code, to add a new subsection 8347(n) to provide for CIA administration of the Civil Service Retirement System as it applies to CIA employees. Section 8347(n) provides for CIA administration of the CSRS as it applies to CIA employees in the same way as section 8461 of title 5, United States Code (as amended by the conference agreement) provides for CIA administration of the FERS as it applies to CIA employees. The conferees concluded that CIA administration with respect to CIA employees of all retirement systems applicable to CIA employees forms an essential part of efforts to improve the protection afforded to intelligence sources, methods and activities.

These provisions (sections 8347 and 8461) provide that the Director of Central Intelligence may, consistent with the administration of CSRS and FERS by the Office of Personnel Management and the Executive Director of the Federal Retirement Thrift Investment Board and to the extent the DCI considers appropriate, administer CSRS and FERS retirement provisions as they apply to CIA personnel. In addition the DCI may, to the extent he considers appropriate, perform with respect to CIA personnel the functions and duties (including with respect to disbursements from the Civil Service Retirement Fund or the Thrift Savings Plan, but not including Thrift Savings Plan investment decisions) of the Director, OPM or the Executive Director, Thrift Investment Board under subchapter III of chapter 83 or under chapter 84, which those officers would otherwise perform. To the extent that the DCI does not exercise his authority to assume the functions and duties of OPM or the Executive Director with respect to CIA CSRS and FERS employees, OPM and the Executive Director would continue to perform such functions and duties with respect to CIA CSRS and FERS employees. Allowing the DCI to assume such functions and duties to the extent he considers appropriate will permit a phased, orderly assumption of retirement administration functions and duties by the CIA.

These provisions also provide that sections 8439(b), 8461(h)(1), and 8474(c)(4) of title 5, United States Code (as added by section 101 of the conference agreement) shall be applied with respect to information relating to CIA personnel in a manner that protect intelligence sources, methods and activities. Section 8439(b) relates to auditing of the Thrift Savings Plan by a qualified public accountant and a report to the General Accounting Office. Section 8461(h)(1) relates to OPM access to information held by other agencies. Section 8474(c)(4) relates to Executive Director, Thrift Investment Board access to information held by other agencies. Although nothing in the Federal Employees' Retirement System Act of 1986, or the amendments made by the Act, impairs or affects statutes (such as section 102(d)(3) of the National Security Act of 1947 and sections 6 and 8 of the CIA Act of 1949) and Executive Orders (such as Executive Orders 12333 governing intelligence activities and 12356 governing national security information) regarding protection of intelligence sources, methods and activities, the conferees believed it appropriate to emphasize the requirement for such protection because certain provisions of chapter 84 refer specifically and address the issue of access by one agency to information held by another agency. Security practices, including clearance requirements, normally applicable to intelligence information will apply in the administration of sections 8439(b), 8461(h)(1) and 8474(c)(4) of title 5 as they are applied with respect to CIA.

From the Committee on Post Office and Civil Service:

For consideration of the Senate amendments Nos. 1, 2, and 3 and modifications committed to conference:

WILLIAM D. FORD,
WILLIAM CLAY,
MARY ROSE OAKAR,
GENE TAYLOR,
JOHN T. MYERS,

As additional conferees on Senate Amendment No. 3:

From the Permanent Select Committee on Intelligence:

For consideration of title IV of the Senate amendment and modifications committed to conference:

LEE H. HAMILTON,
LOUIS STOKES,
ANTHONY C. BEILENSON,
BOB STUMP,
ANDY IRELAND,

As additional conferees on Senate Amendment No. 3:

From the Committee on Foreign Affairs:

For consideration of title V of the Senate amendment and modifications committed to conference:

DANIEL A. MICA,

PETER H. KOSTMAYER,
OLYMPIA SNOWE,

As additional conferees on Senate Amendment No. 3:

From the Committee on Ways and Means: For consideration of provisions in section 101 of the Senate amendment establishing a new subchapter III of chapter 84—Thrift Savings Plan; establishing a new section 8475 in subchapter VII—transition provisions; of title II of the Senate amendment; and of section 305 of the Senate amendment and modifications committed to conference:

BILL ARCHER,
WM. THOMAS,
Managers on the Part of the House.

W.V. ROTH, Jr.,
TED STEVENS,
CHARLES McC. MATHIAS, Jr.,
TOM EAGLETON,
ALBERT GORE, Jr.,
Managers on the Part of the Senate.

SECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. ROTH) to revise and extend their remarks and include extraneous material:)

Mr. GINGRICH, for 60 minutes, today.

Mr. CRANE, for 60 minutes, on May 20.

(The following Member (at the request of Mr. RICHARDSON) to revise and extend his remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.

(The following Member (at the request of Mr. REGULA) to revise and extend his remarks and include extraneous material:)

Mr. PEASE, for 60 minutes, on May 20.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. ROTH) and to include extraneous matter:)

Mr. CONTE in two instances.

Mr. WYLIE.

Mr. LAGOMARSINO.

Mr. COURTER.

Mr. BEREUTER in three instances.

(The following Members (at the request of Mr. RICHARDSON) and to include extraneous matter:)

Mr. MANTON.

Mr. SKELTON.

Mr. HUTTO.

Mr. LEHMAN of Florida in two instances.

Mr. O'NEILL.

Mr. ROE.

Mr. HOYER.

Mr. MONTGOMERY.

Mrs. BURTON of California.

Mr. ANDERSON in 10 instances.

Mr. GONZALEZ in 10 instances.

Mr. BROWN of California in 10 instances.

Mr. ANNUNZIO in six instances.

Mr. JONES of Tennessee in 10 instances.

Mr. BONER of Tennessee in five instances.

SENATE JOINT RESOLUTION REFERRED

A joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res. 342. Joint resolution to designate May 25, 1986, as "Missing Children Day"; to the Committee on Post Office and Civil Service.

ENROLLED BILL AND JOINT RESOLUTIONS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled a bill and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 4382. An act to require the Architect of the Capitol to place a plaque at the original site of Providence Hospital;

H.J. Res. 234. Joint resolution designating the week of May 18, 1986, through May 24, 1986, as "National Food Bank Week";

H.J. Res. 427. Joint resolution designating the week beginning on May 11, 1986, as "National Asthma and Allergy Awareness Week";

H.J. Res. 492. Joint resolution to designate the week of June 1, 1986, as "National Neighborhood Housing Services Week"; and

H.J. Res. 613. Joint resolution allowing qualified persons representing all the States to be naturalized on Ellis Island on July 3 or 4, 1986.

SENATE ENROLLED JOINT RESOLUTIONS

The SPEAKER announced his signature to enrolled joint resolutions of the Senate of the following titles:

S.J. Res. 246. Joint resolution to designate May 25, 1986, as "Hands Across America Day," for the purpose of helping people to help themselves, and commending United Support of Artists for Africa and all participants for their efforts toward combating domestic hunger with a 4,000 mile human chain from coast to coast;

S.J. Res. 266. Joint resolution to authorize and request the President to designate the month of June 1986 as "Youth Suicide Prevention Month";

S.J. Res. 271. Joint resolution designating "Baltic Freedom Day"; and

S.J. Res. 337. Joint resolution designating May 18-24, 1986, as "Just Say No to Drugs Week."

BILL PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on the following day present to the President, for his approval, a bill of the House of the following title:

On May 15, 1986:

H.R. 1349. An act to reduce the costs of operating Presidential Libraries, and for other purposes.

ADJOURNMENT

Mr. REGULA. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 1 o'clock and 12 minutes p.m.) the House adjourned until tomorrow, Tuesday, May 20, 1986, at 12 o'clock noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3521. A letter from the Comptroller General of the United States, transmitting his review of proposed rescissions and deferrals of budget authority submitted by the President in his third and fifth special messages, pursuant to 2 U.S.C. 685 (H. Doc. No. 99-222); to the Committee on Appropriations and ordered to be printed.

3522. A letter from the Acting Director, Defense Security Assistance Agency, transmitting the price and availability report for the quarter ending March 31, 1986, pursuant to 22 U.S.C. 2768; to the Committee on Foreign Affairs.

3523. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

3524. A letter from the Director, Office of Legislative Affairs, Agency for International Development, transmitting notification of a contract awarded in the Eighth District of Massachusetts in April 1986 and copies or reports summarizing contracting activities for fiscal year 1985; to the Committee on Foreign Affairs.

3525. A letter from the Chairman, Council on Environmental Quality, transmitting a report on the Council's compliance with the laws relating to open meetings of agencies of the Government (Government in the Sunshine Act) during calendar year 1985, pursuant to 5 U.S.C. 552b(j); to the Committee on Government Operations.

3526. A letter from the Director, National Legislative Commission, the American Legion, transmitting statements describing the financial condition of the American Legion as of December 31, 1985, pursuant to Public Law 88-504, section 3 (36 U.S.C. 1103); to the Committee on the Judiciary.

3527. A letter from the Administrator, National Oceanic and Atmospheric Administration, Department of Commerce, transmitting notification that he has designated a national marine sanctuary in certain waters in American Samoa, pursuant to 16 U.S.C. 1434(b); to the Committee on Merchant Marine and Fisheries.

3528. A letter from the Director, Office of Congressional Affairs, Department of Energy, transmitting notification of the selection of phase I projects for the Small

Business Innovation Research [SBIR] Program; to the Committee on Small Business.

3529. A letter from the Administrator of Veterans' Affairs, Veterans' Administration, transmitting a draft of proposed legislation to amend title 38, United States Code, to repeal provisions relating to setting the interest rate on guaranteed or insured housing loans to veterans and inspecting manufactured homes purchased by veterans, to increase the VA loan fee, to authorize direct appropriations to the loan guaranty revolving fund, and for other purposes; to the Committee on Veterans' Affairs.

3530. A letter from the Chairwoman, U.S. International Trade Commission, transmitting a draft of proposed legislation to provide authorization of appropriations for the U.S. Internationl Trade Commission for fiscal year 1988; to the Committee on Ways and Means.

3531. A letter from the Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the proposed decision to convert to contractor performance the dining facilities functions at Fort Dix, NJ, pursuant to 10 U.S.C. 2304 nt. and Public Law 99-190, section 8089; jointly, to the Committees on Armed Services and Appropriations.

3532. A letter from the Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the proposed decision to convert to contractor performance the laundry and dry cleaning service at Fort Jackson, SC, pursuant to 10 U.S.C. 2304 nt. and Public Law 99-190, section 8089; jointly, to the Committees on Armed Services and Appropriations.

3533. A letter from the Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the proposed decision to convert to contractor performance the transportation motor pool functions at Fort Polk, LA, pursuant to 10 U.S.C. 2304 nt. and Public Law 99-190, section 8089; jointly, to the Committee on Armed Services and Appropriations.

3534. A letter from the Assistant Secretary of the Army (Installations and Logistics), transmitting notification of the proposed decision to convert to contractor performance the commissary shelf stocking function at Fort Leavenworth, KS, pursuant to 10 U.S.C. 2304 nt. and Public Law 99-190, section 8089; jointly, to the Committee on Armed Services and Appropriations.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

[Pursuant to the order of the House on Mar. 15, 1986, the following conference report was filed on May 16, 1986]

Mr. FORD of Michigan: Committee of conference. Conference report on H.R. 2672 (Rept. 99-606). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

[Submitted May 19, 1986]

By BONER of Tennessee:

H.R. 4845. A bill to amend chapter 35 of title 44, United States Code, to reduce the paperwork burden on citizens by requiring Federal agency correspondence to include the name, official title, telephone number, and address of individuals to whom responses and inquiries may be made; to the Committee on Government Operations.

By Mr. FAUNTROY (for himself and Mr. DELLUMS):

H.R. 4846. A bill to recognize the organization known as the Montford Point Marine Association, Inc.; to the Committee on the Judiciary.

By Mr. LEVINE of California (for himself, Ms. SNOWE, Mr. SOLARZ, Mr. LAGOMARSINO, Mr. GEJDENSON, Mr. BEREUTER, Mr. BERMAN, Mr. SOLOMON, Mr. FEIGHAN, Mr. SILJANDER, Mr. BARNES, Mr. GARCIA, Mr. DYMALLY, Mr. REID, Mr. SMITH of Florida, Mr. UDALL, Mr. TORRICELLI, Mr. MACKAY, Mr. TAUKE, Mr. LEHMAN of Florida, Mr. COURTER, Mr. FORD of Michigan, Mr. EDWARDS of California, Mr. MORRISON of Connecticut, Mr. BATES, Mrs. BOXER, Mr. FROST, Mr. LEVIN of Michigan, Mr. MONSON, Mr. EVANS of Illinois, Mr. LUNDINE, Mr. KLECZKA, Mr. BLAZ, Mr. MINETA, Mr. OBERSTAR, Mr. ECKART of Ohio, Mr. FAUNTROY, Mr. FAZIO, Mr. DIXON, Mr. STAGGERS, and Mr. WEISS):

H.R. 4847. A bill to require that U.S. companies cease their participation in the production, marketing, or distribution of Libyan oil; to the Committee on Foreign Affairs.

By Mr. WYDEN (for himself and Mr. MILLER of Washington):

H.R. 4848. A bill to require the Secretary of Energy to ensure the compliance of certain operations of the Department of Energy with Federal environmental standards, and for other purposes; to the Committee on Energy and Commerce.

By Mr. SOLARZ:

H.J. Res. 639. Joint resolution designating "National Epidermolysis Bullosa Awareness Week"; to the Committee on Post Office and Civil Service.

MEMORIALS

Under clause 4 of rule XXII,

379. The SPEAKER presented a memorial of the Senate of the Commonwealth of Pennsylvania, relative to U.N. Resolution No. 3379; to the Committee on Foreign Affairs.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

[Omitted from the Record of May 15, 1986]

H.R. 4775: Mr. EDWARDS of California, Mr. WYLIE, Mr. MICA, Mr. HILLIS, Mr. DOWDY of Mississippi, Mr. SOLOMON, Mr. EVANS OF Illinois, Mr. MCEWEN, Ms. KAPTUR, Mr. MOLINARI, Mr. PENNY, Mr. RIDGE, Mr. ROWLAND of Georgia, Mr. HENDON, Mr. GRAY of Illinois, Mr. KANJORSKI, Mr. ROBINSON, Mr. MCCLOSKEY, and Mr. BURTON of Indiana.

[Submitted May 19, 1986]

H.R. 2952: Mr. FISH, Mr. DWYER of New Jersey, Mr. PETRI, Mr. CARPER, Ms. MIKULSKI, and Mr. MAVROULES.

H.R. 3042: Mr. TRAFICANT and Mr. SMITH of Florida.

H.R. 3854: Ms. KAPTUR, Mr. YATRON, Ms. OAKAR, Mr. BROWN of California, Mr. KILDEE, Mr. MINETA, Mr. BERMAN, Mr. TALLON, Mr. LEVINE of California, Mr. HAWKINS, Mr. WOLPE, Mr. APPLEGATE, Mr. DERRICK, Mr. TORRICELLI, Mr. MCCLOSKEY, Mr. WEAVER, and Mr. MARKEY.

H.R. 3894: Mr. BOUCHER and Mr. PACKARD.

H.R. 4025: Mr. PERKINS, Mr. HEFNER, Mr. WEISS, Mr. FLORIO, Mr. BUSTAMANTE, and Mr. ANDERSON.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 2031: Mr. WORTLEY.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 1

By Mr. GARCIA:

(Amendment to the amendment in the nature of a substitute (text of H.R. 4746)).

—Page 13, after line 19, insert the following new sections (and redesignate the subsequent sections, and conform the table of contents, accordingly):

SEC. 123. REFINANCING MORTGAGE INSURANCE FOR HOSPITALS, NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.

(a) STATE CERTIFICATION REQUIREMENT.—Section 223(f)(4)(D) of the National Housing Act is amended to read as follows:

"(D) such existing hospital has received such certification from the State in which the hospital is located as is comparable to the certification required for hospitals under section 242.".

(b) REFINANCING INSURANCE FOR NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.—Section 223(f) of the National Housing Act (as amended by

subsection (a) of this section) is further amended—

(1) in paragraph (1), by inserting after "existing hospital" the following: ", existing nursing home, existing intermediate care facility, or existing board and care home"; and

(2) in paragraph (4)—

(A) by inserting after "existing hospital" each place it appears the following: ", existing nursing home, existing intermediate care facility, or existing board and care home";

(B) by inserting after "the hospital" the following: ", nursing home, intermediate care facility, or board and care home"; and

(C) by inserting after "section 242" the following: "or for nursing homes, intermediate care facilities, or board and care homes insured under section 232, as the case may be".

(c) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendments made by this section by not later than the expiration of the 90-day period following the date of the enactment of this Act.

SEC. 124. MORTGAGE INSURANCE FOR NURSING HOMES, INTERMEDIATE CARE FACILITIES, AND BOARD AND CARE HOMES.

(a) INSURANCE FOR PUBLIC NURSING HOMES.—Section 232(b)(1) of the National Housing Act is ameded by inserting "public facilility," before "proprietary".

(b) REQUIREMENT OF STATE APPROVAL.—Section 232(d)(4)(A) of the National Housing Act is amended by adding at the end the following new sentence: "If the State agency is not empowered to provide a certification that there is a need for the home or facility or combined home and facility, the Secretary shall accept in lieu of such certification a feasibility study that (i) is prepared for the home or facility or combined home and facility in accordance with the principles established for feasibility studies by the American Institute of Certified Public Accountants; (ii) assesses on a marketwide basis the impact of the home or facility or combined home and facility on (and its relationship to) other health care facilities and services, the percentage of excess beds, demographic projections, alternative health care delivery systems, and the reimbursement structure of the home or facility or combined home and facility; and (iii) demonstrates the need for and financial feasibility of the home or facility or combined home and facility.".

(c) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendments made by this section by not later than the expiration of the 90-day period following the date of the enactment of this Act.

SEC. 125. REQUIREMENT OF STATE APPROVAL FOR MORTGAGE INSURANCE FOR HOSPITALS

(a) IN GENERAL.—Section 242(d)(4) of the National Housing Act is amended by adding at the end the following new sentence: "If the State agency is not empowered to provide a certification that there is a need for the hospital, the Secretary shall accept in lieu of such certification a feasibility study that (A) is prepared for the hospital in accordance with the principles established for feasibility studies by the American Institute of Certified Public Accountants; (B) assesses on a marketwide basis the impact of the hospital on (and its relationship to) other health care facilities and services, the percentage of excess beds, demographic projections, alternative health care delivery systems, and the reimbursement structure of the hospital; and (C) demonstrates the need for and financial feasibility of the hospital.".

(b) REGULATIONS.—The Secretary of Housing and Urban Development shall issue such regulations as may be necessary to carry out the amendment made by this section by not later than the expiration of the 90-day period following the date of the enactment of this Act.

—Page 123, after line 17, add the following new title (and conform the table of contents accordingly):

TITLE VI—ENTERPRISE ZONE DEVELOPMENT

SEC. 601. DESIGNATION OF ENTERPRISE ZONES.

(a) DESIGNATION OF ZONES.—

(1) DEFINITION.—For purposes of this section, the term "enterprise zone" means any area that—

(A) is nominated by 1 or more local governments and the State or States in which it is located for designation as an enterprise zone (in this section referred to as a "nominated area"); and

(B) the Secretary of Housing and Urban Development designates as an enterprise zone, after consultation with—

(i) the Secretaries of Agriculture, Commerce, Labor, and the Treasury, the Director of the Office of Management and Budget, and the Administrator of the Small Business Administration; and

(ii) is the case of an area on an Indian reservation, the Secretary of the Interior.

(2) NUMBER OF DESIGNATIONS.—

(A) IN GENERAL.—The Secretary of Housing and Urban Development may designate not more than 100 nominated areas as enterprise zones.

(B) MINIMUM DESIGNATION IN RURAL AREAS.—Of the areas designated under clause (i), not less than 25 percent shall be areas that—

(i) are within a local government jurisdiction or jurisdictions with a population of less than 50,000 (as determined under the most recent census data available);

(ii) are outside of a metropolitan statistical area (as designated by the Director of the Office of Management and Budget); or

(iii) that are determined by the Secretary, after consultation with the Secretary of Commerce, to be rural areas.

(3) AREAS DESIGNATED BASED SOLELY ON DEGREE OF POVERTY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary shall designate the nominated areas with the highest average ranking with respect to the criteria described in subparagraphs (C), (D), (E), and (F) of subsection (c)(3). For purposes of the preceding sentence, an area shall be ranked within each such criterion on the basis of the amount by which the area exceeds such criterion, with the area that exceeds such criterion by the greatest amount given the highest ranking.

(B) EXCEPTION WHERE INADEQUATE COURSE OF ACTION, ETC.—An area shall not be designated under subparagraph (A) if the Secretary determines that the course of action with respect to such area is inadequate.

(C) SEPARATE APPLICATION TO RURAL AND OTHER AREAS.—Subparagraph (A) shall be applied separately with respect to areas described in paragraph (2)(B) and to other areas.

(4) LIMITATION ON DESIGNATIONS.—

(A) PUBLICATION OF REGULATIONS.—Before designating any area as an enterprise zone, the Secretary shall prescribe by regulation not later than 4 months following the date of the enactment of this Act, after consultation with the officials described in paragraph (1)(B)—

(i) the procedures for nominating an area under paragraph (1)(A);

(ii) the parameters relating to the size and population characteristics of an enterprise zone; and

(iii) the manner in which nominated areas will be evaluated based on the criteria specified in subsection (d).

(B) TIME LIMITATIONS.—The Secretary shall designate nominated areas as enterprise zones only during the 24-month period beginning on the later of—

(i) the 1st day of the 1st month following the month in which the effective date of the regulations described in subparagraph (A) occurs; or

(ii) July 1, 1987.

(C) PROCEDURAL RULES.—The Secretary shall not make any designation under paragraph (1) unless—

(i) the local governments and the State in which the nominated area is located have the authority—

(I) to nominate such area for designation as an enterprise zone;

(II) to make the State and local commitments under subsection (d); and

(III) to provide assurance satisfactory to the Secretary that such commitments will be fulfilled;

(ii) a nomination therefore is submitted in such a manner and in such form, and contains such information, as the Secretary shall by regulation prescribe;

(iii) the Secretary determines that any information furnished is reasonably accurate; and

(iv) the State and local governments certify that no portion of the area nominated is already included in an enterprise zone or in an area otherwise nominated to be an enterprise zone.

(5) NOMINATION PROCESS FOR INDIAN RESERVATIONS.—In the case of a nominated area on an Indian reservation, the reservation governing body (as determined by the Secretary of the Interior) shall be deemed to be both the State and local governments with respect to such area.

(b) PERIOD FOR WHICH DESIGNATION IS IN EFFECT.—

(1) IN GENERAL.—Any designation of an area as an enterprise zone shall remain in effect during the period beginning on the date of the designation and ending on the earliest of—

(A) December 31 of the 24th calendar year following the calendar year in which such date occurs;

(B) the termination date designated by the State and local governments as provided for in their nomination pursuant to subsection (a)(4)(C)(ii); or

(C) the date the Secretary revokes such designation under paragraph (2).

(2) REVOCATION OF DESGINATION.—The Secretary, after consultation with the officials described in subsection (a)(1)(B) and a hearing on the record involving officials of the State or local government involved, may revoke the designation of an area if the Secretary determines that the local government or the State in which it is located is not complying substantially with the State and local commitments pursuant to subsection (d).

(c) AREA AND ELIGIBILITY REQUIREMENTS.—

(1) IN GENERAL.—The Secretary may make a designation of any nominated area under

subsection (a)(1) only if it meets the requirements of paragraphs (2) and (3).

(2) AREA REQUIREMENTS.—A nominated area meets the requirements of this paragraph if—

(A) the area is within the jurisdiction of the local government;

(B) the boundary of the area is continuous; and

(C) the area—

(i) has a population, as determined by the most recent census data available, of not less than—

(I) 4,000 if any portion of such area (other than a rural area described in subsection (a)(2)(B)(i)) is located within a metropolitan statistical area (as designated by the Director of the Office of Management and Budget) with a population of 50,000 or more; or

(II) 1,000 in any other case; or

(ii) is entirely within an Indian reservation (as determined by the Secretary of the Interior).

(3) ELIGIBILITY REQUIREMENTS.—For purposes of paragraph (1), a nominated area meets the requirements of this paragraph if the State and local governments in which it is located certify and the Secretary, after such review of supporting data as he deems appropriate, accepts such certification, that—

(A) the area is one of pervasive poverty, unemployment, and general distress;

(B) the area is located wholly within the jurisdiction of a local government that is eligible for Federal assistance under section 119 of the Housing and Community Development Act of 1974, as in effect on the date of the enactment of this Act;

(C) the unemployment rate, as determined by the appropriate available data, was not less than 1.5 times the national unemployment rate for that period;

(D) the poverty rate (as determined by the most recent census data available) for each populous census tract (or where not tracted, the equivalent country division as defined by the Bureau of the Census for the purpose of defining poverty areas) within the area was not less than 20 percent for the period to which such data relate;

(E) not less than 70 percent of the households living in the area have incomes below 80 percent of the median income of households of the local government (determined in the same manner as under section 119(b)(2) of the Housing and Community Development Act of 1974); and

(F) the population of the area decreased by 20 percent or more between 1970 and 1980 (as determined from the most recent census available).

(d) REQUIRED STATE AND LOCAL COMMITMENTS.—

(1) IN GENERAL.—No nominated area shall be designated as an enterprise zone unless the local government and the State in which it is located agree in writing that, during any period during which the area is an enterprise zone, such governments will follow a specified course of action designated to reduce the various burdens borne by employers or employees in such area. A course of action shall not be treated as meeting the requirements of this paragraph unless the course of action include provisions described in not less than 4 of the subparagraphs of paragraph (2).

(2) COURSE OF ACTION.—The course of action under paragraph (1) may be implemented by both such governments and private nongovernmental entities, may be funded from proceeds of any program administered by the Secretary of Housing and Urban Development or of any program administered by the Secretary of Agriculture under title V of the Housing Act of 1949, and may include, but is not limited to—

(A) a reduction of tax rates or fees applying within the enterprise zone;

(B) an increase in the level of public services, or in the efficiency of the delivery of public services, within the enterprise zone;

(C) actions to reduce, remove, simplify, or streamline paperwork requirements within the enterprise zone;

(D) involvement in the program by public authorities or private entities, organizations, neighborhood associations, and community groups, particularly those within the nominated area, including a written commitment to provide jobs and job training for, and technical, financial, or other assistance to, employers, employees, and residents of the nominated area;

(E) the giving of special preference to contractors owned and operated by members of any minority; and

(F) the gift (or sale at below fair market value of surplus land in the enterprise zone to neighborhood organizations agreeing to operate a business on the land.

(3) RECOGNITION OF PAST EFFORTS.—In evaluating courses of action agreed to by any State or local government, the Secretary shall take into account the past efforts of such State or local government in reducing the various burdens borne by employers and employees in the area involved.

(4) PROHIBITION OF ASSISTANCE FOR BUSINESS RELOCATIONS.—

(A) IN GENERAL.—The course of action implemented under paragraph (1) may not include any action to assist—

(i) any establishment relocating from 1 area to another area; or

(ii) any subcontractor whose purpose is to divest, or whose economic success is dependent upon divesting, any other contractor or subcontractor of any contract customarily performed by such other contractor or subcontractor.

(B) EXCEPTION.—The limitations established in subparagraph (A) shall not be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary if the Secretary—

(i) finds that the establishment of the new branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where the existing business entity conducts business operations; and

(ii) has no reason to believe that the new branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where the existing business entity conducts business operations.

(e) DEFINITIONS.—For purposes of this section:

(1) GOVERNMENT.—If more than 1 government seeks to nominate an area as an enterprise zone, any reference to, or requirement of, this section shall apply to all such governments.

(2) LOCAL GOVERNMENT.—The term "local government" means—

(A) any county, city, town, township, parish, village, or other general purpose political subdivision of a State;

(B) any combination of political subdivisions described in subparagraph (A) recognized by the Secretary; and

(C) the District of Columbia.

(3) SECRETARY.—The term "Secretary" means the Secretary of Housing and Urban Development.

(4) STATE.—The term "State" includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and any other possession of the United States.

SEC. 602. EVALUATION AND REPORTING REQUIREMENTS.

Not later than the close of the 4th calendar year after the year in which the Secretary of Housing and Urban Development first designates areas as enterprise zones, and at the close of each 4th calendar year thereafter, the Secretary shall prepare and submit to the Congress a report on the effects of such designation in accomplishing the purposes of this title.

SEC. 603. INTERACTION WITH OTHER FEDERAL PROGRAMS.

(a) COORDINATION WITH RELOCATION ASSISTANCE.—The designation of an enterprise zone under section 601 shall not—

(1) constitute approval of a Federal or federally assisted program or project (within the meaning of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.)); or

(2) entitle any person displaced from real property located in such zone to any rights or any benefits under such Act.

(b) ENTERPRISE ZONES TREATED AS LABOR SURPLUS AREAS.—Any area that is designated as an enterprise zone under section 601 shall be treated for all purposes under Federal law as a labor surplus area.

SEC. 604. WAIVER OR MODIFICATION OF HOUSING AND COMMUNITY DEVELOPMENT RULES IN ENTERPRISE ZONES.

(a) IN GENERAL.—Upon the written request of the governments that designated and approved an area that has been designated as an enterprise zone under section 601, the Secretary of Housing and Urban Development (or, with respect to any rule issued under title V of the Housing Act of 1949, the Secretary of Agriculture) may, in order to further the job creation, community development, or economic revitalization objectives of the zone, waive or modify all or part of any rule that the Secretary has authority to promulgate, as such rule pertains to the carrying out of projects, activities, or undertakings within the zone.

(b) LIMITATION.—No provision of this section may be construed to authorize the Secretary to waive or modify any rule adopted to carry out a statute or Executive order that prohibits, or the purpose of which is to protect persons against, discrimination on the basis of race, color, religion, sex, marital status, national origin, age, or handicap.

(c) SUBMISSION OF REQUESTS.—A request under subsection (a) shall specify the rule or rules to be waived or modified and the change proposed, and shall briefly describe why the change would promote the achievement of the job creation, community development, or economic revitalization objectives of the enterprise zone. If a request is made to the Secretary of Agriculture, the requesting governments shall send a copy of the request to the Secretary of Housing and Urban Development at the time the request is made.

(d) CONSIDERATION OF REQUESTS. In considering a request, the Secretary shall weigh the extent to which the proposed change is likely to further job creation, community development, or economic revitalization within the enterprise zone against the effect the change is likely to have on the underly-

ing purposes of applicable statutes in the geographic area that would be affected by the change. The Secretary shall approve the request whenever the Secretary finds, in the discretion of the Secretary, that the public interest that the proposed change would serve in furthering such job creation, community development or economic revitalization outweighs the public interest that continuation of the rule unchanged would serve in furthering such underlying purposes. The Secretary shall not approve any request to waive or modify a rule if that waiver or modification would—

(1) directly violate a statutory requirement; or

(2) be likely to present a significant risk to the public health, including environmental health or safety.

(e) NOTICE OF DISAPPROVAL.—If a request is disapproved, the Secretary shall inform the requesting governments in writing of the reasons therefor and shall, to the maximum extent possible, work with such governments to develop an alternative, consistent with the standards contained in subsection (d).

(f) PERIOD FOR DETERMINATION.—The Secretary shall discharge the responsibilities of the Secretary under this section in an expeditious manner, and shall make a determination on requests not later than 90 days after their receipt.

(g) APPLICABLE PROCEDURES.—A waiver or modification of a rule under subsection (a) shall not be considered to be a rule, rulemaking, or regulation under chapter 5 of title 5, United States Code. To facilitate reaching a decision on any requested waiver or modification, the Secretary may seek the views of interested parties and, if the views are to be sought, determine how they should be obtained and to what exent, if any, they should be taken into account in considering the request. The Secretary shall publish a notice in the Federal Register stating any waiver or modification of a rule under this section.

(h) EFFECT OF SUBSEQUENT AMENDMENT OF RULES.—In the event that the Secretary proposes to amend a rule for which a waiver or modification under this section is in effect, the Secretary shall not change the waiver or modification to impose additional requirements unless the Secretary determines, consistent with standards contained in subsection (d), that such action is necessary.

(i) EXPIRATION OF WAIVERS AND MODIFICATION.—No waiver or modification of a rule under this section shall remain in effect for a longer period than the period for which the enterprise zone designation remains in effect for the area in which the waiver or modification applies.

(j) DEFINITIONS.—For purposes of this section:

(1) RULE.—The term "rule" means—

(A) any rule as defined in section 551(4) of title 5, United States Code; or

(B) any rulemaking conducted on the record after opportunity for an agency hearing pursuant to sections 556 and 557 of such title 5.

(2) SECRETARY.—The term "Secretary" means the Secretary of Housing and Urban Development or, with respect to any rule issued under title V of the Housing Act of 1949, the Secretary of Agriculture.

SEC. 605. COORDINATION OF HOUSING AND URBAN DEVELOPMENT PROGRAMS IN ENTERPRISE ZONES.

Section 3 of the Department of Housing and Urban Development Act is amended by adding at the end the following new subsection:

"(d) The Secretary shall—

"(1) promote the coordination of all programs under the jurisdiction of the Secretary that are carried on within an enterprise zone designated pursuant to section 601 of the Housing Act of 1986;

"(2) expedite, to the greatest extent possible, the consideration of applications for programs referred to in paragraph (1) through the consolidation of forms or otherwise; and

"(3) provide, whenever possible, for the consolidation of periodic reports required under programs referred to in paragraph (1) into 1 summary report submitted at such intervals as may be designated by the Secretary.".

SENATE—*Monday, May 19, 1986*

The Senate met at 12 noon and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

God be merciful unto us, and bless us; and cause his face to shine upon us; that thy way may be known upon earth, thy saving health among all nations. Let the people praise thee, O God; let all the people praise thee. O let the nations be glad and sing for joy; for thou shall judge the people righteously and govern the nations upon earth.—Psalms 67:1-4.

God of mercy, so easily we become spiritually disoriented. We drift without an anchor. Losing our magnetic north we wander without direction and purpose. Help us return to Thee O God that we may connect with our spiritual and moral roots. For the sake of our stewardship as national leaders and for Your glory. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able majority leader, Senator DOLE, is recognized.

SCHEDULE

Mr. DOLE. Mr. President, under the standing order, the leaders will have 10 minutes each, followed by special orders in favor of Senators HAWKINS, MATTINGLY, and PROXMIRE—the distinguished Senator from South Carolina, Senator THURMOND, is scheduled to deliver the Hawkins special order—and routine morning business not to extend beyond the hour of 1 p.m., with Senators permitted to speak therein for not more than 5 minutes each.

Following routine morning business, the Senate will resume consideration of S. 2180, the Federal Fire Prevention and Control Act. No votes will occur prior to the hour of 3 p.m., and no votes will occur after the hour of 6 p.m. today.

There will be a number of votes, I would assume, on Tuesday and Wednesday. We hope to begin consideration of H.R. 4515, the supplemental appropriations bill later today or early tomorrow. There will be votes on that throughout Tuesday and we could be asked to remain in late on Tuesday or Wednesday to complete action on the supplemental.

As previously agreed to some time ago, we will be in adjournment for the Memorial Day recess until Monday, June 2. That will start effective the close of business Wednesday, May 21. On June 2, we will convene at 2 p.m. rather than 12 noon. We will do that by consent.

It is still our intention to call up the tax reform bill very early upon our return. I met with the Budget Committee chairman hoping we could expedite consideration of a 303 wavier request so we would be prepared to start on the tax bill, if not on Monday, June 2, on Tuesday, June 3, or no later than Wednesday, June 4.

There will also probably be pending at that time the President's veto of the resolution of disapproval of the Saudi arms sale. I am not certain when that veto will occur, but that will be pending, I assume, when we return, unless disposed of before we leave.

I would suggest to my colleagues that June 2 is also the first day of public televising of Senate proceedings. We will, as I said, begin on that day at 2 o'clock.

YELENA BONNER'S CALL FOR PEACE

Mr. DOLE. Mr. President, yesterday the Washington Post's Outlook section ran an article written by Yelena Bonner, Soviet dissident and wife of Andrei Sakharov. Her message was simple and straightforward: Americans want peace. They want the freedom to live in their own homes, raise their families, pursue their careers. They do not want war. They want peace.

Yelena Bonner, who has been in the West for the past 5 months being treated for medical problems, recognized two overriding American characteristics—the desire for privacy and independence. These are traits the Soviet system does not accommodate.

As she points out, at the age of 63, she has never had a house, and probably never will:

My dream, my own house, is unattainable for me and my family—that is for my husband and myself, as unattainable as Heaven on Earth.

Why so unattainable? Because she and her husband had the audacity to challenge the Soviet Government, to speak out against its abuses, and to dare to ask to leave. But even if they hadn't, the opportunity for something as basic as owning your own home in the Soviet Union is as rare as a 5-percent mortgage rate in the United States. But then, so are other basics, like the freedom of speech, the freedom of movement, the freedom of religion.

Mrs. Bonner is getting ready to leave the United States, to return to her husband and their life in internal exile. Mrs. Bonner has whiffed the winds of freedom, she has exulted in the homely pleasures of family life in American suburbia; she has bathed in the warmth and beauty of a Caribbean beach; she has lived in an open and democratic society.

It is ironic, that just as she was preparing to return to a closed life in the closed city of Gorky, Anatoly Shcharansky, the recently freed Soviet dissident, was beginning his first trip to the United States. For those of us who had the pleasure and honor to meet with Mr. Shcharansky, his joy at being free was patently obvious, even after a grueling schedule.

But at the same time, he made it very clear that while enjoying his new life in Israel, he will relentlessly campaign for the right of the 400,000 Soviet Jews who wish to emigrate, and for the thousands of dissidents who remain in Soviet prison camps.

Mrs. Bonner, Mr. Shcharansky, and all Soviets held against their will, want something as basic as a house and as awesome as freedom and peace.

As Mrs. Bonner wrote:

I want a house. I don't want war. Americans want a house, too. Americans don't want war.

Mr. President, I ask unanimous consent to include the text of Mrs. Bonner's remarks in the RECORD.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

AMERICANS DON'T WANT WAR—THEY WANT HOUSES, WITH YARDS, AND SO DO I

(By Yelena Bonner)

(Yelena Bonner plans to leave the United States Saturday to return to the Soviet Union and life in internal exile with her husband and fellow dissident, Andrei Sakharov.)

I am convinced that Americans want peace. I don't know about America—I'm not a specialist, like the schoolchildren who travel around the world on peace missions and can explain everything about rockets and so on. But while I am not as competent to judge, I maintain that Americans do not want war.

What Americans want is a house. No matter their place on the social ladder, their salary, capital, inheritance, winnings in the lottery or on the stock market (for me with my lack of education in these matters it is almost one and the same, even though I do know that people win more frequently—and lose more frequently!—playing the stock market than the lottery), they want a house of their own.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

They want a house and the ground it stands on, and a surrounding bit of land. That's all. Some own a tiny house, like a toy cottage, and the only soil is in their flower boxes; others have lots of bedrooms, baths, and extensive lawns. The desire to own a house is not a class ambition; it encompasses upper, middle, upper-middle, or lower-income groups, and is an expression of a national trait, a desire for privacy.

Even one of New York's homeless, huddling in a blanket over a grating, will be insulted if you invade his privacy. A house is the symbol of independence, not even a material one, but some sort of combined spiritual and physical independence. The American feeling about his house expresses the main traits of Americans—the desire for privacy and independence. But that attitude gives rise to a third trait, "my house is my pride and joy."

And from that comes "My city, my state, my country is my pride and joy." There is no aggression or parochialism in that attitude. It is open and kind and caring both toward the house and toward everything that it stands for, the soil in the flower boxes and the lovingly-tended lawn, even if it's only three yards square. And, I say, this shows that Americans care about land in general and about the whole world. Only the other day my son told me that according to a poll, 43 percent of all Americans prefer growing flowers to any other outdoor pastime.

Americans do not want war. They want a house. The first lady says that when the president retires, they will sell the house in which they lived before the presidency. The children are grown and the place is too big for them, so they will buy a smaller house. A wonderful plan! And it's wonderful that the whole country knows it. The president doesn't want war, he wants a new house.

I also want a house, in addition to my usual wants that everyone be together and healthy and that there be no war. With enough land around it, and no more, for me to plant flowers. For the sake of nostalgia I could grow an ordinary Russian cornflower and an ordinary Russian daisy and a single birch tree. But to tell the truth, I find nostalgia a form of play acting.

I don't need a lot of bedrooms, just one for us and one for mother, a guest room and one more so that I'm always ready for our grandchildren. And I'd like a room where I could at last spread out my books and where Andrei could make a mess. What nonsense I'm writing! I want a house! This is me, who should be counting the days, no, the hours of my freedom to do what I want, even to type this freely, to type all my unattainable nonsense, such as "I want a house."

But you know, I'm sixty-three, and I've never had a house; not only that, I've never had a corner I could call my own. I started out like everyone else: a normal childhood, but then came a strange orphanhood—father and mother arrested and no one knowing whether they were alive or not. I lived in a single room with my grandmother, brother and sister. On the other side of the wall (we could hear everything) lived a man named Fyodorov with his wife and four children. When he got drunk he beat them. If they managed to get away, they would spend the night with us, sitting on the old trunk. Fyodorov never broke into our room. He was afraid of grandmother—everyone was afraid of her except me. I had my own fears, of course, but ever since my parents' arrest, I have never allowed myself to show my dread of anything.

Then there was the army. I guess there was a time when my "house" was a compartment in the hospital train, where I was head nurse. The war ended, and many people shared my room with me, like girl friends in Leningrad after the evacuation was over. Later, we had a room in a communal apartment—my first husband, two children, my mother, and I; often we had friends staying the night. There were 48 people in one apartment, and one toilet.

Later in Moscow, we had two rooms in the apartment where my mother, the children and I lived, and then we were joined by my son-in-law, and then by Sakharov. I think that the first time I was mistress of my own place was—it's hard to believe—in Gorky, in exile.

I do not want that. I want a house. My daughter has a house in Newton, Mass. It make me so happy to think that she has a house. Her family is caught up in our affairs, in our Gorky horrors and suffering, and our cares. They have forgotten the pleasure of their house. I want them to go back to caring about it. It has done so much for them—my daughter and her husband and their two children have been living in the house since their arrival in 1977. My son came there, followed by his wife, and their daughter was born there. Two families shared the house in a most un-American way—it was almost a communal apartment and it had almost a third family: my mother arrived and the impossibility of going back to Russia has kept her there close to six years. Where else could she go—to live in exile in Gorky?

My dream, my own house, is unattainable for me and my family—that is, for my husband and myself, as unattainable as heaven on earth. But I want a house. If not for me, then for my son and his family. My son and I plan to buy one. And I am learning many new things. The house should be near good schools, my granddaughter is three and schooling is not far off in the future. It should be in the suburbs—vacations are short and a child should not have to grow up in a polluted city. It should be close to their work—both parents have jobs and there is only one car. It should have a full foundation and basement (I had never known such considerations to exist). It should have three bedrooms so that my mother can be with them, or at least visit. It should have a room and bath in the basement for guests. It should have a studio—Alyosha wants more than a house, he needs a workroom for his mathematics. But the cost is . . . oh! I want, I want, I want. More than the children, I want. But it's time for me to pack my bags. Not tomorrow, but very soon. The children live here. I live over there.

My time here has been a highlight of my entire life. For instance, I went to the Virgin Islands, I had never been in a climate like that, near palm trees—coconuts really do fall! My bare feet had never felt sand like this. The warm and quiet sea splashed just twenty steps away from me. I would call it paradise, but paradise is not simply a question of climate, or sand, or sea, or even apples (or pears—that historical argument from the Garden of Eden has yet to be solved). Paradise is being with people you love and treasure and not worrying about them. I wish Andrei were here. I wish my mother could sit in a rocker in the shade near those sweet, sleep-inducing oleanders, and I wish I could pick up the phone once a week and hear the calm voices of my children. Paradise, it turns out, is so simple and, it turns out, unattainable for me.

Long, hot hours on the white, hot sand; the sea—light blue, dark blue, turquoise. The bay is small—even with my ailing legs I managed to wander all the way to its left point one day, and to its right on another. I will always remember that arc, a smooth edge of sand, and the sea, which doesn't roar, but whispers, babbles. I'm afraid of lapsing into sentimentality (I think I already have, in fact), but I've never seen such a sea . . . it has such tranquility.

Perhaps I have grown more tranquil here. I am grateful that I was invited to that island and that it was so simple to give me five days to catch my breath, to work, and to have peace. Maybe those days let me regain my senses—to stop losing my temper with my family; to understand that I can change nothing or correct nothing; to stop tormenting my heart (the six bypasses may not be able to take it) and the hearts of others—hearts I love.

My husband told me just five months ago (God, I haven't seen him in five months and want to be with him so much!), "The world is further away from war than it has been in a long time." I believe him, and on that score, I live calmly. Especially since I have more than enough worries, cares, and misfortunes of my own.

What difference does it make if Gorbachev and Reagan meet in June or some other month? What difference does it make which of them is being cranky? First Gorbachev plays hard to get, like a girl invited for a date, pouting, considering: "I don't know, I have to think about it, probably not." Then Reagan sounds like a jealous girl, "It's her or me. Now or never." A recent newspaper article set me thinking along these lines. Actually, all three are alien to me—the newspaper and the two governments. I must be one of the world's least interested people in the problems that Reagan and Gorbachev are threatening to discuss or not discuss, when and if they meet or don't meet.

I want a house. I don't want war. Americans want a house, too. Americans don't want war.

So now with my surgically repaired organ of feelings and circulation I am writing in a hotel in New York, which is simultaneously a city and a country and a world. I am on the eighth floor in a corner room. One window opens on 61st Street, the other on Central Park. In two directions, unfolding from an angle, stretches a panorama that needs nothing added to it. Against the blue of the sky are the gray silhouettes of buildings that pierce it (light gray in the sun, darker in shadow), lines, lines, lines. How can anyone say that New York is not beautiful? For me it is the city of cities, ready for the future.

Today I say something amazing from the windows of this room.

I got up early, a bit after six. The haze of burgeoning buds barely showed over the trees, and the grass had not yet taken on a greenish hue. It was still yellow, the color of grass shoots. And now it's noon, and there is a delicate green smoke over the trees and the grass has turned green, a tender, tender green. So quickly, spring came in six hours. Lord, I want the whole world to feel this good. They say New York is at its best in springtime. And now I'm going downstairs into the city.

THE SPECIAL OLYMPICS AIRLIFT

Mr. DOLE. Mr. President, each year the National Aeronautic Association is presented to an individual or company for the greatest achievements in aeronautics and astronautics in America.

This past Friday evening the Collier Trophy for 1985 was presented to Cessna Aircraft Co. and its chairman, Russell Meyer, for the safety record in 1985 of the worldwide fleet of Cessna Citation business jet aircraft. In 1985, for the second successive year, no passenger fatalities were recorded during nearly 750,000 flight hours by the fleet of almost 1,400 Citations in more than 40 countries worldwide. Cessna is the first general aviation recipient of the Collier Trophy since its inception in 1911.

At the awards ceremonies Friday evening, Russ Meyer and Eunice Kennedy Shriver, chairman of Special Olympics International, made a surprise announcement of the "Citation Special Olympics Airlift," the details of which I would like to share with my colleagues. The airlift program provides that each U.S. athlete, coach, and official delegate to the 1987 International Summer Special Olympics games will be flown to South Bend, IN, in a giant airlift of Cessna Citation business jets organized and sponsored by Cessna Aircraft Co.

Cessna will ask more than 700 corporate owners of Cessna Citations in the United States to fly special olympians to the summer games in their Citations. This effort will require at least 500 Citations for a minimum of 2 days each—to transport athletes to the games and to take them home 10 days later. This program will save the Special Olympics more than $2 million in transportation costs. In his announcement Friday, Meyer indicated that of the hundred or so Citation owners he had contacted about this, the positive response was unanimous. I'm sure that when the rest of the Citation owners are contacted, the 500 planes necessary for a successful operation will have been procured.

This is a great example of corporate America doing its share to help great programs like the Special Olympics. The "Citation Special Olympics Airlift" is a program of staggering dimensions, and the only way to bring it into perspective is to compare it to the Berlin airlift. At its peak, we had 120 flights per day into Berlin. In July 1987, there will be more than 600 flights into South Bend, IN. There will be a Citation landing in South Bend every 80 to 90 seconds for a period of 14 to 15 hours.

Mr. President, I congratulate Russ Meyer, Cessna, and the Special Olympics on the announcement of this Special Olympics airlift. And special congratulations to Russ Meyer for being the 1985 recipient of the Collier Trophy.

AMERICA WILL MISS THEODORE H. WHITE

Mr. DOLE. Mr. President, last week America lost one of her most distinguished historians with the passing of Theodore H. White. He was a gifted writer and reporter, but above all, he was unique in his ability to convey history with an intimacy and relevance that made spellbinding reading to every kind of audience.

As a foreign correspondent, "Teddy" White blazed new trails for American writers with his pioneering coverage of the dramatic days of revolution in Red China during the 1930's. His book "Thunder Out of China" has become the foundation on which any serious study of that country must begin. But after extensive writings from foreign shores, the lure of politics brought Teddy to a new and highly visible role as the journalistic dean of American Presidential campaigns.

His popular series "The Making of the President" is a landmark in historical writing because it captures the coast-to-coast detail of the world's greatest democracy electing its leader: from the campaign trail, to the back rooms of the convention hall, to inaugural day itself, Teddy White has given us an eyewitness account that will stand forever as living American history. His brand of Presidential journalism is still the model for today's writers, which tells you plenty about this great American storyteller.

Mr. President, many of us in this Chamber knew Theodore White well and we will miss his special presence on Capitol Hill, or on the campaign trail, or wherever his nose for news took him. The Senator from Kansas extends the Senate's deepest sympathies to Mr. White's family. When the next election rolls around, we will look, by habit, for the bespectacled historian, and we will remember in sadness his passing.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER (Mr. HATCH). The Democratic leader is recognized.

DEFENSE BURDEN SHARING: SOME POSITIVE DEVELOPMENTS, BUT OUR ALLIES NEED TO DO MORE

Mr. BYRD. Mr. President, the Defense Department recently issued the unclassified version of its latest annual report on Allied Contributions to the Common Defense, also known as the burden-sharing report.

This document, perhaps the best summary comparison of how well or poorly our NATO allies and Japan are sharing the mutual security burden, is required by statutory language authored by our distinguished colleague from Michigan, Mr. LEVIN.

The latest unclassified version of the report, the 1986 edition, also contains expanded information focusing specifically on the adequacy, or lack thereof, of Japan's self-defense contributions. That information is required by an amendment I authored to last year's State Department authorization act.

There is both good news and bad news for the American taxpayer, and for U.S. national security, in this newest burden-sharing report.

The good news is that, mainly because of senatorial pressure on the executive branch, and on our allies, the NATO countries and Japan finally are taking some positive steps to increase their defense efforts and to carry a fairer share of the common security burden.

The bad news is that these steps still are clearly insufficient to relieve more of the unfair burden currently borne by U.S. taxpayers to pay for our mutual security, and that, in terms of overall average annual real growth in defense spending, the allied burden-sharing performance is getting worse instead of better.

This report refers to positive decisions by NATO to increase military construction funding, and by some of the European allies to increase their ammunition procurement. NATO also may be making progress to compensate for the impact of possible U.S. deployments to the Persian Gulf.

These developments would not have occurred without amendments by Senators SAM NUNN and CARL LEVIN to focus attention on extremely inadequate defense contributions by our NATO allies.

Unfortunately, this positive news is offset by the report's disclosure that average real growth in defense spending for all other NATO nations in 1986 is tentatively projected to be the lowest in 9 years. It is a pitifully small range, from somewhere between zero and three-tenths of 1 percent.

Furthermore, for 1985, the report states that only three to four of the European allies are expected to meet their longstanding commitment to increase their defense budgets by 3 percent each year after excluding inflation.

Regarding Japan, the good news in the report is that, unlike the first year of the two previous 5-year military improvement programs, the required first year share of the new, 1986-90 Japanese defense plan was approved and fully funds almost all major frontline equipment, combat readiness, training, and sustainability items for this initial program increment.

The bad news about Japan's defense contribution is that, once again, it ranks "last or close to last on most of the performance measures compared to ability to contribute surveyed, and thus, appears to be doing far less than its fair share."

A final verdict cannot be made yet about Japan's present and future defense performance. On the one hand, Japan seems finally to have heard the message embodied in the Byrd amendment and other congressional statements that it must increase its self-defense efforts.

On the other hand, several more years of sustained increases in annual Japanese defense budgets will be needed before that nation meets the bare minimum military capabilities to live up to its mutual security commitments, including defending its sea lanes out to 1,000 miles. Each year of the new 5-year program must be funded fully, for example.

The 1986 burden-sharing report promises that future reports required by my amendment "will monitor Japanese progress toward continuing on a realistic path to achieving its defense goals." This information should permit the American taxpayers and the Congress to assess better if Japan's actual burden-sharing performance is matching its promises. Armed with such information, Congress would be in a stronger position to legislate any actions possibly needed to encourage Japan to carry a much fairer share of the common defense burden.

Mr. BYRD. Mr. President, I ask unanimous consent that I may reserve the balance of my time under the order.

The PRESIDING OFFICER. Without objection, it is so ordered.

SENATOR HAWKINS' SPECIAL ORDER

The PRESIDING OFFICER. Under the previous order, the Senator from Florida [Mrs. HAWKINS] is recognized for not to exceed 5 minutes.

The distinguished Senator from South Carolina is recognized to read Senator HAWKINS' statement.

Mr. THURMOND. Mr. President, on behalf of Senator HAWKINS, I wish to present the following statement.

MEXICO COULD PROFIT FROM EXAMPLE SET BY ALCOHOLICS ANONYMOUS

Mrs. HAWKINS. Mr. President, one would have hoped for a different reaction from the government of Mexico to recent charges of graft and corruption in coping with the Mexican drug traffic. The government took umbrage at statements made by various high-ranking officials of the U.S. at a Senate Foreign Relations Subcommittee hearing last week. The statements contended that there is "massive corruption" at all levels of the Mexican government and until this corruption is weeded out little headway can be made in trying to combat narcotics trafficking.

Mexico's reaction was swift and sharp. The Foreign Ministry issued a statement saying Mexico "categorically rejects the accusations and calumnies" directed against it. That statement said the Mexican Ambassador to the United States had been instructed to deliver a note to the State Department protesting the "libelous and interventionist" comments by American officials at the hearing and "demanding an explanation" for them. A spokesman for the Mexican Embassy in Washington described the hearing as "biased and partial" and characterized it as "meddling in Mexican internal affairs." I think we can understand why the Mexican government would not be ecstatic about accusations they are lax in investigating and prosecuting drug traffickers. But their reaction could have been less irate, more temperate. For instance, they could ask themselves, "Is there any substance to the charges?" And finding that there is, they could also ask themselves, "Are we going to take the bull by the horns and do something to clean up our act?"

We in the United States admit that we are a major factor in the international drug problem—that we are at the top of the heap among the drug consuming nations. But there is some virtue in knowing that and accepting that and in trying to do something about it. That is in sharp contrast to Mexico, which adopts an ostrich head-in-the-sand attitude, refuses to acknowledge it has a major problem and is unwilling to take the necessary steps to solve the problem. Mexico is seduced by its own guile or intoxicated by its own arrogance. Is it possible by some strange trick of alchemy that the whole country is reeling from the psychotropic effect of its own drugs? Is Mexican society so permeated by the corrosive effect of narco-dollars that it has lost its sense of decency and justice? Has it fallen hopelessly under the spell of drug traffickers? How near is Mexico to the point spelled out by Assistant Secretary of State Elliott Abrams? He said the influence of drug traffickers on the government of Mexico may become so strong "it is hard or impossible to root it out." He solemnly warned, "It may get to be too late." We put the question to Mexico, "Is it already too late? Are you too far gone? Are you beyond help? Is there some way that we can aid you?"

Mexico could take a page from the handbook of Alcoholics Anonymous. The AA rehabilitation program begins at the point where an individual stands up and admits to the world, "I am an alcoholic." Once that admission is forthcoming, the person is on the road to recovery. Is it too much to expect of Mexico to admit that it is a major drug producing and narcotics transit country, that its police and judicial systems are riddled with corruption and traffickers engage in terror and violence on people opposed to their detestable trade. And they do so with impunity. They need not fear for consequences.

Let's face certain facts. Mexico is the top supplier of marijuana and heroin to the United States. It is a pipeline for one-third of the cocaine entering this country. We consume that hideous stuff, true. It's up to us to do something about it. But it is up to Mexico to do something about their damnable exports to us. We ship them economic and material aid, they ship us degradation and human misery. Mexican drug traffickers beat and murdered an American DEA agent. Some of those suspected of killing Enrique Camarena are in jail awaiting trial. Other suspects remain at large, although reports indicate Mexican authorities know their whereabouts. One suspect is believed to have been the guest of governors of two Mexican states. Fifteen months have passed since Camarena died at the hands of his torturers. The dastardly deed against him cries for justice. Is there any justice left in Mexico or has that perished beneath the boots of the drug traffickers, ground under by their arrogance for normal rules of conduct and civility?

Mr. THURMOND. Mr. President, I am very pleased to deliver this statement on behalf of the able and distinguished Senator from Florida, Senator HAWKINS.

RECOGNITION OF SENATOR MATTINGLY

The PRESIDING OFFICER. Under the previous order, the Senator from Georgia [Mr. MATTINGLY] is recognized for not to exceed 5 minutes.

Mr. MATTINGLY. Thank you, Mr. President.

STABILITY IN THE TAX CODE

Mr. MATTINGLY. Mr. President, today I am introducing legislation designed to ensure stability in the Tax Code for individual American taxpayers, and for everyone in the private sector. This sense-of-the-Senate resolution calls for no changes in the soon-to-be-introduced Tax Code for a minimum of 5 years after the tax reform bill is signed into law.

Tax reform legislation should foster economic growth, encourage investment, create new jobs, and promote savings. And it should encourage the free enterprise system in our country. One of the main barriers to this important stability has been the constant and often conflicting changes made in the tax laws by Congress.

During this coming long debate on tax reform, and also the long debate preceding it on whether or not to have tax reform in America, one of the most common complaints I heard from taxpayers is the "uncertainty" which has resulted from continuous congressional changes in the Tax Code. These constant changes literally halt important planning and investment decisions by individuals and businesses. These changes stifle capital formation by increasing the risk of a project. They place unnecessary financial burdens on people and businesses by requiring the utilization of funds to anticipate what may happen in the future due to modifications of the Tax Code. These frequent changes place great and unnecessary burdens on small businesses by adding to the already staggering paperwork load. And the lack of stability created by all these changes confuses even the most efficient entrepreneurs in our land.

When the American people are forced to make investment, consump-

tion, and savings decisions in a constantly changing tax environment, economic growth is severely hampered.

A reduction in tax rates, a broading of the tax base, the removal of millions of our poorest citizens from the tax rolls, and the closing of various loopholes are all necessary and important parts of tax reform. But in my view, Mr. President, just as important to tax reform, and just as integral a part of tax reform, is stability—providing an atmosphere in which economic decisions can be made without fear of change in the Tax Code.

□ 1220

In other words, the Congress should stop tinkering with the Tax Code. In my opinion, the only way to give tax reform legislation a chance to succeed in its goal of providing a tax system that is fair, simple, equitable, and growth-oriented is to allow its provisions to remain unaltered for at least 5 years.

Once this latest tax reform legislation is signed into law, the Tax Code should be left alone. Congress must get out of the tax tinkering business. The resolution that I am submitting today will pledge our resolve to achieve that goal. I urge all my colleagues to join me in this effort.

Mr. President, I ask unanimous consent that the resolution be printed in the RECORD at this point.

There being no objection, the resolution was ordered to be printed in the RECORD, as follows:

S. RES. 409

Whereas previous, constant, and conflicting policy changes in the tax code by the Congress make it difficult for individuals to properly plan for their future;

Whereas such constant and conflicting policy changes by the Congress retard capital formation by increasing risk;

Whereas such constant and conflicting policy changes by the Congress place undue burdens on individuals and businesses by requiring the otherwise unnecessary utilization of financial resources in anticipation of such changes and modifications;

Whereas the Internal Revenue Service is drained of limited resources in trying to adapt to such changes in the tax code, and the ensuing problems are in turn transferred to taxpayers;

Whereas one of the greatest burdens placed upon small businesses is the paperwork required to comply with the tax code, and constant changes by Congress unnecessarily compound this paperwork burden;

Whereas any tax reform legislation passed by the Congress should stimulate economic growth, encourage investment, promote capital formation, expand job opportunities, and encourage savings; and

Whereas the American taxpayer deserves certainty in the tax treatment of economic decisions: Now therefore, be it

Resolved, That it is the sense of the Senate that the tax reform legislation, when that bill is signed into law, remain unchanged for a minimum of five years, so as to provide stability for the American taxpayer and the private sector.

Mr. THURMOND. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll. The assistant legislative clerk proceeded to call the roll.

□ 1230

Mr. PROXMIRE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, is is so ordered.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER. Under the previous order, the Senator from Wisconsin [Mr. PROXMIRE] is recognized for not to exceed 5 minutes.

Mr. PROXMIRE. I thank the Chair.

"CHALLENGER" AND CHERNOBYL TELL US STAR WARS IS DOOMED

Mr. PROXMIRE. Mr. President, in the last few months we have been reminded of how fragile, how subject to tragic error, is our modern space and nuclear technology. A couple of months ago, we suffered the heartbreaking shuttle disaster. Seven gallant astronauts perished. Since then NASA has endured a series of blowup, blowout failures with other space vehicles. Then, more recently, the Soviet nuclear plant near Kiev went through a meltdown with the expulsion of radioactive pollution that endangered the life and health of Russians and residents of other European countries. We live with the eerie realization that such a nuclear utility disaster could occur whenever nuclear energy is generated.

The space and nuclear disasters should warn us of how utterly unrealistic it would be for this country to rely on a nuclear-space defense such as the strategic defense initiative or star wars. Star wars would have not one or two or three components any one of which could easily fail. It would have literally thousands of interdependent components. It would be coordinated by a gigantic computer directed system. What are the odds that somewhere, sometime, somehow, such a system that required timing to the millisecond with literally millions of separate calculations would go wrong? Answer: They are overwhelming.

Mr. President, if any one scientist could give an answer to this question it would be David Parnas. Dr. Parnas was so highly considered by the Defense Department as an expert on star wars computer technology that SDI paid him $1,000 a day as a consultant on star wars. Dr. Parnas has had a long and successful record in working with the Defense Department. Since Dr. Parnas is one of the outstanding world experts on the capacity of computers, he was a natural in assisting the administration to develop the computer system necessary for coordinating and directing the Stars War Program.

What did this renowned expert, who was paid $1,000 a day by the strategic defense agency, conclude about SDI's future? After a few months, Dr. Parnas recognized the impossibility of developing any kind of computer operation that could conceivably succeed in bringing together the infinitely complex nuclear and space technology of the strategic defense initiative. So what did Dr. Parnas do? Here was an expert paid the remarkable sum of $1,000 per day for giving advice in a specialty where he was world-renowned. Dr. Parnas decided that this kind of computer system was an impossibility, that it could not work. So he spoke out in a language of surpassing eloquence. He quit. He turned down his $1,000 a day job.

Why did Dr. Parnas say nix to a job for which he was so brilliantly qualified? Why did he walk out on a job that paid him so extraordinarily well? Why did this top computer expert say he would not take the taxpayer's money? Answer: Dr. Parnas said the strategic defense initiative would never work.

Mr. President, one of the achievements that makes Americans proud of our country is the remarkable number of our scientists who have won Nobel Prizes as the most eminent experts in the world. I have a list of some of these Nobel Prize winners who have announced their opposition to star wars. A number of these world-celebrated scientists who strongly oppose SDI or star wars have special expertise with respect to both space and nuclear weapons. Keep in mind that each of these experts has won the Nobel Prize for excellence in their field. For example, Hans Bethe, who made the principal contribution to the development of the hydrogen bomb; Philip Anderson of the physics department at Princeton; James W. Cronin of the Enrico Fermi Institute at the University of Chicago; Donald Glazer, professor of physics at the University of California at Berkeley; Tsung-Dao Lee of the department of physics, Columbia University; E.M. Purcell, Lyman Laboratory of Physics at Harvard University; James Rainwater, professor of physics at Columbia University; Steve Weinberg, department of physics at the University of Texas; and Kenneth Wilson of the Laboratory of Nuclear Studies at Cornell University.

Mr. President, there is no Member of Congress who can begin to have the understanding of the technological problems involved in space-based defense against nuclear weapons of the kind these scientists have. Again and

again, these experts tell us that SDI cannot work. It will not protect the American people against nuclear attack. They contend that it will, in fact, increase the risk of nuclear war. They argue that it will stimulate a dangerous competition in offensive nuclear arms. They call for superpower negotiations to achieve arms control agreements as the far better alternative.

Finally, Mr. President, here we have the most complex technology that mankind has ever attempted to achieve. We have just been heartbreakingly reminded of the fallibility of far simpler nuclear and space technology. The *Challenger* disaster and the Chernobyl meltdown are still vivid in our minds. Some experts tell us that SDI will cost the taxpayers of this country a trillion dollars or more. We know we can never test it under anything approaching realistic conditions. Does anyone really believe that star wars can work and work perfectly the first time it is ever challenged? This is what it will have to do. Here is one Senator who will tell you the answer is: "No way."

Mr. President, I ask unanimous consent that a list of the Nobel Prize-winning American scientists who oppose the star wars operations be printed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

Philip W. Anderson, Physics Department, Princeton University; Nobel Laureate.

C.B. Anfinsen, Department of Biology, Johns Hopkins University; Nobel Laureate.

Kenneth J. Arrow, Joan Kenney Professor of Economics, Stanford University; Nobel Laureate.

Julius Axelrod, National Institute of Mental Health; Nobel Laureate.

Robert F. Bacher, Professor of Physics Emeritus, California Institute of Technology; formerly, Head, Experimental Physics Division, Los Alamos Laboratory.

Kenneth T. Bainbridge, G.V. Leverett Professor of Physics, Emeritus, Harvard University.

David Baltimore, Director, Whitehead Institute for Biomedical Research; Nobel Laureate.

John Bardeen, Department of Physics, University of Illinois; Nobel Laureate.

Gordon A. Baym, Department of Physics, University of Illinois.

Baruj Benacerraf, Department of Pathology, Harvard Medical School; Nobel Laureate.

Paul Berg, Wilson Professor of Biochemistry, Stanford University School of Medicine; Nobel Laureate.

Hans A. Bethe, Newman Laboratory for Nuclear Studies, Cornell University; Nobel Laureate.

Konad E. Bloch, Department of Chemistry, Harvard University; Nobel Laureate.

Norris Edwin Bradbury, formerly, Director, Los Alamos Science Laboratory; winner, Enrico Fermi Award.

E. Margaret Burbidge, Director, Center for Astrophysics and Space Sciences, University of California at San Diego.

Joseph W. Chamberlain, Department of Space Physics and Astronomy, Rice University.

Owen Chamberlain, Lawrence Berkeley Laboratory, University of California at Berkeley; Nobel Laureate.

Subrahmanyan Chandrasekhar, Laboratory for Astrophysics and Space Research; Nobel Laureate.

Mildred Cohn, Benjamin Rush Professor of Physiological Chemistry, University of Pennsylvania.

Peter S. Conti, Chairman and Professor, Astrophysics, Planetary & Atmospheric Sciences, University of Colorado.

A.M. Cormack, Department of Physics, Tufts University; Nobel Laureate.

Emest D. Courant, Senior Physicist, Brookhaven National Laboratory.

Andre Cournand, Columbia University College of Physicians; Nobel Laureate.

Albert V. Crewe, Physical Sciences Division, Enrico Fermi Institute, University of Chicago.

James W. Cronin, Enrico Fermi Institute, University of Chicago; Nobel Laureate.

Margaret B. Davis, Professor of Ecology, University of Minnesota.

Frank D. Drake, Dean of Natural Sciences, University of California at Santa Cruz.

Sidney D. Drell, Stanford Linear Accelerator Center, Stanford University.

Lee Alvin DuBridge, President Emeritus, California Institute of Technology; formerly, Presidential Science Advisor.

George A. Dulk, Professor, Astrophysical, Planetary, & Atmospheric Sciences, University of Colorado.

Walter M. Elsasser, Department of Earth and Planetary Sciences, Johns Hopkins University.

John F. Enders, University Professor of Bacteriology and Immunology Emeritus, Harvard Medical School; Nobel Laureate.

Katherine Esau, Professor of Botany Emeritus, University of California at Santa Barbara.

Bernard T. Feld, Professor of Physics, Massachusetts Institute of Technology.

Herman Feshbach, Department of Physics, Massachusetts Institute of Technology.

Val L. Fitch, Joseph Henry Laboratories, Princeton University; Nobel Laureate.

Marshall Fixman, Departments of Chemistry and Physics, Colorado State University.

Paul Flory, Professor of Chemistry, Stanford University; Nobel Laureate.

William A. Fowler, Institute Professor of Physics Emeritus, W.K. Kellogg Radiation Laboratory, California Institute of Technology; Nobel Laureate.

Hans Frauenfelder, Department of Physics, University of Illinois.

Jerome I. Friedman, Chairman and Professor, Department of Physics, Massachusetts Institute of Technology.

Charlotte Friend, Center for Experimental Cell Biology, City University of New York.

D. Carleton Gajdusek, National Institutes of Health; Nobel Laureate.

Richard L. Garwin, IBM Fellow and Science Advisor to Director of Research, T.J. Watson Research Center, IBM Corporation.

Donald A. Glaser, Professor of Physics and Molecular Biology, University of California at Berkeley; Nobel Laureate.

Sheldon Lee Glashow, Professor of Physics, Lyman Laboratory, Harvard University; Nobel Laureate.

Thomas Gold, Professor, Center for Radiophysics and Space Research, Cornell University.

Leo Goldberg, Kitt Peak National Observatory.

Gertrude S. Goldhaber, Department of Physics, Brookhaven National Laboratory.

Maurice Goldhaber, AUI Distinguished Scientist, Department of Physics, Brookhaven National Laboratory.

Leo A. Goodman, C.L. Hutchinson Distinguished Service Professor, Department of Statistics, University of Chicago.

George W. Greenlees, Professor of Physics, University of Minnesota.

Evelyn M. Witkin, Barbara McClintock Professor of Genetics, Waksman Institute of Microbiology, Rutgers University.

This list includes few of the better-known signatories to the Appeal. The full list includes fifty-four Nobel Laureates, a majority of the National Academy of Sciences, and many other members of the scientific community.

MYTH OF THE DAY: THE NUMBER OF CHILDREN BORN TO TEENAGERS IS RISING

Mr. PROXMIRE. Mr. President, the myth of the day is that the number of children born to teenagers is growing by leaps and bounds.

While there is no question that teenage pregnancy is a serious problem and raises serious challenges for Federal, State, and local public policy—not to mention the serious risks it presents for the young mother—it is important to realize that births to teenagers represent a declining proportion of all births in this country.

That's right, a declining proportion. And that drop holds true even when you take into account the fact that there are fewer teenagers today than just a few years ago.

Here is a chart that shows that the percentage of babies born to teenagers dropped from 19 percent to 14 percent over the 7 years from 1975 to 1982. Meanwhile, the percentage born to mothers over 30 had increased from 17 percent up to 22 percent.

As you can see, Mr. President, all births to teenagers dropped consistently and dramatically since 1975. In that year, teenage mothers accounted for 19 percent in 1975. Today, teenagers account for fewer than 14 percent of all births.

By contrast, the percentage of births for women over 30 has risen just as consistently and significantly. In 1975, women over 30 accounted for fewer than 17 percent of all births. By 1978 the two curves—teenage mothers and mothers over 30—crossed and mothers over 30 now account for over 22 percent of all births in this country.

Mr. President, there is no question that teenage pregnancy remains an important issue for Federal, State, and local policymakers and I am not attempting to minimize it in the least. But we must keep the problem in its proper perspective and there has indeed been progress in reducing births to teenagers.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will be a period for the transaction of routine morning business not to extend beyond the hour of 1 p.m., with statements therein limited to 5 minutes each.

HEALTH RESEARCH FUNDS

Mr. ANDREWS. Mr. President, This past month, both the Senate and House of Representatives passed their own versions of the fiscal year 1987 budget resolution. Passage by both Chambers is only the first step in enacting a 1987 budget. As a member of both the Senate Appropriations and Budget Committees, I am involved in every step of this process.

It is through the Appropriations Committee, and in particular, my membership on the Labor, Health, Human Services, and Education Subcommittee, that I often learn of the numerous accomplishments continually occurring in biomedical research. I

have had the privilege of sitting on this subcommittee with its most distinguished chairman, the senior Senator from Connecticut, LOWELL P. WEICKER.

Senator WEICKER's tireless efforts as chairman of the subcommittee have enabled millions to pursue higher education and countless others to reap the benefits that emerge daily from countless laboratories and hospitals across our Nation.

Through the leadership of Senator WEICKER, the Senate passed a budget resolution that will allow the National Insititutes of Health, our major arm for biomedical research, to continue making further breakthroughs in such dreaded diseases as AIDS, cancer, heart disease, alzheimers, cystic fibrosis, and countless others.

Two weeks ago, Senator WEICKER spoke before a special academic convocation of the Albert Einstein College of Medicine. His remarks eloquently illustrate both the necessity and urgency for increasing health research funds. I strongly urge my colleagues to read both our distinguished colleague's address and to remember his remarks the next time our Nation's health care budget is debated on the Senate floor.

There being no objection, the speech was ordered to be printed in the RECORD, as follows:

REMARKS OF SENATOR LOWELL WEICKER, JR., BEFORE A SPECIAL ACADEMIC CONVOCATION OF ALBERT EINSTEIN COLLEGE OF MEDICINE

First, let me congratulate Dr. Peter Davies and his colleagues for their recent research breakthrough relative to diagnosing Alzheimer's disease. As a layman, I've often wondered what it must be like that moment in the laboratory when a piece of the puzzle fits for a change. I wonder if you can hear in your mind's ear the expressions of hope that your work brings to the lips of millions of people—starting in this instance with the nearly two million Americans who suffer with Alzheimer's.

Believe me, they are out there and they and their families, their friends, indeed, the people of the world—cheer the reports of your work.

I wish I had those kinds of days at the office. By reputation, our two kinds of work are very different. For your profession, there is, for example, the words of Hippocrates, who said, "Wherever the art of medicine is loved, there also is love of humanity."

For my profession, there are unfortunately, too often words like those of Will Rogers, who said, "The country has come to feel the same when Congress is in session as when the baby gets hold of a hammer."

But in fact, in the United States, the worlds of politics and health have never existed apart. A nation that expected of its political leaders preeminence in defending the rights of man expected no less when it came to overcoming human illness with the fruits of science. The scourge of deadly disease in this nation did not so much afflict our people as stir a giant of purpose within them. It was this marriage of interests that built the greatest engine of scientific accomplishment the world has ever known, the United States, acting largely through the National Institutes of Health. And with this partnership of government and science, the nation faced polio, measles, rubella, diptheria, scarlet fever and more. Each in turn was silenced.

The historian Will Durant has said, "The health of nations is more important than the wealth of nations." He was saying no more than is said a hundred times a day in personal conversations. "If you've got your health, you've got everything." But what is said personnally is not being contemporaneously stated as national policy.

The statistics of medicine and budgets belie the importance each of us puts on health.

Each year, 855,000 Americans are diagnosed as having cancer and about half will die from the disease.

100,000 Americans will die this year as a result of allergic and infectious diseases.

Thousands of infants die each year in this country as a result of Respiratory Distress Syndrome.

300 million people worldwide are afflicted with Malaria and each year one million will die of the disease.

15 million Americans suffer from chronic lung disease.

60 million Americans suffer from heart disease.

3.5 million Americans are disabled by stroke or other injuries to the nervous system.

In the budget, the nation's domestic needs, led by health care, have lost badly in the past five years. A chart of federal spending includes the categories of defense, interest on the national debt, entitlement programs and non-defense discretionary programs. A 1980 version of that chart would show that this latter category received 25 percent of the budget. The 1985 share for that category was 17 percent.

Since one percent of the budget is approximately nine billion dollars, this eight percent decline means the federal share for these programs has dropped some 72 billion dollars below the distribution levels of 1980. More federal dollars are spent on the defense research and development budget in 15 months than the total spent on biomedical research since the establishment of the NIH in 1937.

Again this year as in every year, the Appropriations Subcommittee on Health and Human Services heard from dozens of health professionals and private citizens urging a renewed federal commitment to health research and medical services.

The dry statistics of disease and dollars came to us in the moving voices of those for whom a partnership with federal health research is not luxury, but life.

We learn of research into brittle bone disease from twelve-year-old Congie, whose bones can shatter without warning, without movement, at any time.

Dystrophic epidermolysis bullosa comes to us in the person of six-year-old Ray, who was born with no skin on his face and suffers with the pain of skin grafts and the constant fear of contracting an infection.

A doctor and father whose child suffers from Batten's disease tells us of this deadly neurological disorder which is probably the most common type of neurogenetic storage disease in children. It usually manifests itself in previously normal children between the ages of four and eight and may leave children totally disabled, perhaps dead in their late teens or twenties.

Those of us who sit there day after day sometimes feel the stories should be enough to spark a tireless search for cures. There is the individual agony of 1.8 million Alzheimer's victims, gradually robbed of their memory, their ability to function, and finally, their lives. There are the newborn who will never testify to anything other than being part of an inexcusable statistic that ranks this most prosperous of nations seventeenth in infant mortality worldwide.

Year after year in the appropriations process of the federal government, we fill the well of compassion with stories of hurting and dying. And we assume by the depth of this well that it can satisfy what surely must be a hardened political establishment that continually fails to properly fund health research efforts.

We sit in our living rooms night after night tuned into the separate profiles in courage of the diseased and their families. In the last month alone, the programs have included one about Father Damien, who worked with the lepers of Molokai, one about Alex Deford, who lost her battle with cystic fibrosis and a drama concerning a young man's battle with AIDS.

Each night before these programs aired as entertainment, the nightly news, brought us disaster of a different sort. A nuclear accident in the Soviet Union, actions and reactions to terrorism, the loss of a space shuttle.

And toward the end of each item of news, there follows a vow from political leaders and others involved that the tragedy will be treated with a renewed resolve, a redoubling of effort. The legacy of disaster in this nation is almost always a commitment to overcoming rather than walking away from the problem.

But disease is somehow successfully portrayed as nothing more than individual dramas of persistence. Mark Twain said we can easily learn to endure adversity as long as it is another man's. And if that other man, or woman, or child is faced with Cystic Fibrosis, Arthritis, Alzheimer's disease, Leukemia, AIDS or Juvenile Diabetes, the average American feels he can offer little more than sympathy.

I am here to suggest that the time for quiet sympathy in this partnership of medicine and government is over. The progress in scientific accomplishment that we have marveled at for 30 years in this nation must now be matched by progress in public policy. For so long, we have fueled the engine of scientific progress on compassion alone. And so when it came time to pay for the deficit, compassion was sacrificed to pay the bill. When it came time to pay for national defense, again we drew from this well of compassion to pick up the check.

Now the well is nearly dry. The fact that we hold a consensus to fund emergency research into AIDS, can't mask the fact that we are in danger of losing the political consensus upon which progress in health research depends. And this danger comes from the failure of the health and science community to understand the rough and tumble yet very telling world of dollars and cents, where the support of the American people is won by those who have the guts to make their case.

Approximately 38 billion dollars a year is spent on the direct care of Alzheimer's patients and the indirect costs to the family in lost workdays. Yet only 50 million dollars is spent on research into the disease. We know the incidence of Alzheimer's increases with age and so we know with certainty that the cost to society can only increase without adequate research. Thirty percent of people in their 80's have the disease. Between now

and the years 2000, the size of the population group aged 55 and older is expected to increase by 19 percent; those 65 and over will increase 27 percent; and the number 75 and older will increase by over 50 percent. It is projected that by the next century nine million people will be victims of Alzheimer's disease. In the face of this certainty, what is our response as a nation? A continued push to reduce support of the National Institute of Aging, the lack of any sort of support for training of health professionals in the field of geriatrics, and the elimination of clinical trials.

Forty thousand low-weight babies are born in the U.S. each year. Fifty percent of these cases could be prevented by additional research and proper prenatal care. This would cost us 26 million dollars a year. Without it, each year, we are spending 2.4 billion dollars. In fact, the key federal efforts designed to stop these deaths has actually declined by five percent since 1983.

Since 1982 vaccine prices have risen by a whopping 500 percent, but appropriations for the nation's childhood immunization program have not kept pace. As a result, the number of children to whom we can provide vaccines has dropped by two thirds. Currently less than half of all black preschool children are immunized against the scourages of our history books like diptheria, pertussis, tetanus and polio.

Under the president's budget, the National Institutes of Health budget stood 400 million dollars below the fiscal year 1986 level.

A cut of this magnitude meant 48 of 57 approved clinical trials would not be funded. These trials are the final test of the promising research investments made years ago. Now, there is a very real possibility the NIH will not be able to prove out new vaccines and new treatments for multiple sclerosis and Parkinson's disease, or glaucoma, for controlling epileptic seizures, for enhancing bone marrow transplants.

Bad enough we refuse to fund old knowledge that works as in the case of childhood immunization. But to close the door on imminent scientific discovery as in the case of clinical trials is know-nothing budgeteering at its worst.

There's no point in shaking a fist at someone else. The decline in public support is not the fault of the president or the far right or the Pentagon or any combination of other people. It's us. The budget is the most unerring, unemotional reflection of us as can be found in the entire democratic process.

Remember in the 1960s, during the struggle for civil rights in this nation how many of us in the Northeast said that civil rights legislation in Congress was being blocked by a few filibustering southern senators. Well, history has taught us it had very little to do with a few southern senators. The prejudice of the South was the prejudice of the East, West and North. And when the conscience of the nation was pricked by Dr. King, civil rights legislation rolled through the United States Senate and no combination of forces could stop it. When the nation wanted civil rights it got civil rights.

So it will be when the life of each American is as important as the death of a speculative enemy; when the enhancement of life joins survival in the definition of national security. Then, education and science will roll through the Congress.

Make no mistake. What we want, we will have to pay for. We can't fill that well of compassion with the leavings of high military spending and low taxes. What I'm talking about is a fight; a battle that appeals both to the common humanity of Americans and their common sense.

No group is as well equipped to lead this fight as the men and women of medical science. You have the vision and optimism that brought you to this place of learning in the first instance. You have a piece of paper that attests to your skills.

Now, when it comes to the priorities of this nation, what is needed is your anger not your academics, your activism not your antipathy. Better than any, you in this room know the coinage of suffering that will be required as substitute for the lack of dollars spent on medical research.

You owe as much of a no to that as to all the forms of death and disease you'll confront in a lifetime.

A moment ago, I spoke of the television drama concerning the life of Alex Deford. Frank Deford, the writer, spoke to my subcommittee about the dramatic breakthroughs in molecular genetics in developing treatment for Cystic Fibrosis. A systematic approach is now possible for the gene that causes CF, the most common fatal genetic disease in the United States.

The breakthrough came too late for Alexandra Deford, who died of the disease in her father's arms on a Saturday afternoon in January of 1980 at the age of eight. Frank Deford's message to us is a message we should repeat and repeat again to the American people.

"Our time is now," he said. "As much as I wanted to say those words when my child was alive, I honestly couldn't. Now I can. Our time is now."

Thank you.

Mr. PROXMIRE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1400

Mr. GORTON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. STEVENS). Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Is there further morning business? If there is not further morning business, morning business is closed.

FEDERAL FIRE PREVENTION AND CONTROL ACT AUTHORIZATION

The PRESIDING OFFICER. The Senate will now resume consideration of S. 2180, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 2180) to authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974.

The Senate resumed consideration of the bill.

Mr. GORTON. Mr. President, at the time at which this bill was last under consideration on Thursday, there was a considerable colloquy involving myself and the distinguished Senator from Kentucky, among others, on the possibility of a second-degree amendment on the subject of scrambling of television signals as an amendment to one which I am about to propose extending the opening date of daylight saving time to the first Monday in April. There has been considerable discussion on that subject since that point. I am now prepared to offer the daylight saving time amendment and I wonder whether the Senator from Kentucky has any requests he would like to make before that amendment is offered.

Mr. FORD. Mr. President, the distinguished Senator from Washington is absolutely right. Last Thursday, when we adjourned, we were in a lengthy discussion as it related to an amendment in the second degree as it related to the scrambling of television signals. At that time, we were asking for a hearing, otherwise we were insistent on submitting our amendment in the second degree. There has been a great deal of work done by the distinguished Senator from Washington and others over the weekend.

It is now my understanding that the chairman of the Commerce, Science, and Transportation Committee, Senator DANFORTH, and Senator GORTON now are willing to offer a time certain as it relates to a hearing on this particular question and I am amenable to that. If the distinguished Senator from Washington will put into the RECORD the time or the week, I believe it is the week of July 14, in which a hearing on scrambling will be held, I would be perfectly willing then to withhold my amendment as it relates to the scrambling in the second degree to his daylight saving time amendment.

Mr. GORTON. Mr. President, the Senator from Kentucky is correct about those discussions and negotiations. I should add, however, that the chairman of the Subcommittee on Communications is the distinguished Senator from Arizona [Mr. GOLDWATER]. Senator GOLDWATER has graciously acceded to our request that the subcommittee hold a hearing on the subject of the scrambling of television signals on the 15th, 16th, or 17th of July and that this Senator from Washington, who is a member of that subcommittee, will in fact chair that meeting. Assuming that that undertaking, that such a hearing would be held on one of those three dates, is approved by the Senator from Kentucky, we will simply go forward and debate the subject of daylight saving time.

□ 1410

Mr. FORD. Mr. President, that it is perfectly agreeable with me that the

hearings be held either the 15th, 16th, or 17th of July.

Upon the assurance of the Senator from Washington, I have no further interest in introducing the amendment as it relates to scrambling.

AMENDMENT NO. 1967

(Purpose: To add provisions regarding daylight saving time)

Mr. GORTON. Mr. President, I have sent an amendment to the desk, and I ask it be considered immediately.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Washington [Mr. GORTON] proposes an amendment numbered 1967.

Mr. GORTON. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following:

SEC. 2. (a) The Congress finds—

(1) that various studies of governmental and nongovernmental agencies indicate that daylight saving time over an expanded period would produce a significant energy savings in electrical power consumption;

(2) that daylight saving time may yield energy savings in other areas besides electrical power consumption;

(3) that daylight saving time over an expanded period could serve as an incentive for further energy conservation by individuals, companies, and the various governmental entities at all levels of government, and that such energy conservation efforts could lead to greatly expanded energy savings; and

(4) that the use of daylight saving time over an expanded period could have other beneficial effects on the public interest, including the reduction of crime, improved traffic safety, more daylight outdoor playtime for the children and youth of our Nation, greater utilization of parks and recreation areas, expanded economic opportunity through extension of daylight hours to peak shopping hours and through extension of domestic office hours to periods of greater overlap with the European Economic Community.

(b) Section 3(a) of the Uniform Time Act of 1966 (15 U.S.C. 260a(a)) is amended by striking "last Sunday of April" and inserting in lieu thereof "first Sunday of April".

(c) Any law in effect on the date of the enactment of this Act—

(1) adopted pursuant to section 3(a)(2) of the Uniform Time Act of 1966 by a State with parts thereof in more than one time zone, or

(2) adopted pursuant to section 3(a)(1) of such Act by a State that lies entirely within one time zone,

shall be held and considered to remain in effect as the exercise by that State of the exemption permitted by such Act unless that State, by law, provides that such exemption shall not apply.

(d)(1) Notwithstanding any other law or any regulation issued under any such law, the Federal Communications Commission shall, consistent with any existing treaty or other agreement, make such adjustment by general rules, or by interim action pending such general rules, with respect to hours of operation of daytime standard amplitude modulation broadcast stations, as may be consistent with the public interest, including the public's interest in receiving interference-free service.

(2) Such general rules, or interim action, may include variances with respect to operating power and other technical operating characteristics.

(3) Subsequent to the adoption of such general rules, they may be varied with respect to particular stations and areas because of the exigencies in each case.

(e) This section shall take effect 60 days after the date of enactment of this Act, except that if such effective date occurs in any calendar year after March 1, this section shall take effect on the first day of the following calendar year.

Mr. GORTON. Mr. President, the purpose of this amendment is to extend the annual observance of daylight savings time.

Under current law, daylight saving time begins each year on the last Sunday of April and ends on the last Sunday of October. My amendment would change the starting date to the first Sunday of April. This represents a 3-week extension, or 4 weeks in years when April has five Sundays.

The purpose of daylight saving time is to make the hours of daylight coincide with the hours of the day in which people are awake and active. Under daylight saving time, sunrise and sunset each occur an hour later than under standard time. I am proposing to begin daylight saving time in early April because, under current law, April has the earliest sunrises of the year, and I believe that most Americans would rather have an hour of daylight in the early evening than in the early morning.

Mr. President, sunrises in April under standard time in Washington, DC, ranged from 5:17 to 5:53 a.m.; most of us slept through the early hours of daylight. Sunsets under standard time in April ranged from 6:31 to 6:55 p.m.; many of us commuted home in darkness. If this amendment is adopted, daylight saving time would have begun on April 6 and the hours of daylight in April would have corresponded much more closely with our lifestyles than under standard time. Sunrises and sunsets in April under daylight saving time would be equivalent to those in early August through mid-September, and even the opponents of my amendment support daylight saving time during the period of the year.

We do not have to imagine the effects of extended daylight saving time, because the Congress did extend daylight saving time temporarily during the energy crisis of the 1970's. The Department of Transportation estimates that energy savings equivalent to 100,000 barrels of oil per day resulted from extended daylight saving time, and studies have shown that the transfer of an hour of daylight to the end of the day enhanced traffic safety and reduced violent crime. The Department supports a 2-month extension of daylight saving time.

Many industries also stand to benefit from extended daylight saving time, including nurserymen, convenience stores, the barbecue industry, the travel and tourism industry, and sporting goods manufacturers. Extended daylight saving time would increase revenues and employment in these industries, and would generate significant tax revenues at no cost to the Federal Government.

The House of Representatives has passed a bill, H.R. 2095, which would begin daylight saving time on the first Sunday of April, as my amendment proposes, and would also extend daylight saving time 1 week into November. I have not included the November extension in my amendment because I am sensitive to the concerns of the opponents of this amendment that daylight saving time in November would create sunrises sufficiently late to be detrimental to many Americans. I do not believe that these concerns apply to April, which, as I mentioned, has the earliest sunrises of the year under the present system.

Mr. President, I believe that this amendment balances the interests and concerns on both sides of this issue and I urge my colleagues to support the amendment.

I should also like to say, Mr. President, that the distinguished Senator from Maine, Mr. MITCHELL, is a cosponsor and has been a prime sponsor of the bills on this subject during all of the Congresses during which I have served, and is very strongly supportive of the amendment—support which I appreciate.

DAYLIGHT SAVING TIME

Mr. DANFORTH. Mr. President, I support the amendment proposed by the Senator from Washington [Senator GORTON], and my colleagues from Maine [Mr. MITCHELL and Mr. COHEN], California [Mr. WILSON and Mr. CRANSTON], Rhode Island [Mr. PELL and Mr. CHAFEE], Hawaii [Mr. MATSUNAGA], and Minnesota [Mr. BOSCHWITZ].

The Congress has a difficult task in trying to determine the optimal period for daylight saving time because many regions and individuals are affected differently by daylight saving time. Indeed, many people have urged us to adopt year-round daylight saving time while many others would prefer no daylight saving time at all.

The principal concern which underlies opposition to this amendment is that daylight saving causes sunrises to be an hour later than under standard time. Many Senators are concerned that these later sunrises will endanger rural schoolchildren on the roads in early morning darkness and will cause

farmers, who work by the Sun, to lose an hour of early morning daylight in which to perform chores.

I share these concerns for schoolchildren and farmers. I have not supported previous proposals to extend daylight saving time because late sunrises would be detrimental to the interests of Missouri. However, this amendment would not result in sunrises later than at many other times of the year. As Senator GORTON has pointed out, the amendment applies to a period in April which has the earliest sunrises of the year. I endorse this amendment as a compromise, which does not create sunrises as late as those in many months of both daylight and standard time, and which does provide the advantages of an extra hour of daylight in the April evenings.

Mr. President, I would like to discuss the origins of the objections to this amendment. Many of the objections stem from our experience with extended daylight saving time in the 1970's, when, in order to conserve energy, the Congress called for yearround observance of daylight saving time. This law created problems in the winter months, when the sunrises are already late under standard time. Many of us associate today's proposal with observance of daylight saving time in the winter. In reality, there is no comparison. In my hometown of St. Louis, sunrise under daylight saving time on January 15 would occur, and did in 1974, at 8:17 a.m. Clearly, this created problems for schoolchildren, farmers, and many Missourians. Sunrise on April 15 under this amendment, however, would occur at 6:25 a.m.

I hope that my colleagues will remember, when they hear arguments about the detriments of daylight saving time, that many of the criticisms are aimed at January, while the amendment is aimed at April.

Another common reason for opposing extended daylight saving time is the thought that we should not tamper with time. We hear objections to changing natural time, or "God's time", as it is often called. I am certain that my colleagues understand that the calculation of time itself is not natural but man-made, and that the Uniform Time Act of 1966, which created our current 6-month daylight saving time period, was certainly not an act of God. The natural elements are the sunrise and sunset, which I can assure my colleagues will not be changed by this amendment.

Mr. President, the potential benefits of and public support for this proposal are clear. Extended daylight saving time would save energy, enhance traffic safety, reduce violent crime, and create substantial business for many industries. The general public supports extended daylight saving time by a margin greater than 2 to 1, and the administration supports a 2-month extension of daylight saving time. I will not dwell upon these points because I do not believe that they are disputed by opponents of the amendment.

Instead, I would like to discuss the concerns of farmers. The American Farm Bureau Federation believes that daylight saving time should be observed only from Memorial Day to Labor Day—a period of just more than 3 months. I would like to point out that most sunrises in April under daylight saving time would be as early as sunrises during this 3-month period. Sunrise on April 26, which was this year's earliest sunrise, would be the same as sunrise on August 10 under daylight saving time. Therefore, this amendment will not adversely affect farmers.

I urge my colleagues who are skeptical about extending daylight saving time, as I was, to examine the effects of daylight saving time in April, as I have. I believe that you will find no reason to oppose this amendment, and every reason to support it.

Mr. MITCHELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Maine.

Mr. MITCHELL. Mr. President, I am pleased to join Senator GORTON in cosponsoring this amendment to extend daylight saving time in a manner that will offer numerous benefits to the Nation.

It represents a safe, straightforward, positive way of increased energy savings, decreased traffic fatalities, reduced violent crime, enhance the lives of persons who suffer from night blindness, and add to the hours that Americans can spend outdoors. Few proposals submitted to the Senate offer such clearcut gains and enjoy such broad support as this measure.

I want to emphasize what Senator GORTON has said—that this amendment represents a compromise. Other daylight saving time extension bills have sought to expand the Nation's observance of daylight saving time by as much as 8 weeks. On October 22 of last year, the House of Representatives passed H.R. 2095 to extend it by 4 weeks. I am an original cosponsor of S. 1433 which was identical to the House bill. However, in the interest of compromise this amendment proposes an extension of 3 weeks.

The original bill would have extended daylight saving time by 4 weeks beginning its observance the first Sunday in April rather than the last Sunday in April as it is under current law, and ending it on the first Sunday in November rather than the last Sunday in October, as is the case under current law.

This compromise amendment drops off the week-long extension from the last Sunday in October to the first Sunday in November. That fall extension was intended to promote child safety through an additional hour of daylight in the early evening on Halloween. However, October also is a month when sunrise comes later each morning, and we are willing to accommodate that concern by this compromise.

We have ensured that sunrise times under the extended system of daylight saving time will occur no later than sunrise times presently occurring in the fall under the current system.

Sunrises in April will occur no later than sunrises which we already experience in the fall each year under the existing system.

Daylight saving time was first used in World Wars I and II as a way to conserve energy. The Uniform Time Act of 1966 formally implemented national daylight saving time in its present 6-month period. As a response to the 1973 oil crisis, Congress enacted the Emergency Daylight Saving Time Energy Conservation Act extending it to 10 months in 1974, and 8 months in 1975.

Daylight saving time is intimately tied to the United States desire for energy conservation and energy independence. Indeed, it is an idea with roots in the era of America's Declaration of Independence.

One of the first proponents of daylight saving time was Benjamin Franklin, who awoke one morning in Paris in 1784 to a room filed with sunlight. He realized that many Parisians spent sunlit hours sleeping, and later burned candles while awake at night. Franklin later wrote:

> It is impossible that a wise people would have made use of unhealthy and expensive candlelight if they had known as I have just learned that they can have for nothing the beautiful and pure light of the sun.

Franklin proposed to encourage, although fortunately not seriously, the use of sunlight rather than candles through a tax on window shutters, the rationing of candles, and the firing of cannons in the streets at sunrise to awake citizens and make them open their eyes to their true interests. Nonetheless, the essence of Franklin's idea remains true today. Over 200 years later, it is no longer simply candlelight which is wasted.

In 1975 the Department of Transportation study on the impact of the 1974 daylight saving time extension estimated that the equivalent of 100,000 barrels of oil was saved each day. Under the compromise amendment, more than 2 million barrels of oil could be saved each year.

The U.S. energy situation has changed since 1975. Fuel prices are the primary factor in controlling fuel use, and the price of oil has dramatically fallen in recent months. But we live in an uncertain world. Iran and Iraq are

at war along the Persian Gulf. American bombs have fallen on Tripoli and Benghazi in Libya. Tensions and terrorism still flare in the Middle East, and lines of commerce are always fragile.

The need for energy conservation—and vigilance—is undiminished. DST is one small means of conservation, with large benefits, and at absolutely no financial cost to the Federal Government or the American consumer.

As Benjamin Franklin advised, we must open our eyes to our true interests.

The argument for an extension of daylight saving time becomes even more compelling when one considers benefits of increased traffic safety and violent crime reductions.

The 1975 Department of Transportation study showed a 0.7-percent reduction in traffic fatalities in March and April 1974, under extended daylight saving time, compared to comparable months that same year under standard time. This estimate was, I understand, a conservative calculation, and Department analysts believed the actual reduction to be more on the order of between 1.5 and 2 percent.

Second, according to the National Crime Survey of the Departments of Justice and Commerce, the most serious forms of crime occur in the evening or at night, rather than the early morning hours. Criminals prefer to operate under cover of darkness. Increased daylight in the critical hours when many Americans are coming home from work can act as an important deterrent to crime.

I am aware of fears that expanded daylight saving time would increase early-morning traffic accidents, especially involving school children, and inconvenience our Nation's farmers. Maine is a rural State, where many earn their living by agriculture, and the majority of school children are bused to school. I am therefore extremely sensitive to these concerns. However, after close study of these arguments, I believe they are without foundation.

There is little proof that a month's extension of daylight saving time adversely affects American agriculture. The 1975 Department of Transportation study stated flatly:

> DST does not affect agricultural activities or production. In general, agricultural activities are insensitive to "clock time," and farmers and ranchers (as well as most other groups in agriculture) are not vitally concerned with what type of time system is used. Farmer's activities are determined by seasonal factors and are principally geared to the hours of sunlight, and these patterns pertain irrespective of clock setting.

The safety of schoolchildren similarly is not adversely affected. The Department's 1975 study also concluded that for the January to April 1974 daylight saving time period:

> School-age children were not subject to greater involvement in fatal accidents than the general population at any period of the day.

A 1976 National Bureau of Standards study of school-age children fatalities also found no increase in morning fatalities during the March and April daylight saving time period.

A Department of Transportation analysis of daylight saving time between 1979 and 1981 additionally concluded that "there appears to be no basis for claims that DST transitions caused increases in schoolchildren morning fatalities."

I wish to reiterate to my Senate colleagues that this amendment also is a compromise. Daylight saving time would begin the first Sunday in April—rather than the last Sunday in April under the current system, or in March, as other bills have proposed.

Sunrise times in the spring would occur no later than the times presently occurring in the fall under the existing system. Farmers and schoolchildren would not be subjected to early morning conditions any different from those that they already live under.

Older school-age children coming home in the evening, particularly if they have participated in school sports or other extracurricular activities, stand to benefit from the extra hour of daylight.

In 1976, the Senate approved an extension of DST by a vote of 70 to 23, but the measure died in the House in the final hours of that Congress.

In 1981, the House of Representatives approved a DST extension, but no action occurred in the Senate.

During this current Congress, the House of Representatives has again passed a DST extension. The measure enjoys broad popular support, and the decision now rests with the Senate.

Americans are looking to us to finally write into law a proposal which is emminently practical and reasonable. Like the hands of time itself, Congress may sometimes move slowly. But I submit to you—with no pun intended—that the time finally has come in this Congress, to enact an extension of daylight saving time.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Mr. President, would the Chair advise who controls the time?

The PRESIDING OFFICER. There is no controlled time.

Mr. FORD. Who are the floor managers?

The PRESIDING OFFICER. The floor manager of the majority is the Senator from Washington. The Chair is not advised as to the minority manager.

The Senator from Kentucky.

Mr. FORD. Mr. President, the proposal by the plaintiffs in this particular case, the Senator from Washington and the Senator from Maine, presented such a weak case for the extension of daylight saving time I doubt seriously that the defense should put on any witnesses but just leave the judgment to the jury. But in all fairness, I must represent my people and represent the hundreds and hundreds of people who have contacted my office in opposition to any extension of daylight saving time.

You always put your best foot forward in this type of situation. I was amused that the distinguished Senator from Maine, as he elaborated all the times the House had passed daylight saving time, failed to enumerate the number of times the House had defeated the extension of daylight saving time.

So, Mr. President, I rise in opposition to the amendment of the distinguished Senator from Washington and the distinguished Senator from Maine which would extend daylight saving time another 3 weeks.

In preparing for this debate, I ran across several quotes I would like to share with my colleagues.

Many people have questioned why I am so interested in not extending daylight saving time for another month or another 3 weeks, and why it is such an emotional issue in my State.

A State senator in the Kentucky General Assembly ranks daylight saving time as "one of the three most emotional issues of my service in the Kentucky General Assembly."

He also adds:

> Time is more important to people than the budget. They don't care how much we spend, apparently; they just want to know what time we are going to spend it on.

I recently heard from a Kentucky mother who found it just as hard to get a child to go to bed while it was daylight as it is to get a child to wake up while it is still dark.

Any Kentucky mother who has sent a first grader out to catch a bus on a dark, misty April morning takes a dim view about the importance of electricity that might be saved on the east and west coasts and the number of after-work tennis games that might be played here in Washington, DC.

Before the Commerce Committee hearings, I heard from a constituent in Louisville. I have all of these letters to back up my quotes, and if anyone wants to see them, I am delighted to let them have them, or might even submit them for the RECORD, if anyone thinks it is necessary.

I quote from this constituent. He says:

> I am tired of having to spend half of my day in the dark just so some soft executive can have a barbeque when he gets home in November.

□ 1430

Another recent letter from Louisville:

Don't tell me it saves lives and energy. I have lived in this world too long to swallow that.

Mr. President, throughout the consideration of this issue, I have always thought that only those individuals in the westernmost portion of a time zone opposed extending daylight saving time. I received a letter recently, however, from Sacramento, CA, which stated:

The pro-daylight-saving-time faction portrays the anti-daylight-saving-time crowd as either a special interest group such as farmers or religious extremists who don't want 'God's Time' tampered with. This is hardly the case. I have no desire to get up in the dark so candy manufacturers can make money off of Halloween sales.

I realize that the amendment of the Senator from Washington only extends daylight saving time during the month of April, but these letters were written before his amendment was published in the CONGRESSIONAL RECORD. I am very concerned that if this amendment passes the Senate—and this is a real concern of mine—the conferees will agree to the House-passed daylight saving time bill, which provides for 3 weeks in the spring and 1 week in the fall.

What we pass here, in the Senate, could well be the final package. On the other hand, it may not be, because the House has a different piece of legislation, the Senate has a different piece of legislation. That bill goes to conference and the conferees will then send back to the Senate what could be a very different piece of legislation.

Mr. President, the principle of daylight saving time is very simple: During part of the year, the sun rises before most people do. If a clock is advanced, sunrise by the clock will be later as sunset will be later. This clock shift does not increase the amount of daylight but it, so-called saves daylight. It reduces the number of daylight hours when people are asleep and adds the hours when they are awake in the evening. Kentucky's dilemma derives in part from its location. Half of the State is in the eastern time zone and on the western edge of the eastern time zone. Dawn comes in the home State of the distinguished Senator from Maine on the Atlantic coast, which is in the same time zone, a lot earlier than it does on the western edge of Ohio and the eastern part of Kentucky and in our major metropolitan area.

I was very interested in the findings in the proposed amendment. Let me tell my colleagues what this amendment says that Congress will find and what they approve if this amendment is passed. As I say, I think it is very interesting.

This amendment says: "The Congress finds: First, that various studies of governmental and nongovernmental agencies indicate that daylight saving time over an expanded period would produce a significant energy savings in electrical power consumption."

I shall debate that item just a little bit later and prove that it is not really true. A significant energy saving—I think whoever drafted this particular amendment was carried away with his verbiage.

Second, "that daylight saving time over an expanded period could serve as an incentive for further energy conservation by individuals, companies, and the various governmental entities at all levels of government, and that such energy conservation efforts could lead to greatly expanded energy savings."

When you go to work in the dark, you have to turn a light on and when it is cool in the morning, you have to have the heat up. I shall debate that a little bit later.

Third, this amendment says that Congress finds "that the use of daylight saving time over an expanded period"—what is an expanded period? Is it just 3 weeks this year or is it 3 weeks next year and next year and next year? Is that the expanded time this amendment is talking about?

It says, "the use of daylight saving time over an expanded period could have other beneficial effects on the public interest, including the reduction of crime, improved traffic safety, more daylight outdoor playtime for the children and youth of our Nation, greater utilization of parks and recreation areas, expanded economic opportunities through the extension of daylight hours to peak shopping hours and through extension of domestic office hours to periods of greater overlap with the European Economic Community."

That means they are saying that you can stay at work a lot longer; you do not have to go home. I suggest that the effects of the benefits of extended daylight saving time are exceedingly small and therefore hard to assess.

I want to make this one very important point: That the effect of daylight saving time is basically regional. It does not benefit the total country.

Mr. President, there is no hard evidence to convince Kentuckians or those citizens residing on western edges of a time zone that more daylight saving time will save energy, prevent traffic accidents, deter crime, or virtually any of the wondrous things that are claimed by the advocates of the extended daylight saving time.

There are particular hardships on areas in the westernmost fringe of a time zone. For example, the eastern half of Kentucky and much of the State of Ohio are in the westernmost part of the eastern time zone, so sunrises occur as much as an hour and 15 minutes later than in the cities on the Atlantic coast. So we are actually robbed. This affects every aspect of life—the way business is conducted, schools are run, personal families. All of these things are affected by the Sun rising an hour earlier on the Atlantic coast than on the western edge of the eastern time zone. You play that against each of the western edges of every time zone.

Let us look at the facts that have been presented in this particular amendment or what they propose. The National Bureau of Standards found no conclusive evidence of a daylight saving time affect on the saving of electrical energy. We have been hearing an awful lot about how much energy is going to be saved, but the National Bureau of Standards found no conclusive evidence that daylight saving time will have a great affect on the saving of electrical energy. In fact, it may cost more on the western edge of a time zone because the light has to go on an hour earlier and the heat will have to be turned on an hour earlier than normal in the dark.

The Department of Transportation report identified a seven-tenths of a percent reduction in traffic fatalities with extended daylight saving time. The Department of Transportation later expanded the benefits to a reduction in fatalities of 1 to 2 percent. The National Bureau of Standards criticized the Department of Transportation for using raw NHTSA data and found no conclusive evidence for a daylight saving time-related decrease in fatalities.

Mr. President, it just does not seem right to this Senator that you can stand up and beat your chest and say so many wondrous things are going to happen because you extend daylight saving time 3 weeks in April. We had so much snow this year in April, the schools were closed, ball games were called off. You could not go to the parks. In fact, you could not drive your car from home to work, the snow was so deep in many parts of this eastern time zone during the first 3 weeks of April.

The Department of Transportation did not take into account that at the time they were measuring traffic fatalities, the country was experiencing a gas shortage.

□ 1440

Think about that. That was not even factored in. You have not heard about that in this grand and glorious amendment to do all things for all people by extending daylight saving time 3 more weeks.

The President and Congress were recommending responses to the shortage. Think about that. Gas rationing was a way of life at the time these facts were taken. The price of gasoline

had doubled at the time these facts were taken. Citizens found other means of transportation since gasoline was so limited, and the Congress at that time enacted the 55-mile-an-hour speed limit.

Now, that is why lives were saved. That is why gasoline comsumption was reduced. That is why traffic accidents and fatalities were reduced.

If there was any reduction in traffic fatalities during the extended daylight saving time period, I am certain some of these factors were the cause and not daylight saving time.

The Department of Transportation, however, has admitted in testimony before the House of Representatives that they did not take any of these factors into account in determining that there would be reduced traffic fatalities under extended daylight saving time.

Now, let me repeat that. Let me repeat that because we are hearing a lot about this Department of Transportation study and how great it will be if we extend daylight saving time 3 more weeks.

The Department of Transportation has admitted in testimony before the House of Representatives that they did not take any of these factors, being gasoline shortage, doubling of prices, looking for other means of transportation, and reducing the speed limit to 55 miles an hour, into account in determining that there would be reduced traffic fatalities under daylight saving time.

Now, I think those factors play a greater part than trying to extend daylight saving time by 3 weeks or a month or whatever.

There is one special interest group in this argument I would like to mention and that is the group of children. We have spent a lot of time lately in this Congress and especially in the media on improving education, the plight of missing children, and the need to protect children from all kinds of behavior. Children have a stake in this extended daylight saving time argument. Although the issue of the coalition to extend daylight saving time is purely economic, as I read in Fortune magazine several months ago, the children's issue is purely emotional, purely emotional. The coalition's position is purely economic, and they dismiss the plight of our children as purely emotional.

Well, Mr. President, parents in Kentucky do not believe the issue is emotional. Adding an hour of sunlight at the end of the day subtracts one at the beginning of the day and leaves many school-bound children in the dark. Great concern has been expressed about schoolchildren having to start for school before sunrise in many parts of this country. Advocates of extended daylight saving time say the problem can be alleviated by postponing the time of day when school begins so that children would not have to travel to school in the darkness. That is an easy way of saying it, just start school an hour later so they can go to school in the same daylight as you had before you extended daylight saving time.

Now, we have that in testimony before the Commerce Committee. During the 1974-75 year-round daylight saving time experiment, 44 percent of the Nation's school districts shifted the beginning of time of school because of the safety factor—safety factor for children, and we had daylight saving time during the same period that is being advocated under this amendment.

Families with schoolchildren will be operating on two time schedules, one for the school and the other one for their employer. When both parents work, which is the case in many homes now due to economic factors, small children will be left at home unattended until the bus runs. In Kentucky, the beginning times for schools vary, but there are a considerable number of children picked up at 6 to 6:15 a.m., and that is a record from the Kentucky Association of School Administrators.

Now, Mr. President, this is an extreme problem in areas where there is great distance in a consolidated school district, where there is court-ordered busing and where there is one school of a district for handicapped students. Think about that. One school in a district for handicapped students, and they have to get on the bus at 6 to 6:15 a.m., in the dark.

The handicapped students are most likely the first bus run. Then the buses return for another run later in the morning. The sponsor of the House version of extended daylight saving time made a point that sunrises in April under extended daylight saving time would be earlier than sunrises in December, January, and February. Isn't that a wonderful proclamation. The sponsor suggested that there would be 22 weeks in the school year more dangerous than April 1. My response is why make it any worse? In effect, by adopting this amendment, you will make 26 weeks dangerous in the school year rather than 22. The importance of the safety of children is at issue and far exceeds any economic consideration in the extension of daylight saving time debate.

During the hearings on extending daylight saving time held by the Commerce Committee, I was told by one of my colleagues that Kentucky should start schools later to relieve the safety concern. I raised the issue of working parents on a different schedule, and I was told to start the factories 1 hour later.

Mr. President, it was almost hard to believe what I was hearing. If it bothered the schoolchildren, start school an hour later. If the children were left home by themselves to wait for the bus, just open the factories 1 hour later, so we would be right back where we started and we ought to leave it alone.

I believe you have to look at this issue in terms of the entire country. If the westernmost areas of a time zone have to make such sacrifices, is extended daylight saving time good for the entire country?

□ 1450

I have also been told by the daylight saving time coalition that the simple answer to Kentucky's problem is to move the entire State into the central time zone. I also believe that this is too great a sacrifice for my citizens to make in order for the coalition to sell more of their products. One of the greatest benefits Kentucky and other States in the region have in attracting industry is that we are on the same time as Wall Street and the financial world. One should not underestimate the business interest of remaining on the same time as the financial world, particularly New York.

In essence, extended daylight saving time would establish a new entitlement system for energy usage. The increased use of energy in mid-America would neutralize the saving of energy on the coasts. Daylight comes over an hour later in Louisville than on the east coast so consumption of energy would be actually increased as people get up earlier, go to work earlier, and turn on their lights and heat earlier. The President of a large utility in Kentucky has indicated that in his judgment extended daylight saving time would mean an additional use of gas and electricity in the mornings without an offset saving in the evening.

Savings in energy, although predicted to be 100,000 barrels of oil per day by the Department of Transportation study, are difficult to isolate from seasonal variations, rate for crude, and fuel availability. The benefits of energy savings are for the coastal States at the expense of the Midwestern States

Now, Mr. President, a new entity comes into the opposition to the extension of daylight saving time. The National Association of Broadcasters has written in opposition to the extension of daylight saving time. The National Association of Broadcasters' concern is the effect the amendment would have on daytime-only AM broadcast stations. There are 2,450 daylight AM stations in the United States. The impact would be the worst for the approximately 450 daylight stations not holding a presunrise authorization known as PSA.

The monthly sign-on time for a daytime station is based on the time of the local sunrise rounded off to the nearest 15-minute interval. The authorization is expressed in nonadvanced standard time which, in effect, is local time for the 6-month period in which daylight saving time is not observed. During the expanded period in this amendment, the sign-on time for daytime stations not holding a PSA would be delayed 1 hour. Most daytime only stations would suffer a financial loss due to the loss of an hour of drive time.

How much economic benefit has been lost by these small radio stations? No one has brought that into being here. No one has talked about those small radio stations that struggle for a living. Yet this extension of daylight saving time would cost them dearly.

Most daytime only stations would suffer a tremendous financial loss due to that loss of 1 hour in drive time. The morning drive time is the period according to the FCC, Federal Communications Commission, in which stations earn a substantial bulk of their advertising revenues. Four hundred and fifty stations are going to lose an hour of drive time, and that is that bulk of their advertising revenues. So that is another financial loss to be imposed upon citizens, and it is now a fact of life that the National Broadcasting Association is very much opposed to this amendment.

The amendment of the Senator from Washington contains a provision to allow the Federal Communications Commission to make adjustments by rule. This is very technical and the question is what adjustments will be made? What adjustments will be made? It will certainly disrupt the current balancing between full-time and daytime-only AM stations.

As proved by the recent snowstorms in the Rocky Mountains, even in April schools may close due to weather conditions. Most of the radio stations—think about this now—giving this information are daytime-only stations. What would happen? They would not be there and would not be allowed to be on to give that information because of this amendment.

Since the news media has chosen to give me complete credit for opposing extending daylight saving time, I have heard from citizens all over the country. These citizens are firmly opposed to this extending daylight saving time and many come from areas that, due to geographical location, should most likely support sunshine in the evening. These citizens do not have a public relations firm to lobby on their behalf; they do not have a financial interest in the matter nor are they interested in whether some businesses will sell more of their products. They have written to me and hopefully to their Senators in opposition to this amendment.

From South Pittsburg, TN, Mrs. Marie Daniel wrote me and stated:

I want you to know I sure do appreciate you keeping that bill from extending daylight saving time to 2 more hours. I wish they would leave the time on standard time. The real working people don't have time to play like these men who want more hours of light.

Phillip A. Lomax of Pensacola, FL, wrote:

I want to thank you for opposing the useless Daylight Saving Time extension. My experience with saving time has been as a parent of young children. It was more difficult getting them in from play for a family meal together with adequate time left for homework. I also found it more difficult getting up as early as I needed for a good start on the day. I think the proposal is counterproductive and its passage would only lead to a request for another extension later.

Helga Larson from Bement, IL, informed me:

I read in the paper that you were against extending daylight saving time. That is fine—so am I. It would suit a lot of us fine to do away with it completely.

From Columbus, Ohio, a citizen wrote:

You are admired! And by a Republican at that! Will you please keep that ten year effort to lengthen our daylight hours bottled up another decade or two? Has just one of those daylight saving backers ever tried putting a 4-year-old, a seven-year-old or a ten-year-old to bed at 9:00 in the daylight? I doubt it! Have they ever looked at these same kids in school the next day? These same kids have to get up at the same time having gone to bed an hour or two later. Being a school parent, now you try teaching them! They are just plain tired. I believe with all my heart that this daylight saving time is just one more wedge driven into the family circle. With so many parents working, we don't need more ways to split our times together. Indeed, it is God's time. We need to use it wisely. Our children are watching.

Van Statham from Tyler, TX, wrote me to explain:

I appreciate your stand on the daylight saving time thing. Would think there are so many other important things that need handling, that these guys would not be trying to help the sporting goods companies. Let's leave God's things alone.

(Mr. COCHRAN assumed the Chair.)

Mr. FORD. Mr. President, on April 7, 1986, I received a letter from Violet Clausen of Stapleton, NE.

It was with great delight that I read an article in my daily paper today that thanks to you, those who would enforce their ridiculous daylight saving time for another month of use, were thwarted in their efforts.

From Youngstown, OH, Mrs. Evelyn Carver wrote:

Thank you very much for your efforts about daylight saving time. I don't like it and I don't need it. It should start on May 31 and end September 1, or do away with it completely. We have enough pressures on our shoulders without chasing the clock all day long.

On April 7, Mrs. Verna Palmer of Moss Point, MS, sent a letter which stated:

I appreciate your stand on daylight saving time. I think it is silly for grown men to waste their time and taxpayers' money with nothing better to do than change the time for the sun to rise and set. I am an 81-year-old widow and I have seen many sunrises and sunsets in my lifetime. I believe in and respect God's handiwork.

That was Mrs. Verna Palmer of Moss Point, MS.

In this area, Bruce M. Benton contacted me from Gaithersburg, MD:

Please accept my sincere thanks for your successful efforts which have saved us from additional months of daylight saving time. We have more than enough of that already. Fast time becomes more attractive with increasing latitude, which is why only the northern states are agitating for it. With each additional degree of latitude, summer days are a little longer. At the North Pole, one can enjoy 24 hours of sunshine during mid-summer; but in our southern states, fast time forces too many people, including schoolchildren, to begin their active day in total darkness. Any further change in the national schedule should go in the opposite direction, to limit the period to a maximum of three months. Perhaps, as an alternative, we should rearrange the time zones to make horizontal, as well as vertical divisions. Then the northern states could choose to set their clocks ahead permanently, as Indiana and Michigan have already done, without forcing unpleasantness on the remainder of the nation.

Ada McCain of Danville, VA, recently wrote:

All power to you in prolonging the changing of our time. We people of the USA should have a say so in changing the time and if we did, there would not be any changes made . . . Many times I have seen small children leave home in the dark to stand at some specific place to wait for the bus. This is enough to vote to leave the changing of time alone.

From Rock Rapids, IA, Darlene McMaster informed me:

Thank you very, very much for holding back daylight saving time. Natural biological rhythms are thrown off. The sun in the morning makes it easier to get up, safer to drive to work on the highway. Soon, with DST, it will be dark again when I get up at 6 a.m. How is it that Representative Markey gets to sleep so late that the sun bothers him? He must work a short day.

I just want to make a short statement here. I have a lot more to go and I even have some letters from your State, I say to the Senator, and I am going to quote those, too. There are many in your State that are very much opposed to this, and I am referring to the distinguished Senator from Washington.

But Representative MARKEY sent a letter out the other day indicating that the Cubs and the Pirates, I believe, were locked in an 8-to-8 tie at Wrigley Field and they had to call the game in early April because of darkness. He thought that with extended daylight saving time they could have

played the rest of the ball game, maybe.

But he forgot to tell us that Wrigley Field is the only field in the American or National League that does not have lights so they could continue to play. And he forgot to tell Congress to mandate that the Cubs have better pitching so they could reduce the hits of the Pirates or we forgot to mandate that the Pirates get more hits so they could beat the Cubs. That is how silly this daylight saving time is becoming.

Mr. President, I have letter after letter, and recommendation after recommendation, and I have some letters, as I said, both from the distinguished Senator's State of Washington and probably I could find one if I dig a little deeper from Maine and some of these other strong advocates of daylight saving time, from those who had to spread the sand and the salt in early April in the dark, and if it had been daylight saving time even worse, as we had the blizzards and the snow and the children could not go to school.

So for now, Mr. President, I yield the floor to the distinguished Senator from Nebraska who would like to have a few moments.

Mr. EXON. Mr. President, I have been listening with great interest to the excellent presentation by my friend and colleague from Kentucky. I think he has said most of the things that need to be said in this area. But I want to add my voice of support to the Senator from Kentucky in opposition to the further extension of daylight saving time.

In this regard—and to digress for just a moment, Mr. President—I would like to thank my colleagues for the agreement that I understood had been entered into that I have been strongly in support of, and that is to not bring up an amendment at this time with regard to scrambling of cable television signals until we can have an opportunity to have a hearing on that in the Commerce Committee, on which the distinguished Senator from Washington, the Senator from Kentucky, and I serve. I have some serious reservations about how fast we move on this, but move we must.

I think here is a place where the Federal Communications Commission has not gotten into the act when I think they should be to resolve this problem that is a major concern to those who do not have the availability of cable television. I hope good people working together can come up with a solution to this matter that is going to cause an awful lot of difficulty in the future but can be solved, I think, with relative ease by some joint discussion. I hope that our hearings in the Commerce Committee will bring that about.

Getting back to the matter at hand, I agree with the comments that have been made by the Senator from Kentucky. I want to emphasize the fact that the effect that this could have, might have, and I think will have, the adverse effect on children, should be the primary concern and the real reason why we should turn this down.

What I am saying, Mr. President, is why in the world can we not leave well enough alone? I think the public at large believes that we pass far too many bills or amendments here and in the House of Representatives and that we have at the present time a relatively good and relatively well-accepted daylight saving time period in the United States.

Yes, there have always been those who want to shorten the daylight saving time period. That comes up from time to time. I have not endorsed that effort, by telling those proponents to shorten the daylight saving time, "Leave well enough alone." And I would say to the proponents of the amendment, "Please leave well enough alone." And if and when we come to a vote on this matter, I hope that the U.S. Senate, as a whole, will say, "Enough is enough." Let us not stir up unneeded controversy.

□ 1510

Let us leave the law as it is now, which right or wrong—and I happen to think it is right, and it has been accepted by the vast majority of the people in the United States. I suspect, though, that the very thought of having a few extra minutes to do what one wants to do in the evening might unfortunately persuade this body to approve the amendment. I would simply say to them that they should look at the other side of this issue rather than saying, "Well, I think it is good for me," or "I think this is probably good for certain industries."

I have, Mr. President, a letter from the American Farm Bureau. I think the Senator well knows that I will not dwell on it with no keen disappointment by my friend from Washington, I am sure, and my friend from Maine. I will not dwell on the opposition of agriculture in general to the future broadening of the legal hours for daylight saving time for all of the reasons that are well known, I think, here, and it would serve very little purpose to go into that in any detail.

So the Farm Bureau is opposed to this from the traditional standpoint of agriculture. But agriculture, as has been well demonstrated time and time again, is such an insignificantly small percentage of the people in United States today that probably their feelings will not receive the attention that they should. So I am taking a little bit different tack on this at this time.

I want to quote not from a letter in its entirety, but from one paragraph of this letter that has to do with children. This letter, Mr. President, is from the American Farm Bureau, and it is signed by Mr. Dean Kleckner, the president, dated May 7. It is addressed to me.

And I ask unanimous consent at this time to have the letter printed in its entirety at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. EXON. President Kleckner says,

> The Farm Bureau is concerned about lengthening the daylight saving time period for the following reasons.

I am going to talk primarily about the No. 1 reason that Senator FORD has already touched on in some detail in his previous remarks. But I am quoting from his letter.

> Parents are concerned about their children waiting for a bus or walking to school in the dark. Even though the Department of Transportation has a 1976 study to show that there would be no increase in accidents if daylight saving time were extended, no amount of studies can alleviate the concern of parents. With the increased reports about crimes against children and the obvious fact that drivers cannot see as well in the dark, rural people—

Rural people, Mr. President—

> do not accept those results.

Mr. President, I am not saying that for the mass and the greatest amount of schoolchildren that extending daylight saving time by a month would have a significant adverse effect. But, Mr. President, I am saying that it will have a significantly adverse effect for the rural schoolchildren. Their needs, their education, and their safety should be considered along side of the masses of population centers in the United States.

Mr. President, it is not uncommon in certain rural sections of these United States—yes, indeed, in Nebraska—that some schoolchildren in large geographical areas that represent school districts travel 2 to 3 hours on a bus to get to school and back.

That means, Mr. President, that when you have to get up traditionally before dark, you are getting up in 1 more hour of darkness to start that long trip to school each and every day. I am wondering how many Members of the U.S. Senate would be voting for this amendment if their children or their grandchildren were the ones that had to make the sacrifices, basically to compensate those who want to have a little more time to do what they want for pleasure in the daylight hours of the evening.

Mr. President, I hope that we can come to some kind of an agreement today, probably to have a vote on this sometime tomorrow. I have not had a chance to discuss this at length with Senator FORD. I know requests have been made from this side of the aisle to put off any vote on this until tomorrow. If we can at least have a dis-

cussion on an issue like that, maybe we could come to some resolution of the issue. There may be others besides Senator FORD and myself who have something to say on this. And I believe if there are others, it will work better with their schedules when they get back probably tonight or the first thing in the morning.

Mr. President, I will conclude my remarks at this time by saying that Senator FORD has outlined most of the reasons why there are those of us not supporting this amendment. I hope that our colleagues will recognize the legitimate opposition that we have, and overriding every other consideration is the fact that I do not think it is fair to a substantial number of the schoolchildren in my State of Nebraska, and likewise I am confident that it is not in the best interests of the substantial number of the rural schoolchildren in other States of these United States. And, therefore, when and if it comes to a vote, I hope it is defeated.

Mr. President, I yield the floor.

EXHIBIT No. 1

MAY 7, 1986.

Hon. J. JAMES EXON,
U.S. Senate,
Washington, DC.

DEAR SENATOR EXON: Farm Bureau would like to take this opportunity to comment on the effort to extend daylight saving time.

On Thursday, May 8, there may be an attempt to amend S. 2180, the Fire Prevention Act, with a provision which would make daylight saving time begin on the first Sunday in April—three weeks earlier than at present. We are very opposed to any extension of daylight saving time.

Farm Bureau policy regarding daylight saving time states:

"Daylight saving time should be limited to the period between Memorial Day and Labor Day. We oppose efforts to extend the present length of daylight saving time."

Farm Bureau is concerned about lengthening the daylight saving time period for the following reasons:

1. Parents are concerned about their children waiting for a bus or walking to school in the dark. Even though the Department of Transportation has a 1976 study to show there would be no increase in accidents if daylight saving time were extended, no amount of studies can alleviate the concern of parents. With the increased reports of crimes against children and the obvious fact that drivers cannot see as well in the dark, rural people do not accept those results.

2. During the harvest season many farmers must wait until the sun comes out and the dew disappears before thay can begin work in the morning. This applies especially to the combining of small grains, soybeans and making hay. If farmers are to continue their church and community activities during the evening, they must quit work earlier by the sun, thereby losing at least one hour of work-time each day. Surely everyone is eager for rural people to participate in community events. Farmers are eager for this to happen, but daylight saving time does impede this ability.

3. About 50 percent of farmers now hold second jobs and would have less daylight in the morning to do morning chores.

Farm Bureau urges you to oppose the extension of daylight saving time. Thank you for consideration of our views.

Sincerely,

DEAN KLECKNER,
President.

Mr. GORTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Washington.

Mr. GORTON. Mr. President, I have listened with great interest to the thoughtful statement of my friend, the Senator from Nebraska. And I appreciate the position which he takes, even though I disagree with it. I am particularly taken by the offer, on his part at least, that we should vote on this amendment tomorrow, perhaps at a time certain. It is the view of both myself and the distinguished Senator from Maine, Senator MITCHELL, that that would be appropriate because, as the Senator from Nebraska feels, any others who wish to make statements on this subject should be allowed to do so, and there are Members on both sides of the aisle on both sides of this issue whose convenience would be served by voting tomorrow. So that is the view of this Senator and the Senator from Maine.

I strongly suspect such vote will come about, and in fact, I would be delighted if we were able to reach an agreement to vote.

Mr. President, I have listened with care and with great interest to the positions that are advocated by the Senators from Kentucky and Nebraska.

I doubt, Mr. President, that those positions would have been expressed at all differently were we debating the first attempt to establish daylight saving time during the course of the summer months only, or perhaps were we debating in the middle of the second half of the 19th century the proposition that the United States should adopt four standard time zones.

□ 1520

Exactly the same arguments, I suspect, Mr. President, that were made then, more than 100 years ago, are made today.

The fundamental reasons to add the month of April to the time during which daylight saving time is in effect in most of the United States is one of personal convenience.

No number of individual letters read into the RECORD by opponents of this extension can disguise the fact that on every occasion, in all parts of the country in which scientific surveys of public opinion were taken, the vast majority of the people of the United States favor daylight saving time and favor the extension of daylight saving time.

The most recent of those which has been brought to my attention had a majority of almost 2 to 1 for a 2-month extension of daylight saving time, one which would begin early in March and end after Halloween, in November.

On almost every occasion the subject has come up for debate in this body, a heavy majority of the Members have voted in accordance with that popular opinion. The distinguished Senator from Maine referred to the fact that in 1976, when the issue last arose, the extension of daylight saving time was approved by a vote of some 70 to 23. That, Mr. President was a longer extension of daylight saving time than in the proposal which is before us here.

The reason is not pure accident. The sponsors of this proposal have attempted to meet every legitimate objection, some which they considered to be not so legitimate, to such an extension by limiting it to April.

The date upon which daylight saving time would begin in April pursuant to this amendment, in every part of the United States of America, has a sunrise which, under daylight saving time, would be earlier, in most cases considerably earlier, than the sunrise which takes place on standard time early in January.

I am reminded in the course of this debate, Mr. President, of two lines from William Shakespeare's Romeo and Juliet:

> What's in a name? That which we call a rose by any other name would smell as sweet.

In both the States of Kentucky and Nebraska, with an overwhelming opposition, it would seem from the statements of their Senators, to daylight saving time, either extended or perhaps in the summer, we have, nevertheless, a group of people who have chosen to go on daylight saving time 12 months of the year and to call it by a different name.

Over 100 years ago when the United States began a system of standard time, four time zones were created, and they were created with great logic. They were centered on the 75th, 90th, 150th, and 120th lines of longitude, and they were set so that at moderate latitudes, high noon would be near the exact center of daylight hours during most of the year on those particular lines of longitude.

Because time zones would be 1 hour apart, would be 15 degrees of longitude apart, that, of course, would provide, by pure logic, that each time zone extend 7½ degrees of longitude east of that standard line and 7½ degrees west.

By 1918, after 30 or so years of experience with standard time, an act of the Congress of the United States empowered the Interstate Commerce Commission to establish official time zones in the United States, and these four time zones were so established.

The ICC, and more recently the Department of Transportation, have, however, been allowed to move those

time zones lines upon the petitions of various States.

Since 1918, time lines have been moved 32 times to the west and 3 times to the east.

What is the situation, Mr. President, with respect to Kentucky, to take a specific example?

In 1918, the Interstate Commerce Commission established the western boundary of the eastern time zone at the eastern edge of Kentucky. The Commission did so by applying the logic to which I have just referred. All of Kentucky, including its most easterly sections, are closer to the 90th meridian, which is the center of the central time zone as I have described it, than it is to the 75th meridian of longitude, which is the eastern time zone.

And yet that boundary has been moved westward at the request of Kentucky in 1927, again further west in 1947, again in 1960, and again in 1961. It was moved back in 1974 at the request of Kentucky, and then moved back westward once again 1 year later to its 1961 location where it has since remained.

That means that the people and the government of Kentucky have, in essence, preferred to be on daylight saving time for 12 months of the year, as long as they can call it eastern standard time.

The same thing holds true with respect to almost the entire State of Nebraska. Most of it, under a national frame of reference which would have the center of the central time zone at 90 degrees west longitude and the mountain time zone at 105 west longitude, ought to be in the mountain time zone. Because the people of the State presumably did not like to waste so much daylight at dawn and wanted more of it in the afternoon, the great bulk of the State of Nebraska is in the central time zone where they spend 12 months of the year on mountain daylight saving time but call it central standard time.

Unfortunately, the State of Maine, represented by the distinguished cosponsor of my amendment, has been effectively unable to do that and move into what is called the Atlantic time zone because it would create a fifth time zone in the United States and a tremendous amount of difficulty. In fact, if the same rule or the same custom were to take place in Maine and the rest of New England, all of New England, following the precedent of Nebraska and the precedent of Kentucky, would have long since gone onto Atlantic standard time rather than eastern standard time.

□ 1530

So every difficulty and every objection which the two opponents to this extension have raised to this point has been settled against the case they make by the people of their own States as long as 60 or 70 or 80 years ago. Those people, or most of them, have decided that they prefer what is in effect daylight saving time all year long—whatever that may do to traffic safety, whatever it may do to the consumption of energy, whatever it may do to convenience stores, whatever it may do to schoolchildren going to school in the dark.

My distinguished friend, the Senator from Kentucky [Mr. FORD], complained about various students who are picked up between 6 and 6:15 in the morning during darkness and the great danger to which they are subjected, that we should not extend daylight saving time to the month of April because those children would simply then, presumably all alone during the course of the year, be required to wait for schoolbuses in the dark. Assuming, however, Mr. President, that there is a reasonable amount of light 30 minutes before sunrise, those students now go to school or are picked up by their buses in the dark from the day school begins, right after Labor Day in Louisville, KY—literally the day it begins right after Labor Day—through at least the middle of March.

Apparently, the school districts of Kentucky have not chosen to change the hours of the beginning of school on that account, because under present time conditons, 6 o'clock in the morning is dark in Louisville, KY, from the day school starts through at least the middle of March, if not beyond that period of time. Apparently, the concern for schoolchildren's safety is not so great in either Kentucky or Nebraska that those States wish to put themselves in the time zone to which geography—if geography were the only consideration—would assign them.

Mr. President, it may sound as though I am critical of the choices of the States of Kentucky and Nebraska in that respect. In fact, I am not; I am not critical at all. What those States have done has been to choose the time zone which is most convenient for most of the people who live in those States. It is that and nothing more. What this amendment proposed to do is choose a time regime for the great majority of the people of the United States which is most convenient for most of them and is most suited to most of them. There simply is not a single survey of public opinion on this subject which does not overwhelmingly favor an extension of daylight saving time, not only into the month of April but into the month of March as well. The argument that, somehow or other, there will be an artificial darkness to which most people object during the 3 weeks in April if we have daylight saving time during those 3 weeks simply fails to jell.

Again, to take Kentucky, in every place in Kentucky or, for that matter, in Nebraska, sunrise will be more than half an hour and up to 1 hour earlier on daylight saving time in mid-April than it is in early and mid-January under standard time under present circumstances. That is true all across the country. The differences are slightly smaller in the deep South and slightly greater in the most northerly parts of the lower 48 States of the United States but, during April, daylight is more than 12 hours from sunrise to sunset in every place in the Northern Hemisphere. In early January, it is much, much less than that in every part of the Northern Hemisphere.

The inevitable result is a displacement of the clock to 1 hour later and during the course of the day a sunrise time that is earlier in mid-April than it is in January, much earlier than it is in daylight saving time during the month of October at the present time—something to which everyone in the United States who is on daylight saving time has become accustomed and for a change of which there is very, very little demand.

In fact, the studies of the effect on traffic safety are conclusive, Mr. President; we are not here speaking of safety or reduced traffic accidents simply because we were in an energy crisis or went to a 55-mile-an-hour speed limit. We are talking about statistics which are based on traffic accidents and traffic deaths per million miles driven. Of course, as more miles are driven, there will be more accidents and as fewer miles are driven, there will be fewer accidents. The point is, there are fewer accidents during daylight hours per million miles driven and there are more miles driven in the early evening than there are in the early morning. Therefore, deaths, injuries, and property damage are less under daylight saving time per million miles driven than at any other period of time.

If this body were faced with the inevitable proposition that we would save lives, even a modest number of lives—one-half of 1 percent, one-quarter of 1 percent—by the investment of several, perhaps many millions of dollars, we would almost certainly spend that money, Mr. President, Here we have a chance to save those lives, those injuries and that property damage without spending any of the taxpayers' dollars at all and we should clearly do so. In fact, Mr. President, it is very clear that from the point of view of traffic safety—schoolchildren, nonschoolchildren, and adults alike—there will be a net gain on that safety factor from this change.

It is also, of course, clear that the best argument, because it is the most emotionally appealing argument against this proposal, is the myth of

the schoolchildren's danger in waiting for that school bus in the dark. Yet no individual Member of this body and no State has compensated for that asserted danger by attempting to see to it that schoolchildren not wait in the dark for their school buses in January, in November, in March, or in any other such month. The conclusion I draw from that, Mr. President, is that it is simply not demonstrably a major factor relating to safety itself.

We have a situation, in any event, in which any State that wished not to take advantage of this change could, by petitioning the Department of Transportation, opt exactly as two States already have—the States of Arizona and Indiana, each of which has chosen not to go on daylight saving time at all, with the exception of a small portion of Indiana which is in the central time zone. That is an option for those who feel that the majority of the people in their States do not favor daylight saving time, simply that they not go on it at all, not just in the first 3 weeks of April but during any part of the year whatsoever.

The argument in favor of this proposal, Mr. President, to summarize it, very simply is that it meets with the desires and the felt needs of most people of the United States. They demonstrate that not only by their responses to public opinion surveys but by the very way in which they have set the time zone lines.

□ 1540

Except in New England, there is not one person in the lower 48 States of the United States, Mr. President, who lives in a place 7.5 degrees of longitude to the east of the center of a time zone as established in 1918, who is on that same time zone. Instead, time zones have been moved westward to move these people into time zones to the east. It is simply that these people who think they abhor daylight saving time in fact like it so much that they want to be on it all year as long as they can call it standard time.

That kind of privilege is the privilege which for 3 extra weeks of the year the Senator from Maine would like for his constituents. It is a privilege which I would like for the constituents of much of my State which lies east of one of these standard meridians. It is a privilege which at least two-thirds, of the people of the United States, wherever they are located in a time zone, would like for themselves.

The PRESIDING OFFICER. Is there further debate?

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Mr. President, I will not take much time. I do not know how long we are going to stay in this afternoon. I understand the distinguished Senators agreed that tomorrow would be a good time to vote. it might be, but I have not agreed to that yet.

The distinguished Senator from Washington uses two words. He uses all this latitude and longitude and meridian and that sort of thing. Most people do not understand that. Most people understand the Sun coming up in the morning and going down in the afternoon. They understand going to work in the morning and coming home in the evening. They understand their children going to school in the morning and coming home in the afternoon. They understand those things because they are a reality.

He talks about artificial time. That is exactly what he is doing. He is creating artificial time. I do not understand saying that the only issue, because it is emotional, happens to be children. I thought they were important in what we were trying to do.

Then he talks about myth, the argument in opposition to daylight saving time is just a myth; it does not mean anything. Well, you tell that to the family in Louisville, KY, with the boy who was walking to school, crossed the street in the dark, and fell in a manhole and drowned. That was going to school in the dark. Then he talks about only in the middle of March and now it is all the time there would be more light going to school. Well, he would deprive us of those 6 weeks. He would still want us to continue, if his facts were right, sending our children to school for 6 extra weeks in the dark.

He says two-thirds of the United States wants this particular amendment. I do not know whether that is true or not and I do not refute his facts and figures. That just leaves one-third of us who are against it. That is important. You begin to think about agriculture a little bit. We think about the farmers.

Well, there is a feeling around this town of Washington, DC, USA, that farmers do not mean much politically; they are only 2 percent of the voting population, and we do not have to worry about them at all.

Well, that is partly true, I guess, but the farmers in my State are important. They work by the Sun. You cannot change that. You can change time that he has to do business in town. That jeopardizes his efficiency. The farmers in this country are having a hard enough time now. If he is working by the Sun and machinery breaks down and he wants to go to town to get it fixed but they are on an extra hour of daylight, they have already closed the doors and gone. So he waits until the next day. He loses that day. That is not a myth, Mr. President. That is artificial time. The farmers and the children are extremely important. So when you talk about artificial time, that is what the distinguished Senators from Washington and Maine are trying to do. The myth is really not a myth. It is reality.

Even the distinguished Senator from Washington, as he debates this issue, admits he will put the schoolchildren in Louisville, KY, in the dark 6 weeks longer in the morning. He said we have had it the rest of the year, why not 6 more weeks.

Well, ask that family that lost a child. Emotional? Sure, it is emotional, but it is factual. There is no myth about that. The problem could be artificial time.

I appreciate the press giving me so much print on this particular item. They are crediting me with being about the only one who is standing in opposition to this amendment on daylight saving time.

Well, it is giving me more credit than I deserve, but I know I have been getting a lot of letters. Out of the whole stack of letters that I have received in my support, only two have chastised me and those letters were from Reston and Annapolis, right here in this big bureaucratic bowl of the United States.

I am vocal in my opposition, but, Mr. President, there were enough Senators on the Commerce Committee where this amendment and this piece of legislation should have been discussed and voted on and sent to the Senate floor in the normal procedure, but something has happened on that committee that they failed to vote it out. In fact, it has been on the agenda several times to vote on it and it has been pulled down, pulled off the agenda of the committee, and therefore has been bottled up, as they say, in the Commerce Committee.

Now they have taken the tack on this piece of legislation of adding the amendment extending daylight saving time. But I assure those who are supporting this amendment I do not stand alone. I am not sure how the votes will go. I am not a vote counter. I am not one who gets his little book out and starts calling Senators and checking them off and putting them on the spot. I just try to practice my case, if I can use that phrase, not being a lawyer, and hope that I make some common sense, and that common sense will prevail in this Chamber.

Let me just give you an idea of where some of the citizens are located who have written to me supporting my position and opposing this amendment.

□ 1550

I have had letters in opposition to DST from Sioux Falls, SD; Branchland, WV; Mount Dora, FL; Natrona Heights, PA; New Market, TN; Rochester, NY; Griffin and Atlanta, GA; Suquomesh, WA; Chicago, IL; Philadelphia, PA; Muskegon, MI; Dickinson, TX; Miami FL; Midland, TX; Bartles-

ville, OK; Riverhead, NY; Edmond, Ok; Blacksburg, VA; Aurora, CO; and Troutdale, OR.

These citizens had no idea who I was, but have written to me united in the opposition to extending daylight saving time.

One of my favorite letters is several years old and from the Northwest, but I especially like the letter from Mrs. Charmond S. Adkins and her arguments:

Please continue to oppose the daylight saving time extension. I'm not a farmer, nor member of any other group opposing it. I'm just an individual who doesn't like DST period. But, if I have to tolerate six months every year surely those who like it can get along without it six months every year. That way everybody gets an equal dose. Thank you and hang tough!

But it does seem like it is fair—6 months on daylight saving time, 6 months off. When you talk to most of the farmers, they like for it to start Memorial Day and end Labor Day. They have a reason for that. It is the way they make a living, by the Sun.

When you really take a close look at this amendment, you realize that the benefits of extending daylight saving time are outweighted by its liabilities. The April period which would be extended by this amendment is not the same as daylight saving time in September as many advocates of extended daylight saving time proclaim. In many parts of the country, it is still very cold in April and just recently the Midwest experienced a major snowstorm during the time that this amendment would extend daylight saving time, and major league baseball games were postponed not because of daylight or darkness but because of snow and snowstorms.

I can understand the position of the advocates of extended daylight saving time. The 9-to-5 worker would have longer to mow the lawn or swat a tennis ball after work. What the advocates fail to realize is that not everyone in this country has a 9-to-5 job. If the Senate agrees with the sponsor of this amendment and extends daylight saving time, there would be undue hardships for farmers and the agricultural community which require natural light. Asphalt and construction companies, moving and storage companies, and warehouses also depend on the natural light of day for their work.

Kentucky will be one of the States which will find extended daylight saving time disruptive. The sponsors of this amendment argue that under existing law, any State that wants to can exempt the State from extending daylight saving time. That is certainly a possibility particularly in the 12 States that are split by time zones. If rural States opt out of daylight saving time altogether, the benefits of the present daylight saving time schedule would be completely lost.

Sure, you have the privilege of opting out but then if you opt out, you lose all of the advantage of the 6-month period.

Is this what we really want—a remedy which will cause a patchwork quilt of time zones? Any business concerned with time schedules, an example is the airlines, would be terribly burdened if the States exercised this option.

For citizens of Washington, DC, and the Members of the Senate who are at least part-time residents of this area, and those portions of the country near a standard meridian, extended Daylight saving time would be very beneficial. The choice must be made with consideration given to the entire population. I suggest that the Senate and each Member weight the liabilities to his or her State, mainly rural citizens, when the time comes to vote on this amendment, and it may be a little while before that time arrives.

I sincerely believe that if the Senate passes extended daylight saving time, it sends a message to middle America, particularly rural areas, that we have given up on rural America.

I would like to allow those citizens on the east coast and the chairman's State on the west coast the opportunity to have an extra hour of daylight in the evening for recreational activities. Unfortunately, by allowing another month of daylight saving time for the east and west coasts, we create more hardships for individuals in the Midwest.

As I said earlier, Mr. President, times are hard enough in largely agricultural States and if we increase daylight saving times, it is just another blow to these citizens.

I am more than willing to debate somewhat longer but for the moment, Mr. President, I yield the floor.

The PRESIDING OFFICER. Is there further debate?

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I am very pleased to join with my distinguished colleagues, the senior Senator from Washington [Mr. GORTON], the senior Senator from California [Mr. CRANSTON], the junior Senator from California [Mr. WILSON], and the junior Senator from Maine [Mr. MITCHELL] in sponsoring this amendment to advance daylight saving time in future years to begin the first Sunday in April. At present, daylight saving time begins the last Sunday in April and ends the last Sunday in October.

As my colleagues are aware, the House of Representatives recently voted a longer extension of daylight saving time under H.R. 2095. This bill would begin daylight saving time the first Sunday in April and end the extension on the first Sunday in November. Recognizing the genuine concerns of several of my colleagues from rural and farming areas, this amendment offers a reasonable compromise to rural concerns while responding to equally important interests of our constituents living in the urban areas.

Mr. President, I, for many years, have been an advocate of daylight saving time, preferably on a year-round basis. I was particularly pleased during the early 1970's at the height of the energy emergency, that Congress voted on legislation similar to a measure that I introduced, to extend daylight saving time for an 8-month period. That 2-year experiment, beginning 1973 through 1975 was widely recognized as one way to help ease the demand for electricity among residential consumers.

While the concerns over energy shortages and gasoline lines have abated, the importance of continuing public awareness of energy conservation has never been questioned. Daylight saving extension along with the continuation of the 55-mile-per-hour speed limit, remind us of our need to maintain conservation and not to become overly dependent upon foreign oil imports.

Mr. President, expanded daylight saving time is important for many other reasons—all linked to noticeable and immediate improvements on the quality of life for all Americans. These direct benefits include reductions in traffic accidents and fatalities, reductions in street crime and additional leisure time.

The National Highway Traffic Safety Administration, for example, predicted there would be significantly fewer traffic fatalities per year if the observance of daylight saving time was extended to include the month of April. In this regard, and in response to the very important concern over schoolchildren waiting for school buses in the early morning hours, studies by the Department of Transportation and the National Bureau of Standards have indicated that during the 2-year experiment in the mid-1970's, there were no school age fatality increases during the months daylight saving time was observed, March and April of 1974.

The National Safety Council and the Department of Transportation also reported that under extended daylight saving time during the period of the experiment, school age children were not subjected to greater involvement in accidents than the general population in any period of the day.

Another significant benefit from the additional period of daylight would be the nationwide reduction in most categories of crime—a problem of major concern for most metropolitan/urban areas. Recent statistics from the Federal Bureau of Investigation confirm this and clearly indicate an increase in violent crime across the country.

In this regard, I ask unanimous consent that statistics compiled by the FBI and information appearing in USA Today of April 24, 1986, citing the increase by major crime in cities over 100,000 population, be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. PELL. Mr. President, without question, an extra hour of daylight occurring at a time when most of the work force is enroute home, would discourage criminals from threatening individuals returning to their families.

These facts are strongly supported by a study conducted by the former Law Enforcement Assistance Administration immediately following the 2-year experiment with daylight saving time. The analysis showed considerably less violent crime for the daylight-saving period when compared to similar periods of time.

Mr. President, it seems clear to me from our experiment with expanded daylight saving time in the 1970's, that the benefits of an additional period of daylight saving time far outweigh the continuation of the present 6-month period. Expanded daylight saving time imposes no additional burdens upon individuals and requires no further involvement by the Federal Government. Clearly, favorable action by the Senate would do much to improve traffic safety, protect our citizens, and enhance the quality of life by providing more leisure time with our families.

I strongly urge my colleagues to support this amendment advancing daylight saving time to the first Sunday in April. I also want to strongly commend my distinguished colleagues, Senator GORTON, Senator MITCHELL, Senator CRANSTON, and Senator WILSON for their continuing vigorous leadership in working to pass this important legislation.

EXHIBIT 1

[From USA Today, Apr. 24, 1986]

BIG-CITY CRIME ROSE IN 1984-85

Major crimes reported to police in cities over 100,000 population rose 4 percent for 1984-85, according to FBI figures. Reports of crime dropped 3 percent in 1982, 7 percent in 1983 and 2 percent in 1984. Police in the affected cities, noting that violent crime grew 5 percent, blame drugs and economic problems. But the nation's statisticians feel the rise may be insignificant. Total crimes reported by city in 1985, and percent changes from 1984:

City	Crimes	Change (percent)

(1) 1984 and 1985 data are not comparable.
(2) 1984 arson data not comparable with 1985.
(3) Complete arson data were not available for 1984 and/or 1985.
(4) Forcible rape figures furnished by the state-level Uniform Crime Reporting (UCR) Program administered by the Illinois Department of State Police were not in accordance with national UCR guidelines.

Trends in all tables of this report are based on the volume of crimes reported by comparable units. Agency reports which are determined to be influenced by change in reporting practices for all or specific offenses, or by annexations, are removed from trend tables.

All 1985 figures are preliminary. Final figures and crime rates per unit of population will be published in "Crime in the United States - 1985" scheduled to be released in the summer of 1986.

UNIFORM CRIME REPORT
1985 PRELIMINARY ANNUAL RELEASE

The number of Crime Index offenses reported to law enforcement agencies throughout the United States increased 4 percent during 1985 when compared to 1984. The violent crimes of murder, forcible rape, robbery, and aggravated assault increased 5 percent as a group while the property crimes of burglary, larceny-theft, and motor vehicle theft increased 4 percent.

During the first quarter of 1985, the increase was 3 percent over the same quarter of 1984. When comparing the second and third quarters of 1984 and 1985, the increase was 7 percent while the fourth quarter increased 3 percent.

Crime Index trends by population groups and by geographic regions appear in Tables 1-3 below.

TABLE 1 - CRIME INDEX TRENDS
Percent change 1985 over 1984, offenses known to the police.

TABLE 4 - CRIME INDEX TRENDS
January through December, each year over previous year.

Years	Crime Index total	Modified total	Violent crime	Property crime	Murder	Forcible rape	Robbery	Aggravated assault	Burglary	Larceny-theft	Motor vehicle theft	Arson*
1982/1981	- 3	- 3	- 3	- 3	- 7	- 5	- 7	+ 8	- 9	- 1	- 2	-12
1983/1982	- 7	- 7	- 5	- 7	- 8	0	- 8	- 2	- 9	- 6	- 5	-11
1984/1983	- 2	- 2	+ 1	- 2	- 3	+ 7	- 4	+ 5	- 5	- 2	+ 2	+ 2
1985/1984	+ 4	+ 4	+ 5	+ 4	+ 1	+ 4	+ 3	+ 6	+ 2	+ 5	+ 6	+ 3

*The Modified Crime Index total is the sum of the Crime Index offenses, including arson. Data for arson are not included in the property crime totals. The number of agency reports used in arson trends is less than used in compiling trends for other Crime Index offenses. It must be noted that the collection of arson data began in April, 1979, with 1980 being the first full year of this data collection.

ISSUED BY William H. Webster, Director, Federal Bureau of Investigation
United States Department of Justice, Washington, D. C. 20535
Advisory: Committee on Uniform Crime Records, International Association of Chiefs of Police;
Committee on Uniform Crime Reporting, National Sheriffs' Association

FBI/DOJ

Mr. CHAFEE. Mr. President, I am a cosponsor of Senator GORTON's amendment to begin daylight saving time the first Sunday in April. I hope my colleagues will join me in supporting this measure that will improve the quality of life of millions of Americans.

Under current law, April sunrises are the earliest of the year. The effect of this amendment would be to transfer an hour of daylight from the earily morning to the early evening for 3 weeks in April. Americans would then have an extra hour of daylight at the end of the day for safer commuting, for play time for children, for shopping, and for leisure time with their families. For those 400,000 Americans who suffer from night blindness the extra evening hour of daylight will have a very important impact on their lives.

In 1974 and 1975 the U.S. Department of Transportation found that extended daylight saving time reduced electric power consumption, saving 100,000 barrels of oil per day, discouraged violent crime, and reduced traffic fatalities.

An extension would also stimulate business activity. More than 8,300 companies from a wide variety of industries have joined forces as the daylight savings time coalition. The coalition estimates that an extension could generate billions of dollars in additional revenues and lead to the creation of many new jobs.

Those who live on the western edge of a time zone may be concerned that their children would leave for school in the dark. The amendment takes this concern into account by limiting the extension to April. During those 3 weeks in April the Sun would rise and set about the same time it does now in mid-August and early September.

Time is our most valuable but fleeting resource. An extension will enable Americans to use and enjoy their time more fully. And that is why I ask my colleagues to support the extension of daylight savings time to the first Sunday in April.

Mr. MITCHELL. Mr. President, the distinguished Senator from Washington has in my judgment eloquently and with careful marshaling of the evidence set forth the reasons why this amendment should be adopted by the Senate.

□ 1600

It is not my intention to repeat the statements which he has made. I would like to address just briefly one question raised by the opponents and then insert some material in the RECORD before I conclude.

The opponents argue in opposition to this amendment in part on the grounds that the National Association of Broadcasters opposes an extension of daylight saving time because, according to that organization, any change may well affect and disrupt the balancing of interests among AM radio broadcasters. In particular, they object to any amendment in which Congress sets what are known as sign-on times for daytime broadcasters.

I would note, Mr. President, that this amendment offered by the Senator from Washington and myself does not attempt to set sign-on times for daytime broadcasters. It recognizes the Federal Communications Commission's technical expertise in this area and enables the Commission to make any necessary adjustments by general rules consistent with the public interest.

So the basis of the concern by the National Association of Broadcasters has been accommodated by the amendment which gives the FCC that flexibility.

Daytime radio stations begin broadcasting at sunrise and, therefore, they fear that daylight saving time's later sunrises would cut into their morning drive time. However, it should be emphasized that, if this amendment is enacted and becomes law, daylight saving time in April would not subject them or anyone else to sunrises any later than already take place in the fall under the current system.

The Federal Communications Commission already has mitigated the impact of daylight saving time by granting daytimers what is known as presunrise authority in which stations can sign on at 6 a.m. regardless of sunrise time but at reduced power. So I believe, Mr. President, that the concerns of AM radio broadcasters are accommodated in this amendment.

With respect to the question of safety, in 1975, when daylight saving time was being considered by the Senate, the National Safety Council issued a statement based upon a study which concluded that there was no increase in school-age traffic fatalities due to daylight saving time.

On November 11, 1985, the director, Standards and Governmental Relations of the National Safety Council wrote to the Senate Commerce Committee regarding that study, in effect stating that its conclusions were still valid. And I would like to quote briefly from that letter of November 11, 1985, which reads, in part:

> The statement summarizes results of two studies the National Safety Council conducted in the early 1970's concerning school child traffic fatalities arising out of changing the daylight saving time cycle. In summary, the studies indicate that extending the daylight saving time cycle would not have any appreciable effect on the number of school age children or pedal-cyclists killed in traffic accidents while going to or from school. We do not know of any other similar studies conducted by any other organization since 1975, nor do we have reason to believe that the results of the Council's studies are not still valid.

I ask unanimous consent, Mr. President, that both of these documents be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NO INCREASE IN SCHOOL-AGE TRAFFIC FATALITIES DUE TO DAYLIGHT SAVINGS TIME, NATIONAL SAFETY COUNCIL SAYS

CHICAGO.—Daylight savings time means traveling to school in darkness for many young persons; but according to the National Safety Council, the change in lighting has had little or no effect on the number of early-morning fatalities among school-age children.

"The Council's statistics department surveyed all 50 states and the District of Columbia to determine if there was any increase in the number of school-child fatalities for January, 1974, as compared with January, 1973," NSC President Vincent Tofany explained.

"The survey respondents, who represented 75 percent of our population in 42 states and the District of Columbia, showed no appreciable difference between the two months in the number of early-morning pedestrian and pedalcycle fatalities experienced by children 4 through 18 years old," he said.

According to the Council, 20 traffic fatalities were recorded in January, 1974, among children aged 4 through 18 walking or pedaling during the going-to-school hours from 6:00 a.m. to 9:00 a.m. By comparison, 19 fatalities were recorded for January, 1973.

Thirteen of the 20 youthful traffic fatalities in January, 1974, were children under 14 years old, Council spokesmen said. Eleven of the 19 fatalities recorded for January, 1973, were under 14 years old.

Over a 24-hour period, school-age traffic deaths throughout the United States were down from 76 fatalities in January, 1973, to 55 fatalities in January, 1974, the Council reported.

"Of the forty-three reporting agencies, twenty-nine states and the District of Columbia showed either no changes or decreases in the number of school-age fatalities," Tofany said. "Three states—Alaska, Arizona and Idaho—were not included in the survey since they had not shifted over to daylight savings time. Ten states—Florida, Nevada, Virginia, Illinois, New Mexico, Wisconsin, Connecticut, Louisiana, North Carolina and Pennsylvania—had increases in the number of schoolage traffic fatalities."

Of the states with increased fatalities, Florida, according to the Council, showed the biggest increase—up five fatalities in January, 1974, as compared with January, 1973. Council spokesmen said Illinois showed the second largest increase—up four fatalities. Connecticut and North Carolina both showed increases of three fatalities, while the remaining six states reported increases of one school-age fatality each.

NATIONAL SAFETY COUNCIL,
November 11, 1985.

MR. CHARLES FAUST,
Senate Commerce Committee,
Hart Senate Office Building,
Washington, DC.

DEAR MR. FAUST: Concerning the issue of the extension of daylight saving time, enclosed is a statement the National Safety Council presented to the Senate Commerce

Committee November 13, 1975 on amendments to the "Uniform Time Act of 1966."

The statement summarizes results of two studies the National Safety Council conducted in the early 1970's concerning school child traffic fatalities arising out of changing the daylight saving time cycle. In summary, the studies indicate that extending the daylight saving time cycle would not have any appreciable effect on the number of school age children or pedalcyclists killed in traffic accidents while going to or from school. We do not know of any other similar studies conducted by any other organization since 1975, nor do we have reason to believe that the results of the Council's studies are not still valid.

Extending the daylight saving time to the first Sunday in November would provide an additional hour of p.m. daylight for the Halloween trick-or-treaters and presumably this may have some minor effect on accidents involving this group.

Sincerely,

ROBERT CURRIE,
Director, Standards and Governmental Relations.

(Mr. WILSON assumed the chair.)

Mr. MITCHELL. Finally, Mr. President, I would like to quote from a letter dated May 7, 1986, addressed to the majority leader from the Secretary of Transportation, Elizabeth Hanford Dole, who expressed her support for starting daylight saving time earlier in April as contained in this amendment. In part, the Secretary of Transportation's letter reads:

Studies by the Department of Transportation and other agencies of government—Federal, State, and local—plus American industry have shown that this step would reduce deaths, injuries, and property damage on our highways, while making more efficient use of energy and reducing certain types of crime. On the basis of 1983 figures, DST in April would reduce traffic deaths nationwide by a minimum of 22, injuries by a minimum of 1525, and societal costs from auto accidents by a minimum of $28 million. I emphasize that each of these figures is a minimum, with possible savings being as much as twice as large.

The current law—the Uniform Time Act of 1966—does not require that anyone observe DST, it merely establishes a uniform pattern for each year's observance. The majority of the American people were already observing DST in 1966 because they knew of its advantages. Studies over the last twelve years have consistently shown that the American people want more of these advantages, but are prevented from doing so by Federal law.

I note also that the bill would not push DST into November, and so would not cause uncomfortably late sunrises for any part of the country. It would also not increase the traffic hazard faced by any part of our population, including school-age children.

Mr. President, I ask unanimous consent that the full text of the letter from the Secretary of Transportation to the majority leader, dated May 7, 1986, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF TRANSPORTATION,
Washington, DC, May 7, 1986.

Hon. ROBERT DOLE,
U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR BOB: I write to you today to reiterate my support for starting daylight saving time (DST) earlier in April. This proposal will be considered as floor amendment 1793 to S. 2180.

Studies by the Department of Transportation and other agencies of government—Federal, State, and local—plus American industry have shown that this step would reduce deaths, injuries, and property damage on our highways, while making more efficient use of energy and reducing certain types of crime. On the basis of 1983 figures, DST in April would reduce traffic deaths nationwide by a minimum of 22, injuries by a minimum of 1525, and societal costs from auto accidents by a minimum of $28 million. I emphasize that each of these figures is a minimum with possible savings being as much as twice as large.

The current law—the Uniform Time Act of 1966—does not require that anyone observe DST, it merely establishes a uniform pattern for each year's observance. The majority of the American people were already observing DST in 1966 because they knew of its advantages. Studies over the last twelve years have consistently shown that the American people want more of these advantages, but are prevented from doing so by Federal law.

I note also that the bill would not push DST into November, and so would not cause uncomfortably late sunrises for any part of the country. It would also not increase the traffic hazard faced by any part of our population, including school-age children.

The bipartisan effort to extend DST deserves your support. Please contact me if I can be of further assistance.

Sincerely,

ELIZABETH HANFORD DOLE.

Mr. MITCHELL. In conclusion, Mr. President, I urge the Members of the Senate to vote for this amendment on the grounds that it is a small but commonsense proposal for the benefit of our Nation.

I yield the floor.

Mr. FORD. Mr. President, the distinguished Senator from Maine has made some statements relating to the reduction of fatalities, probable electricity savings, and so forth, and about daytime radio.

I think it is important that we look at those who are most concerned about the so-called daytime radio stations. I have a letter written on March 12, another one on March 24, and another one on March 19. I would like to read those.

□ 1610

These letters are signed by Edward O. Fritts, president and chief executive officer of the National Association of Broadcasters, and John F. Dille III, chairman of the Radio Board. The letter written on March 12 said,

DEAR SENATOR FORD: It is my understanding that the Committee on Commerce, Science, and Transportation is scheduled to consider H.R. 2095, or Senate Bill 1433, the Daylight Saving Extension Act of 1985.

This is the Senate bill they refer to that is being tacked onto this bill as an amendment. And this is a line I think that is important.

The National Association of Broadcasters is opposed to this bill. The proposed legislation would seriously impact on radio broadcasters. In order to avoid interference of the AM band, the Federal Communications Commission has struck a delicate balance between various classes of AM radio stations. This involves the use of directional antennas, reduced power levels, and daytime only stations.

Let us go back. The FCC has struck a delicate balance, and this amendment will fracture the delicate balance that has been struck by the Federal Communications Commission.

The Federal Communications Commission has on several occasions in recent years taken action to preserve that balance. Therefore, any change in daylight savings time may well affect and disrupt the balancing of interest among AM radio broadcasters. In particular, any amendment in which Congress sets "sign on" times for daylight broadcasters will harm other segments of the AM radio industry, and place the Congress in the position of usurping the FCC's technical expertise.

How can you expect the FCC to change the delicate balance just because this amendment gives it the authority to do just that? They have already done it. And when you extend daylight saving time for 3 additional weeks, you fracture that delicate balance.

Should the committee take any action, NAB believes the language in section 5 of the House-passed bill is from a policy standpoint the best way to proceed. This will afford all interested parties the opportunity to present their case to the expert agency. Thank you for your attention on this important issue. I look forward to working with you in the future.

Then, again on March 24, both the president and chief executive officer and chairman of the radio board wrote another letter. It says:

DEAR SENATOR FORD: It is our understanding that the proponents of S. 1433—

That is, in essence, the amendment that we are discussing now.

—the Daylight Saving Extension Act of 1985 may by planning to add their bill in the form of an amendment—

Well, that is just exactly what has happened.

—to legislation that will come before the full Senate for consideration in the near future. The National Association of Broadcasters is opposed to this legislation.

They are reiterating their opposition in their letter of March 12 and their letter of March 24.

The proposed legislation would seriously impact on radio broadcasting in order to avoid interference on the AM band. The FCC—

And they reiterate.

—has struck a delicate balance between various classes of radio. We hope that you will

exert your opposition against this legislation.

Again on April 9, these two fine gentlemen have gone from signing the letter in their full names to just saying Eddie and John. We have been corresponding with each other so much in opposition to this piece of legislation. They say on March 24, 1986,

We wrote you to alert you to a possible attempt by proponents of Senate bill 1433 to add their bill in the form of an amendment to legislation currently on the Senate Calendar. We now have learned that the vehicle to which they are planning to offer their amendment is S. 2180, the FEMA reauthorization bill.

That is exactly what is happening, Mr. President.

And we reiterate that the National Association of Broadcasters strongly oppose S. 1433 and urges that you oppose this attempt in securing the passage of this amendment.

And they reiterate their positions in the other two letters.

Mr. President, we are finding another factor that has been inserted into this debate as it relates to the disruption of approximately 450 small radio stations throughout this country.

Let us talk a little bit about what the distinguished Senator from Maine said in his statement in regard to probable electricity savings of 1 percent—probable savings. It is only probable, and extremely difficult to isolate from seasonal variations higher rates in fuel availability.

How can you really say that you will probably save 1 percent? I could say you probably would lose 1 percent, and would not be misrepresenting anything. Also, in some areas such as Louisville, on the westernmost fringe of the time zone, daylight comes almost an hour later than on the east coast. So consumption is actually increased for my people. As they get up an hour earlier in the dark, go to work earlier, turn their lights on sooner, turn the heat up earlier, and they are in effect subsidizing—that is that one-third we talked about. The Senator from Washington said that two-thirds of the people of this country want extended daylight savings time. But the full fact is that the other one-third will be subsidizing the savings of the people particularly on the east and west coasts.

Also, how significant is 1 percent or the probable saving of 1 percent? That translates to six-tenths of 1 percent of our daily consumption of 17 million barrels of oil a day, or the equivalent of approximately 100,000 barrels of oil per day. However, the saving is not all in oil. About 50 percent of that could be in coal.

Reduction of traffic fatalities; let us look at that just a minute—seven-tenths of 1 percent. The Department of Transportation analysis believes that further study may show that daylight saving time actually reduces the fatalities on the order of 1½ to 2 percent. Let us go back to why.

Let us go back to why we have less fatalities. We cannot find out, and testimony in the House actually says that the Department of Transportation did not weigh other factors in this judgment such as reducing the speed to 55-miles per hour. Everyone knows that is the factor that saves lives. It is irrefutable. Yet, we find my colleagues here saying that daylight saving time takes all the credit. You just have to think that is a little irresponsible in saying that daylight saving time would reduce traffic fatalities when we all know that it was the 55-miles per hour that did it.

□ 1620

It is my understanding, Mr. President, that the distinguished Senator said that we would only have to tolerate 6 weeks of additional darkness in the western part of each time zone. Our children go to school in the dark the rest of the time, so we might as well just go ahead and go to school in the dark for 6 more weeks.

The National Bureau of Standards, which reviewed the Department of Transportation conclusions as to energy savings and as to fatalities, confirms the need for extreme caution in drawing even tentative conclusions.

Think about that. The National Bureau of Standards warns us and says to use extreme caution in drawing even tentative conclusions, and a particularly careful analysis of the data base used by the Department of Transportation in studying fatal accidents and electricity production reveals several respects in which these data are faulty.

That is the National Bureau of Standards.

The data available did not include, and so the Department of Transportation testified before the house committee, information about factors other than daylight saving time that would influence electricity usage, traffic fatalities, for example, interlocking factors, energy conservation factors, gasoline shortages, carpooling, speed limit. All these things were never factored in. The Department of Transportation agreed.

So the word "probable" is used now, probable savings.

When all these things are not factored in, you know and I know that those statistics in reality are wrong.

The National Bureau of Standards in their review subjected the data to additional analyses subsequent to those already carried out by the Department of Transportation. The methodology used in the Department of Transportation study represents standard techniques of analysis. In several instances, however, the National Bureau of Standards found the data unsuitable for application of these methods.

So we are here today to debate. We are here to try to express our feelings, the feelings of our constituents. I hope those who support this amendment will exercise what I believe to be their better judgment. Really, when you get down to it, you are not helping the schoolchildren, you are not helping the farmers, you are not saving oil, you are not saving the use of coal, you are really not doing all of these things.

In the study as it relates to reduction of crime, the answer to that, by some, is that the criminal does not worry about the clock. He does not care what time it is. It is just whether it is dark or not. So he will go whenever it is dark.

A study on the impact of daylight saving time on crime—and that was conducted in Washington, DC, and Los Angeles, by the way—indicates a reduction involving crime for daylight saving time periods in Washington, DC, compared to the standard time period from 1973 to 1975.

My goodness, and this is 1986.

There was no impact found in L.A. because the data was too coarse. LEAA cautions against any generalization from the limited data base of the study. They did not even factor into this study the effects of high-intensity lighting or police. All these things were not factored in. How can you have real life study when you do not put in all the facts?

It is just like leaving out certain factors as relates to the saving of energy.

We see a lot of polls that are taken, and we hear a lot of percentages read. None of us have seen the basic use of that poll, whether it was a national, well-distributed poll as we would think in the political arena, how the questions were phrased, whether the poll was taken in all of the lower 48, or just taken in regional areas.

I just think, Mr. President, that this amendment is not fair. It just seems to me you could put in what factors you want and come up with the percentage you desire, and then lay that down as a study, as fact. Then you begin to question and the admissions begin to roll—"No, we did not put that in; no, we did not consider that; this was taken 11 years ago, it was taken 12 years ago." What about today?

Are we interested in saving oil today? Of course not. The price of gasoline is down so low we just want to store it because we know it is going up. But no one is really concerned about saving oil today, and this bill will not save any.

I hope that as we debate this the rest of the evening and tomorrow we will be able to reach the conclusion that, as the lady wrote to me, it seems like those of us who do not want daylight saving time can stand 6 months

of daylight saving time and those who want more daylight saving time ought to be able to stand 6 months without it.

That is fair. That is down the middle. It is equal to everybody. Whatever problems we have today will be no more next year than they are now. If we pass this amendment we will have more problems next year. Those additional problems will extend. As time changes, we will probably want to go back to just the Memorial Day to Labor Day. But that is the way it is. That is the way it is.

□ 1630

We are saying to one-third of the population of this country, "You subsidize that other two-thirds so they can play tennis here, in Washington, and barbeque on the east and west coasts."

Mr. President, I yield the floor.

Mr. BUMPERS addressed the Chair.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. BUMPERS. Mr. President, I want first to say to my colleague from Kentucky, Senator FORD, that, on the amendment that we had previously indicated we would offer today or tomorrow on scrambling of satellite television signals, I am pleased that there has been an agreement by the distinguished manager of this bill [Mr. GORTON], for a hearing on July 15, 16, or 17. But I want to say the reason I rise today is to serve notice that the hearings may or may not result in what I consider is the elimination of discrimination against rural America on the question of the marketing of scrambled satellite television signals.

I think that my Senate colleagues should know that Senator FORD and I were not planning to offer an amendment to confuse the matter or to deprive the networks or any of the other independent networks, such as ESPN, CBN, CNN, and so on, of their just dues. On the contrary, we have said repeatedly and I repeat now that the people from whom I am receiving letters on this issue in rural America—who have already invested anywhere from $2,000 to $10,000 in a satellite dish and who are now being asked to pay $400 for a decoder because everybody is going to start scrambling—have never suggested in any of the correspondence I have received that they are looking for something for nothing. What they want is fairness. They are willing to pay a reasonable price to receive a scrambled signal. But they have had to make a substantial investment—say $5,000—for a dish which their city cousins never had to make; they also had to pay $400 for a decoder which their city cousins never had to pay. Further, with regard to HBO, the average charge for descrambling HBO's signal is 29 percent higher than their city cousins have to pay, assuming their cousins pay the national retail average for HBO.

I take the position that if we do nothing, it discriminates against the 1,400,000 dish owners who live outside a cable franchise area. We have people in Arkansas who, until the satellite dishes came along, never received a signal of any kind. We have areas of my State—in the Ouachitas and the Ozarks—which are not dissimilar from the mountains of Virginia and West Virginia. If you live down in a valley, chances are you are not going to get a television signal of any kind.

Right now, there are a lot of people upset. I never heard from anybody until the word got out last Thursday and Friday that Senator FORD and I were going to offer this amendment. Suddenly, I am hearing from many network executives and cable operators. All I ever asked for in the beginning was hearings on this matter to determine whether of not the antitrust laws were being enforced and whether or not an interindustry discussion would violate the antitrust laws. Why not let the interested industries discuss some reasonable formula for resolving this knotty problem?

The problem is not going to go away. If we are getting hearings—and I want to make this crystal clear—as simply a temporary palliative so we will not offer this amendment, I promise, we will be back.

I have perhaps a greater interest than some of my colleagues have, although any Senator from a rural State has assuredly heard from any of his constituents who have satellite antennas. I have a greater interest in this because a year ago, 2,500 people in my State were engaged in the manufacture of these dishes. We are either the largest or the second-largest State in the Nation in the manufacture of satellite dishes. There were 2,500 people in my State manufacturing satellite antennas a year ago. Today, that figure is down to 500. Sales have declined 80 percent in the past year. Why? because of two things: The exorbitant cost that people must pay to receive programs and the uncertainty as to whether or not every signal is going to be scrambled and at what cost to dish owners.

Does it make any sense to my colleagues for a worker, we will say, who lives 1 mile beyond a franchise zone of a cable company to pay more than his brother, who happens to live a mile and a half inside it? His brother gets almost everything this gentleman is getting simply because he lives just inside a cable system for $35 a month. If the dish owner gets any of it, he has to make anywhere from a $2,000 to $10,000 investment, pay the $395 for the decoder and then negotiate a deal for each channel; $12.95 is the going rate for HBO, 29 percent higher than the average cost if you happen to live in town.

I ask you, Mr. President, is that discriminatory or not? I believe in the free marketplace and I have been told, "Don't worry about it. The prices of these decoders are going to decline." When? How much? The decoder right now is $395. It is generally conceded that that decoder should cost the customer between $175 to $195. That would be a fair price for it.

Why are we delaying an issue which is so patently discriminatory? There is a woman who lives in my State named Dianne Davis. She and her husband live in St. Joe. St. Joe is a community of probably no more than 500 or 700 people. They live just outside of town and they happen to live down in a valley—or at least, they live behind a high mountain. Until 7 years ago, they got nothing—no signal. Nobody worried about them. They chose to live in a geographic area where they could not get a signal. So they make a $5,000 investment and they begin to get the news like everybody else in America. I am told that 75 percent of the people in this country depend almost exclusively on television for all their news. I do not think that applied to Dianne and her husband, but nevertheless, they are in the same position as 400,000 American homes who, without a satellite dish, can get no television signal.

Think about this: They are going to have to buy a decoder just to get the news. They are going to have to buy a decoder to get the networks which you can get in town without even being on cable, and only then if the networks agree to making their scrambled signal accessible.

I bought a new television set for my apartment in Little Rock the other day, and I brought it in and set it up on a table and I lifted the rabbit ears and I got five stations immediately. Dianne Davis could buy a television set and put up an antenna 200 feet high and she still could not get any kind of signal. And now the networks are talking about scrambling. CBS is getting ready to scramble before the date for these hearings. They are not planning to make their signal accessible at all.

So the networks are going to scramble. They and others are going to scramble a signal to get at the roughly 400,000 people who live inside cable areas and have dishes in order to keep them from getting an advertiser-free cable signal. In the process, they are depriving another 1½ million people who have satellite dishes from getting their signal at all. We simply must resolve this knotty problem, and I hope hearings will accomplish this.

□ 1640

Now, if you want to stand on the proposition that the free marketplace will resolve this, that is one way of resolving it. But it is going to create a tremendous financial burden on a lot of people and most of them will not be able to afford it.

Mr. President, I ask unanimous consent to place in the RECORD a list of the various programmers and their plans to scramble as best we can figure it out. This is our factsheet. This is something we have put together on our own. But it will give some idea of the urgency of the situation. For example: BET, Black Entertainment Television, plans to scramble in 1987; CBN, the fourth quarter of 1986; CNN, July 1986; Cinemax, January 1986. They are already scrambling. Disney channel, July 1986; ESPN, late 1986; Financial News Network, no firm date; CNN Headline News, July 1986; Home Box Office, January 1986. They are already scrambling. Lifetime, 1987; MTV, July 1986. Another that will be scrambled by the time we complete hearings. And the list goes on and on. Almost every one of them plan to scramble before the end of this year.

If each one that plans to scramble before the end of this year charged the consumer $5 to unlock their particular signal, the cost will be about $60 to $80 a month for rural people, for something that people in town get for a maximum of $40.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

SCRAMBLING PLANS

BET (Black Entertainment TV)—1987.
Bravo—No firm date.
CBN—4th Quarter, 1986.
CNN—July 1986.
Cinemax—January 1986.
Disney Channel—July 1986.
ESPN—Late 1986.
Financial News Network—no firm date.
CNN Headline News—July 1986.
Home Box Office—January 1986.
Home Theater Network—no firm date.
Lifetime—1987.
MTV: Music Videos—July 1986.
The Movie Channel—May 1986.
The Nashville Network—No firm date.
Nickelodeon—July 1986.
Playboy Channel—1987.
Showtime—May 1986.
TEMPO—September 1986.
USA Cable Network—Fourth Quarter, 1986.
VH-1 Video Hits—July 1986.
WOR (superstation)—March 1986.
WTBS—September 1986.

NETWORK FEEDS

NBC: Most broadcasting to affiliates over cable lines, except some news.
ABC: Plans to scramble in 1987.
CBS: Scrambles part time beginning May 27, 1986; no plan to allow access to dish owners.

Mr. President, there is a problem of equity here. We are not trying to hurt anybody. It is my firm conviction that this can be resolved in a way that is fair to the rural dish owners, fair to the cable television companies across America, fair to the networks, and fair to all of those independent networks I mentioned.

The reason we want hearings is to decide what the fairest and best way to resolve the issue may be. We have no intention of trying to do economic harm to any of these people. By the same token, I admit that my interest is in protecting people who have nobody else to protect them except their elected representatives.

So, Mr. President, I rose today not to talk about daylight saving time. I intend to support the Senator from Kentucky on that issue. I just want to say this issue is not going to be over if it is not resolved in some kind of fair manner for the rural satellite dish owners of American.

U.S. FIRE ADMINISTRATION AND THE NATIONAL FIRE ACADEMY

(By request of Senator GORTON, the following statement was ordered to be printed in the RECORD.)

● Mr. MATHIAS. Mr. President, I want to commend the Senator from Washington [Mr. GORTON] for his leadership on funding for the U.S. Fire Administration and the National Fire Academy.

The budget resolution recently passed by the Senate, with my support, calls for unspecified additional savings in activities with the jurisdiction of the Federal Emergency Management Administration. The fire prevention, education and control activities to be authorized by S. 2180 fall with this jurisdiction.

However, I believe it would be a serious mistake to try to achieve these savings by terminating or drastically reducing funding for the U.S. Fire Administration and the National Fire Academy. Fire is one of the leading causes of death in this country. Too often it is reported that this needless loss of life could have been prevented through a smoke alarm, better building materials and, most important, better education and information. Spending can be reduced in other areas of the Federal Government's emergency management activities if necessary to meet the targets contained in the resolution.

S. 2180 already reflects the goal of reducing Federal spending. The bill provides an 18-percent cut from the fiscal year 1986 authorization for the U.S. Fire Administration and a 7-percent cut from the current appropriation for the National Fire Academy.

The bill will support the Academy as well as other programs by continuing the valuable courses of instruction provided to firefighters and other emergency personnel. It will also restore the travel stipends and lodging costs for the students. This is important to many local jurisdictions who are unable to afford the costs of sending their people for this vital training.

Many of the 12,000 people per year who train at the Academy are volunteer firefighters. They attend the weekend programs and without the National Fire Academy, these dedicated people would not be able to learn from the professional staff.

The programs authorized under the Fire Prevention and Control Act of 1974 are too important to lose. We simply cannot afford to have the activities of the U.S. Fire Administration and the National Fire Academy eliminated or reduced. As a cosponsor of S. 2180, I look forward to working with my colleagues to find ways to make the required budget savings without impeding essential Federal efforts in the field of fire prevention and control.●

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk, proceeded to call the roll.

□ 1720

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescined.

The PRESIDING OFFICER. (Mr. MCCONNELL). Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that there now be a period for the transaction of routine morning business, not to extend beyond the hour of 6 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

MESSAGES FROM THE PRESIDENT RECEIVED DURING THE ADJOURNMENT

Under the authority of the order of the Senate of January 3, 1985, the Secretary of the Senate, on May 16, 1986, received the messages from the President of the United States transmitting sundry nominations, which were referred to the appropriate committees.

(The nominations received on May 16, 1986 are printed at the end of the Senate proceedings.)

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United

States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 12:41 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has agreed to the following concurrent resolution, with an amendment, in which it requests the concurrence of the Senate:

S. Con. Res. 120. A concurrent resolution setting forth the congressional budget for the United States Government for the fiscal years 1987, 1988, and 1989.

The message also announced that the House has passed the following joint resolution, in which it requests the concurrence of the Senate:

H.J. Res. 636. Joint resolution designating June 26, 1986, as "National Interstate Highway Day."

The message further announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 310. A concurrent resolution to express the sense of Congress with respect to agricultural loan restructuring and interest rates.

ENROLLED BILL AND JOINT RESOLUTIONS SIGNED

At 1:10 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker has signed the following enrolled bill and joint resolutions:

H.R. 4382. An act to require the Architect of the Capitol to place a plaque at the original site of Providence Hospital;

H.J. Res. 234. Joint resolution designating the week of May 18, 1986, through May 24, 1986, as "National Food Bank Week";

H.J. Res. 427. Joint resolution designating the week beginning on May 11, 1986, as "National Asthma and Allergy Awareness Week";

H.J. Res. 492. Joint resolution to designate the week of June 1, 1986, as "National Neighborhood Housing Services Week";

H.J. Res. 613. Joint resolution allowing qualified persons representing all the States to be naturalized on Ellis Island on July 3 or 4, 1986;

S.J. Res. 246. Joint resolution to designate May 25, 1986, as "Hands Across America Day", for the purpose of helping people to help themselves, and commending United Support of Artists for Africa and all participants for their efforts toward combating domestic hunger with a four thousand mile human chain from coast to coast;

S.J. Res. 266. Joint resolution to authorize and request the President to designate the month of June 1986 as "Youth Suicide Prevention Month";

S.J. Res. 271. Joint resolution designating "Baltic Freedom Day"; and

S.J. Res. 337. Joint resolution designating May 18-24, 1986 as "Just Say No to Drugs Week".

The enrolled bill and joint resolutions were subsequently signed by the President pro tempore (Mr. THURMOND).

MEASURES REFERRED

The following joint resolution was read the first and second times by unanimous consent, and referred as indicated:

H.J. Res. 636. Joint resolution designating June 26, 1986, as "National Interstate Highway Day"; to the Committee on the Judiciary.

The following concurrent resolution was read, and referred to as indicated:

H. Con. Res. 310. Concurrent resolution to express the sense of Congress with respect to agricultural loan restructuring and interest rates, to the Committee on Agriculture, Nutrition, and Forestry.

MEASURE HELD AT THE DESK

The following concurrent resolution was ordered held at the desk by unanimous consent until the close of business on May 20, 1986:

S. Con. Res. 140. Concurrent resolution to pay tribute to the late William C. Lee and to designate June 6, 1986, as "William C. Lee Day".

ENROLLED JOINT RESOLUTION PRESENTED

The Secretary of the Senate reported that on today, May 19, 1986, she had presented to the President of the United States the following enrolled joint resolutions:

S.J. Res. 246. Joint resolution to designate May 25, 1986, as "Hands Across America Day", for the purpose of helping people to help themselves, and commending United Support of Artists for Africa and all participants for their efforts toward combating domestic hunger with a four thousand mile human chain from coast to coast;

S.J. Res. 266. Joint resolution to authorize and request the President to designate the month of June 1986 as "Youth Suicide Prevention Month";

S.J. Res. 271. Joint resolution designating "Baltic Freedom Day";

S.J. Res. 337. Joint resolution designating May 18-24, 1986 as "Just Say No to Drugs Week".

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-3161. A communication from the Administrator of the General Services Administration transmitting, pursuant to law, a report on a violation of the Anti-Deficiency Act in the Federal Telecommunications Fund; to the Committee on Appropriations.

EC-3162. A communication from the Acting Assistant Secretary of State transmitting, pursuant to law, a report that the President has determined it to be in the national interest to extend credit in excess of $50 million to the People's Republic of China for purposes of two thermal power stations; to the Committee on Banking, Housing, and Urban Affairs.

EC-3163. A communication from the Secretary of the Interior transmitting, pursuant to law, the annual report on the Youth Conservation Corps; to the Committee on Energy and Natural Resources.

EC-3164. A communication from the Administrator of the General Services Administration transmitting, pursuant to law, a lease prospectus for acquisition of space for the IRS in Philadelphia, PA.; to the Committee on Environment and Public Works.

EC-3165. A communication from the Director of OIRM, Department of the Interior, transmitting, pursuant to law, a report on an altered Privacy Act system of records; to the Committee on Governmental Affairs.

EC-3166. A communication from the chairman of the Council on Environmental Quality transmitting, pursuant to law, the council's 1985 Government in the Sunshine report; to the Committee on Governmental Affairs.

EC-3167. A communication from the special counsel, Merit Systems Protection Board, transmitting, pursuant to law, a report on an investigation by the Secret Service into allegations of misuse of Government vehicles and misconduct by employees of the U.S. Mint in San Franscisco; to the Committee on Governmental Affairs.

EC-3168. A communication from the Director of the Office of Personnel Management transmitting, pursuant to law, an interim report on changes in matters to be reported in the biennial report on the Senior Executive Service; to the Committee on Governmental Affairs.

EC-3169. A communication from the Assistant Secretary of the Interior transmitting, pursuant to law, a plan for the use of funds awarded the White Earth Band of Chippewa Indians; to the Select Committee on Indian Affairs.

EC-3170. A communication from the director of the National Legislative Commission of the American Legion transmitting, pursuant to law, the Legion's financial statements for 1985; to the Committee on the Judiciary.

EC-3171. A communication from the Secretary of Education transmitting, pursuant to law, notice of final funding priorities for projects initiating special recreation programs for handicapped individuals; to the Committee on Labor and Human Resources.

EC-3172. A communication from the Secretary of Education transmitting, pursuant to law, final regulations under the Education Consolidation and Improvement Act; to the Committee on Labor and Human Resources.

REPORTS OF COMMITTEES SUBMITTED DURING THE ADJOURNMENT

Under the authority of the order of the Senate of May 15, 1986, the following reports of committees were submitted on May 16, 1986, during the adjournment of the Senate:

By Mr. ROTH, from the committee of conference:

Report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2672) to redesignate the New York International and Bulk Mail Center in

Jersey City, NJ, as the "New Jersey International and Bulk Mail Center," and to honor the memory of a former postal employee by dedicating a portion of a street at the New York International and Bulk Mail Center in Jersey City, NJ, as "Michael McDermott Place" (Rept. No. 99-302).

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. THURMOND, from the Committee on the Judiciary, with an amendment in the nature of a substitute:

S. 1822. A bill to amend the Copyright Act in section 601 of title 17, United States Code, to provide for the manufacture and public distribution of certain copyrighted material (with minority views) (Rept. No. 99-303).

By Mr. ROTH, from the Committee on Governmental Affairs, without amendment:

S. Res. 410. An original resolution waiving section 303(a) of the Congressional Budget Act of 1974 with respect to the consideration of the conference report on H.R. 2671.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HEINZ (for himself and Mr. DANFORTH):

S. 2464. A bill to require Senate confirmation of appointments of the Chairman and Vice Chairman of the U.S. International Trade Commission; to the Committee on Finance.

By Mr. HATCH (for himself, Mr. KENNEDY, Mr. DOLE, Mr. BRADLEY, Mr. CHILES, Mr. NICKLES, Mr. HUMPHREY, Mr. ZORINSKY, Mr. RIEGLE, Mr. INOUYE, Mrs. HAWKINS, Mr. GRASSLEY, Mr. MATSUNAGA, Mr. MURKOWSKI, Mr. BURDICK, Mr. WILSON, Mr. HOLLINGS, Mr. CRANSTON, Mr. MCCLURE, Mr. TRIBLE, Mr. SPECTER, Mr. THURMOND, Mr. ANDREWS, Mr. KERRY, Mr. DODD, Mr. GRAMM, and Mr. D'AMATO):

S.J. Res. 349. Joint resolution to designate the week of May 25, 1986, through May 31, 1986, as "Critical Care Week"; to the Committee on the Judiciary.

By Mr. LUGAR (for himself, Mr. ABDNOR, Mr. BENTSEN, Mr. BOSCHWITZ, Mr. BURDICK, Mr. CHAFEE, Mr. COCHRAN, Mr. COHEN, Mr. CRANSTON, Mr. DIXON, Mr. DOLE, Mr. HATCH, Mrs. HAWKINS, Mr. HOLLINGS, Mr. INOUYE, Mr. KERRY, Mr. MATHIAS, Mr. MATSUNAGA, Mr. MELCHER, Mr. MURKOWSKI, Mr. NICKLES, Mr. NUNN, Mr. PELL, Mr. QUAYLE, Mr. SARBANES, Mr. TRIBLE, Mr. WEICKER, Mr. WILSON, and Mr. ZORINSKY):

S.J. Res. 350. Joint resolution to designate 1987 as "The National Year of the Americas"; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MATTINGLY:

S. Res. 409. A resolution to express the sense of the Senate that the tax reform legislation, when that bill is signed into law, remain unchanged for a minimum of 5 years for the purpose of promoting economic growth and opportunity; to the Committee on Finance.

By Mr. ROTH, from the Committee on Governmental Affairs:

S. Res. 410. An original resolution waiving section 303(a) of the Congressional Budget Act of 1974 with respect to the conference report on H.R. 2672; to the Committee on the Budget.

By Mr. SYMMS:

S. Res. 411. A resolution expressing the support and encouragement of the Senate for those working for freedom and against communism in Southwest Africa/Namibia; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HATCH (for himself, Mr. KENNEDY, Mr. DOLE, Mr. BRADLEY, Mr. CHILES, Mr. NICKLES, Mr. HUMPHREY, Mr. ZORINSKY, Mr. RIEGLE, Mr. INOUYE, Mrs. HAWKINS, Mr. GRASSLEY, Mr. MATSUNAGA, Mr. MURKOWSKI, Mr. BURDICK, Mr. WILSON, Mr. HOLLINGS, Mr. CRANSTON, Mr. MCCLURE, Mr. TRIBLE, Mr. SPECTER, Mr. THURMOND, Mr. ANDREWS, Mr. KERRY, Mr. DODD, Mr. GRAMM, and Mr. D'AMATO):

S.J. Res. 349. Joint resolution to designate the week of May 25, 1986, through May 31, 1986, as "Critical Care Week"; to the Committee on the Judiciary.

CRITICAL CARE WEEK

Mr. HATCH. Mr. President, today I am introducing a joint resolution which designates the last week in May as "Critical Care Week." Passage of this resolution will assist private efforts to increase public awareness, improve family support programs and advance the research of critical care medicine.

Critical care medicine is a broad term describing the medical treatment for patients in life-threatening situations requiring immediate care. Coronary, respiratory, neonatal, trauma, and intensive care units are all part of critical care medicine.

There are already more than 4,300 critical care units in the United States. Where these units are available, they often serve as many as 15 percent of hospital inpatients. Every congressional district has a constituent who has depended on critical care medicine. For instance in 1984 there were 1.1 million critical care cases in California or, in a State of 25 million, 1 out of 24 citizens needed critical care medicine.

Critical care is comprised of physicians, nurses, therapists, and industry dedicated to the delivery of care to the critically ill. These individuals must specialize in many different areas of medicine since critically ill patients may develop complications which overlap any one medical specialty.

On May 29, 1986, the Foundation for Critical Care Medicine will hold a fundraiser to increase public education efforts. I, along with Senator KENNEDY, am an honorary cochairman of this event and I would like to thank my fellow colleagues who are honorary committee members for giving their support to this effort. It is clear that critical care is a vital medical profession deserving of congressional recognition and I urge all of my colleagues to support this joint resolution.

Mr. KENNEDY. Mr. President, I welcome the opportunity to join my colleagues in the Senate in cosponsoring this joint resolution which designates May 25-31 as "Critical Care Week." This week is dedicated to enhance public education efforts, to improve family support programs, and to underline the commitment of thousands of health care professionals who devote their professional lives to the care of patients who need immediate and advanced medical services.

There are millions of cases annually across the Nation where such care is essential. Auto accidents, strokes, and neonatal complications all are examples of life-threatening situations where critical care must be swift and expert. The timing of "Critical Care Week" is particularly relevant, too, because as we enter the summer season the numbers of swimming and boating accidents will rise.

While we all hope that we will never be in need of critical care, we want care to be accessible and excellent if the necessity should arise. We want that service for ourselves and for our loved ones. And we want it to be available in our neighborhoods and wherever we may travel.

Thus, it is fitting that we recognize the efforts of the many professionals across America who are devoted to critical care.

● Mr. D'AMATO. Mr. President, I rise today to cosponsor legislation introduced by my colleague from Utah, Mr. HATCH, regarding critical care. I am pleased he has brought this serious issue to our attention.

Critical care is a rapidly changing and expanding area of medicine. It includes intensive care units, trauma centers, burn units, coronary care units, and neonatal and pediatric ICU's. Without a doubt, critical care addresses the most chronic and intensive illnesses in the country.

Critical care affects individuals we come into contact with daily. In 1984, 1 out of every 24 individuals needed critical care. Many of these cases were individuals involved in auto accidents, heart attacks, strokes, or industrial accidents. In 1984, 44,241 individuals died in auto accidents; 547,000 died as a result of a heart attack; and 156,000 died from a stroke.

As a member of the honorary committee of the Foundation for Critical Care Medicine, I am pleased to support the recognition of such worthy medical services. I am committed to quality care in this area and to increased public education and awareness about critical care medicine.

It is my hope that increased awareness about critical care will help this Nation better address this serious problem.●

ADDITIONAL COSPONSORS

Due to a mechanical malfunction, the additional cosponsors for May 19, 1986, will be shown in the RECORD of May 20, 1986.

SENATE RESOLUTION 409—SENSE OF THE SENATE REGARDING TAX REFORM LEGISLATION

Mr. MATTINGLY submitted the following resolution; which was referred to the Committee on Finance.

S. RES. 409

Whereas previous, constant, and conflicting policy changes in the tax code by the Congress make it difficult for individuals to properly plan for their future;

Whereas such constant and conflicting policy changes by the Congress retard capital formation by increasing risks;

Whereas such constant and conflicting policy changes by the Congress place undue burdens on individuals and businesses by requiring the otherwise unnecessary utilization of financial resources in anticipation of such changes and modifications;

Whereas the Internal Revenue Service is drained of limited resources in trying to adapt to such changes in the tax code, and the ensuing problems are in turn transferred to taxpayers;

Whereas one of the greatest burdens placed upon small businesses is the paperwork required to comply with the tax code, and constant changes by Congress unnessarily compound this paperwork burden;

Whereas any tax reform legislation passed by the Congress should stimulate economic growth, encourage investment, promote capital formation, expand job opportunities, and encourage savings; and

Whereas the American taxpayer deserves certainty in the tax treatment of economic decisions: Now therefore, be it

Resolved, That it is the sense of the Senate that the tax reform legislation, when that bill is signed into law, remain unchanged for a minimum of five years, so as to provide stability for the American taxpayer and the private sector.

SENATE RESOLUTION 410—WAIVING CONGRESSIONAL BUDGET ACT WITH RESPECT TO CONFERENCE REPORT ON H.R. 2672

Mr. ROTH, from the Committee on Governmental Affairs, reported the following original resolution; which was referred to the Committee on the Budget:

S. RES. 410

Resolved, That, pursuant to section 303(a) of the Congressional Budget Act of 1974, section 303(a) of that Act be waived with respect to the consideration of the Conference Report on H.R. 2672, the Federal Employee's Retirement System Act of 1986, a bill to provide supplemental retirement benefits for employees of the federal civilian service who are covered by Social Security as mandated by the Social Security Amendments of 1983.

H.R. 2672 would violate section 303(a) of the Congressional Budget Act of 1974 because the bill provides new entitlement authority to become effective during fiscal year 1987 and would result in a change in revenues effective during fiscal year 1987, before the first concurrent resolution on the budget for fiscal year 1987 has been agreed to.

The budget authority provided in H.R. 2672 authorizes contributions from the employee and the employing agency to the pension system to fund future retirement benefits and authorizes the payment of entitlement benefits to individuals qualifying for such benefits under the provisions of H.R. 2672.

SENATE RESOLUTION 411—EXPRESSING SUPPORT FOR THOSE WORKING FOR FREEDOM AND AGAINST COMMUNISM IN SOUTH AFRICA/NAMIBIA

Mr. SYMMS submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 411

Whereas, the President of the United States has expressed U.S. foreign policy as opposing Soviet-backed terrorist compaigns to subvert or seize control of non-Soviet countries and territories in various parts of the world, including Central America, S.E. Asia, the Middle East, Afghanistan and South West Africa;

Whereas, approximately 40,000 Cuban combat soldiers and several thousand Soviet and East German advisers presently occupy Angola and lend support to the Soviet-backed terrorist campaign of SWAPO (South West Africa People's Organization), operating from bases in southern Angola, to seize control of Namibia before that territory can achieve internationally acceptable independence;

Whereas, the United Nations General Assembly continues to designate SWAPO as the "sole and authentic" representative of the people of Namibia, accord SWAPO permanent observer status at the U.N., and finance SWAPO propaganda offices and meetings throughout the world, while refusing to recognize the various Namibian parties who make up Namibia's Multi-Party Conference;

Whereas, on June 17, 1985, the Republic of South Africa voluntarily and as a result of the peaceful negotiations with Namibia's political leaders of the Namibia Multi-Party Conference, effected a complete transfer of all administrative powers of local self-government that were previously exercised by the Administrator-General for Namibia, and official appointed by South Africa;

Whereas, Namibia's political party leaders acting on behalf of the people of Namibia immediately established Namibia's Transitional Government of National Unity and invited all political parties, including SWAPO, to participate in exercising the powers of local self-government enjoyed for the first time since 1884 by the people of Namibia;

Whereas, Namibia's Transitional Government of National Unity opposes apartheid in all its forms and has abolished apartheid in Namibia;

Whereas, SWAPO, under Soviet direction, has refused to cooperate or participate in any democratic or peaceful process leading to Namibian independence;

Whereas, historic U.S. foreign policy has encouraged and aided indigenous political groups and similar organizations in developing countries which seek to establish non-Soviet controlled and democratic governments;

Whereas, Namibia's Transitional Government of National Unity and the various political parties comprising Namibia's Multi-Party Conference represent the most hopeful, reasonable and constructive avenue to achieve peace in South West Africa and should be supported by the United States;

Now, therefore be it, resolved: That it is the sense of the U.S. Senate that—

(1) The United States should continue to pursue serious multi-lateral initiatives aimed at achieving removal of all Cuban combat troops now occupying Angola, closure of all SWAPO bases in southern Angola and impartiality by United Nations in treatment of all Namibian political parties wishing to appear at the United Nations, and

(2) The Department of State should immediately establish contact with the leaders of all political parties who make up the Namibia Multi-Party Conference and Namibia Transitional Government of National Unity, and

(3) The United States Government should implement its support for Namibia's Transitional Government of National Unity pending a negotiated plan for internationally acceptable independence by—

(a) Establishing an interest section in Windhoek.

(b) Dispatching a delegation of officials to Windhoek for bilateral talks.

(c) Including Namibia among African nations receiving aid from the U.S. and international organizations the U.S. supports.

(d) Establishing Peace Corps representation in Namibia.

(e) Encouraging U.S. private investment in Namibia.

(f) Supporting Namibia's control of its fishing industry by requiring other nations to adhere to generally recognized international rules and existing agreements.

(g) Inviting all Namibian political parties, including Namibia's Multi-Party Conference and SWAPO, to meet in an all-parties conference to develop a consensus on the time and method for achieving independence of Namibia free from foreign control.

● Mr. SYMMS. Mr. President, on December 19 last year the Secretary of State appointed a 12-member Advisory Committee on South Africa to recommend measures the United States can take to "encourage peaceful change" in South Africa and "be most effective in promoting equal rights in South Africa and ending apartheid."

The Namibian Transitional Government of National Unity and the Multi-Party Conference are exercising all powers of local self-government pending genuine independence for Namibia, which since 1920 has been ad-

ministered by South Africa pursuant to a League of Nations mandate.

The Namibia TGNU and Multi-Party Conference support the U.S. policy of peaceful change and an end to apartheid in South Africa. Indeed, on April 9 of this year the Namibian National Assembly abolished apartheid in South West Africa/Namibia.

In order to support President Reagan's policy of U.S. Government support for internal political groups opposing the Soviet expansionist campaign in southern Africa, I am introducing the following "sense of the Senate" resolution for consideration by the U.S. Senate.●

AMENDMENTS SUBMITTED

FEDERAL FIRE PREVENTION AND CONTROL ACT AUTHORIZATION

GORTON (AND OTHERS) AMENDMENT NO. 1967

Mr. GORTON (for himself, Mr. MITCHELL, Mr. CRANSTON, Mr. WILSON, Mr. PELL, Mr. CHAFEE, Mr. BOSCHWITZ, Mr. COHEN, and Mr. MATSUNAGA) proposed an amendment to the bill (S. 2180) to authorize appropriations for activities under the Federal Fire Prevention and Control Act of 1974; as follows:

At the end of the bill, add the following:

SEC. 2. (a) The Congress finds—

(1) that various studies of governmental and nongovernmental agencies indicate that daylight saving time over an expanded period would produce a significant energy savings in electrical power consumption;

(2) that daylight saving time may yield energy savings in other areas besides electrical power consumption;

(3) that daylight saving time over an expanded period could serve as an incentive for further energy conservation by individuals, companies, and the various governmental entities at all levels of government, and that such energy conservation efforts could lead to greatly expanded energy savings; and

(4) that the use of daylight saving time over an expanded period could have other beneficial effects on the public interest, including the reduction of crime, improved traffic safety, more daylight outdoor playtime for the children and youth of our Nation, greater utilization of parks and recreation areas, expanded economic opportunity through extension of daylight hours to peak shopping hours and through extension of domestic office hours to periods of greater overlap with the European Economic Community.

(b) Section 3(a) of the Uniform Time Act of 1966 (15 U.S.C. 260a(a)) is amended by striking "last Sunday of April" and inserting in lieu thereof "first Sunday of April".

(c) Any law in effect on the date of the enactment of this Act—

(1) adopted pursuant to section 3(a)(2) of the Uniform Time Act of 1966 by a State with parts thereof in more than one time zone, or

(2) adopted pursuant to section 3(a)(1) of such Act by a State that lies entirely within one time zone,

shall be held and considered to remain in effect as the exercise by that State of the exemption permitted by such Act unless the State, by law, provides that such exemption shall not apply.

(d)(1) Notwithstanding any other law or any regulation issued under any such law, the Federal Communications Commission shall, consistent with any existing treaty or other agreement, make such adjustment by general rules, or by interim action pending such general rules, with respect to hours of operation of daytime standard amplitude modulation broadcast stations, as may be consistent with the public interest, including the public's interest in receiving interference-free service.

(2) Such general rules, or interim action, may include variances with respect to operating power and other technical operating characteristics.

(3) Subsequent to the adoption of such general rules, they may be, varied with respect to particular stations and areas because of the exigencies in each case.

(e) This section shall take effect 60 days after the date of enactment of this Act, except that if such effective date occurs in any calendar year after March 1, this section shall take effect on the first day of the following calendar year.

NOTICES OF HEARINGS

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. HELMS. Mr. President, I wish to announce that the Committee on Agriculture, Nutrition, and Forestry has scheduled a committee business session to consider reporting the nominations of Hon. Frank W. Naylor, Jr. and Dr. Marvin R. Duncan to be members of the Farm Credit administration Board, Farm Credit Administration.

The meeting will begin at 10 a.m., on Tuesday, May 20, 1986, in room 332, Russell Senate Office Building.

For further information, please contact Warren Oxford or Terry Wear of the committee staff at 224-2035.

COMMITTEE ON SMALL BUSINESS

Mr. WEICKER. Mr. President, I wish to announce that the committee's notice which appeared in the May 16, 1986, CONGRESSIONAL RECORD, contained a misprint. The Senate Small Business Committee's oversight hearing on the implementation of the Prompt Payment Act, Public Law 97-177, will take place on Thursday, June 19, 1986, and not in July, as was erroneously printed by the RECORD. The hearing will commence at 10 a.m. and will be held in room 428A of the Russell Senate Office Building. For further information, please contact William B. Montalto, procurement policy counsel for the committee, at 224-5175.

SUBCOMMITTEE ON ENERGY RESEARCH AND DEVELOPMENT

Mr. DOMENICI. Mr. President, I would like to announce for the information of the Senate and the public that the Subcommittee on Energy Research and Development of the Committee on Energy and Natural Resources will conduct the following oversight hearings:

Monday, June 16, beginning at 1 p.m. in room SD-366 of the Senate Dirksen Office Building in Washington, DC, on the second waste repository site selection under the Department of Energy's Office of Civilian Radioactive Waste Management.

Monday, June 23, beginning at 2 p.m. in room SD-366 of the Senate Dirksen Office Building in Washington, DC, on the Department of Energy's budget authority—Office of Energy Research and Office of Environment, Health and Safety.

Those wishing to testify or who wish to submit written statements for the hearing record, should write to the Subcommittee on Energy Research and Development, Committee on Energy and Natural Resources, U.S. Senate, Washington, DC 20510.

For further information regarding this hearing, please contact Ms. Marilyn Meigs or Mr. K.P. Lau on the subcommittee staff at 202-224-4431.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON CONSUMER

Mr. THURMOND. Mr. President, I ask unanimous consent that the Consumer Subcommittee of the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Monday, May 19, to conduct a hearing on the pending product liability legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

U.N. VOTING PATTERNS SEND DISTURBING SIGNALS

● Mr. KASTEN. Mr. President, this is the Year of Liberty, the year during which we will rededicate the statue in New York harbor that for the past century has welcomed to our shores and to a new life the oppressed, impoverished citizens of the world.

And in rededicating ourselves to the principles of liberty that make this Nation great, we also are renewing our commitment as a nation blessed by prosperity to help those countries less fortunate than ourselves.

American largesse is historic. It also is taken for granted. And while we should never as a nation turn our backs on those in need, we must seriously consider our priorities in giving aid to the world.

Consider this disturbing fact: The 159 member states of the United Na-

tions voted against American interests in the General Assembly last year on average 80 percent of the time.

Mr. President, that is the conclusion of the third annual "Kasten Report," the study of U.N. voting patterns done by the U.S. State Department in accordance with legislation I sponsored requiring these annual reports.

The report shows that once again Israel is our staunchest ally, siding with us on 91.5 percent of the votes before the General Assembly. A number of our NATO allies—the United Kingdom (86.6 percent), West Germany (84.4 percent), France (82.7 percent, up from 72 percent in 1984), Belgium (82.3 percent), and Italy (81.8 percent) all increased their support for the United States.

But, unfortunately, they were the exceptions to what is becoming a disturbing rule.

Mr. President, most of the time, on most of the critical issues facing our Nation, we stand almost alone in the United Nation.

According to the State Department analysis, the key issues before the General Assembly included positions taken by the United Nations on terrorism, the Soviet invasion and continued occupation of Afghanistan, Vietnam's occupation of Cambodia, the Arab-Israeli conflict, apartheid, human rights abuses in several countries, and efforts to delete instances of name calling against various United States foreign policy positions.

It is a sad reality, Mr. President, that we cannot even count on other NATO allies to support our positions with any consistency. Turkey and Greece, particularly, two countries which receive hundreds of millions of dollars in United States aid each year, voted consistently against us—Turkey 60 percent of the time and Greece 66 percent of the time.

Turkey refused to criticize human rights abuses in Iran and supported name-calling attacks against United States policy in the Middle East—both considered key votes by the State Department.

It should not be surprising that the strongest opposition to our positions, in addition to Communist block nations in Eastern Europe, comes from the 21-member Arab group. It supported America on only 12.2 percent of the votes.

African nations, many of which look to America for the very survival of their people, gave us their support on only 15.1 percent of the votes.

There is a bright spot in the most recent "Kasten Report." Since our liberation of that Grenada, that country has become an increasingly dependable friend of America at the United Nations. In 1983, Grenada opposed our position in the General Assembly more than 80 percent of the time. But in 1984, it supported us in 60 percent of the votes, and it has since raised its level of support to over 70 percent.

Mr. President, we are not attempting to buy votes with the aid we send to the needy nations of the world. But we do have the right to expect that if these nations aggressively seek our assistance, our money, and our protection, they in turn will support the positions that continue to keep our Nation strong enough and vital enough to continue sending such assistance.

And yet, many of these nations are nowhere in sight when we need their support in the United Nations.

According to this most recent U.N. vote analysis, Egypt, a major recipient of United States foreign aid, opposed our positions a shocking 85 percent of the time. Even the Philippines supported us on only 22 percent of the General Assembly votes.

I urge all of my colleagues to carefully consider the pattern of voting by those nations who seek, and receive, our aid. In these times of cutting back we must place priorities not only on how our dollars are spent, but where.

The American people expect no less of their elected representatives.

Mr. President, I ask that the General Assembly voting record be placed in the RECORD.

The material follows:

FAMILY CAREGIVERS RESOLUTION

● Mr. HEINZ. Mr. President, it is my pleasure to join the distinguished ranking minority member of the Senate Aging Committee and a number of our colleagues in introducing a resolution designating the week of November 24, 1986, as the first "National Family Caregivers Week."

Recognizing family caregivers is important because the bulk of personal care for the frail elderly falls largely on the family, not on the Federal Government or outside social service agencies. For every person 65 years of age and older residing in a nursing home, there are nearly twice as many persons residing in the community requiring similar levels of care. Eighty percent of the disabled elderly receive care from family members, most frequently from wives, daughters, and daughters-in-law. For many, this is a round-the-clock responsibility that leaves the caregiver emotionally and physically exhausted.

The reliance on families for care, and the stress associated with caregiving is certain in the future because of three major trends. First, the elderly population has grown much more rapidly in the 20th century than has the rest of the population and this trend will continue into the 21st century. For families, this trend is especially important since the population group of seniors age 85 and older is the fastest growing age group in our society. Typically, seniors in this age group need far more assistance due to chronic disabling conditions than seniors of other ages, and most of this assistance is provided by their families.

Second, as the population continues to age, we will find more elderly being cared for by adult children who themselves are older and who suffer chronic impairments. Additionally, many adult children who care for elderly parents also care for children of their own. The stress placed on these individuals is especially severe.

Third, women, who traditionally have provided the bulk of assistance to the disabled elderly, are now forced to choose between caregiving and participating in the paid labor force. Labor force participation rates for women have increased to about 55 percent in 1984. Almost 64 percent of women aged 45 to 54 years old—those who are most likely to have parents in the oldest age group—were in the labor force in 1984.

"National Family Caregivers Week" would recognize the vital role of these caregivers. Family caregivers make enormous personal and financial sacrifices to care for their loved ones. Their contributions help maintain strong family ties and strengthen intergenerational support. The cash value of caregiving services provided by families far exceeds the combined cost of Government and professional services to the elderly living in the community and in institutions.

Acknowledgment of the valuable contributions of the family caregiver would provide for greater public awareness of and community support for these Americans. It is my sincere hope that public recognition of the often heroic efforts of family caregivers would help to increase the availability of respite care and other supportive services. Family caregivers are a silent majority that deserves our support and our deep appreciation.

Mr. President, I urge my colleagues to join us in supporting this resolution and I commend my distinguished colleague, Senator GLENN, for his leadership in this area.●

FRED L. ESKEW

● Mr. SARBANES. Mr. President, Maryland lost one of its most outstanding citizens and public servants recently with the death of Fred L. Eskew, assistant secretary of the Maryland Department of Natural Resources.

It was Fred Eskew, more than any single person in the State of Maryland, who was responsible for the development of Maryland's very successful Open Space Program. Almost every community in Maryland benefited in one way or another from his foresight and his effective management of this Federal and State program.

A native of Washington, DC, he graduated from St. John's College High School in Washington, DC, in 1957. He attended Randolph Macon College, Ashland, VA, and graduated from the University of Maryland in 1964 with a bachelor of science degree in recreation and parks administration. He was further recognized that same year as the outstanding graduating senior in the parks and recreation department at Maryland. He also took advanced studies in urban and regional planning from the University of Northern Colorado at Greeley. On two other occasions, the University of Maryland College of Physical Education, Recreation, and Health honored Mr. Eskew with their outstanding achiever award for his work with public parks and recreation.

During his career, he served on the professional staffs of the Prince George's County Recreation Department, the Charles County Department of Parks and Recreation, the Maryland Department of Forests and Parks, and the Maryland Department of Natural Resources. He also worked extensively with the Maryland General Assembly to develop and enhance numerous State laws affecting public parks, recreation, and natural resource management. He was a noted authority on State law relating to public parks, recreation, open space, and natural resources.

One of his major successes was Maryland's "Open Space Program." As its first director in December 1971, he initiated timely and unique policies making this program one of the most successful and innovative State grants-in-aid programs in the United States. Program Open Space has assisted the purchase and development of more than 2,200 local parks and recreation areas in every Maryland county and town. It has also provided more than 90,000 acres of State natural resource lands and parks to the State of Maryland.

Following his appointment as chairman of the Governor's commission to study concessions in Maryland State parks in August 1976, he was instrumental in establishing private enterprise concessions on certain State lands, including Rosaryville State Park in Prince George's County, Fair

Hill Natural Resources Management area in Cecil County, and Somers Cove Marina in Somerset County.

He also worked to reduce construction costs on certain new State park and other public facilities by organizing construction crews for small park projects. Another project, in cooperation with District II of the Federated Garden Clubs of Maryland, was a joint effort to plan and develop the Helen Avalynne Tawes Garden in Annapolis. It is located at the department of natural resources headquarters.

Mr. Eskew had a particular concern for natural area preservation as well as outdoor recreation. He had considerable involvement in efforts to reserve the "Belt Woods" near Largo in Prince George's County which has been recognized as one of the oldest stands of oak and poplar in the State and is now designated a National Natural Landmark.

Mr. Eskew served as president of the Maryland Recreation and Parks Association which awarded him its "Honor Member" citation. He worked closely with a number of conservation organizations such as the Nature Conservancy who awarded him its Certificate of Special Recognition. In 1983, he was appointed by Gov. Harry Hughes as the State liaison officer representing Maryland efforts to utilize Federal Land and Water Conservation Funds for supplementing State and local outdoor recreation projects. Recently, he submitted a paper to the President's Commission on Americans Outdoors recommending a funding procedure for public parks and recreation for the next 30 years. He worked with a variety of special groups from all over Maryland, including watermen from Somerset County, Washington County Boy Scouts, the Cecil County Fair Association, and varied interests at Fair Hill in Cecil County.

Dr. Torrey C. Brown, secretary of the department of natural resources, remarked,

> Fred Eskew was a respected public park and recreational professional leader and is remembered for his calm and determined efforts. His efforts have contributed toward a marked improvement in the quality of life throughout the State of Maryland for all its citizens, both now and in the future.

Fred Eskew's passing is a great loss to the people of Maryland.●

ANNUAL FINANCIAL DISCLOSURE OF SENATOR STAFFORD

● Mr. STAFFORD. Mr. President, in each of the last 12 years, I have made public disclosures of my financial holdings, along with summaries of my Federal tax return.

I have pledged that I would issue a similar report to the citizens of Vermont each year for the remainder of my time in public office.

In keeping with that promise, I am once again issuing a public statement of financial disclosure.

The financial statement shows that my wife, Helen, and I had net assets of $805,000 as of May 15, when the evaluation was made.

The statement I am making public details our holdings, including bank accounts, cash value of life insurance and Federal retirement fund, real and personal property we own, and stocks and bonds.

The majority of the stocks and bonds listed were owned by us before I entered public office in Vermont 31 years ago.

The summary of our joint Federal income tax return shows that Mrs. Stafford and I had an adjusted gross income of $126,000 last year. Of that total, $75,100 came from my salary as a U.S. Senator.

Our total tax bill for the year was more than $46,000, of which more than $37,000 was in Federal income taxes and more than $8,800 in Vermont State income taxes.

I shall ask that details of our financial statement be printed in the RECORD, as in the past. And, as I have done in each of the last 12 years, I am making copies of the statement available to newspapers, radio and television stations, and other news services in Vermont.

This information is being made public because I remain convinced that those who serve in Government, as well as Government itself, must be as open and candid as possible with the public.

The net assets of the Staffords increased by $45,000 last year, thanks to the bullish state of the American economy. A major portion of our assets continues to consist of homes in Virginia and Vermont whose estimated fair market value is $320,000.

One of the best ways Americans have to judge whether their Government and their officials are acting properly is to provide full disclosure of all interests of Government and of those who make decisions in Government.

Thus, I invite all Vermonters—and all other Americans—to examine my financial interests and to match those interests with my record as a public official.

We have made some progress in providing the public with more information about the interests and activities of public officials, but we have a long way to go in providing full public disclosure.

I shall continue to support legislation that provides greater ventilation of the way we do business in Government. In the meantime, I shall continue to make my own full disclosure to my fellow Vermonters.

The material follows:

Summary of 1985 joint Federal, income tax return of Robert T. and Helen K. Stafford

Income:	
Salary	$75,100.00
Interest	10,879.04
Dividends	3,471.63
Honoraria	22,500.00
Other	17,831.88
Total income	129,782.55
Adjustments to income: Allowable congressional expenses not reimbursed	3,004.98
Total adjustments to income	3,004.98
Adjusted gross income	126,777.57
Deductions	10,267.61

BUDGET SCOREKEEPING REPORT

● Mr. DOMENICI. Mr. President, I ask to have printed in the RECORD the budget scorekeeping report for this week," prepared by the Congressional Budget Office in response to section 5 of the first budget resolution for fiscal year 1986." This report also serves as the scorekeeping report for the purposes of section 311 of the Congressional Budget Act, "as amended."

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, May 19, 1986.

Hon. PETE V. DOMENICI,
Chairman, Committee on the Budget,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The attached report shows the effects of congressional action on the budget for fiscal year 1986. The estimated totals of budget authority, outlays, and revenues are compared to the appropriate or recommended levels contained in the most recent budget resolution, Senate Concurrent Resolution 32. This report meets the requirements for Senate scorekeeping of section 5 of Senate Concurrent Resolution 32 and is current through May 16, 1986. The report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act as amended.

No changes have occurred since my last report.

With best wishes,
Sincerely,

EDWARD GRAMLICH,
(For Rudolph G. Penner).

CBO WEEKLY SCOREKEEPING REPORT FOR THE U.S. SENATE, 99TH CONGRESS, 2D SESSION, AS OF MAY 16, 1986

[Fiscal year 1986—in billions of dollars]

	Budget authority	Outlays	Revenues	Debt subject to limit
Current level [1]	1,057.1	980.3	778.6	2,016.6
Budget resolution, Senate Concurrent Resolution 32	1,069.7	967.6	795.7	[2] 2,078.7
Current level is:				
Over resolution by		12.7		
Under resolution by	12.6		17.1	62.1

[1] The current level represents the estimated revenue and direct spending effects (budget authority and outlays) of all legislation that Congress has enacted in this or previous sessions or sent to the President for his approval. In addition, estimates are included of the direct spending effects for all entitlement or other programs requiring annual appropriations under current law even though the appropriations have not been made. The current level excludes the revenue and direct spending effects of legislation that is in earlier stages of completion, such as reported from a Senate committee or passed by the Senate. The current level of debt subject to limit reflects the latest U.S. Treasury information on public debt transactions.

[2] The current statutory debt limit is $2,078.7 billion.

FISCAL YEAR 1986 SUPPORTING DETAIL FOR CBO WEEKLY SCOREKEEPING REPORT, U.S. SENATE, 99TH CONGRESS, 2D SESSION, AS OF MAY 16, 1986

[In millions of dollars]

	Budget authority	Outlays	Revenues
I. Enacted in previous sessions:			
Revenues			777,794
Permanent appropriations and trust funds.	723,461	629,772	
Other appropriations	525,778	544,947	
Offsetting receipts	−188,561	−188,561	
Total enacted in previous sessions.	1,060,679	986,159	777,794
II. Enacted this session:			
Commodity Credit Corporation urgent supplemental appropriation, 1986 (Public Law 99–243).			
Federal Employees Benefits Improvements Act of 1986 Public (Law 99–251).		4	
VA home loan guarantee amendments (Public Law 99–255).		−51	
Omnibus Budget Reconciliation Act of 1985 (Public Law 99–272).	−4,259	−6,001	765
Department of Agriculture urgent supplemental, 1986 (Public Law 99–263).			
Advance to Hazardous Substances Response Trust Fund (Public Law 99–270).			
FHA and GNMA Credit Commitment Assistance Act (Public Law 99–289).		−380	
Total	−4,259	−6,428	765
III. Continuing resolution authority			
IV. Conference agreements ratified by both Houses			
V. Entitlement authority and other mandatory items requiring further appropriation action:			
Veterans compensation.	272	185	
Veterans readjustment benefits.	91	91	
Compact of free association.	205	205	
Special benefits (Federal employees).	14	14	
Family social services	100	75	
Guaranteed student loans.	6		
Payment to civil service retirement [1].	(37)	(37)	
Total entitlements	688	570	
Total current level as of May 16, 1986.	1,057,108	980,302	778,559
1986 budget resolution (S. Con. Res. 32).	1,069,700	967,600	795,700
Amount remaining:			
Over budget resolution.		12,702	
Under budget resolution.	12,592		17,141

[1] Interfund transactions do not add to budget totals.

Note: Numbers may not add due to rounding.●

HONORING NAVAL AIR STATION BARBERS POINT

● Mr. INOUYE. Mr. President, 1986 marks the diamond anniversary for naval aviation. It was 75 years ago that Capt. Washington Irving Chambers, a naval officer in charge of naval aviation, prepared the requisition for the Navy's first aircraft.

During this celebration, I wish to recognize Naval Air Station Barbers Point, HI. Initially, a major aircraft training and servicing center during World War II, Naval Air Station Barbers Point evolved into a major antisubmarine support community. As the defense needs of the United States have changed, so has the type of aircraft based at the air station.

Under construction prior to the attack on Pearl Harbor, NAS Barbers Point was hurriedly commissioned on April 15, 1942, and was immediately used to train pilots and to service planes of aircraft carriers in the Pacific theater.

When the war ended, the original 256-man complement of the station had grown to over 4,000 servicemen. The air station then served as a rapid demobilization center. As military forces were reduced to peacetime needs, Barbers Point assumed support functions of all aviation activities in the area.

In the next two decades, during the Korean and Vietnam wars, Barbers Point again served as a staging area for supplies and personnel in defense of freedom. Fleet tactical support squadron 21, or V–21, grew into one of the Navy's largest squadrons during the Vietnam war, ferrying thousands of tons of supplies and personnel into the Southeast Asian theater of operations.

From the mid-1950's to 1965, the air station was also home to airborne early warning squadron 2, which flew super constellations equipped with radar domes. The constellation flew 24 hours a day, 365 days a year to extend the continental air defense early warning line across the Pacific, betweeen Hawaii and the Aleutian Islands.

Today, patrol wing 2, the major tenant command on NAS Barbers Point, conducts undersea surveillance operations. Our P–3 Orions of NAS Barbers Point provide airborne platforms for the world's most sophisticated submarine detection and tracking equipment.

These P–3's often served as "angels of mercy" in the 1970's and 1980's, locating and recruiting hundreds of "boat people" in the South China Sea who fled Vietnam.

NAS Barbers Point is also home to the Navy's oldest active squadron, Fleet Composit Squadron One, or VC–1, Helicopter Squadron Light Thirty-Seven Reconnaissance Squadron Three, or VQ–3, Coast Guard Air Sta-

tion, U.S. Army 147th Aviation Co., and the Hawaii Air National Guard.

Each year commands in the Pacific and Atlantic Fleets compete for the Chief of Naval Operation's Golden Anchor Award recognizing the best command in the East and the best in the West for a superior retention program. Last year, Naval Air Station Barbers Point received the Golden Anchor Award.

During the 75th anniversary of naval aviation, I commend the men and women for their outstanding professionalism and superb performance in maintaining and supporting the Pacific Fleet.●

UNITED STATES CAN'T BOW TO MERCHANT MARINE BLITZ

● Mr. INOUYE. Mr. President, a very thoughtful and sobering article by Robert J. Hanks, entitled "U.S. Can't Bow to Merchant Marine Blitz," appeared in the May 13 edition of the Wall Street Journal. The main points of the article are: The Soviets are waging an economic war at sea through cutthroat commercial competition as part of the admitted Soviet view that "peacetime employment of merchant fleets is an integral part of the political and economic struggle between antagonistic social systems"; the liner segment of the U.S. merchant fleet has suffered as a consequence, with attendant adverse national security ramifications; and that the Federal Government must act to revitalize our merchant marine.

Mr. President, the Federal commitment Mr. Hanks urges is right on the mark. In 1978, during my tenure as chairman of the Merchant Marine Subcommittee, Congress enacted the Controlled Carrier Act in an effort to stop the pernicious rate-cutting practices of state-controlled carriers, principally those of the Soviet Union. Even though Congress was successful in enacting that legislation, the measure was opposed by the State and Justice Departments.

Mr. Hanks has several suggestions about further measures we might take to revitalize our merchant fleet, and I commend his article to every Member of the Senate.

Mr. President, I ask that the article be printed in the RECORD.

[From the Wall Street Journal, May 13, 1986]

U.S. CAN'T BOW TO MERCHANT-MARINE BLITZ

(By Robert J. Hanks)

A war at sea is being waged against Western nations by the Soviet Union. The principal participants are not men-o'-war but mundane merchant ships and the rates being charged for commercial cargoes.

Unfortunately, this struggle has attracted scant attention in the U.S. While there have been Western casualties—shipping companies forced out of business and shipbuilding and repair yards closed—precious little is being done about them. The tragedy is the U.S., today, is as dependent on the sea as was England at the outset of World War II, for economic and military reasons. Yet the matter's generally greeted in Washington with a yawn.

The facts are these. From a tiny fleet in 1945—mostly U.S. lend-lease Liberty ships—the Soviet merchant marine had grown by 1984 to an astounding 2,475 ships (1,000 gross tons or over) totaling more than 23 million deadweight tons. In the world, it ranked second to Panama in numbers of ships and seventh in tonnage. By contrast, the U.S. could boast fewer than 500 merchantmen. Moreover, cut-throat competition from Soviet ships has produced significant reductions in the fleets of America's European and Japanese allies.

Troublesome portents are embedded in these statistics. NATO, being a maritime alliance, would critically depend on seaborne transport of reinforcements and logistic supplies from North America in the event of a war in Europe. A continuous flow of food and raw materials from overseas would also be required to sustain any war effort. At the same time, scores of merchant ships would be needed as auxiliaries to support NATO navies. The Falkland Islands war underlined the latter requirement. Allied capability to meet these commitments, however, steadily shrinks.

Why are the Soviets waging this nonshooting war? The answer is in a book, "The Sea Power of the State," by former head of the Soviet navy, Admiral S.G. Gorshkov. He says the peacetime employment of merchant fleets is an integral part of the political and economic struggle between "antagonistic social systems."

The Soviet strategy in this war is simple: rate-cutting. The Soviet merchant fleet is a wholly subsidized creature of Moscow and can set cargo haulage rates well below market profitability floors. Offering carriage fees ranging from 10 percent to 40 percent below those floors, Soviet ships have made massive inroads in trade, not only to Third World countries, but along crucial Atlantic and Pacific Ocean routes as well. Obviously, Free World shipping companies cannot offer such rates and remain in business. Further, along those trade routes where the Soviet merchant fleet is not present in strength, ships from the U.S.S.R.'s East European satellites—also operating with government assistance—pursue identical policies.

How successful have the Soviets been? In a word: very. Two major U.S. shipping carriers—Pacific Far East Line Inc., and States Steamship Lines—have been bankrupted because U.S. free-market policies ask American shippers to compete against the Soviet government. In the Pacific, for example, the Soviet Far East Shipping Company and its Polish counterpart slashed rates to capture trade. When other low cost operators such as the Taiwanese followed suit, the American carriers simply could no longer compete for cargoes. Similar effects have been felt in strong maritime nations such as Britain, Sweden, West Germany and Japan.

What, then, should be done about this economic war at sea? Some West European countries have taken steps to halt the decline of their merchant fleets. But Washington remains indifferent.

Several things can be done. First, more than lip service needs to be accorded the Merchant Marine Act of 1936, which emphasized the importance of a healthy merchant fleet to the security of this country. Next, Washington can insure that all government cargoes are carried in U.S. ships. (This includes food aid being sent to needy nations.) Negotiation of bilateral accords must be relentlessly pressed to reserve reasonable cargo percentages for American shipping companies. The U.S. would, in a pinch, need guaranteed access to container ships to carry military equipment.

The West can ignore the Soviet war on commercial shipping only at its peril.●

BOB WIELAND AND THE SPIRIT OF AMERICA

● Mr. KASTEN. Mr. President, in just a few days, hundreds of thousands of Americans will participate in an unusual once-in-a-lifetime event. On May 25, men, women and children of all ages; families, friends, and strangers all holding hands at precisely the same moment, will form a gigantic human chain stretching from the Eastern shore of America with the Western coast.

The project scheduled for May 25 is called "Hands Across America." the proceeds will go to fight hunger.

I would like to believe that the participants in that undertaking will give a few moments of thought to the almost unbelievable accomplishment of a young man from Wisconsin—a man who walked across America on his hands to raise money for hunger relief groups.

On Wednesday, May 14, after 3 years, 8 months and 6 days, after 2,784.1 miles stretching from the California coast to the White House, after 4,903,360 steps—steps made without feet and without legs, but with a strong heart, Bob Wieland finished his "Spirit of America Walk for Hunger."

Mr. Wieland's walk raised $300,000. Future pledges could raise millions more.

What kind of spirit is it that challenges such men to commit so much of themselves to as selfless a goal as feeding the hungry?

What kind of spirit is it that would lead a man to give almost 4 years of his life to call attention to something most Americans never think of—the fact that every day 35,000 of our fellow human beings worldwide die of hunger?

And, Mr. President, what kind of spirit infuses such life into a man whose body was torn apart in service to this country?

The answer to all three questions is the same, It is the spirit of America.

Mr. Wieland's journey across America started at Knott's Berry Farm in Los Angeles. But his struggle to overcome his physical disability started in the jungles of Southeast Asia on June 14, 1969. His squad was on a search-and-destroy mission in an area believed to be booby-trapped with landmines. He saw a buddy go down under enemy fire.

With no thought of his own safety, rather than search for protection, Mr. Wieland, a medic, rushed to the aid of his friend, fellow Wisconsinite Jerome D. Lubeno. In his struggle to reach the mortally wounded soldier, Mr. Wieland stepped on a mine which, in his own words, "blew my body one way and my legs the other."

Some say it was his superb physical training, his love of sports and his fanaticism in maintaining excellent health that gave him the strength to overcome what for so many would have been a completely disabling injury. He said he would not be hampered by his accident. He kept that pledge, and in keeping it, proved something else.

In his "Walk For Hunger," Mr. Wieland proved not only his superb body conditioning and strength, but he also proved the strength of his spirit.

The spirit Mr. Wieland has shown is but a flicker of the combined strength of character found in the tens of thousands of Americans disabled during the Vietnam war.

Mr. Wieland's heroic accomplishment is the definition of the selflessness of the American spirit. That he chose to dedicate this accomplishment to drawing the attention of his fellow countrymen to world hunger is a tribute to his personal selflessness.

Mr. President, I commend Mr. Wieland for his triumph, a triumph of body and a triumph of spirit. May his story serve to remind us all that life is precious, life is important, and life is meant to be shared.

Mr. Wieland has shared a great part of himself with all of us through his "Walk For Hunger."

Mr. President, I ask that the following articles from the Milwaukee Journal and Sentinel be inserted in the RECORD.

The articles follow:

2,784-MILE TREK

(By Richard Bradee)

WASHINGTON, D.C.—Doc finally made it Wednesday.

After crawling 2,784 miles across America, Doc—Bob Weiland, formerly of Milwaukee—reached Wall 22 West, Line 47 of the Vietnam Veterans' Memorial where he found the name of Sgt. Jerome Deane Lubeno of Trevor, Wis., the man he set out to save in Vietnam June 14, 1969.

Lt. James Sylvester of Seattle, Wash., the last man to see Doc when he had legs, was at the wall. So were Dennis Cooper of Miller, Mo., who picked up Doc and carried him to a helicopter, and David De Nayer of Hume, Mo., the point man on that search and destroy mission.

Doc's parents, William and Ida Wieland of 5200 S. Tuckaway Blvd., Greenfield, Wis., walked the last mile of his walk for hunger and listened as he told, once again, what happened on that day in Vietnam.

"I stepped on and detonated an 82-millimeter mortar. It set me flying in one direction and my legs in the other," Wieland said.

There are 30 or 35 names—Sylvester said he lost track of the casualties—on the Vietnam Veterans' wall commemorating the men from the company Wieland served as a combat medic.

His buddies thought Doc was dead, but Cooper said, "We better get Doc on the chopper, he might still be alive."

In Vietnam, Cooper remembered, Wieland took care of children who were wounded. The parents "thought it would be nice to give him rice—the rice had bugs floating on top of it but he'd eat it. If that wouldn't kill him, nothing can," Cooper said. "I guess nothing could."

After years of rehabilitation, during which he became a record-setting weight lifter, Wieland began his trip across America Sept. 8, 1982, seated on a harness, propelling himself with his hands. He calculated that he took 4,900,016 steps in a walk for hunger—about 61,000 steps were sponsored to raise about $300,000.

His mother said she worried about him, going across the country, but didn't doubt his determination.

"He was born that way, he seemed to have determination from an early age. As a 3-year-old, he had this desire to be a baseball player," she said.

He wanted to be in the major leagues and, by 1984, had reached top of semiprofessional baseball in Milwaukee. A left-handed pitcher, Wieland was rated the state's top professional prospect, according to his father.

At the memorial, there was a Marine color guard, a chaplain, a crowd of newsmen and dozens of people he'd met along the way.

"No one ever thought we'd get out of Los Angeles," Wieland said, describing the reaction of those he'd asked to sponsor "a guy with no legs who's going to walk across America on his hands."

Asked at the White House about another crosscountry walk, Wieland said, "We're not going to do any reruns."

MISSION COMPLETED

VET'S INSPIRATIONAL WALK BRINGS REAGAN TO TEARS

(By John W. Kole)

WASHINGTON, D.C.—Bob Wieland finished his "walk" across America at the Vietnam Veterans Memorial Wednesday and brought tears to the eyes of President Reagan while doing so.

As his parents, from Greenfield, Wis., watched from the grassy area near the Lincoln Memorial, Wieland made his way down the sloping walk, past the stark black granite slabs that contain the names of 58,000 Americans killed or missing in the Vietnam war.

Wieland, an Army medic during the war, had his legs blown off in June 1969 while trying to rescue another Wisconsin man, Jerome Lubeno, of Trevor in Kenosha County.

Wieland's goal was to walk across the United States from southern California to the granite panel containing Lubeno's name.

"It's been quite a journey," Wieland said as he neared his goal.

Long a physical fitness buff, Wieland spent years teaching himself to walk on his hands, using pads on his fists to propel his legless body. He recalled that the first time be completed a lap around a California gymnasium, "my muscles were so sore that I thought they all would fall off."

The often-interrupted journey started Sept. 8, 1982, at Knott's Berry Farms in southern California. In the three years, eight months and six days that followed, Wieland figures he took almost 5 million steps, about a yard from each one.

Wieland, 40, who moved to California because the climate was better for his therapy, praised Reagan in a private White House meeting at which tears came to the president's eyes. Wieland appealed for help in his "Walk for Hunger" campaign.

The walk raised about $300,000 in pledges for the cause, but that was far short of the $25 million goal an enthusiastic Wieland had set. He vowed to continue raising money by giving speeches around the U.S.

Throughout the trip, Wieland and his helpers would stay in homes along the way. He would give inspirational speeches to pay expenses. Some of the families who provides shelter came here to watch him finish his trip.

So did some of those who were with him when his legs were blown off. One colleague, who had not seen him since 1969, said Wieland "looks a lot better now than he did when we loaded him on that chopper.

Among those at the memorial to pay tribute to Wieland's achievement were Reps. Gerald Kleczka (D-Wis.) and Christopher Smith (R-N.J.), and Jan Scruggs, leader of the Vietnam Veterans of America.

In March, Reagan appointed Wieland to the National Council on Physical Fitness and Sports. George Allen, the former professional football coach who is chairman of the council, paid tribute to Wieland in a letter.

"Bob's determination and perseverance are an inspiration to me," Allen said. "I don't know of any feat ever attempted that shows more physical and emotional output than this Walk for Hunger."

Reviewing the journey, Wieland said the most inspirational act came near the beginning of the journey when a small boy in Cathedral City, Calif., gave him 21 pennies.

"That little boy demonstrated that the smallest deed done is greater than the best intentions," Wieland said.

"You're not handicapped," Smith told Wieland. "You've got it all going for you."

NATIONAL TOURISM WEEK, MAY 18–24, 1986

● Mr. INOUYE. Mr. President, for the third consecutive year Congress has designated the week beginning May 18, 1986, as National Tourism Week, and the President, has issued a proclamation accordingly. Inasmuch as the travel industry is our Nation's third largest and employes over 6 million men, women, and teenagers, it is most appropriate that the national theme for tourism week is "Tourism Works in America."

The goal of National Tourism Week is to make Government officials and consumers aware of just how important tourism is to the economic, social, and cultural welfare of the United States. This effort is headed by two very dedicated and outstanding tourism spokespersons for the Government and the industry—Donna Tuttle, Undersecretary of Commerce for Travel and Tourism; and Bill Edwards, president of AH&MA, and vice chairman of Hilton Hotels Corp. They are ably supported by the industry's National Tourism Week coalition and the

newly created, permanent industry National Tourism Week Office. This office is responsible for the overall coordination of industry-wide planning and observance of National Tourism Week. It was established by Travel Industry Association of America at the request of the following coalitions of the travel industry organizations: Air Transport Association; American Hotel & Motel Association; American Society of Travel Agents; National Tour Association; National Restaurant Association; Hotel Sales & Marketing Association International; Recreation Vehicle Industry Association; and Travel Industry Association of America.

Mr. President, this is just the latest in a series of substantial industry efforts over the past several years to impress upon the decisionmakers in Washington how important tourism is, and to form a partnership with the Federal Government to ensure that as a nation we capitalize on the industry's potential.

Even though the administration has once again recommended elimination of the modest but essential Federal tourism effort, I feel quite confident that Congress will once again insist that the U.S. Travel & Tourism Administration remain in business. And if we do, it will be another example of the Federal awareness which the travel industry is working so hard to achieve.

And so, as I have done on similar occasions in the past 2 years, I wish to suggest that during National Tourism Week we honor the millions of men, women, and teenagers who are the U.S. tourism industry.●

SHULTZ ASKS "MOST FAVORED SPENDING STATUS"

● Mr. HART. Mr. President, the administration incessantly decries Government spending, and suggests that all we need do to reduce the deficit is eliminate bloated bureaucracy. Yet, when it comes time to reduce spending, the first, loudest, and longest complaints are heard from the Secretaries of Defense and State, whose Departments have fared best among all agencies of Government these last 5 years.

This phenomenon—the demand for most favored spending status—was demonstrated again last week.

Secretary of State George Shultz demanded that foreign affairs funding be sharply increased, saying that a budget lower than that requested by the President would endanger Americans serving abroad. There are merits to the Secretary's argument; the tragic losses of military and foreign service personnel these past few years must not be allowed to happen again.

But Secretary Shultz is misdirecting his anger. By embracing Gramm-Rudman, this administration committed itself to a new budgetary regime: it can no longer campaign for national priorities without first finding the resources to pay for them. Yet, throughout the congressional budget process, which produced State Department funding levels the Secretary finds anathema, the administration stood on the sidelines: It refused to negotiate, refused to budge on revenues, and refused to find a middle ground on defense spending.

The distinguished chairman of the House Budget Committee, BILL GRAY, fashioned a Federal budget for 1987 that pleases few, but avoids the disastrous effects of across-the-board cuts otherwise required by Gramm-Rudman. The Secretary fails to recognize that his Department's budget fares better under the House or Senate-passed plans than under the Gramm-Rudman impoundment process.

As a recent editorial published by the Denver Post makes clear, Mr. Shultz should direct his appeals to the one man who can really make a difference: The President of the United States. I ask that this eloquent and forcefully written article be printed in the RECORD.

The article follows:

[From the Denver Post, May 14, 1986]

JUST BRING THE MONEY BY

Secretary of State George Shultz opened a fight with Congress last week over cuts in U.S. foreign aid and overseas security which have been tentatively approved in Congress. Shultz talked about "a tragedy for U.S. foreign policy and national security."

Shultz has received what seems to us to be exactly the right reply from Rep. William H. Gray III, chairman of the House Budget Committee and an occasional target of criticism from the Reagan White House on the subject of federal spending.

"You want more money, you tell your president to bring it by," Gray told Shultz, as the two men talked angrily about the fiscal state of affairs.

The Shultz blowup over the threatened State Department budget cuts illustrates what has been true of the blinded fiscal policies of the Reagan administration for too long now:

It is never the spending favored by the administration—always Pentagon appropriations and now State Department outlays—which can or should be reduced. It is always some other budget, usually in a domestic program.

The Reagan White House, while preaching thrift in government, has presided over spending policies that have doubled the total federal debt, which now is more than $2 trillion.

And as a former economics professor and a chief budget officer in the Nixon administration, Shultz knows that what Gray is saying is true. If the administration requires more overseas spending for important foreign aid and security programs, ". . . tell your president to bring it by." Whenever this administration asks for more money, it ought to say where it should come from.●

OUR GREATEST HERO OF THE 20TH CENTURY
